CHAIRMAN'S LETTER TO SHAREHOLDERS

Dear shareholders of the Company (the "Shareholders"),

On behalf of the board (the "**Board**") of the directors (the "**Directors**") of Sandmartin International Holdings Limited (the "**Company**", together with its subsidiaries collectively referred to as the "**Group**"), I hereby present the annual results of the Group for the year ended 31 December 2022.

The financial performance of the Group was not satisfactory for the year ended 31 December 2022. The 2019 novel coronavirus pandemic (the "**Pandemic**") continued to have negative impacts on the business and operations of the Group. During the year, the outbreak of variants of novel coronavirus in the People's Republic of China (the "**PRC**" or "**China**") as well as the related epidemic prevention measures, inevitably affected the productions of the Group and led to the delay in shipment of products to the Group's customers in the North America. With the global shortage of microchips and integrated circuits, and the increases in material costs, such as copper, aluminum and plastic materials, the profit margins of the Group's products have declined when compared with the same corresponding period in 2021. The Group has taken some measures to reduce the unfavourable impacts arising from the Pandemic, including but not limited to sourcing from different suppliers and adjusting the logistics structures.

The outbreak of the Pandemic also had adverse impact on the revival of tourism sector and economic sentiment in Nepal which led to the decrease in number of subscribers of Dish Media Network Limited ("**Dish Media**", the Company's associate and the largest satellite pay television operator in Nepal).

The ongoing China-US trade war still has some negative impacts on the operations of the Group and the Group mitigates the impacts by sourcing from suppliers in Southeast Asia, serving the purpose of avoiding the excessive tariffs imposed by the United States (the "US") on products from China.

Although the global economy is gradually recovering from the Pandemic, the geo-political and geo-economic tensions are yet to be resolved. Given these volatilities and challenges, the Group will continue to adopt a prudent approach in managing its cash flows position and will make every endeavour to identify business opportunities with promising potential in the manufacturing segments in emerging markets or even other sectors so as to diversify our income source to weather adverse economic cycle.

Besides, the Group has gradually outsourced its production to suppliers in Vietnam since 2018, hence the Group has been exploring opportunities to increase the investment return of the production plants located on an industrial land in Zhongshan; therefore, the Group entered into a cooperation agreement with Guangdong Huasuan International Industrial Park Investment Development Co., Ltd.* (廣東省華算國際產業園投資發展有限公司) ("Huasuan") in July 2021.

Going forward, the Board believes that the growth of the Group will depend on business opportunities arising from new 5G peripherals, Internet of Things and related products. In anticipation of such business opportunities, the Group's research and development team is developing new 5G related products with reference to the market trend. New products under development include next generation radio frequency and antenna products. The Group's research and development team is working on these products in the research center in Hsinchu, Taiwan.

To strengthen the financial position and improve the liquidity of the Group, on 27 March 2023, the Company proposed rights issue on the basis of three rights shares for every two adjusted shares in issue on the record date.

On behalf of the Board, I would like to take this opportunity to express our gratitude to our invaluable business partners, Shareholders, and management and employees for their continuous support and contribution to the Group. We look forward to sharing the rewards ahead with you.

BUSINESS OVERVIEW AND MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL HIGHLIGHT AND BUSINESS OVERVIEW

The Group recorded a decrease in gross profit ratio from 13.08% for the year ended 31 December 2021 to 10.68% for the year ended 31 December 2022 due to the increase in material costs, global shortage of chips and integrated circuits as a result of the Pandemic.

The Group's loss before finance costs, income tax expense, depreciation, amortisation and release of prepaid lease payments was HK\$23,070,000 (2021: earnings of HK\$30,554,000).

MEDIA ENTERTAINMENT PLATFORM RELATED PRODUCTS

In 2022, the Group's media entertainment platform related products segment faced a challenging economic environment and a decline in demand of its products due to the continued impact of the Pandemic. The revenue of this segment was decreased by 20.97% as compared with the year ended 31 December 2021, while the segment results were decreased by 124.59%.

- Segment revenue of media entertainment platform related products was approximately HK\$92,890,000 (2021: HK\$117,545,000).
- Segment loss from operations were approximately HK\$1,388,000 (2021: profit of HK\$5,645,000).
- Segment loss margin was 1.49% as compared with segment margin of 4.80% in 2021.

Outlook

The Group is exploring new business opportunities for this segment. The China-US trade war is not expected to have material adverse impact on this segment as this segment does not have customers in the US.

OTHER MULTIMEDIA PRODUCTS

Due to the increase in material costs and freight charges, the profitability of the Group's other multimedia products segment was lower than expected. Major products of this segment included cables, multimedia accessories and wireless mobile phone chargers for vehicles. The revenue of this segment was decreased by 50.97%. Segment results decreased by 67.91% due to the increase in material costs after the outbreak of the Pandemic.

- Segment revenue of other multimedia products was approximately HK\$133,311,000 (2021: HK\$271,886,000).
- Segment results from operations were approximately HK\$4,910,000 (2021: HK\$15,301,000).
- Segment margin was 3.68% as compared with the segment margin of 5.63% in 2021.

Outlook

We are enhancing our product portfolio and developing new businesses to cope with the new demand from customers. The China-US trade war has some impact on this segment as some of the customers are located in the US. We are trying to minimize the impact by sourcing from suppliers outside the PRC, such as Southeast Asia and adjusting logistics structure.

SATELLITE TV EQUIPMENT AND ANTENNA PRODUCTS

The segment margin of the Group's satellite TV equipment and antenna products segment showed a decline notwithstanding the gradual recovery of economy from the Pandemic in the North America. The revenue of this segment was slightly decreased by 3.22% as compared with the year ended 31 December 2021, while the segment results were decreased by 26.72%.

- Segment revenue of satellite TV equipment and antenna products was approximately HK\$519,753,000 (2021: HK\$537,040,000).
- Segment results from operations were approximately HK\$53,023,000 (2021: HK\$72,354,000).
- Segment margin was 10.20% as compared with the segment margin of 13.47% for the year ended 31 December 2021.

Outlook

Low noise blocking down converters ("LNBs") are receiving devices mounted on satellite dishes used for reception, which collect microwaves from the satellite dishes and facilitate the transmission of satellite television signals. Apart from the sales of LNBs to the customers in North America, we are exploring business opportunities in other areas such as cross-selling LNBs to other existing customers of the Group in South Asia. The research and development team of the Group endeavours to develop new products for next generation radio and antenna communications. The China-US trade war has some impact on this segment as most of the customers are located in the US. Such impact is mitigated by sourcing from suppliers outside the PRC, such as Southeast Asia.

3. BASIS OF PREPARATION

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with all HKFRSs, Hong Kong Accounting Standards ("**HKASs**") and Interpretations (hereinafter collectively referred to as the Hong Kong Financial Reporting Standards) and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange.

(b) Basis of measurement and going concern assumption

The consolidated financial statements have been prepared on the historical cost basis except for investment properties which are measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

During the year, the Group incurred a net loss of HK\$77,548,000 attributable to owners of the Company and at the end of reporting period, the Group had net current liabilities of approximately HK\$178,964,000. As at the same date, the Group had bank and other borrowings of HK\$269,941,000, which is subject to repayment or renewal in the next twelve months after the end of the reporting period. Included in current borrowings as at 31 December 2022 was other loans (the "Loan") with an outstanding balance of approximately HK\$194,938,000 scheduled to be fully repayable in April 2023, and interest payment included in other payables of approximately HK\$8,812,000 which has been overdue. The non-repayment of interest constituted an event of default under the loan agreement. In addition, the Group had capital deficiency attributable to owners of the Company of HK\$25,773,000 as at 31 December 2022.

These conditions may cast significant doubt on the Group's ability to continue as a going concern.

In view of these circumstances, the Directors have given consideration to the future liquidity and performance of the Group and its available sources of finance in the preparation of a cash flow forecast cover a 18-month period from the end of the reporting period for assessing whether the Group will have sufficient financial resources to continue as a going concern. Management has also performed a sensitivity analysis by considering a reasonable change in operating cash flows on the forecast period and the headroom of the available working capital. In particular, the Directors have considered the following:

(1) Based on communication with banks, the Group should be able to renew the existing bank loans upon expiry. The Directors are of the opinion that the Group maintains good relationship with major banks providing finance or facilities to the Group and the Group has successfully renewed most of its banking facilities based on past experience;

- (2) Subsequent to the end of the reporting period, the lender of the Loan conditionally agreed with the Group, upon the repayment of US\$7,500,000 (equivalent to approximately HK\$58,481,000) and accrued interest, to enter into a supplemental loan agreement for an extension of the repayment date of the remaining balance of the Loan of US\$17,500,000 (equivalent to approximately HK\$136,456,000) to 20 April 2025 (the "Repayment Proposal");
- (3) As of the date of approval of these financial statements, the Group has unutilised bank loan facilities totalling HK\$236,401,000, which are repayable twelve months from dates of drawdown. They are available for the Group to draw down to finance its future operations and financial obligations; and
- (4) On 27 March 2023, the Company proposed to issue 738,242,235 rights shares by way of rights issue, on the basis of three rights shares for every two shares held by the qualifying shareholders on the record date at the subscription price of HK\$0.12 per rights share (the "**Rights Issue**") to raise a gross proceeds of approximately HK\$88.6 million. The Company intends to use the proceeds of Rights Issue to finance the Repayment Proposal as disclosed in (2) above.

The Rights Issue is conditional on approval by the independent shareholders as set out in the announcement of the Company dated 27 March 2023.

Based on the cash flow forecast and the sensitivity analysis, the Directors are of the opinion that the Group would have sufficient liquidity to finance its operations and meet its financial obligations as and when they fall due for the at least twelve months subsequent to end of reporting period. Accordingly, the Directors considered that it is appropriate to continue to prepare the consolidated financial statements on a going concern basis.

Notwithstanding the management's assessment and measures mentioned, there is a material uncertainty related to the above events or conditions that may cast significant doubt about the Group's ability to continue as a going concern. Whether the Group will be able to continue as a going concern depends upon the Group's ability to generate adequate cash flows through the above plans and measures.

Should the Group fail to achieve the above plans and measures, it may be unable to realise its assets and discharge its liabilities in the normal course of business.

Should the Group be unable to continue in business as a going concern, adjustments would have to be made to adjust the value of assets to their estimated net realisable values, to reclassify non-current assets and liabilities as current assets and liabilities respectively, and to provide for any further liabilities which may arise. The effects of these potential adjustments have not been reflected in the consolidated financial statements.

(c) Functional and presentation currency

The functional currency of the Company is United States dollars ("**US\$**"), while the consolidated financial statements are presented in Hong Kong dollars ("**HK\$**"). As the Company is listed on the Main Board of the Stock Exchange, the Directors consider that it will be more appropriate to adopt HK\$ as the Group's and the Company's presentation currency.

4. SEGMENT INFORMATION

The segment information reported externally was analysed on the basis of their goods and services delivered or provided by the Group's operating divisions which are consistent with the internal information that are regularly reviewed by the executive Directors, the chief operating decision maker, for the purposes of resources allocation and assessment of performance. This is also the basis of organisation in the Group, whereby the management has chosen to organise the Group around different products and services.

DISPOSAL OF ALL INTERESTS IN MYHD AND CONTINUATION OF LOANS AND GUARANTEE

Reference is made to the announcement of the Company dated 31 December 2018 (the "**Announcement**") and the circular of the Company dated 25 May 2019 (the "**Circular**"). Unless otherwise stated, capitalised terms used herein shall have the same meanings as those defined in the Announcement and in the Circular. On 31 December 2018, the Vendor and the Purchaser entered into the Agreement pursuant to which the Vendor has conditionally agreed to sell, and the Purchaser has conditionally agreed to purchase the entire issued share capital of the Target Company, at the nominal consideration of US\$1 with effect from the Transaction Date. The Target Company was a wholly-owned subsidiary of the Company and indirectly held 51% interests in MyHD. All the Conditions set out in the Agreement had been satisfied and the Disposal was completed on 25 June 2019.

The Vendor had agreed with the Purchaser under the Agreement to procure that the Existing Loans shall continue to be advanced by the Company or SMT (as the case may be) to the Target Company and/or MyHD (as the case may be) under the then existing arrangements notwithstanding the Completion taking place. Such arrangement confers the right to the Company or SMT (as the case may be) to receive the payments for the Existing Loans from the Target Company and/or MyHD (as the case may be) when the financial positions of the Target Company and/or MyHD (as the case may be) improve and have sufficient cash to settle the Existing Loans. As at 31 December 2022, there were Existing Loans which have been past due in the aggregate amount of US\$108,802,000 comprising aggregate principal amount of US\$71,298,000 and aggregate accrued interest (calculated based on the terms of agreements of Existing Loans) of US\$37,504,000 owing by the Target Company and/or MyHD to the Company and/or SMT (as the case may be), the particulars of which are as follows:

Lenders	Debtors	Prevailing interest rate	Maturity date	Principal amount outstanding as at 31 December 2022	Accrued interest as at 31 December 2022
SMT	Target Company	3 months LIBOR + 100 basis points ^(Note 1)	31.12.2020	US\$9,554,000 (approximately HK\$74,497,000)	US\$1,857,000 (approximately HK\$14,480,000)
SMT	MyHD	3 months LIBOR + 100 basis points ^(Note 1)	31.12.2020	US\$10,500,000 (approximately HK\$81,874,000)	US\$1,780,000 (approximately HK\$13,879,000)
SMT	MyHD	10% per annum ^(Note 2)	31.12.2020	US\$42,653,000 (approximately HK\$332,587,000)	US\$28,192,000 (approximately HK\$219,827,000)
The Company	MyHD	10% per annum ^(Note 2)	31.12.2020	US\$8,591,000 (approximately HK\$66,988,000)	US\$5,675,000 (approximately HK\$44,251,000)
			Total	US\$71,298,000 (approximately HK\$555,946,000)	US\$37,504,000 (approximately HK\$292,437,000)

Notes:

- 1. As a reference, 3 months London inter-bank offered rates ("**LIBOR**") as applicable to these two loans during the period between 1 May 2012 to 31 December 2022 ranged between 0.11775% and 4.77857%.
- 2. Prevailing interest rate shall be increased to 11% per annum after maturity date.

In December 2019, the Company was given to understand that the Target Company and MyHD were in serious financial problem and ceased to operate in late 2019. As such, the Company considered these loan receivables were credit impaired and full impairment in the amount of HK\$646,366,000 was provided as at 31 December 2019. No interest income was recognised on the outstanding loan principal for the year ended 31 December 2022 as the recoverability of such interest receivables is remote.

The Vendor had also agreed that the Guarantee given by the Company to MyHD shall continue for the time being after the Completion. The maximum amount payable by the Company under the Guarantee would not exceed US\$3,500,000 (equivalent to HK\$27,332,000). Notwithstanding that MyHD ceased its operation in late 2019, the Company has not received any demand for payment from MyHD under the Guarantee. At 31 December 2021 and 2022, the Group had recognised the provision for financial guarantee in the amount of US\$3,500,000 (equivalent to HK\$27,332,000) in relation to the Guarantee.

Opinion

We have audited the consolidated financial statements of Sandmartin International Holdings Limited (the "**Company**") and its subsidiaries (together the "**Group**"), which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Material Uncertainty Related to Going Concern

We draw attention to note 3(b) in the consolidated financial statements, which indicates that the Group incurred a net loss of HK\$77,548,000 attributable to owners of the Company during the year ended 31 December 2022 and, as of that date, the Group's current liabilities exceeded its current assets by HK\$178,964,000. As stated in note 3(b), these conditions, along with other matters as set forth in note 3(b), indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.
