NOTES

1. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 ("**HKAS**") "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") as well as with the applicable disclosure requirements of the Rules Governing the Listing of Securities (the "**Listing Rules**") on The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**").

2. PRINCIPAL ACCOUNTING POLICIES

The unaudited condensed consolidated financial statements have been prepared on the historical cost basis.

Other than change in accounting policies resulting from application of amendments to HKFRS Accounting Standards, the accounting policies and methods of computation used in the unaudited condensed consolidated financial statements for the six months ended 30 September 2026 are the same as those presented in the Group's audited consolidated financial statements for the year ended 31 March 2026.

Application of amendments to HKFRS Accounting Standards

In the current interim period, the Group has applied the following amendments to HKFRS Accounting Standards issued by the HKICPA, for the first time, which are mandatorily effective for the Group's annual period beginning on 1 April 2026 for the preparation of the Group's unaudited condensed consolidated financial statements:

Amendments to HKFRS 9 and HKFRS 7	Amendments to the Classification and Measurement of Financial Instruments
Amendments to HKFRS 9 and HKFRS 7	Contracts Referencing Nature-dependent Electricity
Amendments to HKFRS Accounting Standards	Annual Improvements to HKFRS Accounting Standards – Volume 11

The application of the amendments to HKFRS Accounting Standards in the current interim period has had no material impact on the Group's financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

4. SEGMENT INFORMATION

The Group's operating segment is determined based on information reported to the executive directors, being the chief operating decision makers ("**CODM**"), for the purpose of resource allocation and assessment of segment performance.

The Group's reportable and operating segments under HKFRS 8 are as follows:

(a) the brokerage services segment comprises the provision of brokerage services in securities traded in Hong Kong and overseas markets;

(b) the margin financing services segment comprises the provision of financing services to margin and cash clients;

(c) the placing and underwriting services segment comprises the provision of underwriting, sub-underwriting and placing services; and

(d) the asset management services segment comprises the provision of investment management services.

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3 to the Group's annual financial statements for the year ended 31 March 2026. Segment profit/(loss) represents the profit or loss earned by each segment without allocation of other income, other gains, unallocated staff costs, unallocated finance costs, depreciation and unallocated other operating expenses. No inter-segment revenues are charged among segments.

However, the Group does not have a currently enforceable right to offset these payables with the deposits placed.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY REVIEW

During the first half of the financial year ending 31 March 2027, the global economy sustained a modest recovery with continued uncertainties. Artificial intelligence (AI) continues to be the new driver of market sentiment, the recent rapid developments of technology sector including AI and semiconductor industries have attracted capital inflows into the market from investors. However, the Russo-Ukrainian conflict which intensified in early 2022 was yet to be resolved and coupled with continued conflict in Middle East during the current financial year continued to pose a negative impact on the global supply chains.

Moreover, the US Federal Reserve re-commenced the increasing of the interest rate in September 2026, which has further dampened the investor confidence in the financial market.

According to the monthly market highlights provided by the Stock Exchange, average daily turnover for the securities market for the first three quarters of 2026 was HK$272.9 billion, representing an increase of approximately 6% as compared to corresponding period in 2025. The total funds raised in the securities market in Hong Kong for the first three quarters of 2026 was HK$724.0 billion, representing an increase of approximately 60% as compared with corresponding period in 2025.

BUSINESS REVIEW

Since over two decades, the Group has been providing comprehensive financial services in Hong Kong, including (i) securities trading services including brokerage services and margin financing services; (ii) placing and underwriting services; and (iii) asset management services. During the six months ended 30 September 2026 (the "**Reporting Period**"), the Group's revenue was approximately HK$19.5 million, representing an increase of approximately 15.0% in total revenue as compared with the corresponding period in 2025.

Securities Trading Services

Brokerage Services

The Group provides securities dealing and brokerage services and ancillary services to clients who maintain a trading account. Commission income from the Group's securities brokerage business and handling and other fee income for the Reporting Period increased by approximately 5.5% to approximately HK$6.0 million as compared with that of the six months ended 30 September 2025 (the six months ended 30 September 2025: approximately HK$5.7 million) and accounted for approximately 30.8% (the six months ended 30 September 2025: 33.5%) of the total revenue. The increase in revenue from brokerage services was attributable to the increased commission income received from the Group's clients and the increase in their trading turnover during the Reporting Period which is in line with the market trends. Also, the Group recorded an increase in handling and other fee income attributable to the increase in IPO subscriptions from the Group's clients due to the continuous improvement in the IPO market sentiment during the Reporting Period. The segment profit from brokerage services increased by approximately 23.7% to approximately HK$4.6 million as compared with the corresponding period of 2025 (the six months ended 30 September 2025: approximately HK$3.7 million) which is in line with the increase in trading turnover and volume of IPO subscriptions during the Reporting Period.

Margin Financing Services

The Group provides financing services to facilitate its clients' purchase of securities on a margin basis in the secondary market and subscription to IPOs. Interest income from margin financing provided by the Group for the Reporting Period increased by approximately 20.3% to approximately HK$13.3 million as compared with that of the six months ended 30 September 2025 (the six months ended 30 September 2025: approximately HK$11.1 million) and accounted for approximately 68.1% (the six months ended 30 September 2025: approximately 65.1%) of the total revenue. The increase in interest income from margin financing was mainly due to an increase in the demand for margin financing services in average during the Reporting Period. The segment profit from margin financing services increased by approximately 31.1% to approximately HK$10.1 million as compared with the corresponding period of 2025 (the six months ended 30 September 2025: approximately HK$7.7 million) as the Group recorded a continued rebound in demand in average for the Group's margin financing services and the allowance for impairment loss recognised under the expected credit loss model for accounts receivable arising from the business of dealing in securities decreased by approximately 9.7% to approximately HK$2.9 million (the six months ended 30 September 2025: approximately HK$3.2 million) during the Reporting Period. To recover accounts receivable arising from the business of dealing in securities with impairment loss, the Group has taken various actions, including restructuring arrangements, issuing demand letters and commencing legal proceedings action against the borrowers.

As at 30 September 2026, the Group had 619 (30 September 2025: 630) active securities accounts as reported pursuant to Securities and Futures Ordinance.

Placing and Underwriting Services

The Group provides placing and underwriting services by acting as (i) bookrunner, lead manager or underwriter of listing applicants in IPOs; (ii) placing agent of listed companies in connection with their issuance or sale of equity or debt securities; and (iii) manager for issue of bonds by listed or unlisted corporations, in return for placing and/or underwriting commission income. The commissions from placing and underwriting engagements vary on a case-by-case basis, as they are charged either based on pre-determined fixed fee or a fee calculated as a percentage of the total price of securities underwritten. Commission income from the Group's placing and underwriting services for the Reporting Period decreased by approximately 5.2% to approximately HK$0.2 million as compared with that of the six months ended 30 September 2025 (the six months ended 30 September 2025: approximately HK$0.2 million) and accounted for approximately 1.1% (the six months ended 30 September 2025: approximately 1.4%) of the total revenue.

The Group engaged in different placing and underwriting exercises and successfully completed 1 project during the Reporting Period (the six months ended 30 September 2025: 1 project). The lack of fund raising exercises from small and mid-sized issuers in the market, especially when there was only one new listing on GEM of the Stock Exchange during the Reporting Period led to the decrease in placing and underwriting services income. The segment result from placing and underwriting services recorded a loss of approximately HK$0.2 million (the six months ended 30 September 2025: loss of approximately HK$0.5 million), which was mainly due to decreased staff costs during the Reporting Period.

Asset Management Services

During the Reporting Period, the revenue of asset management services was approximately HK$3,000 (the six months ended 30 September 2025: approximately HK$3,000) and the segment loss was approximately HK$93,000 (the six months ended 30 September 2025: approximately HK$87,000). The expansion of asset management services segment has met with difficulties under the current high level of interest rate and prolonged uncertain economic outlook.

OUTLOOK AND PROSPECTS

The Group believes that the Hong Kong financial services industry with its strong history and foundation, sound reputation, supportive policies from the government and outstanding industry professionals, would remain in a top position worldwide.

As stated in the business update announcement of the Company dated 18 March 2026, the Securities and Futures Commission of Hong Kong has approved the application of Sinomax Securities Limited ("**Sinomax**"), an indirect wholly-owned subsidiary of the Company, on 25 July 2025 to provide virtual assets dealing and/or advisory services as an intermediary under its license for Type 1 (dealing in securities) regulated activity under the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

In view of the rapid development of virtual assets globally and the supportive stance of the Government of Hong Kong in recent years, the Group is of the view that, the expansion of Sinomax's business into the virtual assets-related services is in line with the Company's strategy to provide more diversified products scope and range of services to the Group's clients. It will also create opportunities for the Group to generate synergies among its various business lines, thereby expanding its current source of revenue and exploring new revenue streams for the Group.

However, the restart of increase in interest rates induced by the US Fed have dampened the confidence in the financial market and imposed a new uncertainty, as a result, investors have become more cautious toward investing in the stock market.

The Group will leverage the knowledge and experience of its management team to seize opportunities as they arise by widening its products scope, range of services, co-operation with other brokers and expanding its clients' base. In response to the opportunities in the market, the Group will remain prudent towards external factors arising from the global and local economic situation and enhance its strengths to consolidate the Group's position in the industry.

The Group will continue to control its operating costs over the prolonged uncertain economic outlook to improve the cost effectiveness and profitability of the Group by utilising financial resources effectively.

FINANCIAL REVIEW

Revenue

During the Reporting Period, the Group recorded a revenue of approximately HK$19.5 million (the six months ended 30 September 2025: approximately HK$17.0 million), representing an increase of approximately 15.0% compared with that of the six months ended 30 September 2025. The overall increase was mainly due to increase in interest income from margin financing business during the Reporting Period.

Other Operating Expenses

For the Reporting Period, the other operating expenses decreased by approximately 5.2% to approximately HK$3.1 million as compared with the six months ended 30 September 2025 (the six months ended 30 September 2025: approximately HK$3.3 million). The decrease was mainly due to less information services expenses incurred during the Reporting Period.

Net Profit

For the Reporting Period, the Group's net profit was approximately HK$6.3 million, representing an increase of approximately 1.8% compared with approximately HK$6.2 million from the six months ended 30 September 2025. Such increase was mainly due to increase in interest income from margin financing services as the demand for the Group's margin financing services increase in average as compared with the six months ended 30 September 2025.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The Group maintained a strong liquidity position with bank deposits, and financed its operations by cash mainly generated from operations. As at 30 September 2026, the Group had total bank balances for general accounts and cash of approximately HK$135.6 million (as at 31 March 2026: approximately HK$97.9 million). As at 30 September 2026, the Group had net current assets of approximately HK$371.1 million, representing an increase of approximately HK$7.7 million as compared with that of approximately HK$363.4 million as at 31 March 2026. The financial position of the Group remained stable during the Reporting Period.

The Group's gearing ratio was nil as at 30 September 2026 (as at 31 March 2026: 0.13).

Gearing ratio is calculated based on total debts which represent bank borrowings only, divided by net assets as at the end of the Reporting Period.

Borrowings

As at 30 September 2026, the Group had nil bank borrowings (as at 31 March 2026, the Group had bank borrowings of HK$49.6 million. The bank borrowings are repayable within 1 week or on demand. The effective interest rates for bank borrowings are floating rates ranging from 3.82% to 7.00% per annum).

Pledge of Assets

As at 30 September 2026, the Group did not have any pledged assets (as at 31 March 2026: Nil).

Foreign Currency Exposure

As the Group only operates in Hong Kong and the majority of the revenue and transactions arising from its operations were settled in Hong Kong dollar, the Directors are of the view that the Group's foreign exchange rate risks are insignificant. Thus, the Group has not entered into any derivative contracts to hedge against the foreign exchange rate risk for the Reporting Period.

Capital Commitments and Contingent Liabilities

As at 30 September 2026, the Group did not have any significant capital commitments or contingent liabilities (as at 31 March 2026: Nil).

Employees and Remuneration Policies

As at 30 September 2026, the Group employed 15 staff (as at 31 March 2026: 15). The employees' remuneration was determined based on factors such as qualification, duty, contributions and years of experience. Staff costs primarily consist of fees, salaries, discretionary bonus and other benefits as well as contributions to the mandatory provident fund for the Directors and employees of the Group. Staff costs are approximately HK$6.0 million during the Reporting Period (the six months ended 30 September 2025: approximately HK$5.6 million).

Material Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures

During the Reporting Period, the Group did not have any material acquisitions and disposals of subsidiaries, associates or joint ventures.

Significant Investments Held by the Group

As at 30 September 2026, the Group did not make any significant investments (as at 31 March 2026: Nil).

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

Save as disclosed under the section headed "Future Plans and Use of Proceeds" in the prospectus of the Company dated 31 January 2020 (the "**Prospectus**"), the Group did not have other future plans for material investments or capital assets as at the date of this interim results announcement.

USE OF PROCEEDS

The net proceeds from the listing of the Company's shares on the Main Board of the Stock Exchange received by the Group, after deducting related expenses, were approximately HK$90.6 million. These net proceeds are intended to be applied in accordance with the proposed application set out in the section headed "Future Plans and Use of Proceeds" in the Prospectus. Such uses include: (i) expansion of placing and underwriting business; (ii) funding for margin financing business; (iii) establishment and renovation of a new office; (iv) expansion of workforce; (v) enhancement of IT systems; (vi) promotion and marketing; and (vii) working capital.

As at 30 September 2026, the unutilised net proceeds were placed with a licensed bank in Hong Kong.

In light of the prolonged uncertain economic outlook, the Group has adopted a conservative but flexible approach for utilising the proceeds effectively and efficiently for the long-term development of the Group. The Group has kept the expansion and development plans on hold during the Reporting Period, and planned to resume when the global economic environment is stabilised.

The Directors regularly evaluate the Group's business objective and may change or modify plans against the changing market condition to ascertain the business growth of the Group. During the Reporting Period, the Directors considered that no modification of the use of proceeds described in the Prospectus was required.

INTERIM DIVIDENDS

The Board does not recommend the declaration of interim dividend for the Reporting Period (the six months ended 30 September 2025: Nil).
