REVISION OF ANNUAL CAPS FOR CONTINUING CONNECTED TRANSACTIONS

THE CCT SUPPLEMENTAL AGREEMENTS

On October 23, 2025, the Company entered into the CCT Supplemental Agreements to revise the existing annual caps under the CCT Agreements. Save for the revision of the existing annual caps, all other terms and conditions under the CCT Agreements remain the same.

LISTING RULES IMPLICATIONS

As of the date of this announcement, SinoHytec Hydrogen Energy is owned as to 72.22% and 24.56% by the Company and Tonglan Technology, respectively. Ms. Song Haiying and Ms. Dai Dongzhe, the executive Directors are the general partners of Tonglan Technology. SinoHytec Hydrogen Energy is thus a connected subsidiary of the Company and a connected person of the Company pursuant to the Listing Rules. Accordingly, the transactions contemplated under the CCT Supplemental Agreements constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules. Pursuant to Rule 14A.54 of the Listing Rules, if the Company intends to revise annual caps for continuing connected transactions, the Company will be required to re-comply with relevant provisions of Chapter 14A of the Listing Rules in respect of the relevant continuing connected transactions.

As the applicable percentage ratios in respect of the annual caps for each of the Sale of Goods Supplemental Agreement and the Technological Services Supplemental Agreement are more than 0.1% but less than 5%, the transactions contemplated under the CCT Supplemental Agreements are subject to the annual reporting, annual review and announcement requirements, but are exempt from the independent Shareholders' approval requirement under Chapter 14A of the Listing Rules.

GENERAL

Ms. Song Haiying and Ms. Dai Dongzhe, being executive Directors and the general partners of Tonglan Technology, and Mr. Zhang Guoqiang, the chairman of the Board and a director of SinoHytec Hydrogen Energy, are interested in the CCT Supplemental Agreements and the transactions contemplated thereunder. Therefore, Ms. Song Haiying, Ms. Dai Dongzhe and Mr. Zhang Guoqiang abstained from voting on the Board resolutions in respect of the CCT Supplemental Agreements and the respective annual caps. Save for Ms. Song Haiying, Ms. Dai Dongzhe and Mr. Zhang Guoqiang, no other Director is required to abstain from voting on the Board resolutions to consider and approve the CCT Supplemental Agreements and the transactions contemplated thereunder.

REVISION OF ANNUAL CAPS FOR CONTINUING CONNECTED TRANSACTIONS

Reference is made to the Company's announcement dated October 30, 2024 in relation to, among others, the CCT Agreements.

On October 23, 2025, the Company entered into the CCT Supplemental Agreements to revise the existing annual caps under the CCT Agreements. Save for the revision of the existing annual caps, all other terms and conditions under the CCT Agreement remain the same. For details of the CCT Agreements, please refer to the announcement of the Company dated October 30, 2024.

THE CCT SUPPLEMENTAL AGREEMENTS

Details of each of the CCT Supplemental Agreements and their corresponding annual caps are set out below:

(A) The Sale of Goods Supplemental Agreement

Date : October 23, 2025

Parties : The Company, as supplier; and

SinoHytec Hydrogen Energy, as purchaser

New Annual Cap : The existing annual caps under the Sale of Goods Agreement are revised as follows:

Unit: RMB 0'000

	For the year ended December 31, 2024	For the year ending December 31, 2025	For the year ending December 31, 2026
Existing annual cap	700	500	500
New annual cap	700	1,800	1,800

Save for the revision of the annual caps, all other terms and conditions under the Sale of Goods Agreement remain the same.

Historical Transaction Amounts

The following table sets out the historical transaction amounts under the Sale of Goods Agreement and similar transactions conducted between the Group and SinoHytec Hydrogen Energy Group prior to the formal execution of the Sale of Goods Agreement:

Unit: RMB 0'000

	For the year ended December 31, 2024	For the eight months ended August 31, 2025
The actual aggregate amount paid by SinoHytec Hydrogen Energy Group to the Group for the provision of goods by the Group	246	494

The Directors have been monitoring the continuing connected transactions under the Sale of Goods Agreement and confirmed that the actual aggregate transaction amounts incurred for the year ending December 31, 2025 and up to the date of this announcement have not exceeded the existing annual cap.

Basis for the New Annual Cap Contemplated under the Sale of Goods Supplemental Agreement

The Board, including the independent non-executive Directors, considers that it is in the interests of the Group and the Shareholders as a whole to revise the existing annual cap for the two years ending December 31, 2026 under the Sale of Goods Agreement.

The new annual caps for the two years ending December 31, 2026 under the Sale of Goods Supplemental Agreement were determined with reference to the following factors:

(i) the historical transaction amounts which indicate a growing demand for the Group's products;

(ii) the anticipated expansion of SinoHytec Hydrogen Energy Group's procurement needs in 2025 and 2026, driven by its accelerated development in hydrogen energy infrastructure;

(iii) the Group's increased production capacity, which supports larger-scale supply and timely delivery of goods including pipes, valves, pumps and other materials; and

(iv) the strategic alignment between the parties, with the Group positioned as a key supplier in SinoHytec Hydrogen Energy Group's supply chain.

Reasons for and Benefits of entering into the Sale of Goods Supplemental Agreement

SinoHytec Hydrogen Energy Group is a leading enterprise in the hydrogen energy sector in the PRC, with a strong focus on research, development, and industrial application of hydrogen energy technologies. The Group has maintained a close business relationship with SinoHytec Hydrogen Energy Group since early 2024, supplying various goods including pipes, valves, pumps and other materials essential for its production and testing activities.

The entering into the Sale of Goods Supplemental Agreement allows the Group to further expand its cooperation with SinoHytec Hydrogen Energy Group, thereby securing a stable and recurring source of revenue. Given the early-stage development of SinoHytec Hydrogen Energy Group and its anticipated growth in demand for hydrogen-related infrastructure and materials, the Board expects that the Sale of Goods Supplemental Agreement will enable the Group to capture greater market opportunities in the hydrogen energy supply chain.

Having considered the historical transaction amounts, the expected increase in demand from SinoHytec Hydrogen Energy Group, and the strategic importance of the hydrogen energy sector, the Board, including the independent non-executive Directors, is of the view that the Sale of Goods Supplemental Agreement is entered into after arm's length negotiations, conducted in the ordinary and usual course of business of the Group, and the terms and the new annual caps thereunder are fair and reasonable and in the interests of the Group and the Shareholders as a whole.

(B) Technological Services Supplemental Agreement

Date : October 23, 2025

Parties : The Company, as supplier; and

SinoHytec Hydrogen Energy, as purchaser

New Annual Cap : The existing annual caps under the Technological Services Agreement are revised as follows:

Unit: RMB 0'000

	For the year ended December 31, 2024	For the year ending December 31, 2025	For the year ending December 31, 2026
Existing annual cap	800	500	500
New annual cap	800	1,000	1,000

Save for the revision of the annual caps, all other terms and conditions under the Technological Services Agreement remain the same.

Historical Transaction Amounts

The following table sets out the historical transaction amounts incurred by the Group under the Technological Services Agreement with SinoHytec Hydrogen Energy Group, which primarily covers the provision of technical support, system integration, and testing services related to hydrogen energy applications:

Unit: RMB 0'000

	For the year ended December 31, 2024	**For the eight months ended August 31, 2025**
The actual aggregate amount paid by SinoHytec Hydrogen Energy Group to the Group for the technological services provided by the Group	551	16

The Directors have been monitoring the continuing connected transactions under the Technological Services Agreement and confirmed that the actual aggregate transaction amounts incurred for the year ending December 31, 2025 and up to the date of this announcement have not exceeded the existing annual cap.

Basis for the New Annual Cap Contemplated under the Technological Services Supplemental Agreement

The Board, including the independent non-executive Directors, considers that it is in the interests of the Group and the Shareholders as a whole to revise the existing annual cap for the two years ending December 31, 2026 under the Technological Services Agreement.

The new annual caps under the Technological Services Supplemental Agreement for 2025 and 2026 were determined with reference to the following factors:

(i) the historical transaction amounts incurred under the Technological Services Agreement, which reflect a steady demand for technical services from SinoHytec Hydrogen Energy Group;

(ii) the expected increase in service scope and intensity in 2025 and 2026, particularly in relation to system integration, testing, and engineering support for new hydrogen energy projects;

(iii) the Group's enhanced technical capabilities, which enable it to undertake more complex and higher-value service engagements; and

(iv) the strategic importance of maintaining technical cooperation with SinoHytec Hydrogen Energy Group to support its evolving operational needs.

Reasons for and Benefits of entering into the Technological Services Supplemental Agreement

SinoHytec Hydrogen Energy Group is a key partner of the Group in the hydrogen energy sector. The Technological Services Supplemental Agreement enables the Group to provide specialized technical services, including system integration, testing, and engineering support, which are essential for the development and deployment of hydrogen energy solutions.

The Technological Services Supplemental Agreement facilitates knowledge sharing and technical collaboration between the parties, allowing the Group to deepen its understanding of hydrogen energy applications and enhance its service capabilities.

The revision of the annual cap reflects a realistic adjustment based on actual service demand and business focus. It allows the Group to continue providing technological services under a framework that is commercially reasonable and aligned with its long-term development strategy.

Having considered the historical transaction amounts, the expected increase in service scope and intensity and the benefits of maintaining a technical partnership, the Board, including the independent non-executive Directors, is of the view that the Technological Services Supplemental Agreement is entered into after arm's length negotiations, conducted in the ordinary and usual course of business of the Group, and the terms and the new annual caps thereunder are fair and reasonable and in the interests of the Group and the Shareholders as a whole.

INTERNAL CONTROL MEASURES

In order to ensure the terms of the CCT Agreements (as amended and supplemented by the CCT Supplemental Agreements) are on normal commercial terms and fair and reasonable to the Company and the Shareholders and are no less favourable than those of similar transactions with independent third parties, the Company has formulated the following internal control policies and adopted the following internal control measures:

(i) the finance department of the Company will closely monitor the transactions under the CCT Agreements (as amended and supplemented by the CCT Supplemental Agreements) to ensure that the transactions amount will not exceed the respective annual caps;

(ii) the sales department of the Group shall price the products or services in accordance with the pricing standards set out in the Company's announcement dated October 30, 2024;

(iii) the finance department of the Company will conduct monthly random checks to review and assess whether the transactions contemplated under the CCT Agreements (as amended and supplemented by the CCT Supplemental Agreements) are conducted on normal commercial terms, in accordance with the terms set out therein and whether the relevant contract terms are in the interest of the Company and the Shareholders as a whole. In particular, the finance department will check whether the pricing basis have been properly followed;

(iv) the Company's external auditor will conduct an annual review of the transactions entered into under the CCT Agreements (as amended and supplemented by the CCT Supplemental Agreements) to ensure that the transactions amount is within the respective annual cap and the transactions are conducted in accordance with the terms set out therein; and

(v) the Company's independent non-executive Directors will conduct an annual review of the status of the transactions contemplated under the CCT Agreements (as amended and supplemented by the CCT Supplemental Agreements) to ensure that the Company has complied with its internal approval process and the relevant requirements under the Listing Rules.

The Directors are of the view that the above internal control measures can ensure that the transactions under the CCT Agreements (as amended and supplemented by the CCT Supplemental Agreements) will be conducted on normal commercial terms and will not be prejudicial to the interests of the Company and the Shareholders as a whole.

INFORMATION OF THE PARTIES

The Group is a provider of fuel cell systems, focusing on the design, development and manufacture of fuel cell systems and stacks (a key component of the system) mainly for commercial vehicles, such as buses and trucks, in the PRC.

SinoHytec Hydrogen Energy is a company established in the PRC with limited liability on June 14, 2023 with a registered capital of RMB69.2321 million as of the date of this announcement. SinoHytec Hydrogen Energy Group is principally engaged in the research and development and sales of hydrogen production systems. As of the date of this announcement, SinoHytec Hydrogen Energy is owned as to 72.22% by the Company, 24.56% by Tonglan Technology, 1.93% by Beijing Yingshuo Huaqing Enterprise Management Consulting Center (L.P.) (北京英爍華氫企業管理諮詢中心(有限合夥)) and 1.29% by Mr. Chen Shoujie (陳守杰).

LISTING RULES IMPLICATIONS

As of the date of this announcement, SinoHytec Hydrogen Energy is owned as to 72.22% and 24.56% by the Company and Tonglan Technology, respectively. Ms. Song Haiying and Ms. Dai Dongzhe, the executive Directors, are the general partners of Tonglan Technology. SinoHytec Hydrogen Energy is thus a connected subsidiary of the Company and a connected person of the Company pursuant to the Listing Rules. Accordingly, the transactions contemplated under the CCT Supplemental Agreements constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules. Pursuant to Rule 14A.54 of the Listing Rules, if the Company intends to revise annual caps for continuing connected transactions, the Company will be required to re-comply with relevant provisions of Chapter 14A of the Listing Rules in respect of the relevant continuing connected transactions.

As the applicable percentage ratios in respect of the annual caps for each of the Sale of Goods Supplemental Agreement and the Technological Services Supplemental Agreement are more than 0.1% but less than 5%, the transactions contemplated under the CCT Supplemental Agreements are subject to the annual reporting, annual review and announcement requirements, but are exempt from the independent Shareholders' approval requirement under Chapter 14A of the Listing Rules.

GENERAL

Ms. Song Haiying and Ms. Dai Dongzhe, being executive Directors and the general partners of Tonglan Technology, and Mr. Zhang Guoqiang, the chairman of the Board and a director of SinoHytec Hydrogen Energy, are interested in the CCT Supplemental Agreements and the transactions contemplated thereunder. Therefore, Ms. Song Haiying, Ms. Dai Dongzhe and Mr. Zhang Guoqiang abstained from voting on the Board resolutions in respect of the CCT Supplemental Agreements and the respective annual caps. Save for Ms. Song Haiying, Ms. Dai Dongzhe and Mr. Zhang Guoqiang, no other Director is required to abstain from voting on the Board resolutions to consider and approve in the CCT Supplemental Agreements and the transactions contemplated thereunder.
