VOLUNTARY ANNOUNCEMENT
ESTABLISHMENT OF ARTIFICIAL INTELLIGENCE SATELLITE APPLICATION TECHNOLOGY CENTRE IN SHENZHEN BY GANG HANG KE

This announcement is made by USPACE Technology Group Limited (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis to inform the shareholders and potential investors of the Company of the latest business development of the Group.

BUSINESS UPDATE

The board (the "**Board**") of directors (the "**Director(s)**") of the Company is pleased to announce that the Company's wholly-owned subsidiary, 港航科(深圳)空間技術有限公司(translated as Gang Hang Ke (Shenzhen) Space Technology Co., Ltd.) ("**Gang Hang Ke**"), will establish an Artificial Intelligence Satellite Application Technology Centre (the "**Centre**") in Shenzhen, the People's Republic of China, marking a strategic realignment of the Group's aerospace business. The Centre will focus on (i) intelligent decision-making for satellite remote sensing data, and Artificial Intelligence (the "**AI**")-based satellite data processing and analysis with satellite-ground computing synergy; (ii) driving upgrades in autonomous satellite operations through brain-like chips and digitally-twinned autonomous cognition; and (iii) developing advanced AI systems for satellite clusters featuring quantum collaborative computing, brain-like swarm intelligence, autonomous control with survivability and fault tolerance, and autonomous "communication-energy-computing" coupled coordination.

Gang Hang Ke is a high-tech enterprise focusing on the integration of research and development, sales and services. Its major business scope covers aerospace technology, satellite application technology, technical services, technical consulting, design of space technology solutions and development of network information technology.

Since its establishment, Gang Hang Ke has developed and successfully launched 12 "Golden Bauhinia" satellites, and has jointly developed and manufactured 100 remote sensing CubeSats. These "Golden Bauhinia" satellites have been deployed across multiple cities, supporting applications in agricultural monitoring, environmental protection, transportation, and smart city development projects.

Built upon its experience and expertise obtained through "Golden Bauhinia" satellites, Gang Hang Ke's engagement in AI satellite applications targets to achieve deeper integration of advanced AI technologies with the aerospace industry, creating broader market prospects for the commercial space sector.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

By Order of the Board
USPACE Technology Group Limited
Gu Lin
Chairman and Executive Director

Hong Kong, 3 November 2025

As at the date of this announcement, the Board comprises Mr. Gu Lin (Chairman), H.H. Shaikh Mohammed Maktoum Juma Al-Maktoum (Deputy Chairman), Mr. Zhang Yuanqi and Mr. Ma Fujun as executive Directors; and Mr. Yao Xinguo, Mr. Boris Tadić, and Ms. Chow Yin Kwan Yvonne as independent non-executive Directors.
