VOLUNTARY ANNOUNCEMENT – BUSINESS UPDATE

This announcement is made by Maiyue Technology Limited (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis.

The board of directors of the Company is pleased to announce that the Group recently participated in the 22nd China-ASEAN Expo (the "**Expo**") in Guangxi Zhuang Autonomous Region focusing on artificial intelligence ("**AI**") and efforts to advance the Free Trade Area 3.0. One of the Group's products, AI smart glasses with translation features, debuted at the opening ceremony of the Expo, assisting the Region leader to deliver a "scriptless speech".

The Group's independently developed language processing system has achieved three significant breakthroughs: context-adaptive technology based on natural language processing, which dynamically aligns with the speaker's logic to generate coherent content; a high-precision translation engine that ensures accurate rendering of professional terminology; and directional display technology that enables "one-way visibility" of information, adhering to stringent governmental data security standards.

The successful demonstration of the Group's innovative product during the opening ceremony of the Expo underscores the efficacy of the Group's forward-looking strategy in the AI sector. This prominent showcase not only highlights the robustness of our product portfolio but also reflects the confidence of governmental authorities and key industry stakeholders.

Looking ahead, the Group remains committed to reinforcing its leadership in the AI industry through sustained investment in research and development. By prioritizing the creation of cutting-edge AI solutions, the Group aims to accelerate technological innovation and drive commercialization efforts. These initiatives will further solidify the Group's role in advancing the Chinese AI industry toward global prominence.

This announcement is a voluntary announcement made by the Company to keep the shareholders and potential investors informed of the latest business development of the Group.

Shareholders and potential investors of the Company should exercise caution when dealing in the securities of the Company.

By Order of the Board
Maiyue Technology Limited
Li Changqing
Chairman

Nanning, the People's Republic of China, 17 September 2025
