OVERSEAS REGULATORY ANNOUNCEMENT POWER GENERATION AND ON-GRID TARIFF FOR THE FIRST HALF OF YEAR 2025 AND COMMENCEMENT OF OPERATION OF POWER GENERATING UNITS

This announcement is made pursuant to Rule 13.10B of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

As at 30 June 2025, the total amount of power cumulatively generated by Huadian Power International Corporation Limited* (the "**Company**") and its subsidiaries (the "**Group**") calculated on the basis of the consolidated financial statements according to the China Accounting Standards for Business Enterprises for the first half of year 2025 was 120.62 million MWh, representing a decrease by approximately 6.41% compared with the retroactively adjusted data of the same period of the previous year; and the total amount of on-grid electricity sold was 113.29 million MWh, representing a decrease by approximately 6.46% compared with the retroactively adjusted data of the same period of the previous year. The decrease in the amount of power generated and on-grid electricity sold for the first half of year 2025 was mainly attributable to a loose supply and demand of electricity in partial regions of the Group, the continuous increase in installed capacity of new energy sources, and the decrease in utilization hours of the coal-fired units. Through preliminary accounting, The average tariff of on-grid electricity sold by the Group for the first half of year 2025 was approximately RMB517.12 per MWh, representing a decrease by approximately 1.37% compared with the retroactively adjusted data of the same period of the previous year.

The table below shows the amount of power generated and the on-grid electricity sold during the first half of year 2025 by each of the main generating units under operation of the Group currently:

Type	Name of power plant/company	Power generated from April to June 2025 (Million MWh)	On-grid electricity sold from April to June 2025 (Million MWh)	Power generated from January to June 2025 (Million MWh)	On-grid electricity sold from January to June 2025 (Million MWh)
