INSIDE INFORMATION
LATEST BUSINESS PERFORMANCE
FOR THE FIRST TEN MONTHS OF 2026

This announcement is made by Gpixel Changchun Microelectronics Inc. (the "**Company**", together with its subsidiaries, the "**Group**") pursuant to Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on the Main Board of The Stock Exchange of Hong Kong Limited (the "**Listing Rules**") and the Inside Information Provisions (as defined under the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571, Laws of Hong Kong).

The board of directors of the Company (the "**Board**") is pleased to announce that, based on a preliminary assessment by the Board of the unaudited consolidated management accounts of the Group for the ten months ended October 31, 2026 (the "**Reporting Period**") and other information available to the Board, for the Reporting Period, the Group is expected to achieve:

1. Revenue: in the range of approximately RMB1,150 million to RMB1,160 million, representing an increase of approximately 70% to 75% compared with the same period last year;

2. Profit attributable to owners of the parent: in the range of approximately RMB500 million to RMB520 million, representing an increase of approximately 140% to 150% compared with the same period last year; and

3. Adjusted net profit (namely, net profit excluding the effects of share-based payment expenses and listing expenses, a non-HKFRS measure): in the range of approximately RMB555 million to RMB575 million, representing an increase of approximately 105% to 115% compared with the same period last year.

The Group has been consistently focusing on the research and development of CMOS image sensors, offering CMOS image sensors and providing customized sensor solutions widely applicable to advanced technology fields such as industrial imaging, scientific imaging, professional photography and video, and medical imaging. The growth in the Group's results during the Reporting Period was primarily driven by strong demand in downstream industrial imaging applications, such as high-end industrial inspection, lithium battery inspection and printed circuit board inspection. The Company expects that such driving forces and growth trends will continue for 2026, thereby driving improved business and financial performance of the Group.

The information contained in this announcement is only a preliminary assessment made by the management of the Company based on the information currently available to the Group, and is not based on any figures or information which has been audited or reviewed by the auditors of the Company, nor has it been reviewed by the audit committee of the Company. The Company will make further disclosure on the Group's operating conditions and financial performance for the full year of 2026 in due course.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.
