# NOTES

*For the six months ended 30 September 2026*

## 1. BASIS OF PREPARATION AND GOING CONCERN ASSUMPTION

The interim condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 ("**HKAS 34**") "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") as well as the applicable disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

***Going concern basis***

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major lenders to meet its liquidity requirements in the short and longer term.

The Group recorded a net loss attributable to owners of the Company of approximately HK$3,321,000 and had positive cash flows of approximately HK$14,780,000 generated from the operating activities for the six months ended 30 September 2026. As at that date, the Group had net current liabilities of approximately HK$41,353,000, whereas its cash and cash equivalents maintained was approximately HK$17,899,000 only as at the same date. Besides, the Group also had amount due to a related company of approximately HK$30,898,000, amount due to a shareholder of approximately HK$20,213,000 and promissory notes of approximately HK$2,579,000, respectively, that were repayable within twelve months after the end of the reporting period.

In view of such circumstances, the directors of the Company have given careful consideration to the future liquidity, operating performance of the Group and its available sources of financing, and also have prepared a cash flow forecast covering a period of not less than twelve months from the end of the reporting period. The directors of the Company are of the opinion that the cash flow generated from operating activities and certain appropriate financing activities of the Group will be able to continue meeting the funding needs of operations and repay the outstanding interest bearing borrowings and accordingly it is appropriate to prepare the Group's condensed consolidated financial statements on a going concern basis. In order to improve the Group's financial position and liquidity, the directors of the Company have been implementing various measures as follows:

***(i) Obtaining source of finance to improve working capital requirements***

In October 2026, the Group renewed the loan facility from a related company, with an aggregate facility amount of RMB20,000,000, and its maturity is on 21 October 2027. Hence, the related amount due to a related company of approximately HK$770,000 matures on 21 October 2027, more than twelve months after the end of the reporting period, under a renewal agreed in October 2026.

As at 30 September 2026 and the date of issuance of the interim results announcement, the total unutilised and available facilities amounted to HK$41,864,000 and HK$41,581,000, respectively. These comprise unutilised facilities from a related company of approximately HK$17,494,000, with an existing maturity date of 2 July 2027 and HK$22,573,000 with renewed maturity date of 21 October 2027, and an unutilised facility from a shareholder of approximately HK$1,797,000, with maturity date of 30 April 2027. In respect of this, the directors of the Company are of the opinion that the unutilised and available facilities, together with positive cash operating inflows, will be sufficient to cope with and meet the Group's financial obligations due within the next twelve months from the end of the reporting period. Additionally, the directors of the Company are monitoring closely the financial position of the Group, and will consider negotiating on renewal of the existing facility of RMB40,000,000 offered by a related company and the facilities of HK$18,000,000 offered by the shareholder that will mature on 2 July 2027 and 30 April 2027, respectively. Subsequent to the end of the reporting period, the Group has obtained letters from a related company and a shareholder undertaking that they will not demand the Group to repay any outstanding amounts within the next twelve months from 30 September 2026 and from date of issuance of the interim condensed consolidated financial statements.

In addition, the Group is also negotiating and obtaining new loan facilities and other sources of finance when necessary.

***(ii) Implementation of active cost-saving measures***

The Group continues to take active measures to control administrative costs through various channels to improve operating cash flows and its financial position.

The directors of the Company have carried out detailed review on the Group's cash flow projections prepared by management. The cash flow projections cover a period of not less than twelve months from the end of the reporting period. In preparing the cash flow forecast, the directors have considered historical cash requirements of the Group as well as other key factors, including the availability of the loan finance which may impact the operations of the Group during the next twelve-month period. They are of the opinion that, taking into account the above-mentioned plans and measures, the Group would have sufficient working capital to finance its operations and to meet its financial obligations as and when they fall due within the next twelve months from the end of the reporting period. The directors of the Company are satisfied that it is appropriate to prepare the interim condensed consolidated financial statements on a going concern basis.

## 2. MATERIAL ACCOUNTING POLICY INFORMATION

The interim condensed consolidated financial statements have been prepared on the historical cost basis.

The accounting policies and methods of computation used in the interim condensed consolidated financial statements for the six months ended 30 September 2026 are the same as those presented in the Group's annual consolidated financial statements for the year ended 31 March 2026.

The interim condensed consolidated financial statements do not include all of the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 March 2026.

***Application of amendments to HKFRS Accounting Standards***

In the current interim period, the Group has applied the following amendments to HKFRS Accounting Standards issued by the HKICPA, for the first time, which are mandatorily effective for the Group's annual period beginning on 1 April 2026 for the preparation of the Group's interim condensed consolidated financial statements:

| | |
|---|---|
| Amendments to HKFRS 9 and HKFRS 7 | Amendments to the Classification and Measurement of Financial Instruments |
| Amendments to HKFRS 9 and HKFRS 7 | Contracts Referencing Nature-dependent Electricity |
| Amendments to HKFRS Accounting Standards | Annual Improvements to HKFRS Accounting Standards – Volume 11 |

The application of the amendments to HKFRS Accounting Standards in the current interim period has had no material impact on the Group's financial position and performance for the current and prior periods and/or on the disclosures set out in these interim condensed consolidated financial statements.

## 3. REVENUE AND SEGMENT INFORMATION

Under the two-tiered profits tax rates regime of Hong Kong Profits Tax, the first HK$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%. Accordingly, the Hong Kong Profits Tax of the qualifying group entity is calculated at 8.25% on the first HK$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK$2 million.

Pursuant to the approval of the tax bureau, in accordance with the Enterprise Income Tax Law of PRC (the "**EIT Law**") and the Implementation Regulation of the EIT Law, one (six months ended 30 September 2025: two) subsidiary is subject to the tax rate of 20% on 25% (six months ended 30 September 2025: 20% on 25%) of assessable profits, which assessable profits under RMB3,000,000 (six months ended 30 September 2025: RMB3,000,000), for Small Low-Profit Enterprises. Other subsidiaries located in the PRC are subject to the PRC Enterprise Income Tax at a rate of 25% (six months ended 30 September 2025: 25%) on their assessable profits.

The standard corporate tax rate in Singapore is 17% and Singapore follows a single-tier corporate tax system.

## 6. LOSS FOR THE PERIOD

Loss for the period has been arrived at after charging/(crediting):

| | Six months ended 30 September | |

## 7. DIVIDENDS

No dividends were paid, declared or proposed for ordinary shareholders of the Company during the six months ended 30 September 2026, nor has any dividend been proposed since the end of the reporting period (six months ended 30 September 2025: nil).

## 8. LOSS PER SHARE

| | Six months ended 30 September | |
|---|---|---|
| | **2026** | 2025 |
| | **(Unaudited)** | (Unaudited) |
| **Loss:** | | |
| Loss for the period attributable to owners of the Company for the purpose of basic and diluted loss per share *(HK$'000)* | **(3,321)** | (3,962) |
| **Number of shares:** | | |
| Weighted average number of ordinary shares in issue for the purpose of basic and diluted loss per share *(in thousands)* | **606,803** | 606,803 |

The basic and diluted loss per share is calculated based on the loss attributable to owners of the Company and the weighted average number of ordinary shares in issue for the six months ended 30 September 2026 and 2025.

The computation of diluted loss per share does not assume the exercise of the Company's share options because the exercise price of those share options was higher than the average market price of shares for the six months ended 30 September 2026 and 2025.

## 9. PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 September 2026, the Group acquired property, plant and equipment with a cost of approximately HK$10,178,000 (six months ended 30 September 2025: HK$11,298,000) and disposed of property, plant and equipment with an aggregate carrying amount of approximately HK$7,338,000 (six months ended 30 September 2025: HK$11,626,000).

During the six months ended 30 September 2026, additions to right-of-use assets were approximately HK$749,000 (six months ended 30 September 2025: HK$480,000).

| 61 to 90 days | **577** | 700 |
| Over 90 days | **714** | 518 |
| | **8,258** | 8,504 |

The credit terms of the trade receivables for debt collection and credit investigation services ranged from 0 to 60 days from the date of billing.

The Group normally grants credit terms to its customers according to industry practice together with consideration of their creditability and repayment history. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are regularly reviewed by senior management.

For leasing services, the customers are obliged to settle the amounts according to the terms set out in relevant contracts and, normally, no credit period was granted to customers.

As at 30 September 2026, included in the Group's trade receivables balance are debtors with aggregate carrying amount of HK$1,625,000 (31 March 2026: HK$1,619,000) which are past due as at the reporting date. Out of the past due balances, HK$714,000 (31 March 2026: HK$518,000) has been past due 90 days or more and is not considered as in default.

Movement of the provision for impairment losses on trade receivables is as follows:

## BUSINESS OVERVIEW

During the Reporting Period, the Group continued the implementation of its business strategies to (i) enhance synergies across multiple platforms within our ecosystem in order to further develop the Group's leasing business; (ii) diversify the Group's business risks through the granting of loans in smaller loan size with more liquid lease assets; and (iii) diversify geographical risk through the expansion of its operating locations; which in turn will provide sustainable sources of revenue to the Group while diversifying the Group's business risks, enhancing its financial performance and creating value for the shareholders of the Company (the "**Shareholders**") .

The Group is principally engaged in the provision of (1) leasing services in the People's Republic of China (the "**PRC**") and (2) value-added services including due diligence, credit assessment, investigation and debt collection services in Hong Kong, the PRC and Singapore.

**Leasing services**

The Group conducts its leasing services in various cities across the PRC covering cities of Huzhou, Jiaxing, Ningbo, Shenzhen, Wenzhou, Jinhua and Hangzhou. The Group as the lessor generates lease income by delivery of leased assets to its lessees who make periodic lease payments to the Group.

**Credit investigation and debt collection services**

To further strengthen the Group's leasing operations, we have complemented our leasing operations with value-added services including due diligence, credit assessment, investigation and debt recovery services. Often, business and credit risks are caused by asymmetry and discrepancies of information, hence, credit investigation and debt recovery would serve as the front end and back end in any business transactions. Leveraging on the Group's expertise in credit assessment and investigation, the Group has access to the latest information such as credit status, financial information and social credit ratings of potential leasing customers. Due diligence and credit investigation services are performed through established networks, databases and credit assessment system using big data analytics which in turn generate and provide credit reports, scoring results and recommendations to clients as well as the Group prior to entering into any potential business transactions. This information is used to assist the process of customer selection, as well as the selection of transaction models and determining transaction conditions.

Debt collection services are provided for past due commercial accounts receivables ranging from 3 to 12 months, this is a non-litigation service that enables creditors to recover past due accounts receivables through mediation and dispute resolution, rather than going through the lengthy process of litigation resulting in further commitments on legal costs and risk of additional non-recoverable debts. Credit assessment, investigation and debt collection services are both part of an integral value-added service enabling the Group to further develop our leasing business.

## FINANCIAL REVIEW

The following discussion and analysis pertain to the financial information of the Group.

### Revenue

During the Reporting Period, the Group recorded revenue of approximately HK$50.0 million, representing an increase of approximately 11.3% from approximately HK$44.9 million recorded in the previous corresponding period ended 30 September 2025. The increase in revenue was due to the increase in income from debt collection services, which was affected by factors such as the recoverability of the debtors entrusted by the customers and the timeline of repayments. To complement the development of the Group's leasing service, the Group provides value-added services including due diligence, credit assessment, investigation and debt recovery services, so as to further strengthen the Group's leasing operations by creating an ecosystem which in turn contributed approximately HK$34.0 million to the Group's revenue during the Reporting Period. Services fees for due diligence and credit investigation services are charged based on the agreed upon scope covering the number of search targets, search period and the complexity of obtaining the relevant search information. Debt collection services are provided to clients with past due commercial accounts receivables. Substantially all revenue derived from the provision of debt collection services are recognised upon successful recovery of past due receivables.

### Staff costs

Staff costs of the Group amounted to approximately HK$15.8 million for the Reporting Period, representing an increase of approximately 25.1% from approximately HK$12.7 million recorded in the previous corresponding period ended 30 September 2025. This was mainly due to the increase in the business performance related bonus attributed to the business of debt collection services during the Reporting Period.

### Other operating expenses

During the Reporting Period, other operating expenses of the Group amounted to approximately HK$8.2 million, representing an increase of approximately 11.0% from approximately HK$7.4 million recorded in the previous corresponding period ended 30 September 2025.

### Provision of impairment losses and expected credit losses

Provision of impairment losses and expected credit losses are approximately HK$576,000 for the Reporting Period, as compared to the previous corresponding period ended 30 September 2025, provision of impairment losses and expected credit losses amounted to approximately HK$34,000. This was mainly due to changes in recoverability of certain receivables arising from debt collection and credit investigation services.

**Other income**

Other income of the Group mainly comprised of bank interest income and government subsidies. During the Reporting Period, the other income of the Group amounted to approximately HK$97,000, representing a decrease of approximately 26.0% from approximately HK$131,000 recorded in the previous corresponding period ended 30 September 2025. Such decrease was mainly due to the decrease in government subsidies in current period.

**Finance costs**

Finance costs of the Group comprised of interest on bank borrowings, imputed interest on promissory notes, interest on lease liabilities, interest on amount due to a related company and interest on amount due to a shareholder. During the Reporting Period, finance costs of the Group amounted to approximately HK$1.6 million, representing an increase of approximately 30.7% from approximately HK$1.2 million in the previous corresponding period ended 30 September 2025. This was mainly due to the increase in the Group's borrowings and financing activities.

**Loss for the period**

As a result of the foregoing discussion and analysis under the section headed "Financial Review", loss for the period of the Group amounted to approximately HK$0.8 million for the Reporting Period, as compared to last period amounted to approximately HK$0.7 million.

**Interim dividend**

The Board does not recommend the payment of any interim dividend for the six months ended 30 September 2026 (six months ended 30 September 2025: nil).

## Liquidity, financial resources and capital resources

As at 30 September 2026, the aggregate sum of the Group's cash and cash equivalents amounted to approximately HK$17.9 million (31 March 2026: approximately HK$10.3 million), representing an increase of approximately HK$7.6 million compared to 31 March 2026. This was due to a combination of multiple effects including the Group's conservative strategy to promote business, collection of past due financial assets and use of internal funding. The working capital deficiency (current assets less current liabilities) of the Group was approximately HK$41.4 million as at 30 September 2026 (31 March 2026: working capital deficiency approximately HK$34.5 million). The total equity of the Group was approximately HK$14.0 million as at 30 September 2026 (31 March 2026: approximately HK$13.7 million).

As at 30 September 2026, the Group's bank borrowings with maturity within one year amounted to nil (31 March 2026: nil) and the Group's bank borrowings with maturity that exceeded one year amounted to nil (31 March 2026: nil).

Our gearing ratio (total debt/total equity) as at 30 September 2026 was approximately 390% (31 March 2026: approximately 387%).

## Charges on group assets

## Employees and remuneration policy

As at 30 September 2026, the Group had 123 staff located in Hong Kong, the PRC and Singapore, and their remuneration is determined based on the employees' performance, experience and prevailing industry practices. The Group also offers other benefits such as medical insurance, retirement schemes and training subsidies to our employees. In addition, the Group has set up a share option scheme and share award scheme for the purpose of providing incentives to, among others, the eligible employees.

In Hong Kong, we participate in a Mandatory Provident Fund Scheme (the "**MPF Scheme**") established under the Mandatory Provident Fund Schemes Ordinance (Cap 485 of the Laws of Hong Kong). The assets of the MPF Scheme are held separately from those of the Group and administered by an independent trustee. Under the MPF Scheme, the Group and its employees are each required to make a contribution to the MPF Scheme at 5% of the employees' relevant monthly income subject to a cap, which is currently set at HK$1,500.

PRC employees are covered by the mandatory social security schemes operated by the PRC government. The Group is required by the PRC laws to contribute a certain percentage of payroll costs to the retirement benefits scheme to fund the benefits. There were no forfeited contributions utilised to offset employers' contributions for the Reporting Period.

Singapore employees are covered by the mandatory social security savings scheme funded by contributions from employers and employees, the Central Provident Fund. The Group and its employees are each required to contribute a certain percentage of payroll costs to fund the mandatory social security savings schemes. There were no forfeited contributions utilized to offset employers' contributions for the Reporting Period.

## RISK FACTORS AND MANAGEMENT

### Credit risk of small medium enterprises ("SMEs") in the PRC

Our business is positioned to fulfill the financing needs of SMEs and individuals, the sustainability of our business and future growth depend on our ability to manage our credit risk effectively. The Group is committed to mitigating its risk exposures and diversification of business risks through liquid and smaller loan size. As such, any deterioration in our asset quality or collectability of our receivables could adversely affect our business, prospects and financial conditions. Due to the continuation of slowing economic pressure arose from external environment uncertainties and business disruption due to the effects of the novel coronavirus, the recovery of economic environment being less than ideal, it is inevitable for some corporations to be faced with a greater risk of default, especially the SMEs. As most SMEs customers in general have less financial resources in terms of capital or fund raising capability when compared to larger corporations, and as such they are more likely to be adversely affected by changes in market conditions, which poses an increasing risk of default to our Group. Our management has been monitoring the changes of our customers' credit risk, and we had, in fact, in some cases requested additional collaterals and pledged assets from customers as a form of additional precautionary measures. We will continue to closely monitor the value of the related leased assets and the collaterals securing our leases in order to take effective additional precautionary measures to minimize our risk of exposure to such credit risks.

### Risk relating to funding sources and interest rate

Our Group's business operation primarily relates to the interest-bearing borrowings. We have incurred, and expect to continue to incur, a significant amount of interest expenses relating to our borrowings. Accordingly, fluctuations in interest rates have affected and will continue to directly and immediately affect our financing costs and, ultimately, our profitability and results of operations. However, our management will continue to closely monitor the changes in interest rate and in turn charge our clients by the same amount in order to minimize our risk of exposure to such interest rate risks.

### Foreign exchange risk

Our Group is exposed to foreign currency risk primarily with respect to Renminbi ("**RMB**"), Singapore dollars and United States Dollars denominated transactions, fluctuations in exchange rates may nonetheless in the future adversely affect the value of our net assets and earnings. In particular, distributions to holders of the shares of the Company are made in Hong Kong dollars. The Group currently does not have a foreign exchange hedging policy to eliminate the currency exposures. However, our management will continue to monitor the related foreign currency exposure closely and will consider appropriate measures should the need arise.

**Liquidity risk**

The Group is exposed to liquidity risk in respect of settlement of trade payables, other payables and accrued charges and borrowings and its financing obligations, and also in respect of its cash flow management. The Group's policy is to regularly monitor its liquidity requirements to ensure the Group maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

## CONTINGENT LIABILITIES

As at 30 September 2026, the Group did not have any material contingent liabilities (31 March 2026: nil).

## FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

The Group from time to time is exploring investment opportunities that would benefit the Shareholders as a whole. Save as disclosed in this announcement, the Group did not have other future plans for material acquisition or disposals by the Group during the Reporting Period and up to the date of this announcement.

## EVENTS AFTER THE PERIOD UNDER REVIEW

The Group had no material subsequent events after the period under review.

## BUSINESS REVIEW AND PROSPECTS

Over the past few years, the Group remains committed to continue the expansion of its leasing network in PRC as well as mitigating business risks exposures. With the expansion of leasing services, the integration of unique value-added services and the organization of resources, the Group has evolved from a single financial service company into an integrated financial services provider in the PRC with value-added services in Hong Kong and Southeast Asia so as to facilitate the Group's development and to maintain competitiveness within the industry.

Going forward, the Group is likely to face many challenges due to the continuous unfavourable economic and political conditions. Despite these uncertainties, the Group strives to overcome these difficulties with unified efforts to achieve steady growth and to continue business development through the diversification of income sources and associated business risks. The Group is working closely to further expand its financing business in regions across the Greater Bay Area. The Group will proactively integrate into the multiple platforms across its ecosystem, thereby expanding our scope of development and generating new impetus for growth to bring new development opportunities to different sectors of the Group. The Group will make further efforts to expand its leasing services in other locations in order to enhance synergies across multiple platforms within our ecosystem, strengthen cooperation, further enrich various financial services, while mitigate and diversify business risk in order to achieve sustainable source of revenue. The Group firmly believes that leasing and other financial services has significant potential in serving the economy, thus contributing sustainable revenue to the Group.

## CORPORATE GOVERNANCE

The Group is committed to promote good corporate governance and has set up procedures on corporate governance that comply with the principles in the Corporate Governance Code (the "**CG Code**") as set out in Appendix C1 to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited ("**Listing Rules**"). During the Reporting Period, except as disclosed in this announcement, the Company had complied with all code provisions in the CG Code and had adopted most of the recommended best practices set out in the CG Code except for the following:

As at the date of this announcement, the Company does not have a chairman to discharge the duties as required under CG Code C2.2 to C2.9. The daily operation and management of the Company are monitored by the executive Director as well as the senior management of the Company. The Board is of the view that although there is no chairman, the balance of power and authority is ensured by the operation of the Board, which comprises experienced individuals who would meet from time to time to discuss issues affecting the operation of the Company and the Group. This arrangement can still enable the Company to make and implement decisions promptly, and thus achieve the Company's objectives efficiently and effectively in response to the changing environment. The Company will, at the appropriate time, arrange for the election of a chairman.

## BOARD DIVERSITY POLICY
