VOLUNTARY ANNOUNCEMENT

This announcement is made by Sisram Medical Ltd (the "**Company**") on a voluntary basis.

The Company is pleased to announce the introduction of PixelPeel™ (the "**Treatment**"), a gentle laser peel treatment designed to meet the rising demand for subtle, effective, and minimal-downtime skin renewal treatments, compatible with the new Alma Pixel™ and Alma Hybrid systems. The Treatment has debuted in North America, with plans for subsequent global expansion.

PixelPeel™ harnesses the gold standard in laser energy with pixel-level precision, powered by Alma's proprietary MotionSync™ technology. This ensures safe, uniform, and controlled exfoliation across the treatment area, visibly improving skin texture, tone, and clarity.

Suitable for both first-time patients and those seeking consistent skin health maintenance, PixelPeel™ delivers high-performance results without extended recovery time and is suitable for all skin types.

The Company believes PixelPeel™ offers a timely, modern solution for providers and patients seeking smarter, more convenient ways to care for their skin. By introducing the Treatment category compatible with Alma Pixel™ and Alma Hybrid, PixelPeel™ opens up an additional market segment for our existing systems and supports accelerated adoption and utilization of our devices.

Shareholders and investors are advised to exercise caution when dealing in the securities of the Company.

On behalf of the Board
