PROFIT WARNING

This announcement is made by Vico International Holdings Limited (the "**Company**", and together with its subsidiaries, the "**Group**") pursuant to Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**") and the Inside Information Provisions (as defined in the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board (the "**Board**") of directors (the "**Directors**") of the Company wishes to inform the shareholders of the Company (the "**Shareholders**") and potential investors that, based on the preliminary review of the unaudited consolidated management accounts of the Group for the six months ended 30 September 2026 (the "**Reporting Period**"), the Group is expected to record an unaudited consolidated net profit of not more than HK$4.0 million for the Reporting Period, representing a decrease of at least 63.6% as compared to the net profit of approximately HK$11.0 million recorded for the six months ended 30 September 2025.

Based on the information currently available to the Board, the expected decrease in the Group's net profit was mainly attributable to: (i) the significant decrease in the sales volume of the Group's diesel and fleet card businesses, which resulted in a corresponding decrease in the Group's revenue and gross profit for the Reporting Period; and (ii) the increase in administrative and operating expenses of the Group during the Reporting Period. The volume contraction in the Group's diesel and fleet card businesses was driven by the following factors: (a) the escalation of geopolitical conflict in the Middle East involving the United States and Iran during the Reporting Period, which disrupted global energy supply chains, tightened the supply of fuel and petrochemical products and drove a significant increase in international oil prices; and (b) the resulting surge in fuel prices, compounded by prolonged softness across the construction and logistics sectors, which dampened downstream fuel consumption and prompted commercial and industrial customers to adopt conservative procurement and cost-control measures.

The Company is still in the process of finalising the interim results of the Group for the Reporting Period. The information contained in this announcement only represents a preliminary assessment by the Board based on the unaudited consolidated management accounts of the Group for the Reporting Period and the information currently available to the Board. This information has not been reviewed or audited by the Company's auditors, nor has it been reviewed by the audit committee of the Company. Shareholders and potential investors are advised to read carefully the interim results announcement of the Group for the Reporting Period, which is expected to be published on Friday, 27 November 2026.

Shareholders and potential investors are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
