Announcement in Relation to the Approval for Drug Registration of a Subsidiary

The board of directors of the Company and all directors warrant that this announcement does not contain any false information, misleading statement or material omission, and accept legal liability for the truthfulness, accuracy and completeness of the contents herein contained.

I. Overview

Recently, the drug registration applications for Deferasirox Tablets and Deferasirox Granules (the "**Drugs**") of Shanghai Fosun Pharmaceutical Industrial Development Company Limited* (上海復星醫藥產業發展有限公司), a subsidiary of Shanghai Fosun Pharmaceutical (Group) Co., Ltd.* (上海復星醫藥（集團）股份有限公司) (the "**Company**"), have been approved by the National Medical Products Administration.

II. General Information of the Drugs

1. Deferasirox Tablets

Dosage Form: Tablets

Strength: 90mg, 360mg

Registered Category: Chemicals Category 3

Marketing Authorization Holder: Shanghai Fosun Pharmaceutical Industrial Development Company Limited* (上海復星醫藥產業發展有限公司)

Manufacturer: Suzhou Erye Pharmaceutical Co., Ltd.* (蘇州二葉製藥有限公司)

Manufacturer: Suzhou Erye Pharmaceutical Co., Ltd.* (蘇州二葉製藥有限公司)

Drug Approval Number: Guo Yao Zhun Zi H20255758

III. Research and Marketing Progress of the Drugs

The Drugs are chemical drugs independently developed by the Group (i.e., the Company and its subsidiaries/units, the same below). The approved indication is for the treatment of (1) chronic iron overload due to blood transfusions in patients above 2 years of age, (2) chronic iron overload in patients 10 years of age and older with non-transfusion-dependent thalassemia (NTDT) syndromes.

As of September 2025, the Group has invested approximately RMB24.55 million (unaudited) in total in the research and development of the Drugs at current stage.

According to the latest data of IQVIA CHPA[1], the sales of Deferasirox preparations in China (excluding Hong Kong, Macau and Taiwan) in 2024 was approximately RMB128 million.

IV. Impact on the Listed Company and Risk Warning

This approval for marketing of the Drugs will further enrich the product line of the Group.

Due to the industry characteristics of pharmaceutical products, the specific sales performance after the market launch of pharmaceutical products may be affected by factors including, but not limited to, the demand for medication, market competition and sales channels, etc., and is subject to considerable uncertainty. Investors should take note of the investment risks.

[1] Provided by IQVIA, a provider of professional medical and health information and strategic consultation service in the world; IQVIA CHPA data cover the drug sales market of hospitals with more than 100 beds in China, the actual sales of different drugs may vary from the IQVIA CHPA data to varying degrees due to their different sales channels.

Announcement is hereby made.
