**Application Proof of  
ShanH Technology Limited  
(閃回科技有限公司)**

*(Incorporated in the Cayman Islands with limited liability)*

**WARNING**

The publication of this Application Proof is required by The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) and the Securities and Futures Commission (the “**Commission**”) solely for the purpose of providing information to the public in Hong Kong.

This Application Proof is in draft form. The information contained in it is incomplete and is subject to change which can be material. By viewing this document, you acknowledge, accept and agree with ShanH Technology Limited (閃回科技有限公司) (the “**Company**”), its sole sponsor, overall coordinator(s), advisers or member of the underwriting syndicate that:

- (a) this document is only for the purpose of providing information about the Company to the public in Hong Kong and not for any other purposes. No investment decision should be based on the information contained in this document;
- (b) the publication of this document or any supplemental, revised or replacement pages on the Stock Exchange’s website does not give rise to any obligation of the Company, its sole sponsor, overall coordinator(s), advisers or members of the underwriting syndicate to proceed with an offering in Hong Kong or any other jurisdiction. There is no assurance that the Company will proceed with any offering;
- (c) the contents of this document or supplemental, revised or replacement pages may or may not be replicated in full or in part in the actual final listing document;
- (d) the Application Proof is not the final listing document and may be updated or revised by the Company from time to time in accordance with the Rules Governing the Listing of Securities on the Stock Exchange;
- (e) this document does not constitute a prospectus, offering circular, notice, circular, brochure or advertisement offering to sell any securities to the public in any jurisdiction, nor is it an invitation to the public to make offers to subscribe for or purchase any securities, nor is it calculated to invite offers by the public to subscribe for or purchase any securities;
- (f) this document must not be regarded as an inducement to subscribe for or purchase any securities, and no such inducement is intended;
- (g) neither the Company nor any of its affiliates, its sole sponsor, its overall coordinator(s), advisers or any members of its underwriting syndicate is offering, or is soliciting offers to buy, any securities in any jurisdiction through the publication of this document;
- (h) no application for the securities mentioned in this document should be made by any person nor would such application be accepted;
- (i) the Company has not and will not register the securities referred to in this document under the United States Securities Act of 1933, as amended, or any state securities laws of the United States;
- (j) as there may be legal restrictions on the distribution of this document or dissemination of any information contained in this document, you agree to inform yourself about and observe any such restrictions applicable to you; and
- (k) the application to which this document relates has not been approved for listing and the Stock Exchange and the Commission may accept, return or reject the application for the subject public offering and/or listing.

**If an offer or an invitation is made to the public in Hong Kong in due course, prospective investors are reminded to make their investment decisions solely based on the Company’s prospectus registered with the Registrar of Companies in Hong Kong, copies of which will be published to the public during the offer period.**

### OVERVIEW

We are a PRC company engaged in providing consumer electronics recycling services with a focus on pre-owned mobile phones. According to Frost & Sullivan, we were the third largest mobile phone recycling service provider in the PRC, both in terms of the total transaction value of pre-owned mobile phones recycled and the total transaction value of pre-owned mobile phone sold in 2024, with a market share of approximately 1.3% and 1.3%, respectively.

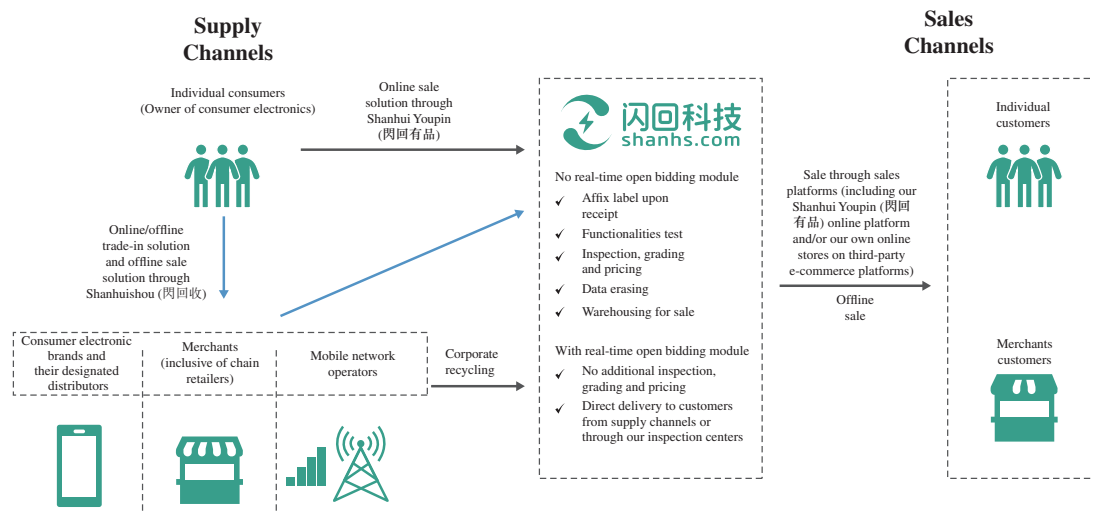

We have been focusing on offering an integrated solution from initiating recycling by way of trade-in while facilitating sale of new mobile phones, to standardizing the procured pre-owned mobile phones for resale, leveraging our proprietary inspecting, grading and pricing technologies and recycling and sales online platforms and our strategic cooperation with our upstream sourcing partners, including mainstream consumer electronic brands and their designated distributors, sizable merchants for consumer electronic products and major mobile network operators in the PRC.

We obtain supply of pre-owned consumer electronics primarily from trade-ins transacted in both offline retail stores or online malls of our upstream sourcing partners using our recycling system, Shanhuishou (閃回收), where individual consumers, who are our ultimate suppliers, purchase new consumer electronics at a reduced price by trading in their pre-owned consumer electronics as part of the payment. We then process these procured pre-owned consumer electronics for resale leveraging our proprietary inspection, grading and pricing technologies in our inspection and operation centers, and efficiently distribute such to a variety of buyers in the second-hand consumer electronics market primarily through our online platform, Shanhui Youpin (閃回有品) and our own online stores operated on various third-party e-commerce platforms. Leveraging our established position in the PRC mobile phone recycling service market and our understanding of the needs and preferences of buyers in the second-hand consumer electronics market, we have also been engaged in the corporate recycling and offline sale to handle consumer electronics in bulk to satisfy the business needs of our upstream business partners and customers. In addition, we also provide value-added and after-sale services to participants across the upstream and downstream value chain.

## SUMMARY

During the Track Record Period, we experienced significant growth in our business operation and an increase in demand for our procured pre-owned consumer electronics. Our revenue increased from approximately RMB749.7 million for the year ended December 31, 2021 to approximately RMB919.1 million for the year ended December 31, 2022, to approximately RMB1,158.4 million for the year ended December 31, 2023, and further to approximately RMB1,297.3 million for the year ended December 31, 2024, representing a CAGR of approximately of 20%. Our revenue also increased from approximately RMB576.9 million for the six months ended June 30, 2024 to approximately RMB809.5 million for the six months ended June 30, 2025, representing a growth rate of approximately 40.3%.

The following chart illustrates our business models:

## OUR SUPPLY CHANNELS

The recycling solutions of pre-owned consumer electronics from individual consumers can be broadly classified into two types, namely, the trade-in solution and the sale solution. We primarily focus on offering recycling services of pre-owned mobile phones and other consumer electronics which primarily include laptops, PC tablets, phone accessories and other digital products, through both online and offline trade-in solutions.

Our primary channels of supply comprise retail stores operated by our upstream sourcing partners, primarily including (i) mainstream consumer electronic brands, such as Xiaomi, Samsung, Huawei, Honor, Vivo, and their designated distributors, (ii) sizable merchants for consumer electronic products, and (iii) PRC major mobile network operators. Individual consumers are our ultimate suppliers. Over the years, we have established business alliances and cooperation with these upstream sourcing partners and procured pre-owned consumer electronics transacted in their retail stores or online malls with our trade-in solution through our Shanhuishou (閃回收) recycling system. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis.

## SUMMARY

### OUR SALES

During the Track Record Period, we primarily derived our revenue from the sale of pre-owned consumer electronics, mainly mobile phones, procured from our various supply channels, to buyers in the second-hand market, primarily through our Shanhui Youpin (閃回有品) online platform, as well as our own online stores operated on various third-party e-commerce platforms. In order to satisfy the business needs of our customers, we also sell part of our procured consumer electronics in bulk through our offline sale, and also provide various value-added and after-sale services to them.

In determining the selling prices of our pre-owned consumer electronics which are non-standardized items, we take into account a number of factors, primarily including the brands, models and conditions of the pre-owned consumer electronics, demand for such devices in the second-hand consumer electronic market, our procurement cost, the historical selling prices, the selling prices may be offered by our competitors for such pre-owned consumer electronics, and the expected profit margins for us. For our sale of pre-owned consumer electronics typically involving bidding modules, we will only sell them to the highest bidder as long as his/her bidding price for such pre-owned consumer electronics is higher than our initial trade-in prices. For our sale of pre-owned consumer electronics through non-bidding modules, we will typically add certain mark-ups onto our initial trade-in prices to determine the selling prices. Leveraging our proprietary pricing model and algorithms that utilize business data we collect from thousands of pre-owned consumer electronics and millions of transactions, we believe that we are able to generate a relatively accurate initial trade-in prices and ensure the pricing objectiveness for each of pre-owned consumer electronics transacted through our sales channels. For more details of our pricing policy, please refer to “Business – Pricing Policy” in this document.

The table below sets out the breakdown of our revenue for the periods indicated:

	Year ended December 31,								Six months ended June 30,

## OUR BRANDS

We have established and developed two core corporate brands, namely, Shanhuishou (閃回收) and Shanhui Youpin (閃回有品). Shanhuishou (閃回收) is the main brand under which we carry on our offline recycling business and collect pre-owned consumer electronics from individual consumers through our upstream sourcing partners. Shanhui Youpin (閃回有品) is the main brand under which we conduct sale of these procured pre-owned consumer electronics to customers on our proprietary online platforms and/or in our own online stores on third-party e-commerce platforms.

---

## SUMMARY

---

### HIGHLY COMPETITIVE PRE-OWNED CONSUMER ELECTRONICS TRANSACTION SERVICES MARKET

The pre-owned consumer electronics transaction services market in the PRC is evolving rapidly and is becoming increasingly competitive.

We face competition mainly from the other top service providers engaged in the recycling services in the PRC for pre-owned consumer electronics supplies and transactions. According to Frost & Sullivan, the top five and top two market players accounted for a total of approximately 18.6% and 15.3% of the market shares of mobile phone recycling service industry in terms of total transaction value of mobile phones in the PRC in 2024, respectively. According to Frost & Sullivan, the top five mobile phone recycling service providers each held a market share of less than 10% based on the total transaction value in 2024. The fifth largest service provider held a market share of only 0.9%, while the remaining service providers competed for the rest approximately 81% of the market in 2024. This reflects a highly fragmented and competitive market for the PRC pre-owned consumer electronics transaction service industry.

Despite the intensive competition that we face in China, we expect that there is still a great potential in the future development and market growth of China’s mobile phone recycle industry. According to Frost & Sullivan, although there had been a rapid growth of the PRC mobile phone recycling rate from approximately 10% in 2020 to approximately 17.1% in 2024, the mobile phone recycling rate in the developed countries including the U.S. and Japan, currently ranges from 55% to 75%. We believe that China’s mobile phone recycling rate is expected to continue to grow. For more details of the market landscape, please refer to “Industry Overview” in this document.

### COMPETITIVE STRENGTHS

- A leading mobile phone recycling service provider in China, with the third largest market share in terms of transaction value of pre-owned mobile phones recycled and the total transaction value of pre-owned mobile phone sold in 2024;
- Our highly-recognized brand Shanhuishou (閃回收) in the pre-owned consumerelectronics transaction service market in the PRC;
- Strategic cooperation with our upstream sourcing partners with a wide-ranging service coverage and national geographic reach;
- Digitalized and integrated industry solutions empowering our efficient and accurate standardizing services;
- Proprietary and efficient operation support system, leading to outstanding operational efficiency; and
- Experienced management team with profound industry background and insight.

## SUMMARY

---

### OUR STRATEGIES

In order to achieve our goals, we have formulated the following strategies:

- Further enhance our strategic cooperation with upstream sourcing partners to continuously strengthen our current position in the PRC trade-in mobile phone recycling service market and expand our transaction services into Hong Kong and other Southeast Asian countries;
- Increase our brand profile, explore new sales channels to increase our sales, and enhance our profit margin and transaction efficiency;
- Further increase our research and development efforts into AI-related technologies, and upgrade our infrastructure to continue to empower our business offerings and operational efficiency; and
- Expand business operation through investment.

### RISK FACTORS

Our business and the [REDACTED] involve certain risks are set out in the section headed “Risk Factors.” You should carefully read that section in its entirety before you decide to invest in our [REDACTED]. Some of the major risks we face include:

- We rely on our upstream sourcing partners to obtain steady supply of the pre-owned consumer electronics, and any deterioration in our relationships with these upstream sourcing partners may materially and adversely affect our business, results of operations and financial condition;
- Our limited bargaining power with upstream sourcing partners and customers and the fluctuation of our procurement cost and selling prices of pre-owned mobile phones may further affect our gross profit and gross profit margins, leading to a material and adverse impact on our profitability;
- Our brand image is integral to our success, and failure to maintain our reputation and brand profile may have a material adverse impact on our business, results of operations, financial condition and prospects;
- We recorded net current liabilities and net liabilities during the Track Record Period and may not generate sufficient cash flows in the future to finance our operations or meet our current liabilities;
- We face intense competition in the industries where we operate, and our inability to compete effectively may materially and adversely affect our business, financial condition and results of operations; and
- Any significant slowdown in the PRC macroeconomic condition coupled with intensive competition in the industry may materially and adversely affect our business, results of operation and financial condition.

---

## SUMMARY

---

### OUR CONTROLLING SHAREHOLDERS

As of the Latest Practicable Date, Mr. Liu and Ms. Yu, in aggregate, had beneficial interests representing approximately 45.35% of the total issued Shares, comprising (i) Shares representing approximately 31.71% of the total number of Shares in issue held by ShanHuiShou BVI, which is wholly owned by Mr. Liu; (ii) Shares representing approximately 10.72% of the total number of Shares in issue held by MGY Wisdom BVI, which is owned as to 80% and 20% by ShanHuiShou BVI and MGY Alliance BVI, respectively; and (iii) Shares representing approximately 2.92% of the total number of Shares in issue held by MGY Alliance BVI, which is wholly owned by Ms. Yu.

Immediately following the completion of the [REDACTED] and the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED] and any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme), Mr. Liu and Ms. Yu, in aggregate, will have beneficial interests representing [REDACTED]% of the total issued Shares, comprising (i) Shares representing approximately [REDACTED]% of the total number of Shares in issue held by ShanHuiShou BVI; (ii) Shares representing approximately [REDACTED]% of the total number of Shares in issue held by MGY Wisdom BVI; and (iii) Shares representing approximately [REDACTED]% of the total number of Shares in issue held by MGY Alliance BVI. Pursuant to the Guide, Mr. Liu and Ms. Yu are presumed to be a group of controlling shareholders by virtue of their shareholdings through MGY Wisdom BVI. Accordingly, Mr. Liu and Ms. Yu, together with ShanHuiShou BVI, MGY Wisdom BVI and MGY Alliance BVI, will be our Controlling Shareholders upon the completion of the [REDACTED]. Please refer to “Relationship with Controlling Shareholders” in this document for further details.

### [REDACTED] INVESTMENTS

Since our establishment, we have completed several rounds of equity financing. Please refer to “History, Reorganization and Corporate Structure – 5. [REDACTED] Investments” in this document for further details.

### SUMMARY OF HISTORICAL FINANCIAL INFORMATION

The following tables present our summary historical financial information for the years/periods or as of the dates indicated. This summary has been derived from our historical financial information set forth in the Accountants’ Report in Appendix I to this document. The summary of historical financial data set forth below should be read together with, and is qualified in its entirety by reference to, the historical financial information included in the Accountants’ Report in Appendix I to this document, including the accompanying notes, and the information set forth in “Financial Information” in this document. Our historical financial information was prepared in accordance with IFRS.

## SUMMARY

### Key Items of Consolidated Statements of Profit or Loss

The following table sets out the key items of our consolidated statements of profit or loss for the periods indicated:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
	<i>(Unaudited)</i>					
<b>Revenue</b> .....	749,731	919,112	1,158,393	1,297,261	576,858	809,476
Cost of sales <sup>(1)</sup> .....	(688,260)	(863,445)	(1,080,050)	(1,235,165)	(550,980)	(758,755)
<b>Gross profit</b> .....	61,471	55,667	78,343	62,096	25,878	50,721
Other income and gains/ (losses) .....	377	(4,524)	9,034	3,920	1,840	933
Selling and distribution expenses .....	(11,581)	(17,243)	(18,528)	(20,301)	(8,514)	(9,304)

<b>Loss for the year/period</b> .....	<u>(48,708)</u>	<u>(99,084)</u>	<u>(98,268)</u>	<u>(66,443)</u>	<u>(40,126)</u>	<u>(24,633)</u>

*Note:*

- Our cost of sales primarily consists of (i) our procurement costs of pre-owned consumer electronics sourced from individual consumers through our upstream sourcing partners, where individual consumers are our ultimate suppliers; (ii) costs of promotion service and commission fees, primarily including promotion service fees paid to retail stores of our certain upstream sourcing partners and commissions paid to certain retail stores' sales personnel, according to the arrangements with different retail stores tailored to their specific conditions and needs; and (iii) logistic costs which we pay to the third-party logistic service providers for the transportation and delivery of our procured pre-owned consumer electronics.

## SUMMARY

### Non-IFRS Measure

To supplement our consolidated financial statements, which are presented in accordance with IFRS, we also use adjusted profit/(loss) (non-IFRS measure) as additional financial measures, which is not required by, or presented in accordance with IFRS. We believe that the non-IFRS measure provides useful information to [REDACTED] and others in understanding and evaluating our consolidated results of operations in the same manner as they help our management. However, our presentation of adjusted profit/(loss) (non-IFRS measure) may not be comparable to similarly titled measures presented by other companies. The use of such non-IFRS measures has limitations as an analytical tool, and you should not consider it in isolation from, or as a substitute for an analysis of, our results of operations or financial condition as reported under IFRS. We define adjusted profit/(loss) (non-IFRS measure) as loss for the year/period adjusted by adding back changes in carrying amount of the redemption liabilities, fair value changes of derivative financial liabilities, [REDACTED] expenses and share-based payment expenses.

The following table reconciles our adjusted profit/(loss) (non-IFRS measure) for the years/periods presented in accordance with IFRS, which were losses for the year/period indicated:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
	<i>(Unaudited)</i>					
<b>Reconciliation of net loss for the year/period and adjusted profit/(loss) (non-IFRS measure)</b>						
Loss for the year/period .....	(48,708)	(99,084)	(98,268)	(66,443)	(40,126)	(24,633)

---

## SUMMARY

---

*Notes:*

1. Changes in carrying amount of the redemption liabilities represents amount of changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. Upon completion of our [REDACTED], redemption liabilities in connection with such [REDACTED] Investments would be converted into equity of our Company. In addition, the changes on redemption liabilities is a non-cash item.
2. Fair value changes of derivative financial liabilities represent the gains or losses arising from change in fair value of our options. The option agreements expired or terminated before June 30, 2024. Please refer to note 23 to the Accountants’ Report in Appendix I to this document.
3. [REDACTED] expenses represent professional fees, and other fees incurred in connection with the [REDACTED].
4. Share-based payment expenses, which are non-cash in nature, represent the expenses recognised in connection with share options granted to selected executives and employees.

We recorded adjusted profit (non-IFRS measure) of approximately RMB[REDACTED] for the year ended December 31, 2021 while we recorded adjusted loss (non-IFRS measure) of approximately RMB[REDACTED] for the year ended December 31, 2022. Such change was primarily due to the increase in our loss of approximately RMB48.7 million for the year ended December 31, 2021 to approximately RMB99.1 million for the year ended December 31, 2022, which was primarily attributable to the decreases in our gross profit and gross profit margin for the same period, which were mainly attributable to (i) the decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of the peer competition resulting from the launch of its own centralized recycling platform in June 2022. For more detail, please refer to “Financial Information — Principal Income Statement Components — Gross Profit and Gross Profit Margin” in this document; and (ii) the relatively faster increase in our overall procurement cost of pre-owned mobile phones as compared to the increase in our sale of the same, as both markets of the consumer electronics recycling services and the second-hand consumer electronics got more competitive and the PRC economy also slowed down since the COVID-19 pandemic with the GDP growth rate decreasing from approximately 8.1% for the year ended December 31, 2021 to approximately 3% for the year ended December 31, 2022.

Our business had improved as a result of the recovery of our procurement and sales after the pandemic, and our adjusted loss (non-IFRS measure) decreased to approximately RMB[REDACTED] million for the year ended December 31, 2023.

We recorded an increase in adjusted loss (non-IFRS measure) of approximately RMB[REDACTED] million for the year ended December 31, 2024, which was also primarily due to the decreases in our gross profit and gross profit margin for the same period. The decrease in our gross profit for the year ended December 31, 2024 was primarily attributable to the decrease in gross profit margin of our sale of pre-owned mobile phones procured from the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of the peer competition resulting from the launch of its own centralized recycling platform in June 2022. The decrease in our gross profit margin for the year ended December

---

## SUMMARY

---

31, 2024 was primarily the reason that we had to generally raise our trade-in recycling prices to procure some of the pre-owned mobile phones from the supply channels of Consumer Electronic Brands B, C and D and Vivo to compete with other service providers within the centralized recycling platforms launched by these mainstream consumer electronic brands.

We recorded an adjusted profit (non-IFRS measure) of approximately RMB[REDACTED] for the six months ended June 30, 2025 as compared to an adjusted loss (non-IFRS measure) of approximately RMB[REDACTED] for the six months ended June 30, 2024. Such improvement was primarily due to the increases in our gross profit and gross profit margin of approximately RMB50.7 million and 6.3% for the six months ended June 30, 2025, respectively, as compared to approximately RMB25.9 million and 4.5% for the six months ended June 30, 2024, respectively. Such increases were primarily due to the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones, which in turn, attributable to (i) the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands B (and its designated distributors), primarily due to the decrease in commission fees paid to the sales staff of retail stores of Consumer Electronic Brand B as a result of our deepened business collaboration with them and its internal adjustment of fee policy; (ii) the increases in gross profit and gross profit margin of our sale of consumer electronics through offline sale procured through corporate recycling, primarily as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F; and (iii) the general increases in gross profit and gross profit margins of our sale of pre-owned mobile phones procured through the supply channels of some other mainstream consumer electronic brands as we had been actively staying informed about the market trend of the expected supply and demand and recycling and selling prices offered by our peer competitors to adjust our pricings in real-time, which in turn, minimize the impact of our ineffective pricing and at the same time, improve our overall gross profit margin. For more details, please refer to “Financial Information – Period to Period Comparison of Results of Operations” in this document.

In order to turn around our loss-making positions and to achieve a better profitability in the near future, we have made specific business plans and strategies. We expect that both of our revenue generated from the sale of our pre-owned consumer electronics, especially the pre-owned mobile phones, and revenue of our offline sale to grow as a result of our deepened strategic collaboration relationship with our upstream sourcing partners and our enhanced reputation and profile in the second-hand consumer electronic market. We also expect that our gross profit and gross profit margin to improve as we achieve economies of scale and as we continue to expand our recycling service business by providing synergies to our key upstream sourcing partners and expand our sales channels. Please refer to “– Our Strategies” in this section and “Future Plans and [REDACTED]” in this document for more details.

## SUMMARY

### *Gross profit and gross profit margin*

The following table sets out the breakdown of our gross profit and gross profit margin for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin
	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%
	<i>(Unaudited)</i>											
Sale of products.....	55,610	7.5	50,184	5.6	72,160	6.3	56,534	4.4	23,961	4.2	48,018	6.0
- Sale of pre-owned mobile phones .....	46,206	6.7	42,057	4.9	61,241	5.8	51,919	4.2	20,987	3.8	45,302	5.9
- Sale of other pre-owned consumer electronics .....	9,404	21.5	8,127	17.9	10,919	12.1	4,615	9.9	2,974	13.5	2,716	9.9
Other services <sup>(1)</sup> .....	5,861	46.8	5,483	31.6	6,183	34.1	5,562	28.9	1,917	24.0	2,703	30.5
<b>Total:.....</b>	<b>61,471</b>	<b>8.2</b>	<b>55,667</b>	<b>6.1</b>	<b>78,343</b>	<b>6.8</b>	<b>62,096</b>	<b>4.8</b>	<b>25,878</b>	<b>4.5</b>	<b>50,721</b>	<b>6.3</b>

*Note:*

- Other services primarily include (i) providing matching service to sellers and purchasers with bulk disposal or purchase needs for pre-owned consumer electronics; (ii) conducting quality inspection of pre-owned mobile phones transacted on certain well-known third-party e-commerce platforms; and (iii) providing after-sale services, such as screen assurance services.

Our gross profit and gross profit margin both decreased for the year ended December 31, 2022 as compared to the same for the year ended December 31, 2021, primarily due to the decreases in both of the gross profit and gross profit margin of our sale of pre-owned mobile phones from approximately RMB46.2 million and 6.7% for the year ended December 31, 2021, respectively, to approximately RMB42.1 million and 4.9% for the year ended December 31, 2022, respectively. Such decreases were primarily due to the decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of the peer competition resulting from the launch of its own centralized recycling platform in June 2022.

## SUMMARY

---

Our gross profit and gross profit margin both improved from approximately RMB55.7 million and 6.1% for the year ended December 31, 2022, respectively, to approximately RMB78.3 million and 6.8% for the year ended December 31, 2023. Such improvements were primarily attributable to (i) the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands A and C (and their designated distributors) as a result of the recovery of our procurement and sales after the pandemic; and (ii) the decrease in the cost of our promotion service and commission fees paid to certain of our upstream sourcing partners and/or the relevant front sales staff of their retail stores.

Our gross profit and gross profit margin both decreased from approximately RMB78.3 million and 6.8% for the year ended December 31, 2023, respectively, to approximately RMB62.1 million and 4.8% for the year ended December 31, 2024. The decrease in our gross profit for the year ended December 31, 2024 was primarily due to the continuous decrease in gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of the peer competition resulting from the launch of its own centralized recycling platform since June 2022. The decrease in our gross profit margin for the year ended December 31, 2024 was primarily the reason that we had to raise our trade-in recycling prices to procure some of the pre-owned mobile phones from the supply channels of Consumer Electronic Brands B, C and D and Vivo to compete with other service providers within the centralized recycling platforms launched by these mainstream consumer electronic brands.

Our gross profit and gross profit margin increased from approximately RMB25.9 million and 4.5% for the six months ended June 30, 2024, respectively, to approximately RMB50.7 million and 6.3% for the six months ended June 30, 2025.

## SUMMARY

For illustration purpose, the following table also sets out our gross profit and gross profit margin by sales channel for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin
	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%
<i>(Unaudited)</i>												
Sale of pre-owned consumer electronics through sales platforms .....	54,600	7.7	50,582	5.9	71,724	6.8	56,486	4.6	24,857	4.5	43,192	6.3
- Sale through Shanhui Youpin (閃回有品).....	47,447	7.4	46,078	5.8	60,532	6.5	48,837	4.2	21,345	4.1	38,796	6.1
- Sale through third party e-commerce platforms .....	7,153	10.3	4,504	7.2	11,192	9.6	7,649	11.7	3,513	9.8	4,396	9.0
Sale of consumer electronics through offline sale .....	1,010	3.8	(398) <sup>(1)</sup>	(1)	436	0.5	48	0.1	(896) <sup>(2)</sup>	(4.9)	4,826	4.1
<b>Total:.....</b>	<b>55,610</b>	<b>7.5</b>	<b>50,184</b>	<b>5.6</b>	<b>72,160</b>	<b>6.3</b>	<b>56,534</b>	<b>4.4</b>	<b>23,961</b>	<b>4.2</b>	<b>48,018</b>	<b>6.0</b>

*Notes:*

1. The gross loss of our sale through offline sale for the year ended December 31, 2022 was primarily due to us offering certain discount to some of our merchant customers under our sale through offline sale because we were not able to deliver our products to them in a timely manner due to the COVID-19 pandemic and the subsequent selling prices may be affected by the market change; and
2. The gross loss of our sale through offline sale for the six months ended June 30, 2024 was primarily due to a loss transaction with a merchant customer through offline sale when we had to reduce our selling prices of some electronic accessories due to our failure to sell them in a timely manner and hence, recorded a gross loss of approximately RMB0.8 million in this transaction.

## SUMMARY

### Selected Items from Consolidated Statements of Financial Position

The following table sets out selected information from our consolidated statements of financial position as of the dates indicated:

	As of December 31,				As of
					June 30,
	2021	2022	2023	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
<b>Current assets</b>					
Inventories.....	18,418	22,112	30,684	32,754	21,558
Trade and other receivables.....	39,956	89,254	107,987	98,838	85,811
Financial assets measured at fair value through profit or loss (“FVTPL”) .....	–	986	827	983	1,053
Restricted bank deposits.....	201	200	202	2,523	2,500

	<u>113,695</u>	<u>155,326</u>	<u>218,796</u>	<u>228,302</u>	<u>230,726</u>
<b>Current liabilities</b>					
Trade and other payables .....	26,951	77,575	47,746	52,092	55,004
Contract liabilities .....	9,721	9,018	4,721	9,200	13,191
Bank loans .....	–	11,000	105,000	101,500	88,900
Lease liabilities .....	1,908	1,984	5,531	6,023	3,671
Provisions.....	899	6,990	1,019	992	1,202
Redemption liabilities.....	307,003	376,386	685,213	759,024	790,544
Derivatives financial liabilities.....	4,479	8,077	1,000	–	–
	<u>350,961</u>	<u>491,030</u>	<u>850,230</u>	<u>928,831</u>	<u>952,512</u>
<b>Net current liabilities</b> .....	<u>(237,266)</u>	<u>(335,704)</u>	<u>(631,434)</u>	<u>(700,529)</u>	<u>(721,786)</u>
<b>Non-current assets</b> .....	2,860	4,185	14,540	12,935	8,365
<b>Non-current liabilities</b> .....	654	1,689	5,491	678	51
<b>Net liabilities</b> .....	<u>(235,060)</u>	<u>(333,208)</u>	<u>(622,385)</u>	<u>(688,272)</u>	<u>(713,472)</u>

As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, we recorded net liabilities of approximately RMB235.1 million, RMB333.2 million, RMB622.4 million and RMB688.3 million and RMB713.5 million, respectively. Our net liabilities increased from approximately RMB235.1 million as of December 31, 2021 to approximately RMB713.5 million as of June 30, 2025, primarily due to (i) our loss of approximately RMB48.7 million, RMB99.1 million, RMB98.3 million, RMB66.4 million and RMB24.6 million for the years

## SUMMARY

ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively; and (ii) the increase in our redemption liabilities as a result of the amount of changes in the carrying amount of our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors from approximately RMB307 million as of December 31, 2021 to approximately RMB790.5 million as of June 30, 2025. Our net liabilities increased from approximately RMB688.3 million as of December 31, 2024 to approximately RMB713.5 million as of June 30, 2025, primarily due to the increase in our redemption liabilities of approximately RMB31.5 million.

We expect that we would be able to turn our net liabilities and net current position into a net asset and net current asset position as upon [REDACTED], redemption liabilities will be automatically converted into equity of our Company and will be reclassified from liabilities to equity.

### Summary of the Consolidated Statements of Cash Flows

The following table sets out our cash flows for the periods indicated:

	Year ended December 31,				Six months ended June 30,

## SUMMARY

---

We had net cash used in operating activities of approximately RMB6.4 million, RMB43.7 million, RMB47.8 million and RMB18.4 million for the years ended December 31, 2021, 2022, 2023 and 2024, respectively. Our net cash outflows from operating activities for the years ended December 31, 2021, 2022, 2023 and 2024 were primarily attributable to our losses for the years. Our net cash outflows from operating activities for the years ended December 31, 2021, 2022 and 2023 were also partially attributable to our increases of receivables from upstream sourcing partners, which are mainstream consumer electronic brands and their designated distributors. The increases in our receivables from upstream sourcing partners were primarily due to (i) the increase in promotion discounts that were offered to consumers by certain mainstream consumer electronic brands but paid by us in advance as a result of our strengthened strategic cooperation with such mainstream consumer electronic brands to expand our supply effort and trade-in transaction services; and (ii) the extension of settlement period between us and Consumer Electronic Brand A due to the change of its internal trade payable policies. Our receivables from Consumer Electronic Brand A (and its designated distributors) for the years ended December 31, 2021, 2022 and 2023 were approximately RMB13.6 million, RMB35.7 million and RMB48 million, respectively. For more details of our receivables from upstream sourcing partners, please refer to “Financial Information – Certain Items of Consolidated Statements of Financial Position – Trade and Other Receivables” in this document.

We had net cash generated from operating activities of approximately RMB43.7 million for the six months ended June 30, 2025, which was primarily attributable to our decrease in receivables from our upstream sourcing partners, especially Consumer Electronic Brand A.

### **Working Capital**

As of June 30, 2025, being the latest practicable date for the purpose of indebtedness statement in this document, our bank loans, which were guaranteed, amounted to approximately RMB88.9 million. Our bank loans are primarily used to support our general working capital as our supply channels continue to expand and our sales business continues to grow. As of June 30, 2025, we had unutilized banking facilities of approximately RMB69.1 million.

Our Directors are of the view that, and the Sole Sponsor concurs, after taking into consideration that (i) our cash and cash equivalents balance of approximately RMB119.8 million as of June 30, 2025; (ii) our business strategies and plans to improve our liquidity and profitability by driving our operating cash flow through our expanding business; (iii) our ability to raise money from renowned investors to finance our business as evidenced by various rounds of [REDACTED] Investments completed during the Track Record Period, especially, we had fully completed our Series D-1 [REDACTED] Investment on February 22, 2024; (iv) our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors would be terminated upon their automatic conversion into ordinary Shares upon [REDACTED]; (v) the financial resources available to us, including cash flows from our operations, banking facilities and our other borrowings as aforementioned; and (vi) estimated [REDACTED] from the [REDACTED], we have sufficient working capital for at least 12 months commencing from the date of this document.

## SUMMARY

In future, we will continue to closely monitor the level of our working capital, and diligently review our future cash flow requirements and adjust our operations and expansion plans, if necessary, to ensure that we maintain sufficient working capital to support our business operations.

### Key Financial Ratios

	Year ended December 31,				Six months ended June 30,
	2021	2022	2023	2024	2025
Revenue growth rate <sup>(1)</sup> .....	48.8%	22.6%	26.0%	12.0%	40.3%
Gross profit margin <sup>(2)</sup> .....	8.2%	6.1%	6.8%	4.8%	6.3%
Net loss margin <sup>(3)</sup> .....	(6.5%)	(10.8%)	(8.5%)	(5.1%)	(3.0%)
Adjusted profit/(loss) margin (non-IFRS measure) <sup>(4)</sup> .....	[REDACTED]%	([REDACTED])%	([REDACTED])%	([REDACTED])%	[REDACTED]%

*Notes:*

- Revenue growth rate represents the revenue for the current financial year/period less the revenue for the previous financial year/period divided by revenue for the previous financial year/period and multiplied by 100%;
- Gross profit margin represents the gross profit for the financial year/period divided by the revenue for the financial year/period and multiplied by 100%;
- Net loss margin represents the loss for the financial year/period divided by the revenue for the financial year/period and multiplied by 100%; and
- Adjusted profit/(loss) margin (non-IFRS measure) represents the adjusted profit/loss (non-IFRS measure) for the financial year/period divided by the revenue for the financial year/period and multiplied by 100%.

For more details of our financial ratios, please refer to “Financial Information – Key Financial Ratios” in this document.

### IMPACT OF THE COVID-19 PANDEMIC

During the Track Record Period, we had employed various measures to mitigate any impact that COVID-19 outbreak might have on our business, including, among others, temporary closure of our inspection and operation centers, remote working arrangements for our employees, and travel restrictions or suspension. During the peak of the COVID-19 pandemic in early 2020 and first half of 2022, our business was affected to some extent by the nation-wide pandemic prevention and control requirements and market demand. Some of the retail stores of our upstream sourcing partners and our inspection and operation centers had to be temporarily closed. However, we took immediately corrective measures to reduce the adverse effects of the COVID-19 pandemic. For instance, we ensured no interruption of our proprietary systems, especially our Shanhui Youpin (閃回有品) online platform and BOSS System at the back office, and also arranged sufficient manpower and logistics in our

---

## SUMMARY

---

inspection and operation centers that were still in normal operation. These measures were extremely critical to our business during the pandemic as some of pre-owned consumer electronics dealers had to shift to e-commerce channels to increase the recirculation and trading efficiency of their inventories.

As the COVID-19 outbreak was quickly brought under control by the PRC government, our business and operations were quickly back to normal. Furthermore, since December 2022, the PRC government has relaxed the national COVID-19 prevention measures, such as releasing measures to accelerate the economic recovery and resume normal operations of the society. Based on the above, our Directors are of the view that the outbreak of the COVID-19 pandemic did not and will not have a material adverse effect on our business, results of operations and financial condition.

### **NO MATERIAL ADVERSE CHANGE**

Our Directors confirm that so far as they are aware, since June 30, 2025 and up to the date of this document, save for a potential large increase in our changes in carrying amount of the redemption liabilities (which represent amount of changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors) during the second half of the year of 2025, which is primarily due to an increase in our Group's valuation, there had been no material adverse change in our financial or trading position since June 30, 2025, being the end date of the latest reporting period reported in the Accountants' Report in Appendix I to this document, and there has been no event since June 30, 2025 which would materially affect the information shown in the Accountants' Report in Appendix I to this document.

### **NO DIVIDEND POLICY**

During the Track Record Period and up to the Latest Practicable Date, we had not distributed any dividends to the then equity holders of our Group, and we currently do not have dividend policy. In future, our Board may declare dividends after taking into account our results of operations, financial condition, cash requirements and availability and other factors as it may deem relevant at such time. Any declaration and payment, as well as the amount of dividends, will be subject to our constitutional documents and the Cayman Companies Act. Under the Cayman Islands law, our Company may pay a dividend out of either profit or, with the sanction of an ordinary resolution, share premium account, provided that in no circumstances may a dividend be paid if this would result in our Company being unable to pay its debts as they fall due in the ordinary course of business. In addition, our Directors may from time to time pay such interim dividends on shares outstanding of our Company and authorize payment of the same out of the funds of our Company that are lawfully available. Our future declarations of dividends may or may not reflect our historical declarations of dividends and will be at the discretion of our Board.

---

## SUMMARY

---

As advised by our Cayman Legal counsel, under the Cayman Companies Act, a Cayman Islands company may pay a dividend out of profits and/or share premium account, provided that in no circumstances may a dividend be paid out of share premium if this would result in the company being unable to pay its debts as they fall due in the ordinary course of business. Accordingly, notwithstanding that our Company had accumulated losses, our Company should be able to declare a dividend out of our share premium if the payment of such dividend would not result in our Company being unable to pay our debts as they fall due in the ordinary course of business.

### [REDACTED] STATISTICS

The statistics in the following table are based on the assumptions that (i) the [REDACTED] is completed and [REDACTED] Shares are issued and sold in the [REDACTED]; and (ii) [REDACTED] Shares are issued following the completion of the [REDACTED] and [REDACTED].

	Based on an [REDACTED] of HK\$[REDACTED] per Share	Based on an [REDACTED] of HK\$[REDACTED] per Share
Market capitalization of the Shares following the completion of the [REDACTED] and the [REDACTED]	[REDACTED]	[REDACTED]
Unaudited [REDACTED] adjusted consolidated net tangible assets attributable to owners of the Company per Share <sup>(1)</sup>	[REDACTED]	[REDACTED]

*Note:*

1. The unaudited [REDACTED] adjusted consolidated net tangible assets attributable to owners of the Company per Share were calculated after adjustments as specified in “Appendix II – Unaudited [REDACTED] Financial Information.” No adjustment has been made to reflect any trading result or other transactions of the Group entered into subsequent to June 30, 2025.

### [REDACTED] EXPENSES

[REDACTED] expenses represent professional fees, [REDACTED], and other fees incurred in connection with the [REDACTED]. Assuming an [REDACTED] of HK\$[REDACTED] per [REDACTED] (being the mid-point of the [REDACTED] range stated in this document), [REDACTED] expenses and [REDACTED] costs to be borne by us are estimated to be approximately HK\$[REDACTED] (including (i) [REDACTED] of approximately HK\$[REDACTED], and (ii) [REDACTED] of approximately HK\$[REDACTED], which consist of fees and expenses of the legal advisors and reporting accountants of our Company of approximately HK\$[REDACTED] million and other fees and expenses of approximately HK\$[REDACTED]), assuming the [REDACTED] is not exercised and no shares are issued pursuant to the Share Option Scheme. During the Track Record Period, we incurred [REDACTED] expenses of approximately RMB[REDACTED], RMB[REDACTED], RMB[REDACTED], RMB[REDACTED] and RMB[REDACTED], which were recognized in our consolidated statements of profit and loss for the years ended

---

## SUMMARY

---

December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively, and approximately RMB[REDACTED] were recognized as prepayments in our consolidated statements of financial position as of June 30, 2025, which will be accounted for as a deduction from equity upon [REDACTED]. Subsequent to the Track Record Period, approximately RMB[REDACTED] (equivalent to approximately HK\$[REDACTED]) is expected to be charged to our consolidated statements of profit or loss, approximately RMB[REDACTED] (equivalent to approximately HK\$[REDACTED]) is expected to be accounted for as a deduction from equity upon [REDACTED]. The [REDACTED] expenses are expected to account for [REDACTED]% of [REDACTED] generated from the [REDACTED]. The [REDACTED] expenses and [REDACTED] costs above are the latest practicable estimate for reference only, and the actual amount may differ from this estimate.

### APPLICATION FOR [REDACTED] OF SHARES ON THE HONG KONG STOCK EXCHANGE

We have applied to the Stock Exchange for the [REDACTED] of, and permission to [REDACTED], our Shares in [REDACTED] prior to the [REDACTED] and those to be [REDACTED] pursuant to Rule 8.05(3) of the Listing Rules, on the basis that, among other things, we satisfy the market capitalization/revenue test under Rule 8.05(3) of the Listing Rules. Our expected [REDACTED] at the time of [REDACTED], which, based on the low-end of the indicative [REDACTED] range, is approximately HK\$[REDACTED].

### USE OF [REDACTED]

We estimate that the aggregate [REDACTED] of the [REDACTED] to be received by us (after deducting [REDACTED] and estimated expenses payable by us in connection with the [REDACTED], and assuming an [REDACTED] of HK\$[REDACTED] per [REDACTED], being the mid-point of the indicative [REDACTED] range of HK\$[REDACTED] to HK\$[REDACTED] per [REDACTED]) will be approximately HK\$[REDACTED], assuming that the [REDACTED] is not exercised. We currently intend to apply such [REDACTED] in the following manner:

- approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to further increase our technology, research and development capabilities and upgrade our infrastructure to continue to empower our business offerings and operational efficiency;
- approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to further enhance our strategic cooperation with our upstream sourcing partners to continuously strengthen our current market position in the PRC offline trade-in mobile phone recycling services and to expand our transaction service coverage;
- approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to increase our marketing and promotion efforts and expand our business to sales channels that have more market potential to steadily increase our sales volume and profit margin;

## SUMMARY

---

- approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used primarily for our strategic investments and/or potential acquisitions in businesses which offer products and/or services that supplemental to those which we currently offer and match our growth strategies; and
- the remaining approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used for working capital and general corporate purposes.

For more details, please refer to “Future Plans and [REDACTED] – [REDACTED]” in this document.

## DEFINITIONS

*In this document, unless the context otherwise requires, the following terms shall have the meanings set out below.*

“Accountants’ Report”	the accountants’ report on our Group for the Track Record Period as set out in Appendix I to this document

## FORWARD-LOOKING STATEMENTS

---

*We have included in this document forward-looking statements. Statements that are not historical facts, including statements about our intentions, beliefs, expectations or predictions for the future, are forward-looking statements.*

This document contains certain forward-looking statements and information relating to our Company and our subsidiaries that are based on the beliefs of our management as well as assumptions made by and information currently available to our management. When used in this document, the words “aim”, “anticipate”, “believe”, “could”, “expect”, “going forward”, “intend”, “may”, “ought to”, “plan”, “project”, “seek”, “should”, “will”, “would” and the negative of these words and other similar expressions, as they relate to our Group or our management, are intended to identify forward-looking statements. Such statements reflect the current views of our management with respect to future events, operations, liquidity and capital resources, some of which may not materialize or may change. These statements are subject to certain risks, uncertainties and assumptions, including the other risk factors as described in this document. You are strongly cautioned that reliance on any forward-looking statements involves known and unknown risks and uncertainties. The risks and uncertainties facing our company which could affect the accuracy of forward-looking statements include, but are not limited to, the following:

- our business and operating strategies and our plans to achieve such strategies;
- our operations and business prospects, including development plans for our existing and/or new businesses;
- future developments and competitive environment in the PRC and the other markets in which we operate;
- the regulatory environment and industry outlook in general for the industries discussed herein;
- general political, economic, legal and social conditions in PRC and the other markets in which we operate;
- our ability to attract customers and build our brand profile;
- our ability to control or reduce costs and offer competitive prices;
- our financial condition and operating results and performance;
- our dividend distribution plans;
- the actions and developments of our competitors;

---

## FORWARD-LOOKING STATEMENTS

---

- our ability to attract and retain senior management and key employees;
- capital market developments;
- change or volatility in interest rates, foreign exchange rates, equity prices, volumes, operations, margins, risk management and overall market trends;
- other statements in this document that are not historical fact; and
- other factors beyond our control, such as global climate change and outbreaks of pandemic.

When used in this document, the words “aim”, “anticipate”, “believe”, “can”, “consider”, “continue”, “could”, “estimate”, “expect”, “forecast”, “going forward”, “intend”, “may”, “might”, “ought to”, “plan”, “predict”, “project”, “propose”, “potential”, “seek”, “shall”, “should”, “will”, “would”, “with a view to” and the negatives of these terminologies and similar expressions, as they relate to us, are intended to identify forward-looking statements. We make these forward-looking statements based on current plans and estimates and they speak only as of the date they were made. These forward-looking statements are not a guarantee of future performance. Actual outcomes could be caused to differ materially from those expressed in any forward-looking statements by, including without limitation, the risk factors set forth under “Risk Factors” in this document.

Although our Directors believe that our current views as reflected in these forward-looking statements based on currently available information are fair and reasonable and that our Directors confirm that these forward-looking statements are made after due and careful consideration, we can give no assurance that these views will prove to be correct. You are strongly cautioned that reliance on any forward-looking statements in this document involves known and unknown risks and uncertainties. The risks and uncertainties in this regard include, but are not limited to, those identified in “Risk Factors” in this document, many of which are not within our control. In light of these and other uncertainties, the inclusion of forward-looking statements in this document should not be regarded as representations by us or our Directors that our plans or objectives will be achieved.

Should one or more of the risks or uncertainties materialize, or should underlying assumptions prove to be incorrect, our financial condition may be adversely affected and may vary materially from those described herein as anticipated, believed, estimated or expected.

The information and assumptions contained in the forward-looking statements have not been independently verified by us, our substantial shareholders, the Sole Sponsor, the [REDACTED], the [REDACTED], the [REDACTED], the [REDACTED], the [REDACTED], any other party involved in the [REDACTED] or their respective directors, officers, employees, advisors or agents and no representation is given as to the accuracy or completeness of such information or assumptions on which the forward-looking statements are made. Additional factors that could cause actual performance or achievements of our Group to differ materially include, but are not limited to, those discussed under “Risk Factors” and elsewhere in this document.

## **FORWARD-LOOKING STATEMENTS**

---

Subject to the requirements of applicable laws, rules (including the Listing Rules) and regulations, we do not have any and undertake no obligation to update or otherwise revise any forward-looking statements in this document, whether as a result of new information, future events or developments or otherwise. As a result of these and other risks, uncertainties and assumptions, the forward-looking events and circumstances contained in this document might not occur in the way we expect, or at all. Accordingly, you should not place undue reliance on any forward-looking information. All forward-looking statements contained in this document are qualified by reference to the cautionary statements set out in this section.

In this document, statements of or reference to our intentions or that of any of our Directors are made as of the date of this document. Any such intentions may change in light of future developments.

---

## RISK FACTORS

---

*You should carefully consider all of the information in this document, including the risks and uncertainties described below, before making an investment in our [REDACTED], in light of the circumstances and your own investment objectives. These risks could materially and adversely affect our business, financial condition, results of operations and prospects. This document contains certain forward-looking statements regarding our plans, objectives, expectations and intentions, which involve risks and uncertainties. The [REDACTED] of our [REDACTED] could significantly decrease due to any of these risks, and you may lose part or all of your investment. The risks described below are those that we believe are material, but these may not be the only risks and uncertainties that we face. Additional risks we have not identified or which we currently deem immaterial may nevertheless have a material adverse effect on our business, financial condition, and results of operations, or result in other events that could lead to a decline in the value of our [REDACTED].*

### RISKS RELATING TO OUR BUSINESS AND INDUSTRY

**We rely on our upstream sourcing partners to obtain steady supply of the pre-owned consumer electronics, and any deterioration in our relationships with these upstream sourcing partners may materially and adversely affect our business, results of operations and financial condition**

Strategic collaborations with our upstream sourcing partners, which primarily include mainstream consumer electronic brands and their designated distributors, sizable merchants for consumer electronic products and major mobile network operators in the PRC, have been our key to obtain access to stable and desirable supply of pre-owned consumer electronics. During the Track Record Period, we had deeply benefited from our mutually beneficial relationship with these upstream sourcing partners and we expect to continue to collaborate and rely on their offline geographic coverage for our supply for the foreseeable future. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the aggregate number and total procurement value of pre-owned consumer electronics, mainly mobile phones, procured through the channels of our upstream sourcing partners by way of trade-in solution were approximately 1,033,000, 1,173,000, 1,505,000, 1,286,000, and 741,000 units and approximately RMB538.1 million, RMB659.3 million, RMB838.8 million, RMB1,035.6 million and RMB585.1 million, respectively.

We cannot assure you that we will be able to maintain our business relationships with our upstream sourcing partners in the future. We may not be able to successfully renew or extend our current business arrangements with these upstream sourcing partners on commercially reasonable terms, or at all, upon expiration or early termination of the current arrangements. In the event that we fail to maintain our business relationship with any of our major upstream sourcing partners, especially, the mainstream consumer electronic brands and their designated distributors, we may not be able to establish a similar cooperative relationship with a comparable upstream sourcing partner under commercially reasonable terms in a timely

---

## RISK FACTORS

---

manner, if at all. Further, if some of these upstream sourcing partners experience a business deterioration, a decline in market position or market share, or a damage to brand image or reputation, our recycling service business may be materially and adversely affected due to our reliance on with them. On the other hand, the steady access of upstream supply channels for pre-owned consumer electronics is critical for our resale of the same to our customers. Hence, any deterioration in our business relationships with our upstream sourcing partners would materially and adversely affect our business, results of operations and financial condition.

**Our limited bargaining power with upstream sourcing partners and customers and the fluctuation of our procurement cost and selling prices of pre-owned mobile phones may further affect our gross profit and gross profit margins, leading to a material and adverse impact on our profitability**

Our gross profit margins primarily reflect the differences between the prices we pay for to procure the pre-owned consumer electronics from our supply channels and the prices we resell them on our sales platforms. Our gross profit margins remained relatively low, recording approximately 8.2%, 6.1%, 6.8%, 4.8% and 6.3% for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively.

On the procurement side, in order to keep up our recycling volume and maintain our market share, we may need to increase our procurement cost (largely, the recycling prices) of pre-owned consumer electronics and the commission fees paid to front sales staff of our upstream sourcing partners' retail stores. Further, our gross profit and gross profit margin of sale of pre-owned mobile phones were also largely affected by the gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of our different upstream sourcing partners. On the sale side, we may not be able to fully transfer our procurement cost to our customers as the majority of our customers during the Track Record Period were merchant customers and the selling prices of second-hand mobile phones to them were relatively market driven and competitive. In general, we have limited bargaining power on both the procurement side and the sale side. This was the primary reason for the decrease in our gross profit margin from approximately 6.8% for the year ended December 31, 2023 to approximately 4.8% for the year ended December 31, 2024. The selling prices of our pre-owned consumer electronics may also be influenced by the sale of a large volume of pre-owned mobile phones which are of older model and have lower resalable value, or any other factors that are not currently predictable. Should there be a significant reduction in the average selling price per pre-owned consumer electronics, our business, results of operations and financial condition may also be adversely affected.

We cannot guarantee that we are able to maintain or improve our gross profit and gross profit margin in the future as the various business strategies we formulated may not be working. Furthermore, our other key upstream sourcing partners may also launch their own centralized recycling platforms so that our procurement cost and market competition may continue to increase. If these happen, our business, growth prospects, results of operations and financial condition would be materially and adversely affected.

---

## RISK FACTORS

---

**Our brand image is integral to our success, and failure to maintain our reputation and brand profile may have a material adverse impact on our business, results of operations, financial condition and prospects**

We believe that maintaining, promoting and enhancing our reputation and brand profile are critical to maintaining and expanding our business. The reputation and brand profile that we have built up over the years have played a significant role in enabling us to obtain steady supply of pre-owned consumer electronics from individual consumers through the channels of our upstream sourcing partners, and maintain existing customers and attract new buyers in the secondhand consumer electronics market. Maintaining and enhancing our core brands, namely Shanhuishou (閃回收) and Shanhui Youpin (閃回有品), depend largely on our ability to continue to provide high quality integrated solution from initiating recycling by way of trade-in while facilitating sale of new mobile phone to standardizing the procured pre-owned consumer electronics for resale, which we cannot assure that we will do successfully. If we fail to maintain our reputation, or our upstream sourcing partners, customers and individual consumers no longer perceive our products and/or services to be of high quality, or if they no longer perceive us as a business partner with high credibility for any reason, our reputation and brand image may be adversely affected, which, in turn, may affect our ability to maintain existing business relationships or to capture future business opportunities. In the event that these happen, our business, results of operations, financial condition and prospects may be materially and adversely affected.

**We largely rely on the sales personnel of our upstream sourcing partners’ retail stores to provide in-store consumers with high-quality trade-in experience, failure to do so may materially and adversely affect our business, reputation, results of operations and financial condition**

The success of our business hinges on the ability to attract and engage in-store consumers to sell their pre-owned consumer electronics through our trade-in solutions offered in the retail stores of our upstream sourcing partners, which in turn, largely depends on the services provided by the sales staff of our upstream sourcing partners’ retail stores to the in-store consumers during the trade-in transactions. Generally, for transactions conducted under offline trade-in solutions, an individual consumer waits onsite and monitors the quality inspection, pricing and initial data erasing process of their old mobile phone through our system, and pays for his/her new mobile phone after deduction of price of the old mobile phone and other promotion discounts, if applicable. Pursuant to the business arrangements between us and our upstream sourcing partners, we typically provide trainings to the front sales staff of their retail stores on the efficient use of our proprietary inspection and pricing system and offer other necessary support at the back office in our operation and inspection centers during consumers’ trade-in transactions. As such, we largely rely on these sales staff to provide in-store consumers with high-quality trade-in experience by correctly conducting preliminary check and uploading the photos and auxiliary information of the pre-owned consumer electronics proposed to be traded-in for review, and completing the trade-in transaction within a few minutes. As we do not operate these retail stores, the standard and/or procedures on provision of in-store consumers’ trade-in services may be compromised by a number of factors, which may be

---

## RISK FACTORS

---

beyond our control. As such, we cannot always guarantee that our trade-in solutions and services will be able to be delivered up to our standard in our upstream sourcing partners’ retail stores. If the sales personnel of our upstream sourcing partners’ retail stores fails to provide high-quality trade-in experience to the in-store consumers, our recycling service business and reputation may be materially and adversely affected, which would, in turn, affect our sale business, results of operations and financial condition.

**We recorded net current liabilities and net liabilities during the Track Record Period and may not generate sufficient cash flows in the future to finance our operations or meet our current liabilities**

We recorded net current liabilities of approximately RMB237.3 million, RMB335.7 million, RMB631.4 million, RMB700.5 million and RMB721.8 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively. Our net current liabilities during the Track Record Period were primarily due to the increases in our redemption liabilities, which amounted to approximately RMB307 million, RMB376.4 million, RMB685.2 million, RMB759 million and RMB790.5 million for the same periods, respectively, as a result of changes in the carrying amount of our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. As a result, we also recorded net liabilities of approximately RMB235.1 million, RMB333.2 million, RMB622.4 million, RMB688.3 million and RMB713.5 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025. We expect that we would be able to record net current asset position upon the termination of these preferential rights upon [REDACTED]. For more details of our [REDACTED] Investments, please refer to “History, Reorganization and Corporate Structure – 5. [REDACTED] Investments” and “Financial Information – Liquidity and Capital Resources – Current Assets and Liabilities” in this document. Please also refer to note 22 to our financial statements included in the Accountants’ Report in Appendix I to this document.

Our future liquidity, the payment of trade and other payables and the repayment of our outstanding debts when they become due will primarily depend on future operating and financial performance, including our ability to maintain adequate cash inflows from operating activities and our ability to obtain adequate financing. Our future performance will be impacted by prevailing economic conditions and a range of other business and competitive factors which are beyond our control. Therefore, there is no assurance that we will not experience net current liabilities and/or net liabilities in the future. The net current liabilities position would expose us to liquidity risk which could restrict our ability to make necessary capital expenditure or develop business opportunities, and our business, operating results and financial condition could be materially and adversely affected. There is also no assurance that we will always have adequate funds to meet our repayment obligations, or that our historical net current liabilities will not impair our liability to obtain new borrowings to finance our operation or capital commitments. In such circumstances, our business, financial position, results of operations and prospects may be materially and adversely affected.

---

## RISK FACTORS

---

**We face intense competition in the industries where we operate, and our inability to compete effectively may materially and adversely affect our business, financial condition and results of operations.**

We face intense competition in providing consumer electronics trade-in-and-resale services. We face competition mainly from the other top service providers engaging in the recycling services in the PRC, which may have significantly more resources than we do, including financial, technological and marketing resources. These could allow them to develop new service lines, adapt more quickly to changes in technology and to undertake more extensive marketing campaigns, which may render our platforms less attractive to upstream business partners and customers, and cause us to lose market share. Those smaller companies or new entrants may also be acquired by, receive investment from or enter into strategic relationships with more well-established and well-financed companies or investors which would help enhance their competitive positions. Furthermore, apart from Consumer Electronic Brand B, Consumer Electronic Brand D and Vivo, our other key upstream sourcing partners may also launch their own centralized recycling platforms which may continue to intensify the peer competitions among the qualified mobile phone recycling service providers. Please refer to “Industry Overview” in this document for more information.

If we are unable to compete effectively, we may not be able to attract and retain customers and business partners, and our market share, revenue growth, profitability and reputation may be negatively affected, which could materially and adversely affect our business, results of operations and financial condition.

**We incurred losses during the Track Record Period and had net cash used in operating activities for the years ended December 31, 2021, 2022, 2023 and 2024, which may continue in the future**

We incurred losses of approximately RMB48.7 million, RMB99.1 million, RMB98.3 million, RMB66.4 million, and RMB24.6 million for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. We also had net cash used in operating activities of approximately RMB6.4 million, RMB43.7 million, RMB47.8 million and RMB18.4 million for the years ended December 31, 2021, 2022, 2023 and 2024, respectively. Our losses for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025 were primarily attributable to the changes in carrying amount of our redemption liabilities as a result of changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors, and our losses for the years ended December 31, 2022 and 2024 were also attributable to the decreases in our gross profit for the same years. Our net cash outflows from operating activities for the years ended December 31, 2021, 2022, 2023 and 2024 were primarily attributable to our losses for the same years. Our net cash outflows from operating activities for the years ended December 31, 2021, 2022 and 2023 were also partially attributable to our increases of receivables from certain major upstream sourcing partners, which are mainstream consumer electronic brands and their designated distributors. For more details of our net cash flows used in operating activities and our receivables, please refer to “Financial Information” in this document. Nevertheless, we may continue to develop and expand our recycling and sale businesses and further make investments into our technologies and recycling and sales platforms, while these investments may not result in an increase in revenue or positive net cash flows from our operations on a timely basis, or at all.

---

## RISK FACTORS

---

We may continue to incur losses and negative net cash flows from our operations in the future for a number of reasons, including our continuous redemption obligations, increasing competition of the pre-owned consumer electronic trade-in services, decreasing demand or slower than expected increase in demand for pre-owned consumer electronics and our services, as well as other risks discussed herein, and we may incur unforeseen expenses, or encounter difficulties, complications and delays in generating revenue or achieving profitability. If our revenue decreases, we may not be able to reduce our costs and expenses proportionally in a timely manner because a significant portion of our costs and expenses are fixed. In addition, if we reduce our costs and expenses, we may limit our ability to maintain and expand our sourcing network, our customer base and further grow our revenues. Accordingly, we may not be able to achieve profitability and we may continue to incur losses in the future.

**We are exposed to credit risk of trade and other receivables, and our business, financial conditions and operating results may be materially and adversely affected by our counterparties’ abilities to settle their payments in a timely manner.**

Our trade and other receivables amounted to approximately RMB40 million, RMB89.3 million, RMB108 million, RMB98.8 million and RMB85.8 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively. Our counterparties may not be able to settle their payment with us in a timely manner, or at all. Accordingly, we are subject to credit risk in collecting trade and other receivables. We typically record impairment losses on our trade receivables and other receivables under expected credit loss model. We may reverse the impairment loss when our counterparties eventually pay. For the years ended December 31, 2021, 2022, 2023 and 2024, our impairment losses on trade and other receivables amounted to approximately RMB1 million, RMB1.2 million, RMB4.4 million and RMB3 million respectively. For the six months ended June 30, 2025, we had reversal of impairment loss on trade and other receivables of approximately RMB0.1 million. In the event that our counterparties experience financial distress or are unable to settle their payments due to us in a timely manner, or at all, our results of operations and financial condition may be materially and adversely affected. Our counterparties’ ability to pay could deteriorate due to reasons beyond our control, which could have a material adverse impact on our results of operations and financial condition.

**Any significant slowdown in the PRC macroeconomic condition coupled with intensive competition in the industry may materially and adversely affect our business, results of operation and financial condition**

We are subject to the challenging macroeconomic condition in the PRC, which may result in significant downturn in the economy and hence, softened consumer demand for consumer electronics and thus trade-in services. Under such market condition, the desire of individual consumers to replace their consumer electronics would be lowered, and thus we may need to increase the trade-in prices of pre-owned consumer electronics of similar models and/or quality as compared to previous years to keep up our recycling volume and maintain our position in the mobile phone recycling service market.

---

## RISK FACTORS

---

The challenging macroeconomic condition may exert constraints on our supply, increase our operating expenses and capital expenditures, and reduce our revenue and gross profit margin. Failure to cope with the PRC economy downturn may materially affect our business, results of operations and financial condition.

**If we are unable to expand our sales channels to broaden our customer base, our business, results of operations and financial condition may be materially and adversely affected**

Our future growth and gross profit margin depend on our ability to expand our sales channels to broaden our customer base through both of our proprietary online platform, Shanhui Youpin (閃回有品), as well as our own online stores operated on various third-party e-commerce platforms. We cannot guarantee that our development on these social media platforms will be always successful or can be sustained in the future. If our sales effort on these social media platforms fail while we are not able to develop new sales channels to broaden our customers, our business, results of operations and financial condition would be materially and adversely affected.

**We may not be able to effectively and accurately inspect, grade and price the pre-owned consumer electronics we obtained through our supply channels**

We obtain our supply of pre-owned consumer electronics primarily from trade-ins transacted in both online or offline retail stores of mainstream consumer electronic brands, and retail stores operated by the designated distributors of mainstream consumer electronic brands, sizable merchants for consumer electronic products and major mobile network operators, where individual consumers are our ultimate suppliers. We then process these pre-owned consumer electronics for resale using our proprietary inspection, grading and pricing technologies in our operation and inspection centers, and efficiently distribute such to a variety of buyers in the second-hand market. As there are no uniform or established standards or practices for inspecting, grading and pricing pre-owned consumer electronics in the market, we created our own grading and pricing technology with AI capabilities leveraging our central database. However, we cannot assure you that our business practices represent the best practice in the pre-owned consumer electronics transaction services industry or that they will yield maximum commercial benefits. We may not be able to identify all potential defects of the pre-owned consumer electronics traded in using our proprietary inspection technologies and grade them accurately. Even if we are able to do so, we cannot guarantee you that the prices we assign to those pre-owned consumer electronics reflect the actual or fair value of those pre-owned consumer electronics. If consumers believe that the prices determined or suggested by us do not reflect the fair value or their deemed value of the pre-owned consumer electronics they are going to sell via our trade-in services, they may choose other platforms over us, leading to a decrease in our supply of pre-owned consumer electronics, which in turn would result in our losing of supply sources and a decline in transaction volume on our sales channels, either of which could materially and adversely affect our business, results of operations and financial condition.

---

## RISK FACTORS

---

**Our strategy to further enhance and expand our offline supply network may not be successful, failure of which may materially and adversely affect our business, results of operations and financial condition**

During the Track Record Period, we had remained steadfast in extending our services to retail stores of our upstream sourcing partners. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the aggregate number and total procurement value of pre-owned consumer electronics, mainly mobile phones, we procured through the channels of our upstream sourcing partners by way of trade-in solution were approximately 1,033,000, 1,173,000, 1,505,000, 1,286,000, and 741,000 units and approximately RMB538.1 million, RMB659.3 million, RMB838.8 million, RMB1,035.6 million and RMB585.1 million, respectively.

We have been constantly discussing business opportunities and future collaboration methods as well as pursuing new strategic initiatives with our existing upstream sourcing partners, and we aim to further expand our supply network through extending our service coverage to more retail stores with a national geographic reach. However, we may not be able to implement our strategies successfully to expand our offline supply channel as we planned. Further, we may not be able to identify and attract enough retail stores of our upstream sourcing partners with sufficient resources and strong local ties to collaborate with us in the near future. Even we are able to do so, there is no assurance that these upstream sourcing partners will be willing or able to renew their agreements with us on similar terms or will not enter into agreements with our competitors, which may negatively affect our strategic expansion plan. We may also need to carefully consider geographical locations of each retail store in our supply network so as to reach consumers to the maximum extent while avoiding cannibalization resulting from geographical proximity among retail stores.

Any factors listed above, either individually or in aggregate, might delay or make our plan to expand our source of supply in desirable locations at manageable cost levels fail. If any of above circumstances happened, our supply network expansion plan would be materially and adversely affected, which would then affect our business, results of operations and financial condition.

**We have incurred and will continue to incur significant costs for the procurement of pre-owned consumer electronics, and failure to resell these pre-owned consumer electronics in time or failure to manage our liquidity and cash flows or inability to obtain additional financing in the future may materially and adversely impact our business, results of operations and financial condition**

Our pre-owned consumer electronics recycling business incurs significant upfront procurement costs as for orders placed in online or offline retail stores, the individual consumer gets paid immediately after accepting the final price quote for the pre-owned consumer electronic device. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our costs of sales were approximately RMB688.3 million,

---

## RISK FACTORS

---

RMB863.4 million, RMB1,080.1 million, RMB1,235.2 million and RMB758.8 million, respectively, among which, approximately 85.3%, 86.1%, 88.4%, 88.7% and 91.3% were the cost of our procurement of pre-owned consumer electronics. Moreover, based on our business arrangement with certain of our major upstream sourcing partners, which are primarily mainstream consumer electronic brands and their designated distributors, we are also required to pay promotion discounts that were offered to individual consumers by certain mainstream consumer electronic brands in advance to facilitate the promotional sales of their new models of mobile phones transacted under our trade-in solution, or to make security deposit in advance for conducting our recycling service transactions in their online and offline retail stores.

We cannot guarantee you that we can always resell our procured pre-owned consumer electronics immediately or in a reasonable short of period of time. Failure of which may result in shortage of our working capital, which in turn, may affect our liquidity and cash flow. In addition, leveraging our deep and synergistic relationship with our various upstream sourcing partners, we have become a regular processor of certain mainstream consumer electronic brands for handling their excess inventories and demonstration devices which cannot be sold as brand-new products. We also commenced offering customized supply services to corporations to satisfy their needs for diverse business scenarios. All of these would require significant working capital. As such, if we fail to resell the pre-owned consumer electronics we procured in time or fail to manage our liquidity and cash flows or inability to obtain additional financing, our business, results of operations and financial condition may be materially and adversely affected.

**The proper functioning of technology platforms is essential to our business, and any failure to maintain the satisfactory performance of our operating systems and mobile applications may materially and adversely affect our business, results of operations and financial condition**

The satisfactory performance, reliability and availability of our proprietary and third-party technology platforms are critical to our success and our ability to support and work with our upstream sourcing partners to conduct trade-in solutions, retain and serve our existing customers and attract more users to use our pre-owned consumer electronics transaction services. Almost all of our business and services are conducted through technology platforms, for example, the retail stores of our upstream sourcing partners rely on our proprietary Shanhuishou (閃回收) recycling system, Shanhui Youpin (閃回有品) online platform, back-end BOSS System and other technology systems to complete our recycling and sale businesses. Any system interruptions caused by telecommunications failures, computer viruses, hacking, willful misconduct of employees sabotaging our operating systems or data, or other attempts to harm our proprietary or third-party technology platforms may result in the unavailability or slowdown of our operating systems and mobile applications or reduced order fulfillment performance could reduce our transaction volume and the attractiveness of our service offerings.

## RISK FACTORS

---

We periodically update our operating system and release new versions in order to obtain a superior user experience of our platform. Our operating system may contain programming errors that only become apparent after their release. During the Track Record Period and up to the Latest Practicable Date, we had not experienced any programming error which had a material impact on our operations. However, we cannot assure you that we can always detect and resolve all such programming errors effectively and timely. Undetected programming errors could adversely affect our operations, user experience and market acceptance. Any errors, bugs or vulnerabilities discovered in our code after release could result in interruption of our operations, and damage to our reputation, loss of users, loss of revenues or liability for damages, any of which could adversely affect our business and operating results.

**If we fail to maintain and upgrade our proprietary technology to adapt to the ever-changing market and industry, or if our efforts to invest in the development of new technologies are unsuccessful or ineffective, our business, results of operations and financial condition may be materially and adversely affected**

Our proprietary technology is one of the key factors to our success. We have self-designed and developed a comprehensive smart system, which primarily consists of front-end smart recycling system and back-end BOSS System. To remain competitive, we must continue to enhance and improve the responsiveness, functionality and features of our front-end smart recycling system driven by AI technology and back-end BOSS System.

Our success will depend, to a large extent, on our ability to identify, develop and acquire leading technologies useful in our business, and respond to technological advances and emerging industry standards and practices in a cost-effective and timely way. For example, we depend on our front-end smart recycling system driven by AI technology applied in our operation and inspection centers to effectively and efficiently inspect, grade and price the pre-owned consumer electronics we procure. Our BOSS System is a standardized and configurable management system and centralizes all our management matters, which is developed based on our understanding of ERP systems to fulfil our daily recycling operation need. The maintenance and upgrade of our proprietary technologies may entail significant costs and/or technical risks. We can also not assure you that we will be able to successfully develop new technologies to supplement our current systems to meet the latest industry requirements or emerging industry standards. If we are unable to maintain, upgrade and/or develop technologies successfully or adapt in a cost-effective and timely manner in response to changing market conditions or the requirements of our upstream sourcing partners and/or customers, our business, results of operations and financial condition may be materially and adversely affected.

---

## RISK FACTORS

---

### **Our offering of new services may expose us to new challenges and more risks**

During the Track Record Period, we had been focusing on offering an integrated solution from initiating recycling by way of trade-in while facilitating sale of new mobile phones, to standardizing the procured pre-owned mobile phones for resale. Leveraging our established position in the PRC mobile phone recycling service market and our understanding of the needs and preferences of buyers in the second-hand consumer electronics market, we have also been engaged in the corporate recycling and offline sale to handle consumer electronics in bulk to satisfy the business needs of our upstream business partners and customers. Further, driven by the strong demands of certain mainstream consumer electronic brands we cooperate with, we have extended our partnership and recycling transaction services into Hong Kong in late 2023 to facilitate their local business needs and development. In September and December 2023, we also opened up our first and second retail store in Shenzhen under our brand name of Shanhui Youpin (閃回有品) to conduct both recycling and sale services of pre-owned consumer electronics. In future, we plan to set up a special maintenance and repair team to conduct repairment of mid-to-high-end pre-owned consumer electronics that we procured. We believe this will enrich our supply of mid-to-high-end pre-owned consumer electronics, which will in turn, contribute to a higher profit margin.

However, expansion into diverse new service offerings involves new risks and challenges. Our lack of familiarity with these services and lack of relevant customer data relating to these services may make it more difficult for us to anticipate market demand and preferences. We may also misjudge market demand on our new service offerings. Any of these happening may also harm our brand and reputation as well as our current relationship with our upstream sourcing partners. As a result of various uncertainties and risks, the new service offering may not only lead to a lower profitability than what we anticipate, but may also divert our management focus, which in turn, may materially and adversely affect our business, results of operations and financial condition.

### **Privacy concerns relating to pre-owned consumer electronics and the collection, storage and usage of personal information could deter demand of either our services, damage our reputation, impede our business growth and thus negatively impact our business**

We maintain a data clearance policy, including mandatory data erasing upon us obtaining the pre-owned consumer electronics from individual consumers in the retail stores of our upstream sourcing partners, and before the same leaving our operation centers for resale. However, concerns about mishandling personal information or other private and sensitive information stored in pre-owned consumer electronics, even if unfounded, or a general lack of confidence in the security of privacy in connection with pre-owned consumer electronics could still deter individual consumers from using our services for their trade-in solutions. In addition, due to our business nature, we may inevitably collect, store and use personal information during our business services. While we strive to comply with applicable data protection laws and regulations, as well as our own privacy policies and other obligations we may have with respect to privacy and data protection, failure or perceived failure to comply may result in complaints, inquiries and other proceedings or actions against us by government agencies or others, which in turn, severely damage our reputation and brand image.

---

## RISK FACTORS

---

Since we process and store data during our ordinary course of business, this also makes us or the third-party cloud service providers which host our servers potentially vulnerable to cyber-attacks, computer viruses, physical or electronic break-ins, or similar disruptions. Breaches to our security measures, including computer viruses and hacking, may result in significant damage to our hardware and software systems and database, disruptions to our business activities, inadvertent disclosure of confidential information, interruptions in access to our platforms, and other material adverse effects on our business operations. Moreover, techniques used to sabotage or obtain unauthorized access to systems change frequently and generally are not recognized until they are launched against a target. Hence, we may be unable to anticipate these techniques or to implement adequate preventative measures. Given its great commercial value, private data we have may be hacked and misused by third parties, which could expose us to legal and regulatory risks and seriously harm our business.

Meanwhile, the PRC regulatory and enforcement regime with regard to data security and data protection is evolving. Please refer to “Regulatory Overview – Regulations relating to cybersecurity, data security and protection of personal information” in this document for more details. We cannot assure you that our privacy and data protection measures will be always considered sufficient under applicable laws and regulations. Complying with new laws and regulations could cause us to incur substantial costs or require us to change our business practices in a manner materially adverse to our business. If we or those with whom we share information fail to comply with these laws and regulations or experience a data security breach, our reputation could be damaged and we could be subject to additional litigation and regulatory risks.

The regulatory authorities in the PRC have promulgated laws and regulations relating to cybersecurity review, including requirements that affect overseas listings by Chinese companies. According to the Cybersecurity Review Measures, which became effective in February 2022, operators of critical information infrastructure who purchase network products and services and network platform operators who carry out data processing activities that affect or may affect national security shall be subject to cybersecurity review. In addition, any network platform operators with personal information of over one million users must apply for cybersecurity review before listing abroad. Relevant PRC regulatory authorities may also initiate cybersecurity review if they determine certain network products, services or data processing activities affect or may affect national security. See “Regulatory Overview – Regulations Relating to Cybersecurity, Data Security and Protection of Personal Information.”

The Directors are of the view that the Company is not required to apply for cybersecurity review for the [REDACTED] because the [REDACTED] is in Hong Kong and does not fall into the scope of [REDACTED] abroad although we process personal information of about 13 million individuals, which exceeds the numeric threshold of one million individuals. Based on the phone consultation on April 28, 2023 with the China Cybersecurity Review Technology and Certification Center, it was advised that the Company was not required to file an application for cybersecurity review under Article 7 of the Cybersecurity Review Measures with respect to the [REDACTED]. As of the Latest Practicable Date, we have not received any notice from the CAC of any anticipating cybersecurity review on us under the Cybersecurity Review Measures. If we were subject to a cybersecurity review, we may incur significant costs and face

---

## RISK FACTORS

---

challenges, both in the review process and in making enhancements to our cybersecurity measures that may be required. If we are unable to manage these risks, we may be subject to penalties, including fines, suspension of business, prohibition against new user registration (even for a short period of time) and revocation of required licenses, and our reputation and results of operations could be materially and adversely affected. Moreover, if we are required to undergo cybersecurity review in connection with any future securities offerings, our ability to obtain additional capital may be negatively affected.

### **Any business interruption in our operation and inspection centers may materially and adversely affect our business, results of operation and financial condition**

We have presence across the PRC, including Huzhou, Zhejiang province, Shenzhen, Guangdong province, Beijing, Zhengzhou, Henan province, Chengdu, Sichuan province, and Anji, Zhejiang province. We typically offer professional training to the front sales staff of our upstream sourcing partners on the use of our proprietary inspection and pricing system. The front sales staff are required to go through a pre-evaluation process on our system and upload the photos and auxiliary information of the device proposed to be traded-in for review. Our backstage inspection staff will then immediately examine the photos and all necessary information and display a quote for the traded-in device to the front sales staff to show the customer. Such pre-evaluation, inspection and pricing process is typically completed within five minutes. In the event that there is a system breakdown in the backstage of our operation and inspection centers, our ability to provide services of inspection, grading and pricing would be seriously interrupted, which in turn, materially and adversely affect our business operation and reputation.

Our offices in Shenzhen and other operation and inspection centers also serve as warehouses for the pre-owned consumer electronics we procured before they are delivered to our customers. Our integrated BOSS System generates a daily report of incoming and outgoing goods, allowing us to quickly collect merchandise information, track and analyze inventory levels. However, if any business interruptions or accidents, including power outage or fires, occur, causing damage to the pre-owned consumer electronics we procured or to our operation centers as a whole, our business, results of operation and financial condition would be materially and adversely affected.

### **We may not be able to sustain our historical growth rates in the future**

Our business steadily grew during the Track Record Period. For the years ended December 31, 2021 and 2022, our recorded revenue was approximately RMB749.7 million and RMB919.1 million, respectively, representing a growth rate of approximately 22.6%. Our recorded revenue was approximately RMB1,158.4 million and RMB1,297.3 million for the year ended December 31, 2023 and 2024, representing a growth rate of approximately 12%. Our revenue also increased from approximately RMB576.9 million for the six months ended June 30, 2024 to approximately RMB809.5 million for the six months ended June 30, 2025, representing a growth rate of approximately of 40.3%. However, there is no assurance that we will be able to maintain our historical growth rates in future years. Our revenue growth may slow down or our revenue may decline for any number of possible reasons, such as decreased

---

## RISK FACTORS

---

consumer spending, increased industry competition in the PRC, slowdown in the growth or contraction of the PRC pre-owned consumer electronics transaction services industry, emergence of alternative business models, changes in government policies or general economic conditions, and natural disasters or virus outbreaks. Our revenue, expenses and operating results may vary from year to year due to factors beyond our control. As a result of these, and other factors, we cannot assure you that our future revenue will increase or that we will achieve profitability. Accordingly, [REDACTED] should not rely on our historical results as an indication of our future financial or operating performance.

Reduced consumer confidence and spending cut backs may result in reduced demand for pre-owned consumer electronics sold via our sales channels. Reduced demand may also require increased selling and promotional expenses to maintain our revenue and market share. In addition, the execution of our business strategies, including but not limited to those described in “Business – Our Strategies” of this document, may place a significant strain on our managerial, operational, financial and human resources. Our current and planned personnel, systems, procedures and controls may not be adequate to support our future operations. As such, we cannot assure you that we will be able to effectively manage our growth or to implement all these systems, procedures and control measures successfully or that our new business initiatives will be successful. If we are not able to manage our growth or execute our strategies effectively, our expansion may not be successful and our business and prospects may be materially and adversely affected.

### **We may incur liability or become subject to claims or administrative penalties for stolen, illegal or unauthorized products we sell**

We procure pre-owned consumer electronics from various supply channels and resell them on our sales platform. We cannot assure you that we are able to identify all unauthorized, counterfeit or illegal products, especially components and parts or accessories of the pre-owned consumer electronics, that infringe third parties’ intellectual property rights given the large amount of pre-owned consumer electronics being procured. As the sophistication of counterfeiters increases, it may be increasingly difficult for us to identify counterfeit pre-owned consumer electronics and the relevant components, parts and accessories if the in-store consumers for trade-in services do not notify the sales staff. If we fail to identify any infringing pre-owned consumer electronics including components, parts or accessories, and we subsequently resell such pre-owned consumer electronics to our customers, we may be subject to infringement claims and our reputation would also be harmed. Irrespective of the validity of such claims, we could incur significant costs and efforts in either defending against or settling such claims. If there is a successful claim against us, we might be required to pay substantial damages or refrain from further selling the relevant products. Potential liabilities we may be subject to under PRC laws and regulations if we negligently participated or assisted in infringement activities associated with counterfeit products include injunctions to cease infringing activities, compensation, administrative penalties and even criminal liability. Moreover, such third-party claims or administrative penalties could result in negative publicity and our reputation could be severely damaged.

---

## RISK FACTORS

---

In addition, stolen products may be procured by us from consumers of our upstream sourcing partners’ retail stores and resell by us to our customers, which could also result in negative publicity, and thus damage our reputation. Pursuant to relevant PRC laws and regulations, we, as the business operator engaging in the purchase and sale of pre-owned products, are required to record information of each pre-owned consumer electronic product sourced by us and we would be subject to administrative penalties or even criminal liability if we knowingly engage in any sale of stolen pre-owned consumer electronic product that we sourced from other parties. Third party’s actions are beyond our control and we cannot guarantee you that our services will not be used as a channel by certain individuals to dispose of products they steal. Any of these events could have a material and adverse effect on our business, results of operations or financial condition.

### **We may not have control over the non-compliance of our customers**

We have a broad base of customers, and, to the best knowledge of our Directors, a majority of our customers during the Track Record Period are players in the second-hand consumer electronics market. We typically enter into general contracts with our customers, who undertake to sell the pre-owned consumer electronics we sold to them and/or dismantle spare parts, without refurbishing parts involving the logos of any consumer electronic brands, at their own risks. We do not routinely monitor the sales performance or compliance of our customers. As a result, there can be no assurance that our customers will always comply with the above undertaking in our contracts with them. Non-compliance by our customers could, among other things, negatively affect our brand and our relationships with our upstream sourcing partners, especially mainstream consumer electronic brands. This may in turn materially and adversely affect our business, financial condition, results of operations and prospects.

### **We may not be able to implement our business development strategy as we plan**

Our business development plan include strengthening and expanding out geographical presence in and outside of the PRC. Please refer to “Business – Our strategies” and “Future plans and [REDACTED]” in this document for more details. We may not be able to effectively manage the wider scope of our operations or achieve the desired profitability from such expansion. The challenges that we may face in relation to this may include, but not limited to:

- our failure to execute our strategies;
- our market position and competitiveness in the industries in which we operate;
- our Directors’ experience or knowledge in the new locations and the regulatory requirements applicable to such new locations;
- the different extent of market development and competitiveness in the cities or regions in which we plan to expand our presence in;

---

## RISK FACTORS

---

- our future profitability, overall financial condition, results of operations and cash flows;
- difficulties in, and the cost of, integrating operations, technologies, services and personnel;
- competition with the same or similar services and solutions offered by our competitors;
- engaging in false or falsified claims;
- facing operational issues, such as staffing and managing a foreign operation, developing effective local sales and marketing strategies, and identifying and maintaining good working relationships with local business partners;
- otherwise not complying with laws and regulations or our control policies, procedures and undertakings; or
- general political, financial, social and economic conditions in China and internationally.

Any of the aforementioned factors could affect our profit margins, or extend the time required to achieve profitability which in turn impacts our business, financial condition, operating results and business prospects.

**Our business may not be sustained if our upstream sourcing partners substantially change the way in transacting pre-owned consumer electronics.**

We currently engage in providing consumer electronics recycling services and obtain supply of pre-owned consumer electronics primarily from trade-ins transacted in both online and offline retail stores of our upstream sourcing partners using our recycling system, Shanhuishou (閃回收). In June 2022, November 2023 and April 2024, Consumer Electronic Brand B, Consumer Electronic Brand D and Vivo, launched their own centralized recycling platforms and have engaged a few mobile phone recycling service providers to provide recycling services under such centralized recycling platforms, which in turn, increase the competition among the market players. In future, if more upstream sourcing partners launch their own centralized recycling platforms, or to the great extent, allow merchant or individual customers to directly purchase or transact pre-owned consumer electronics via their centralized recycling platforms, our consumer electronics recycling and sale services may not be needed anymore and hence, our business would not be sustained.

---

## RISK FACTORS

---

**We rely on third-party online payment service providers to conduct payment processing and escrow services, and if those services are limited, restricted, curtailed or degraded in any way or become unavailable for any reason, our business, results of operations and financial condition may be materially and adversely affected**

During the ordinary course of our offline recycling business, when an individual consumer finds our recycling quotation acceptable, our system will generate a QR code and immediately transfer the amount, together with any marketing subsidies, if applicable, directly to such individual consumer through third-party online payment service providers, mainly Alipay or WeChat Pay. On the sale side of our business, our customers also make payments to us through online transfers, such as Alipay or WeChat Pay. Hence, these third-party online payment service providers are critical to our business. We rely on the convenience and ease of use that these online payment service providers provide to us, to individual consumers in our supply channels or our customers. If the quality, utility, convenience or attractiveness of the services of these service providers decline for any reason, the attractiveness of our services could also be materially and adversely affected. In addition, certain commercial banks in China impose limits on the amounts that may be transferred by automated payment from customers’ bank accounts to their linked accounts with third-party payment services. We cannot predict whether these and any additional restrictions that could be put in place would have a material adverse effect on our services and businesses.

In addition, we cannot assure you that we will be successful in entering into and maintaining amicable relationships with online payment service providers. Identifying, negotiating and maintaining relationships with these providers require significant time and resources. They could choose to terminate their relationships with us or propose terms that we cannot accept. Any disagreements or disputes with such payment service providers could adversely affect our brand and reputation as well as our business, results of operations and financial conditions.

**We rely on reputable third-party logistics service providers to collect and deliver our pre-owned consumer electronics, and if those services are delayed or restricted in any way or become unavailable for any reason, our business and results of operations may be materially and adversely affected**

We rely on reputable third-party logistics service providers to collect pre-owned consumer electronics from our offline or online supply channels as well as deliver from our operation and inspection centers to customers who purchased these pre-owned consumer electronics through our sales channels. Considering the number of units and total value of the pre-owned consumer electronics we procure and sell every day, reliable and timely services from third-party logistics service providers are essential to the efficient operation of our business. However, there are risks that these third-party logistic service providers may not be able to consistently provide timely and proper delivery of these pre-owned consumer electronics. Any delivery delay, loss in transition, or improper handling of devices by our logistic service providers could adversely affect our business and results of operations.

## RISK FACTORS

---

The reimbursement process by our logistic service providers for devices that suffer price drop due to delivery delay or are lost in transit takes time and it is not guaranteed that our loss will be fully recovered from their reimbursement. In the past, we had occasionally experienced product delivery delay and product damages loss incidences and had disputes with certain logistics service providers. We may continue to experience similar incidents or disputes in the future. In addition, logistics services could also be suspended and thereby interrupt our business operation if unforeseen events that are beyond our control occur, such as inclement weather, natural disasters, health epidemics, transportation disruptions or labor unrest. If our appointed third-party logistics service providers are unable to perform the logistics services as expected and we are unable to find alternative logistics providers in a timely manner, customers may have unsatisfied experience and our business and reputation can be materially and adversely affected.

In addition, the storage and transportation costs of our logistics service providers are subject to factors beyond our control, as such, we cannot guarantee that we are able to renew service agreements with our current third-party logistic service providers in similar or better terms, failing of which may have an adverse impact on our cost structure. Further, if we have to terminate the agreements with some of our major third-party logistic service providers and are not able to find reliable alternatives to provide delivery services in a timely manner, or at all, our supplies will be severely interrupted. Our customers, on the other hand, may lodge complaints. In some extreme circumstances, our customers, may refuse to accept these pre-owned consumer electronics purchased from us and lose confidence in us and turn to our competitors. If these happen, our business, reputation, results of operations and financial condition will be materially and adversely affected.

### **We may be subject to product liability claims**

Even if we inspect and grade the pre-owned consumer electronics procured by us through our cutting edge AI technologies, the pre-owned consumer electronics sold by us may be defective for reasons out of our control. As a result, sales of such products could expose us to product liability claims relating to personal injury or property damage and may require product recalls or other actions. Third parties subject to such injury or damage may bring claims or legal proceedings against us as the seller of the product. Enforcing our rights against the manufacturer may be expensive, time-consuming and ultimately futile. In addition, we do not currently maintain any third-party liability insurance or product liability insurance in relation to products we sell. As a result, any material product liability claim or litigation could have a material and adverse effect on our business, financial condition and results of operations. Even unsuccessful claims could result in the expenditure of funds and managerial efforts in defending them and could have a negative impact on our reputation.

## RISK FACTORS

---

### **Our business, results of operations and financial condition could be negatively affected by services provided by third-party cloud service providers**

We use third-party cloud service providers to provide us with cloud services to support our business operations. With the expansion of our business, we may be required to upgrade our technology and infrastructure or those of cloud service providers to keep up with the increasing traffic on our platform. If the services provided are unable to meet our demand, or are disrupted, restricted, curtailed or degraded in any way or become unavailable to us, our business and results of operations may be materially and adversely affected. In addition, we cannot assure you that we will be able to maintain amicable relationships with our cloud service providers. Our current cloud service providers could choose to terminate working relationships with us or propose terms for the new agreement that we cannot accept. If we have to engage other cloud service providers and have to migrate our business operation data to the new service providers, we cannot guarantee a smooth transition. We may suffer from unexpected incidents in the transition such as data loss, service interruptions, or loss of certain functionalities. As a result, we may have to incur extra expenses to mitigate losses incurred due to these incidents, which could be substantial. Most importantly, we may experience business interruptions due to these unexpected incidents, which would materially and adversely affect our business and results of operations. Besides, we have no control over the costs of the services provided by cloud service providers. The prices we pay for those services rise significantly, our results of operations and financial condition may be materially and adversely affected.

### **Our results of operations may be subject to seasonal fluctuations**

We experience a moderate level of seasonality in our business primarily as a result of the new models of mobile phones and subsequent promotional campaigns launched by the mainstream consumer electronic brands. As such, we typically experience higher transaction traffic and able to obtain more supply and receive higher sales volume during the second half of the year, when there are new product launches and integrated e-commerce activities. Further, all of the marketing activities or campaigns conducted by these mainstream consumer electronic brands and third-party e-commerce platforms may affect our business, results of operations and financial condition, which may continue in the future.

### **Our own rights to using some of our leased properties may be queried by property owners or other third parties due to title defects of such leased properties, and we may consequently have to relocate due to the title defects or be subject to fines as a result of unfiled leases, which may result in a disruption of our operations and may adversely affect our business operations and financial position**

We lease properties mainly used as offices, technology, research and development spaces. We do not own any properties. As of the Latest Practicable Date, we leased 11 properties relating to our business operations in the PRC, with an aggregate GFA of approximately 7,144.29 square meters in the PRC, among which, the lessors of five properties with an aggregate GFA of approximately 140.56 square meters in the PRC had not provided us with the

## RISK FACTORS

---

relevant title ownership certificates for the leased properties or proof of authorizations from the property owners to sublease the properties to us. As advised by our PRC Legal Advisor, without ownership certificates or proof of authorizations from the property owners, our use of these defective leased properties may be affected by third parties’ claims or challenges against the lease rights. In addition, if the lessors do not have the requisite rights to lease these defective leased properties, we may be required to vacate these defective leased properties and relocate our offices, technology, research and development spaces. In this event, our operation may be impaired, and we may not be adequately indemnified by the landlords for our related losses. Also, we will incur additional costs in relocating our offices, technology, research and development spaces to other suitable locations, thus affecting our business and financial condition. Furthermore, in the event that any lessor’s right to lease was challenged by any party with third-party interests, or if some of our leased properties were challenged by competent government authorities because of the inconsistency between actual usage and prescribed usage in the title documents that proves our ability to use, our occupation or lease of such properties is likely to be adversely affected.

Under PRC laws and regulations, all lease agreements are required to be registered with the local land and real estate administration bureau. As of the Latest Practicable Date, we leased 11 properties relating to our business operations in Shenzhen, Beijing, Chengdu, Zhengzhou and Anji and most of our lease agreements had not been registered and filed with the relevant land and real estate administration bureaus in the PRC because the relevant lessors failed to provide necessary documents for us to register the leases with the local government authorities. As advised by our PRC Legal Advisor, failure to complete the registration and filing of lease agreements will not affect the validity of such lease agreements. However, we may be subject to a fine ranging from RMB1,000 to RMB10,000 on each lease agreement that is not registered and filed within the prescribed timeframe. As of the latest Practicable Date, we were not aware of any regulatory or governmental actions or investigations being contemplated to the lease agreements which have not been registered with the government authorities. However, in the event that any fine is imposed on us for our failure to register our lease agreements, we may not be able to recover such losses from the lessors. Please refer to “Business – Properties and Facilities” in this document.

### **Our success depends on the continuing and collaborative efforts of our management team, and our business may be severely disrupted if we lose their services**

Our success heavily depends upon the continued services of our management. In particular, we rely on the expertise and experience of Mr. Liu Jianyi, our chairman, executive Director and general manager, Ms. Yu Hairong, our chief executive officer and executive Director, and other executive officers. If one or more of our senior management were unable or unwilling to continue in their present positions, we might not be able to replace them easily or at all, and our business, financial condition and results of operations may be materially and adversely affected. If any of our senior management joins a competitor or forms a competing business, we may lose our customers, upstream sourcing partners, know-how and key professionals and staff members. Our senior management has entered into employment agreements and confidentiality and non-competition agreements with us. However, if any

---

## RISK FACTORS

---

dispute arises between our officers and us, we may have to incur substantial costs and expenses in order to enforce such agreements in China or we may be unable to enforce them at all. In addition, we do not have key-man insurance for any of our executive officers or other key personnel. Events or activities attributed to our executive officers or other key personnel, and related publicity, whether or not justified, may affect their ability or willingness to continue to serve our company or dedicate their full time and efforts to our company and negatively affect our brand and reputation, resulting in an adverse effect on our business, operating results and financial condition.

**If we are unable to recruit, train and retain experienced personnel or sufficient workforce while controlling our labor costs, our business may be materially and adversely affected**

We intend to hire additional experienced employees to support our business operations and planned expansion. Our future success depends, to a significant extent, on our ability to recruit, train and retain qualified personnel, particularly technical, marketing and other operational personnel with experience in the pre-owned consumer electronics transaction services industry. The effective operation of our managerial and operating systems, operation and inspection centers, customer service center and other back office functions also depends on the hard work and quality performance of our management and employees. Since our industry is characterized by high demand and intense competition for talent and labor, we can provide no assurance that we will be able to attract or retain qualified staff or other highly skilled employees that we will need to achieve our strategic objectives. Labor costs in China have increased with China’s economic development, particularly in the large cities where we have business operations. As we have a nationwide supply and sales network we are more vulnerable to labor costs increases than that of many of our competitors, which may put us at a competitive disadvantage. If the compensation packages offered by us are not competitive in the market, we may not be able to provide sufficient incentives to or maintain stable and dedicated operational staffs and other labor support. Any failure to address these risks and uncertainties could materially and adversely affect our results of operations and financial performance. In addition, our ability to train and integrate new employees into our operations may also be limited and may not meet the demand for our business growth on a timely fashion, or at all, and rapid expansion may impair our ability to maintain our corporate culture.

**We may not be able to prevent others from unauthorized use of our intellectual property, which could harm our business and competitive position**

Since our inception in 2016, we have established and developed two core corporate brands, namely, Shanhuishou (閃回收) and Shanhui Youpin (閃回有品). Shanhuishou (閃回收) is the main brand under which we carry on our offline trade-in business and collect pre-owned consumer electronics from our upstream sourcing partners. Shanhui Youpin (閃回有品) is the main brand under which we conduct the sale of these pre-owned consumer electronics we procured to the customers on our proprietary online platform or in our own online stores on third-party e-commerce platforms.

---

## RISK FACTORS

---

We regard our trademarks, copyrights, patents, domain names, know-how, proprietary technologies, and similar intellectual property as critical to our success, and we rely on a combination of intellectual property laws and contractual arrangements, including confidentiality and non-compete agreements with our employees and others, to protect our proprietary rights. Despite these measures, any of our intellectual property rights could be challenged, invalidated, circumvented or misappropriated, or such intellectual property may not be sufficient to provide us with competitive advantages.

Confidentiality and non-compete agreements may be breached by counterparties, and there may not be adequate remedies available to us for any such breach. Accordingly, we cannot assure you that the measures we implemented are, and will be, always sufficient to effectively protect our intellectual property rights against any unauthorised use, infringement or misappropriation. In the event that we resort to litigation to enforce our intellectual property rights, such litigation could result in substantial costs and a diversion of our managerial and financial resources, and could put our intellectual property at risk of being invalidated or narrowed in scope. We can provide no assurance that we will prevail in such litigation, and even if we do prevail, we may not obtain a meaningful recovery. In addition, our trade secrets may be leaked or otherwise become available to, or be independently discovered by, our competitors. Any failure in maintaining, protecting or enforcing our intellectual property rights could have a material adverse effect on our business, financial condition and results of operations.

**If we become a party or are subject to litigation, legal disputes, claims, administrative proceedings or other administrative measures, such involvement may divert our management's attention and result in costs and liabilities**

We may from time to time become a party to various litigation, legal disputes, claims, administrative proceedings or other administrative measures arising in the ordinary course of our business. On-going litigation, legal disputes, claims, administrative proceedings or other administrative measures may divert our management's attention and consume their time and our other resources. Furthermore, any litigation, legal disputes, claims, administrative proceedings or other administrative measures which are initially not of material importance may escalate and become important to us, due to a variety of factors, such as the facts and circumstances of the cases, the likelihood of loss, the monetary amount at stake and the parties involved. Negative publicity arising from litigation, legal disputes, claims, administrative proceedings or other administrative measures may damage our reputation and adversely affect the image of our brands and products. In addition, if any verdict or award is rendered against us or we are imposed any fines or penalties, we could be required to pay significant monetary damages, assume other liabilities and even to suspend or terminate the related business ventures or projects. Consequently, our business, financial condition and results of operations may be materially and adversely affected.

---

## RISK FACTORS

---

For example, in 2022, Shenzhen Shanhui, one of our subsidiaries in China, was involved in a lawsuit initiated by Beijing Yiying Jiamei Technology Co., Ltd. (北京怡英嘉美科技有限公司) for breach of contract. The lawsuit derived from a contract entered into between them in 2021, according to which, Shenzhen Shanhui would provide Beijing Yiying Jiamei Technology Co., Ltd. with a quotation to bid on a batch of pre-owned consumer electronics. However, the employees of Shenzhen Shanhui who handled the quotation failed to verify the specific models of some mobile phones in the quotation, which led to the provision of a higher quotation to Beijing Yiying Jiamei Technology Co., Ltd. See “Business — Legal Proceedings and Compliance — Legal Proceedings” for detailed information about the lawsuit. Shenzhen Shanhui was ordered by the court to pay RMB6 million to Beijing Yiying Jiamei Technology Co., Ltd. for breach of contract. As the RMB6 million mentioned above was already paid and recorded as part of our other expenses for the year ended December 31, 2022, our Directors are of the view that this lawsuit will not have any material adverse impact on our business, financial position or results of operation.

We will continue to provide guidance and trainings to our employees in respect of business operation, risk management, and internal control, in order to lower our chances of being involved in any litigation, legal disputes, claims, administrative proceedings or other administrative measures against us. However, we cannot assure you that such litigation, legal disputes, claims, administrative proceedings or other administrative measures against us will not occur in the future.

### **We may be subject to intellectual property disputes and infringement claims, which may divert our management’s attention and harm our reputation and profitability**

We cannot be certain that our operations or any aspects of our business do not or will not infringe upon or otherwise violate patents, copyrights or other intellectual property rights held by third parties. As of the Latest Practicable Date, we had, in aggregate, 115 software copyrights, 63 registered trademarks, nine registered domain names and 19 registered patents in China, that are related to our technologies in different aspects including design and development of recycling technologies and equipment. However, there can be no assurance that the steps we have taken to protect our intellectual property rights are adequate to prevent or deter infringement or other misappropriation of our intellectual properties. Failure to successfully enforce our intellectual property rights would diminish our level of competitiveness and harm our reputation. In addition, we may be required to incur significant costs in protecting and enforcing our intellectual property. In particular, we believe that our trademarks are vital to our brand recognition and the success of our business.

We may in the future be subject to legal proceedings and claims relating to the intellectual property rights of others. In addition, there may be other third-party intellectual property that is infringed by products or services offered by us, or other aspects of our business. There could also be existing patents of which we are not aware that our products or other aspects of our business may inadvertently infringe. We cannot assure you that holders of patents purportedly relating to some aspect of our technology platform or business, if any such holders exist, would not seek to enforce such patents against us in China, the United States or any other

---

## RISK FACTORS

---

jurisdictions. If we are found to have violated the intellectual property rights of others, we may be subject to liability for our infringement activities or may be prohibited from using such intellectual property, and we may incur licensing fees or be forced to develop alternatives of our own. In addition, we may incur significant expenses, and may be forced to divert management's attention and other resources from our business and operations to defend against these third-party infringement claims, regardless of their merits. Successful infringement or licensing claims made against us may result in significant monetary liabilities and may materially disrupt our business and operations by restricting or prohibiting our use of the intellectual property in question.

Moreover, we use open source software in connection with our business and services. Companies that incorporate open source software into their business and services have, from time to time, faced claims challenging the ownership of open source software and compliance with open source license terms. As a result, we could be subject to suits by parties claiming ownership of what we believe to be open source software or non-compliance with open source licensing terms. Some open source software licenses require users who distribute open source software as part of their software to publicly disclose all or part of the source code to such software and make available any derivative works of the open source code on unfavorable terms or at no cost. Any requirement to disclose our source code or pay damages for breach of contract could be harmful to our business, results of operations and financial condition.

### **We have limited insurance coverage, which may not be adequate to cover all risks of losses associate with our business operation**

We purchase and maintain insurance policies in accordance with the needs of our business and the requirements set forth in relevant laws and regulations. During the Track Record Period, we had maintained various government-mandated employee social security plans including pension insurance, medical insurance, unemployment insurance, maternity insurance, on-the-job injury insurance and housing provident fund plans for our employees. However, we cannot guarantee that our insurance policies will provide adequate coverage for all of the risks we face in connection with our business operations.

We do not carry any business interruption or litigation insurance policies for our operations. If we were to incur substantial liabilities that are not covered by our insurance policies or if we suffer protracted periods of disruption or interruption in our business operations, we could incur significant costs and losses that could materially and adversely affect our results of operations. In addition, due to general increases in medical costs and wages, our insurance premiums may increase in the future and we may not be able to obtain similar insurance coverage at acceptable and reasonable rates. Moreover, the occurrence of certain incidents, including earthquakes, fires, adverse weather conditions, war, floods, power outages, equipment failures, construction accidents and the consequences, damages and disruptions resulting from any of the foregoing incidents, may not be covered adequately, or at all, by our insurance policies. Any uninsured loss or liabilities may cause us to incur substantial costs and the diversion of resources, which could have a material and adverse effect on our operating results.

---

## RISK FACTORS

---

**Our risk management and internal control systems may not be adequate or effective in all respects, which may materially and adversely affect our business and results of operations**

We seek to establish risk management and internal control systems consisting of an organizational framework, policies, procedures and risk management methods that are appropriate for our business operations, and seek to continue to improve these systems. For example, we require our users to accept terms of services under which they agree to provide certain personal information to us, to have established information security systems protecting user privacy. We also maintain internal procedures to ensure that we have obtained all material requisite licenses, permits and approvals for our business operation, and our internal control team conducts regular reviews to monitor the status and effectiveness of those licenses and approvals. Our in-house legal department also works with relevant business departments to obtain requisite governmental approvals or consents, including preparing and submitting all necessary documents for filing with relevant government authorities within the prescribed regulatory timelines. For further information, please refer to “Business – Risk Management and Internal Control” in this document. However, due to the inherent limitations in the design and implementation of risk management and internal control systems, we cannot assure you that our risk management and internal control systems will be able to identify, prevent and manage all risks. Our internal control procedures are designed to monitor our operations and ensure their overall compliance. However, our internal control procedures may be unable to identify all non-compliance incidents in a timely manner or at all. It is not always possible to timely detect and prevent fraud and other misconduct, and the precautions we take to prevent and detect such activities may not be effective.

Our risk management and internal controls also depend on their effective implementation by our employees. We cannot assure you that such implementation will not involve any human errors or mistakes, which may materially and adversely affect our business and results of operations. If we fail to timely adapt our risk management policies and procedures to our changing business, our business, results of operations and financial condition could be materially and adversely affected.

**We face risks related to natural disasters, health epidemics (including the COVID-19), acts of war or terrorism and other factors beyond our control, which could significantly disrupt our operations**

Any future occurrence of force majeure events, acts of war, terrorism, natural disasters or outbreaks of epidemics and contagious diseases, including, among others, avian influenza, severe acute respiratory syndrome, COVID-19, H1N1 influenza and Ebola virus, may materially and adversely affect our business, financial condition and results of operations. Our operations may be under the threat of floods, earthquakes, sandstorms, snowstorms, fire or drought, power, water or fuel shortages, failures, malfunction and breakdown of information management systems, unexpected maintenance or technical problems, or are susceptible to potential wars or terrorist attacks. Serious natural disasters may result in loss of lives, injury, destruction of assets and disruption of our business and operations. Acts of war or terrorism may also injure our employees, cause loss of lives, disrupt our business network and destroy

---

## RISK FACTORS

---

our markets. An outbreak of an epidemic or contagious disease or any other adverse public health development in China, or elsewhere in the world, could result in a widespread health crisis, which may restrict the level of business activities in those affected areas, and which could, in turn, materially and adversely affect our business.

We cannot assure you that any future occurrence of natural disasters or outbreaks of epidemics and contagious diseases, or the measures taken by the PRC government or other countries in response to such contagious diseases, will not seriously disrupt our operations or those of our customers, which may materially and adversely affect our business, financial condition and results of operations. Any of these factors, as well as any other factors beyond our control, could have an adverse effect on the overall business sentiment and environment, cause uncertainties in the regions where we conduct business, cause our business to suffer in ways that we cannot predict and materially and adversely impact our business, financial conditions and results of operations.

### **RISKS RELATING TO CONDUCTING BUSINESS IN THE JURISDICTION WHERE WE OPERATE**

#### **Changes in the economic, political and social conditions in the PRC, as well as government policies, laws and regulations, could affect our business, results of operations and financial condition**

During the Track Record Period, we derive substantially all of our revenues from our operations in the PRC. Accordingly, our results of operations and prospects are, to a significant degree, subject to economic, political and legal developments in the PRC. In recent years, the PRC government has implemented measures emphasizing market forces for economic reform and the establishment of sound corporate governance in business enterprises. In addition, the PRC government continues to play a significant role in guiding, encouraging and regulating economic growth through the allocation of resources, monetary policy's and tax policies, etc. While these measures may benefit China's macro economy as a whole, some of them may result in causing uncertainties to our business.

We cannot assure you that we may benefit from all, or any, of the measures, which are under adjustments from time to time. Our business, financial condition and results of operations could be materially affected by changes in political, economic and social and regulatory developments which are beyond our control.

#### **Development of the PRC's legal system could affect the legal protections available to our Shareholders**

During the Track Record Period, as substantially all of our business is conducted in the PRC, our operations are governed by PRC laws and regulations. The PRC's legal system is based on written statutes. Prior court decisions may be cited for reference, but have limited precedential value. The PRC government has promulgated a comprehensive system of laws and regulations governing economic matters in general, such as foreign investment, corporate

---

## RISK FACTORS

---

organization and governance, commerce, taxation and trade. However, the PRC’s legal system continues to evolve rapidly. We cannot predict the effect of future developments in the PRC’s legal system, including the promulgation of new laws, changes to existing laws or the interpretation or enforcement thereof. These matters could affect the legal protections available to us and other foreign [REDACTED], including you.

Furthermore, any litigation or administrative proceedings may be protracted and result in substantial costs and diversion of our resources and management attention.

### **Difficulties may arise when effecting service of process upon, or enforcing any foreign judgments against, us or our Director and executive officers residing in the PRC**

We are an exempted company incorporated in the Cayman Islands. Our Directors and executive officers reside within the PRC, and a vast majority of our assets and substantially all of the assets of those persons are located within the PRC. As such, [REDACTED] may encounter difficulties in effecting service of process upon us or those persons inside the PRC or enforcing against us or them any judgments obtained from courts in foreign jurisdictions.

The PRC does not have treaties providing for the reciprocal recognition and enforcement of court judgments in civil and commercial matters with the United States, the United Kingdom, Japan or certain other countries. Therefore, recognition and enforcement in the PRC of court judgments obtained in those jurisdictions in relation to any matter not subject to binding arbitration provisions may encounter difficulties.

On July 14, 2006, Hong Kong and China entered into the Arrangement on Reciprocal Recognition and Enforcement of Judgments in Civil and Commercial Matters by the Courts of the Mainland and of the Hong Kong Special Administrative Region Pursuant to Choice of Court Agreements Between Parties Concerned (《關於內地與香港特別行政區法院相互認可和執行當事人協議管轄的民商事案件判決的安排》) (the “2006 Arrangement”), and promulgated on July 3, 2008, pursuant to which a party with a final court judgment rendered by a Hong Kong court requiring payment of money in a civil and commercial case pursuant to a choice of court agreement in writing may apply for recognition and enforcement of the judgment in China. Similarly, a party with a final judgment rendered by a PRC court requiring payment of money in a civil and commercial case pursuant to a choice of court agreement in writing may apply for recognition and enforcement of the judgment in Hong Kong. A choice of court agreement in writing is defined as any agreement in writing entered into between parties after the effective date of the 2006 Arrangement in which a Hong Kong court or a PRC court is expressly designated as the court having sole jurisdiction for the dispute. Therefore, it is not possible to enforce a judgment rendered by a Hong Kong court in China if the parties in dispute have not agreed to enter into a choice of court agreement in writing under the 2006 Arrangement.

---

## RISK FACTORS

---

On January 18, 2019, the Supreme People’s Court of the PRC and the government of the Hong Kong Special Administrative Region entered into the Arrangement on Reciprocal Recognition and Enforcement of Judgments in Civil and Commercial Matters by the Courts of the Mainland and of the Hong Kong Special Administrative Region (《關於內地與香港特別行政區法院相互認可和執行民商事案件判決的安排》), (the “**2019 Arrangement**”), which seeks to establish a bilateral legal mechanism that provides clarity and certainty for the recognition and enforcement of judgments in a wider range of civil and commercial matters between Hong Kong and mainland China, based on criteria other than a written choice of court agreement. The 2006 Arrangement was superseded upon the effectiveness of the 2019 Arrangement on January 29, 2024 but remained applicable to a “choice of court agreement in writing” entered into before the 2019 Arrangement taking effect. However, we cannot assure you that all final judgements will be recognized and effectively enforced by the relevant PRC court.

Awards made by the PRC arbitral authorities recognized under the Hong Kong Arbitration Ordinance can be enforced in Hong Kong. Hong Kong arbitral awards are also enforceable in the PRC, subject to the satisfaction of certain PRC legal requirements. However, we are uncertain whether any action brought in the PRC to enforce an arbitral award made in favor of holders of our Shares would succeed.

### **Payment of dividends or gains from the sale or other disposition of our Shares is subject to taxation under PRC laws and regulations**

Under the EIT Law of the PRC and its implementation regulations issued by the State Council, a 10% PRC withholding tax is applicable to dividends payable to investors that are non-resident enterprises, which do not have an establishment or place of business in the PRC or which have such establishment or place of business but the dividends are not effectively connected with such establishment or place of business, to the extent such dividends are derived from sources within the PRC. Similarly, any gain realized on the transfer of Shares by such investors is also subject to PRC tax at a current rate of 10%, subject to any reduction or exemption set forth in applicable tax treaties or under applicable tax arrangements between jurisdictions, if such gain is regarded as income derived from sources within the PRC. If we are deemed a PRC resident enterprise, dividends paid on our shares, and any gain realized from the transfer of our Shares, would be treated as income derived from sources within the PRC and would as a result be subject to PRC taxation. Furthermore, if we are deemed a PRC resident enterprise, dividends payable to individual investors who are non-PRC residents and any gain realized on the transfer of Shares by such investors may be subject to PRC tax at a current rate of 20%, subject to any reduction or exemption set forth in applicable tax treaties or under applicable tax arrangements between jurisdictions. If we or any of our subsidiaries established outside China are considered a PRC resident enterprise, there is no guarantee that the holders of our Shares would be able to claim the benefit of income tax treaties or agreements entered into between China and other countries or areas. If dividends payable to our non-PRC [REDACTED], or gains from the transfer of our Shares by such [REDACTED], are deemed as income derived from sources within the PRC and thus are subject to PRC tax, the value of your investment in our Shares may decline significantly.

---

## RISK FACTORS

---

### **Payment of dividends is subject to restrictions under PRC laws and regulations**

Under PRC laws and regulations, dividends may be paid only out of after-tax profits. In addition, we are required to set aside a certain amount of after-tax profits each year, if any, to fund certain statutory and other reserves. These reserves are not distributable as cash dividends. As a result, we may not have sufficient or any after-tax profits to enable to make dividend distributions to our Shareholders, including periods in which we are profitable. Any distributable profits not distributed in a given year are retained and available for distribution in subsequent years. In addition, if we incur debt in the future, the loan agreement may impose restrictions on our ability to pay dividends or make our payments.

### **Policies regarding foreign currency conversion may affect our business and results of operations and our ability to remit dividends**

We receive most of our revenue in RMB during the Track Record Period. Under the existing PRC foreign exchange regulations, payments of current account items, including profit distributions and interest payments can be made in foreign currencies without prior approval from the local branch of SAFE subject to certain procedures. Foreign exchange transactions under the capital account items, including principal payments in respect of foreign currency-denominated obligations, is subject to requirements stipulated by the SAFE. We cannot guarantee that these foreign exchange policies in foreign currencies will not be subject to change in the future.

Any shortage in the availability of foreign exchange may restrict our ability to secure sufficient foreign exchange for dividend payments to Shareholders or satisfy any other foreign exchange obligation. If we fail to obtain approvals from or registered with appropriate governmental authorities to convert RMB into any foreign exchange for any of the above purposes, our potential offshore capital expenditure plans and even our business may be materially affected.

In addition, as most of our revenue was denominated in RMB during the Track Record Period and dividends will be paid to our Shareholders in Hong Kong dollar, any appreciation of the Hong Kong dollar against RMB would have a negative effect on the amount available to us when converted into Hong Kong dollar, and would therefore reduce our dividend payments.

### **Scrutiny over acquisitions from the tax authorities in mainland China may have a material impact on our business, acquisition or restructuring strategies or the value of your investment in us**

The SAT promulgated several rules and notices regarding acquisitions in recent years. On February 3, 2015, the SAT issued the Public Announcement of the State Administration of Taxation on Several Issues Concerning Enterprise Income Tax for Indirect Transfer of Assets by Non-Resident Enterprises (《國家稅務總局關於非居民企業間接轉讓財產企業所得稅若干問題的公告》) (the “SAT Bulletin 7”), which was partially abolished by the Announcement of

---

## RISK FACTORS

---

the State Administration of Taxation on Issues concerning the Withholding of Enterprise Income Tax at Source on Non-Resident Enterprises (《國家稅務總局關於非居民企業所得稅源泉扣繳有關問題的公告》) and the Decision of the State Administration of Taxation on Issuing the Catalogues of Tax Departmental Rules and Tax Regulatory Documents Which Are Invalidated and Repealed (《國家稅務總局關於公佈失效廢止的稅務部門規章和稅收規範性文件目錄的決定》) (the “**Circular 42**”). The SAT Bulletin 7 provided comprehensive guidelines relating to indirect transfers by a non-resident enterprise of assets (including equity interests) of a PRC resident enterprise (the “**PRC Taxable Assets**”).

For example, the SAT Bulletin 7 specifies that the tax authorities in mainland China are entitled to reclassify the nature of an indirect transfer of PRC Taxable Assets, when a non-resident enterprise transfers PRC Taxable Assets indirectly by disposing of equity interests in an overseas holding company directly or indirectly holding such PRC Taxable Assets, by disregarding the existence of such overseas holding company and considering the transaction to be a direct transfer of PRC Taxable Assets, if such transfer is deemed to have been conducted for the purposes of avoiding mainland China enterprise income taxes and without any other reasonable commercial purpose.

Except as provided in the SAT Bulletin 7, transfers of Chinese taxable property simultaneously satisfied all the following circumstances shall be automatically deemed as having no reasonable commercial purpose, and are subject to mainland China enterprise income tax: (i) more than 75% of the value of the overseas enterprise is directly or indirectly from Chinese taxable properties; (ii) more than 90% of the total assets (cash excluded) of the overseas enterprise are directly or indirectly composed of investment in mainland China at any time during the year prior to the indirect transfer of Chinese taxable property, or more than 90% of the income of the overseas enterprise is directly or indirectly from mainland China during the year prior to the indirect transfer of Chinese taxable property; (iii) the overseas enterprise and its subsidiaries directly or indirectly hold Chinese taxable property and have registered with the relevant authorities in the host countries (regions) in order to meet the local legal requirements in relation to organization forms, yet prove to be inadequate in their ability to perform their intended functions and withstand risks as their alleged organization forms suggest; or (iv) the income tax from the indirect transfer of Chinese taxable property payable abroad is lower than the income tax in mainland China that may be imposed on the direct transfer of such PRC Taxable Assets. Although the SAT Bulletin 7 contains certain exemptions (including, (i) where a non-resident enterprise derives income from the indirect transfer of PRC Taxable Assets by acquiring and selling shares of a listed overseas holding company which holds such PRC Taxable Assets on a public market; and (ii) where there is an indirect transfer of PRC Taxable Assets, but if the non-resident enterprise had directly held and disposed of such PRC Taxable Assets, the income from the transfer would have been exempted from enterprise income tax in mainland China under an applicable tax treaty or arrangement), we cannot guarantee whether any exemptions under the SAT Bulletin 7 will be applicable to the transfer of our Shares or to any future acquisition by us outside of mainland China involving PRC Taxable Assets or whether such transaction will be reclassified by applying the SAT Bulletin 7. Therefore, any transfer of our Shares by our Shareholders that are non-resident enterprises,

---

## RISK FACTORS

---

or any future acquisition by us outside of mainland China involving PRC Taxable Assets, may be subject to the foregoing regulations, which may subject our Shareholders or us to additional mainland China tax reporting obligations or tax liabilities.

Provisions of the SAT Bulletin 7, which impose mainland China tax liabilities and reporting obligations, do not apply to “a non-resident enterprise acquiring and disposing of the equity interests of the same offshore listed company in a public market” (the “**Public Market Safe Harbor**”). In general, transfers of our Shares by our Shareholders on the Stock Exchange or other public markets would not be subject to mainland China tax liabilities and reporting obligations imposed under the SAT Bulletin 7 if the transfers fall under the Public Market Safe Harbor. As stated in “Information about this Document and the [REDACTED]” in this document, potential [REDACTED] should consult their professional advisors if they are in any doubt as to the tax implications of subscribing for, purchasing, holding, disposing of and dealing in our Shares.

**We may be subject to penalties, including restrictions on our ability to inject capital into our mainland China subsidiaries and our mainland China subsidiaries’ ability to distribute profits to us, if our mainland China resident Shareholders or beneficial owners fail to comply with relevant mainland China foreign exchange regulations**

The SAFE has promulgated several regulations that require mainland China residents and mainland China corporate entities to register with and obtain approval from local counterparts of the SAFE in connection with their direct or indirect offshore investment activities. The Circular of the State Administration of Foreign Exchange on Relevant Issues Concerning Foreign Exchange Administration of Overseas Investment and Financing and Roundtrip Investment Conducted by Domestic Residents through Special Purpose Vehicles (《國家外匯管理局關於境內居民通過特殊目的公司境外投融資及返程投資外匯管理有關問題的通知》) (the “**SAFE Circular 37**”) was promulgated by the SAFE in July 2014 and requires mainland China residents or entities to register with SAFE or its local counterparts before the mainland China residents contributes assets or equity interests in connection with their establishment or control of an offshore entity established for the purpose of overseas investment or financing. Pursuant to the Circular of the State Administration of Foreign Exchange on Further Simplifying and Improving Foreign Exchange Administration Policies on Direct Investment (《國家外匯管理局關於進一步簡化和改進直接投資外匯管理政策的通知》) (the “**SAFE Circular 13**”), which was promulgated by the SAFE in February 2015, the aforesaid registration shall be directly reviewed and handled by qualified banks in accordance with the SAFE Circular 13, and SAFE and its branches shall perform indirect regulation over the foreign exchange registration via qualified banks. These regulations apply to our Shareholders who are mainland China residents and may apply to any offshore acquisitions that we make in the future.

---

## RISK FACTORS

---

Under these foreign exchange regulations, mainland China residents who make, or have previously made, prior to the implementation of these foreign exchange regulations, direct or indirect investments in offshore companies are required to register those investments. In addition, any mainland China resident who is a direct or indirect shareholder of an offshore company is required to update the previously filed registration with the qualified bank, with respect to that offshore company, to reflect any material change involving its round-trip investment, capital variation, such as an increase or decrease in capital, transfer or swap of shares, merger or division. If any mainland China shareholder fails to make the required registration or update the previously filed registration, the mainland China subsidiary of that offshore parent company may be restricted from distributing their profits and the proceeds from any reduction in capital, share transfer or liquidation to their offshore parent company, and the offshore parent company may also be restricted from injecting additional capital into its PRC subsidiary. Moreover, failure to comply with the various foreign exchange registration requirements described above could result in liability under PRC laws and regulations for evasion of applicable foreign exchange restrictions, including (i) the requirement by the SAFE to return the foreign exchange remitted overseas or into the PRC within a period of time specified by the SAFE, with a fine of up to 30% of the total amount of foreign exchange remitted overseas or into the PRC and deemed to have been evasive or illegal and (ii) in circumstances involving serious violations, a fine of no less than 30% of and up to the total amount of remitted foreign exchange deemed evasive or illegal.

We have requested mainland China residents that to our knowledge hold direct or indirect interest in our Company to make the necessary applications, filings and amendments as required by applicable foreign exchange regulations. However, there can be no assurance that any possible subsequent amendment of registration can be successfully completed in a timely manner. Failure by any such Shareholders to comply with the SAFE Circular 37 or other related regulations could subject us to fines or legal sanctions, restrict our investment activities in mainland China and overseas or cross-border investment activities, limit our subsidiaries' ability to make distributions, pay dividends or other payments to us or affect our ownership structure, which could adversely affect our business and prospects.

We cannot assure you that the interpretation, amendment and implementation of these regulations, and any future regulation concerning offshore or cross-border transactions will not be subject to change. We cannot predict how these regulations will affect our business operations or future strategy. For example, we may be subject to a more stringent review and approval process with respect to our foreign exchange activities, such as remittance of dividends and foreign-currency denominated borrowings, which may materially and adversely affect our results of operations and financial condition. In addition, if we decide to acquire a mainland China domestic company, we cannot assure you that we or the owners of such company, as the case may be, will be able to obtain the necessary approvals or complete the necessary filings and registrations required by the foreign exchange regulations. This may restrict our ability to implement our acquisition strategy and could materially and adversely affect our business and prospects.

---

## RISK FACTORS

---

### **The M&A Rules and certain other PRC regulations establish additional procedures for some acquisitions of Chinese companies by foreign investors**

The Regulations on Mergers and Acquisitions of Domestic Companies by Foreign Investors, or the M&A Rules, adopted by six PRC regulatory agencies in 2006 and amended in 2009, and some other established regulations and rules concerning mergers and acquisitions, as well as additional procedures and requirements, aim to provide more regulatory clarity and oversight for foreign investment. Examples include, that the MOFCOM be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise if (i) any important industry is concerned, (ii) such transaction involves factors that have or may have impact on the national economic security, or (iii) such transaction will lead to a change in control of a domestic enterprise which holds a famous trademark or time-honored brand in mainland China. The approval from the MOFCOM shall be obtained in circumstances where overseas companies established or controlled by enterprises or residents in mainland China acquire affiliated domestic companies. For details, please refer to “Regulatory Overview – Regulations Relating to M&A Rules and Overseas Listings.” The M&A Rules further require that, among others, an offshore special vehicle, or a special purpose vehicle, formed for listing purposes and controlled directly or indirectly by companies or individuals in mainland China, shall obtain the approval of the CSRC prior to the listing and trading of such special purpose vehicle’s securities on an overseas stock exchange, in particular if the special purpose vehicle acquires shares of or equity interests in the companies in mainland China in exchange for shares of offshore companies. Moreover, the Anti-Monopoly Law of the PRC (《中華人民共和國反壟斷法》) provides that we are required to notify relevant authorities in advance of any concentration of undertaking if certain thresholds are triggered. In addition, Provisions of the Ministry of Commerce on the Implementation of the Safety Review System for Mergers and Acquisitions of Domestic Enterprises by Foreign Investors (《商務部實施外國投資者併購境內企業安全審查制度的規定》) issued by the MOFCOM that became effective in September 2011 specify that mergers and acquisitions by foreign investors that raise “national defense and security” concerns, and mergers and acquisitions through which foreign investors may acquire de facto control over domestic enterprises that raise “national security” concerns, are subject to strict review by the MOFCOM, and the rules prohibit any activities attempting to bypass a security review, including by structuring the transaction through a proxy or contractual control arrangement. Furthermore, as required by the Measures for the Security Review of Foreign Investment (《外商投資安全審查辦法》), promulgated by the NDRC and the MOFCOM on December 19, 2020 and effective as of January 18, 2021, investments in military, national defense-related areas or in locations in proximity to military facilities, or investments that would result in acquiring the actual control of assets in certain key sectors, such as critical agricultural products, energy and resources, equipment manufacturing, infrastructure, transport, cultural products and services, information technology, internet products and services, financial services and technology sectors, are required to obtain approval from designated governmental authorities in advance. In the future, we may grow our business by acquiring complementary businesses. Complying with the requirements of the above-mentioned regulations and other relevant rules to complete such transactions could be time-consuming, which could affect our ability to expand our business or maintain our market share. We cannot assure you that we will be able to complete such transactions in a timely manner or at all.

---

## RISK FACTORS

---

**We are required to make filings and report to CSRC in connection to the [REDACTED] and we may not be able to obtain such approval in a timely manner or at all**

On July 6, 2021, the General Office of the State Council, together with another regulatory authority, issued the Opinions on Strictly Combating Illegal Securities Activities in Accordance with the Law (《關於依法從嚴打擊證券違法活動的意見》) (the “**July 6 Opinion**”), which called for the enhanced administration and supervision of overseas-listed China-based companies, proposed to revise the relevant regulation governing the overseas issuance and listing of shares by such companies and clarified the responsibilities of competent domestic industry regulators and government authorities.

To echo and reflect the July 6 Opinion, on February 17, 2023, the CSRC promulgated the Trial Administrative Measures of Overseas Securities Offering and Listing by Domestic Enterprises (《境內企業境外發行證券和上市管理試行辦法》) (the “**Trial Measures**”) and their implementation guidelines. The Trial Measures, which took effect on March 31, 2023, provide the scope of activities subject to the filing requirement, the entities subject to filing obligations, and the filing procedures. For more details, please refer to “Regulatory Overview – Regulations Relating to M&A Rules And Overseas Listings” in this document.

Based on the foregoing, we are required to file with the CSRC in accordance with the Trial Measures after our application for the [REDACTED] is submitted, and there is uncertainty as to whether we will be able to complete the filing procedures or obtain approval for this [REDACTED] in a timely manner or at all. In addition, according to the Trial Measures, any future issuance after the [REDACTED] will also be subject to filing procedure of CSRC and we are also required to report certain material matters to CSRC after the [REDACTED]. Any failure to complete such filing or reporting procedure would subject us to administrative penalties by CSRC which could harm our reputation and may affect our financial condition.

### **RISKS RELATING TO THE [REDACTED]**

**There has been no prior public market for our Shares and their liquidity and market price may be volatile**

Prior to the [REDACTED], there was no public market for our Shares. The [REDACTED] for our Shares will be determined by us and the [REDACTED] (for itself and on behalf of the [REDACTED]) based on, among other things, market and economic conditions on the date the [REDACTED] is determined, our results of operations, market valuations of other companies engaged in similar activities, the present state of our business operations, our management, indications of interest from [REDACTED] in our Shares and other factors deemed relevant, and may differ significantly from the [REDACTED] of our Shares following the [REDACTED]. We have applied for [REDACTED] of, and permission to [REDACTED], our Shares on the Stock Exchange. There is no assurance that the [REDACTED] will result in the development of an active and liquid public trading market or that such market will be sustained. If an active public market for our Shares does not develop following the completion of the [REDACTED], the market price and liquidity of our Shares could be materially and adversely affected.

---

## RISK FACTORS

---

The price and [REDACTED] of our Shares may be subject to significant volatility in response to, among others, the following factors:

- variations in our results of operations and/or financial condition;
- changes in securities analysts’ estimates of the results of operations and/or our financial condition, regardless of the accuracy of information on which their estimates are based;
- changes in investors’ perception of us and the investment environment generally;
- loss of visibility in the markets due to lack of regular coverage of our business;
- strategic alliances or acquisitions;
- potential litigations or regulatory investigations;
- loss of key personnel;
- announcements made by us or our competitors;
- changes in pricing adopted by us or our competitors;
- the liquidity of the market for our Shares; and
- general economic and other factors.

**Since there will be a gap of two business days between the [REDACTED] and [REDACTED] of the [REDACTED], holders of the [REDACTED] are subject to the risk that the price of the [REDACTED] could fall during the period before the [REDACTED] of our Shares begins**

Our Shares will not commence [REDACTED] on the Hong Kong Stock Exchange until they are delivered, which is expected to be two Hong Kong business days after the closing of the [REDACTED] and the [REDACTED] of our Shares. As a result, [REDACTED] may not be able to sell or deal in our Shares during that period. Accordingly, holders of our Shares are subject to the risk that the price of our Shares could fall before [REDACTED] begins as a result of unfavorable market conditions or other adverse developments that could occur between the time of the closing of [REDACTED] and the [REDACTED] and the time [REDACTED].

---

## RISK FACTORS

---

### **Future sales, or market perception of sales, of substantial amounts of our Shares or other securities relating to our Shares in the public market could materially and adversely affect the prevailing [REDACTED] of our Shares**

Future sales by our shareholders of substantial amounts of our Shares or other securities relating to our Shares in the public markets after the [REDACTED], or the perception that these sales may occur, could adversely affect prevailing market prices from time to time. Please refer to “[REDACTED]” in this document for a more detailed discussion of restrictions that may apply to future sales of our Shares.

After these restrictions lapse, the [REDACTED] of our Shares may decline as a result of future sales of substantial amounts of our Shares or other securities relating to our Shares in the public market, the issuance of new Shares or other securities relating to our Shares, or the perception that such sales or issuances may occur. This could also materially adversely affect our ability to raise capital in the future at a time and at a price we deem appropriate.

### **[REDACTED] will experience dilution in [REDACTED] adjusted net tangible assets because the [REDACTED] is higher than our net tangible assets per Share**

Because the [REDACTED] of our Shares is higher than the net tangible assets per Share immediately prior to the [REDACTED], purchasers of our Shares in the [REDACTED] will experience an immediate dilution in [REDACTED] adjusted consolidated net tangible assets of HK\$[REDACTED] per Share (assuming an [REDACTED] of HK\$[REDACTED] per Share, being the mid-point of the stated [REDACTED] range, and assuming that the [REDACTED] for the [REDACTED] is not exercised). If we issue additional Shares in the future, purchasers of our Shares may experience further dilution in their ownership percentage.

### **Forward-looking information in this document may prove inaccurate**

This document contains certain forward-looking statements and information relating to us that are based on our management’s belief and assumptions. The words “anticipate”, “believe”, “estimate”, “expect”, “going forward” and similar expressions, as they relate to us or our management, are intended to identify forward-looking statements. Such statements reflect our management’s current views with respect to future events and are subject to certain risks, uncertainties, and assumptions, including the risk factors described herein. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, our financial condition may be adversely affected and may vary materially from those described herein as anticipated, believed, estimated, or expected.

---

## RISK FACTORS

---

**The actual or perceived sale or availability for sale of substantial amounts of our Shares, especially by our Directors, executive officers and Controlling Shareholders, could adversely affect the [REDACTED] of our Shares**

Future sales of a substantial number of our Shares, especially by our Directors, executive officers and Controlling Shareholders, or the perception or anticipation of such sales, could negatively impact the [REDACTED] of our Shares in Hong Kong and our ability to raise equity capital in the future at a time and price that we deem appropriate.

The Shares held by our Controlling Shareholders are subject to certain lock-up periods beginning on the date on which [REDACTED] in our Shares commences on the Stock Exchange. While we currently are not aware of any intention of such persons to dispose of significant amounts of their Shares after the expiry of the lock-up periods, we cannot assure you that they will not dispose of any Shares they may own now or in the future.

**There is no assurance if and when we will pay dividends in the future**

Distribution of dividends will be at the discretion of our Board and subject to Shareholders' approval. A decision to declare or pay dividends and the amount of such dividends will depend on our future operations and earnings, capital requirements and surplus, general financial conditions, contractual restrictions and other factors that our Directors consider relevant. As a result, there can be no assurance whether, when and in what manner we will pay dividends in the future.

**The laws of the Cayman Islands relating to the protection of the interests of minority shareholders may be different from those in Hong Kong**

Our corporate affairs are governed by the Articles of Association, the Cayman Companies Act and the common law of the Cayman Islands. The laws of the Cayman Islands relating to the protection of the interests of minority shareholders may differ in some respects from those established under statutes or judicial precedents in existence in Hong Kong. This means that the remedies available to our minority Shareholders may be different from those available under the laws of Hong Kong or other jurisdictions. A summary of the constitution of our Company and the Cayman Companies Act is set out in Appendix IV to this document.

**We cannot guarantee the accuracy of certain facts and statistics derived from government sources contained in this document**

We have derived certain facts and other statistic in this document relating to the PRC, the PRC economy and the pre-owned consumer electronics transaction services industry from various government publications or communications with various government agencies that we believe to be reliable. We believe that the sources of such information are appropriate sources for such information and have taken reasonable care in extracting and reproducing such information. We have no reason to believe that such information is false or misleading or that any fact has been omitted that would render such information false or misleading. The

information from official government sources has not been independently verified by us, the Sole Sponsor, the [REDACTED], the [REDACTED], the [REDACTED], the [REDACTED], the [REDACTED], or any of our or their respective directors and advisers or any other persons or parties involved in the [REDACTED], and no representation is given as to its accuracy. The facts and other statistics include but not limited to the facts and statistics included in the sections entitled “Risk Factors”, “Industry Overview” and “Business”.

Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and you should not place undue reliance on them. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy as similar statistics presented elsewhere. In all cases, you should consider carefully how much weight or importance you should attach to or place on such facts or statistics.

**You should read the entire document carefully and we strongly caution you not to place any reliance on any information contained in press articles or other media regarding us and the [REDACTED]**

We strongly caution you not to place any reliance on any information contained in press articles or other media regarding us and the [REDACTED]. Prior to the date of this document, there has been press and media coverage regarding us and the [REDACTED], which included certain financial information, projections, valuations, capital expenditure and other information about us and the [REDACTED] that do not appear in this document. We have not authorized the disclosure of any such information in the press or media and do not accept any responsibility for any such press articles or other media coverage. We make no representation as to the appropriateness, accuracy, completeness, or reliability of any such information included in or referred to by the press or other media, nor the fairness or appropriateness of any forecasts, views or opinions expressed by the press or other media regarding us or the [REDACTED]. To the extent that any such information is inconsistent or conflicts with the information contained in this document, we would not accept any responsibility for it and you should not rely on any such information.

Accordingly, you are cautioned that, in making your decisions as to whether to purchase our [REDACTED], you should rely on the financial, operational, and other information included in this document. By applying to purchase our [REDACTED] in this [REDACTED], you will be deemed to have agreed that you will not rely on any information other than the information contained in this document.

## **WAIVER FROM STRICT COMPLIANCE WITH THE LISTING RULES**

In preparation for the [REDACTED], our Company has sought the following waiver from strict compliance with the relevant provisions of the Listing Rules:

### **WAIVER IN RELATION TO MANAGEMENT PRESENCE IN HONG KONG**

Pursuant to Rule 8.12 of the Listing Rules, a new applicant for listing on the Stock Exchange must have sufficient management presence in Hong Kong, which normally means that at least two of the executive Directors must be ordinarily resident in Hong Kong. Since our headquarters and principal business operations and management of our Group are carried out in the PRC, our executive Directors are based in the PRC to better manage and attend to our Group's business operations. Therefore, we do not and, in the foreseeable future, will not have sufficient management presence in Hong Kong for the purpose of satisfying the requirement under Rule 8.12 of the Listing Rules.

Accordingly, we have applied to the Stock Exchange for [, and the Stock Exchange has agreed to grant,] a waiver from strict compliance with the requirement under Rule 8.12 of the Listing Rules. In order to maintain effective communication with the Stock Exchange, we will put in place the following measures in order to ensure that regular communication is maintained between the Stock Exchange and us:

- (a) we have appointed two authorized representatives pursuant to Rule 3.05 of the Listing Rules. The two authorized representatives are Mr. Liu, our executive Director and Ms. Li Ching Yi (李菁怡), our company secretary. The authorized representatives will act as the principal channel of communication between the Stock Exchange and our Company. The authorized representatives will be available to meet with the Stock Exchange in Hong Kong within a reasonable period of time upon request and will be readily contactable by the Stock Exchange by telephone and/or email to deal promptly with any enquiries which may be made by the Stock Exchange. Each of the authorized representatives is authorized to communicate on behalf of our Company with the Stock Exchange;
- (b) each of the authorized representatives has means to contact all Directors (including the non-executive Director and the independent non-executive Directors) promptly at all times as and when the Stock Exchange wishes to contact our Directors on any matters. We have provided the Stock Exchange with the contact details, including, mobile phone number, office phone number and email address, of all Directors to facilitate communication with the Stock Exchange;
- (c) in compliance with Rule 3A.19 of the Listing Rules, we have retained Zero2IPO Capital Limited to act as our compliance advisor, will act as an additional channel of communication between the Stock Exchange and our Company for the period commencing on the [REDACTED] and ending on the date that our Company publishes our financial results for the first full financial year after the [REDACTED] pursuant to Rule 13.46 of the Listing Rules;

---

**WAIVER FROM STRICT COMPLIANCE WITH THE LISTING RULES**

---

- (d) our Company will inform the Stock Exchange promptly in respect of any change in our Company’s authorized representatives and compliance advisor;
- (e) each Director who is not ordinarily resident in Hong Kong has confirmed that each of them possesses or can apply for valid travel documents to visit Hong Kong and can meet with the Stock Exchange within a reasonable period; and
- (f) we will retain a Hong Kong legal adviser to advise us on the application of the Listing Rules and other applicable Hong Kong laws and regulations after our [REDACTED].

## INDUSTRY OVERVIEW

---

*This section contains certain information, statistics and data which are derived from a commissioned report from Frost & Sullivan, an Independent Third Party (the “F&S Report”). We believe that the sources of the information in this section are appropriate sources for such information and have taken reasonable care in extracting and reproducing such information. We have no reason to believe that such information is false or misleading or that any fact has been omitted that would render such information false or misleading. Neither we nor any other party involved in the [REDACTED] have independently verified information from official government sources, and neither we nor any other party involved in the [REDACTED] are giving any representation as to the accuracy or completeness of such information. [REDACTED] are cautioned not to place any undue reliance on the information, including statistics and estimates, set forth in this section or similar information included elsewhere in this document. For a discussion of risks relating to our industries, see the section headed “Risk Factors – Risks Related to Our Business and Industry.”*

### SOURCE OF INFORMATION

We engaged Frost & Sullivan, an independent market research consultant, to conduct an analysis and prepare a report on the pre-owned consumer electronics products transaction market and mobile phone recycle market in China for the use in this Document, which was commissioned by us for a fee of RMB1,880,000. In compiling and preparing the F&S Report, Frost & Sullivan adopted the following assumptions: (i) The social, economic and political conditions in China currently discussed will remain stable during the forecast period; (ii) Government policies on pre-owned consumer electronics products transaction market and mobile phone recycle market in China discussed will remain consistent during the forecast period; (iii) China’s pre-owned consumer electronics products transaction market and mobile phone recycle market will be driven by the factors which are stated in this report. Except as otherwise noted, all of the data and forecasts contained in this section are derived from the F&S Report. Our Directors confirm that after taking reasonable care, there is no material adverse change in the overall market information since the date of the F&S Report and up to the date of this document that would materially qualify, contradict or have an impact on such information.

### ANALYSIS OF PRE-OWNED CONSUMER ELECTRONICS PRODUCTS TRANSACTION MARKET IN CHINA

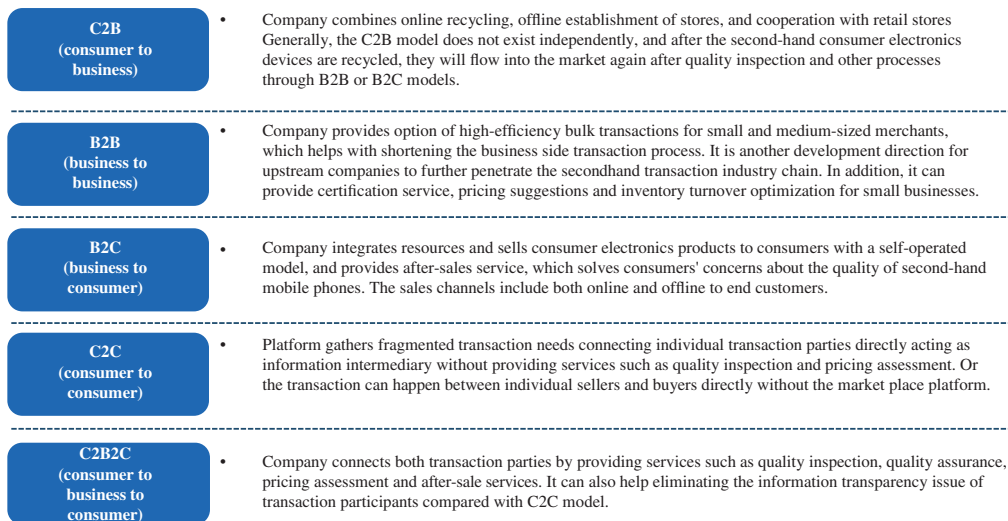

#### Definition and Classification

The pre-owned consumer electronics products transaction market refers to the buying, selling, and trading of secondhand or refurbished electronic devices such as smartphones, laptops, tablets, and others, which include both the recycling and sales sides.

## INDUSTRY OVERVIEW

The pre-owned consumer electronics transaction services market operates through various business models, including C2B, B2C, C2B2C, B2B, and C2C. C2C involves direct consumer-to-consumer transactions, while C2B enables consumers to sell products to platforms/merchants first for recycling and then sold to following step merchants through B2B model or end customers through B2C model. B2C platforms/merchants sell pre-owned consumer electronics to consumers after buying the products first, while C2B2C involves platforms acting as intermediary between consumers providing services such as quality inspection and pricing assessment. In addition, B2B transactions occur between platforms/merchants often in bulk. Measured by total transaction value of pre-owned consumer electronics in China considering various business models, the market grew from approximately RMB259.9 billion in 2020 to approximately RMB702.0 billion in 2024 with a CAGR of approximately 28.2% during the period. The supply and demand in the pre-owned consumer electronics products market are closely linked, with increasing consumer interest driving higher demand, while supply is affected by product lifespan, refurbishment capacity, and market conditions, etc.

### Business Models of Pre-owned Consumer Electronics Products Transaction Market

Source: Frost & Sullivan

### Market Size

China's pre-owned consumer electronics products transaction market has been developing rapidly in the past five years. From 2020 to 2024 and measured by total transaction value, which includes transaction value of consumer electronics in between consumers and consumers, consumers and merchants, and merchants and merchants, the market grew from RMB259.9 billion to RMB702.0 billion, with a CAGR of 28.2%. Among all categories, mobile phone took the majority of market share, with around 74% in 2024. In February 2024, the General Office of the State Council issued the Opinions on Accelerating the Construction of a Waste Recycling System (《關於加快構建廢棄物循環利用體系的意見》) which, among others, calls for the standardization of trading activities in connection with second-hand goods

## INDUSTRY OVERVIEW

and encourages the development of the “internet & second-hand” business model. It also proposes to introduce regulations related to information clearance methods for consumer electronic products such as tablets and mobile phones when traded by second-hand goods trading enterprises, ensuring the security of seller information during such transactions. This initiative is significant for mobile phone recycling service providers, offering a structured framework to improve transparency, efficiency, and sustainability in the second-hand market.

In the forecast period, driven by government supports on circulation economy, consumers’ demand for disposing or replacing used consumer electronics products due to technology upgrade such as the adoption and popularization of 5G network, as well as the vigorous development of offline recycling channels for pre-owned consumer electronics which provides more convenience to consumers to sell and purchase pre-owned products, the market is expected to experience further growth, reaching RMB1,845.6 billion in 2029 with a CAGR of 21.1% in the forecast period. Consumers’ increasing needs of dealing with used or idle consumer electronics products contribute to the flourishing of consumer electronics product recycling activities.

**Market Size of Pre-owned Consumer Electronics Products Transaction Market  
(by Total Transaction Value<sup>(1)</sup>), China, 2020-2029E**

Notes:

- (1) The total transaction value refers to the total transaction value of pre-owned products circulating in the market through all process, including recycling, end sales, B2B circulation, direct transactions between pre-owned products sellers and end buyers, etc.
- (2) Others include headphones, cameras, portable players and wearable electronics.

## INDUSTRY OVERVIEW

---

### ANALYSIS OF MOBILE PHONE RECYCLED IN CHINA

#### Definition and Classification

Mobile phone recycle activities refer to the recycling of mobile phones either from individual consumers or merchant users.

Before 2010, the majority of participants in the mobile phone recycled in China were conventional offline merchants such as regional dealers and recyclers. During 2010 to 2017, increasing number of online pre-owned consumer electronics service providers were established, leading the mobile phone recycle industry to enter the internetization stage. After 2017, online recycling pre-owned consumer electronics service providers have been developing rapidly, with focus on investing and build up their proprietary automated appraisal, inspection, pricing, and payment systems with innovative technologies including big data and artificial intelligence, which helps to set up benchmarks for quality and pricing of the mobile phone recycle market in China.

The recycling of mobile phones solutions can be classified into two types, namely trade-in solution (以舊換新) and sale solution (閒置回收). Individual consumers or merchant users typically obtain the estimated pricing given by pre-owned consumer electronics service providers or merchants, and then can decide whether to proceed with trade-in or sale based on the estimated pricing and the need of new mobile phone purchase.

- For trade-in solution, individual consumers or merchant users usually recycle their pre-owned mobile phones to online pre-owned consumer electronics service providers or merchants to compensate the purchase of new mobile devices. Leading online pre-owned consumer electronics service providers usually choose to establish business partnerships with e-commerce or other online pre-owned consumer electronics service providers, consumer electronic brands, mobile phone dealers and mobile network operators to offer new devices, and customers will receive coupon or discount for purchasing new device. The trade-in solutions not only help business partners drive up new device sales, but also cultivate the loyalty of consumers and help online pre-owned consumer electronics service providers expand their sources of recycled mobile phones.
- For sale solution, individual consumers or merchant users recycle devices in exchange for cash or environmental reward points without purchasing the new one. The price is typically determined automatically by pricing system based on the data pool cumulated by online pre-owned consumer electronics service providers or determined manually, and consumers can decide whether to proceed with selling or wait for a new buyer. The recycling prices of mobile phones are determined by factors such as device condition, brand, and market demand. Trade-in solutions are typically influenced by promotional offers, while sale solutions are based on the device’s residual value. The sales price is largely market-driven, shaped by demand and competition.

## INDUSTRY OVERVIEW

### Value Chain

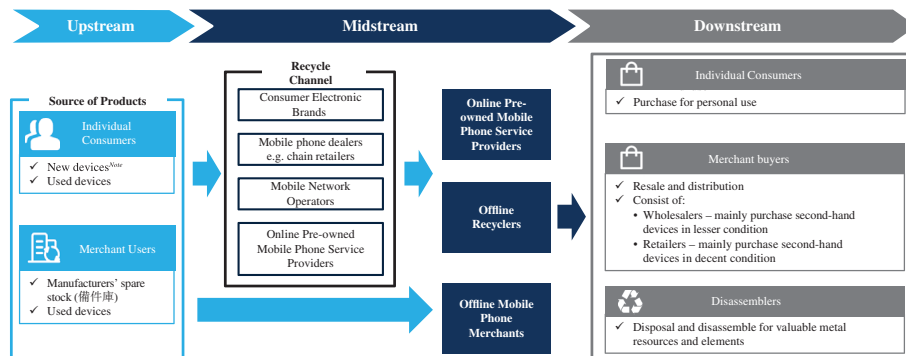

Upstream of mobile phone recycle market refers to the sources of pre-owned mobile phones, which include individual consumers and merchant users. Individual consumers are the major source, making the supply of pre-owned mobile phones highly dispersed.

Through recycle channels, mobile phones will flow to the midstream of the market, which mainly include online pre-owned consumer electronics service providers, consumer electronic brands, mobile phone dealers inclusive of chain retailers, and mobile network operators. Recycle channels such as consumer electronic brands, mobile phone dealers and mobile network operators are also the typical channels for customers to opt trade-in solution of their pre-owned mobile phones.

Midstream of the market includes pre-owned consumer electronics service providers, recyclers and mobile phone dealers. Recyclers and mobile phone merchants refer to the entities which intend to recycle or resell the mobile phones for profits. They usually operate in the offline channel. Recycling online pre-owned consumer electronics service providers usually operate the omni-channel recycling business, which own advanced proprietary technological capabilities such as appraisal, inspection, pricing, data erasing and other value-added services.

Downstream of the market includes individual consumers, merchant buyers and disassemblers. Individual consumers purchase for personal use. Merchant buyers purchase for resale and distribution, which consist of wholesalers and retailers. Among them, the wholesalers mainly purchase second-hand devices that are in lesser condition. The retailers mainly purchase devices that are in decent condition, which may have minor defects and are generally resold directly after purchase. Disassemblers deal with disposal if the recycled devices are considered to be defective or with little usage value.

### Industry Value Chain of Mobile Phone Recycle Market, Mainland China

*Note: New devices refer to those new mobile phones which remain idle or redundant for owners.*

*Source: Frost & Sullivan*

## INDUSTRY OVERVIEW

### Transaction Value of Mobile Phone Recycled in China

Transaction value of mobile phone recycled takes into account the transaction value of pre-owned mobile phones recycled from either individual consumers or merchant users. In terms of the transaction value of mobile phones recycled under trade-in solution, the market climbed rapidly from RMB6.1 billion in 2020 to RMB19.4 billion in 2024, representing a CAGR of approximately 33.5%, and is expected to grow further to approximately RMB70.2 billion in 2029 in China. Pre-owned mobile phones typically are in short supply in the China’s market and are estimated to maintain the status in the forecast period. There is generally no shortage of buyers of pre-owned mobile phones compared with sellers in the market, and the average inventory turnover period is approximately 10 to 15 days. The market size for second-hand mobile phones on consumer sales side has reached RMB94.7 billion in 2024, which is higher than the market size on the recycling end, reflecting substantial demand for second-hand mobile phones. Additionally, the average recycling price for second-hand mobile phones have steadily increased over the past five years with a CAGR of 4.4% from 2020 to 2024, further demonstrating robust market demand.

Regarding the transaction value of mobile phones recycled under sale solution, the figure increased from approximately RMB23.8 billion in 2020 to approximately RMB59.5 billion in 2024, and is expected to grow further to approximately RMB141.5 billion in 2029.

#### Transaction Value of Mobile Phone Recycled<sup>Note</sup>, China, 2020-2029E

*Note:* The transaction value of mobile phone recycled only includes the transaction value of the mobile phone recycling process.

*Source:* Frost & Sullivan

## INDUSTRY OVERVIEW

### Transaction Value of Mobile Phone Recycled under Trade-in Solution

In terms of channel breakdown of transaction value, offline channel remains the major channel for mobile phone recycled under trade-in solution, taking up approximately 75% of the total market size in 2024.

The offline number increased from approximately RMB5.0 billion in 2020 to approximately RMB14.6 billion in 2024, with a CAGR of approximately 30.7%. In the future, following the trend of increasing volume of mobile phone recycled under trade-in solution through offline channel, the market is expected to maintain the upward momentum, with the figure reaching approximately RMB51.5 billion in 2029, representing a CAGR of approximately 28.1% during 2025 to 2029.

**Channel Breakdown of Transaction Value of Mobile Phone Recycled under Trade-in Solution, China, 2020-2029E**

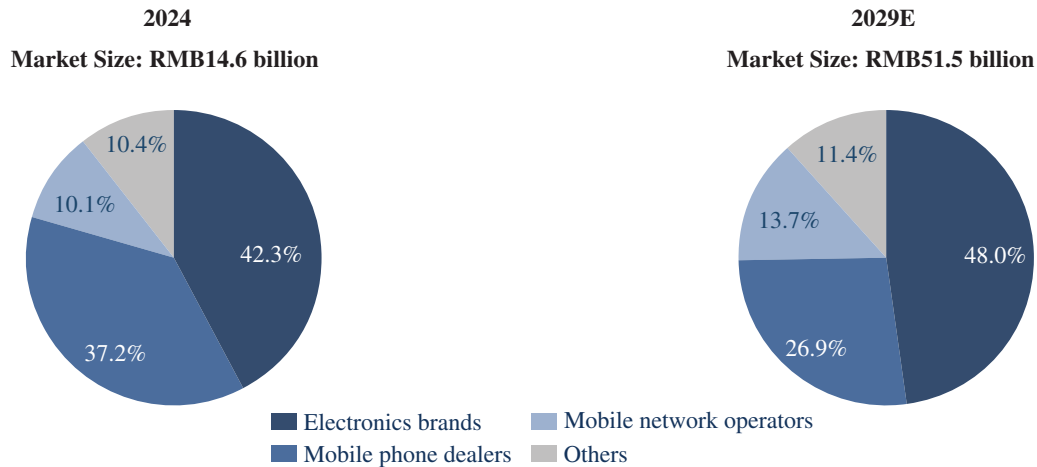

Source: Frost & Sullivan

In terms of transaction value of mobile phone recycled through offline trade-in solutions, consumer electronic brands and mobile phone dealers inclusive of chain retailers are the main channels in 2024, accounting for around 42.3% and 37.2% respectively. Other channel inclusive of those offline counters or stores operated by pre-owned consumer electronics service providers, takes up around 10.4% of the total market.

Considering the rapid development of consumer electronic brands channel, mobile network operators and offline counters or stores operated by pre-owned consumer electronics service providers, in 2029, market share of consumer electronic brands, mobile phone dealers, mobile network operators and others are expected to be around 48.0%, 26.9%, 13.7% and 11.4%, respectively. Mobile network operators are cooperating with pre-owned consumer electronics service providers and mobile phone dealers to offer trade-in solutions and therefore its market share is expected to increase further in the forecast period.

## INDUSTRY OVERVIEW

### Channel Breakdown of Transaction Value of Mobile Phone Recycled under Offline Trade-in Solution, China, 2024 & 2029E

Source: Frost & Sullivan

### Entry Barriers

#### *Recycle Channel Barrier*

The leading mobile phone recycling service providers have established omni-channel recycle network with rich sources of supply and large user base. In the offline channel, existing recycling service providers choose to jointly operate offline stores with consumer electronic brands providing trade-in services for customers, which can not only help those business partners to accelerate sales and marketing of their new devices, but also help recycling service providers expand their sources of supply. In the online channel, service providers choose to establish business partnerships with e-commerce service providers to leverage their online traffic to access potential customers. However, it is difficult for new entrants to establish recycle business in various channels, and obtain sustainable sources of supply.

#### *Fulfillment and Service Barrier*

Due to high price characteristics of pre-owned mobile devices, customers become more price sensitive and concerned about the authenticity of the electronics. Existing mobile phone recycling service providers usually provide value-added services including appraisal, inspection, pricing, data erasing and other services. They have established mature evaluation metrics to create objective evaluation reports for users. Mature and outstanding after-sales service systems could solve potential concerns of customers, which can help service providers further build their brand equity in the market. For the new entrants, it would be difficult to establish the comprehensive service systems in the short term.

## INDUSTRY OVERVIEW

---

### ***Brand and Trust Barrier***

Because of the lack of information transparency in traditional mobile phone recycle market, user complaints such as false description, artificially high price, fake products, and lack of after-sale services, can create adverse impacts on the service providers. With service providers offering detailed inspection reports and quality guarantees for items being sold, stable order fulfillment and high product turnover will be ensured. New entrants have to figure out solutions to enhance service providers in a manner to enhance information transparency and build up trust, to continuously attract, engage, and retain active customers.

### **Market Drivers**

#### ***Large Supplying of New Consumer Electronics Products***

Both demand and supply of second-hand mobile phones will drive the development of mobile phone recycling service providers. With the largest population base in the world, China has large demand for new consumer electronics products, creating potential supply of secondhand goods available for resale. The consumer electronics products brands launch products with different consumer needs 1-2 times a year. Also, the consumption power of consumers will increase due to the continuous development of economy, and consumers tend to change their electronic devices more often, which has supported the supply of pre-owned consumer electronics goods. For instance, among 3C products, new mobile phones shipments is expected to grow from 300.6 million to 350.1 million during 2024 to 2029, with a CAGR of 3.1%, and pre-owned or idle mobile phones available for resale or recycle is estimated to be 1,048.8 million in terms of volume by 2029, considering the commercialization of 5G technology and telecom device upgrade, the 3C products figure is expected to be 1,544.7 million by 2029. The demand and supply of consumer electronics are fundamental to recycling service providers. Without sufficient supply, the needs of end users cannot be met, and the growth of mobile phone recycling service providers will be difficult to sustain. The release of new mobile phones drives the development of mobile phone recycle market by encouraging consumers to trade-in or sell previous devices, enhancing the supply of mobile phone recycle market.

#### ***Improving Consumer Electronics Products Recycling Services***

As the pre-owned consumer electronics products transaction market becomes more mature, players in the industry are striving to provide users with transparent, diversified and comprehensive value-added services. The communication channel between buyers and sellers is more convenient and direct. Leading recycling service providers are investing heavily to establish their operation centers equipped with proprietary technologies such as big data and artificial intelligence to facilitate the process of appraisal. When pre-owned consumer electronics products are recycled, the devices can be thoroughly tested and appraised for quality assurance purposes. During the purchasing process, players in the industry are providing value-added services such as price protection, product warranty, and personal after-sales customer service to attract consumers. Specifically, recycling service providers can

---

## INDUSTRY OVERVIEW

---

provide consumers with a guaranteed price service which will not be affected by market price fluctuations within a certain period of time after consumers submit the order (about 10 days). Additionally, recycling service providers can provide pre-owned electronic products with 7 days no-reason return service and one-year warranty service. At the same time, players in the mobile phone recycling industry will also benefit from the gradual maturity of the market, which can then lead to increasing sales volume and revenue.

### *Favorable Policy Support of the Government*

The government has been advancing equipment upgrades and trade-in initiatives for consumer goods. In March 2024, the State Council issued the Action Plan for Promoting Large-Scale Equipment Upgrades and Trade-in Programs for Consumer Goods (《推動大規模設備更新和消費品以舊換新行動方案》), putting forward to improve the recycling network for used products and equipment, and supporting the circulation and trade of second-hand goods, which further creates favorable political environment for pre-owned consumer electronics transaction market. The government also has been encouraging the development of green and recycling economy. China raised “Double Carbon Target” (雙碳目標) in United Nations Congress, i.e. carbon emission to reach peak by 2030 and to become neutral by 2060, showing the determination and ambitions to fight against the global climate change and move towards sustainable, green and recycling economy development. These policies are expected to advance mobile phone recycling providers by establishing a regulatory framework that promotes technological innovation and a circular economy, enhancing sustainability and market opportunities.

### *Consumption Behaviour Changes towards Pre-owned Mobile Phones*

People’s consumption philosophy is changing towards rational decision-making purchase, and it becomes not necessarily important for people to purchase brand new mobile phones, due to the high price of new mobile phones with no major breakthroughs in technology make it an alternative for consumers who cannot afford new mobile phones to look for cheap pre-owned mobile phones. Meanwhile, the recovery of new mobile phone shipment and sales with upgrading demand support the market activity of pre-owned mobile phones. Moreover, with the increasing consciousness on the importance of environmental protection and realization of social responsibility, it becomes more acceptable for people to consider buying pre-owned mobile phones, so as to make contributions to developing green and recycling economy. In 2024, developed countries such as the US and Japan have the mobile phone recycling rate, measured as transaction volume of mobile phones recycled over sales volume of new mobile phones during given period, ranging from approximately 55% to 75%, whilst China’s mobile phone recycling rate is approximately 37.3% in 2024, which is a significant improvement from 17.1% in 2020. In spite of this, there is still a large room for growth compared to developed countries, indicating the potential development and market growth of China’s mobile phone recycle industry.

## INDUSTRY OVERVIEW

---

### *Longer Life-cycle of Smartphones*

Mobile phone is the most commonly used consumer electronic device, which plays an essential role in people’s daily life in Mainland China. Leading consumer electronic brands such as Xiaomi and Huawei have taken product quality and battery life extremely seriously in their developments of product models. With the advancement of the lithium battery technology, the lifetime and turnover rates of used devices are expected to increase in the forecast periods. Extending the lifespan of smartphones will lead to an overall improvement in the quality and condition of pre-owned mobile phones, which will contribute to higher acceptance of pre-owned mobile phones from buyer side and thus drive the market demand growth. Therefore, the mobile phone recycle market in China is expected to embrace a rapid growth in the forecast periods. The rising demand for second-hand mobile phones will increase the revenue of mobile phone recycling service providers.

### *AI Smartphones Upgrading Demand*

In recent years, the rise of artificial intelligence technology has begun to take root in the smartphone domain. It is expected that AI-driven devices will become the next stage after the era of smartphones. As consumers seek for the latest AI features and performance, the trend is expected to lead to update and replacement from existing mobile phones to new AI smartphones. Consequently, the mobile phone recycle market is expected to be driven by the introduction of AI mobile phone with increasing supply for mobile phone recycling service providers and thus contributing to business growth.

### **Challenges and Threats**

#### *Longer Consumer Habits Formation Period*

The prolonged consumer habits formation period presents a potential challenge to the mobile phone recycle market. It may take longer for consumers than expected to engage in the buying and selling of pre-owned mobile phones, resulting in a reduced turnover of devices for recycling. Efforts to address this challenge can focus on enhancing consumer awareness and participation in recycling initiatives.

#### *Lack of Unified Recycling Standards*

Currently, the mobile phone recycling industry in China lacks unified recycling standards. Different recycling companies use their own standards, which not only affects the overall efficiency of the industry but also may cause confusion and inconvenience for consumers. It is anticipated that the industry will see more standardized regulations in the future, promoting uniformity and ensuring proper operations. This will enhance transparency, improve product quality, and bolster environmental sustainability efforts.

---

## INDUSTRY OVERVIEW

---

### Development Trend

#### *Development of Recycling Service Providers*

From 2020 to 2024, the majority of pre-owned mobile phones were recycled by merchants in Mainland China in the offline channel, while increasing market share of mobile phones recycled by service providers companies is expected to become the main market development trend in the forecast periods due to the rapid developments of Internet Infrastructure and continuous expansion of online internet users. Existing recycling service providers are leveraging e-commerce channels to access potential customers, and guide customers either to their offline stores or online portals ranging from WeChat or Alipay mini program to online mobile app. Recycling service providers value-added services including appraisal, inspection, pricing, and data erasing, which makes recycling service providers more favorable to both suppliers and consumers in the mobile phone recycle market. The emergence of online pre-owned consumer electronics recycling service providers primarily affects the sales solution, while the trade-in solution, mainly conducted through offline channels, is less affected.

#### *In-depth Cooperation with New Mobile Phone Suppliers*

The leading mobile phone recycling service providers will choose to cooperate with renown consumer electronic brands such as Samsung and Xiaomi, which establishes the mutually beneficial business model for each party. For example, under trade-in solution, recycling service providers offer customers new devices, and service providers will receive subsidies from consumer electronic brands for every trade-in transaction happened. Trade-in not only helps those business partners to accelerate sales and marketing of their new devices, but also help recycling service providers expand their sources of supply leveraging the huge customer base of those consumer electronic brands.

### COMPETITIVE LANDSCAPE OF MOBILE PHONE RECYCLE MARKET IN CHINA

Market participants of mobile phone recycle market in Mainland China can be categorised into three types based on product categories and channels, namely vertical mobile phone recycling service providers, comprehensive resale service providers, and merchants. The market concentration of China’s mobile phone recycling industry is relatively low, with about hundreds of vertical mobile phone recycling service providers and comprehensive resale service providers in the market. The number of merchants is even higher as they are more dispersed. Due to the large number of players, the market share of each player is relatively small. The fragmented market structure leads to fierce competition, and players need to strive for market share through obtaining competitive advantages.

With the rapid development of mobile phone recycling service providers in China, they are continuously improving the transaction speed of pre-owned mobile phones by facilitating trade-in and sale services, which further empower market participants and standardize the mobile phone recycle ecosystem in Mainland China.

## INDUSTRY OVERVIEW

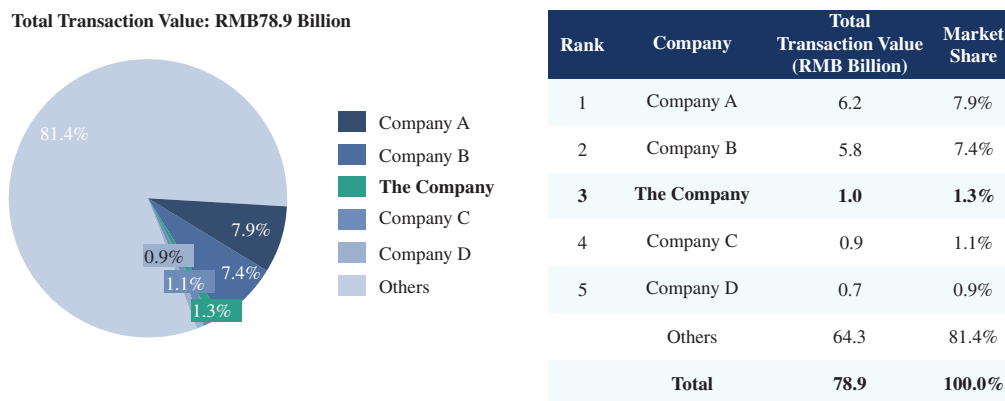

- **Vertical mobile phone recycling service providers** that are typically with diverse sources of supply of mobile phones, and have established the omni-channel mobile phone recycle business specializing in the collection of pre-owned mobile phones.
- **Comprehensive resale service providers** that are typically with rich resources, diversified categories, large user base and large transaction volume. These service providers usually cooperate with leading e-commerce service providers to facilitate the transactions in China. Their recycling categories are more extensive and not limited to mobile phones or consumer electronics.
- **Merchants** that mainly operate in the offline channel, and the majority of merchants are regional mobile phone dealers, which have relatively dispersed sources of supply. Therefore, an increasing number of merchants choose to recycle mobile phones through cooperating with above-mentioned recycling service providers, which will charge commission fees upon every mobile device transacted.

### Mobile Phone Recycling Service Providers Ranking in China, 2024

In 2024, the top five market players contributed 18.6% market shares of China’s mobile phone recycle market in terms of total transaction value of mobile phones.

Our Company is the third largest mobile phone recycling service providers in terms of total transaction value of mobile phones in 2024, with a transaction value of RMB1.0 billion, accounting for 1.3% of the market.

### Top 5 Mobile Phone Recycling Service Providers (by transaction value of pre-owned mobile phones recycled<sup>(1)</sup>), China, 2024

Notes:

(1) Transaction value of pre-owned mobile phones recycled refers to the total transaction value of mobile phones recycled from consumer side.

## INDUSTRY OVERVIEW

- (2) Company A, established in 2011, is a company listed on the New York Stock Exchange and headquartered in Shanghai, and focus on cell phones, laptops and other electronic digital products recycling businesses and trade-in service providers.
- (3) Company B, established in 2015, is a company headquartered in Beijing, and the second-hand trading categories such as cell phones, 3C digital, books, clothing, shoes and hats, furniture and home appliances, etc.
- (4) Company C, established in 2014, is a company headquartered in Shenzhen, and which is an enterprise with the core of trading using mobile digital products.
- (5) Company D, established in 2020, is a company headquartered in Shenzhen, and the core business is the recycling, disposal and sale of second-hand 3C products.

Source: Frost & Sullivan

In 2024, the Company was the third largest mobile phone recycling service provider in terms of the sales value of mobile phones recycled from consumers, accounting for 1.3% of the market.

### Top 5 Mobile Phone Recycling Service Providers (by transaction value of pre-owned mobile phones sold<sup>(1)</sup>), China, 2024

Rank	Company	Sales Value (RMB Billion)	Market Share <sup>(2)</sup>
1	Company B	7.8	8.2%
2	Company A	7.7	8.1%
3	<b>The Company</b>	<b>1.2</b>	<b>1.3%</b>
4	Company C	1.1	1.2%
5	Company D	0.8	0.8%

Notes:

- (1) Transaction value of pre-owned mobile phones sold refers to the sales value of mobile phones recycled from consumer side.
- (2) Market share refers to the sales value of mobile phone recycling service providers divided by sales value of mobile phone recycle market from end-consumer side. The numerator value of different players can cover 2B and 2C channels partially with various price markup rates and sales price. While the denominator value is all based on end user sales price, which has larger scope compared with the numerator.
- (3) Company A, established in 2011, is a company listed on the New York Stock Exchange and headquartered in Shanghai, and focus on cell phones, laptops and other electronic digital products recycling businesses and trade-in service providers.
- (4) Company B, established in 2015, is a company headquartered in Beijing, and the second-hand trading categories such as cell phones, 3C digital, books, clothing, shoes and hats, furniture and home appliances, etc.
- (5) Company C, established in 2014, is a company headquartered in Shenzhen, and which is an enterprise with the core of trading using mobile digital products.
- (6) Company D, established in 2020, is a company headquartered in Shenzhen, and the core business is the recycling, disposal and sale of second-hand 3C products.

Source: Frost & Sullivan

## INDUSTRY OVERVIEW

In 2024, the top five market players contributed 14.4% market shares of China’s offline trade-in mobile phone recycle market in terms of total transaction value of mobile phones.

Our Company has established business partnerships with consumer electronic brands, merchants inclusive of chain retailers and mobile network operators to offer trade-in service to customers in the offline channel. In 2024, our Company has over 100 thousand offline partnership stores with sustainable store visits, which help our Company establish competitive advantages in the offline trade-in solution. Our Company is the largest offline trade-in mobile phone recycling service providers in terms of total transaction value of mobile phones in 2024, with a transaction value of RMB1.0 billion, accounting for 6.9% of the market.

### Top 5 Mobile Phone Recycling Service Providers (by transaction value of pre-owned mobile phones procured offline through trade-in solution<sup>(1)</sup>), China, 2024

Total Transaction Value: RMB14.6 Billion

Rank	Company	Offline Trade-in Transaction Value (RMB Billion)	Market Share
1	The Company	1.0	6.9%
2	Company D	0.4	2.5%
3	Company E	0.3	2.2%
4	Company A	0.2	1.5%
5	Company F	0.2	1.3%
	Others	12.5	85.6%
	<b>Total</b>	<b>14.6</b>	<b>100.0%</b>

*Notes:*

- (1) Transaction value of pre-owned mobile phones procured offline through trade-in solution refers to the total transaction value of mobile phones recycled from consumer side through offline channel under trade-in solution.
- (2) Company A, established in 2011, is a company listed on the New York Stock Exchange and headquartered in Shanghai, and focus on cell phones, laptops and other electronic digital products recycling businesses and trade-in service providers.
- (3) Company D, established in 2020, is a company headquartered in Shenzhen, and the core business is the recycling, disposal and sale of second-hand 3C products.
- (4) Company E, established in 2013, is a company headquartered in Guangzhou, and which is a one-stop cell phone recycling service platform with patented technology and brand.
- (5) Company F, established in 2015, is a company headquartered in Beijing, and support second-hand recycling, repair and trade-in of cell phones, tablets, computers and home appliances.

## REGULATORY OVERVIEW

---

This section sets forth a summary of the most significant rules and regulations that affect our business activities in China.

### REGULATIONS RELATING TO FOREIGN INVESTMENT

On March 15, 2019, the National People’s Congress (the “NPC”) promulgated the Foreign Investment Law of the PRC (《中華人民共和國外商投資法》) (the “FIL”) which became effective on January 1, 2020 and replaced the Wholly Foreign-Owned Enterprise Law of the PRC (《中華人民共和國外資企業法》), the Law of the PRC on Chinese-foreign Equity Joint Ventures (《中華人民共和國中外合資經營企業法》) and the Law of the PRC on Chinese foreign Contractual Joint Ventures (《中華人民共和國中外合作經營企業法》). The FIL, by means of legislation, establishes the basic framework for the access, promotion, protection and administration of foreign investment in view of investment protection and fair competition. Pursuant to the FIL, “foreign investments” refer to any direct or indirect investment activities conducted by foreign investors (including foreign natural persons, foreign enterprises or other foreign organizations) in the PRC, which include any of the following circumstances: (i) foreign investors setting up foreign-invested enterprises in the PRC solely or jointly with other investors, (ii) foreign investors obtaining shares, equity interests, property portions or other similar rights and interests of enterprises within the PRC, (iii) foreign investors investing in new projects in the PRC solely or jointly with other investors, and (iv) other forms of investments as specified in laws, administrative regulations, or as stipulated by the State Council.

According to the FIL, foreign investment shall enjoy the pre-entry national treatment, except for those foreign-invested entities that operate in industries deemed to be either “restricted” or “prohibited” in the “negative list.” The FIL provides that foreign-invested entities operating in foreign “restricted” or “prohibited” industries will require entry clearance and other approvals.

On December 26, 2019, the State Council promulgated the Implementation Rules for the Foreign Investment Law of the PRC (《中華人民共和國外商投資法實施條例》) (the “**Implementation Rules**”) which became effective on January 1, 2020. The Implementation Rules further clarified that the state encourages and promotes foreign investment, protects the lawful rights and interests of foreign investors, regulates foreign investment administration, continues to optimize foreign investment environment, and advances a higher-level opening.

On October 26, 2022, the Ministry of Commerce of the PRC (the “**MOFCOM**”) and the National Development and Reform Commission of the PRC (the “**NDRC**”) released the Catalog of Encouraged Industries for Foreign Investment (2022 Version) (《鼓勵外商投資產業目錄(2022年版)》) (the “**Encouraged Catalog**”) which became effective on January 1, 2023, to replace the previous encouraged catalog. On September 6, 2024, MOFCOM and the NDRC released the Special Administrative Measures (Negative List) for Foreign Investment Access (2024 Version) (《外商投資准入特別管理措施(負面清單)(2024年版)》) (the “**Negative List**”) which became effective on November 1, 2024. The Encouraged Catalog and the Negative List lay out the basic framework for foreign investment in China, classifying businesses into three

---

## REGULATORY OVERVIEW

---

categories with regard to foreign investment: “encouraged,” “restricted” and “prohibited”. Foreign investors shall not invest in any field prohibited by the Negative List and shall meet the investment conditions stipulated for any field restricted by the Negative List, while for foreign investments outside the Negative List, it shall be administered under the principle of equal treatment to domestic and foreign investment.

On December 30, 2019, the MOFCOM and the State Administration for Market Regulation (the “SAMR”) issued the Measures on Reporting Foreign Investment Information (《外商投資信息報告辦法》), which became effective on January 1, 2020. Pursuant to the Measures on Reporting Foreign Investment Information, where a foreign investor carries out investment activities in China directly or indirectly, the foreign investor or the foreign-invested enterprise shall submit the investment information to the competent commerce department.

As Zhejiang Shanhui and Shenzhen Xinghe, direct wholly-owned subsidiaries of Shanhui Technology, are foreign-invested enterprises and Zhejiang Shanhui is the holding company of our other PRC subsidiaries, our business operations in the PRC are subject to the PRC laws and regulations relating to foreign investment.

### REGULATIONS RELATING TO INTERNET INFORMATION SERVICES AND VALUE-ADDED TELECOMMUNICATIONS SERVICES

#### Internet Information Services

According to the Administrative Measures on Internet Information Services (《互聯網信息服務管理辦法》) (the “**Internet Measures**”), which was promulgated by the State Council on September 25, 2000 and amended on January 8, 2011 and December 6, 2024, Internet information services are categorized as either commercial or non-commercial services. Commercial Internet information services are subject to a permit system while non-commercial Internet information services to a record-filing system. Entities engaged in providing commercial Internet information services shall apply for a license for value-added telecommunications services of Internet information services with the competent telecom administrative authority or the State Council’s department in charge of the information industry. As for the operation of non-commercial Internet information services, only a filing with the competent telecom administrative authority or the State Council’s department in charge of the information industry is required.

#### Mobile Internet Application Information Services

According to the Administrative Provisions on Mobile Internet Applications Information Services (《移動互聯網應用程序信息服務管理規定》) (the “**Mobile Applications Administrative Provisions**”), which was issued by the Cyberspace Administration of China (the “CAC”) on June 28, 2016 and last amended on June 14, 2022 and came into effect on August 1, 2022. Pursuant to the Mobile Applications Administrative Provisions, application information service providers shall obtain the relevant qualifications prescribed by laws and regulations, strictly implement their information content administrator

---

## REGULATORY OVERVIEW

---

responsibilities and carry out certain duties, including authenticating the real identity information of users, establishing and completing information content inspection and management mechanisms, fulfilling the data security protection obligations and regulating personal information processing activities. Furthermore, internet application information service providers shall sign service agreements with registered users to determine both sides' rights and obligations.

### License for Value-added Telecommunications Services

According to the Administrative Measures on Telecommunications Business License (《電信業務經營許可管理辦法》) promulgated by the Ministry of Industry and Information Technology of the PRC (the “MIIT”) on March 1, 2009, last amended on July 3, 2017, and subsequently effective on September 1, 2017, the telecommunications business may be operated only after a business permit has been obtained from the telecommunications administrative department in accordance with the law. According to the Telecommunications Regulations of the PRC (《中華人民共和國電信條例》) (the “**Telecommunications Regulations**”), which was enacted on September 25, 2000 and amended on February 6, 2016, telecommunications services are divided into basic telecommunications services and value-added telecommunications services. The telecommunications business operator shall indicate its business license number on a prominent place such as the main business premise, website homepage and business promotion materials. In addition, the holder of a value-added telecommunications services license is required to obtain approval from the original issuing authority in respect of any change of its operating entity, business scope or shareholders. In addition, according to the Classification Catalog of Telecommunications Services (2015 version) (《電信業務分類目錄(2015年版)》) (the “**2015 Telecom Catalog**”) which came into force on March 1, 2016 and amended on June 6, 2019 by MIIT, online data processing and transaction processing service and information service fall within the value-added telecommunications services.

### Foreign Investment in Valued-Added Telecommunications Business

According to the Circular of the Ministry of Information Industry of the PRC on Strengthening the Administration of Foreign Investment in Value-added Telecommunications Services (《信息產業部關於加強外商投資經營增值電信業務管理的通知》) promulgated by Ministry of Information Industry of the PRC (which has now been merged into MIIT) and effective on July 13, 2006, foreign investors can only operate a telecommunications business in the PRC through establishing a foreign-invested telecommunications enterprise with a valid telecommunications business operation license; domestic license holders are prohibited from leasing, transferring or selling telecommunications business operation licenses to foreign investors in any form, or providing any resource, sites or facilities to foreign investors to facilitate the unlicensed operation of telecommunications business in the PRC.

---

## REGULATORY OVERVIEW

---

According to the Administrative Regulations for Foreign-Invested Telecommunications Enterprises (《外商投資電信企業管理規定》) (the “**FITE Regulations**”), promulgated by the State Council on December 11, 2001 and amended on September 10, 2008, February 6, 2016 and March 29, 2022, foreign-invested value-added telecommunications enterprises in the PRC shall be established as sino-foreign equity joint ventures, and the ultimate foreign equity ownership in a foreign-invested value-added telecommunications enterprise shall not exceed 50%. In addition, foreign-invested value-added enterprises shall obtain approvals from the MIIT or its authorized local counterparts after its establishment.

According to the Notice of the MIIT concerning Lifting Restrictions on the Proportion of Foreign Equity in Online Data Processing and Transaction Processing Business (Operating E-commerce) (《工業和信息化部關於放開在線數據處理與交易處理業務(經營類電子商務)外資股比限制的通告》) promulgated on June 19, 2015, foreign investors are allowed to hold up to 100% of all equity interest in the online data processing and transaction processing business (operating e-commerce) in the PRC. According to Notice of the MIIT on Implementing the Pilot Plan for Expanding the Opening-Up of Value-Added Telecommunications Business (《工業和信息化部關於開展增值電信業務擴大對外開放試點工作的通告》) promulgated on April 8, 2024, the restrictions on foreign equity ratios in, among others, online data processing and transaction processing, information distribution platform and delivery services (excluding operation of internet news information, network publishing, network audio and video, and internet culture), is removed in the regions approved to carry out the pilot plan, including the Pilot Demonstration Area of Socialism with Chinese Characteristics in Shenzhen.

As of the Latest Practicable Date, Shenzhen Shanhui and Shenzhen Tianhai have each obtained a value-added telecommunications business operation license for online data processing and transaction processing business; Shenzhen Shanhui has obtained an approval for value-added telecommunications business pilot operation for information service business.

## REGULATIONS RELATING TO THE CIRCULATION OF PRE-OWNED ELECTRONICS

The Measures for Administration of the Circulation of Second-hand Goods (for Trial Implementation) (《舊貨流通管理辦法(試行)》) issued by the Ministry of Internal Trade of the PRC (which is the predecessor of the MOFCOM) and the Ministry of Public Security of the PRC (the “**MPS**”) on March 9, 1998 requires that second-hand goods operators shall record the names of entities and the resident identity cards of individuals that/who sell or consign for sale or are entrusted to sell or consign for sale second-hand goods; and shall strictly check the power of attorney of the entrusting entities and resident identity cards of the entrusting individuals. Violation of the above provision may result in a fine up to RMB500 to be imposed on any directly liable person in charge and any other directly liable persons, together with a fine up to RMB10,000 to be imposed on the second-hand goods operators, or criminal liability in accordance with the law where a crime is constituted.

---

## REGULATORY OVERVIEW

---

The Administrative Measures on the Circulation of Pre-owned Electrical and Electronic Products (《舊電器電子產品流通管理辦法》) (the “**Pre-owned Electronics Circulation Measures**”), promulgated by the MOFCOM on March 15, 2013 and effective on May 1, 2013, further specifies that recycling operators engaging in the purchase and sale of pre-owned electric appliances and electronic products shall record information of the purchased products, including the product name, trademark, model, original purchase voucher or identity information of sellers of the products. Pre-owned electric appliances and electronic products to be sold shall be labeled as used products in a prominent position. Recycling operators are prohibited from purchasing the following electric appliances and electronic products: (i) those sealed up or impounded according to the law, (ii) those that are obtained by stealing, robbing, swindling, smuggling or other illegal criminal means by the sellers and clearly known by such operator, (iii) those whose legitimate sources cannot be explained, and (iv) other used electrical and electronic products which are forbidden to be purchased according to laws and administrative regulations. Violation of the above provision may result in a fine up to RMB30,000 to be imposed on the recycling operator, or even criminal liability if the case is serious enough. It is also clarified that the purchase and sale of pre-owned electric appliances and electronic products through the Internet shall also comply with the requirements under the Pre-owned Electronics Circulation Measures.

### REGULATIONS ON ONLINE TRADING

On August 31, 2018, the Standing Committee of the National People’s Congress of the PRC (the “**SCNPC**”) promulgated the E-Commerce Law of the PRC (《中華人民共和國電子商務法》) (the “**E-Commerce Law**”), which became effective on January 1, 2019, and aims to regulate the e-commerce activities conducted within the territory of the PRC. Pursuant to the E-Commerce Law, an e-commerce business operator shall fully, authentically, accurately, and timely disclose the information on commodities or services to safeguard consumers’ right to know and right of choice and may not conduct false or misleading commercial promotion by fabricating transactions, making up user comments or any other means, to defraud or mislead consumers. The E-Commerce Law further provides that an e-commerce business operator shall, when collecting or using the individual information of its users, observe the provisions on the protection of individual information in the relevant laws and administrative regulations.

On March 15, 2021, the SAMR promulgated the Measures for the Supervision and Administration of Online Transactions (《網絡交易監督管理辦法》) (the “**Online Transactions Measures**”), which took effect on May 1, 2021 and was amended on March 18, 2025, providing more detailed requirements for the operators and platforms, such as clarifying the specific acts infringing consumers’ personal information in online transactions, the prohibited contents contained in the standard terms used by the operators, and elaborating the measures shall be applicable to the operating activities of selling goods or providing services through social network and network live-streaming. In particular, the Online Transactions Measures require that online transaction operators shall not force customers, whether or not in a disguised manner, to consent to the collection and use of information not directly related to their business activities using one-off general authorization, default authorization, bundling

---

## REGULATORY OVERVIEW

---

with other authorizations, or the suspension of installation and use. Collection and use of the customers’ sensitive information, such as personal biological characteristics, medical health, financial accounts, and personal whereabouts, shall obtain the consent of such customers on an item-by-item basis.

### REGULATIONS ON ONLINE LIVE-STREAMING MARKETING ACTIVITIES

On November 5, 2020, the SAMR promulgated the Guiding Opinions of the State Administration for Market Regulation on Strengthening the Regulation of Online Livestreaming Marketing Activities (《市場監管總局關於加強網絡直播營銷活動監管的指導意見》), which specifies that commodity operators selling commodities or providing services through online live-streaming shall abide by the relevant laws and regulations, and establish and implement system for inspection and acceptance of the purchased goods. It is not allowed to sell through online live-streaming any goods or services whose production or sale is prohibited by laws and regulations; it is not allowed to use online live-streaming to release commercial advertisements whose publication in mass media is prohibited by laws and regulations; and it is not allowed to sell through online live-streaming any goods or services prohibited from online trading. On April 23, 2021, the CAC, the MPS, the MOFCOM, the Ministry of Culture and Tourism, the SAT and the State Administration of Radio and Television jointly promulgated the Administrative Measures for Online Live-Streaming Marketing (for Trial Implementation) (the “**Online Live-Streaming Marketing Measures**”) (《網絡直播營銷管理辦法(試行)》), which became effective on May 25, 2021. Pursuant to the Online Live-Streaming Marketing Measures, operators of live studios and live-streaming marketing personnel engaging in online live-streaming marketing activities shall truthfully, accurately and comprehensively release information on goods or services, perform their responsibilities and obligations of protecting consumers’ rights and interests in accordance with laws and regulations, and shall not deliberately delay or refuse without justifiable reasons the legitimate and reasonable requests put forward by consumers. On March 25, 2022, the CAC, the SAT and the SAMR jointly issued the Opinions on Further Regulating the Profit-making Behaviour of Online Live-Streaming to Promote the Healthy Development of the Industry (《關於進一步規範網絡直播營利行為促進行業健康發展的意見》), which provides further requirements on maintaining a level playing field for online live-streaming and safeguarding the legitimate rights and interests of merchants and consumers.

---

## REGULATORY OVERVIEW

---

### REGULATIONS ON CONSUMER PROTECTION AND PRODUCT QUALITY

#### Consumers Protection

The Law on the Protection of Rights and Interests of Consumers of the PRC (《中華人民共和國消費者權益保護法》) (the “**Consumer Protection Law**”) promulgated by SCNPC, which was latest amended on October 25, 2013, and effective on March 15, 2014, sets out the obligations of business operators and the rights and interests of the consumers in the PRC. Pursuant to this law, business operators must guarantee that the commodities they sell satisfy the requirements for personal or property safety, provide consumers with authentic information about the commodities, and guarantee the quality, function, usage and term of validity of the commodities. Failure to comply with the Consumer Protection Law may subject business operators to civil liabilities such as refunding purchase prices, replacement of commodities, repairing, ceasing damages, compensation, and restoring reputation, and even subject the business operators to criminal penalties. Moreover, if business operators deceive consumers, they should not only compensate consumers for their losses but also pay additional damages equal to three times the price of the goods or services on the demand of consumers. If business operators knowingly provide substandard or defective products or services, causing death or serious damage to the health of consumers or other victims, the victims shall have the right to require compensation for their losses and to claim punitive compensation of not more than two times the amount of losses incurred.

#### Product Quality

The Product Quality Law of the PRC (《中華人民共和國產品質量法》) promulgated by SCNPC which was latest amended on December 29, 2018 and effective on the same day, applies to all production and sale activities in the PRC. Pursuant to this law, products offered for sale must satisfy relevant quality and safety standards. Enterprises may not produce or sell counterfeit products in any fashion, including forging brand labels or giving false information regarding a product’s manufacturer. Violations of state or industrial standards for health and safety and any other related violations may result in civil liabilities and administrative penalties, such as compensation for damages, fines, suspension or shutdown of business, as well as confiscation of products illegally produced and sold and the proceeds from such sales. Severe violations may subject the responsible individual or enterprise to criminal liabilities. Where a defective product causes physical injury or damage to property, the victim may claim compensation from the manufacturer or the seller of the product. If the seller pays compensation and it is the manufacturer that should bear the liability, the seller has a right of recourse against the manufacturer. Similarly, if the manufacturer pays compensation and it is the seller that should bear the liability, the manufacturer has a right of recourse against the seller.

---

## REGULATORY OVERVIEW

---

### REGULATIONS RELATING TO CYBERSECURITY, DATA SECURITY AND PROTECTION OF PERSONAL INFORMATION

#### Cybersecurity and data security

On December 13, 2005, the MPS, issued the Regulations on Technological Measures for the Internet Security Protection (《互聯網安全保護技術措施規定》) (the “**Internet Protection Measures**”), which became effective on March 1, 2006. The Internet Protection Measures requires internet services providers to take proper measures including anti-virus, data back-up and other related measures, and to keep records of certain information about their users (including user registration information, log-in and log-out time, IP address, content and time of posts by users) for at least 60 days, discover and detect illegal information, stop transmission of such information, and keep relevant records. Internet services providers are prohibited from unauthorized disclosure of users’ information to any third parties unless such disclosure is required by laws and regulations. Internet services providers are further required to establish management systems and take technological measures to safeguard the freedom and secrecy of the users’ correspondences. Under the Administrative Measures for the Hierarchical Protection of Information Security (《信息安全等級保護管理辦法》) (the “**Measures for the Hierarchical Protection**”), which was promulgated jointly by the MPS and certain other PRC government authorities and effective on June 22, 2007, the national hierarchical protection of the information security shall follow the principle of “independent grading and independent protection”. Companies operating or using information systems shall determine the security protection level of the information system pursuant to the Measures for the Hierarchical Protection and the Classification Guidelines for Classified Protection of Cybersecurity (《信息安全技術網絡安全等級保護定級指南》) (the “**Guidelines for Classified Protection**”), and report the level to the relevant department for examination and approval. According to the Measures for the Hierarchical Protection and the Guidelines for Classified Protection, the security protection of an information system may be classified into five levels, and for any system equal to or above level II as determined in accordance with these measures, a record-filing with the competent authority is required.

According to the Cybersecurity Law of the PRC (《中華人民共和國網絡安全法》) which was promulgated by the SCNPC on November 7, 2016 and effective on June 1, 2017, network operators shall comply with laws and regulations and fulfill their obligations to safeguard the security of the network when conducting business and providing services. Those who construct or operate networks or provide services through networks shall take technical measures and other necessary measures pursuant to laws, regulations and compulsory national requirements to safeguard the safe and stable operation of the networks, respond to network security incidents effectively, prevent illegal and criminal activities, and maintain the integrity, confidentiality and usability of network data, and the network operator shall not collect the personal information irrelevant to the services it provides or collect or use the personal information in violation of the provisions of laws or agreements between both parties, and operators of critical information infrastructure shall store within the territory of the PRC all personal information and important data collected and produced within the territory of the PRC. The purchase of network products and services by critical information infrastructure operators that may affect national security shall be subject to national cybersecurity review.

---

## REGULATORY OVERVIEW

---

On June 10, 2021, the SCNPC promulgated the Data Security Law of the PRC (《中華人民共和國數據安全法》) (the “**Data Security Law**”), which came into effect on September 1, 2021. The Data Security Law provides for data security and privacy obligations on entities and individuals carrying out data processing activities. The Data Security Law also introduces a data classification and hierarchical protection system based on the importance of data in economic and social development, as well as the degree of harm it will cause to national security, public interests, or legitimate rights and interests of individuals or organizations when such data is tampered with, destroyed, leaked, or illegally acquired or used. The appropriate level of protection measures is required to be taken for each respective category of data. For example, a processor of important data shall designate the personnel and the management body responsible for data security, carry out risk assessments for its data processing activities and file the risk assessment reports with the competent authorities. In addition, the Data Security Law provides a national data security review procedure for those data processing activities which may affect national security and imposes export restrictions on certain data and information. No entity or individual within the territory of the PRC may provide foreign judicial or law enforcement authorities with the data stored within the territory of the PRC without the approval of the competent PRC authorities.

On July 30, 2021, the State Council promulgated the Regulations on the Protection of the Security of Critical Information Infrastructure (《關鍵信息基礎設施安全保護條例》), effective on September 1, 2021. According to the regulations, a “critical information infrastructure” refers to an important network facility and information system in important industries such as, among others, public communications and information services, as well as other important network facilities and information systems that may seriously endanger national security, the national economy, the people’s livelihood, or the public interests in the event of damage, loss of function, or data leakage. The regulations supplement and specify the provisions on the security of critical information infrastructure as stated in the Cybersecurity Law of the PRC, and provide, among others, that the competent governmental authorities and supervision and management authorities of the aforementioned important industries will be responsible for (i) organizing the identification of critical information infrastructures in their respective industries in accordance with certain identification rules, and (ii) promptly notifying the identified operators and the MPS of the identification results. These regulations require that the relevant operator shall submit a report to the competent PRC governmental authority in accordance with relevant provisions upon the occurrence of any major cybersecurity incident or discovery of any major cybersecurity threat to the critical information infrastructures, and the operators of critical information infrastructures shall purchase the safe and trusted network products and services in the first place. If the purchase of network products and services may affect national security, such operators shall pass the cybersecurity review accordingly.

---

## REGULATORY OVERVIEW

---

On December 28, 2021, the CAC, the NDRC, the MIIT and several other PRC governmental authorities jointly issued the Cybersecurity Review Measures (《網絡安全審查辦法》), which became effective on February 15, 2022 and replaced the Cybersecurity Review Measures published on April 13, 2020. Pursuant to Cybersecurity Review Measures, critical information infrastructure operators that purchase network products and services, and network platform operators engaging in data processing activities that affect or may affect national security are subject to cybersecurity review under the Cybersecurity Review Measures. In addition, network platform operators with personal information of over one million users shall be subject to cybersecurity review before listing abroad (國外上市). The competent governmental authorities may also initiate a cybersecurity review against the operators if the authorities believe that the network product or service or data processing activities of such operators affect or may affect national security. The Cybersecurity Review Measures provide that the relevant violators shall be subject to legal consequences in accordance with the PRC Cybersecurity Law and the PRC Data Security Law.

On July 7, 2022, the CAC promulgated the Cross-border Data Transfer Security Assessment Measures (《數據出境安全評估辦法》) (the “**Security Assessment Measures**”), which became effective on September 1, 2022. The Security Assessment Measures provide that, among others, data processors shall apply to competent authorities for security assessment when (i) the data processors transferring important data abroad, (ii) a critical information infrastructure operator or a personal information processor that has processed personal information of more than one million people, transferring personal information abroad, (iii) a data processor who has provided personal information of 100,000 individuals or sensitive personal information of 10,000 individuals abroad, in each case as calculated cumulatively, since January 1 of the last year, transferring personal information abroad, and (iv) other circumstances where the security assessment of data cross-border transfer is required as prescribed by the CAC.

Later on September 24, 2024, the State Council published the Regulations on Network Data Security Management (《網絡數據安全管理條例》) (the “**Network Data Security Regulations**”), which became effective on January 1, 2025, providing detailed operational guidelines for the implementation of the Cybersecurity Law of the PRC and the Data Security Law. According to the Network Data Security Regulations, data processors shall identify and report important data according to relevant rules, and processors of important data shall adopt specific measures to secure important data, such as designing the personnel and management institution responsible for the network data security, conducting risk assessment under prescribed circumstances as well as submitting annual risk assessment reports to competent authorities. Failure to protect important data, including failure to identify and report important data, can lead to administrative penalties, including fines, suspension of business operations, and revocation of business licenses.

---

## REGULATORY OVERVIEW

---

### Protection of Personal Information

Under the Several Provisions on Regulating the Market Order of Internet Information Services (《規範互聯網信息服務市場秩序若干規定》) (the “**Internet Information Services Provisions**”) issued by the MIIT in 2011, without the consent of users, internet information service providers shall not collect information relevant to the users that can lead to the recognition of the identity of the users independently or in combination with other information (hereinafter referred to as “**Users’ Personal Information**”), nor shall they provide Users’ Personal Information to others, unless otherwise required by laws and administrative regulations. An internet information service provider must expressly inform the users of the method, content and purpose of the collection and processing of such Users’ Personal Information and may only collect such information necessary for the provision of its services. An internet information service provider is also required to properly keep the Users’ Personal Information, and in case of any leak or likely leak of the Users’ Personal Information, the internet information service provider must take immediate remedial measures and, in severe circumstances, to make an immediate report to the telecommunications regulatory authority.

In addition, pursuant to the Decision on Strengthening the Protection of Online Information (《關於加強網絡信息保護的決定》) issued by the SCNPC on December 28, 2012 and the Order for the Protection of Telecommunications and Internet User Personal Information (《電信和互聯網用戶個人信息保護規定》) issued by the MIIT on July 16, 2013, any collection and use of users’ personal information must be subject to the consent of the user, abide by the principles of legality, rationality and necessity and be within the specified purposes, methods and scopes. An internet information service provider must also keep such information strictly confidential, and is further prohibited from divulging, tampering or destroying any such information, or selling or providing such information to other parties. Any violation of the above decision or order may subject the internet information service provider to warnings, fines, confiscation of illegal gains, revocation of licenses, cancelation of filings, closedown of websites and/or even criminal liabilities. Furthermore, the Mobile Applications Administrative Provisions strengthens the regulation of the mobile app information services. Pursuant to the Mobile Applications Administrative Provisions, owners or operators of mobile apps that provide information services are required to be responsible for personal information protection, observe the principles of legality, appropriateness, necessity and good faith, and comply with the relevant provisions.

On November 28, 2019, the CAC, the MIIT, the MPS and the SAMR promulgated the Identification Method of Illegal Collection and Use of Personal Information Through App (《APP違法違規收集使用個人信息行為認定方法》), which provides guidance for the regulatory authorities to identify illegal collection and use of personal information through mobile apps, and for the app operators to conduct self-examination and self-correction and for other participants to voluntarily monitor compliance thereof. Pursuant to the Rules on the Scope of Necessary Personal Information for Common Types of Mobile Internet Applications (《常見類型移動互聯網應用程序必要個人信息範圍規定》), which was promulgated jointly by the CAC, the MIIT, the MPS and the SAMR on March 12, 2021 and became effective on May 1, 2021, “necessary personal information” refers to personal information necessary for ensuring the normal operation of an application’s basic functional services. Specifically, it

---

## REGULATORY OVERVIEW

---

refers to the personal information of the consumers, excluding the personal information of the suppliers. Any mobile internet application shall not refuse users to use its basic functional services on the ground that users disagree to provide unnecessary personal information.

On May 28, 2020, the NPC adopted the Civil Code of the PRC (《中華人民共和國民法典》) (the “**Civil Code**”), which came into effect on January 1, 2021. Pursuant to the Civil Code, the personal information of a natural person shall be protected by the law. Any organization or individual shall legally obtain such personal information of others when necessary and shall ensure the safety of such information, and shall not illegally collect, use, process or transmit personal information of others, or illegally buy or sell, provide or make public personal information of others. Personal information refers to all kinds of information recorded by electronic or otherwise that can be used to independently identify or be combined with other information to identify the natural persons’ names, date of birth, ID numbers, biometric information, addresses, telephone numbers, e-mail addresses, health information, whereabouts, etc.

On August 20, 2021, the SCNPC promulgated the Personal Information Protection Law of the PRC (《中華人民共和國個人信息保護法》) (the “**Personal Information Protection Law**”), which became effective on November 1, 2021. The Personal Information Protection Law requires, among others, that the processing of personal information should have a clear and reasonable purpose and should be limited to the minimum scope necessary to achieve the processing purpose, adopt a method that has the least impact on personal rights and interests, and shall not process personal information that is not related to the processing purpose. The processing of personal information includes the collection, storage, use, processing, transmission, provision, disclosure and deletion of personal information. The Personal Information Protection Law applies to the processing of personal information of natural persons within the territory of the PRC, as well as personal information processing activities outside the territory of PRC, for the purpose of providing products or services to natural persons located within China, for analysing or evaluating the behaviours of natural persons located within China, or for other circumstances as prescribed by laws and administrative regulations. A personal information processor may process the personal information of this individual only under the following circumstances: (i) where consent is obtained from the individual, (ii) where it is necessary for the execution or performance of a contract to which the individual is a party, or where it is necessary for carrying out human resource management pursuant to employment rules legally adopted or a collective contract legally concluded, (iii) where it is necessary for performing a statutory responsibility or statutory obligation, (iv) where it is necessary in response to a public health emergency, or for protecting the life, health or property safety of a natural person in the case of an emergency, (v) where the personal information is processed within a reasonable scope to carry out any news reporting, supervision by public opinions or any other activity for public interest purposes, (vi) where the personal information, which has already been disclosed by an individual or otherwise legally disclosed, is processed within a reasonable scope, or (vii) any other circumstance as provided by laws or administrative regulations. In principle, the consent of an individual must be obtained for the processing of his or her personal information, except under the circumstances of the aforementioned items (ii) to (vii). Where personal information is to be processed based on the consent of an individual, such consent shall be a voluntary and explicit indication of intent

---

## REGULATORY OVERVIEW

---

given by such individual on a fully informed basis. If laws or administrative regulations provide that the processing of personal information shall be subject to the separate consent or written consent of the individual concerned, such provisions shall prevail. In addition, the processing of the personal information of a minor under 14 years old must obtain the consent by a parent or a guardian of such minor and the personal information processors must adopt special rules for processing the personal information of minors under 14 years old.

Pursuant to the Ninth Amendment to the Criminal Law of the PRC (《中華人民共和國刑法修正案(九)》), issued by the SCNPC in August 2015, which became effective in November 2015, any Internet services provider that fails to fulfill its obligations related to Internet information security administration as required under applicable laws and refuses to rectify upon orders shall be subject to criminal penalty. In addition, Interpretations of the Supreme People’s Court and the Supreme People’s Procuratorate on Several Issues Concerning the Application of Law in the Handling of Criminal Cases Involving Infringement of Citizens Personal Information (《最高人民法院、最高人民檢察院關於辦理侵犯公民個人信息刑事案件適用法律若干問題的解釋》), issued on May 8, 2017 and effective as of June 1, 2017, clarified certain standards for the conviction and sentencing of the criminals in relation to personal information infringement.

The Administrative Provisions on the Account Information of Internet Users (《互聯網用戶賬號信息管理規定》), which was promulgated by the CAC on June 27, 2022 and became effective on August 1, 2022, sets out guidelines on the provision of the account information of internet users. Internet-based information service providers shall perform their responsibilities as the administrative subjects of the account information of internet users, have in place professionals and technical capacity appropriate to the scale of services, and establish, improve and strictly implement the authentication of real identity information, verification of account information, security of information content, ecological governance, emergency responses, protection of personal information and other management systems.

As mentioned above, the Security Assessment Measures provide that, among others, data processors shall apply to competent authorities for security assessment when certain conditions are met. In addition, on February 22, 2023, the Provisions on the Prescribed Agreement on Cross-border Data Transfer of Personal Information (《個人信息出境標準合同辦法》) (the “**Provisions on Prescribed Agreement**”) were promulgated by the CAC, which took effect on June 1, 2023. The Provisions on Prescribed Agreement attach the prescribed template for a cross-border data transfer agreement that could be used to satisfy one of the conditions for the cross-border transfer of personal information under Article 38 of the Personal Information Protection Law.

Moreover, the Network Data Security Regulations published on September 24, 2024 provided that network data processors processing the personal information of more than 10 million individuals shall implement additional measures on personal information protection, including but not limited to, designating the personnel and management institution responsible for network data security.

---

## REGULATORY OVERVIEW

---

### REGULATIONS RELATING TO ALGORITHMS

On December 31, 2021, the CAC and certain other PRC governmental authorities promulgated the Provisions on the Administration of Algorithm Recommendation for Internet Information Services (《互聯網信息服務算法推薦管理規定》), which took effect on March 1, 2022. These provisions apply to the use of generation and synthesis, personalized push, selection and sort, search and filtering, scheduling and decision, and other algorithm technologies to provide information to users in the provision of internet information services. These provisions require that algorithmic recommendation service providers shall perform certain compliance obligations, especially (i) establishing and improving the management systems and technical measures for algorithm mechanism review, scientific and technological ethics review, user registration, information and content review, data security and personal information protection, anti-telecommunications and Internet fraud, security assessment and monitoring, and security emergency response; (ii) formulating and disclosing relevant rules for algorithm recommendation services; (iii) having professional personnel and technical support appropriate to the concerning algorithm recommendation service; (iv) regularly reviewing, evaluating and verifying the models, data and application results of algorithm mechanisms; (v) informing users in a conspicuous manner of their provision of algorithmic recommendation services, and publicizing the basic principles, purposes, and main operating mechanisms of algorithmic recommendation services in an appropriate manner; (vi) providing users with options not based on their personal characteristics or with the option of opting out algorithm recommendation services in a convenient manner; (vii) protecting consumers’ rights to fair transactions, and avoiding using algorithms to implement unreasonably differential treatment in transaction prices and other transaction conditions based on consumers’ preferences, transaction habits, and other characteristics and other illegal acts while selling goods or providing services to consumers.

As advised by our PRC Data Compliance Adviser, our use of model and algorithms in proposing the trade-in prices of pre-owned consumer electronics may be regarded as using scheduling and decision algorithm in the provision of internet information services under the aforesaid provisions as the trade-in prices proposed by the algorithm are shown to consumers for their consideration and acceptance in relevant transactions. We have necessary technical and managerial measures in place (please refer to “Regulatory Overview — Regulations Relating to Cybersecurity, Data Security and Protection of Personal Information” in this document for further details about the technical and managerial measures adopted by us.) and have filed the pricing model and algorithm with the competent regulators, as required to comply with the Provisions on the Administration of Algorithm Recommendation for Internet Information Services. As advised by our PRC Data Compliance Adviser, we comply with all applicable regulatory requirements related to algorithm in all material respects.

### REGULATIONS RELATING TO FOREIGN EXCHANGE

#### General Provisions on Foreign Exchange

Due to the foreign exchange control policy of the PRC, cross-border currency transactions in the business activities and dividend distribution to the foreign investors of our PRC subsidiaries shall comply with various administration of foreign exchange in the PRC.

The principal regulation governing foreign exchange in the PRC is the Foreign Exchange Administration Rules of the PRC (《中華人民共和國外匯管理條例》) which was promulgated by the State Council on January 29, 1996, took effect on April 1, 1996 and was amended on January 14, 1997 and August 5, 2008, respectively. Under these rules, the current account incomes of foreign exchanges can be retained or sold to financial authorities which manage exchange settlement and sale and purchase of foreign exchange. However, approval from the State Administration of Foreign Exchange (the “SAFE”) or its local branches is required for the relevant capital account transactions of the foreign-invested enterprises, such as the capital increase and decrease. Foreign-invested enterprises may purchase foreign exchange without the approval of the SAFE for trade and service-related foreign exchange transactions by providing documents evidencing such transactions. In addition, foreign exchange transactions involving direct investment, loans and investment in securities outside the PRC are subject to limitations and require approvals from the SAFE.

According to the Circular of the SAFE on Further Simplifying and Improving Foreign Exchange Management Policies on Direct Investment (《國家外匯管理局關於進一步簡化和改進直接投資外匯管理政策的通知》) (the “SAFE Circular 13”), which was promulgated on February 13, 2015, took effect on June 1, 2015 and was further amended on December 30, 2019, the SAFE has canceled (i) confirmation of foreign exchange registration under domestic direct investment and confirmation of foreign exchange registration under overseas direct investment, (ii) registration for confirmation of the non-cash capital contribution of foreign investors under domestic direct investment and the registration for confirmation of the capital contribution made by foreign investors for the acquisition of the equity interests of the Chinese side, (iii) filling of overseas re-investment, and (iv) annual inspection on direct investment foreign exchange. Pursuant to SAFE Circular 13, investors should register with banks for direct domestic investment and direct overseas investment.

Pursuant to the Circular of SAFE on Further Improving and Adjusting Foreign Exchange Administration Policies for Direct Investment (《國家外匯管理局關於進一步改進和調整直接投資外匯管理政策的通知》) (the “SAFE Circular 59”) promulgated by SAFE on November 19, 2012, which became effective on December 17, 2012 and was further amended on May 4, 2015, October 10, 2018 and December 30, 2019, approval is not required for the opening of and account entry in foreign exchange accounts under direct investment. SAFE Circular 59 also simplified the capital verification and confirmation formalities for foreign-invested entities, the foreign capital and foreign exchange registration formalities required for the foreign investors to acquire equities from Chinese party, and further improved the administration on exchange settlement of foreign exchange capital of foreign-invested entities.

---

## REGULATORY OVERVIEW

---

According to the Circular of the SAFE on Reforming and Regulating Policies on the Control over Foreign Exchange Settlement under the Capital Account (《國家外匯管理局關於改革和規範資本項目結匯管理政策的通知》) which was promulgated on June 9, 2016, took effect on the same day and was further amended by the SAFE Notice on Further Deepening the Reform to Facilitate Cross-border Trade and Investment (《國家外匯管理局關於進一步深化改革促進跨境貿易投資便利化的通知》) (the “SAFE Circular 28”) on December 4, 2023, the settlement of foreign exchange under the capital account (including foreign exchange capital, external debts, funds repatriated from overseas listing, etc.) entitled to discretionary settlement according to relevant policies, shall be conducted in the banks for real business needs. The use of foreign exchange under capital accounts of a domestic institution and the RMB funds obtained thereby from foreign exchange settlement are prohibited from the following uses: (i) direct or indirect expenditure beyond the enterprise’s business scope or expenditure prohibited by laws and regulations of the State, (ii) direct or indirect investments in securities or other investment (except for wealth management products with a risk rating not higher than level 2 and structured deposits), unless otherwise provided, (iii) granting of loans to non-affiliated enterprises, except where such granting is expressly permitted in the business license, and (iv) purchase of residential real estate for purposes other than self-use (except for enterprises engaged in real estate development and real estate leasing operations).

On January 26, 2017, the SAFE promulgated the Circular of the SAFE on Further Improving Reform of Foreign Exchange Administration and Optimizing Authenticity and Compliance Verification (《國家外匯管理局關於進一步推進外匯管理改革完善真實合規性審核的通知》), which stipulates several capital control measures with respect to the outbound remittance of profit from domestic entities to offshore entities, including (i) banks should check the profit distribution resolution made by the board of directors (or profit distribution resolution made by partners), the original version of tax filing form, and audited financial statements under the principle of genuine transactions, and (ii) the domestic institution shall make up its losses of previous years according to law. Moreover, pursuant to this circular, domestic entities should make detailed explanations of the sources of capital and utilization arrangements, and provide board resolutions, contracts, and other proof when completing the registration procedures in connection with an outbound investment.

In accordance with the Circular of the SAFE on Further Promoting Cross-border Trade and Investment Facilitation (《國家外匯管理局關於進一步促進跨境貿易投資便利化的通知》) which was promulgated on October 23, 2019, became effective on the same day and was further amended by the SAFE Circular 28, foreign-invested enterprises engaged in non-investment business are permitted to settle foreign exchange capital in RMB and make domestic equity investments with such RMB funds according to laws and regulations under the condition that the Negative List is not violated and the relevant domestic investment projects are authentic and compliant.

---

## REGULATORY OVERVIEW

---

### **Foreign Exchange Registration of Offshore Investment by PRC Residents**

On July 4, 2014, the SAFE promulgated the Circular of the SAFE on Relevant Issues Concerning Foreign Exchange Administration of Overseas Investment and Financing and Roundtrip Investment Conducted by Domestic Residents through Special Purpose Vehicles (《國家外匯管理局關於境內居民通過特殊目的公司境外投融資及返程投資外匯管理有關問題的通知》) (the “**SAFE Circular 37**”). Pursuant to the SAFE Circular 37, (i) “a special purpose vehicle” is defined as offshore enterprise directly established or indirectly controlled by domestic residents (including domestic institution and individual resident) with their legally owned assets or equity of domestic enterprises, or legally owned offshore assets or equity, for the purpose of offshore investment and financing, (ii) a domestic resident must register with the SAFE before he or she contributes assets or equity interests to a special purpose vehicle, (iii) following the initial registration, any major changes such as changes in the overseas special purpose vehicle’s domestic resident shareholders, names of the special purpose vehicle and terms of operation or any increase or reduction of the registered capital of the special purpose vehicle, share transfer or swap, merger or division, or similar development, shall be reported to the SAFE for registration in time, and failing to comply with the registration procedures as set out in SAFE Circular 37 may result in penalties.

The SAFE Circular 13 allows PRC residents or entities to register with qualified banks in connection with their establishment or control of an offshore entity established for the purpose of overseas investment or financing and the qualified banks, under the supervision of SAFE, directly examine the applications and conduct the registration.

### **Foreign Exchange Registration of Domestic Individuals Participating in Stock Incentive Plan of Overseas Publicly Listed Company**

On February 15, 2012, the SAFE promulgated the Circular on the Relevant Issues Concerning the Administration of Foreign Exchange for Domestic Individuals’ Participation in Equity Incentive Programs of Overseas Listed Companies (《國家外匯管理局關於境內個人參與境外上市公司股權激勵計劃外匯管理有關問題的通知》) (the “**SAFE Circular 7**”). According to the SAFE Circular 7, individuals participating in any stock incentive plan of any overseas publicly listed company, who are Chinese citizens or foreign citizens who reside in mainland China for a continuous period of not less than one year, subject to a few exceptions, are required to register with SAFE or its local branches and complete certain other procedures through a domestic qualified agent, which could be a Chinese subsidiary of such overseas listed company. The participants must also retain an overseas entrusted institution to handle matters in connection with their exercise of stock options, the purchase and sale of corresponding stocks or interests and fund transfers. In addition, the agent in mainland China is required to further amend the SAFE registration with respect to the stock incentive plan if there is any material change to the stock incentive plan, the mainland Chinese agent or the overseas entrusted institution or other material changes. The mainland Chinese agents must, on behalf of the mainland Chinese residents who have the right to exercise the employee share options, apply to SAFE or its local branches for an annual quota for the payment of foreign currencies in connection with the mainland Chinese residents’ exercise of the employee share options. The

---

## REGULATORY OVERVIEW

---

foreign exchange proceeds received by the mainland Chinese residents from the sale of shares under the stock incentive plans granted and dividends distributed by the overseas listed companies must be remitted into the bank accounts in mainland China opened by the mainland Chinese agents before distribution to such mainland Chinese residents.

### REGULATIONS RELATING TO TAXATION

#### Enterprise Income Tax

On March 16, 2007, the NPC passed the Enterprise Income Tax Law of the PRC (《中華人民共和國企業所得稅法》) (the “**EIT Law**”), which became effective from January 1, 2008 and subsequently amended by the SCNPC on February 24, 2017 and December 29, 2018. According to the EIT Law, the enterprise income tax rate is 25%, and that for high and new technology enterprises is 15%. A non-resident enterprise refers to an enterprise lawfully incorporated pursuant to the laws of a foreign country (region) that has an office or premises established in China with no actual management functions performed in China, or an enterprise that has income derived from or accruing in China although it does not have an office or premises in China. In addition, it shall pay enterprise income tax on its incomes derived from the PRC at a rate of 20%. The Implementing Regulations of the Enterprise Income Tax Law of the PRC (《中華人民共和國企業所得稅法實施條例》) (the “**EIT Law Implementing Regulations**”) which were promulgated by the State Council on December 6, 2007 and took effect on January 1, 2008 and were further amended on April 23, 2019 and December 6, 2024 reduced the tax rate applicable to the aforesaid non-resident enterprises from 20% to 10%.

#### Dividends Withholding Tax

According to the EIT Law and EIT Law Implementing Regulations, dividends paid by foreign-invested companies to their foreign investors that are non-resident enterprises as defined under the law are subject to withholding tax at a rate of 10%, unless otherwise provided in the relevant tax agreements entered into with the central government of the PRC. Pursuant to the Arrangement Between the Mainland of China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation on Income and the Prevention of Fiscal Evasion with respect to Taxes on Income (《內地和香港特別行政區關於對所得避免雙重徵稅和防止偷漏稅的安排》) (the “**Double Tax Avoidance Arrangement**”) promulgated on August 21, 2006, and applied in Hong Kong to income derived in any year of assessment commencing on or after April 1, 2007, and in mainland China to any year commencing on or after January 1, 2007, if a Hong Kong resident enterprise is determined by the competent PRC tax authority to have satisfied the relevant conditions and requirements under the Double Tax Avoidance Arrangement, the withholding tax rate on the dividends the Hong Kong resident enterprise receives from a PRC resident enterprise may not exceed 5%. However, based on the Circular of the State Taxation Administration (the “**SAT**”) on Certain Issues Concerning the Implementation of Dividend Provisions in Tax Treaties (《國家稅務總局關於執行稅收協定股息條款有關問題的通知》), which was promulgated and took into effect on February 20, 2009,

---

## REGULATORY OVERVIEW

---

if the relevant PRC tax authorities determine, in their discretion, that a company benefits from such reduced income tax rate due to an arrangement that is primarily tax-driven, such PRC tax authorities may adjust the preferential tax treatment.

According to the Announcement of the SAT on Issues Concerning “Beneficial Owners” in Tax Treaties (《國家稅務總局關於稅收協定中“受益所有人”有關問題的公告》), which was promulgated on February 3, 2018, and came into effect on April 1, 2018, a comprehensive analysis will be used to determine beneficial ownership based on the actual situation of a specific case combined with certain principles, and if an applicant was obliged to pay more than 50% of its income to a third country (region) resident within 12 months of the receipt of the income, or the business activities undertaken by an applicant did not constitute substantive business activities including substantive manufacturing, distribution, management, and other activities, the applicant was unlikely to be recognized as a beneficial owner to enjoy tax treaty benefits.

### Value-Added Tax

The Provisional Regulations of the PRC on Value-Added Tax (《中華人民共和國增值稅暫行條例》) (the “**VAT Regulations**”) was promulgated by the State Council on December 13, 1993, implemented on January 1, 1994, and amended on November 10, 2008, February 6, 2016 and November 19, 2017. The Detailed Rules for the Implementation of the PRC on VAT Regulations (《中華人民共和國增值稅暫行條例實施細則》) was promulgated by the Ministry of Finance (the “**MOF**”) on December 25, 1993, and became effective on the same day, and amended on December 15, 2008 and October 28, 2011. Under the aforesaid regulations, entities and individuals selling goods, providing labor services of processing, repairs or maintenance, or selling services, intangible assets or real property in the PRC, or importing goods to the PRC, shall be identified as taxpayers of value-added tax, and shall pay value-added tax.

On December 25, 2024, the SCNPC published the Value-Added Tax Law of the PRC (《中華人民共和國增值稅法》) (the “**VAT Law**”), which will come into effect on January 1, 2026, replacing the VAT Regulations. The VAT Law reaffirms the provisions of the VAT Regulations and make changes in the areas of taxable acts, tax jurisdiction, deemed sales, nontaxable items, simplified taxation, withholding agents, input taxes, non-creditable input taxes, mixed sales, and input credit carry-forward and refund.

### Enterprise Income Tax on Indirect Transfer of Non-Resident Enterprises

On December 10, 2009, the SAT issued the Circular on Strengthening Administration of Enterprise Income Tax Concerning Proceeds from Equity Transfers by Non-Resident Enterprises (《國家稅務總局關於加強非居民企業股權轉讓所得企業所得稅管理的通知》) (the “**SAT Circular 698**”). By promulgating and implementing the SAT Circular 698, the PRC tax authorities have enhanced their scrutiny over the indirect transfer of equity interests in a PRC resident enterprise by a non-resident enterprise. The SAT further issued the Announcement on Several Issues Concerning Enterprise Income Tax for the Indirect Transfer of Assets by Non-Resident Enterprises (《國家稅務總局關於非居民企業間接轉讓財產企業所

---

## REGULATORY OVERVIEW

---

得稅若干問題的公告》) (the “**SAT Circular 7**”) on February 3, 2015, which was later amended on October 17, 2017 and December 29, 2017 to supersede existing provisions in relation to the indirect transfer as set forth in the Circular 698. The SAT Circular 7 introduces a new tax regime that is significantly different from that under the SAT Circular 698. The SAT Circular 7 extends its tax jurisdiction to capture not only indirect transfer as set forth under the SAT Circular 698 but also transactions involving the transfer of immovable property in China and assets held under the establishment and place in China which are directly held by non-resident enterprises and for which the proceeds from transfer is subject to payment of enterprise income tax in China according to PRC tax laws. The SAT Circular 7 also provides clearer criteria than the SAT Circular 698 on how to assess reasonable commercial purposes and introduces safe harbor scenarios applicable to internal group restructurings. Where a non-resident enterprise indirectly transfers equity interests or other assets of a PRC resident enterprise by implementing arrangements that are not for reasonable commercial purposes to avoid its obligation to pay enterprise income tax, such an indirect transfer shall, in accordance with the EIT Law, be recognized by the competent PRC tax authorities as a direct transfer of equity interests or other assets by the PRC resident enterprise.

On October 17, 2017, the SAT promulgated the Announcement on Matters Concerning Withholding at the Source of Income Tax of Non-resident Enterprises (《國家稅務總局關於非居民企業所得稅源泉扣繳有關問題的公告》) (the “**SAT Circular 37**”), which came into force and replaced the SAT Circular 698 and other regulations on December 1, 2017 and was partly amended on June 15, 2018. The SAT Circular 37 further clarifies the practice and procedures of withholding and payment of income tax levied on non-resident enterprises.

## REGULATIONS RELATING TO INTELLECTUAL PROPERTY

The PRC has adopted comprehensive legislation governing intellectual property rights, including copyrights, domain names, patents and trademarks.

### Copyright

Copyright in the PRC is principally protected under the Copyright Law of the PRC (《中華人民共和國著作權法》) promulgated by the SCNPC on September 7, 1990, implemented on June 1, 1991 and amended on October 27, 2001, February 26, 2010 and November 11, 2020, the latest revision of which became effective on June 1, 2021, and the Implementing Regulations of the Copyright Law of the PRC (《中華人民共和國著作權法實施條例》) promulgated by the State Council on August 2, 2002, implemented on September 15, 2002 and amended on January 8, 2011 and January 30, 2013, the latest revision of which became effective on March 1, 2013. Reproducing, distributing, performing, projecting, broadcasting or compiling a work or communicating the same to the public via an information network without permission from the owner of the copyright therein, unless otherwise provided in the Copyright Law of the PRC and related rules and regulations, shall constitute infringements of copyrights. The infringer shall, according to the circumstances of the case, undertake to cease the infringement, eliminate impacts, publicly apologize, and pay damages, etc. In addition, the Regulations on the Protection of Rights to Information Network Transmission (《信息網絡傳

---

## REGULATORY OVERVIEW

---

播權保護條例》) promulgated by the State Council on May 18, 2006, implemented on July 1, 2006 and amended on January 30, 2013, the latest revision of which became effective on March 1, 2013, provides specific rules on fair use, statutory license, and a safe harbor for use of copyrights and copyright management technology and specifies the liabilities of various entities for violations, including copyright holders, Internet services providers, etc. In order to further implement the Regulations on Protection of Computer Software (《計算機軟件保護條例》) promulgated by the State Council on June 4, 1991, implemented on October 1, 1991 and revised on December 20, 2001, January 8, 2011 and January 30, 2013 respectively, the latest revision of which became effective on March 1, 2013, the National Copyright Administration promulgated the Computer Software Copyright Registration Procedures (《計算機軟件著作權登記辦法》) on February 20, 2002, which became effective on the same day and applies to software copyright registration, license contract registration and transfer contract registration. The National Copyright Administration administers the management of software copyright registration and accredits the Copyright Protection Center of China as the software registration agency. The Copyright Protection Center of China should grant registration certificates to qualified applicants of computer software copyrights.

### Domain Names

According to the Administrative Measures on Internet Domain Names (《互聯網域名管理辦法》) issued by the MIIT on August 24, 2017 and effective on November 1, 2017, a “domain name” refers to the character mark of hierarchical structure, which identifies and locates a computer on the Internet and corresponds to the Internet protocol (IP) address of such computer. The principle of “first come, first serve” applies to domain name registration. The applicant of domain name registration should provide its true, accurate and complete domain name information. After completing the domain name registration, the applicant will become the holder of the registered domain name.

### Patents

The Patent Law of the PRC (《中華人民共和國專利法》) was issued by the SCNPC on March 12, 1984, implemented on April 1, 1985 and revised on September 4, 1992, August 25, 2000, December 27, 2008 and October 17, 2020 respectively, the latest version of which took effect on June 1, 2021. A patentable invention or utility model must meet three conditions: novelty, inventiveness and practical applicability. Patents cannot be granted for scientific discoveries, rules and methods for intellectual activities, methods used to diagnose or treat diseases, animal and plant breeds or substances obtained by means of nuclear transformation. A patent is valid for a twenty-year term for an invention, a ten-year term for a utility model, and a fifteen-year term for a design, starting from the application date. Except under certain specific circumstances provided by law, any third-party user must obtain consent or a proper license from the patent owner to use the patent, or else the use will constitute an infringement of the rights of the patent holder.

---

## REGULATORY OVERVIEW

---

### Trademarks

The Trademark Law of the PRC (《中華人民共和國商標法》) which was promulgated by the SCNPC on August 23, 1982, implemented on March 1, 1983, and subsequently amended on February 22, 1993, October 27, 2001, August 30, 2013 and April 23, 2019, the latest version of which took effect on November 1, 2019, and the Implementation Regulations of the PRC Trademark Law (《中華人民共和國商標法實施條例》) promulgated by the State Council on August 3, 2002, implemented on September 15, 2002 and amended on April 29, 2014, the latest version of which took effect on May 1, 2014, both provide legal protection for holders of registered trademarks. In the PRC, registered trademarks include commodity trademarks, service trademarks, collective marks, and certification marks.

Registered trademarks are valid for a period of ten years. The registered owner should proceed with renewal procedures with 12 months before the expiry of the valid period to be able to continue the use of the registered trademarks upon its expiry, with a six-month grace period allowed. The valid period for every renewed registration is ten years from the next day of the expiry of the trademark's last valid period.

## REGULATIONS RELATING TO EMPLOYMENT AND SOCIAL WELFARE

### The Labor Law and the Labor Contract Law

According to the Labor Law of the PRC (《中華人民共和國勞動法》), which was promulgated by the SCNPC on July 5, 1994, implemented on January 1, 1995, and amended on August 27, 2009, and December 29, 2018, and the Labor Contract Law of the PRC (《中華人民共和國勞動合同法》) promulgated by the SCNPC on June 29, 2007 and implemented on January 1, 2008, and subsequently amended on December 28, 2012 and effective from July 1, 2013, and the Regulations on the Implementation of the Labor Contract Law (《中華人民共和國勞動合同法實施條例》), which was promulgated by the State Council and came into effect on September 18, 2008, labor relationship between employers and employees must be executed in written form. Where a labor relationship has already been established but no formal contract has been made, a written labor contract shall be entered into within one month from the date when the employee begins to work. In addition, wages may not be lower than the local minimum wage standard. Employers must establish a system for labor safety and sanitation, strictly abide by State standards, and provide relevant training to the employees. Employees are also required to work in safe and sanitary conditions.

### Social Insurance and Housing Provident Fund

According to the Social Insurance Law of the PRC (《中華人民共和國社會保險法》) which was promulgated by the SCNPC on October 28, 2010, and came into effect on July 1, 2011, and subsequently amended on December 29, 2018, and the Provisional Regulations for the Collection and Payment of Social Insurance Premiums (《社會保險費徵繳暫行條例》), which was promulgated by the State Council and came into effect on January 22, 1999, and subsequently amended on March 24, 2019, the employer shall contribute to social insurance

---

## REGULATORY OVERVIEW

---

plans covering basic pensions insurance, basic medical insurance, maternity insurance, work injury insurance and unemployment insurance. Basic pension, medical and unemployment insurance contributions shall be paid by both employers and employees, while work-related injury insurance and maternity insurance contributions shall only be paid by employers, and employers who failed to promptly make social insurance contributions in full amount shall be ordered by the social insurance collection agency to make or supplement contributions within a prescribed time limit, and shall be subject to a late payment fine computed from the due date at the rate of 0.05% per day; where payment is not made within prescribed time limit, the relevant administrative authorities shall impose a fine ranging from 1 to 3 times the outstanding amount.

According to the Regulations on the Administration of Housing Provident Fund (《住房公積金管理條例》) (the “**Regulations on Housing Provident Fund**”), which was promulgated by the State Council and became effective on April 3, 1999, and was amended on March 24, 2002 and March 24, 2019, enterprises in the PRC must register with the competent managing center for housing provident fund and upon the examination by such center, these enterprises shall complete procedures for opening an account at the bank for the deposit of employees’ housing provident fund. Enterprises are also required to pay and deposit housing provident fund on behalf of their employees in full and in a timely manner. Employers that violate Regulation on Housing Provident Fund and fail to process housing provident fund payments or deposit registrations with the housing fund administration center within a designated period are subject to a fine ranging from RMB10,000 to RMB50,000.

### REGULATIONS RELATING TO M&A RULES AND OVERSEAS LISTINGS

On August 8, 2006, six PRC regulatory agencies, including the MOFCOM, the State-owned Assets Supervision and Administration Commission of the State Council, the SAT, the SAMR, the China Securities Regulatory Commission (the “**CSRC**”) and SAFE, issued the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors (《關於外國投資者併購境內企業的規定》) (the “**M&A Rules**”) which was implemented on September 8, 2006 and amended on June 22, 2009. Foreign investors shall comply with the M&A Rules when they purchase equity interests of a domestic company or subscribe to the increased capital of a domestic company, thus changing the nature of the domestic company into a foreign-invested enterprise; or when the foreign investors establish a foreign-invested enterprise in the PRC, purchase the assets of a domestic company and operate the assets; or when the foreign investors purchase the asset of a domestic company, establish a foreign-invested enterprise by injecting such assets and operate the assets. The M&A Rules purport, among other things, to require offshore special purpose vehicles formed for overseas listing purposes through acquisitions of PRC domestic companies and controlled by PRC companies or individuals, to obtain the approval of the CSRC prior to publicly listing their securities on an overseas stock exchange.

---

## REGULATORY OVERVIEW

---

In addition, pursuant to the Circular of the General Office of State Council on Establishing the Security Review System for Mergers and Acquisitions of Domestic Enterprises by Foreign Investors (《國務院辦公廳關於建立外國投資者併購境內企業安全審查制度的通知》) issued by the General Office of the State Council on February 3, 2011 and took effect on March 3, 2011 and the Provisions of the Ministry of Commerce on the Implementation of the Safety Review System for Mergers and Acquisitions of Domestic Enterprises by Foreign Investors (《商務部實施外國投資者併購境內企業安全審查制度的規定》) issued by the MOFCOM on August 25, 2011 and implemented on September 1, 2011, mergers and acquisitions by foreign investors that raise “national defense and security” concerns and mergers and acquisitions through which foreign investors may acquire de facto control over domestic enterprises that raise “national security” concerns are subject to strict review by the MOFCOM, and the rules prohibit any activities attempting to bypass a security review, including by structuring the transaction through a proxy or contractual control arrangement.

On July 6, 2021, the General Office of the State Council, together with another regulatory authority, jointly promulgated the Opinions on Strictly Combating Illegal Securities Activities in Accordance with the Law (《關於依法從嚴打擊證券違法活動的意見》), among which, it emphasizes the need to strengthen the administration over illegal securities activities and the supervision on overseas listings by China-based companies, and proposed to take effective measures, such as promoting the construction of relevant regulatory systems to deal with the risks and incidents faced by China-based overseas-listed companies, and provided that the special provisions of the State Council on overseas offering and listing by those companies limited by shares will be revised and therefore the duties of domestic industry competent authorities and regulatory authorities will be clarified.

On February 17, 2023, with the approval of the State Council, the CSRC released the Trial Administrative Measures of Overseas Securities Offering and Listing by Domestic Enterprises (《境內企業境外發行證券和上市管理試行辦法》) (the “**Trial Measures**”) and five supporting guidelines, which came into effect on March 31, 2023. According to the Trial Measures, (1) domestic companies that seek to offer or list securities overseas, both directly and indirectly, should fulfill the filing procedure and report relevant information to the CSRC; if a domestic company fails to complete the filing procedure or conceals any material fact or falsifies any major content in its filing documents, such domestic company may be subject to administrative penalties, such as order to rectify, warnings, fines, and its controlling shareholders, actual controllers, the person directly in charge and other directly liable persons may also be subject to administrative penalties, such as warnings and fines; (2) if the issuer meets both of the following conditions, the overseas offering and listing shall be determined as an indirect overseas offering and listing by a domestic company: (i) any of the total assets, net assets, revenues or profits of the domestic operating entities of the issuer in the most recent accounting year accounts for more than 50% of the corresponding figure in the issuer’s audited consolidated financial statements for the same period; (ii) its major operational activities are carried out in China or its main business premises are located in China, or the senior managers in charge of operation and management of the issuer are mostly Chinese citizens or are domiciled in China; and (3) where a domestic company seeks to indirectly offer and list

---

## REGULATORY OVERVIEW

---

securities in an overseas market, the issuer shall designate a major domestic operating entity responsible for all filing procedures with the CSRC, and where an issuer makes an application for listing in an overseas market, the issuer shall submit filings with the CSRC within three business days after such application is submitted.

Furthermore, on February 24, 2023, the CSRC, together with other relevant government authorities, released the Provisions on Strengthening the Confidentiality and Archives Administration Related to the Overseas Securities Offering and Listing by Domestic Enterprises (《關於加強境內企業境外發行證券和上市相關保密和檔案管理工作的規定》) (the “**Confidentiality and Archives Provisions**”), which took effect on March 31, 2023. Pursuant to the Confidentiality and Archives Provisions, where a domestic enterprise provides or publicly discloses to the relevant securities companies, securities service institutions, overseas regulatory authorities and other entities and individuals, or provides or publicly discloses through its overseas listing subjects, documents and materials involving state secrets and working secrets of state organs, it shall report the same to the competent department with the examination and approval authority for approval in accordance with the law, and submit the same to the secrecy administration department of the same level for filing. Domestic enterprises providing accounting archives or copies thereof to entities and individuals concerned such as securities companies, securities service institutions and overseas regulatory authorities shall perform the corresponding procedures pursuant to the relevant provisions of the State. The working papers formed within the territory of the PRC by the securities companies and securities service institutions that provide corresponding services for the overseas issuance and listing of domestic enterprises shall be kept within the territory of the PRC, and those that need to leave the PRC shall go through the examination and approval formalities in accordance with the relevant provisions of the State.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

### 1. OUR HISTORY AND CORPORATE DEVELOPMENT

Since our establishment in 2016, we have been providing consumer electronic trade-in services, offering an integrated solution from initiating recycling by way of trade-in while facilitating sale of new mobile phones, to standardizing the procured pre-owned mobile phones for resale through inspecting, grading and pricing, leveraging our proprietary technologies and recycle and sales platforms and our strategic cooperation with our upstream sourcing partners. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis. We believe that our strategic cooperation with these upstream sourcing partners in the upstream industrial chain has provided us with unmatched and reliable access to pre-owned mobile phones and other consumer electronics while at the same time enabling us to provide stable transaction services with relatively lower costs.

During the Track Record Period, our revenue was primarily derived from the sale of pre-owned consumer electronics, especially mobile phones sourced from our various supply channels.

In August 2021, we commenced the Reorganization in preparation for the [REDACTED], as more particularly described in “– 4. Reorganization” in this section.

### 2. OUR MILESTONES

We set forth below our key business development and milestones:

<b>Year</b>	<b>Events</b>

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 3. OUR GROUP STRUCTURE AND CORPORATE HISTORY

In preparation for the [REDACTED], we have implemented the Reorganization, with the incorporation of our Company as the [REDACTED] vehicle and the ultimate holding company of our Group. The following chart sets forth the corporate structure of our Group immediately following completion of the [REDACTED] and the [REDACTED]:

*Note:* The remaining 1.82% equity interest of Shenzhen Shanhui is owned by Mr. Zhang Fulong (張福龍), an Independent Third Party. For background information of Mr. Zhang, please refer to “– 5.1 Information regarding the [REDACTED] Investors” in this section.

We set below the corporate history of our subsidiaries in the PRC.

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 3.1 Shenzhen Shanhui

Shenzhen Shanhui was established in the PRC as a limited liability company on May 18, 2016 with an initial registered capital of RMB3,000,000, which had been fully paid up by December 6, 2017, and was owned as to 45% by Mr. Liu and 55% by Mr. Gao Zibin (高自斌) (“**Mr. Gao**”), an Independent Third Party. Mr. Gao became acquainted with Mr. Liu through participation in a business event in 2008. As they share similar values in terms of business philosophy, they decided to establish Shenzhen Shanhui leveraging on Mr. Liu’s experience in the telecommunication-related industries and Mr. Gao’s financial resources. Since the establishment of Shenzhen Shanhui, Mr. Gao has only been a passive investor and has not participated in the management and operation of our Group.

Shenzhen Shanhui is principally engaged in the provision of consumer electronics trade-in-and-resale services and is one of our principal operating subsidiaries.

After its establishment and prior to the Reorganization, Shenzhen Shanhui had undergone a series of share transfers and equity fundraisings, details of which are summarized as follows:

#### 3.1.1 Equity Transfers in 2017

Pursuant to the equity transfer agreements dated January 12, 2017, Mr. Liu and Haimin Xinshun acquired 27.86% (9.07% of which was paid up) and 12.86% (8.57% of which was paid up) of the equity interest in Shenzhen Shanhui from Mr. Gao at considerations of RMB272,143 and RMB257,143, respectively. The considerations for the equity transfers were determined with reference to the amount of registered capital in Shenzhen Shanhui that was paid up by Mr. Gao for the relevant equity interest.

Haimin Xinshun is a limited partnership established in the PRC on January 10, 2017 for the purpose of holding equity interest in Shenzhen Shanhui for Mr. Liu, Ms. Yu, Mr. He, Mr. Lin and Mr. Luo Yuanshun (羅源順) (“**Mr. Luo**”), who are employees of our Group (the “**Employee Members**”), and it is owned as to approximately 17.80% by Mr. Liu as the general partner and approximately 30.52%, 25.53%, 18.68% and 7.47% by Ms. Yu, Mr. He, Mr. Lin and Mr. Luo, respectively, as the limited partners.

Upon completion of the above equity transfers on May 25, 2017, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	2,185,800	72.86
Mr. Gao	428,400	14.28
Haimin Xinshun	385,800	12.86
<b>Total</b>	<b>3,000,000</b>	<b>100.00</b>

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 3.1.2 Seed Round Investments

Pursuant to the capital injection agreements dated January 16, 2017, January 16, 2017, February 6, 2017 and March 16, 2017, the registered capital of Shenzhen Shanhui increased from RMB3,000,000 to RMB4,285,900, where three Independent Third Parties, Mr. Chen Jianguo (陳建高), Mr. Zhang Fulong (張福龍) and Mr. Wang Shujia (王述嘉) and Juntong Investment subscribed for approximately 4%, 10%, 2% and 14% of the enlarged equity interest in Shenzhen Shanhui at a consideration of RMB1,200,000, RMB1,600,000, RMB600,000 and RMB600,000, respectively. The amount of the capital injection was determined based on arm’s length negotiation between the parties having considered the background of each shareholder, that our business was still in early stage at the time of investment and also taking into account that no special rights and benefits were granted to the shareholders. In particular, a higher discount was offered to Juntong Investment as we believed that our business can benefit from the experience and business network of its limited partners. The consideration was fully settled by (i) Mr. Chen on January 20, 2017, (ii) Mr. Zhang on December 6, 2017, (iii) Mr. Wang on February 8, 2017 and (iv) Juntong Investment on June 9, 2017. Juntong Investment is a limited partnership established in the PRC, which was then owned as to approximately 10.92% by Mr. Liu as the general partner and as to approximately 51.12%, 22.80% and 15.16% by three Independent Third Parties, Mr. Xie Siyin (謝思引), Mr. Yin Xuejun (尹學軍) and Mr. Ge Dong (葛東), respectively, as the limited partners. Each of Mr. Chen Jianguo (陳建高), Mr. Zhang Fulong (張福龍), Mr. Wang Shujia (王述嘉) and the limited partners of Juntong Investment, namely Mr. Xie, Mr. Yin and Mr. Ge, was a friend of Mr. Liu. At the time of their respective investment, we believed that our Group can benefit from the additional capital contributed by each of them individually as well as their knowledge and/or experience. For their background information, please refer to “– 5.1 Information regarding the [REDACTED] Investors” in this section.

Upon completion of the above capital increases on June 14, 2017, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	2,185,800	51.00
Mr. Gao	428,400	10.00
Haimin Xinshun	385,800	9.00
Juntong Investment	600,000	14.00
Mr. Chen Jianguo (陳建高)	171,500	4.00
Mr. Zhang Fulong (張福龍)	428,600	10.00
Mr. Wang Shujia (王述嘉)	85,800	2.00
<b>Total</b>	<b>4,285,900</b>	<b>100.00</b>

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 3.1.3 Employee Equity Incentive Plan

With a view to incentivizing our management and core employees to further promote our development and in recognition of their contributions, an employee equity incentive platform, Menggongyuan, was established in the PRC on November 22, 2017. Menggongyuan is owned as to 80% by Mr. Liu as the general partner and 20% by Ms. Yu as the limited partner. Pursuant to the equity transfer agreement dated February 11, 2018, Menggongyuan acquired 4.25%, 2.5%, 0.75%, 3.5%, 2.5%, 1% and 0.5% equity interest in Shenzhen Shanhui from Mr. Liu, Mr. Gao, Haimin Xinshun, Juntong Investment, Mr. Zhang Fulong (張福龍), Mr. Chen Jiango (陳建高) and Mr. Wang Shujia (王述嘉) at a consideration of RMB1 each for the purpose of implementing the employee equity incentive plan of Shenzhen Shanhui as described below (the “Scheme”).

Upon completion of the above equity transfers on February 12, 2018, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	2,003,658	46.75
Mr. Gao	321,442	7.50
Haimin Xinshun	353,587	8.25
Juntong Investment	450,020	10.50
Mr. Chen Jiango (陳建高)	128,577	3.00
Mr. Zhang Fulong (張福龍)	321,442	7.50
Mr. Wang Shujia (王述嘉)	64,289	1.50
Menggongyuan	642,885	15.00
<b>Total</b>	<b>4,285,900</b>	<b>100.00</b>

The Scheme was approved and adopted by the board of Shenzhen Shanhui on September 28, 2018. On May 18, 2023, the Scheme and all share incentives granted thereunder were terminated. For details of the Scheme, please refer to note 24 to our financial statements included in the Accountants’ Report in Appendix I to this document.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

### 3.1.4 Series A [REDACTED] Investments

- (a) Pursuant to the equity transfer and capital increase agreement of Shenzhen Shanhui dated February 7, 2018 and equity transfer agreements dated July 4, 2018, (i) Jinmi Investment acquired approximately 1.43% and 0.95% equity interest in Shenzhen Shanhui from Mr. Gao and Mr. Chen Jiangao (陳建高) at considerations of RMB1,800,000 and RMB1,200,000, respectively; (ii) Hangzhou Shunying acquired approximately 1.68% equity interest in Shenzhen Shanhui from Mr. Zhang Fulong (張福龍) at a consideration of RMB2,121,500; and (iii) Shunwei Technology acquired approximately 0.70% equity interest in Shenzhen Shanhui from Mr. Zhang Fulong (張福龍) at a consideration of RMB878,500. The considerations were mainly determined by the parties based on arm’s length negotiation with reference to the then agreed post-money valuation of Shenzhen Shanhui in the amount of RMB150 million after considering the revenue of Shenzhen Shanhui for the year ended December 31, 2017, the business prospect of Shenzhen Shanhui and the positive outlook for the PRC mobile phone recycling service market. The consideration was fully settled by (i) Jinmi Investment by May 15, 2018, (ii) Hangzhou Shunying by May 18, 2018, and (iii) Shunwei Technology by May 18, 2018.

Pursuant to the same equity transfer and capital increase agreement of Shenzhen Shanhui dated February 7, 2018 and shareholders’ resolutions of Shenzhen Shanhui dated July 4, 2018, the registered capital of Shenzhen Shanhui was increased from RMB4,285,900 to RMB5,102,262, where Jinmi Investment, Hangzhou Shunying and Shunwei Technology subscribed for approximately 8%, 5.66% and 2.34% of the enlarged equity interest in Shenzhen Shanhui at consideration of RMB12,000,000, RMB8,486,001 and RMB3,513,999, respectively. The considerations were mainly determined among the respective [REDACTED] investors, the then shareholders and Shenzhen Shanhui based on arm’s length negotiations with reference to the then agreed post-money valuation of Shenzhen Shanhui in the same round of investment and potential business cooperation opportunities and benefits that the [REDACTED] Investors could bring to our Group. For their background information, please refer to “– 5.1 Information regarding the [REDACTED] Investors” in this section. The consideration was fully settled by (i) Jinmi Investment on February 13, 2018, (ii) Hangzhou Shunying on February 9, 2018, and (iii) Shunwei Technology on February 11, 2018.

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

Upon completion of the above capital increases and equity transfers on July 5, 2018, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	2,003,658	39.27
Mr. Gao	260,215	5.10
Haimin Xinshun	353,587	6.93
Juntong Investment	450,020	8.82
Mr. Chen Jianguo (陳建高)	87,759	1.72
Mr. Zhang Fulong (張福龍)	219,397	4.30
Mr. Wang Shujia (王述嘉)	64,289	1.26
Menggongyuan	642,885	12.60
Shunwei Technology	149,411	2.93
Hangzhou Shunying	360,815	7.07
Jinmi Investment	510,226	10.00
<b>Total</b>	<b>5,102,262</b>	<b>100.00</b>

- (b) Pursuant to the shareholders’ resolutions of Shenzhen Shanhui dated July 1, 2019, the registered capital of Shenzhen Shanhui was increased from RMB5,102,262 to RMB20,000,000, where Mr. Liu, Mr. Gao, Haimin Xinshun, Juntong Investment, Mr. Chen Jianguo (陳建高), Mr. Zhang Fulong (張福龍), Mr. Wang Shujia (王述嘉), Menggongyuan, Shunwei Technology, Hangzhou Shunying and Jinmi Investment subscribed for an additional registered capital of RMB5,850,342, RMB759,785, RMB1,032,413, RMB1,313,980, RMB256,241, RMB640,603, RMB187,711, RMB1,877,115, RMB436,269, RMB1,053,505, RMB1,489,774, respectively, which were in proportion to their respective equity interests in Shenzhen Shanhui at the time.

Upon completion of the above capital increases on July 1, 2019, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	7,854,000	39.27
Mr. Gao	1,020,000	5.10
Haimin Xinshun	1,386,000	6.93
Juntong Investment	1,764,000	8.82
Mr. Chen Jianguo (陳建高)	344,000	1.72
Mr. Zhang Fulong (張福龍)	860,000	4.30

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Wang Shujia (王述嘉)	252,000	1.26
Menggongyuan	2,520,000	12.60
Shunwei Technology	585,680	2.93
Hangzhou Shunying	1,414,320	7.07
Jinmi Investment	2,000,000	10.00
<b>Total</b>	<b>20,000,000</b>	<b>100.00</b>

Pursuant to the supplemental shareholders’ resolutions passed by the then shareholders of Shenzhen Shanhui dated October 15, 2021, the registered capital of Shenzhen Shanhui was increased by way of capitalization of capital reserve of RMB14,897,738 into registered capital. Upon completion of such capitalization, each of the then shareholders’ shareholding percentage in Shenzhen Shanhui remained unchanged.

- (c) Pursuant to an equity transfer agreement dated July 23, 2019, Haimin Xinshun acquired approximately 4.31% equity interest in Shenzhen Shanhui from Mr. Liu at a consideration of RMB1 as Mr. Liu intended to allocate some of his equity interest in Shenzhen Shanhui to Haimin Xinshun to incentivize the Employee Members.

Upon completion of the above equity transfer on the same date, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	6,992,000	34.96
Mr. Gao	1,020,000	5.10
Haimin Xinshun	2,248,000	11.24
Juntong Investment	1,764,000	8.82
Mr. Chen Jianga (陳建高)	344,000	1.72
Mr. Zhang Fulong (張福龍)	860,000	4.30
Mr. Wang Shujia (王述嘉)	252,000	1.26
Menggongyuan	2,520,000	12.60
Shunwei Technology	585,680	2.93
Hangzhou Shunying	1,414,320	7.07
Jinmi Investment	2,000,000	10.00
<b>Total</b>	<b>20,000,000</b>	<b>100.00</b>

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

- (d) Pursuant to the capital injection agreements of Shenzhen Shanhui dated February 11, 2019 and shareholders’ resolutions of Shenzhen Shanhui dated July 24, 2020, the registered capital of Shenzhen Shanhui was increased from RMB20,000,000 to RMB21,088,000, where Ganzhou Kaiyue Talent Venture Capital Fund (Limited Partnership) (贛州市開悅人才創業投資基金(有限合夥)) (“**Ganzhou Kaiyue**”) and Jinmi Investment agreed to subscribe for approximately 1.89% and 3.26% of the enlarged equity interest in Shenzhen Shanhui at a consideration of RMB10,000,000 and RMB17,200,000, respectively. The considerations were mainly determined based on arm’s length negotiation amongst respective [REDACTED] investors, the then shareholders and Shenzhen Shanhui with reference to the then agreed post-money valuation of Shenzhen Shanhui in the amount of RMB547 million after considering the revenue of Shenzhen Shanhui for the year ended December 31, 2018 and the then price-to-sales (P/S) ratio of Shenzhen Shanhui and those of our market comparables. The consideration was fully settled by (i) Jinmi Investment by February 14, 2019 and (ii) Ganzhou Kaiyue by June 21, 2019.

Upon completion of the above capital increases on July 24, 2020, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	6,992,000	33.16
Mr. Gao	1,020,000	4.84
Haimin Xinshun	2,248,000	10.66
Juntong Investment	1,764,000	8.36
Mr. Chen Jiangaο (陳建高)	344,000	1.63
Mr. Zhang Fulong (張福龍)	860,000	4.08
Mr. Wang Shujia (王述嘉)	252,000	1.19
Menggongyuan	2,520,000	11.95
Shunwei Technology	585,680	2.78
Hangzhou Shunying	1,414,320	6.71
Jinmi Investment	2,688,000	12.75
Ganzhou Kaiyue	400,000	1.89
<b>Total</b>	<b>21,088,000</b>	<b>100.00</b>

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 3.1.5 Series C [REDACTED] Investments

- (a) Pursuant to the equity transfer agreements dated July 30, 2021 and August 6, 2021, Mr. Duan Liping (段力平), an Independent Third Party, acquired approximately 1.37% and 1.89% equity interest in Shenzhen Shanhui from Juntong Investment and Ganzhou Kaiyue at a consideration of RMB10,276,500, and RMB14,226,000, respectively. The considerations were mainly determined based on arm’s length negotiation among the parties and with reference to the then agreed valuation of Shenzhen Shanhui in the amount of approximately RMB750 million after considering the revenue of Shenzhen Shanhui for the year ended December 31, 2020 and the then price-to-sales (P/S) ratio of Shenzhen Shanhui and those of our market comparables. The considerations were fully settled by August 11, 2021. Subsequent to the equity transfer, Ganzhou Kaiyue ceased to have any equity interest in the Shenzhen Shanhui.

Upon completion of the above equity transfers on September 8, 2021, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	6,992,000	33.16
Mr. Gao	1,020,000	4.84
Haimin Xinshun	2,248,000	10.66
Juntong Investment	1,475,050	6.99
Mr. Chen Jianguo (陳建高)	344,000	1.63
Mr. Zhang Fulong (張福龍)	860,000	4.08
Mr. Wang Shujia (王述嘉)	252,000	1.19
Menggongyuan	2,520,000	11.95
Shunwei Technology	585,680	2.78
Hangzhou Shunying	1,414,320	6.71
Jinmi Investment	2,688,000	12.75
Mr. Duan Liping (段力平)	688,950	3.26
<b>Total</b>	<b>21,088,000</b>	<b>100.00</b>

- (b) Pursuant to an equity transfer agreement dated August 30, 2021, (i) Nanhai Growth acquired approximately 4.21% equity interest in Shenzhen Shanhui from Juntong Investment at a consideration of RMB30,000,000; (ii) Zhitou Huifu acquired approximately 1.83% equity interest in Shenzhen Shanhui from Mr. Zhang Fulong (張福龍) at a consideration of RMB12,500,003; and (iii) Ms. Zhu Yongmei (朱永梅), an Independent Third Party, acquired approximately 0.37% equity interest in Shenzhen Shanhui from Mr. Zhang Fulong (張福龍) at a consideration of

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

RMB2,500,000. The considerations were mainly determined by the parties after arm’s length negotiation with reference to the consideration paid by Mr. Duan Liping (段力平) in the previous round of investment and were fully settled by August 31, 2021.

Pursuant to an equity transfer agreement dated August 30, 2021, Fatiao Time acquired approximately 5.14%, 3.63% and 1.50% equity interest in Shenzhen Shanhui from Jinmi Investment, Hangzhou Shunying, Shunwei Technology at consideration of RMB48,022,500, RMB33,959,911 and RMB14,062,589, respectively. The considerations were mainly determined by the parties after arm’s length negotiation with reference to the then agreed valuation of Shenzhen Shanhui in the amount of RMB1 billion, the prospect of our business at that time and the business development of Shenzhen Shanhui. In addition, the holding company of Fatiao Time, Beijing Zhuanzhuan Spirit Technology Co., Ltd. (北京轉轉精神科技有限責任公司), and its related parties are engaged in the PRC mobile phone recycling service market and optimistic about the market and believe that we will have promising prospects for development. The considerations were fully settled by September 13, 2021.

Upon completion of the above equity transfers on September 13, 2021, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	6,992,000	33.16
Mr. Gao	1,020,000	4.84
Haimin Xinshun	2,248,000	10.66
Juntong Investment	587,134	2.79
Mr. Chen Jiangaao (陳建高)	344,000	1.63
Mr. Zhang Fulong (張福龍)	396,362	1.88
Mr. Wang Shujia (王述嘉)	252,000	1.19
Menggongyuan	2,520,000	11.95
Shunwei Technology	268,512	1.27
Hangzhou Shunying	648,388	3.07
Jinmi Investment	1,604,900	7.61
Mr. Duan Liping (段力平)	688,950	3.27
Nanghai Growth	887,916	4.21
Zhitou Huifu	386,373	1.83
Ms. Zhu Yongmei (朱永梅)	77,265	0.37
Fatiao Time	2,166,200	10.27
<b>Total</b>	<b>21,088,000</b>	<b>100.00</b>

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

- (c) Pursuant to an equity transfer agreement dated August 31, 2021, Ms. Zhu Yongmei (朱永梅) acquired approximately 5.35% equity interest in Shenzhen Shanhui from Fatiao Time at consideration of RMB50,000,000. The consideration was mainly determined by the parties after arm’s length negotiation with reference to the consideration paid by Fatiao Time in the previous round of investment and was fully settled by September 7, 2021.

Upon completion of the above equity transfer on September 16, 2021, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB)	Approximate equity interest (%)
Mr. Liu	6,992,000	33.16
Mr. Gao	1,020,000	4.84
Haimin Xinshun	2,248,000	10.66
Juntong Investment	587,134	2.78
Mr. Chen Jianguo (陳建高)	344,000	1.63
Mr. Zhang Fulong (張福龍)	396,362	1.88
Mr. Wang Shujia (王述嘉)	252,000	1.19
Menggongyuan	2,520,000	11.95
Shunwei Technology	268,512	1.27
Hangzhou Shunying	648,388	3.07
Jinmi Investment	1,604,900	7.61
Mr. Duan Liping (段力平)	688,950	3.27
Nanhai Growth	887,916	4.21
Zhitou Huifu	386,373	1.83
Ms. Zhu Yongmei (朱永梅)	1,204,966	5.72
Fatiao Time	1,038,499	4.93
<b>Total</b>	<b>21,088,000</b>	<b>100.00</b>

As part of the Reorganization, Shenzhen Shanhui became an indirect non-wholly owned subsidiary of our Company. Please refer to “Reorganization” in this section for further details.

### 3.1.6 Share options

On February 1, 2019, Shenzhen Shanhui issued certain options to SVB Venture Capital Investment Management (Shanghai) Co., Ltd. (盛維創業投資管理(上海)有限公司) (“**SVB Venture Capital**”), a related party of Pufa Silicon Valley Bank Co., Ltd. (浦發矽谷銀行有限公司), which was a lender of Shenzhen Shanhui and an Independent Third Party. Pursuant to the relevant agreement, SVB Venture Capital was entitled to subscribe for certain shares of Shenzhen Shanhui at an agreed price within seven years from the date of the agreement. On

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

December 30, 2023, the options were terminated by the parties and all rights attached thereto with a consideration of RMB1 million, which was determined by the parties on an arm’s length basis and was settled on January 10, 2024.

On March 2, 2020, Shenzhen Shanhui issued certain options to Hangzhou Fuzhuo Investment Management Co., Ltd. (杭州複琢投資管理有限公司) (“**Hangzhou Fuzhuo Investment**”). Pursuant to the relevant agreement, Hangzhou Fuzhuo Investment was entitled to subscribe for certain shares of Shenzhen Shanhui. On February 27, 2022, the options expired and no shares had been issued to Hangzhou Fuzhuo Investment.

On April 30, 2020, Shenzhen Shanhui issued certain options to a licensed commercial factoring company, which is an indirect wholly-owned subsidiary of our related parties, pursuant to which such company was entitled to subscribe for certain shares of Shenzhen Shanhui at an agreed price. On April 30, 2023, the options expired and no shares had been issued to such company.

### 3.2 Shenzhen Tianhai

Shenzhen Tianhai was established in the PRC as a limited liability company on January 13, 2020 with an initial registered capital of RMB10,000,000, and has been wholly owned by Shenzhen Shanhui since its establishment.

Shenzhen Tianhai is principally engaged in the provision of consumer electronics trade-in-and-resale services.

### 3.3 Shenzhen Shanxin

Shenzhen Shanxin was established in the PRC as a limited liability company on July 20, 2022 with an initial registered capital of RMB20,000,000, and has been wholly owned by Shenzhen Shanhui since its establishment. On June 13, 2024, pursuant to the sole shareholder’s resolution and in order to align with the current operational scale of Shenzhen Shanxin, the registered capital of Shenzhen Shanxin was reduced to RMB10,000,000 from RMB20,000,000 and such capital reduction was completed on July 31, 2024.

Shenzhen Shanxin is principally engaged in the provision of technical services.

### 3.4 Shenzhen Shanji

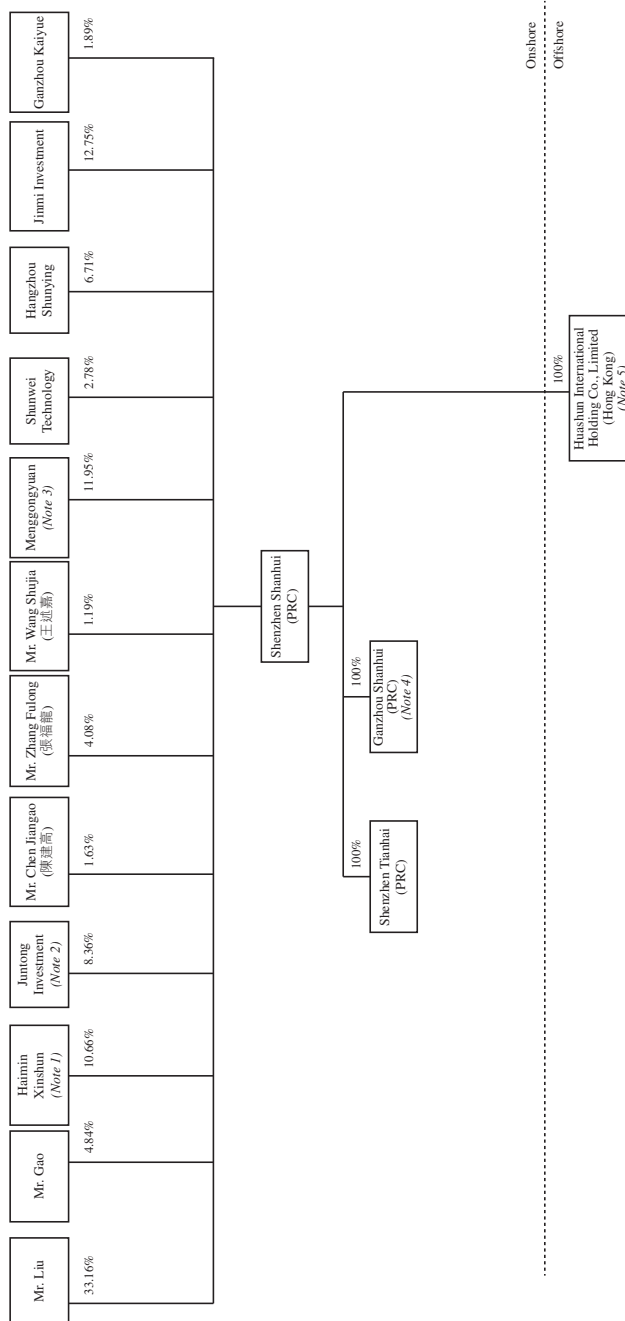

Shenzhen Shanji was established in the PRC as a limited liability company on January 16, 2023 with an initial registered capital of RMB10,000,000, and has been wholly owned by Shenzhen Shanhui since its establishment.

Shenzhen Shanji is principally engaged in the provision of consumer electronics trade-in-and-resale services.

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 4. REORGANIZATION

Our Group underwent the Reorganization in preparation for the [REDACTED]. The following chart sets forth our Group’s corporate and shareholding structure immediately before the Reorganization:

#### Notes:

1. Haimin Xinshun is a limited partnership established in the PRC. Haimin Xinshun was established for the purpose of holding equity interest in Shenzhen Shanhui for the Employee Members. Haimin Xinshun is owned as to approximately 17.80%, 30.52%, 25.53%, 18.68% and 7.47% by Mr. Liu, Ms. Yu, Mr. He, Mr. Lin and Mr. Luo, respectively.
2. Junrong Investment is a limited partnership established in the PRC and then owned as to approximately 10.92% by Mr. Liu as the general partner and as to 51.12%, 22.80% and 15.16% by Mr. Xie Siyin (谢思引), Mr. Yin Xuejun (尹学军) and Mr. Ge Dong (葛东), respectively as the limited partners.
3. Menggongyuan was established in the PRC on November 22, 2017 as a limited partnership that was set up as an employee equity incentive platform and is owned as to 80% by Mr. Liu as the general partner and 20% by Ms. Yu as the limited partner.
4. Ganzhou Shanhui completed the deregistration on January 22, 2024.
5. Huashun International Holding Co., Limited completed the deregistration on January 28, 2022.

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 4.1 Incorporation of ShanHuiShou BVI and other BVI Shareholders

On August 5, 2021, ShanHuiShou BVI was incorporated to act as the holding company for Mr. Liu’s interest in our Company.

On September 15, 2021, the following BVI holding companies (collectively, the “**12 BVI Shareholders**”, and each an “**BVI Shareholder**”) were incorporated to act as the holding companies for the relevant ultimate beneficial shareholders (collectively, the “**12 Individual Shareholders**” and each an “**Individual Shareholder**”)’s direct or indirect interest in our Company:

Name of BVI Shareholder	Name of Individual Shareholder
SHS Glory BVI	Mr. Gao
SHS Thunder BVI	Mr. Chen Jiangao (陳建高)
SHS Lightning BVI	Mr. Wang Shujia (王述嘉)
MGY Alliance BVI	Ms. Yu
Flash Recycle BVI	Mr. He
Lightning Recycle BVI	Mr. Lin
Recycle Lifestyle BVI	Mr. Luo
SHS Blooming BVI	Mr. Xie Siyin (謝思引)
SHS Flash BVI	Mr. Yin Xuejun (尹學軍)
SHS Prosperity BVI	The estate of Mr. Ge Dong (葛東)
ShanHS Sword BVI	Mr. Duan Liping (段力平)
Yuntouhang BVI	Ms. Zhu Yongmei (朱永梅)

### 4.2 Incorporation of our Company

On August 11, 2021, our Company was incorporated as an exempted company in the Cayman Islands with limited liability to act as the holding company of our Group. The initial authorized share capital of our Company was HK\$380,000 divided into 38,000,000 ordinary shares with a par value of HK\$0.01 each. Upon its incorporation, one Share was allotted and issued to an initial subscriber, being an Independent Third Party, and the said Share was transferred to ShanHuiShou BVI on the same day.

### 4.3 Incorporation of ShanH Holding

On September 17, 2021, ShanH Holding was incorporated as a limited liability company in the BVI as our intermediate holding company. The initial authorized share capital of ShanH Holding was 50,000 ordinary shares without par value. Upon its incorporation, one share of ShanH Holding was allotted and issued to our Company, following which ShanH Holding became wholly-owned by our Company.

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 4.4 Incorporation of Shanhui Technology

On October 19, 2021, Shanhui Technology was incorporated as a limited liability company in Hong Kong and is principally engaged in the provision of consumer electronics trade-in-and-resale services in Hong Kong. Upon incorporation, one share of Shanhui Technology was allotted and issued to ShanH Holding, following which Shanhui Technology became wholly-owned by ShanH Holding.

### 4.5 Incorporation of MGY Wisdom BVI

On November 10, 2021, MGY Wisdom BVI was incorporated in the BVI to act as an employee shareholding platform for the purpose of holding the equity interest in our Company for implementation of equity incentive plan(s) for employees of our Group after [REDACTED]. To reflect the shareholding structure of Menggongyuan, MGY Wisdom BVI has issued and allotted eight shares to ShanHuiShou BVI and two shares to MGY Alliance BVI.

### 4.6 [REDACTED] Investment by Flexman (HK) through subscription of equity interest in Shenzhen Shanhui

We introduced Flexman (HK) as a [REDACTED] Investor as part of the Reorganization. Pursuant to a shareholders’ resolutions of Shenzhen Shanhui dated November 1, 2021, Flexman (HK), which is wholly owned by Ms. Yuen Shuk Ying (袁淑盈), an Independent Third Party, subscribed for approximately 3.29% of the enlarged equity interest in Shenzhen Shanhui (equivalent to the registered capital of Shenzhen Shanhui of approximately RMB716,966) at a consideration of RMB1,867,641, which was determined with reference to the net asset value of Shenzhen Shanhui as of July 31, 2021 having considered the reorganization steps required to be undertaken by our Group for the [REDACTED] and that the class of shares subscribed is ordinary Shares, which do not have any special rights as granted to holders of the Preferred Shares. The consideration was fully settled by July 10, 2023.

Upon completion of the above capital increase on November 1, 2021, the shareholding of Shenzhen Shanhui was as follows:

Shareholders	Registered capital (RMB’000)	Approximate equity interest (%)
Mr. Liu	6,992,000	32.07
Mr. Gao Zibin (高自斌)	1,020,000	4.68
Haimin Xinshun	2,248,000	10.31
Juntong Investment	587,134	2.69
Mr. Chen Jiango (陳建高)	344,000	1.58
Mr. Zhang Fulong (張福龍)	396,362	1.82
Mr. Wang Shujia (王述嘉)	252,000	1.16

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

Shareholders	Registered capital (RMB'000)	Approximate equity interest (%)
Menggongyuan	2,520,000	11.56
Shunwei Technology	268,512	1.23
Hangzhou Shunying	648,388	2.97
Jinmi Investment	1,604,900	7.36
Nanhai Growth	887,916	4.07
Flexman (HK)	716,966	3.29
Mr. Duan Liping (段力平)	688,950	3.15
Zhitou Huifu	386,373	1.77
Ms. Zhu Yongmei (朱永梅)	1,204,966	5.53
Fatiao Time	1,038,499	4.76
<b>Total</b>	<b>21,804,966</b>	<b>100.00</b>

#### 4.7 Subscription of Shares by MGY Wisdom BVI and the 12 BVI Shareholders

On November 15, 2021, our Company allotted and issued one ordinary Share to each of MGY Wisdom BVI and the 12 BVI Shareholders at nominal value of HK\$0.01 per Share. Immediately after such allotments, our Company was owned by ShanHuiShou BVI, MGY Wisdom BVI and the 12 BVI Shareholders in equal portion.

#### 4.8 Subscription of Shares by ShanHuiShou BVI, the 12 BVI Shareholders, MGY Wisdom BVI, Shanghai Wenwei, Shanghai Jiaozeng, Shanghai Xiuhui, Zhitou Huifu, World Circulation BVI and Barryspace BVI

To reflect the equity interest in Shenzhen Shanhui held by the then shareholders as set out in step 4.6 above, a share subscription agreement was entered into by the relevant parties on April 18, 2023 (the “**Share Subscription Agreement**”). Pursuant to the Share Subscription Agreement, our Company allotted and issued certain shares (the “**Subscription Shares**”) to ShanHuiShou BVI, the 12 BVI Shareholders, MGY Wisdom BVI, Shanghai Wenwei, Shanghai Jiaozeng, Shanghai Xiuhui, Zhitou Huifu, World Circulation BVI and Barryspace BVI (the “**Subscribers**”) on April 28, 2023.

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 4.9 Subscription of Shares by Long Shining BVI

Pursuant to a share subscription agreement dated December 28, 2021 and an amended and restated subscription agreement dated October 31, 2023, our Company agreed to allot and issue 406,950 Series C-6 Preferred Shares to Long Shining BVI at a consideration of RMB25,497,500 (equivalent to approximately USD4,005,388). The consideration was fully settled and received by our Company on January 31, 2022 and was mainly determined by the parties after arm’s length negotiation with reference to the revenue of Shenzhen Shanhui for the year ended December 31, 2020 and the then price-to-sales (P/S) ratio of Shenzhen Shanhui and those of our market comparables at the time of investment in 2021. Due to the delay in the Reorganization, the Series C-6 Preferred Shares were subsequently allotted and issued to Long Shining BVI on December 15, 2023. Long Shining BVI is a company incorporated in the British Virgin Islands and owned as to 50% by Mr. Wu Ching Ho (胡清河) and 50% by his spouse, Ms. Pang Hiu Mui (彭曉梅), both being Independent Third Parties.

Details of the shareholding of our Company after completion of the above subscriptions as set out in steps 4.8 and 4.9 above are summarized as follow:

Name of Shareholders	Class of Shares	Number of Shares	Shareholding Percentage (%)
ShanHuiShou BVI	Ordinary Shares	6,839,040	32.47
MGY Wisdom BVI	Ordinary Shares	2,311,400	10.97
SHS Glory BVI	Ordinary Shares	935,560	4.44
SHS Thunder BVI	Ordinary Shares	315,520	1.50
SHS Lightning BVI	Ordinary Shares	231,140	1.10
MGY Alliance BVI	Ordinary Shares	629,180	2.99
Flash Recycle BVI	Ordinary Shares	526,440	2.50
Lightning Recycle BVI	Ordinary Shares	385,200	1.83
Recycle Lifestyle BVI	Ordinary Shares	154,080	0.73
SHS Blooming BVI	Ordinary Shares	275,300	1.31
SHS Flash BVI	Ordinary Shares	122,800	0.58
SHS Prosperity BVI	Ordinary Shares	81,640	0.39
Barryspace BVI	Ordinary Shares	657,620	3.12
Shanghai Wenwei	Series A-1 Preferred Shares	841,000	3.99
Shanghai Jiaozeng	Series A-2 Preferred Shares	1,472,040	6.99
Shanghai Xiuhui	Series C-1 Preferred Shares	1,833,410 (Note 1)	8.70
World Circulation BVI	Series C-2 Preferred Shares	952,540	4.52
ShanHS Sword BVI	Series C-3 Preferred Shares	631,920 (Note 2)	3.00

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

Name of Shareholders	Class of Shares	Number of Shares	Shareholding Percentage (%)
Zhitou Huifu	Series C-4 Preferred Shares	354,380	1.68
Yuntouhang BVI	Series C-5 Preferred Shares	1,105,220 (Note 2)	5.25
Long Shining BVI	Series C-6 Preferred Shares	406,950	1.94
<b>Total</b>	/	<b>21,062,380</b>	<b>100.00</b>

*Notes:*

- Pursuant to the Share Subscription Agreement, Shanghai Xiuhui, the ODI vehicle of Nanhai Growth, subscribed for a total of 1,833,410 Series C-1 Preferred Shares, 814,420 of which reflect Nanhai Growth’s then equity interest in Shenzhen Shanhui as set out in step 4.6 above and 1,018,990 of which represent Nanhai Growth’s additional subscription of shares of our Company through Shanghai Xiuhui as described below. On March 22, 2021, Nanhai Growth and Shenzhen Shanhui, among others, entered into a capital increase agreement, pursuant to which Nanhai Growth agreed to subscribe for approximately 5% of the then enlarged equity interest in Shenzhen Shanhui at a consideration of RMB50,000,000. The consideration was fully settled and received by Shenzhen Shanhui on April 7, 2021 and was mainly determined by the parties after arm’s length negotiation with reference to the revenue of Shenzhen Shanhui for the year ended December 31, 2020 and the then price-to-sales (P/S) ratio of Shenzhen Shanhui and those of our market comparables at the time of investment in 2021. Due to the delay in the Reorganization, Nanhai Growth decided to subscribe for 1,018,990 additional Series C-1 Preferred Shares through Shanghai Xiuhui pursuant to the Share Subscription Agreement.
- Pursuant to the shareholders’ resolutions dated April 28, 2023, one ordinary share issued to ShanHS Sword BVI was converted into one Series C-3 Preferred Share and one ordinary share issued to Yuntouhang BVI was converted into one Series C-5 Preferred Share on the same date.
- Each of Series A-1 Preferred Shares, Series A-2 Preferred Shares, Series C-1 Preferred Shares, Series C-2 Preferred Shares, Series C-3 Preferred Shares, Series C-4 Preferred Shares, Series C-5 Preferred Shares and Series C-6 Preferred Shares will be converted into ordinary Shares on a one-to-one basis by way of re-designation to Shares upon the [REDACTED].

The table below sets out the relationships between the Subscribers and shareholders of Shenzhen Shanhui:

Shareholder of Shenzhen Shanhui	Subscriber	Relationship
Mr. Liu Menggongyuan	ShanHuiShou BVI MGY Wisdom BVI	Wholly-owned by Mr. Liu Controlled by the same ultimate beneficial owners
Mr. Gao	SHS Glory BVI	Wholly-owned by Mr. Gao

Ms. Zhu Yongmei (朱永梅)	Yuntouhang BVI	Wholly-owned by Ms. Zhu

#### Notes:

- Each of Mr. He, Mr. Lin and Mr. Luo held his respective equity interest in Shenzhen Shanhui through Haimin Xinshun, a limited partnership established for the purpose of holding equity interest in Shenzhen Shanhui for the Employee Members. Such arrangement allowed them to (i) reduce the costs in setting up their own company to hold their respective interests in Shenzhen Shanhui; and (ii) minimize their time and effort in the administration of their respective interests in Shenzhen Shanhui. Upon completion of the Reorganization, each of them holds equity interests in the Company through his wholly-owned companies and is able to exercise his shareholder’s rights independently. Hence, each of Mr. He, Mr. Lin and Mr. Luo should not be considered as part of the Controlling Shareholders group.
- Each of Mr. Xie, Mr. Yin and Mr. Ge held his respective equity interest in Shenzhen Shanhui through Juntong Investment. Such arrangement allowed them to (i) reduce the costs in setting up their own company to hold their respective interests in Shenzhen Shanhui; and (ii) minimize their time and effort in the administration of their respective interests in Shenzhen Shanhui. Upon completion of the Reorganization, each of them holds equity interests in the Company through his wholly-owned companies and is able to exercise his shareholder’s rights independently. Hence, each of Mr. Xie, Mr. Yin and Mr. Ge (or his estate or heir or beneficiary) should not be considered as part of the Controlling Shareholders group.
- Shanghai Wenwei is the ODI vehicle of Hangzhou Shunying and Shunwei Technology through which they subscribed for our Shares as part of the Reorganization.
- Shanghai Jiaozeng is the ODI vehicle of Jinmi Investment through which Jinmi Investment subscribed for our Shares as part of the Reorganization.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

The consideration of the Subscription Shares shall be settled by:

- (a) in respect of ShanHuiShou BVI, the 12 BVI Shareholders, MGY Wisdom BVI, Shanghai Jiaozeng, World Circulation BVI and Barryspace BVI, the consideration received by the respective shareholder or holding entity of such Subscriber for the disposal of their equity interest in Shenzhen Shanhui (“**Disposal Consideration**”);
- (b) in respect of Shanghai Wenwei, the Disposal Consideration received by Hangzhou Shunying and Shunwei Technology;
- (c) in respect of Zhitou Huifu, the Disposal Consideration received by such entity; and
- (d) in respect of Shanghai Xiuhui, the Disposal Consideration received by Nanhai Growth and additional consideration provided by Shanghai Xiuhui in the amount of RMB50,000,000.

For details of the Disposal Consideration and the relevant disposal, please refer to “Acquisition of Shenzhen Shanhui by Zhejiang Shanhui” in this section below.

### 4.10 Establishment of Zhejiang Shanhui

Zhejiang Shanhui was established in the PRC on November 7, 2023 with an initial registered capital of USD8,000,000. Since the date of its establishment and up to the Latest Practicable Date, Zhejiang Shanhui had been wholly-owned by Shanhui Technology. Zhejiang Shanhui is principally engaged in the provision of consumer electronics trade-in-and-resale services.

### 4.11 Acquisition of Shenzhen Shanhui by Zhejiang Shanhui

On December 28, 2023, pursuant to an equity transfer agreement dated November 17, 2023, Zhejiang Shanhui acquired from the then shareholders of Shenzhen Shanhui, namely Mr. Liu, Mr. Gao, Haimin Xinchun, Juntong Investment, Mr. Chen Jianguo (陳建高), Mr. Wang Shujia (王述嘉), Menggongyuan, Shunwei Technology, Hangzhou Shunying, Jinmi Investment, Nanhai Growth, Flexman (HK), Mr. Duan Liping (段力平), Zhitou Huifu, Ms. Zhu Yongmei (朱永梅), and Fatiao Time, representing approximately 98.18% equity interest in Shenzhen Shanhui at an aggregate consideration of RMB55,767,648.96. The consideration was determined with reference to the valuation of Shenzhen Shanhui as agreed by the then shareholders and our Group in 2021 in contemplation of the Reorganization.

Upon completion of the said equity transfers on December 28, 2023 and up to the Latest Practicable Date, Shenzhen Shanhui’s equity interest was owned as to approximately 98.18% and 1.82% by Zhejiang Shanhui and Mr. Zhang Fulong (張福龍), respectively.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

### 4.12 Series D [REDACTED] Investment

On December 29, 2023, pursuant to the subscription agreement dated the same date, our Company allotted and issued 503,790 Series D-1 Preferred Shares (which will be converted into ordinary Shares on a one-to-one basis by way of re-designation to Shares upon the [REDACTED]) to Anji Guorong BVI, representing approximately 2.33% of the issued share capital of our Company, at a consideration of USD8,000,000. The consideration was mainly determined by the parties after arm’s length negotiation with reference to the revenue of Shenzhen Shanhui for the year ended December 31, 2022 and the then price-to-sales (P/S) ratio of our Group and those of our market comparables. The consideration was fully settled on February 22, 2024. Anji Guorong BVI is owned by Ailiangshan (Tianjin) Enterprise Management Partnership (Limited Partnership) (愛兩山(天津)企業管理合夥企業(有限合夥)) (“**Ailiangshan**”), which is ultimately controlled by the Anji County Finance Bureau (State-owned Assets Supervision and Administration Office of Anji County People’s Government) (安吉縣財政局(安吉縣人民政府國有資產監督管理辦公室)).

### 4.13 Deregistration of inactive companies

Huashun International Holding Co., Limited (“**Huashun International**”) was incorporated in Hong Kong as a limited liability company on May 23, 2019 with an issued share capital of HK\$10,000,000 comprising 10,000,000 shares allotted and issued to Shenzhen Shanhui. Since its incorporation, Huashun International has been inactive and has not carried on any business operation.

Ganzhou Shanhui was established in the PRC as a limited liability company on January 8, 2019 with an initial registered capital of RMB4,000,000 and owned by Shenzhen Shanhui. Ganzhou Shanhui ceased operation and did not have any material contribution to our business operation and financial results during the Track Record Period.

To streamline our corporate structure and as part of the Reorganization, Huashun International and Ganzou Shanhui were deregistered and ceased to be our subsidiaries on January 28, 2022 and January 22, 2024, respectively. Our Directors confirm that each of Huashun International and Ganzhou Shanhui was solvent, was not subject to any pending or unresolved arbitration or legal proceedings, and did not have any material non-compliance under their respective applicable laws immediately prior to their respective dates of deregistration.

### 4.14 Establishment of Shenzhen Xinghe

Shenzhen Xinghe was established in the PRC on May 24, 2024 with an initial registered capital of USD8,000,000. Since the date of its establishment and up to the Latest Practicable Date, Shenzhen Xinghe had been wholly owned by Shanhui Technology and had not commenced any business operation.

### 4.15 Incorporation of PT Shanhui

PT Shanhui was incorporated in Indonesia as a limited liability company on February 9, 2025 with an initial registered capital of Rp10,100,000,000. As of the Latest Practicable Date, PT Shanhui was owned as to 99% and 1% by Shanhui Technology and ShanH Holding, respectively, and had not commenced any business operation.

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

*Notes:*

- (1) For [REDACTED] Investors which had disposed of certain registered capital in Shenzhen Shanhui, their investment amount is adjusted on the following basis:  
The adjusted investment amount shall equal to the total consideration paid by such [REDACTED] Investor multiplied by the ratio of  $\frac{a-b}{a}$ , where:
  - “a” equals to the total amount of registered capital of Shenzhen Shanhui acquired with the total consideration paid by such [REDACTED] Investor; and
  - “b” equals to the total amount of registered capital of Shenzhen Shanhui disposed of by such [REDACTED] Investor prior to the acquisition of Shenzhen Shanhui by Zhejiang Shanhui (step 4.11 of the Reorganization).
- (2) For illustration purposes only, assuming the mid-point of the indicative [REDACTED] range of HK\$[REDACTED] and HK\$[REDACTED], on the basis of the enlarged issued share capital of our Company immediately upon completion of the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED] and any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme).
- (3) Based on the number of Shares held by each of the [REDACTED] Investors and the total number of Shares in issue upon completion of the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED] and any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme).
- (4) Each of Mr. Xie Siyin (謝思引), Mr. Yin Xuejun (尹學軍) and Mr. Ge Dong (葛東) held his respective equity interest in Shenzhen Shanhui through Juntong Investment, which was owned as to 10.92% by Mr. Liu as the general partner and as to 51.12%, 22.80% and 15.16% by Mr. Xie, Mr. Yin and Mr. Ge, respectively, as the limited partners. As a part of the Reorganization, SHS Blooming BVI, SHS Flash BVI, SHS Prosperity BVI were incorporated in the BVI to act as the holding companies for Mr. Xie, Mr. Yin and Mr. Ge, which held 1.28%, 0.57% and 0.38% of the issued share capital of our Company immediately before the [REDACTED] and the [REDACTED], and will hold [REDACTED]%, [REDACTED]% and [REDACTED]% of the issued share capital of our Company after the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED] and any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme).
- (5) Based on the aggregate interests in Juntong Investment held by Mr. Xie, Mr. Yin and the estate of Mr. Ge as limited partners (i.e. 89.08%).
- (6) Hangzhou Shunying and Shunwei Technology, which are controlled by the same general partner, hold their equity interests in our Company together through the same ODI vehicle, Shanghai Wenwei.

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 5.1 Information regarding the [REDACTED] Investors

Set out below is the background information of our [REDACTED] Investors who either remained as a Shareholder or through another entity, subscribed for Shares in our Company as part of the Reorganization as of the Latest Practicable Date. For details of relationship between Shareholders of our Company and shareholders of Shenzhen Shanhui, please refer to “4.9 Subscription of Shares by Long Shining BVI” in this section.

#### *Mr. Xie Siyin (謝思引) Mr. Yin Xuejun (尹學軍) and Mr. Ge Dong (葛東)*

Mr. Xie Siyin (謝思引) has been employed as a data operation engineer at Shenzhen Timesbole Venture Capital Investment Management Co., Ltd. (深圳市時代伯樂創業投資管理有限公司) from March 2017. Mr. Xie Siyin (謝思引) is a friend of Mr. Liu.

Mr. Yin Xuejun (尹學軍) has served as the chief executive officer at Shenzhen Lianxunda Co., Ltd. (深圳市連訊達電子技術開發有限公司) from August 1998. Mr. Yin Xuejun (尹學軍) is a friend of Mr. Liu.

Mr. Ge Dong (葛東) served as the deputy general manager at Dataa Technology (Beijing) Co., Ltd. (達闡科技(北京)有限公司). Mr. Ge Dong (葛東) was a friend of Mr. Liu. Mr. Ge passed away in 2024, and as of the Latest Practicable Date, SHS Prosperity BVI belongs to Mr. Ge’s estate.

Juntong Investment is a limited partnership established in the PRC on March 9, 2017. Juntong Investment was established for the purpose of holding equity interest in Shenzhen Shanhui for Mr. Liu, Mr. Xie, Mr. Yin and Mr. Ge. Immediately prior to the completion of the Reorganization, each of Mr. Xie, Mr. Yin and Mr. Ge held his respective interests in Shenzhen Shanhui through Juntong Investment.

#### *Mr. Zhang Fulong (張福龍)*

Mr. Zhang Fulong (張福龍) has served as chairman of Shenzhen Yintaifu Holding Co., Ltd. (深圳市銀泰福控股有限公司) from January 2017. Mr. Zhang Fulong (張福龍) is a friend of Mr. Liu. Mr. Zhang Fulong (張福龍)’s equity interest in Shenzhen Shanhui has been judicially frozen by Jishou City People’s Court, Hunan Province since November 2021 due to a litigation case involving him. As confirmed by our Directors and as advised by our PRC Legal Advisor, on the basis that Mr. Zhang’s equity interest in Shenzhen Shanhui is no more than 2%, the fact that the frozen equity interest was not released as of the Latest Practicable Date has no material adverse impact on our ability to carry out corporate actions in Shenzhen Shanhui, including convening shareholders’ general meetings. The Directors further confirm that (i) the fact that the frozen equity interest was not released as of the Latest Practicable Date has no material adverse impact on the [REDACTED] and [REDACTED]; (ii) none of the litigation case and any facts concerning the litigation case were related to our Group, including its shareholders (save for Mr. Zhang), directors, senior management and/or their respective associates; (iii) Mr. Zhang is merely a passive investor and has not been involved in the

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

management or operation of our Group; (iv) Mr. Zhang did not and does not hold any directorship in Shenzhen Shanhui or any group companies within our Group; and (v) Mr. Zhang did not and does not have any influence over the management of our Group and has never exerted any influence on our Group’s operation or the management team.

### *Mr. Chen Jiango (陳建高)*

Mr. Chen Jiango (陳建高) currently serves as the supervisor of Shanghai Kedi Electric Appliance Co., Ltd. (上海科的電器有限公司). Mr. Chen Jiango (陳建高) became acquainted with our Group through the introduction of Mr. Liu.

### *Mr. Wang Shujia (王述嘉)*

Mr. Wang Shujia (王述嘉) has been a freelance since graduated from Mianhu Middle School in 2010. Mr. Wang Shujia (王述嘉) became acquainted with our Group through the introduction of Mr. Liu.

### *Jinmi Investment and Shanghai Jiaozeng*

Jinmi Investment is a limited partnership established in the PRC on July 16, 2014 and is engaged in the equity investment in industries such as electronics, technology and the Internet. Jinmi Investment is owned as to 86.20% by its general partner, Tianjin Jinxing Investment Co., Ltd. (天津金星創業投資有限公司) (“**Tianjin Jinxing**”), which is wholly owned by Xiaomi Inc. (小米科技有限責任公司), which is in turn controlled by Xiaomi Corporation, a company listed on the Stock Exchange (stock code: 1810) and as to 13.80% by its limited partner, Tianjin Zhongmi Enterprise Management Partnership (Limited Partnership) (天津眾米企業管理合夥企業(有限合夥)), whose general partner is Tianjin Jinxing.

Shanghai Jiaozeng is the ODI vehicle of Jinmi Investment through which Jinmi Investment subscribed for our Shares as part of the Reorganization. Shanghai Jiaozeng is owned as to 0.09% by Beijing Xiaomi Software Technology Co., Ltd. (“**Beijing Xiaomi**”) (北京小米軟件技術有限公司) as its general partner, and as to 99.91% by Jinmi Investment as its limited partner. Beijing Xiaomi is wholly owned by Xiaomi H.K. Limited, which is ultimately controlled by Xiaomi Corporation, a company listed on the Main Board of the Stock Exchange (Stock Code: 1810), whose ultimate controlling shareholder is Mr. Lei Jun (雷軍) (“**Mr. Lei**”). By virtue of the SFO, Mr. Lei is deemed to be interested in the Shares owned by Shanghai Jiaozeng. Mr. Jiang Wen (蔣文) is our non-executive Director nominated by Shanghai Jiaozeng. For details of Mr. Jiang, see “Directors and Senior Management – Board of Directors – Non-executive Director”.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

### *Hangzhou Shunying, Shunwei Technology, and Shanghai Wenwei*

Hangzhou Shunying is a limited partnership established in the PRC on June 16, 2016 and is principally engaged in equity investment. The general partner of Hangzhou Shunying is Lhasa Economic and Technological Development Zone Shunchuang Venture Capital Partnership (Limited Partnership) (拉薩經濟技術開發區順創創業投資合夥企業(有限合夥)) (“**Lhasa Shunchuang Venture Capital**”) (holding approximately 7.46% of the partnership interest), which is owned as to 1.64% by its general partner, Lhasa Economic and Technology Development Zone Shunchuang Capital Management Co., Limited (拉薩經濟技術開發區順創資本管理有限公司) (“**Lhasa Shunchuang Capital Management**”) and as to 98.36% by Zhang Tong (張彤) (“**Ms. Zhang**”), an Independent Third Party and the spouse of Mr. Lei. Lhasa Shunchuang Capital Management is owned as to 34% by Ma Wenjing (馬文靜), as to 33% by Mr. Lei, and as to 33% by Cao Liping (曹莉平), all being Independent Third Parties. Hangzhou Shunying has 27 limited partners which are all Independent Third Parties, and none of the limited partners holds more than one-third of the partnership interests. Among the limited partners, Ms. Zhang and Ma Wenjing (馬文靜) hold approximately 3.73% and 1.16% interest in Hangzhou Shunying, respectively, and Shanghai Chenkuang Investment Center (Limited Partnership) (上海辰曠投資中心(有限合夥)) (holding approximately 1.12% interest in Hangzhou Shunying) and Shanghai Chenshi Investment Center (Limited Partnership) (上海辰釋投資中心(有限合夥)) (holding approximately 0.12% interest in Hangzhou Shunying) have the same general partner. To the knowledge of Hangzhou Shunying, save as disclosed above, its limited partners are independent from each other.

Shunwei Technology is a limited partnership established in the PRC on May 26, 2016 and is principally engaged in equity investment in high-tech enterprises and related consulting services. The general partner of Shunwei Technology is Lhasa Shunchuang Venture Capital (holding 0.2% of the partnership interest). Shunwei Technology has three limited partners which are all Independent Third Parties, namely Hangzhou Shunying (holding 51.8% of the partnership interest), Taikang Life Insurance Co., Ltd. (泰康人壽保險有限責任公司) (holding 40% of the partnership interest) and Delong Steel Co., Ltd. (德龍鋼鐵有限公司) (holding 8% of the partnership interest). To the knowledge of Shunwei Technology, its limited partners are independent from each other.

Shanghai Wenwei is the ODI vehicle of Hangzhou Shunying and Shunwei Technology through which they subscribed for our Shares as part of the Reorganization. Shanghai Wenwei is owned as to RMB1 of the partnership interest by its general partner, Lhasa Shunchuang Venture Capital, as to RMB61,611,158 of the partnership interest by Hangzhou Shunying and as to RMB27,288,842 of the partnership interest by Shunwei Technology. Both Hangzhou Shunying and Shunwei Technology are controlled by Lhasa Shunchuang Capital Management, which was in turn owned as to 34% by Ma Wenjing (馬文靜), as to 33% by Mr. Lei, and as to 33% by Cao Liping (曹莉平). As confirmed by Shanghai Wenwei and according to the articles of association of Lhasa Shunchuang Capital Management, none of the shareholders of Lhasa Shunchuang Capital Management has unilateral control or can exercise control over Lhasa Shunchuang Capital Management. Nevertheless, by virtue of the SFO, Mr Lei is deemed to be interested in the Shares held by Shanghai Wenwei.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

Jinmi Investment, Hangzhou Shunying and Shunwei Technology are active investment funds regulated by Asset Management Association of China (中國證券投資基金業協會). As of the Latest Practicable Date, Jinmi Investment, Hangzhou Shunying and Shunwei Technology, had over 100, about 30 and about 10 companies in their investment portfolios, respectively. To the knowledge of the Directors:

- (a) Jinmi Investment and Hangzhou Shunying have co-investments in five companies, with an aggregate shareholding in each company of not exceeding 30%, and Jinmi Investment and Hangzhou Shunying maintain independence in decision-making when voting as shareholders of these co-invested companies;
- (b) Jinmi Investment and Shunwei Technology do not have any co-investments; and
- (c) Shunwei Technology and Hangzhou Shunying have co-investments in about ten companies, which include Shanghai Wenwei.

To the knowledge of the Directors, save as disclosed above, there is no other joint investment among Jinmi Investment, Hangzhou Shunying and Shunwei Technology.

To the knowledge of our Directors, the ODI vehicle of Jinmi Investment (i.e. Shanghai Jiaozeng) and the ODI vehicle of Hangzhou Shunying and Shunwei Technology (i.e. Shanghai Wenwei) are independent from each other. However, as mentioned above and by virtue of the SFO, Mr. Lei is deemed to be interested in the Shares held by Shanghai Jiaozeng and is deemed to be interested in the Shares held by Shanghai Wenwei, and the aggregated shareholdings of Shanghai Jiaozeng and Shanghai Wenwei will be [REDACTED]% of the total issued Shares immediately upon the completion of the [REDACTED] (assuming the [REDACTED] is not exercised). For more details, please refer to “Substantial Shareholders” in this document.

### ***Mr. Duan Liping (段力平)***

Mr. Duan Liping (段力平) has retired from Nanchang Kaisheng Electronics Co., Ltd. (南昌凱勝電子有限公司) after serving as a general manager from September 2012 to February 2022. Mr. Duan Liping (段力平) became acquainted with our Group through the introduction of Mr. Liu.

### ***Nanhai Growth***

Nanhai Growth is a limited partnership established in the PRC on July 20, 2017 and is principally engaged in the equity investment. Nanhai Growth has 14 limited partners which are all Independent Third Parties, and none of the limited partners holds more than one third of partnership interests. As confirmed by Nanhai Growth, its limited partners are independent from each other. Nanhai Growth is owned as to 1.56% by Cowin Jinxiu Capital Firm (深圳同創錦繡資產管理有限公司) as the general partner, which is in turn wholly owned by Shenzhen Cowin Asset Management Co., Ltd. (深圳同創偉業資產管理股份有限公司) (“**Cowin**”), a company listed on the National Equities Exchange and Quotations (stock code: 832793).

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

Cowin is owned as to 35.01% by Shenzhen Co-win Venture Capital Investments Limited (深圳市同創偉業創業投資有限公司), which is in turn owned as to 55% by Ms. Huang Li (黃荔) and as to 45% by Mr. Zheng Weihe (鄭偉鶴), both being Independent Third Parties.

Nanhai Growth became acquainted with our Group through our participation in an industry conference.

Shanghai Xiuhui is the ODI vehicle of Nanhai Growth through which Nanhai Growth subscribed for our Shares as part of the Reorganization. Shanghai Xiuhui is owned as to 1.23% by Xinyu Tongchuang Selected Investment Management Co., Ltd. (“**Xinyu Tongchuang**”) (新余同創精選投資管理有限公司) as its general partner, and as to 98.77% by Nanhai Growth as its limited partner. Xinyu Tongchuang is wholly owned by Cowin, which is owned as to 35.01% by Shenzhen Co-win Venture Capital Investments Limited (深圳市同創偉業創業投資有限公司), which is in turn owned as to 55% by Ms. Huang Li (黃荔), and as to 45% by Mr. Zheng Weihe (鄭偉鶴), both being Independent Third Parties.

### ***Zhitou Huifu***

Zhitou Huifu is a limited partnership established in the PRC on April 1, 2021 and is principally engaged in the equity investment. Zhitou Huifu is owned as to 22.85% by Shenzhen Smart City Industry Investment Private Equity Fund Management Co., Ltd (深圳市智慧城市產投私募基金管理有限公司), a state-owned company whose ultimate beneficial owner is the State-owned Assets Supervision and Administration Commission of Shenzhen Municipal People’s Government (深圳市人民政府國有資產監督管理委員會), as the general partner, and as to 77.15% by Huang Juanyong (黃隽永), an Independent Third Party, as the limited partner.

Zhitou Huifu became acquainted with our Group through the introduction of Nanhai Growth, one of our [REDACTED] Investors.

### ***Fatiao Time***

Fatiao Time is a limited company established in the PRC on May 17, 2019 and is principally engaged in the information technology promotion and network technology. Fatiao Time is wholly owned by Beijing Zhuanzhuan Spirit Technology Co., Ltd. (北京轉轉精神科技有限責任公司), which is controlled by Zhuan Spirit Holdings Limited. Fatiao Time initially invested in our Group through acquisition of equity interest in Shenzhen Shanhui from Jinmi Investment, Hangzhou Shunying and Shunwei Technology in 2021.

### ***Ms. Zhu Yongmei (朱永梅)***

Ms. Zhu Yongmei (朱永梅) has over 25 years of experience in the legal industry. Ms. Zhu has served as an associate of Grandall Law Firm (Shanghai) since January 1999 and joined as an associate of Grandall Law Firm (Shenzhen) in August 2000, and subsequently promoted as a partner. Ms. Zhu Yongmei (朱永梅) became acquainted with our Group through the introduction of Mr. Liu.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

### *Flexman (HK)*

Flexman (HK) was incorporated in Hong Kong as a limited liability company on August 27, 2021 with an issued share capital of HK\$1 comprising one share allotted and issued to Ms. Yuen Shuk Ying (袁淑盈) at an issue price of HK\$1 per share. Ms. Yuen became acquainted with our Group through the introduction of Mr. Liu. Ms. Yuen has business network in the relevant industry and is expected to bring business synergy and potential business opportunities to our Group.

### *Long Shining BVI*

Long Shining BVI was incorporated in the British Virgin Islands on February 18, 2005 with an issued share capital of US\$2.0 comprising one share allotted and issued to Mr. Wu Ching Ho (胡清河), and one share allotted and issued to his spouse, Ms. Pang Hiu Mui (彭曉梅). Mr. Wu is a private investor who has experience in trading of phone accessories and became acquainted with our Group through Mr. Duan Liping (段力平), one of our [REDACTED] Investors. Mr. Wu became interested in the business of our Group and therefore decided to invest in our Group.

### *Anji Guorong BVI*

Anji Guorong BVI was incorporated in the British Virgin Islands on August 11, 2023 with an issued share capital of US\$1.0 comprising one share allotted and issued to Ailiangshan. Ailiangshan is ultimately controlled by the Anji County Finance Bureau (State-owned Assets Supervision and Administration Office of Anji County People’s Government) (安吉縣財政局(安吉縣人民政府國有資產監督管理辦公室)). Anji Guorong BVI became acquainted with our Group in a business invitation activity.

Save as disclosed in this document, each of the [REDACTED] Investors is an Independent Third Party.

## **5.2 Use of Proceeds from [REDACTED] Investments**

As of the Latest Practicable Date, the funds raised from the [REDACTED] Investments (other than the Series-D [REDACTED] Investment) had been fully utilized and applied by us for general working purposes. We intend to apply the proceeds from the Series-D [REDACTED] Investment to our general working capital and expenses incurred for our financing activities.

## **5.3 Special Rights of the [REDACTED] Investors**

Pursuant to the subscription agreements and shareholders agreement entered into by our Company and our [REDACTED] Investors, special rights including, among others, veto right, right of first offer, pre-emptive rights, redemption right, anti-dilution right, tag-along and drag-along rights, no more favourable terms and information rights (collectively, the “**Special Rights**”) had been granted to some of our [REDACTED] Investors.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

Pursuant to the shareholders agreement entered into by our Company and the relevant [REDACTED] Investors, each of the parties agreed that (i) the redemption right shall be suspended on the date of submission of the first [REDACTED] by our Company for the purpose of a qualified [REDACTED] (i.e. the [REDACTED] application), with such right being terminated on the effective date of the Articles or resuming automatically if the [REDACTED] application is withdrawn, rejected or not completed within a prescribed period of time; and (ii) the Special Rights shall be terminated immediately prior to the completion of a qualified [REDACTED] of the Company, which includes the [REDACTED], provided that the Special Rights shall automatically be reinstated if the application for the qualified [REDACTED] is withdrawn, rejected or terminated.

A “qualified [REDACTED]” is defined as the [REDACTED] of our Shares on the Main Board or the Science and Technology Innovation Board of the Shanghai Stock Exchange, the Main Board or the ChiNext Market of the Shenzhen Stock Exchange, the National Association of Securities Dealers Automated Quotations (NASDAQ), the New York Stock Exchange or the Main Board of the Stock Exchange or any other stock exchange located in a jurisdiction outside of the PRC and approved by the relevant [REDACTED] Investors with an agreed valuation.

### 5.4 Strategic Benefits from [REDACTED] Investors

At the time of the [REDACTED] Investments, our Directors were of the view that our Company could benefit from the additional capital provided by the [REDACTED] Investors’ investments in our Company, as well as the [REDACTED] Investors’ valuable resources and/or their business connection and technical expertise that align with our business strategies, which may contribute to our future business growth. Our Directors were also of the view that our Company could benefit from the [REDACTED] Investors’ commitment to our Company as their investment demonstrates their confidence in the operations of our Group and serves as an endorsement of Company’s performance, strength and prospects.

### 5.5 Lock-up

The Shares held by each of the [REDACTED] Investors will not be subject to any lock-up after [REDACTED].

### 5.6 Public float

The Shares held by the [REDACTED] investors will be counted as part of the public float upon [REDACTED] as (i) each of them is not a core connected person of our Company; (ii) the subscriptions of their respective equity interests in the Shares were not financed directly or indirectly by any core connected person of our Company; and (iii) each of them and their respective ultimate beneficial owners are not accustomed to take instructions from a core connected person in relation to the subscriptions, disposals, voting or other dispositions of securities of our Company registered in their names or otherwise held by them.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

Upon the completion of the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED] and any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme), Shares held by the following Shareholders will not be counted towards the public float for the purpose of Rule 8.08 of the Listing Rules:

- ShanHuiShou BVI, one of our Controlling Shareholders and a company wholly owned by Mr. Liu, holding approximately [REDACTED]% of the issued share capital of our Company;
- MGY Wisdom BVI, one of our Controlling Shareholders and a company owned as to 80% by ShanHuiShou BVI and as to 20% by MGY Alliance BVI, holding approximately [REDACTED]% of the issued share capital of our Company;
- MGY Alliance BVI, one of our Controlling Shareholders and a company wholly owned by Ms. Yu, our executive Director, holding approximately [REDACTED]% of the issued share capital of our Company;
- Flash Recycle BVI, a company wholly owned by Mr. He, our executive Director, holding approximately [REDACTED]% of the issued share capital of our Company; and
- Lightning Recycle BVI, a company wholly owned by Mr. Lin, our executive Director, holding approximately [REDACTED]% of the issued share capital of our Company.

Except as stated above, the Shares held by the other Shareholders will constitute part of the public float. Accordingly, taking into account the Shares to be issued pursuant to the [REDACTED] (assuming the [REDACTED] is not exercised), approximately [REDACTED]% of the issued share capital of our Company will be counted towards the public float of our Company upon [REDACTED].

### 5.7 Sole Sponsor’s View

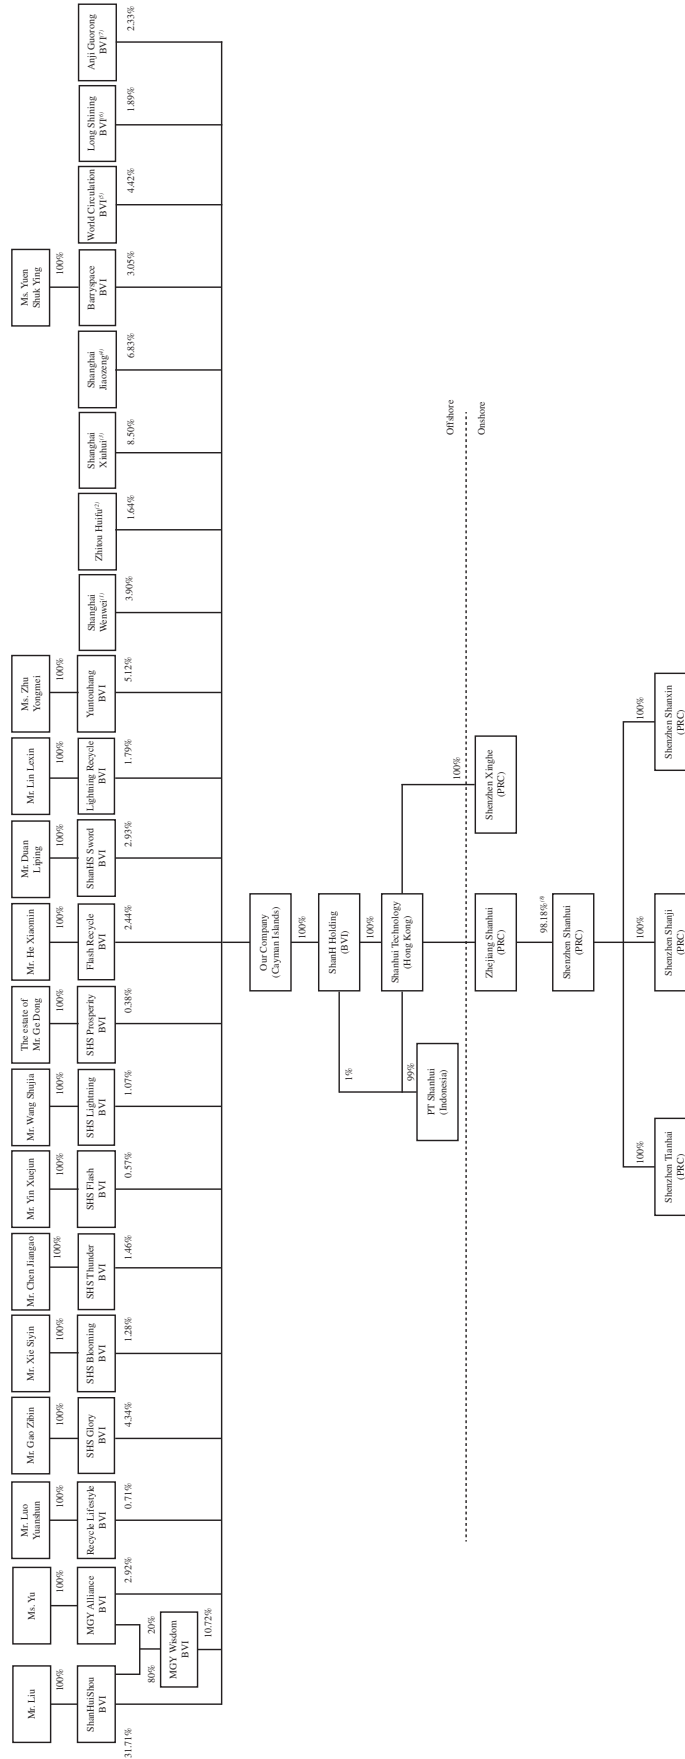

The Sole Sponsor has confirmed that the [REDACTED] Investments are in compliance with section 4.2 of the Guide issued by the Stock Exchange as (i) the [REDACTED], being the first day of [REDACTED] of the Shares on the Stock Exchange, will take place no earlier than 120 clear days after the funds of the relevant [REDACTED] Investments have been irrevocably settled; and (ii) the redemption right would be suspended with effect from the date of the [REDACTED] application and all special rights granted would be terminated with effect immediately prior to the completion of the [REDACTED].

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 6. CORPORATE STRUCTURE BEFORE THE [REDACTED]

The following chart sets forth our Group's corporate and shareholding structure after the Reorganization and the [REDACTED] Investments, but before the completion of the [REDACTED] and the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED] and any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme):

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### Notes

1. Shanghai Wenwei is controlled by Lhasa Shunchuang Capital Management, and there is no single shareholder of Lhasa Shunchuang Capital Management who has unilateral control or can exercise control over Lhasa Shunchuang Capital Management. Shanghai Wenwei is the ODI vehicle through which Hangzhou Shunying and Shunwei Technology subscribed for our Shares as part of the Reorganization. Please refer to “– 5.1 Information regarding the [REDACTED] Investors – Hangzhou Shunying, Shunwei Technology and Shanghai Wenwei” in this section.
2. Zhitou Huiifu is ultimately controlled by the State-owned Assets Supervision and Administration Commission of Shenzhen Municipal People’s Government (深圳市人民政府國有資產監督管理委員會). Please refer to “– 5.1 Information regarding the [REDACTED] Investors – Zhitou Huiifu” in this section.
3. Shanghai Xiuhui is ultimately controlled by Ms. Huang Li (黃荔) and Mr. Zheng Weihe (鄭偉鶴), both being Independent Third Parties. Shanghai Xiuhui is a PRC-established entity through which Nanhai Growth subscribed for our Shares as part of the Reorganization. Please refer to “– 5.1 Information regarding the [REDACTED] Investors – Nanhai Growth” in this section.
4. Shanghai Jiaozeng is ultimately controlled by Xiaomi Corporation, a company listed on the Main Board of the Stock Exchange (Stock Code: 1810), whose ultimate controlling shareholder is Mr. Lei. Shanghai Jiaozeng is the ODI vehicle through which Jinmi Investment subscribed for our Shares as part of the Reorganization. Please refer to “– 5.1 Information regarding the [REDACTED] Investors – Jinmi Investment and Shanghai Jiaozeng” in this section.
5. World Circulation is ultimately controlled by Zhuan Spirit Holdings Limited. World Circulation is a BVI incorporated entity through which Fatiao Time subscribed for our Shares as part of the Reorganization. Please refer to “– 5.1 Information regarding the [REDACTED] Investors – Fatiao Time” in this section.
6. Long Shining BVI is ultimately controlled by Mr. Wu Ching Ho (胡清河) and Ms. Pang Hiu Mui (彭曉梅). Please refer to “– 5.1 Information regarding the [REDACTED] Investors – Long Shining BVI” in this section.
7. Anji Guorong BVI is ultimately controlled by Anji County Finance Bureau (State owned Assets Supervision and Administration Office of Anji County People’s Government) (安吉縣財政局(安吉縣人民政府國有資產監督管理辦公室)). Please refer to “– 5.1 Information regarding the [REDACTED] Investors – Anji Guorong BVI” in this section.
8. The remaining equity interest in Shenzhen Shanhui of approximately 1.82% is owned by Mr. Zhang Fulong (張福龍). For background information of Mr. Zhang, please refer to “– 5.1 Information regarding the [REDACTED] Investors” in this section.

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

### 7. [REDACTED] AND THE [REDACTED]

On [●], our Company increased its authorized share capital from HK\$380,000 divided into 38,000,000 Shares of HK\$0.01 each to HK\$[REDACTED] divided into [REDACTED] Shares of HK\$0.01 each through the creation of [REDACTED] additional Shares. Such Shares shall rank *pari passu* in all respects with the existing issued Shares.

Conditional upon the crediting of our Company’s share premium account as a result of the issue of the [REDACTED] pursuant to the [REDACTED], our Directors are authorized to capitalise an amount of HK\$[REDACTED] standing to the credit of the share premium account of our Company by applying such sum towards the paying up in full at par a total of [REDACTED] Shares for allotment and issuance to our Shareholders immediately prior to the [REDACTED], on a pro rata basis.

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

### 9. PRC REGULATORY REQUIREMENTS

Our PRC Legal Advisor has confirmed that all necessary approvals and permits from the relevant PRC regulatory authorities and the relevant PRC legal procedures required for all the equity transfers and changes in registered capital in respect of (i) our PRC subsidiaries and (ii) the Reorganization steps as described above have been obtained and completed, respectively, in compliance with the applicable PRC laws and regulations.

#### M&A Rules

Under the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors (《關於外國投資者併購境內企業的規定》) (the “**M&A Rules**”), a foreign investor is required to comply with the M&A Rules when (i) a foreign investor acquires equity in a domestic non-foreign invested enterprise, thereby converting it into a foreign-invested enterprise, or subscribes for new equity in a domestic enterprise via an increase of registered capital, thereby converting it into a foreign-invested enterprise; or (ii) a foreign investor establishes a foreign-invested enterprise which purchases and operates the assets of a domestic enterprise, or which purchases the assets of a domestic enterprise and injects those assets to establish a foreign-invested enterprise. According to Article 11 of the M&A Rules, where a domestic company or enterprise, or a domestic natural person, through an overseas company established or controlled by it/him, acquires a domestic company which is related to or connected with it/him, approval from MOFCOM is required.

Since Ms. Yuen Shuk Ying (袁淑盈), the then ultimate controlling shareholder of Flexman (HK), is a Hong Kong permanent resident rather than a domestic natural person as defined under the M&A Rules, Article 11 of the M&A Rules is not applicable to the Flexman (HK) Subscription. After completion of the Flexman (HK) Subscription, Shenzhen Shanhui became a foreign-invested enterprise. For the subsequent acquisition of approximately 98.18% equity interest in Shenzhen Shanhui by Zhejiang Shanhui from the then shareholders, namely Mr. Liu, Mr. Gao Zibin (高自斌), Mr. Chen Jiangaao (陳建高), Mr. Wang Shujia (王述嘉), Menggongyuan, Juntong Investment, Haimin Xinshun, Mr. Duan Liping (段力平), Ms. Zhu Yongmei (朱永梅), Jinmi Investment, Hangzhou Shunying, Shunwei Technology, Nanhai Growth, Zhitou Huifu, Fatiao Time and Flexman (HK) (the “**Zhejiang Shanhui Acquisition**”), we were advised by our PRC Legal Advisor that since Shenzhen Shanhui was a foreign-invested enterprise when the Zhejiang Shanhui Acquisition took place, Article 11 of the M&A Rules are not applicable to the Zhejiang Shanhui Acquisition.

#### SAFE and ODI Registration

Pursuant to the SAFE Circular 37, a PRC resident is required to register with the local branch of SAFE before he contributes legal assets or equity interests in China or overseas in an overseas special purpose vehicle which is directly established or indirectly controlled by the PRC resident for the purpose of overseas investment or financing. Pursuant to the Administrative Measures on Overseas Investments by Enterprises (《企業境外投資管理辦法》) and Administrative Measures on Overseas Investments (《境外投資管理辦法》) (the

---

## HISTORY, REORGANIZATION AND CORPORATE STRUCTURE

---

“ODI Rules”), a domestic institution shall undergo registration procedures for foreign investment in accordance with the provisions of the ODI Rules, which require the domestic institution to register with the relevant authorities prior to its overseas direct investment and obtain the relevant records, approvals, certificates or permits.

Pursuant to the SAFE Circular 13, the foreign exchange registration approval under the overseas direct investment by SAFE has been cancelled. The aforesaid registration shall be directly reviewed and handled by qualified banks in accordance with the SAFE Circular 13, and SAFE and its branches shall perform indirect regulation over the foreign exchange registration via qualified banks.

As advised by our PRC Legal Advisor, the ultimate shareholders of our Company who are PRC residents, namely, Mr. Liu and the 12 Individual Shareholders, have completed the foreign exchange registrations on November 24, 2021 respectively in compliance with the SAFE Circular 37 and the SAFE Circular 13 in relation to their offshore investments as PRC residents, and the shareholders of our Company which are PRC entities, namely Shanghai Wenwei, Shanghai Jiaozeng, Shanghai Xiuhui and Zhitou Huifu, have completed the overseas direct investment registration on April 4, 2023 and April 11, 2023 in compliance with the ODI Rules in relation to their offshore investments as domestic institutions.

---

## BUSINESS

---

### OVERVIEW

We are a PRC company engaged in providing consumer electronics recycling services with a focus on pre-owned mobile phones. According to Frost & Sullivan, we were the third largest mobile phone recycling service provider in the PRC, both in terms of the total transaction value of pre-owned mobile phones recycled and the total transaction value of pre-owned mobile phone sold in 2024, with a market share of approximately 1.3% and 1.3%, respectively.

We have been focusing on offering an integrated solution from initiating recycling by way of trade-in while facilitating sale of new mobile phones, to standardizing the procured pre-owned mobile phones for resale, leveraging our proprietary inspecting, grading and pricing technologies and recycling and sales online platforms and our strategic cooperation with our upstream sourcing partners, including mainstream consumer electronic brands, such as Xiaomi, Samsung, Huawei, Honor, Vivo, and their designated distributors, sizable merchants for consumer electronic products and major mobile network operators in the PRC. The concept and business model of pre-owned consumer electronics trade-in are still in their early stage of development in the PRC. Although there has already been a rapid growth of the PRC mobile phone recycling rate from approximately 10% in 2020 to approximately 17.1% in 2024, there is still plenty of room for improvement and huge potential to grow as compared to the mobile phone recycling rate ranging from 55% to 75% in the developed markets in 2024. We believe that our business and services address how recycling of pre-owned consumer electronics by way of trade-in could be able to achieve a “win-win” solution for individual consumers, upstream sourcing partners and downstream second-hand mobile phone purchasers, while being devoted to extending the life cycle of consumer electronics and reducing electronic waste.

Possessing the mindset of industrial internet, we have been, throughout the years, improving and refining the digitalized infrastructure of trade-in recycling transaction services of pre-owned consumer electronics with our digital solution integrating every step of the value chain in the trade-in process. Our digitalized infrastructure is further empowered by our end-to-end coverage over the consumer electronics transaction service market, from sourcing supply of pre-owned consumer electronics to processing such devices to facilitating the sales demand. We primarily obtain supply of pre-owned consumer electronics from trade-ins transacted in the retail stores of our upstream sourcing partners using our recycling system, Shanhuishou (閃回收), where individual consumers, who are our ultimate suppliers, purchase new consumer electronics by trading in their pre-owned consumer electronics as part of the payment. We then process these procured pre-owned consumer electronics for resale leveraging our proprietary inspection, grading and pricing technologies in our inspection and operation centers, and efficiently distribute such to a variety of buyers in the second-hand consumer electronic market primarily through our online platform, Shanhui Youpin (閃回有品) and our own online stores operated on various third-party e-commerce platforms. Leveraging our established position in the PRC mobile phone recycling service market and our understanding of the needs and preferences of buyers in the second-hand consumer electronics market, we have also been engaged in the corporate recycling and offline sale to handle consumer

---

## BUSINESS

---

electronics in bulk to satisfy the business needs of our upstream business partners and customers. In addition, we also provide value-added and after-sale services to participants across the upstream and downstream value chain.

We believe our business and services benefit the business operations of our upstream sourcing partners by providing value-added services to them. While we procure pre-owned consumer electronics through the channels of our upstream sourcing partners by offering them with our trade-in solution, we also, at the same time, facilitate our upstream sourcing partners to increase the sale of their new models of mobile phones. In particular, we believe that our service offerings also provide insights to our upstream sourcing partners with respect to the existing market of certain mainstream consumer electronic brands and consumers’ preference, which in turn, helped them to conduct strategic planning and sales development. As such, strong performances of our upstream sourcing partners had brought us more trade-in transactions and stable supply of quality pre-owned consumer electronics, which were over one million units for each year during the Track Record Period. Moreover, during the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis. The aggregate mobile phone shipment of the seven mainstream consumer electronic brands which we cooperated with during the Track Record Period accounted for approximately 82% of the total PRC mobile phone shipment in 2024. Further, through collaborating with our upstream sourcing partners and jointly design the trade-in policies and develop promotion plans with certain mainstream consumer electronic brands, we help lower the threshold for individual consumers to obtain a new mobile phone, shorten their mobile phone replacement cycle, and stimulate new sales for our upstream sourcing partners as we provide satisfactory quotes for the pre-owned mobile phone traded-in, which have proven to be well recognized by the individual consumers, who are able to enjoy their desired mobile phones at a discounted price.

In late 2023, driven by the strong demands of certain mainstream consumer electronic brands we cooperate with, we have extended our partnership and recycling transaction services into Hong Kong to facilitate their local business needs and development. In October 2023, we successfully obtained Radio Dealers Licence (Unrestricted) (無線電商牌照) in Hong Kong. Furthermore, in September and December 2023, we opened up our first and second retail store in Shenzhen under our brand name of Shanhui Youpin (閃回有品) to conduct both recycling and sale services of pre-own consumer electronics. We believe that our offline presence will strengthen our brand awareness among individual consumers, which will help us expand the spectrum and increase the depth of our services we provide to them, and eventually attract more buyers and sellers to our ecosystem.

We believe that our business services have helped reshape the value chain for participants in the pre-owned consumer electronics transaction service market. We are capable of not only boosting sales of new consumer electronics for our upstream sourcing partners, but also satisfying the diversified demands and needs of downstream customers who look for value in obtaining pre-owned consumer electronics, which makes us an outstanding service provider in the business of pre-owned consumer electronics transaction services in the PRC. Furthermore, given the ESG requirements imposed on Chinese companies by the PRC government and the

---

## BUSINESS

---

national goal of achieving carbon neutrality, electronic manufacturers and mobile network operators are increasingly incentivized to build and develop their trade-in network in order to comply with relevant regulations. Since our inception, we have aimed to address environmental problems while achieving commercial success by giving a second life to pre-owned consumer electronic goods. Our business services therefore would have the effect of reducing electronic waste by prolonging the life cycle of consumer electronics, contributing to the reduction of carbon emission and the efficient reuse of resources, which is environmentally friendly and socially beneficial.

In 2024, we received the Contribution to Green and Low Carbon Development Co-operation Award (踐行綠色低碳發展合作貢獻獎) issued by China Mobile Limited (中國移動有限公司). In 2023, we were recognized as WISE2023 King of Future Business Potential-Annual New Economy High Growth Enterprise (WISE2023未來商業潛力之王年度新經濟高成長企業) by 36Kr Holdings Inc. In 2022, we received the award of “The Most Socially Impactful Start-Up in China (中國最具社會影響力的創業公司)” issued by Fortune, and in 2021, we received the award of “National Consumer Satisfaction Brand (全國消費者放心滿意品牌)” jointly issued by China’s Product Quality Certification Supervision and Management Center and China Brand Enterprise Evaluation Management Committee. We also participated in the drafting of a series of industry standards relating to the testing, inspecting and evaluation methods of recyclable mobile communication terminal led by the Telecommunications Terminal Industry Forum Association (電信終端產業協會) of the PRC, which were released in July 2023.

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the total procurement value of the consumer electronics we sourced by providing our recycling services were approximately RMB594 million, RMB749.9 million, RMB985.4 million, RMB1,118.9 million and RMB699.3 million, respectively. Our revenue derived from the sale of these consumer electronics we procured amounted to approximately RMB737.2 million, RMB901.8 million, RMB1,140.3 million, RMB1,278 million and RMB800.6 million for the same periods, respectively.

### **Our business model**

Since our inception in 2016, we have been devoted to establishing and enhancing our cooperation with our upstream sourcing partners, with an aim to jointly build a recycling ecosystem focused on trade-in solution. During the Track Record Period, we obtained supply of pre-owned consumer electronics primarily from trade-ins transacted in the retail stores of the mainstream consumer electronic brands and their designated distributors and/or their online malls, as well as the retail stores operated by the sizable merchants for consumer electronic products and major mobile network operators, where individual consumers are our ultimate suppliers. In addition to our focus on trade-in solution offered to the upstream sourcing partners under our brand of Shanhuishou (閃回收), we also (i) collect idle consumer electronics by way of sale solution recycling through our online platform, Shanhui Youpin (閃回有品) and/or our online recycling stores operated on various third-party e-commerce platforms, as

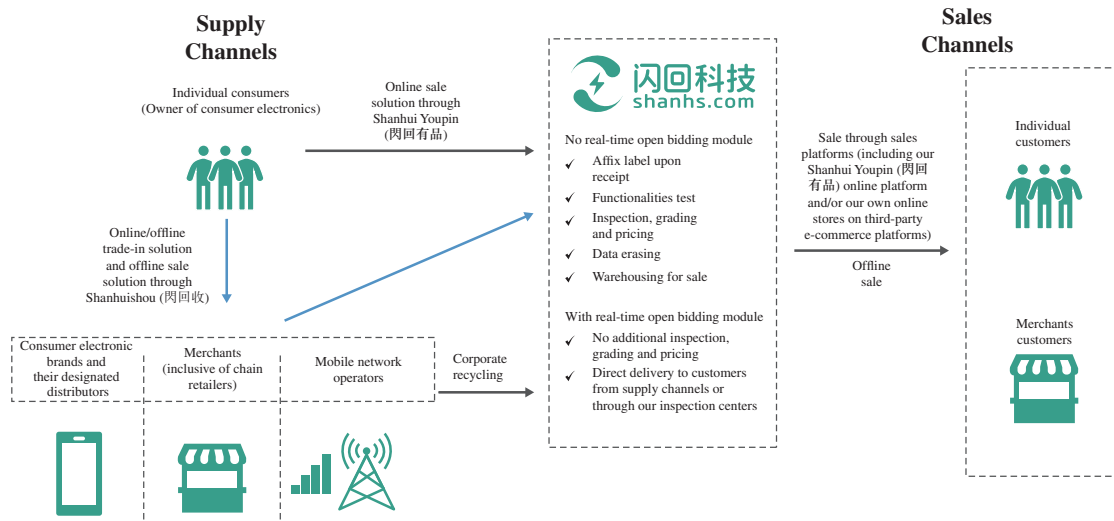

## BUSINESS

well as under offline scenarios; and (ii) engage in corporate recycling to handle the excess inventories and/or demonstration consumer electronics and other purchase requests of consumer electronics in bulk to satisfy the business needs of our upstream business partners.

On the other hand, we process the pre-owned consumer electronics that we procured leveraging our proprietary inspection, grading and pricing technologies at our inspection and operation centers for resale. We efficiently sell these processed consumer electronics to customers in the second-hand consumer electronic market primarily through our proprietary online platform, Shanhui Youpin (闪回优品), as well as our own online stores operated on various third-party e-commerce platforms. Leveraging our established position in the PRC mobile phone recycling service market and our understanding of the needs and preferences of buyers in the second-hand consumer electronics market, we also engage in offline sale to sell part of our procured consumer electronics in bulk which meet the requirements of our certain customers and satisfy their diversified business needs. In addition, we also provide value-added and after-sale services related to matching the purchase and sale needs of consumer electronics in bulk of our upstream business partners and customers, conducting quality inspection of pre-owned mobile phones transacted on certain well-known third-party e-commerce platforms, and providing after-sale services, such as, screen assurance services and value maintain and trade-in services and sale of phone accessories, all of which lead to an enhanced stickiness with our business partners along the industry value chain. For more details, please refer to “– Our Sales – Our Other Services” in this section.

The following chart illustrates our business models:

---

## BUSINESS

---

### COMPETITIVE STRENGTHS

We believe that our success and potential in the recycling services of pre-owned consumer electronics is underpinned by the following competitive strengths:

**A leading mobile phone recycling service provider in China, with the third largest market share in terms of transaction value of pre-owned mobile phones recycled and the total transaction value of pre-owned mobile phone sold in 2024**

We are a PRC company engaged in providing consumer electronics recycling services with a focus on pre-owned mobile phones. According to Frost & Sullivan, we were the third largest mobile phone recycling service provider in the PRC, both in terms of total transaction value of pre-owned mobile phones recycled and the total transaction value of pre-owned mobile phone sold in 2024, with a market share of approximately 1.3% and 1.3%, respectively.

We have been focusing on offering an integrated solution from initiating recycling by way of trade-in while facilitating sale of new mobile phones, to standardizing the procured pre-owned mobile phones for resale through inspecting, grading and pricing, leveraging our proprietary technologies and recycling and sale online platforms and our strategic cooperation with our upstream sourcing partners, including mainstream consumer electronic brands and their designated distributors, sizable merchants for consumer electronic products and major mobile network operators in the PRC. Possessing the mindset of industrial internet, we have been, throughout the years, improving and refining the digitalized infrastructure of trade-in transaction services of pre-owned consumer electronics with our digital solution integrating every step of the value chain in the trade-in process. Our digitalized infrastructure is further empowered by our end-to-end coverage over the consumer electronics transaction service market, from sourcing supply of pre-owned consumer electronics to processing such devices to facilitating the sales demand. We believe that we connect all participants in consumer electronics transaction service market including consumer electronic brands, merchants, mobile network operators as well as individual consumers, with a commitment to sustainable development and building a low-carbon and environmentally-friendly society through forging strategic alliances with our business partners.

We obtain supply of pre-owned consumer electronics primarily from trade-ins transacted in the retail stores of the mainstream consumer electronic brands and their designated distributors and/or their online malls, as well as the retail stores operated by the sizable merchants for consumer electronic products and major mobile network operators, where individual consumers are our ultimate suppliers. We then process these procured pre-owned consumer electronics for resale leveraging our proprietary inspection, grading and pricing technologies in our inspection and operation centers, and efficiently distribute such to a variety of buyers in the second-hand market. On the sourcing side of our value chain, while we focus on recycling mobile phones under trade-in solution, we are able to, at the same time, assist our upstream sourcing partners to promote the sale of their new models of mobile phones and provide a number of value-added services. On the selling side, our business services also facilitate the participants across the downstream industrial chain by providing efficient

---

## BUSINESS

---

circulation, logistics support and after-sale services. We believe that our business model has made us a comprehensive and efficient platform for consumer electronics trade-in-and-resale services in the PRC, reshaping the value chain for participants in the pre-owned consumer electronics ecosystem.

We aim to address environmental problems of untreated electronic waste while achieving commercial success by giving a second life to idle consumer electronic goods. Our business and services reduce electronic waste by prolonging the life cycle of consumer electronics, which is environmentally friendly and socially beneficial and contributing to the reduction of carbon emission and the efficient reuse of resources. We are devoted to establishing and enhancing our cooperation with our upstream sourcing partners, and jointly building a recycling ecosystem focused on trade-in solution. We are a member of the China Resource Recycling Association and the China Association of Circular Economy, and also possess the Certificate of ISO 14001 Environmental Management Systems (環境管理體系認證證書). Through collaborating with our upstream sourcing partners, we are committed to gradually educating consumers and eventually changing users’ habits towards a stronger willingness to trade-in their pre-owned consumer electronics and a higher acceptance level for pre-owned consumer electronics. We expect that the scale and proportion of trade-in transactions in the PRC will gradually approach more mature markets in the future.

In July 2023, we participated in the drafting of a series of group standards which was led by the Telecommunications Terminal Industry Forum Association (電信終端產業協會), together with China Academy of Information and Communications Technology (中國信息通信研究院), Shenzhen Academy of Information and Communications Technology (深圳信息通信研究院) and certain mainstream consumer electronic brands in the PRC. These group standards include “The quality inspection methods for recyclable mobile communication terminal (循環回收移動通信終端質量檢測規範)”, “The compliance testing methods of recyclable mobile communication terminal (循環回收移動通信終端合規性核驗技術要求)”, “Test methods for security capability of the recyclable mobile communication terminal (循環回收移動智能通信終端信息安全技術要求和測試方法)”, “The grade evaluation of recyclable mobile communication terminal (循環回收移動通信終端分級評估技術規範)” and “The recyclable mobile communication terminal label information and accessibility (循環回收移動通信終端標識技術規範)”. We believe that the release of this series of standards will take the pre-owned consumer electronics industry standards to a new level and drive the recyclable devices market towards more standardized, sustainable and healthy growth.

## BUSINESS

During the Track Record Period, we had received numerous awards and recognition in respect of our services, technology and innovation, significant ones of which are set forth below:

<u>Award year</u>	<u>Award/Recognition</u>	<u>Awarding Institution/Authority</u>
2025 .....	China Unicom Partner Conference Outstanding Contribution Award	China Unicom Limited (中國聯通有限公司)
2024 .....	Contribution to Green and Low Carbon Development Co-operation Award* (踐行綠色低碳發展合作貢獻獎)	China Mobile Limited (中國移動有限公司)
2023 .....	WISE2023 King of Future Business Potential-Annual New Economy High Growth Enterprise (WISE2023未來商業潛力之王年度新經濟高成長企業)	36Kr Holdings Inc. (北京多氦信息科技有限公司, commonly known as “36氦”)
2022 .....	Top 50 Digital Intelligence Innovation of Chinese Enterprises in 2022 (2022中國企業數智化創新TOP50)	EDCC Enterprise Digital Development Co-construction and Sharing Platform of China Academy of Information and Communication (中國信通院EDCC企業數字化發展共建共享平台)
2022 .....	The first batch of initiative units for safe recycling and environmentally-friendly disposal of used mobile phones (廢舊手機安全回收和環保處置第一批倡議單位)	China Circular Economy Association and SEE Foundation (中國循環經濟協會和SEE基金會)
2022 .....	The Most Socially Impactful Start-Up in China (中國最具社會影響力的創業公司)	Fortune (財富)

**BUSINESS**

<b>Award year</b>	<b>Award/Recognition</b>	<b>Awarding Institution/Authority</b>
2021 .....	The Most Appreciated Chinese Enterprise by Investors in the Field of Consumption in 2021 (2021年度中國大消費領域最受投資人讚賞企業)	iResearch Invest Value (艾瑞諮詢)
2021 .....	2021 Cyzone 100 Future Unicorns (創業邦100未來獨角獸)	Cyzone (創業邦)

\* The official name of the award is in Chinese. The English translation of the award’s name is for reference only.

**Our highly-recognized brands Shanhuishou (閃回收) and Shanhui Youpin (閃回有品) in the pre-owned consumer electronics transaction service market in the PRC**

We believe that our success in the PRC pre-owned consumer electronics recycling service industry and our rapid growth in scale are largely attributable to the trust that our upstream sourcing partners and individual consumers and customers have in our brands, in particular, our flagship recycling corporate brand, Shanhuishou (閃回收). With this in mind, we are committed to distinguishing Shanhuishou (閃回收) as a trusted name that resonates with our upstream sourcing partners in their daily operations, and individual consumers as and when they decide to upgrade their electronics products. During the Track Record Period, the aggregate number of consumer electronics sourced under our brand Shanhuishou (閃回收) was approximately 6.0 million units.

Our Shanhuishou (閃回收) brand is highly recognized by important corporate participants in the pre-owned consumer electronics recycling service market, mainly including mainstream consumer electronic brands and major PRC mobile network operators. By addressing the rising demand of these participants for recycling solutions in an efficient and mutually beneficial manner, we have built up strategic cooperation with our major upstream sourcing partners. We have been designated by several mainstream consumer electronic brands as an official pre-owned mobile phone recycling service processor to handle their trade-in transactions of pre-owned mobile phones and other consumer electronics. We believe that our strategic alliances with important corporate participants in the industry can amplify our brand’s reach and enhance our brand exposure, and further create a wide and dispersed network from which we are able to source pre-owned consumer electronics to establish our competitive supply control. As of June 30, 2025, we had been in strategic alliance with, and provided trade-in recycling solutions to seven mainstream consumer electronic brands and/or their designated distributors and four major mobile network operators in the PRC. On the other hand, our Shanhuishou (閃回收) has been highly recognized by more and more individual consumers as their preferred go-to brand, as and when they decide to upgrade their electronic products.

---

## BUSINESS

---

Furthermore, our sale services provided under our brand of Shanhui Youpin (閃回有品) has also become a trustworthy option for many customers in the pre-owned consumer electronics resale market. Driven by advanced inspection hardware and AI-driven capabilities of software, we are able to test, grade, and price a wide range of pre-owned consumer electronic products, whether locally or remotely, within a few minutes. Customers can then buy pre-owned consumer electronic products from our sales platforms which suit their needs.

A growing base of our upstream sourcing partners and individual consumers and customers reflects the trust and satisfaction derived from our brands and consistent delivery of value through our recycling and sale services. We will continue to boost our brand influence in the pre-owned consumer electronics transaction service market and promote our brand awareness through social media platforms. We believe that our highly-recognized brands will enable us to capture further opportunities and continue to contribute to our success and growth in the pre-owned consumer electronics transaction service market.

### **Strategic cooperation with our upstream sourcing partners with a wide-ranging service coverage and national geographic reach**

We benefit from our deep and mutually beneficial relationship with various mainstream consumer electronic brands, sizable merchants and major mobile network operators in China, which is highly synergistic to both our and these upstream sourcing partners’ business operations. We have been able to integrate our services into the sales channels of our upstream sourcing partners by providing trade-in recycling services, and at the same time, facilitating the sale of new consumer electronic products promoted by our upstream sourcing partners, creating a win-win situation. We believe that our strategic cooperation with these upstream sourcing partners in the upstream industrial chain has provided us with access to desirable and stable supply from reliable channels.

We strategically cooperate with mainstream consumer electronic brands where we have been designated as an official pre-owned mobile phone recycling service processor to handle their trade-in transactions of pre-owned mobile phones and other consumer electronics, including laptops, PC tablets, phone accessories and other digital products. We have also established business cooperation with sizable merchants for consumer electronic products in the PRC, creating a wide and dispersed network from which we are able to source pre-owned consumer electronics to establish our supply control. Leveraging our asset-light business model and benefiting from the simplicity of setting up and embedding our proprietary recycling system under our brand of Shanhuishou (閃回收) in our upstream sourcing partners’ retail stores, we are able to spread our services to retail stores of our upstream sourcing partners within a relatively short period. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis. Our recycling services by way of trade-in solution allow our upstream sourcing partners to further incentivize their customers to buy new mobile phones at their retail stores.

## BUSINESS

---

We provide value-added services empowering the sale of new mobile phones in retail stores through offering professional training to the front sales staff of our upstream sourcing partners on the use of our inspection and pricing system leveraging our proprietary technology. The front sales staff are required to go through a pre-evaluation process on our recycling system and upload the photos and auxiliary information of the device proposed to be traded-in for review. Our backstage inspection staff will then immediately examine the photos and related information and display a quote for the traded-in device to the front sales staff to show the individual consumer. Such pre-evaluation, inspection and pricing process is typically completed within five minutes on average. For certain designated phone models or when there are promotion activities, the individual consumer may also be able to enjoy additional subsidies from the upstream sourcing partners and/or from us. If the individual consumer finds the quote acceptable, our system will generate a QR code and immediately transfer the amount, together with any subsidies, if applicable, directly to the individual consumer in the retail stores through Alipay or WeChat Pay. This efficient and smooth process enhances customer experience and further incentivizes them to make new purchases through trade-in.

Further, we also closely work with consumer electronic brands on new business initiatives, including helping them launch new product categories and prepare for promotion activities. When they hope to bring out new mobile phone models or launch new promotion plans, we would jointly formulate the proposed sales plan and the related details of such promotion activities with them with the aim to increase the trade-in conversion rate and boost sales. In addition, where our upstream sourcing partners expand their business to a new location, our asset-light business model and the ease-of-use feature of our service offerings give us first-mover advantage to bring our services to the new retail store, leading to an enhanced stickiness with the consumer electronic brands.

On top of the trade-in channels that constitute our major supply sources, we also facilitate certain consumer electronic brands through providing our trade-in solution transaction services to these consumer electronic brands' online malls. We also operate a proprietary online platform under our brand of Shanhui Youpin (閃回有品) to provide sale solution transaction services to individual consumers where they trade in pre-owned consumer electronics in exchange for cash.

We believe that through strategic industrial cooperation with our upstream sourcing partners in the upstream industrial chain, we will continue to realize deep integration and optimization of trade-in recycling channels, forming unique industrial network advantages. Our online presence enhances our accessibility and broadens our audience, while our offline presence strengthens our brand awareness, provides clarity to the trade-in process and creates an important layer of interpersonal trust in the trade-in solution transaction services. We believe we capture outstanding supply and demand for pre-owned consumer electronics.

---

## BUSINESS

---

### **Digitalized and integrated industry solutions empowering our efficient and accurate standardizing services**

Innovation and technology are at the core of our Group and permeate every aspect of our business operations. We have digitalized the pre-owned consumer electronics transaction services and we leverage technology in most things that we do.

We emphasize on technology and development and have cultivated our own competitive capabilities, which we believe are among our most valuable assets and distinguish us from our competitors. We have developed proprietary technologies with AI capabilities with several major application scenarios: remote testing, image recognition, order reviewing, and pricing. Leveraging our proprietary technologies, our processing time from inspection, grading and pricing for each device that is physically collected from our upstream sourcing partners to putting these devices on resale is approximately 24 hours. As of the Latest Practicable Date, we had 19 registered patents that are related to our design and development on recycling technologies and equipment, and our inspection, grading and pricing capabilities are particularly recognized and trusted by our business partners and individual consumers.

We have developed an automatic remote testing system. Under the offline trade-in solution, the retail stores’ front sales staff will present our testing QR code for the individual consumers to scan which is linked to a WeChat mini program. This program, empowered by AI model, will automatically identify the model of the mobile phone and initiate testing of its basic functions, including but not limited to face recognition, touch screen, network and screen color loss. In addition, the program will automatically enter the international mobile equipment identity (“IMEI”) number of the mobile phone and obtain the internal device information such as its make and date of production based on the IMEI.

We typically conduct quality inspection of pre-owned consumer electronics in various stages of the recycling process and detect exterior and interior defects through analyzing images of the devices, including but not limited to screen scratches, frame and back panel scratches and screen leakage. As second-hand consumer electronics are non-standard items, the image recognition tools currently available in the market to inspect the quality of these second-hand devices have limited capabilities and are insufficient for meeting our business needs. Therefore, we developed our owned image recognition model specifically designed for pre-owned consumer electronics that is capable of identifying minor defects automatically based on the photos taken, which provided a solid basis for our backstage order reviewing engineers. However, according to our past experience, manual mode of order reviewing is unable to cope with the business volume during peak hours and the reviewing accuracy may also be affected by human errors. As such, we created a separate order reviewing model which is capable of automatically assessing the risks of an order based on the historical data of the respective retail store and its sales staff involved in that particular transaction. This reduces the workload of our order review engineers and improves the accuracy of risk control.

---

## BUSINESS

---

The consistency and accuracy of quality inspection of pre-owned consumer electronics has been a major technical problem in this industry. Driven by AI capabilities, our evaluation tools help us obtain supply and empower the front sales staff of our upstream sourcing partners to facilitate the trading-in of pre-owned consumer electronics transactions services. Our recycling system, Shanhuishou (閃回收) allows pre-owned consumer electronics to be inspected both locally and remotely and displays a competitive sale price in approximately five minutes. Our four operation and inspection centers are all equipped with proprietary technologies to facilitate the inspection, grading and pricing of pre-owned consumer electronics, with inspection terminals to inspect the need for parts replacement, functionality, battery life and many other key features efficiently and accurately.

We have also created an AI-empowered machine learning driven smart pricing model to ensure pricing objectiveness for each device transacted on our recycling system. Since pre-owned mobile phones are non-standard items with no uniformed market price, a single model may come with many combinations due to each device’s unique conditions and every combination has its respective corresponding price. As such, grading and pricing them manually is incapable of achieving the level of accuracy that we expect, especially when the device has a combination of multiple defects in various aspects which price largely deviates from the market fair price. We have created our AI-empowered smart pricing model utilizing our business data from thousands of device models, millions of transactions, and millions of sellers and buyers that transact on our platform, and developed separate modeling for long-term price trends and short-term price fluctuations. Such AI-empowered pricing models have significantly improved our pricing accuracy and efficiency, reduced transactions waiting time for individual consumers, making it more conducive to our trade-in recycling transaction services. Please refer to “– Technology, Research and Development” in this section.

Our technology and development team is led by our chief technology officer, Mr. Lin Lexin, who is our executive Director and an industry veteran with over ten years’ frontline experience, and has been continuously focusing on developing and upgrading our system to constantly improve our business efficiency and accuracy. As of June 30, 2025, we had 44 technical personnel in our technology and development team, with work experience of approximately eight years on average. We believe that our technology, research and development capabilities have been and will continue to be our core competitive strength for our success in the pre-owned consumer electronics recycling service market.

### **Proprietary and efficient operation support system, leading to outstanding operational efficiency**

The efficient circulation of pre-owned consumer electronics requires a high degree of speed and accuracy. We believe our BOSS System, which is designed and developed by us, provides a feasible and effective solution to these requirements. Our BOSS System integrates recycling, testing and grading, pricing, sales, customer management and logistic systems as well as other supplementary modules and functions. It has been developed into a comprehensive and efficient digital center stage for our day-to-day operation.

---

## BUSINESS

---

Through our BOSS System, we believe we have successfully established an innovative risk control and pre-payment business tool based on remote transaction review aimed at reducing transaction time and minimizing the errors that may be caused by subjective judgment in the offline trade-in process. Through constantly optimizing our system, we are able to complete the whole review, pricing and payment process under offline trade-in solution within five minutes, which we believe would be critical in capturing and improving customer experience to the greatest extent while keeping the risk under control. In addition, we are able to perform full life cycle management for each device with all the historical records ready for examination anytime. The entire recycling, inspection and resale process are conducted under high-definition monitoring and each device carries with it a quality inspection report. We have also been engaged by certain well-known third-party e-commerce platforms to conduct quality inspection of pre-owned mobile phones transacted on their platforms.

Furthermore, our asset-light business model and the ease-to-use feature of our transaction services also allow us to quickly span our services to numerous offline stores encompassing a wide range of locations, leading to high operational efficiency. As we source more pre-owned consumer electronics, the data insights generated from increased scale make our inspection, grading and pricing more accurate and reliable. These improved standards reduce processing time and make the entire transaction process more efficient, leading to better transaction services experiences, which results in a virtuous circle effect that may bring more demand to our platform.

We believe that by leveraging our BOSS System, we have made transactions for pre-owned consumer electronics more user-friendly, efficient, transparent and secure. The digital nature and end-to-end coverage of our transaction services has reduced the number of intermediaries and transactions required from trade-in to eventual purchase of a pre-owned consumer electronics. Our ability to obtain supply, process devices, and then resell the devices quickly has effectively shortened the turnaround time of consumer electronics transaction service market and improved the economics for the sellers and purchasers of pre-owned consumer electronics. We believe we have a considerable impact on the industry standard in PRC offline trade-in mobile phone recycling market.

### **Experienced management team with profound industry background and insight**

We are led by our chairman and executive Director, Mr. Liu Jianyi and our chief executive officer and executive Director, Ms. Yu Hairong who established our business in 2016. Mr. Liu and Ms. Yu, together with our other executive members, being Mr. He Xiaomin, our chief production officer, and Mr. Lin Lexin, our chief technology officer, have proactively addressed the industry-wide challenges to achieve our continued growth and success.

---

## BUSINESS

---

We have a knowledgeable and innovative management team with deep backgrounds in the consumer electronics industry and extensive experience in the pre-owned consumer electronics recycling business in China. The combination of diverse backgrounds enables us to continual to prosper in the pre-owned consumer electronics industry. Members of our core management team have an average of over ten years of relevant industry experience, possessing a broad range of industry and technical expertise, with a keen focus on the latest development of the recycling industry, capable of taking advantage of market opportunities, formulating sound business strategies, assessing and managing risks, and increasing our overall profit to maximize our Shareholders’ value. In particular, our chairman, executive Director and general manager, Mr. Liu Jianyi, started his career in the field of telecommunication-related industry over two decades ago, and served as the manager and/or the director of various companies where he was in charge of the day-to-day operations and/or the business management of our Group and accumulated extensive experience in the trading and marketing of communication and digital products. With years of accumulated experience in the industry, we possess significant operating and management expertise through a team of technical development and service professionals.

We believe that our experienced senior management team has played a key role in leading the operation and development strategies of our Group and provided us with deep industry and operational knowledge, together with our talent local hires, which has been and will continue to be the key to our success in our future operations and profitability.

### OUR STRATEGIES

We aim to further grow our business in the PRC mobile phone recycling service market as well as increase the overall penetration and circulation of pre-owned consumer electronics in the PRC. To accomplish this, we will continue to leverage the strengths and capabilities of our ecosystem to achieve organic growth, and also actively look for new opportunities to expand our service offerings, geographical coverage, and supply and distribution channels to achieve higher business growth and gross profit margin through executing the following strategies:

**Further enhance our strategic cooperation with upstream sourcing partners to continuously strengthen our current position in the PRC trade-in mobile phone recycling service market and expand our transaction services into Hong Kong and other Southeast Asian countries**

As the largest consumption and manufacturing country of various consumer electronics, China’s mobile phone shipments has gained global leadership over the past decade and the shipment volume is expected to maintain a steady growth prospect over the next five years. The sustained shipment and sales volume of new consumer electronics will lead to increasing accumulative volume of pre-owned consumer electronics. Driven by the government supports on circulation economy, consumers’ demand for disposing or replacing pre-owned consumer electronics due to technology upgrade such as the adoption and popularization of 5G network, as well as the vigorous development of offline recycling channels for second-hand consumer

---

## BUSINESS

---

electronics which provides more convenience to consumers to sell and purchase second-hand consumer electronic products, China’s pre-owned consumer electronics trade-in service market has been developing rapidly and will continue to experience further growth in the forecast period.

Continuously expanding and deepening our strategic cooperation with our upstream sourcing partners in the upstream industrial chain remains a key focus for our future growth. During the Track Record Period, we had remained steadfast in extending our transaction service coverage to retail stores of our upstream sourcing partners, especially the mainstream consumer electronic brands and their designated distributors. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis. According to Frost & Sullivan, as of the Latest Practicable Date, the aggregate number of branded retail stores of our key upstream sourcing partners (including seven mainstream consumer electronic brands and/or their designated distributors, four major mobile network operators and various sizable merchants) exceeded one million stores in the PRC. With the establishment of our new strategic cooperation with the three designated distributors of Consumer Electronic Brand F in June 2024, we believe that there remains a tremendous market for us to develop. We will continue to put effort and make investment in nurturing our offline trade-in transaction services by actively promoting our trade-in solution in the retail stores of our upstream sourcing partners to secure a stable and desirable supply of quality pre-owned consumer electronics. We will also regularly discuss future collaboration arrangements and pursue new strategic initiatives with our existing upstream sourcing partners. In particular, we intend to actively visit and enter into regular discussions with our existing upstream sourcing partners to activate and commence recycling business with those retail stores which had initially agreed to enter into collaboration with us but had not conducted any trade-in recycling transaction services during the Track Record Period.

In addition, we intend to step up our efforts to collaborate with the major mobile network operators in the PRC to promote our pre-owned mobile phone recycling services. Other developed countries including the U.S. and Japan have relatively mature mobile phone recycle markets, and consumers in these regions are more receptive to trade-in their second-hand devices, which result in a more centralized recycling network. In particular, mobile network operators and large dealers in the U.S. market often offer mobile phones bundled with renewal service contracts, which facilitate consumers to trade-in their used devices when renewing their contracts. In the PRC, we believe that mobile network operators will have more incentive to develop their trade-in network in order to fulfill the ESG requirements imposed on state-owned enterprises by the PRC government and given the national goal of achieving carbon neutrality.

Apart from the aforesaid, we are also exploring new business opportunities and seeking potential cooperation with other consumer electronic brands and upstream sourcing partners in the upstream industrial chain. Through forging a stronger relationship with various upstream sourcing partners and advancing our transaction services offered under the trade-in solution,

---

## BUSINESS

---

we believe that we will further strengthen our position in the PRC trade-in mobile phone recycling service market by making the entire recycling service process, more seamless and easier for consumers who will then become more receptive to trading in their pre-owned consumer electronics.

To support our above strategies and future plans, we intend to set up branch offices in each of Liaoning province, Hebei province and Guangdong province, and recruit 49, 43 and 43 sales personnel for the years ending December 31, 2025, 2026 and 2027, respectively, to further strengthen and expand our cooperative relationship with the existing and potential upstream sourcing partners. We plan to set up a branch office in Shenyang City, Liaoning province to cover the Northeast China region. As of June 30, 2025, the number of our existing upstream sourcing partners and their retail stores in Liaoning, Heilongjiang and Jilin provinces were 212 and 240, 145 and 1,900, 1,871 and 1,259, respectively. We currently do not have any branch office or inspection and operation center in Northeast China. We also plan to set up a branch office in Shijiazhuang City, Hebei province to further strengthen and improve our service coverage in the Northern China region, together with our branch office in Beijing and inspection and operation center in Zhengzhou, Henan province. As of June 30, 2025, the number of our upstream sourcing partners and their retail stores in Hebei province were 362 and 3,627, respectively. Furthermore, we also plan to set up a branch office in Guangzhou City, Guangdong province to further strengthen and improve our service coverage in the north of Guangdong province and further to Guangxi, Hunan and Jiangxi provinces, together with our headquarters in Shenzhen. As of June 30, 2025, the number of our upstream sourcing partners and their retail stores in Guangdong province were 637 and 8,351, respectively.

We believe that setting up these three new branch offices will improve our business efficiency and enable our sales personnel to actively visit retail stores of our existing and/or potential upstream sourcing partners, introduce and promote our trade-in service solution offerings, facilitate the establishment and maintenance of our cooperative relationship with their retail stores and provide after-sale services to key upstream sourcing partners. These newly recruited personnel will also be responsible for providing continuous training to the front sales staff enabling them to process trade-in transactions with our Shanhuishou (閃回收) recycling system. We plan to use approximately [REDACTED] or approximately [REDACTED] of the [REDACTED] from the [REDACTED] to support the above strategies. For more details, please refer to “Future Plans and [REDACTED]” in this document.

We aim to further develop and solidify our offline trade-in mobile phone recycling service capability in Hong Kong. Driven by the strong demands of certain mainstream consumer electronic brands we partner with, we decided to extend our partnership and transaction services to Hong Kong to facilitate their local business development. We had successfully obtained Radio Dealers Licence (Unrestricted) (無線電商牌照) in Hong Kong in October 2023, and commenced to provide our offline trade-in recycling transaction service in Hong Kong since November 2023 for Consumer Electronic Brand B, and sell the same through our local sales channels. Furthermore, we joined Consumer Electronic Brand B as its strategic business partner to visit Singapore, Malaysia, Thailand and Indonesia in July 2024, and conducted market research in these local markets. We then subsequently incorporated PT Shanhui in February 2025. As such, we intend to recruit more personnel to further develop and solidify our

---

## BUSINESS

---

trade-in mobile phone recycling service capability in Hong Kong, and make it our overseas headquarters for our future expansion of trade-in transaction services in other Southeast Asian countries. We plan to use approximately [REDACTED] or approximately [REDACTED] of the [REDACTED] from the [REDACTED] to support the above strategies. For more details, please refer to “Future Plans and [REDACTED]” in this document.

### **Increase our brand profile, explore new sales channels to increase our sales, and enhance our profit margin and transaction efficiency**

We intend to further promote our Shanhui Youpin (閃回有品) online platform, with an aim to grow it to a recognized brand and trusted pre-owned consumer electronics integrated platform, with the capabilities of providing consumer electronics recycling and trading services that enables consumers to sell and purchase pre-owned consumer electronics with ease and convenience. In doing so, we intend to further invest in our promotional and marketing efforts to grow our brand awareness and improve our publicity and market position. We plan to increase our budget on placement of both online and offline marketing and advertisement, such as billboards, advertising light boxes and web banners, to enhance our profile and promote our pre-owned consumer electronics recycling and trading services in various second-hand markets. We also intend to strengthen and maintain long-term business relationships with our existing major customers and explore new cooperative relationships with potential buyers of various types of pre-owned consumer electronics in the downstream second-hand market. In doing so, we plan to hold more seminars and events in Shenzhen and invite both of our existing and potential customers to attend and exchange ideas, and at the same time, raise our profile. We plan to recruit a total of 40 experienced sale personnel for the three years ending December 31, 2027 to assist our marketing and promotion efforts to grow our brand awareness and strengthen our influence and to provide more comprehensive and timely after-sale services to our key customers. Such sales personnel shall also be responsible for collecting market information and analyzing the marketing activities of our competitors, making and implementing plans to promote sales on our Shanhui Youpin (閃回有品) online platform, and exploring and developing our customer base and eventually increasing our sales on Shanhui Youpin (閃回有品) online platform. We plan to use approximately [REDACTED] or approximately [REDACTED] of the [REDACTED] from the [REDACTED] to support the above strategies. For more details, please refer to “Future Plans and [REDACTED]” in this document.

We believe that the expansion of sales channels will create new growth opportunities for us. In 2022, we had a test-run on a PRC mainstream live-streaming platform focused on the sale of pre-owned premium models of certain branded mobile phones. We plan to further tap into this market by spending extra budget on marketing and promoting our Shanhui Youpin (閃回有品) brand and increasing web traffic to accurately target potential individual customers and boost the number of active buyers on these live-streaming platforms. We will also continue to explore conducting sale of pre-owned mobile phones through publishing promotional contents and video clips on live-streaming platforms targeted at different end users. Further, we plan to deepen our cooperation with various third-party e-commerce platforms and set up more of our own online stores on these platforms to be focused on selling mid-to-high-end pre-owned mobile phones. In order to improve the quality and attractiveness of our contents and videos

---

## BUSINESS

---

and to boost our sales on various live-streaming and e-commerce platforms, we intend to recruit a total of 39 experienced personnel in the field of e-commerce operation, including two live-stream operators, nine popular live-streamers, five short video scripting, filming and editing personnel, nine live broadcast controllers, two e-commerce trading and pricing managers, and 12 customer service staff members for the three years ending December 31, 2027. Some of these personnel will also be assisting on setting up our online stores on various third-party e-commerce platforms to conduct sale by publishing promotional contents and video clips on livestreaming platforms, designing and implementing sales strategies of our online stores on third-party e-commerce platforms, and providing after-sale services to our customers on these platforms. Live broadcast controller is also responsible for coordinating the live-streamers and preparing the live broadcast and managing the orders placed during the live broadcast. Leveraging our presence on these platforms, we aim to grow our brand awareness and strengthen our influence, and attract more customers to achieve business scale in a broader market. We plan to use approximately [REDACTED] or approximately [REDACTED] of the [REDACTED] from the [REDACTED] to support the above strategies. For more details, please refer to “Future Plans and [REDACTED]” in this document.

Furthermore, in September 2023, we opened up our first retail store in Shenzhen under our brand name of Shanhui Youpin (閃回有品) to conduct both recycling and sale services of pre-own consumer electronics. We believe that our offline presence will contribute to the strengthening of our brand awareness among individual consumers, which will help us to expand the spectrum and increase the depth of services we provide to them, and eventually attract more buyers and sellers to our ecosystem. We opened up our second retail store in Shenzhen in December 2023.

### **Further increase our research and development efforts into AI-related technologies, and upgrade our infrastructure to continue to empower our business offerings and operational efficiency**

Our proprietary technologies, especially those with AI capabilities, are our key competitive advantage and crucial for us to provide more efficient and quality services. We aim to further increase our research and development efforts into AI-related technologies to continue to empower our business offerings and operational efficiency. Since pre-owned mobile phones are non-standard items with no uniformed market price, and grading and pricing them manually is incapable of achieving a high level of accuracy, we will continue to upgrade and iterate our existing inspection, testing and grading technologies. In doing so, we plan to upgrade the inspection hardware and testing and grading functionalities of our Shanhuishou (閃回收) recycling system with more AI capabilities so that we can better analyze the data insight we collect from thousands of pre-owned consumer electronics and millions of transactions, which includes historical recycling and sales data, competitors’ performance, our various transaction costs for procurement and sale, future demand of the second-hand consumer electronic market and our expected profit margin. We believe this can further strengthen our competitive advantage in pricing pre-owned consumer electronics accurately and speedily, which has been a major strength that differentiates us from our competitors and serves as an important growth engine.

---

## BUSINESS

---

On the other hand, we intend to invest more into the infrastructure of our Shanhui Youpin (閃回有品) online platform and the associated mobile application by continuously upgrading and iterating our existing software and hardware equipment, and to design, develop and launch new business modules with comprehensive functionalities to support the increasing needs of our business services and, at the same time, enhance users’ experiences. In particular, we will upgrade our Shanhui Youpin (閃回有品) online platform by adding more AI capabilities to better match the needs of our customers with our inventories, send recommendations automatically to our customers based on their historical preferences and increase the accuracy of the search engine. Internally, we will continue to upgrade our management and information system, BOSS System, to support our Group’s digital management and improve our overall operational efficiency. In particular, we plan to upgrade and increase the number of servers that we currently rent to increase the data storage, improve the efficiency and enhance the data security of our BOSS System. For the three years ending December 31, 2027, in order to support the upgrades of our Shanhui Youpin (閃回收) recycling system, Shanhui Youpin (閃回有品) online platform and BOSS system, we plan to spend approximately HK\$63.3 million to recruit a total of 41 technology and development personnel to support our above future technology, research and development efforts, respectively. Such personnel primarily include programming development engineers, web front-end development engineers and AI algorithmic engineers.

In addition, we plan to upgrade and/or enlarge our existing inspection and operation centers to eventually form our own supply chain network equipped with functionalities of collection, inspection and grading, repair and maintenance, and sales and distribution. Pre-owned mobile phones recycled and resold with repair and maintenance services rendered, such as replacement of external display screen or change of battery, generally see better demand from customers and typically have a higher profit margin. Therefore, we intend to purchase and/or upgrade the hardware equipment of our maintenance and repairment division, for instance, screen removal machine, polishing machine and multi-meters, and also recruit a total of 15 maintenance and repairment staff members during the three years ending December 31, 2027. We believe this will enrich our supply of mid-to-high-end pre-owned consumer electronics with better selling prices, which will in turn, contribute to a higher profit margin. Further, we also plan to upgrade all of our existing inspection and operation centers in Shenzhen, Guangdong province, Chengdu, Sichuan province, Zhengzhou, Henan province and Anji, Zhejiang province. During the Track Record Period, an increasing percentage of our revenue was derived from the sale of pre-owned mobile phones through our real-time open bidding module on Shanhui Youpin (閃回有品) online platform, where under most circumstances, no additional inspection would be conducted before delivering such devices to the successful bidder.

However, these devices still delivered to our inspection and operation center first before shipped out to the successful bidder, must go through the organizing, sorting, packing process which would benefit from the upgrading of the hardware and equipment in our existing inspection and operation centers. We plan to spend approximately HK\$0.5 million in each of these four inspection and operation centers to purchase and/or upgrade certain equipment, for instance, smart shelves and automatic packing machines. To support the above upgrade of our

## BUSINESS

---

inspection and operation centers, we also intend to recruit four receiving and packing staff and six quality inspectors for each of our Shenzhen, Chengdu, Zhengzhou, and Anji inspection and operation centers for the three years ending December 31, 2027. We expect that these centers would better facilitate the efficient collection, inspection and grading, repairment and maintenance, and further sales and distribution of our pre-owned consumer electronics procured, which in turn, help us to strengthen our service coverage, increase our inventory turnover and improve our operational efficiency. We plan to use approximately [REDACTED] or approximately [REDACTED] of the [REDACTED] from the [REDACTED] to support the above strategies. For more details, please refer to “Future Plans and [REDACTED]” in this document.

We plan to use approximately [REDACTED] or approximately [REDACTED] of the [REDACTED] from the [REDACTED] to support the above strategies. For more details, please refer to “Future Plans and [REDACTED]” in this document. We believe that with our proprietary recycling and sale platforms supported by our BOSS System, we will be able to provide a more digitalized and industrial solutions for all the participants in the consumer electronics trade-in-and-resale services.

### **Expand business operation through investment**

We believe that by leveraging our industrial experience and brand recognition, we will be able to further expand where the market conditions, demand and growth potential for pre-owned consumer electronics are favorable. When opportunities arise, we will expand our business operation through strategic investment and/or acquisitions in businesses which offer products and/or services that are supplemental to those which we currently offer and match our growth strategies. We plan to use approximately [REDACTED] or approximately [REDACTED] of the [REDACTED] from the [REDACTED] for this strategy. For more details, please refer to “Future Plans and [REDACTED]” in this document.

We will maintain a disciplined approach to such investment and will consider various selection criteria with the aim to creating synergies between the target and the rest of our Group after the investment. Before any investment, we will take into account factors such as, operating history, reputation, products and services, and the competitive landscape of the target company and its core management team. Illustrations of such suitable factors may include locally reputable business partners that offer different consumer electronic products or consumer electronics trade-in-and-resale services supplemental to those which we currently offer. As of the Latest Practicable Date, we had not identified any specific targets, formed any specific investment plans or entered into any agreements with potential targets.

---

## BUSINESS

---

### OUR BRANDS

We have established and developed two core corporate brands, namely, Shanhuishou (閃回收) and Shanhui Youpin (閃回有品). Shanhuishou (閃回收) is the main brand under which we carry on our offline trade-in business and collect pre-owned consumer electronics from our upstream sourcing partners. Shanhui Youpin (閃回有品) is the main brand under which we conduct the sale of pre-owned consumer electronics we procured to customers on our proprietary online platform or in our own online stores on third-party e-commerce platforms.

We launched Shanhuishou (閃回收) in 2017. Throughout the years, we have been primarily focusing on establishing and deepening our strategic cooperative relationship with our upstream sourcing partners by offering them with our integrated recycling services of pre-owned consumer electronics through our offline trade-in solutions. As such, our brand of Shanhuishou (閃回收) has won recognition among various mainstream consumer electronic brands and individual consumers. Given the success of Shanhuishou (閃回收) and our proven ability to obtain stable and quality supply of pre-owned consumer electronics, in 2021, we then launched the brand of Shanhui Youpin (閃回有品) to further strengthen our corporate image. Under our brand of Shanhui Youpin (閃回有品), we developed and self-operate our proprietary online platform with a business focus on pre-owned mobile phone trading. We have also developed associated Shanhui Youpin (閃回有品) mobile application and WeChat or Alipay mini-program, which enable various buyers in the second-hand consumer electronic market to bid-for, win, and/or purchase pre-owned consumer electronics through different business modules and/or scenarios.

During the Track Record Period, we also carried on some of our recycling service business under the sub-brands of Shanyu Huishou (閃魚回收) and Shan Zhuanzhuan (閃賺賺), and some of our sales business under the sub-brands of Shanyu Mall (閃魚商城), Shanyu Ershou (閃魚二手) and Shanyouyou (閃優優), aiming to promote and provide our recycling and sale services of pre-owned consumer electronics to individual consumers and target customers. On the recycling side, we operated a WeChat and Alipay mini-program and a website both under the sub-brand of Shanyu Huishou (閃魚回收) and a WeChat mini-program under the sub-brand of Shan Zhuanzhuan (閃賺賺), all of which focused on recycling pre-owned consumer electronics from individual consumers by way of online sale solution. On the sale side, we operated a WeChat mini-program under the sub-brand of Shanyu Ershou (閃魚二手) and an Alipay mini-program under the sub-brand of Shanyu Mall (閃魚商城), both of which focused on the sale of pre-owned consumer electronics to individual customers. We also operated a Wechat mini-program under the sub-brand of Shanyouyou (閃優優), which comprises a single-device sales module and a single-device bidding module that resemble the same functionalities of those two modules currently on our Shanhui Youpin (閃回有品) online platform. For more details of our Shanhui Youpin (閃回有品) online platform, please refer to “– Shanhui Youpin (閃回有品)” in this section. Before officially launching our Shanhui Youpin (閃回有品) online platform in 2021, we primarily conducted sale of pre-owned consumer electronics to (i) customers who conduct business in the second-hand consumer electronic market through Shanyouyou (閃優優) and a standalone PC end sales platform which is developed for customers to bid for and purchase packages of pre-owned consumer electronics

---

## BUSINESS

---

of similar features pre-selected by us; and (ii) individual customers through our own online stores on third-party e-commerce platforms, our Shanyu Mall (閃魚商城) on Alipay and Shanyu Ershou (閃魚二手) on WeChat.

During the Track Record Period, we had been gradually enhancing and integrating our online recycling services and sales functionalities into our Shanhui Youpin (閃回有品) online platform. Due to our strategic planning and future development considerations, in order to promote our brand of Shanhui Youpin (閃回有品) and avoid the diversion of consumer/customer traffic by our other sub-brands, we have ceased the operation of the Shan Zhuanzhuan (閃賺賺) and Shanyu Ershou (閃魚二手) WeChat mini-programs, and converted the names displayed on Shanyu Huishou (閃魚回收) website as well as WeChat and Alipay mini-programs, Shanyu Mall (閃魚商城) Alipay mini-program and Shanyouyou (閃優優) WeChat mini-program to Shanhui Youpin (閃回有品) in the first half of 2024, with the aim to grow our Shanhui Youpin (閃回有品) to a recognized brand and trusted pre-owned consumer electronics integrated online platform.

### **Operation of Our Business under Our Sub-brands**

Since our inception in 2016, we had carried on some of our recycling service business under the sub-brands of Shanyu Huishou (閃魚回收) and Shan Zhuanzhuan (閃賺賺), and some of our sale business under the sub-brands of Shanyouyou (閃優優), Shanyu Mall (閃魚商城) and Shanyu Ershou (閃魚二手). For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue derived from conducting our sale business through Shanyouyou (閃優優) amounted to approximately RMB235.2 million, RMB427.6 million, RMB352.8 million, RMB96.2 million and nil, representing approximately 31.4%, 46.5%, 31.5%, 7.4% and nil of our total revenue for the same period, respectively; our revenue derived from conducting sales business through Shanyu Mall (閃魚商城) amounted to approximately RMB7.4 million, RMB9.9 million, RMB4.7 million, RMB2.9 million and nil, representing approximately 1%, 1.1%, 0.4%, 0.2% and nil of our total revenue for the same period, respectively. During the Track Record Period, we had not conducted any sales business through Shanyu Ershou (閃魚二手). We had integrated our recycling services and sales functionalities under these sub-brands into our Shanhui Youpin (閃回有品) online platform.

We believe that our core brands have conveyed our competitive strengths to our target consumers, including reliable quality and consistent standards, efficient and convenient user experience, and environmentally friendly lifestyle, which are also the key qualities that differentiate ourselves from our competitors, and help us strategically position ourselves in the service value chain.

---

## BUSINESS

---

### OUR SUPPLY CHANNELS

We procure pre-owned consumer electronics via both offline and online supply channels. Our offline channels of supply mainly comprise of retail stores operated by our upstream sourcing partners, primarily including mainstream consumer electronic brands and their designated distributors, sizable merchants for consumer electronic products and major mobile network operators, where individual consumers are our ultimate suppliers. Over the years, we have established business alliances and cooperation with these upstream sourcing partners and collect pre-owned consumer electronics transacted offline in their retail stores through our recycling system under our brand of Shanhuishou (閃回收). We also cooperate with our upstream sourcing partners through embedding our recycling system in their online malls and collect pre-owned consumer electronics transacted online.

The recycling solutions of pre-owned consumer electronics from individual consumers can be broadly classified into two types, namely, the trade-in solution and the sale solution. Since our inception, we have been primarily focusing on offering recycling services of pre-owned mobile phones and other consumer electronics through both online and offline trade-in solutions. Under our trade-in solution, individual consumers typically trade in their pre-owned mobile phones in the offline retail stores or online malls of our upstream sourcing partners to compensate the purchase of new mobile phones. Individual consumers who choose to trade in their pre-owned mobile phones will generally receive discounted quote or cash coupons on the new consumer electronic devices they would like to purchase. We provide our upstream sourcing partners with the trade-in infrastructure, especially, our proprietary inspection, grading and pricing technologies, for them to offer to their customers both online and offline trade-in services.

In addition to our focus on the trade-in solutions offered to our upstream sourcing partners under our brand of Shanhuishou (閃回收), we also collect idle consumer electronics by way of sale solution through our Shanhui Youpin (閃回有品) online platform or our own online recycling stores operated on various third-party platforms, as well as under offline scenarios. Furthermore, by leveraging our established position in the PRC mobile phone recycling service market and our deep and synergistic relationship with our various upstream sourcing partners, we have also been engaged in the corporate recycling by our upstream sourcing partners to handle their excess inventories and/or demonstration consumer electronics and/or other purchase requests of consumer electronics in bulk to satisfy their diversified business needs of our upstream business partners, all of which expanded and diversified our supply channels of pre-owned consumer electronics.

## BUSINESS

The table below sets out our total procurement value of consumer electronics (including VAT) by supply channel for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025

**BUSINESS**

The table below sets out the average procurement value of consumer electronics (including VAT) that we procured by supply channel for the periods indicated:

	Year ended December 31,				Six months ended	
	2021	2022	2023	2024	2024	2025
	RMB/unit	RMB/unit	RMB/unit	RMB/unit	RMB/unit	RMB/unit
Supply procured through trade-in solution .....	521	562	557	805	816	789
– through offline trade-in solution .....	525	556	551	800	810	786
– through online trade-in solution .....	466	814	1,072	1,263	1,323	1,105
Supply procured through sale solution .....	544	635	967	883	982	789
Supply procured through corporate recycling.....	102	66	107	141	73	1,515

During the Track Record Period, a substantial percentage of the pre-owned consumer electronics we sourced from our supply channels were mobile phones. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the aggregate number of consumer electronics sourced through our entire supply channels were approximately 1,361,000, 1,737,000, 2,407,000, 1,805,000 and 819,000 units, respectively, of which approximately 1,033,000, 1,173,000, 1,505,000, 1,286,000 and 741,000 units, respectively, were sourced by way of trade-in solution, and approximately 1,004,000, 1,145,000, 1,541,000, 1,283,000 and 738,000 units, respectively, were mobile phones.

**Stable Supply through Our Strategic Cooperation with Upstream Sourcing Partners**

A stable access to upstream supply channels for pre-owned consumer electronics is critical to market players in the second-hand consumer electronics market. As such, we have taken the establishment and development of rich and stable supply channels as our business focus. Over the years, through our strategic cooperation with our upstream sourcing partners, we have established supply channels that are stable, resource-rich and synergistic.

We primarily source pre-owned consumer electronics, which include mobile phones, laptops, PC tablets, phone accessories and other digital products, through our strategic collaboration with our upstream sourcing partners, where we have been designated as one of their official pre-owned consumer electronics recycling processors for both of their retail stores and online malls. Distinguished from most of our competitors in the industry, we maintain a keen focus on providing pre-owned consumer electronics transaction services under offline trade-in solution. We believe that our business focus has provided us with access to stable and desirable supply from reliable channels. At the same time, we have also provided synergies to

---

## BUSINESS

---

our upstream sourcing partners by promoting the sale of new consumer electronics in their retail stores. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the aggregate number and the total procurement value of pre-owned consumer electronics we sourced through the channels of our upstream sourcing partners under trade-in solution were approximately 1,033,000, 1,173,000, 1,505,000, 1,286,000 and 741,000 units and approximately RMB538.1 million, RMB659.3 million, RMB838.8 million, RMB1,035.6 million and RMB585.1 million, respectively, representing approximately 75.9%, 67.5%, 62.5%, 71.2% and 90.5% of the total number and approximately 90.6%, 87.9%, 85.1%, 92.5% and 83.7% of the total procurement value of consumer electronics we sourced through our entire supply channels, respectively.

### Offline trade-in solution

Offline channel remains the major channel for pre-owned consumer electronics recycled under trade-in solution, taking up approximately 75.3% of the total market size in 2024. The total transaction value of pre-owned consumer electronics recycled under offline trade-in solution increased from approximately RMB5.0 billion in 2020 to approximately RMB14.6 billion in 2024, with a CAGR of approximately 30.7%. Considering the increasing consciousness of environmental protection and developing recycling and circulation economy, the offline market is expected to maintain an upward momentum, with the total transaction value reaching approximately RMB42.7 billion in 2028, representing a CAGR of approximately 31% from 2024 to 2028.

Generally, for transactions conducted under the offline trade-in solution, an individual consumer tenders in the pre-owned consumer electronic device that he/she wishes to trade in, and then waits at the retail store and monitors the quality inspection and pricing process of the old consumer electronic device through our recycling system designed for the front sales staff of our upstream sourcing partners' retail stores. Once the individual consumer decides to trade in his/her pre-owned consumer electronic device for a new model, he/she can pay for his/her new consumer electronic device with the deduction of price of the old device that we determine to pay for and/or with other promotion discounts, if applicable.

A typical individual consumer's journey in an offline trade-in transaction empowered by our trade-in infrastructure is as follows:

- *Certification.* The front sales staff in our upstream sourcing partners' retail stores who has received training on the use of our trade-in system first conducts a preliminary check of the pre-owned consumer electronic device regarding its brand, model, time of production, channel of prior purchase and other basic criteria. The front sales staff will take photos of the pre-owned device and upload the photos and auxiliary information of the device proposed to be traded-in using our Shanhuishou (閃回收) recycling system for review.

## BUSINESS

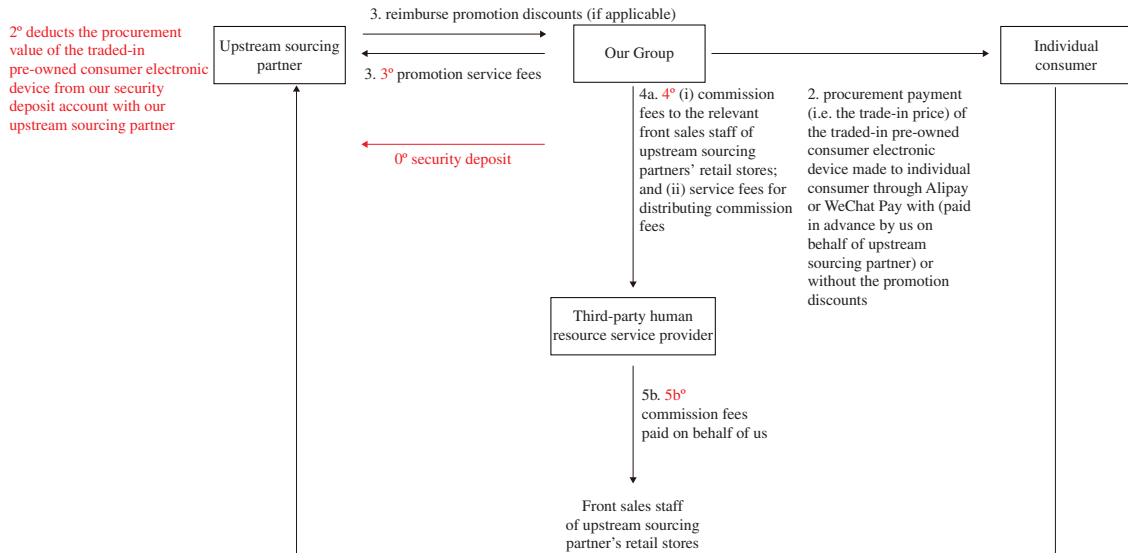

---

- *Pricing.* Once the photos and information of the device are uploaded, our back-end inspection staff will immediately examine the photos and all necessary information and display a recommended trade-in price range accordingly for the traded-in device to the front sales staff to show the individual consumer. Such trade-in price range is generated based on our pricing model applicable to both online and offline transactions. As these front sales staff are the ones who meet the individual consumers in store and close the transactions, we typically let them have the flexibility to determine the final trade-in prices they would give to individual consumers within our recommended trade-in price range under different circumstances and transactions.
- *Completion of order.* An order will be placed in-store immediately after the pre-owned consumer electronic device of the individual consumer has gone through the standard process of certification, pricing and order confirmation. Once the individual consumer finds the trade-in price quote acceptable, he/she will then be required to sign our standard recycling service agreement and provide his/her PRC ID card for uploading before we can pay to him/her. Our system will also generate a QR code and immediately transfer the amount, together with any subsidies, if applicable, directly to the individual consumer in the retail stores through Alipay or WeChat Pay.
- *Initial data erasing.* To ensure data privacy, we will remind the individual consumer to erase the data on his/her pre-owned consumer electronic device before transporting any device into our inspection centers. The front sales staff typically helps reset his/her pre-owned consumer electronic device to factory settings in front of the individual consumer or asks the individual consumer to reset the device himself/herself so that the individual consumer feels comfortable and secure about his/her privacy.
- *Purchase of new consumer electronics.* Once the previous steps have been completed, the individual consumer can proceed to purchase the new consumer electronic device that he/she intends to trade in the pre-owned consumer electronic device for. If the individual consumer opts to trade in for a new consumer electronic device available in-store, the front sales staff will also help the individual consumer migrate data from the old consumer electronic device to the new consumer electronic device if the individual consumer so requests.

## BUSINESS

The flowchart below sets out two typical flows of services and fees among us, our upstream sourcing partners and an individual consumer under our offline trade-in solution:

1. 1° A individual consumer arrives at a retail store of a upstream sourcing partner and makes a request to trade-in a pre-owned consumer electronic device
6. 6° An individual consumer makes full payment for the new model of the consumer electronic device that he/she decides to purchase

**Black:** A typical offline trade-in service transaction where we are required by upstream sourcing partners, typically Consumer Electronic Brand A, to pay the agreed trade-in prices to an individual consumer directly. When applicable, we are also required to pay promotional discounts that are offered to such individual consumer by the upstream sourcing partner in advance to facilitate the promotional sale of new models of pre-owned consumer electronics.

**Red:** A typical offline trade-in service transaction where we are required by upstream sourcing partners, typically Consumer Electronic Brand B, to make security deposit in advance to the upstream sourcing partner for conducting our recycling service transactions in its retail stores. The agreed trade-in price payable to the individual consumer in retail stores would be deducted from our security deposit account with the upstream sourcing partner, and we are required to top up our security deposit account when the balance falls below a certain level.

During the Track Record Period, we were able to leverage our proprietary recycling infrastructure to ensure seamless transaction experiences and high-quality customer service in the retail stores of our upstream sourcing partners. Benefiting from our strategic collaboration with our upstream sourcing partners, we are able to access the geographic span of our supply channels while maintaining a low operating cost model leveraging our upstream sourcing partners' geographic coverage. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis. According to Frost & Sullivan, as of the Latest Practicable Date, the aggregate number of retail stores within the sales network of our key upstream sourcing partners (including seven mainstream consumer electronic brands and/or their designated distributors, four major mobile network operators and various sizable merchants) exceeded one million stores in the PRC. With the establishment of our new strategic cooperation with the three designated distributors of Consumer Electronic Brand F in June 2024, we believe that there remains a tremendous market for us to develop.

## BUSINESS

The table below sets out the number of retail stores of our upstream sourcing partners, with which we have been collaborating with to conduct trade-in recycling business, by geographic region in the PRC for the periods indicated:

	Years ended December 31,				Six months ended June 30,
	2021	2022	2023	2024	2025
	Southern China <sup>(1)</sup> .....	3,229	4,213	4,537	5,224
Eastern China <sup>(2)</sup> .....	4,644	6,479	7,836	11,788	11,852
Northern China <sup>(3)</sup> .....	6,443	9,107	10,768	10,891	10,808
Western China <sup>(4)</sup> .....	1,912	2,557	2,876	5,413	4,695
<b>Total<sup>(5)</sup>: .....</b>	<b><u>16,228</u></b>	<b><u>22,356</u></b>	<b><u>26,017</u></b>	<b><u>33,316</u></b>	<b><u>32,900</u></b>

*Notes:*

1. Southern China includes Guangdong province, Fujian province, Guangxi Zhuang Autonomous Region and Hainan province.
2. Eastern China includes Shanghai, Jiangsu province, Zhejiang province, Anhui province, Jiangxi province, Hubei province, Hunan province and Shanxi province.
3. Northern China includes Beijing, Tianjin, Heilongjiang province, Jilin province, Liaoning province, Shandong province, Hebei province, Henan province, Shaanxi province, Gansu province, Inner Mongolia Autonomous Region and Ningxia Hui Autonomous Region.
4. Western China includes Chongqing, Sichuan province, Shaanxi province, Guizhou province, Yunnan province, Qinghai province, Xinjiang Uygur Autonomous Region and the Tibet Autonomous Region.
5. Refers to the total number of retail stores of our upstream sourcing partners that we had been cooperating with during each financial year/period.

**BUSINESS**

The table below sets out the changes in the number of our upstream sourcing partners as of the dates/for the periods indicated:

	As of/Year ended December 31,				As of/ Six months ended June 30,
	2021	2022	2023	2024	2025
Number of active <sup>(1)</sup> upstream sourcing partners as of the beginning of the financial year/period.....	1,775	1,749	2,293	3,082	2,360
Number of new <sup>(2)</sup> upstream sourcing partners engaged..	605	1,156	1,192	567	404
Number of inactive <sup>(3)</sup> upstream sourcing partners.....	(631)	(612)	(403)	(1,289)	(956)
Number of active <sup>(1)</sup> upstream sourcing partners as of the end of the financial year/period.....	1,749	2,293	3,082	2,360	1,808

*Notes:*

- Active upstream sourcing partners refer to upstream sourcing partners through which we procured pre-owned consumer electronics in that particular financial year/period.
- New upstream sourcing partners refer to the upstream sourcing partners through which we did not procure any pre-owned consumer electronics in the previous financial year/period but procured pre-owned consumer electronics in the current financial year/period.
- Inactive upstream sourcing partners refer to the upstream sourcing partners through which we had procured pre-owned consumer electronics in the previous financial year/period but did not procure any consumer pre-owned electronics in the current financial year/period.

During the Track record Period, we typically entered into framework agreements first with our key upstream sourcing partners (especially mainstream consumer electronic brands, sizable merchants and provincial subsidiaries of the PRC major mobile network operators). We would then be required to participate in the discussion of their overall strategies for trade-in solution and make relevant action plans. After that, we would start to liaise with the authorized

---

## BUSINESS

---

distributors and/or responsible persons of the authorized retail stores to provide relevant operational trainings on the recycling workflows and the use of our recycling system. Once we start to provide our recycling service in a particular retail store of our upstream sourcing partners, we will then review and revise our action plans with the relevant retail store on a weekly or monthly basis.

As our upstream sourcing partners generally have geographic expansion plans as part of their business development strategy, we believe our supply will continue to grow as our upstream sourcing partners’ business grow, and we are able to expand our supply channels horizontally and vertically in a cost-effective manner. Meanwhile, our overall business will also benefit from our increased brand presence and awareness raised by our upstream sourcing partners’ network.

### *Consumer electronic brands*

Retail stores of mainstream consumer electronic brands are a major channel for individual consumers to purchase new mobile phones. The mainstream consumer electronic brands, being the major type of our upstream sourcing partners, pay more attention to consumer experience, which helps lower the threshold of the purchases of their new models of consumer electronics while increase the end-user loyalty. With the increasing user stickiness, consumer electronic retail stores, inclusive of those operated by designated distributors of such consumer electronic brands, are a vital channel for the offline trade-in business and we identify them as our primary supply channels. Furthermore, as mobile phone manufacturers regularly provide advantageous trade-in discounts or promotional activities to increase the sales of their new models of mobile phones, it is attractive for individual consumers to trade in through their retail stores, both offline and online. During the Track Record Period, we had established cooperative relationships with seven mainstream consumer electronic brands, with their retail stores covering over 31 provinces in the PRC. During the Track Record Period, these mainstream consumer electronic brands and/or their designated distributors had become our most important upstream sourcing partners:

- ***Consumer Electronic Brand A.*** Consumer Electronic Brand A is one of the world’s largest producers of consumer electronics and a recognizable brand in technology that originated in Korea. We first established regional partnership with Consumer Electronic Brand A in March 2019, and have gradually extended our partnership to PRC nationwide trade-in services. We typically enter into collaboration agreements with Consumer Electronic Brand A and/or its designated distributors to provide our pre-owned consumer electronics recycling services in the Consumer Electronic Brand A retail stores in the PRC. We became acquainted with Consumer Electronic Brand A as it was searching the market for companies with the capabilities of providing trade-in services out of its business needs. Consumer Electronic Brand A reached out to us to discuss the possibility of cooperation and we eventually established a business relationship after negotiation.

---

## BUSINESS

---

- **Consumer Electronic Brand B.** Consumer Electronic Brand B is a Chinese company listed on the Stock Exchange and is a consumer electronics and smart manufacturing company with smartphones and smart hardware connected by an IoT platform at its core. We established partnership with Consumer Electronic Brand B in August 2018. We typically enter into collaboration agreements with Consumer Electronic Brand B and/or its designated distributors to provide our pre-owned consumer electronics recycling services in the Consumer Electronic Brand B’s retail stores in the PRC. We became acquainted with Consumer Electronic Brand B when it started to consider and eventually invested in us in 2018 as it saw potential in our future development. Consumer Electronic Brand B subsequently commenced cooperation with us after becoming our Shareholder which has also helped us to develop our recycling business.
- **Consumer Electronic Brand C.** Consumer Electronic Brand C is a leading global provider of information and communications technology infrastructure and smart devices that originated in Shenzhen, the PRC. We established partnership with Consumer Electronic Brand C in November 2021. We typically enter into collaboration agreements with Consumer Electronic Brand C and/or its designated distributors to provide our pre-owned consumer electronics recycling services in the Consumer Electronic Brand C’s retail stores in the PRC. We became acquainted with Consumer Electronic Brand C as it was searching the market for companies with the capabilities of providing trade-in services out of its business needs. Consumer Electronic Brand C reached out to us to discuss the possibility of cooperation and we eventually established a business relationship after negotiation.
- **Consumer Electronic Brand D.** Consumer Electronic Brand D is a PRC originated provider of smart devices. We established partnership with Consumer Electronic Brand D in September 2020. We have officially entered into collaboration agreements with Consumer Electronic Brand D in January 2024. We became acquainted with Consumer Electronic Brand D as it was searching the market for companies with the capabilities of providing trade-in services out of its business needs. Consumer Electronic Brand D reached out to us to discuss the possibility of cooperation and we eventually established a business relationship after negotiation.
- **Vivo.** Vivo is a PRC technology company that principally manufactures consumer electronics. We established partnership with vivo in February 2020. We typically enter into collaboration agreements with vivo and/or its designated distributors to provide our pre-owned consumer electronics recycling services in the vivo retail stores in the PRC. We became acquainted with vivo as it was searching the market for companies with the capabilities of providing trade-in services out of its business needs. Vivo reached out to us to discuss the possibility of cooperation and we eventually established a business relationship after negotiation.

---

## BUSINESS

---

- **Consumer Electronic Brand E.** Consumer Electronic Brand E is a Chinese company headquartered in Zhuhai, the PRC that principally engages in the design and production of smartphones. We established business relationship with Consumer Electronic Brand E in August 2023. We have officially entered into a collaboration agreement with Consumer Electronic Brand E in December 2023. We became acquainted with Consumer Electronic Brand E as it was searching the market for companies with the capabilities of providing trade-in services out of its business needs. Consumer Electronic Brand E reached out to us to discuss the possibility of cooperation and we eventually established a business relationship after negotiation.
- **Consumer Eletronic Brand F.** Consumer Electronic Brand F is one of the world’s largest producers of consumer electronics and providers of software and online services that incorporated and headquartered in the United States. We officially entered into collaboration agreements with three designated distributors of Consumer Electronic Brand F to provide our pre-owned consumer electronics recycling services in the Consumer Electronic Brand F’s retail stores in the PRC in June 2024. We became acquainted with these designated distributors as Consumer Electronic Brand F was searching the market for companies with the capabilities of providing trade-in services out of its business needs. We then discuss the possibility of cooperation with the designated distributors of Consumer Electronic Brand F.

### ***Merchants***

We started our cooperation with merchants for consumer electronic products since 2016, and have established strategic business relationships with various chain retailers, which are listed companies, during the Track Record Period. Most of the consumer electronic products being sold by these merchants are manufactured by the mainstream consumer electronic brands with whom we have established a deep collaboration relationship. In particular, leveraging their large-scale capital investments and comprehensive distribution network, chain retailers provide individual consumers with consumer electronic products of various brands and specifications, and are experienced in promoting sales of new models which makes them an important channel for us to provide our recycling service by way of trade-in solutions so as to attract individual consumers for new mobile phone purchase. With our partnership with these merchants, we are able to reach a larger audience through their wide area coverage in the PRC and obtain a stable supply of quality pre-owned mobile phones.

### ***Mobile network operators***

Since 2017, we have successively and gradually established cooperation with four major PRC mobile network operators in the supply of pre-owned mobile phones. We typically source the pre-owned consumer electronics through the supply channels of mobile network operators by providing trade-in solution in their retail stores. We believe that mobile network operators have more incentive to develop their trade-in network in order to fulfill the ESG requirements imposed on state-owned enterprises by the PRC government and given the national goal of achieving carbon neutrality. As such, they are more than willing to develop a cooperative relationship with us who is capable of providing meaningful facilitation to their trade-in transactions. Further, in February 2024, the General Office of the State Council issued the Opinions on Accelerating the Construction of a Waste Recycling System (《關於加快構建廢棄

---

## BUSINESS

---

物循環利用體系的意見》) which, among others, calls for the standardization of trading activities in connection with second-hand goods and encourages the development of the “internet & second-hand” business model. It also proposes to introduce regulations related to information clearance methods for consumer electronic products such as tablets and mobile phones when traded by second-hand goods trading enterprises, ensuring the security of seller information during such transactions. We see mobile network operators are starting to cooperate more with the top-ranked consumer electronics transaction service providers and chain retailers to offer trade-in solutions and therefore, their market shares in the PRC mobile phone recycling service market in terms of the transaction value of pre-owned mobile phones procured are expected to increase from approximately 10.1% in 2024 to approximately 13.7% in 2029, according to Frost & Sullivan. We believe that with the spreading of the concept of trade-in and the maturing of the business model, the pre-owned mobile phones trade-in market is trending towards a direction where mobile network operators will further enhance their market position within the industry.

In future, we intend to step up our efforts to collaborate more closely with the major mobile network operators in the PRC to promote our pre-owned mobile phone recycling services. In October 2023, we had successfully renewed our cooperative agreement with one of the major PRC mobile network operators with a term of two years. Further, in May 2024, we were shortlisted by one of the major mobile network operators to provide trade-in transaction services for a term of two years and the framework agreement is renewable subject to the parties’ negotiation. We are required to pay a promotion service fee of 8% of the recycling transaction amount to the mobile network operator pursuant to the agreement, and to provide a trade-in business plan proposal and a management optimization recommendation report at its request. Further, in June 2024, we entered into a one-year framework agreement with another major mobile network operator in the PRC to provide trade-in services and necessary trainings, and the agreement is renewable subject to the parties’ negotiation. Under these framework agreements, we have been entrusted by these mobile network operators to establish and/or develop the mobile phone recycling services in their retail stores, and provide operational and system support under our trade-in solution while facilitating the sale of their new mobile phones in retail stores. Pursuant to these new agreements, these major mobile network operators shall also provide us with all necessary documentation required for our provision and execution of trade-in service and assign specific staff members to cooperate with our operations. When these mobile network operators and/or their customers bring up specific demands, we are obliged to provide support personnel within the stipulated time frame and to offer timely and efficient services. Since then, we have initiated more frequent and intensive communication with the regional branches of these major mobile network operators across the country. We have also designated personnel to liaise with each branch, dedicated to matters such as conducting on-site visits, discussing business implementation, providing business training, conducting daily work reviews, and answering questions for employees of the mobile network operators. Such communications are conducted on a weekly, and sometimes daily, basis. In November 2024, we collaborated with the Guangdong branch of one major mobile network operator in the PRC on a joint marketing campaign for trade-in, maintaining close communication with the staff of the mobile network operator and reporting sales data daily in our work group. In addition, we are also under the negotiation for the renewal of our cooperative arrangement with one of the major mobile network operators who entered into framework with us during the Track Record Period.

**BUSINESS**

The table below sets out our cost of procurement of pre-owned consumer electronics<sup>(1)</sup> that we procured through the online or offline retail stores of our upstream sourcing partners (including VAT) and the revenue attributable to such upstream sourcing partners for the periods indicated:

## BUSINESS

---

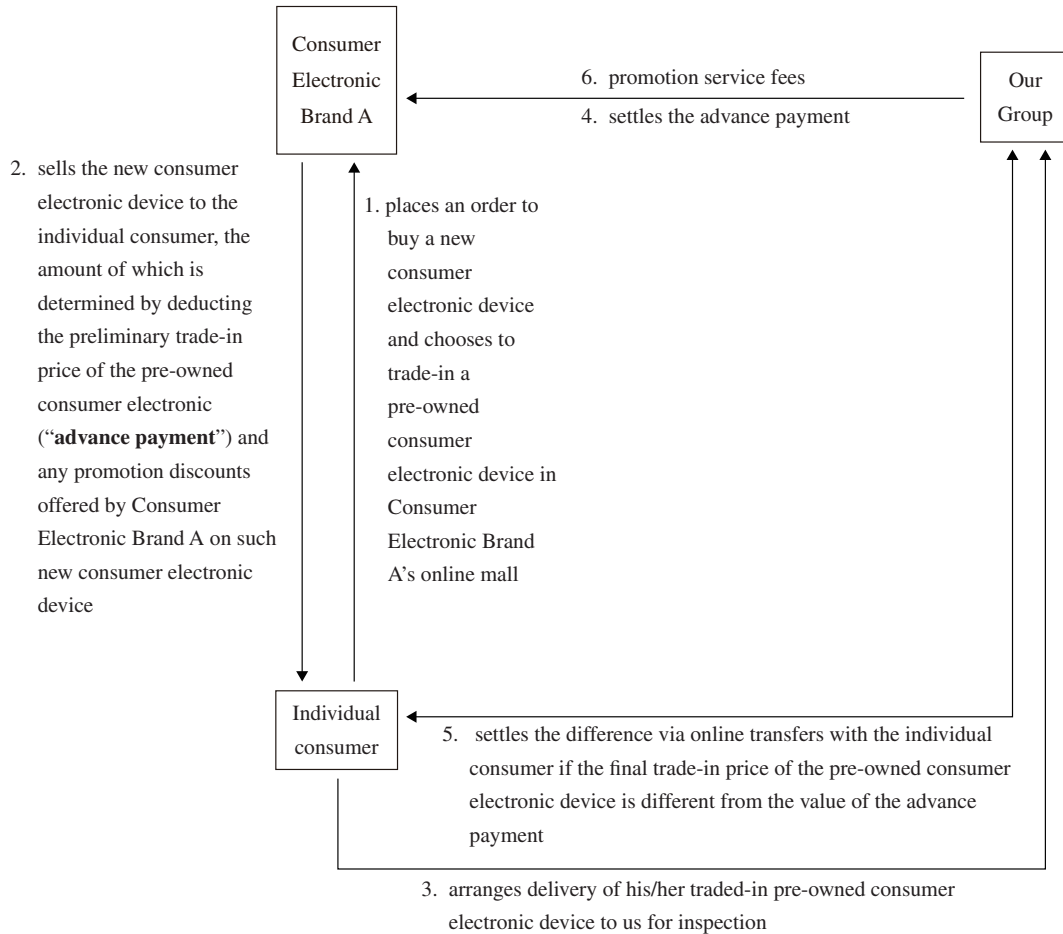

### **Online trade-in solution**

On top of our offline trade-in channels that constitute our major supply sources, we also cooperate with mainstream consumer electronic brands empowering their online trade-in transactions through embedding our proprietary recycling system in their online malls. When a consumer makes purchase of a new consumer electronic device in the online malls of such consumer electronic brands, we will conduct an inquiry and assessment of the condition of the pre-owned consumer electronic device proposed to be traded-in. After such consumer places the order, we will arrange pick-up by a third-party logistic service provider at the consumer's designated location, or the consumer may choose to go to a nearby retail store to delivered the device in person. Apart from deducting the trade-in price of the pre-owned consumer electronic device from the purchase price of the new consumer electronic device, our online trade-in solution will also allow individual consumers to receive an electronic coupon which can be used against his/her purchase of the new consumer electronic device. After our inspection of the delivered pre-owned consumer electronic device traded-in, if the final pricing is different from the initial assessment, we will subsequently make up the difference to the consumer.

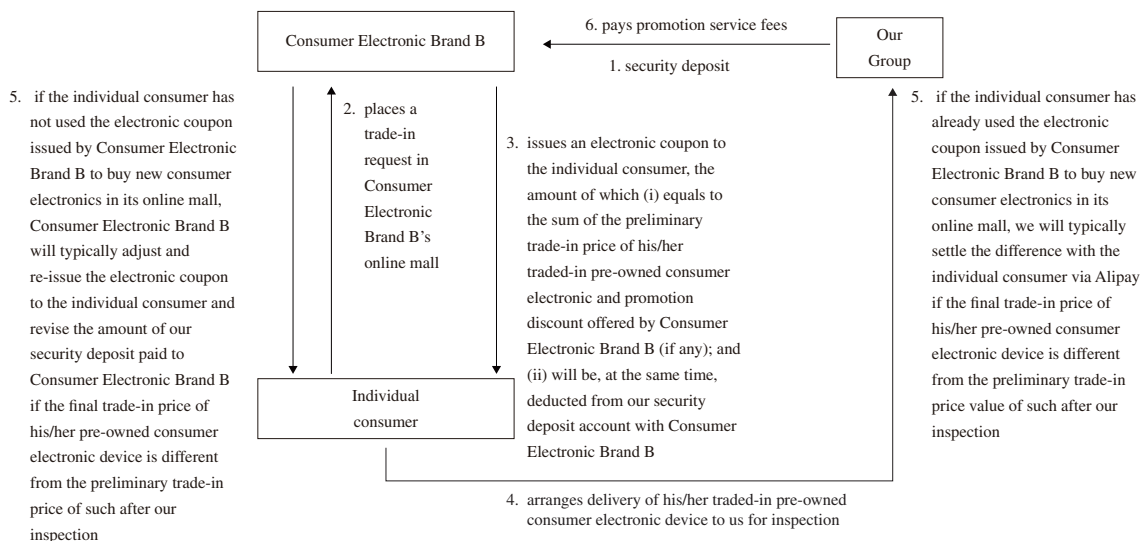

As of June 30, 2025, we had cooperated with Consumer Electronic Brands A and B to provide our online trade-in solution in their online malls. Pursuant to our cooperation arrangements with these two mainstream consumer electronic brands, we either adopt a prepayment and security deposit mechanism or such mainstream consumer electronic brand will first make payments to the consumers on our behalf and settle such payments with us on a monthly basis. We may also pay promotion service fees to these mainstream consumer electronic brands for embedding our recycling system in their online malls. We adopt different payment arrangements for these two mainstream consumer electronic brands to meet their different internal control requirements. The adoption of these two different payment arrangements had not placed any burden on our business and/or financial operations during the Track Record Period. We are currently exploring business opportunities with other mainstream consumer electronic brands that we already partnered with, with respect to offering our online trade-in solutions to them.

**BUSINESS**

The flowchart below sets out a typical flow of services and fees among us, Consumer Electronic Brand A and an individual consumer under our online trade-in solution:

## BUSINESS

---

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, (i) the total procurement value of pre-owned consumer electronics we sourced through our upstream sourcing partners under our trade-in solutions (including offline and online) amounted to approximately RMB538.1 million, RMB659.3 million, RMB838.8 million, RMB1,035.6 million and RMB585.1 million, respectively; (ii) the total promotion discounts we paid in advance to individual consumers on behalf of our upstream sourcing partners under our trade-in solutions amounted to approximately RMB134.8 million, RMB177 million, RMB330 million, RMB197.3 million and RMB75.2 million, respectively; (iii) the total advance payment that paid to the individual consumers by Consumer Electronic Brand A on our behalf under our online trade-in solutions amounted to approximately RMB4.6 million, RMB8.7 million, RMB19 million, RMB7.4 million and nil, respectively; (iv) the total promotion service fees we paid to the relevant upstream sourcing partners amounted to approximately RMB37.8 million, RMB31.6 million, RMB30.1 million, RMB48.2 million and RMB27.7 million, respectively; and (v) the total commission fees we paid to the relevant front sales staff of our upstream sourcing partners’ retail stores amounted to approximately RMB32.8 million, RMB45.3 million, RMB44.4 million, RMB49.9 million and RMB18.1 million, respectively.

### **Our Business Arrangements with Our Upstream Sourcing Partners**

We believe that our synergistic collaborations with our upstream sourcing partners have been mutually beneficial. Being one of the consumer electronics recycling service providers in collaboration with the mainstream consumer electronic brands, sizable merchants for consumer electronic products and major mobile network operators, we have created a high entry barrier, which has secured us a sufficient and stable supply of pre-owned consumer electronics for our business.

During the Track Record Period, we strategically cooperated with mainstream consumer electronic brands where we have been designated as an official pre-owned mobile phone recycling service processor to handle their trade-in transactions of pre-owned mobile phones and other consumer electronics. Our established business cooperations with sizable merchants and major mobile network operators in the PRC have also created a wide and dispersed network from which we are able to source pre-owned consumer electronics to establish our competitive supply control. Leveraging our asset-light business model and benefiting from the simplicity of setting up and embedding our Shanhuishou (閃回收) recycling system in our upstream sourcing partners’ retail stores, we are able to spread our services to numerous retail stores within a relatively short period. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis.

In addition, we add synergies to our upstream sourcing partners by providing value-added services to empower the sale of their new models of mobile phones in retail stores through offering professional training to their front sales staff to use our recycling system and provide recycling services to their customers. We also closely work with our upstream sourcing partners, especially mainstream consumer electronic brands, on new business initiatives, including helping them launch new product categories and prepare for promotion activities. Furthermore, in late 2023, driven by the strong demands of certain mainstream consumer

---

## BUSINESS

---

electronic brands we partner with, we have extended our partnership and recycling transaction services to Hong Kong to facilitate their local business development. In October 2023, we had also successfully obtained Radio Dealers Licence (Unrestricted) (無線電商牌照) in Hong Kong. We commenced to provide our offline trade-in recycling transaction service in Hong Kong since November 2023 for Consumer Electronic Brand B, and sell the same through our local sales channels. Furthermore, we joined Consumer Electronic Brand B as its strategic business partner to visit Singapore, Malaysia, Thailand and Indonesia in July 2024, and conducted market research in these local markets. We then subsequently incorporated PT Shanhuai in February 2025. As such, we intend to recruit more personnel to further develop and solidify our trade-in mobile phone recycling service capability in Hong Kong, and make it our overseas headquarters for our future expansion of trade-in transaction services in other Southeast Asian countries. For more details of our future plans in Hong Kong, please refer to “– Our Strategies” in this section and “Future Plans and [REDACTED]” in this document.

Even though our agreements with the key upstream sourcing partners for the provision of trade-in recycling services are generally on a non-exclusive basis, we consider our collaboration with our upstream sourcing partners has the following features:

- *Upstream sourcing partners have higher willingness to collaborate.* As our proposition to recycle pre-owned consumer electronics under the trade-in solution incentivizes the sales of new consumer electronics, our upstream sourcing partners which are sellers of new consumer electronics are willing to collaborate with us under such approach while we are able to secure a guaranteed source of pre-owned consumer electronics during trade-in.
- *Our collaboration model creates stickiness between our upstream sourcing partners and us.* We maintained high-level stickiness with our upstream sourcing partners as we have been focusing on providing recycling and other value-added services to help them empower the sale of new models of their mobile phones in their retail stores. We also closely work with our upstream sourcing partners, especially consumer electronic brands, on new business initiatives, including helping them launch new product categories and prepare for promotion activities.
- *Our exploration of diversified cooperation models together with our business partners is beneficial.* To ensure our competitiveness, we discuss with our upstream sourcing partners from time to time to explore new cooperation models to stimulate individual consumers’ willingness to trade in pre-owned consumer electronics and enhance the synergy and stickiness between us and our upstream sourcing partners. For example, we have become a regular processor of certain consumer electronic brands for handling their excess inventories and demonstration devices which cannot be sold as brand-new products. We purchase such devices and resell them on our sales platforms.

Our relationships with our upstream sourcing partners are primarily governed by the framework collaboration agreements (“**Collaboration Agreements**”) entered into between them and us. Pursuant to the Collaboration Agreements, the front sales staff of our upstream sourcing partners will use our Shanhuishou (閃回收) recycling system, and complete the

## BUSINESS

---

trade-in process of pre-owned consumer electronics for the individual consumers. We will then arrange for subsequent collection of these procured consumer electronics at the retail stores of our upstream sourcing partners or the locations designated by the individual consumers if it's online. The ownership and legal risks of the pre-owned consumer electronics will transfer to us after the front sales staff has inspected and accepted the pre-owned consumer electronics and we have paid for the recycling of such devices.

We typically pay an agreed percentage of the total monthly procurement value of the consumer electronics we procured as promotion service fees to certain of our upstream sourcing partners and/or commission fees to their relevant front sales staff based on the arrangements with them tailored to their specific conditions and needs. We review such arrangements from time to time and negotiate with our upstream sourcing partners when the need for adjusting the promotion service and commission fee arrangement arises based on the performance of each retail store of our upstream sourcing partners and taking into account various factors such as, promotion events or market conditions. Our upstream sourcing partners may also initiate an application to adjust the promotion service and commission fee arrangement by contacting our staff directly. Where the upstream sourcing partner and our staff responsible for such negotiation have come to a consensus about the adjustment, and once the proposed adjustment has been approved by our key management, we would follow the new arrangement and pay the relevant promotion service fee and commission fees to the corresponding retail store of our upstream sourcing partners and their relevant front sales staff.

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our promotion service and commission fees paid amounted to approximately RMB70.6 million, RMB76.9 million, RMB74.4 million, RMB98.1 million and RMB45.8 million, representing approximately 9.4%, 8.4%, 6.4%, 7.6% and 5.7% of our total revenue for the same periods, respectively. Our promotion service and/or commission fees as a percentage of our revenue generally decreased primarily because that (i) our bargaining power in negotiating the promotion service fees with our upstream sourcing partners had gradually increased during the Track Record Period due to our service offering, that was, while we provided recycling services to our upstream sourcing partners by way of trade-in, we also facilitated the sale of their new models of mobile phones; and (ii) we have been continuously optimizing our commission fee structure by providing our recommended range of trade-in prices in advance to the front sales staff of our upstream sourcing partners' retail stores. As these front sales staff are the ones who meet the consumers in-store and close the transactions, we typically let them have the flexibility to determine the final trade-in prices they would give to consumers within our recommended trade-in price range under different circumstances and transactions. Our promotion service and/or commission fees as a percentage of our revenue increased for the year ended December 31, 2024, primarily due to the reason that we increased the commission fees paid to the front sales staff of our upstream sourcing partners' retail stores, and also our trade-in prices of pre-owned mobile phones of similar models and/or quality as compared to previous years under our trade-in solution, so that we would be able to keep up our recycling volume and maintain our market share to cope with the increasing competitive

---

## BUSINESS

---

market environment and the challenging macroeconomic condition, which also led to softened consumer demand for consumer electronics and thus trade-in services in the PRC. For more details, please refer to “Financial Information – Period to Period Comparison of Results of Operations” in this document.

The following are the salient terms of our typical existing agreements with our major upstream sourcing partners:

- **Term.** The term of our collaboration agreement is usually one year with consumer electronic brands, and one to two years with merchants or mobile network operators, and renewable upon mutual agreement at the end of term.
- **Price and payment.** We are responsible for determining the initial trade-in price of pre-owned consumer electronics and issuing payment to individual consumers, taking any promotion discounts into calculation, if applicable. We are required to pay promotion discounts that were offered to individual consumers by certain consumer electronic brands but paid by us in advance to facilitate the promotional sales of their new models of mobile phones transacted under our trade-in solution; or to make security deposit in advance for conducting our recycling service transactions in their retail stores and online mall. For one certain mainstream consumer electronic brand, it would make payments in advance on behalf of us to procure the pre-owned consumer electronics from individual consumers for our online trade-in solution transaction services conducted in its online mall. We typically reconcile the accounts with these consumer electronic brands on a monthly basis and then settle the relevant promotion discount payments or advanced payments with them within three months, or make up the agreed amount of security deposit when the balance falls below a certain level.
- **Processing method.** Our agreement usually stipulates that the pre-owned consumer electronics we procure should be processed through product sales, sales through recyclers’ distribution channels, and dismantling into scrap metal for environmental protection. In compliance with the relevant laws and regulations, we may provide certain information of the pre-owned consumer electronics to relevant electronics manufacturers, including but not limited to the serial numbers, for electronics manufacturers to provide after-sales service.
- **Delivery.** The pre-owned consumer electronics collected by our upstream sourcing partners will be delivered to us within certain period or when certain conditions are met, such as the aggregate trade-in price of the consumer electronics exceeding a designated amount. The delivery is usually handled by a third-party logistic service provider that we cooperate with.

---

## BUSINESS

---

- **Promotion service fee and commission arrangement.** We typically pay an agreed percentage of the total monthly procurement value of the pre-owned consumer electronics we procured through retail stores and/or online malls of our upstream sourcing partners as promotion service fees to our upstream sourcing partners and/or as commission fees to their front sales staff, based on the relevant terms of the Collaboration Agreements. We typically reconcile the accounts with our upstream sourcing partners on a monthly basis. During the Track Record Period, the promotion service and commission fees paid to our certain upstream sourcing partners and their relevant front sales staff as a percentage of our cost of procurement of pre-owned consumer electronics was approximately 12%, 10.4%, 7.7%, 8.9% and 6.6% for the years ended December 31, 2021, 2022, 2023, 2024 and the six months ended June 30, 2025, respectively.
- **Termination.** The agreement may be terminated in writing upon mutual consent and may be unilaterally terminated by either party subject to the relevant terms of the Collaboration Agreements.

The terms of the agreement we signed with Consumer Electronic Brand B are comparable to and no less favorable than those with our other upstream sourcing partners, even though Consumer Electronic Brand B is one of our [REDACTED] Investors. To the best knowledge of our Directors, some of our key upstream sourcing partners have engaged some of our competitors for such services and the impact on the supply of pre-owned consumer electronics is primarily reflected in the necessity for us to compete with them in terms of service quality and coverage. This competition has, inevitably, compelled us to generally increase our recycling prices for the pre-owned mobile phones traded-in in their retail stores, which in turn, led to a decrease in our gross profit margin from the sale of pre-owned mobile phones procured through the supply channels of such upstream sourcing partners.

During the Track Record Period, we had engaged third-party human resource service providers for commission distribution purpose considering the large number of front sales staff and varied arrangements with different upstream sourcing partners' retail stores. These third-party human resource service providers are primarily responsible for settling the commission fees on behalf of us with the relevant front sales staff of our upstream sourcing partners' retail stores in accordance with their respective arrangement, which help us reduce administrative overheads.

The following are the salient terms of our typical existing agreements with our third-party human resource service providers:

- **Term.** The term of our agreement is usually one to two years. The agreement is either automatically renewed upon expiration of the term unless a party objects, or a new contract shall be signed if the parties wish to continue the cooperation.

---

## BUSINESS

---

- **Fees.** The fees that we pay to the third-party human resource service provider is typically comprised of (i) the commission fees paid to the front sales staff of our upstream sourcing partners; and (ii) the service fee paid to such service provider which is typically around 6% of the amount in (i).
- **Payment.** We typically reconcile the accounts with the third-party human resource service providers on a monthly basis. We either pay within three business days upon receiving the notice for payment, or alternatively, make pre-payment to our account with them which will be transferred to their account upon reconciliation.
- **Termination.** The agreement may be terminated upon mutual consent and may be unilaterally terminated by either party subject to the relevant terms of the agreements.

### **Our top five upstream sourcing partners**

We became acquainted with our key upstream sourcing partners mostly because they were searching the market for companies with the capabilities of providing consumer electronics recycling services out of their business needs, and they reached out to us to discuss the possibility of cooperation and eventually established a business relationship with them with us after negotiation. In particular, we became acquainted with upstream sourcing partner A because of its strategic investment into us. Upstream sourcing partner A commenced cooperation with us after becoming our Shareholder which has also helped us to develop our recycling business.

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our procurement value of pre-owned consumer electronics with our top five upstream sourcing partners by way of trade-in solution in each year/period of the Track Record Period accounted for approximately 59.5%, 51.1%, 34.7%, 62.3% and 72.3% of our total procurement value of pre-owned consumer electronics we sourced under trade-in solution and approximately 53.9%, 45%, 29.4%, 57.6% and 60.5% of our total procurement value of pre-owned consumer electronics we sourced through our entire supply channels, respectively. Our procurement value of pre-owned consumer electronics with our largest upstream sourcing partner by way of trade-in solution in each year/period of the Track Record Period accounted for approximately 45.2%, 44.7%, 29.1%, 44.8% and 49.3% of our total procurement value of pre-owned consumer electronics we sourced under trade-in solution and approximately 40.9%, 39.3%, 24.8%, 41.5% and 41.3% of our total procurement value of pre-owned consumer electronics we sourced through our entire supply channels for the same period, respectively. According to Frost & Sullivan, it is consistent with the industry norm to have a substantial amount of pre-owned consumer electronics procured through the supply channels of a certain number of upstream sourcing partners under trade-in solution in the PRC.

## BUSINESS

---

Although we were subject to upstream sourcing partner concentration risk during the Track Record Period, we have been taking measures to lower the concentration risk among our five largest upstream sourcing partners during the Track Record Period, including steadily expanding the number of our upstream sourcing partners (i.e. the number of our active upstream sourcing partners as of December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025 were 1,749, 2,293, 3,082, 2,360 and 1,808, respectively). Furthermore, our top five upstream sourcing partners in each year/period had been changing, indicating that we have been putting efforts to lower our concentration risks to a particular key upstream sourcing partner. Although upstream sourcing partner A had been our largest upstream sourcing partner during each year/period of our Track Record Period, our procurement from the supply channels of other key upstream sourcing partners have been gradually picking up. In addition, as confirmed by Frost & Sullivan, it is the industry norm to have a substantial amount of pre-owned consumer electronics procured through the supply channels of a certain number of upstream sourcing partners, particularly mainstream consumer electronic brands and their designated distributors. In order to control procurement costs and risks and to secure sufficient and quality supplies, consumer electronics transaction service providers often choose a centralized procurement strategy and procure pre-owned consumer electronics through a few key upstream sourcing partners. This centralized strategy helps to improve procurement efficiency and bargaining power, and at the same time, facilitates the internal management of supplies. Further, most of our key upstream sourcing partners are large and reputable companies, such as mainstream international or domestic consumer electronic brands, reputable and sizable chain retailers and major mobile network operators. Individual consumers are more likely and willing to buy new models of consumer electronics in the retail stores of these upstream sourcing partners and use the trade-in services offered therein. As such, it will typically be a big competitive advantage for the consumer electronics transaction service providers if they can secure stable and quality supply of pre-owned consumer electronics in a relatively large volume based on their established stable and long-term cooperative relationship with those key upstream sourcing partners.

As of June 30, 2025, we had an average of approximately five years of business relationship with all of our top five upstream sourcing partners in each year/period of the Track Record Period. As of the Latest Practicable Date, we were not aware of any information or arrangements, which would lead to cessation or termination of our relationships with any of our top five upstream sourcing partners in each year/period of the Track Record Period.

During the Track Record Period and as of the Latest Practicable Date, none of our Directors or their respective associates, or any of our existing Shareholders, to the best knowledge of our Directors, had any interest in any of our upstream sourcing partners in each year/period of the Track Record Period, except for upstream sourcing partner A, which were also one of our top five suppliers during the Track Record Period and our related parties. For more details of our transactions with upstream sourcing partner A, please refer to “Financial Information – Related Party Transactions” in this document.

## BUSINESS

The tables below set out the basic information of our top five upstream sourcing partners in each year/period of the Track Record Period:

*For the year ended December 31, 2021*

Ranking	Upstream sourcing partner	Background of upstream sourcing partner	Major products procured	Procurement value under trade-in solution  (approximately RMB'000)	Approximate % of total procurement value under trade-in solution	Approximate % of total procurement value	Revenue attributable to the upstream sourcing partner <sup>(2)</sup>  (approximately RMB'000)	Approximate % of total revenue	Year of commencement of business with us
1.	Upstream sourcing partner A <sup>(1)</sup> .....	A China-based company (with its subsidiaries) listed on the Stock Exchange that is a consumer electronics and smart manufacturing company with smartphones and smart hardware connected by an IoT platform at its core and a mainstream PRC consumer electronic brand (Consumer Electronic Brand B) headquartered in Beijing, the PRC. ### Sale Solution

Apart from the trade-in solution which is our main business focus, we also collect idle devices from individual consumers by way of sale solution where individual consumers recycle pre-owned consumer electronics in exchange for cash. During the Track Record Period, we primarily provided our sale solution for our recycling services conducted online. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the aggregate number and the total procurement value of consumer electronics we sourced through our supply channels by way of sale solution were approximately 51,000, 94,000, 58,000, 13,000 and 4,000 units and approximately RMB27.8 million, RMB59.7 million, RMB56.1 million, RMB11.8 million and RMB3.2 million, respectively, representing approximately 3.7%, 5.4%, 2.4%, 0.7% and 0.5% of the total number and approximately 4.7%, 8%, 5.7%, 1.1% and 0.5% of the total procurement value of consumer electronics we sourced through our entire supply channels, respectively.

---

## BUSINESS

---

### Self-operated online recycling platform

During the Track Record Period, we had operated our online recycling platform under the brand of Shanhui Youpin (閃回有品), which enabled individual consumers to sell their pre-owned consumer electronics for cash. For a typical consumer who uses our online recycling platform we provide a seamless transaction experience as follows:

- ***Device condition inquiry.*** On the main page of the gateway, the consumer can choose the type of device he or she intends to sell, followed by the brand and model. The consumer is then guided to answer a series of questions about the condition of the device, including time and channel of purchase, whether the device functions normally, whether the screen remains intact, whether there are any damages to the body of the device, terms of warranty left and other dysfunctionalities, if any.
- ***Estimated pricing.*** Upon providing responses to the set of questions, a consumer obtains estimated pricing in real time. The pricing is automatically generated by our pricing model leveraging our central database, taking into consideration the brands, models and condition of the devices, the historical recycling, sales data and market demand of similar devices, the recycling prices may be offered by our competitors for the same model if any, the promotion service fees to be paid to the relevant upstream sourcing partners and the commission fees to be paid to the relevant front sales personnel, our target profit margin, and other various transaction costs. The consumer is then able to decide whether to proceed with the trade-in based-on the estimated pricing.
- ***Confirm sale order.*** If the estimated pricing meets the consumer’s expectation, the consumer can place an order to sell the device. The consumer may choose to request arrangement of a pick-up by the logistic service provider we cooperate with at his or her designated location, or courier the device directly to our inspection center, where the device is inspected, graded and priced.
- ***Inspection, grading and pricing.*** Upon receiving the device from the consumer, we apply our standard inspection, grading and pricing process and examine the condition of the device. We then provide the consumer with a final quote leveraging our proprietary pricing model. Our consumer service team will answer any potential questions the consumer may have regarding the final price quote for the pre-owned consumer electronic device.
- ***Completion of order.*** If the consumer agrees to the final price quote, we will complete the order by issuing payment to the consumer and erasing all user data stored in the device. If the consumer is not satisfied with the price quote and asks to cancel the order, we will send the device back to the consumer within 48 hours upon receipt of a cancellation request. The logistics fee for such return is generally borne by the consumer.

## BUSINESS

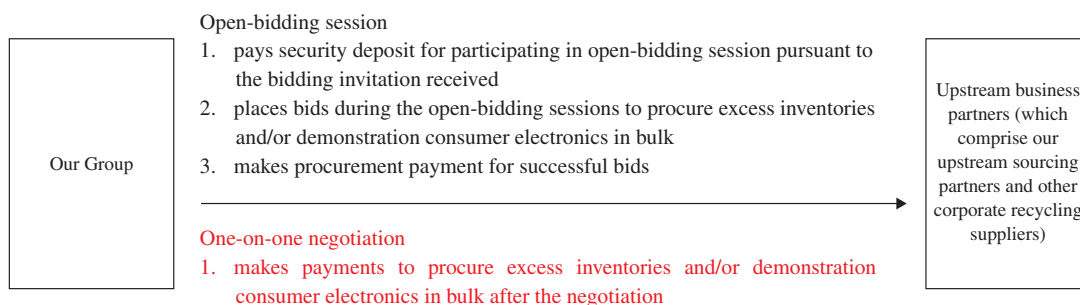

### Other online recycling channels

In addition to our proprietary Shanhuishou (閃回收) recycling system, we have also cooperated with certain third-party platforms to provide our recycling services under sale solution to their customers. For instances, we have embedded and/or in the process of embedding our Shanhuishou (閃回收) mini-program in the mobile applications of certain PRC commercial banks to recycle the idle consumer electronics of their customers with ease and convenience. In addition, we have also developed a few mini-programs which can be accessed through mainstream PRC social media and payment applications which provide recycling services of pre-owned consumer electronics and act as a supplement to our own online recycling stores.

### Corporate Recycling

Leveraging our established position in the PRC mobile phone recycling service market and our deep and synergistic relationship with our various upstream sourcing partners, we have become a regular processor of certain consumer electronic brands and various corporations to handle their excess inventories and/or demonstration consumer electronics which cannot be sold as brand-new products. We typically purchase such consumer electronics in bulk through open bidding sessions or one-on-one negotiations and then resell them to our customers. We also, occasionally, handle other recycling requests of consumer electronics in bulk to satisfy the diversified business needs of our upstream business partners. We believe that our corporate recycling services have diversified our collaboration methods with our upstream sourcing partners, which in turn, contributes to an enhanced stickiness between us and our upstream sourcing partners, especially, the mainstream consumer electronic brands. By offering customized recycling services to corporations, we are able to satisfy their needs for diverse business scenarios, all of which expanded and diversified our supply channels of pre-owned consumer electronics.

The flowchart below sets out a typical flow of services and fees between us and an upstream business partner where we procure consumer electronics in bulk through open-bidding session or one-on-one negotiation for our corporate recycling:

---

## BUSINESS

---

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the aggregate number and the total procurement value of consumer electronics we sourced through corporate recycling were approximately 277,000, 470,000, 844,000, 506,000 and 74,000 units and approximately RMB28.1 million, RMB31 million, RMB90.6 million, RMB71.6 million and RMB111 million, respectively, representing approximately 20.4%, 27.1%, 35.1%, 28.1% and 9% of the total number and approximately 4.7%, 4.1%, 9.2%, 6.4% and 15.9% of the total procurement value of consumer electronics we sourced through our entire supply channels for the same periods, respectively.

The following are the salient terms of our typical existing agreements with certain upstream sourcing partners and various corporations for corporate recycling:

- **Term.** Our agreement in connection with corporate recycling services is either an agreement of a fixed term of usually one to two years or an one-off agreement.
- **Methods of collaboration.** The agreements in connection with corporate recycling usually stipulate that we agree to purchase certain excess inventories of our upstream sourcing partners on an “as is” basis, or that we will facilitate with the disposition of demonstration devices and conduct inspection and grading of such devices.
- **Payment.** In the event that we are the buyer or the successful bidder during open bidding sessions for handling the consumer excess inventories, we usually pay the purchase price of the devices within three business days of the award of contract notice. In the event that we bid for our purchase demonstration devices, we typically provide a quote after inspection and make payments within three days after the quote has been confirmed and accepted.
- **Delivery.** Depending on our specific arrangements with different consumer upstream sourcing partners and various corporations, we either pick up the procured devices at their designated locations, or they will deliver the devices to us under which scenario the courier fee is usually borne by us.
- **Representations and warranties.** The agreements in connection with corporate recycling usually stipulate that we shall not sell the devices we procured as new devices.

### **Our top five upstream business partners under corporate recycling**

We became acquainted with upstream business partners under corporate recycling mostly under the business scenario that they released a tender notice to market participants and we would participate in the bidding process, ultimately winning the bid and thereby initiating business cooperation.

Our procurement value with our top five upstream business partners under corporate recycling in each year/period of the Track Record Period accounted for approximately 98.8%, 99.2%, 98.2%, 87.9% and 88.6% of our total procurement value we sourced through corporate recycling and approximately 4.2%, 3.8%, 8.2%, 5.7% and 14% of our total procurement value we sourced through our entire supply channels for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively, and the procurement value with our largest upstream business partner under corporate recycling in each year/period of the Track Record Period accounted for approximately 71.7%, 58.3%, 42.1%, 49.9% and 80.6% of our total procurement value we sourced through corporate recycling and approximately 3.1%, 2.2%, 3.5%, 3.2% and 12.8% of our total procurement value we sourced through our entire supply channels for the same period, respectively. As of June 30, 2025, we had an average of approximately four years of business relationship with all of top five upstream business partners under corporate recycling in each year/period of the Track Record Period. As of the Latest Practicable Date, we were not aware of any information or arrangements, which would lead to cessation or termination of our relationships with any of our top five upstream business partners under corporate recycling in each year/period of the Track Record Period.

During the Track Record Period and as of the Latest Practicable Date, none of our Directors or their respective associates, or any of our existing Shareholders who, to the best knowledge of our Directors, owned 5% or more of the issued share capital of our Company, had any interest in any of our top five upstream business partners under corporate recycling in each year/period of the Track Record Period, except for upstream business partner A, which were one of our top five suppliers during the Track Record Period and our related parties. For more details of our transactions with upstream business partner A, please refer to “Financial Information – Related Party Transactions” in this document.

## BUSINESS

---

### **Our Top Five Suppliers**

During the Track Record Period, we procured (i) pre-owned consumer electronics from the channels of our upstream business partners, primarily including our upstream sourcing partners, through trade-in solution, sale solution and corporate recycling; and (ii) other services, such as labor and commission distribution services and delivery and logistics services, from our third-party service suppliers. For pre-owned consumer electronics we procured from the channels of our upstream sourcing partners, our ultimate suppliers are vast amount of individual consumers who trade in or recycle their pre-owned consumer electronics either offline or online. We have established stable business relationships with our upstream business partners. As of June 30, 2025, we had an average of approximately four years of business relationship with all of our top five suppliers in each year/period of the Track Record Period.

During the Track Record Period and as of the Latest Practicable Date, none of our Directors or their respective associates, or any of our existing Shareholders who, to the best knowledge of our Directors, owned 5% or more of the issued share capital of our Company, had any interest in any of our top five suppliers in each year/period of the Track Record Period, except for Supplier A, which are our related parties. For more details of our transactions with Supplier A, please refer to “Financial Information – Related Party Transactions” in this document. Our procurement value with our top five suppliers in each year/period of the Track Record Period accounted for approximately 7.4%, 9.3%, 11.3%, 9.6% and 15.2% of our total procurement value for the years ended December 31, 2021, 2022, 2023, 2024 and the six months ended June 30, 2025, respectively, and the procurement value to our largest supplier in each year/period of the Track Record Period accounted for approximately 3.1%, 5%, 3.8%, 3.4% and 11.2% of our total procurement value for the same periods, respectively. As of the Latest Practicable Date, we were not aware of any information or arrangements, which would lead to cessation or termination of our relationships with any of our top five suppliers in each year/period of the Track Record Period.

**BUSINESS**

The tables below set out the basic information of our top five suppliers in each year/period of the Track Record Period:

*For the year ended December 31, 2021*

Ranking	Supplier	Background of the supplier	Major products and/or services procured	Procurement value with the supplier  (approximately RMB'000)	Approximate % of total procurement value	Year of commencement with us	Credit term	Payment method
1.	Supplier A <sup>(1)</sup> .....	A China-based company (with its subsidiaries) listed on the Stock Exchange that is a consumer electronics and smart manufacturing company with smartphones and smart hardware connected by an IoT platform at its core and a mainstream PRC consumer electronic brand (Consumer Electronic Brand B) headquartered in Beijing, the PRC.	Consumer electronics procured from Supplier A through corporate recycling; promotion service fees paid to Supplier A for the supply procured through trade-in solution	23,134	3.1	2018	For consumer electronics procured through corporate recycling; within three business days of the award of contract or after the quote has been confirmed and accepted/For promotion service fee: within five working days after the reconciliation accounts have been confirmed with Supplier A	Online transfer
2.	SF Holding Co., Ltd. ....	A PRC company (with its subsidiaries) listed on Shenzhen Stock Exchange (stock code: 002352) with headquarters in Shenzhen, Guangdong province, and principally engages in providing logistics services.	Delivery and logistics services	10,883	1.5	2017	Within 30 calendar days after the end of each month	Online transfer

## INSPECTION, GRADING AND PRICING OF PRE-OWNED CONSUMER ELECTRONICS

Upon receiving the pre-owned consumer electronics, we have dedicated inspection personnel to conduct final inspection to determine their actual conditions and value, and to perform pre-sale classification. Our inspection process relating to pre-owned consumer electronics generally follows the standards below:

- Upon receipt.** A label will be affixed to each device received and unpacked as its unique identification code during our inspection process.
- Testing, inspection and grading.** Testing on the functionalities of the mobile phones will be conducted according to our standard testing procedures, and the devices will be classified into various levels according to our rules and testing results; different levels of devices will be allocated to different sale flows and sold to different buyers.

---

## BUSINESS

---

3. **Pricing.** Based on our inspection and grading process, a recycling price is automatically generated by our pricing model and algorithm leveraging our central database, mainly taking into consideration the brands, models and condition of the devices, the historical recycling, and sales data and market demand of similar devices, the recycling prices may be offered by our competitors for the same model if any, the promotion service fees to be paid to the relevant upstream sourcing partners and the commission fees to be paid to the relevant front sales personnel, our target profit margin, and other various transaction costs.
4. **Data erasing.** We generally remind consumers to restore factory settings when they recycle pre-owned mobile phones by way of acknowledgement of our terms and conditions. Our inspection center will also utilize our self-developed application to overwrite and erase each device during the inspection process. Our data erasing procedure is in line with the relevant rules and regulations.
5. **Warehousing for sale.** After the inspection and classification, we perform limited touch-ups to the pre-owned mobile phones, such as exterior cleaning, proceed to packaging according to pre-sale classification and list them on our Shanhui Youpin (閃回有品) online platform as well as our own online stores operated on other third-party e-commercial platforms for sales.

We have adopted the following measures to ensure that the pre-owned consumer electronics procured through our offline and online supply channels have not been illegally obtained: (a) consumers will be reminded that they must have legal authority to dispose of the device during the recycling process by way of acknowledgement of our terms and conditions; (b) real-name verification is mandatory for devices recycled through offline trade-in or, sale solution; (c) with respect to procurement through online supply channels, the pre-requisite for online payment of the device is that the consumer has completed real-name verification on the respective payment platform; and (d) we refuse to recycle mobile phones that the user ID cannot be effectively logged out.

Our inspectors will be provided with on-the-job training after joining our Group. We believe that our current inspection process is well organized and productive. Nevertheless, we plan to drive our inspection process towards the direction of intelligence, automation, and modularization in the future, and reduce our reliance on manual labor in the inspection process. In doing so, we plan to upgrade the inspection hardware and testing and grading functionalities of our Shanhuishou (閃回收) recycling system with more AI capabilities so that we can better analyze the data insight we collect from thousands of pre-owned consumer electronics and millions of transactions, which includes historical recycling and sales data, competitors' performance, our various transaction costs for procurement and sale, future demand of the second-hand consumer electronic market and our expected profit margin. We believe this can further strengthen our competitive advantage in pricing pre-owned consumer electronics accurately and speedily, which has been a major strength that differentiates us from our competitors and serves as an important growth engine.

---

## BUSINESS

---

### TECHNOLOGY, RESEARCH AND DEVELOPMENT

We believe that our proprietary technologies are one of the key factors to our success. Throughout the years, we have emphasized on technology, research and development and have cultivated our own competitive capabilities, which we believe are among our most valuable assets and distinguish us from our competitors. Our technology and development team, which is led by our chief technology officer, Mr. Lin Lexin, who is our executive Director and an industry veteran with over ten years of frontline experience, has been continuously focusing on developing and upgrading our IT system and technologies with AI capabilities to cater to the ever-changing market and improve our business efficiency and accuracy. As of June 30, 2025, we had an experienced technology and development team consisting of a total of 44 personnel and have made great effort in building and developing our technical infrastructure.

Our proprietary technologies are crucial to our operations. We have developed proprietary technologies with AI capabilities on BOSS System with several major application scenarios: remote testing, image recognition, order reviewing, and pricing. These proprietary technologies have streamlined our operations and improve our efficiency. For example, leveraging our proprietary technologies, our processing time from inspection, grading and pricing for each consumer electronic device that is physically collected from our upstream sourcing partners to putting these devices on resale is approximately 24 hours, while that of our major competitors would typically take several days, according to Frost & Sullivan.

We have developed an automatic remote testing system. Under the offline trade-in solution, the retail stores’ front sales staff will present our remote testing QR code for the individual consumers to scan which is linked to a WeChat mini program. This program will automatically identify the model of the mobile phone and initiate testing of its basic functions, including but not limited to face recognition, touch screen, network and screen color loss. In addition, the program will automatically enter the international mobile equipment identity (IMEI) number of the mobile phone and obtain the internal device information such as its make and date of production based on the IMEI.

We typically conduct quality inspection of pre-owned consumer electronics in various stages of the recycling process and detect exterior and interior defects through analyzing images of the devices, including but not limited to screen scratches, frame and back panel scratches and screen leakage. As second-hand consumer electronics are non-standard items, the image recognition tools currently available in the market to inspect the quality of these second-hand devices have limited capabilities and are insufficient for meeting our business needs. Therefore, we developed our owned image recognition model specifically designed for pre-owned consumer electronics that is capable of identifying minor defects automatically based on the photos taken, which provided a solid basis for our backstage order reviewing engineers.

## BUSINESS

---

However, according to our past experience, manual mode of order reviewing is unable to cope with the business volume during peak hours and the reviewing accuracy may also be affected by human errors. As such, we created a separate order reviewing model which is capable of automatically assessing the risks of an order based on the historical data of the respective retail store and its front sales staff involved in that particular transaction. This reduces the workload of our order review engineers and improves the accuracy of risk control.

While consistency and accuracy of quality inspection of pre-owned consumer electronics has been a major technical problem in this industry, our development in evaluation tools help us obtain supply and empower the front sales staff of our upstream sourcing partners’ retail stores to facilitate the trading-in of pre-owned consumer electronics. Our recycling system under our brand of Shanhuishou (閃回收) allows pre-owned consumer electronics to be inspected both locally and remotely and displays a competitive sale price in approximately five minutes.

We have also created a machine learning driven smart pricing model to ensure pricing objectiveness for each device transacted on our recycling system. Since pre-owned mobile phones are non-standard items with no uniformed market price, a single model may come with many combinations due to each device’s unique conditions and every combination has its respective corresponding price. As such, grading and pricing them manually is incapable of achieving the level of accuracy that we expect, especially when the device has a combination of multiple defects in various aspects which price largely deviates from the market fair price. As such, we created our smart pricing model utilizing our business data from the collection of thousands of consumer electronics, millions of transactions, and millions of sellers and buyers that transact on our platform, and developed separate modeling for long-term price trends and short-term price fluctuations. Our algorithms take into account a number of factors when pricing a certain pre-owned consumer electronic device in order to achieve pricing objectiveness, including, but not limited to, the overall condition of the pre-owned consumer electronic device, market demand of a new device that is of same model of such device and the recent selling price, the trade-in price offered by our competitors for the same model of such pre-owned consumer electronic device, our historical recycling and sales data of similar devices, our various transaction costs for procurement and sale, and our expected profit margin, as well as other public information that could possibly affect the selling price of such pre-owned consumer electronic device, such as the upcoming launch of a new model under the same consumer electronic brand.

Our four inspection and operation centers in Shenzhen, Guangdong province, Chengdu, Sichuan province, Zhengzhou, Henan province and Anji, Zhejiang province are all equipped with our proprietary technologies and relevant capabilities to facilitate the inspection, grading and pricing of pre-owned consumer electronics. We believe that our technology, research and development capabilities have been and will continue to be our core competitive strength for our success in the pre-owned consumer electronics recycling service market.

---

## BUSINESS

---

As of the Latest Practicable Date, we had, in aggregate, 115 software copyrights, 63 registered trademarks, nine registered domain names, 19 registered patents and 17 patents in application in China.

### OUR SALES

During the Track Record Period, our revenue was primarily derived from the sale of pre-owned consumer electronics, especially, mobile phones, sourced from our various supply channels. During the Track Record Period, we primarily derived our revenue from the sale of pre-owned consumer electronics we procured through providing our trade-in and sale solutions. Among which, our revenue derived from the sale of pre-owned mobile phones amounted to approximately RMB693.4 million, RMB856.3 million, RMB1,050 million, RMB1,231.4 million and RMB773.1 million, respectively, representing approximately 92.5%, 93.2%, 90.6%, 94.9% and 95.5% of our total revenue for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. In order to satisfy the business needs of our customers, we also sell part of our procured consumer electronics in bulk through our offline sale, and also provide various value-added and after-sale services to them. For more details in relation to our value-added and after-sale services, please refer to “– Our Sales – Our Other Services” in this section.

Pre-owned mobile phones have always been in short supply in the PRC second-hand consumer electronics market and is estimated to continue to be so in the future. In the pre-owned mobile phones recycling industry, there are generally no shortage of purchasers of pre-owned mobile phones as there will always be a right buyer for any pre-owned mobile phone across the entire quality spectrum. According to Frost & Sullivan, the average inventory turnover days for the industry typically ranged from 10 to 15 days. As such, with our ability to obtain steady and quality supply through our strategic cooperation with our upstream sourcing partners, we have secured an advantageous position in the pre-owned mobile phones sales market. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our average inventory turnover days were approximately 8.4, 8.6, 8.9, 9.4 and 6.5 days, respectively. Further, our processing time from inspection, grading and pricing for each device that is physically collected from our upstream sourcing partners to putting these devices on resale is approximately 24 hours, while that of our major competitors typically would take several days, according to Frost & Sullivan.

## BUSINESS

The following table sets out the breakdown of our revenue for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025

*Notes:*

1. During the Track Record Period, our upstream sourcing partners typically allowed individual consumers to have their pre-owned mobile phones under different brands to be traded-in in their retail stores. According to Frost & Sullivan, it is an industry norm for upstream sourcing partners to do so as such practice could effectively promote sales of their new models of consumer electronic devices in stores and attract individual consumers who used consumer electronics of other consumer electronic brands to switch to using consumer electronic electronics of their brands.
2. A significant portion of our revenue derived from the sale of pre-owned mobile phones in other brands include our sale of pre-owned mobile phones of Consumer Electronic Brand F, which we did not cooperate with and provide our trade-in recycling transaction services to it during the Track Record Period. We officially entered into cooperation agreement with the designated distributors of Consumer Electronic Brand F in June 2024. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue of sale of pre-owned mobile phones of Consumer Electronic Brand F amounted to approximately RMB157.5 million, RMB148 million, RMB172.4 million, RMB294 million and RMB244 million, respectively.

## BUSINESS

The table below sets out the sales volume and average selling price of pre-owned mobile phones that we sold by consumer electronic brand name<sup>(1)</sup> for the periods indicated, respectively:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025

*Notes:*

- During the Track Record Period, our upstream sourcing partners typically allowed individual consumers to have their pre-owned mobile phones under different brands to be traded-in in their retail stores. According to Frost & Sullivan, it is an industry norm for upstream sourcing partners to do so as such practice could effectively promote sales of their new models of consumer electronic devices in stores and attract individual consumers who used consumer electronics of other consumer electronic brands to switch to using consumer electronic electronics of their brands.
- A significant portion of our revenue derived from the sale of pre-owned mobile phones in other brands include our sale of pre-owned mobile phones of Consumer Electronic Brand F, which we did not cooperate with and provide our trade-in recycling transaction services to it during the Track Record Period. We officially entered into cooperation agreement with the designated distributors of Consumer Electronic Brand F in June 2024. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue of sale of pre-owned mobile phones of Consumer Electronic Brand F amounted to approximately RMB157.5 million, RMB148 million, RMB172.4 million, RMB294 million and RMB244 million, respectively.

## BUSINESS

We are situated in the midstream of the industrial chain of consumer electronics transaction service market and target various downstream customers. As different types of customers have different demand in the quality and condition of pre-owned consumer electronics, we sort them according to their conditions/features, bundle up certain number of devices of similar conditions/features, and offer different bundles on various sales platforms oriented to different types of customers. To the best knowledge of our Directors, during the Track Record Period, the majority of our pre-owned consumer electronics were sold to merchant customers who conduct business in the second-hand consumer electronic market and sell the pre-owned consumer electronics they procured from us to their own customers.

The table below sets out our revenue by customer type for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	% of total RMB'000		% of total RMB'000		% of total RMB'000		% of total RMB'000		% of total RMB'000		% of total RMB'000

*Notes:*

- Merchant customers primarily refer to customers who purchased our pre-owned consumer electronics through (i) our sale platforms, including, our Shanhui Youpin (閃回有品) online platform and our own online stores on third-party e-commerce platforms that mainly target merchant customers, such as Pajitang (拍機堂) and Caihuoxia (採貨俠); and (ii) offline sale; and
- Individual customers primarily refer to customers who purchased pre-owned consumer electronics through our online stores on third-party e-commerce platforms that mainly target individual customers, such as Idle Fish (閒魚) and Douyin (抖音).

## BUSINESS

The table below sets out the number of customers and average selling price per customer type for the periods indicated, respectively:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025

Individual customers <sup>(2)</sup> .....	5,139	4,720	11,792	2,241	16,317	2,820	11,655	3,349	5,335	4,117	8,240	4,391

*Notes:*

1. Merchant customers primarily refer to customers who purchased our pre-owned consumer electronics through (i) our sale platforms, including, our Shanhui Youpin (閃回有品) online platform and our own online stores on third-party e-commerce platforms that mainly target merchant customers, such as Pajitang (拍機堂) and Caihuoxia (採貨俠); and (ii) offline sale; and
2. Individual customers primarily refer to customers who purchased pre-owned consumer electronics through our online stores on third-party e-commerce platforms that mainly target individual customers, such as Idle Fish (閒魚) and Douyin (抖音).

Our Directors do not consider that we had adopted a distributorship business model as set out in Chapter 4.5 of the Guide based on our business model as described in this document for the following reasons: (i) we do not have any distributorship arrangement or exclusive relationships with our customers; (ii) we do not rely on our customers to distribute our pre-owned consumer electronics or expect them to resell such on our behalf; (iii) our customers engage in trading and sale of our pre-owned consumer electronics independently and at their own risk and expense, without our involvement; (iv) we do not impose any restrictions on our customers in relation to their resale regions or requirements for subsequent sales, such as minimum price, sales amount, targets, or ultimate users; (v) we generally do not accept product returns if the application for product returns was not submitted to us within 72 hours after the pre-owned consumer electronics was delivered to our customers; and (vi) we do not offer repurchase options to our customers, nor do we control their inventory management.

We currently conduct the majority of our sales through our proprietary online platform under the brand of Shanhui Youpin (閃回有品). We subsequently developed an associated Shanhui Youpin (閃回有品) mobile application and WeChat or Alipay mini-program also under such brand, which have become our main sales platforms enabling buyers to purchase and/or bid for pre-owned consumer electronics through different business modules. In addition to our Shanhui Youpin (閃回有品) online platform, we have also established cooperative relationship with various third-party e-commerce platforms, including certain well-known PRC e-commerce recycling platforms and online shopping platforms, as well as live-streaming

## BUSINESS

platforms, targeting various types of customers. We typically set up and operate our own online stores on these third-party e-commerce platforms. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue derived from the sale of pre-owned consumer electronics through (i) our Shanhui Youpin (閃回有品) online platform amounted to approximately RMB641.5 million, RMB801.1 million, RMB932.4 million, RMB1,154.3 million and RMB635.5 million, representing approximately 85.6%, 87.2%, 81.3%, 89% and 78.5% of our total revenue for the same periods, respectively; and (ii) other third-party e-commerce platforms amounted to approximately RMB69.1 million, RMB62.7 million, RMB116.9 million, RMB65.5 million and RMB48.6 million, representing approximately 9.2%, 6.8%, 10.1%, 5.0% and 6.0% of our total revenue for the same periods, respectively. In future, we intend to establish our online stores on more third-party e-commerce platforms to further diversify our sales channels.

Leveraging our established position in the PRC mobile phone recycling service market and our understanding of the needs and preferences of buyers in the second-hand consumer electronics market, we also engage offline sale where we sell part of our procured consumer electronics in bulk which meet the requirements of our certain customers and satisfy their diversified business needs. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue derived from the sale of consumer electronics through offline sale amounted to approximately RMB26.6 million, RMB38 million, RMB91 million, RMB58.2 million and RMB116.5 million, representing approximately 3.5%, 4.1%, 7.8%, 4.5% and 14.4% of our total revenue for the same periods, respectively.

The table below sets out our revenue of sale of consumer electronics by sales channel for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue

## BUSINESS

Our revenue generated from sale of pre-owned consumer electronics through third-party e-commerce platforms decreased by 44% from RMB116.9 million for the year ended December 31, 2023 to RMB65.5 million for the year ended December 31, 2024, and our revenue generated from sale of pre-owned consumer electronics through offline sale decreased by 36% from RMB91 million for the year ended December 31, 2023 to RMB58.2 million for the year ended December 31, 2024.

Our revenue generated from the sale of consumer electronics through offline sale has increased by 536.6% from RMB18.3 million for the six months ended June 30, 2024 to RMB116.5 million for the six months ended June 30, 2025 due to the adjustment of our business strategy to focus more on sales through our proprietary Shanhui Youpin (閃回有品) online platform.

The table below sets out the sales volume and average selling price of consumer electronics that we sold by sales channel for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	Average selling price/unit unit'000	(RMB)	Average selling price/unit unit'000	(RMB)	Average selling price/unit unit'000	(RMB)	Average selling price/unit unit'000	(RMB)	Average selling price/unit unit'000	(RMB)	Average selling price/unit unit'000	(RMB)
Sale of pre-owned consumer electronics through sales platforms .....	1,247	570	1,254	689	1,545	679	1,256	971	562	980	747	916
– Sale through Shanhui Youpin (閃回有品).....	1,035	620	1,163	689	1,375	678	1,167	989	520	990	700	908
– Sale through third-party e-commerce platforms .....	212	326	91	689	170	684	89	736	42	850	47	1,034
Sale of consumer electronics through offline sale <sup>(1)</sup> .....	141	189	366	104	927	98	512	114	319	57	86	1,355
<b>Total:.....</b>	<b>1,388</b>	<b>N/A</b>	<b>1,620</b>	<b>N/A</b>	<b>2,472</b>	<b>N/A</b>	<b>1,768</b>	<b>N/A</b>	<b>881</b>	<b>N/A</b>	<b>833</b>	<b>N/A</b>

Note:

- During the Track Record Period, the average selling prices of consumer electronics sold through offline sale were significantly lower than that of pre-owned consumer electronics sold through our other sales platforms, primarily the reason that the majority of the consumer electronic products sold through our offline sale were phone accessories which had low selling prices.

## BUSINESS

*Notes:*

1. “Active customers” refer to customers that have at least one transaction with us in every month in a particular financial year/period;
2. “Total customers of the relevant year/period” refer to customers that have at least one transaction with us in a particular financial year/period. Due to the privacy policies of various third-party e-commerce platforms, we are not allowed to access to the end users’ data for our sales made on these platforms. Therefore, the actual number of our customers from Douyin (抖音) and Paijitang (拍機堂) during the Track Record Period were excluded;
3. “Average revenue per customer of the relevant year/period” represents our revenue for a particular financial year/period divided by the number of total customers of that particular financial year/period referred in item 2;
4. “Recurring customers of the relevant year/period” refer to customers that have at least one transaction with us in the previous and current financial year/period;
5. “Revenue from recurring customers of relevant year/period” represents our revenue derived from recurring customers of the relevant year/period referred in item 4;
6. “Average revenue per recurring customers of the relevant year/period” represents our revenue derived from recurring customers of the relevant financial year/period referred in item 5 divided by the number of recurring customers of that particular financial year/period referred in item 4;
7. “Customer retention rate” represents the number of our recurring customers of the relevant financial year/period referred in item 4 divided by the number of total customers of that particular financial year/period referred in item 2;
8. Other cost primarily included our cost of logistics, cost related to labor, repair and maintenance and procurement of phone accessories and services relating to screen damage replacement;
9. The decrease in total number of our total customers for the year ended December 31, 2024 as compared to the year ended December 31, 2023 was primarily due to the decrease in our sales volume of pre-owned mobile phones for the same period. Please also refer to Note 10 below;
10. The decrease in our procurement volume of pre-owned consumer electronics for the year ended December 31, 2024 as compared to the year ended December 31, 2023 was primarily due to the decrease in our procurement volume through offline supply channels from approximately 2,330,000 units for the year ended December 31, 2023 to approximately 1,776,000 units for the year ended December 31, 2024. Such decrease was primarily attributable to the decrease in our procurement of pre-owned mobile phones with selling prices lower than RMB1,000 from the supply channels of Consumer Electronic Brand A; and
11. The decrease in volume of pre-owned consumer electronics sold for the year ended December 31, 2024 as compared to the year ended December 31, 2023 was primarily due to (i) the decrease in our sales volume of pre-owned mobile phones from approximately 1,506,000 units to approximately 1,243,000 units for the same period. Such decrease was primarily attributable to the decrease in our sales volume of pre-owned mobile phones with selling prices lower than RMB1,000 from approximately 1,210,000 units for the year ended December 31, 2023 to approximately 855,000 units for year ended December 31, 2024, especially for Consumer Electronic Brand A; and (ii) the decrease in our sales volume of pre-owned consumer electronics procured through corporate recycling. For further details, please refer to “Financial Information – Period to Period Comparison of Results of Operations – Year Ended December 31, 2024 Compared to Year Ended December 31, 2023” in this document.

## BUSINESS

---

### Shanhui Youpin (閃回有品)

We launched the brand of Shanhui Youpin (閃回有品) and developed our proprietary online platform under such brand in 2021. We then developed Shanhui Youpin (閃回有品) mobile application and associated Shanhui Youpin (閃回有品) PC end sales platform, Shanhui Youpin (閃回有品) WeChat mini-program and Shanhui Youpin (閃回有品) Alipay mini-program, which have become our main sales platform enabling buyers to purchase and/or bid for our pre-owned consumer electronics through different applications and business modules, including the real-time open bidding module, single-device sales module and single-device bidding module. Customers shall register on our Shanhui Youpin (閃回有品) online platform before making a purchase or participating in a bidding session.

One major business module within our Shanhui Youpin (閃回有品) online platform is a bidding module where single-device open bidding sessions are held on a real-time basis. This module is associated with our offline trade-in solution and customers can place bids simultaneously through our Shanhui Youpin (閃回有品) online platform. For a typical transaction conducted under the offline trade-in solution where this real-time open bidding module is involved, when an individual consumer walks into an retail store of our upstream sourcing partner and intends to trade in his/her pre-owned consumer electronic device, the front sales staff of our upstream sourcing partner will take photos of the device and upload these photos along with any other auxiliary information to our Shanhuishou (閃回收) recycling system, which will then be automatically uploaded to our real-time open bidding module on our Shanhui Youpin (閃回有品) online platform. Our back-end inspection staff will then examine the photos and all other necessary information and generate an initial trade-in price with a recommended trade-in pricing range based on our pricing model. At the same time, our customers who are using our real-time open bidding module on our Shanhui Youpin (閃回有品) online platform will also be able to view the photos and all the other necessary information and bid for such device simultaneously.

The bidding process typically lasts for two to three minutes. Once the bidding session ends, the final trade-in price (and our recommended trade-in pricing range), which is generated based on our pricing model and algorithm by taking into account our various transaction costs for procurement and sale as well as our target profit margin, would be imputed from the highest bidding price appeared in our real-time open bidding session and subsequently shown on our Shanhuishou (閃回收) recycling system to the front sales staff of our upstream sourcing partners' retail stores. Such front sales staff will then have the flexibility to determine the final trade-in price they would give to consumers within our recommended trade-in price range under different circumstances and transactions. The mechanism for the front sales staff to determine the final trade-in prices is that, pursuant to our business arrangements with our upstream sourcing partners, we are typically required to pay commission fees to the front sales staff for each recycling transaction they managed to complete. If he/she decides to show a relevant higher trade-in price to the consumer in store, he/she would have a better chance to close the transaction but will receive a relatively lower commission. On the contrary, if he/she decides to show a relatively lower trade-in price to the consumer in store, he/she will receive a relatively higher commission, but may not be able to close the transaction that easily as the

---

## BUSINESS

---

individual consumer in store may not accept the trade-in price. The front sales staff can only give out the trade-in price to consumer in store within the price range pre-determined by the Shanhuishou (閃回收) recycling system based on the information he/she uploads and the backstage inspection. This arrangement provides certain flexibility to the front sales staff as they are the ones who meet the individual consumers in person and to close the transactions.

Once the individual consumer agrees to the final trade-in price, the front sales staff of our upstream sourcing partners will perform the normal trade-in services and close the recycling transaction. Simultaneously, the relevant pre-owned consumer electronic device will be sold to the successful bidder who just provided the highest bidding price during the open-bidding session. In the event that no participating bidder offers a bidding price that is higher than our initial trade-in price generated based on our pricing model and algorithm, which mainly take into consideration the brand, model and condition of the devices, the trade-in price may be offered by our competitors for the same model of such pre-owned consumer electronic device if any, our historical recycling, and sales data and market demand of similar devices, the promotion service fees to be paid to the relevant upstream sourcing partners and the commission fees to be paid to the relevant front sales personnel, our target profit margin, and other various transaction cost, we would then procure such device from the individual consumer at our initial trade-in price as long as he/she is willing to trade in.

Our initial trade-in price (with our recommended trade-in pricing range) is generated based on the same pricing model that we utilize for procuring pre-owned consumer electronics through our supply channels without using our real-time open bidding module and will not be modified during the entire bidding session. In other words, we simply set a floor price and guarantee that under the circumstances where all participating bidders underbid on a particular pre-owned consumer electronic device (i.e. the highest bidding price after taking into account our various transaction costs for procurement and sale as well as our target profit margin is still lower than our initial trade-in price), we are still able to procure, and the individual consumer still has the option, to trade in his/her device at our initial trade-in price generated by our pricing model, which we believe, is objective and reasonable.

Once the individual consumer accepts the trade-in price displayed to him/her and after the front sales staff closes the trade-in transaction, his/her pre-owned consumer electronic device will be delivered to our inspection center where, under most circumstances, no additional inspection will be conducted before delivering it to the successful bidder. This is mainly due to two considerations: firstly, our smart pricing model is capable of ensuring pricing objectiveness through analyzing the photos and information uploaded by the front sales staff through continuous optimization; and secondly, most of the bidders using our real-time open bidding module are, to the best of the knowledge, information and belief of our Directors, customers who conduct business in the second-hand consumer electronic market, and are able to make sound business judgment based on their industry experience. We generally require full payment of the pre-owned consumer electronics from the successful bidder upon confirmation of the sale and before delivery.

## BUSINESS

---

During the Track Record Period, approximately 9.3%, 20%, 42.7%, 80.6% and 72.5% of our revenue were derived from the sale of the pre-owned mobile phones we procured under our offline trade-in solutions and sold through our real-time open bidding module on Shanhui Youpin (閃回有品) online platform simultaneously. We believe that with this business module, we are able to receive payments promptly on the same day of the sale for the pre-owned consumer electronics sold on our sales platform, contributing to a healthy cash flow and quick inventory turnover. In addition, this business module also helps avoid the risk of a drop in market price during the inventory period. From the perspective of individual consumers, they are able to enjoy a better trade-in price as long as there is a bidder offers a price higher than our trade-in price and as such, a “win-win” for both of us and the individual consumers.

In addition to the aforementioned real-time bidding module, there are several other modules within our Shanhui Youpin (閃回有品) online platform each carrying out different functions targeting different customers. For instance, there is a single-device sales module which generally lists the pre-owned mobile phones with super condition to be sold at a fixed price. Such price is automatically generated by our pricing model leveraging our central database, taking into consideration not only the trade-in price we paid for and current condition of the device based on our inspection and grading, but also market demand, depreciation and other factors that impact the retail value of the device. There is also a single-device bidding module where we hold bidding sessions on a daily basis listing the pre-owned consumer electronics that we have procured from our upstream sourcing partners, which is different from the real-time open bidding module as customers are able to bid during several fixed time intervals during a day. We also operate a PC end sales platform particularly developed for customers to bid for and purchase packages of pre-owned consumer electronics of similar features pre-selected by us. Furthermore, once our procured pre-owned consumer electronics are ready for sale after our inspection, grading and classification, we will list them on our Shanhui Youpin (閃回有品) online platform and our own online stores on other third-party e-commerce platforms for sale simultaneously.

Our customers are required to pay security deposit before participating in different bidding modules on our Shanhui Youpin (閃回有品) online platform. We generally sell our pre-owned consumer electronics to the highest bidder. For customers using the real-time open bidding module, they are required to pay a deposit of RMB5,000 and top up sufficient account balance before participating in a bidding session. For customers using the single-device bidding module on our Shanhui Youpin (閃回有品) mobile application, they need to pay a deposit of RMB1,000 while customers using the PC end sales platform are required to pay a deposit of RMB5,000 as those customers often bid for packages of pre-owned consumer electronics in bulk, before participating in a respective bidding session. In the event a customer is the successful bidder but fails to make the relevant payment within the required time period, the customer’s right to purchase the pre-owned device will be revoked and a penalty of RMB50 per unit will be deducted from such customer’s account, up to a maximum of the customer’s deposit amount, and the relevant consumer electronic device(s) will be resold through the bidding module. After the settlement of all bidding transactions in process, customers are entitled to apply for a deposit withdrawal where such requests are processed within three to five business days.

## BUSINESS

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue derived from the sale of pre-owned consumer electronics through (i) our real-time open bidding module on Shanhui Youpin (閃回有品) online platform amounted to approximately RMB69.5 million, RMB183.8 million, RMB494.6 million, RMB1,045.5 million and RMB586.6 million, representing approximately 9.3%, 20%, 42.7%, 80.6% and 72.5% of our total revenue for the same periods, respectively; and (ii) our other modules on Shanhui Youpin (閃回有品) online platform amounted to approximately RMB572 million, RMB617.2 million, RMB433.1 million, RMB108.9 million and RMB48.9 million, representing approximately 76.3%, 67.2%, 37.4%, 8.4% and 6.0% of our total revenue for the same periods, respectively. In future, we intend to further develop our Shanhui Youpin (閃回有品) online platform into an integrated platform with the capabilities of providing online consumer electronics recycling and trading services which enables consumers to sell their idle devices and purchase pre-owned consumer electronics we procured with ease and convenience.

The table below sets out the key operating metrics of our sales made through our Shanhui Youpin (閃回有品) online platform for the periods indicated:

	As of/Year ended December 31,				As of/Six months ended June 30,	
	2021	2022	2023	2024	2024	2025

*Notes:*

1. “Active customers” refer to customers that have at least one transaction with us in every month in a particular financial year/period through our Shanhui Youpin (閃回有品) online platform;
2. “Total customers of the relevant year/period” refer to customers that have at least one transaction with us in a particular financial year/period through our Shanhui Youpin (閃回有品) online platform, and the decreases in the number of such customers since 2022 were primarily a result of us diverting our existing and potential individual customers to conduct transactions in our stores on the third-party sales platforms that target individual customers;
3. “Average revenue per customer of the relevant year/period” represents our revenue of sale through Shanhui Youpin (閃回有品) online platform for a particular financial year/period divided by the number of total customers of that particular financial year/period referred in item 2;
4. “Recurring customers of the relevant year/period” refer to customers that have at least one transaction with us in the previous and current financial year/period through our Shanhui Youpin (閃回有品) online platform;
5. “Revenue from recurring customers of relevant year/period” represents our revenue of sale through Shanhui Youpin (閃回有品) online platform from recurring customers of the relevant year/period referred in item 4;
6. “Average revenue per recurring customers of the relevant year/period” represents our revenue of sale through Shanhui Youpin (閃回有品) online platform from recurring customers of the relevant financial year/period referred in item 5 divided by the number of recurring customers of that particular financial year/period referred in item 4;
7. “Customer retention rate” represents the number of our recurring customers of the relevant financial year/period referred in item 4 divided by the number of total customers of that particular financial year/period referred in item 2;
8. The decreases in our active customers and total customers for the sale made through our Shanhui Youpin (閃回有品) online platform for the six months ended June 30, 2024 as compared to the same for the six months ended June 30, 2023 were primarily due to the decrease in our sales volume of pre-owned mobile phones for the same period. Please also refer to Note 9 below; and

---

## BUSINESS

---

9. The decrease in volume of pre-owned consumer electronics sold through our Shanhui Youpin (閃回有品) online platform for the year ended December 31, 2024 as compared to the year ended December 31, 2023 was primarily due to the decrease in our overall sales volume of pre-owned mobile phones from approximately 1,375,000 units to approximately 1,166,000 units for the same period. Such decrease was primarily attributable to the decrease in our sales volume of pre-owned mobile phones with selling prices lower than RMB1,000 from approximately 1,210,000 units for the year ended December 31, 2023 to approximately 855,000 units for the year ended December 31, 2024, especially for Consumer Electronic Brand A. For further details, please refer to “Financial Information – Period to Period Comparison of Results of Operations – Year Ended December 31, 2024 Compared to Year Ended December 31, 2023” in this document.

### *General contracts with customers*

As far as we understand, majority of our customers are players in the second-hand consumer electronics market. We typically enter into general contracts with our customers, who undertake to sell the pre-owned consumer electronics we sold to them and/or dismantle spare parts, without refurbishing parts involving the logos of any consumer electronic brands, at their own risks. However, we do not routinely monitor the sales performance or compliance of our customers as we do not adopt a distributorship business model for our sales, and our customers engage in trading and sale of our pre-owned consumer electronics independently and at their own risks and expenses. As such, there can be no assurance that our customers will always comply with the above undertaking in our contracts with them. Please also refer to “Risk Factors – We May Not Have Control over The Non-compliance of Our Customers” in this document for further details.

The following are the salient terms of our general contracts with our customers who participate in the bidding sessions on our Shanhui Youpin (閃回有品) online platform:

- **Precondition.** The customers are required to register an account on Shanhui Youpin (閃回有品) mobile application and pay the respective security deposit before being allowed to participate in the bidding sessions.
- **Payment.** The customers are required to pay the purchase price of the devices in full within a stipulated time period, and we are entitled to deduct such amount from the customer’s security deposit in the event that the customer fails to make payment on a timely basis.
- **Delivery.** We will arrange delivery of the devices to the address provided by the customer during account registration upon receipt of the payment from the customer. Any potential issues or losses caused by an error in the address provided by the customer will be solely borne by the customer.
- **Return policy.** The customers acknowledge and accept that the consumer electronics sold on our platform are pre-owned consumer electronics with certain defects and will not demand return of same without our consent. Where we consent to the return of the devices after negotiations with the customer, the customer will deliver the devices to a warehouse designated by us.

---

## BUSINESS

---

- **Security deposit.** The customer is not required to pay a separate security deposit for each single bidding session but if the security deposit is deducted for any reason, including but not limited to payment of the purchase price, liquidated damages or penalties, the customer will be asked to make up the deposit within one day after receiving a notice from us. We are entitled to refuse such customer’s participation in any following bidding sessions before the security deposit has been made up.
- **Term.** The term of the general contract is usually one year.

### Third-party E-commerce Platforms

In addition to our proprietary Shanhui Youpin (閃回有品) online platform, we have also established cooperative relationship with various third-party e-commerce platforms, including PRC e-commerce recycling platforms and online shopping platforms, to set up and operate our own online stores targeting various types of customers. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue generated from our sales on third-party e-commerce platforms amounted to approximately RMB69.1 million, RMB62.7 million, RMB116.9 million, RMB65.5 million and RMB48.6 million, respectively, representing approximately 9.2%, 6.8%, 10.1%, 5% and 6% of our total revenue for the same periods, respectively.

During the Track Record Period, we had opened our own online stores on ten third-party e-commerce platforms, of which two third-party e-commerce platforms mainly target merchant customers, such as Paijitang (拍機堂) and Caihuoxia (採貨俠), and eight third-party e-commerce platforms mainly target individual customers, such as Idle Fish (閒魚) and Douyin (抖音). For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue generated from our sales on third-party e-commerce platforms that target merchant customers amounted to approximately RMB52.3 million, RMB46.2 million, RMB75.8 million, RMB34.1 million and RMB18.4 million, respectively, and our revenue generated from our sales on third-party e-commerce platforms that target individual customers amounted to approximately RMB16.8 million, RMB16.5 million, RMB41.1 million, RMB31.4 million and RMB30.2 million respectively. Further, for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, approximately 80.7%, 96.1%, 99.2%, 90.9% and 75.1% of our revenue, respectively, and approximately 48.2%, 76.2%, 87.9%, 94.4% and 87.2% of the sales volume, respectively, derived from our sales on third-party e-commerce platforms were attributable to our online stores opened on Caihuoxia (採貨俠), Paijitang (拍機堂), Idle Fish (閒魚) and Douyin (抖音).

Based on the relevant terms of our agreement with these third-party e-commerce platforms, we are required to typically pay (i) a security deposit in order to conduct our sale of pre-owned consumer electronics on such platforms, and (ii) an agreed percentage of the actual transaction amount of the pre-owned consumer electronics sold through our own online stores on third-party e-commerce platforms as service fees to such third-party e-commerce platforms. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the average percentage of service fees we paid to the third-party

---

## BUSINESS

---

e-commerce platforms based on the total transaction value of pre-owned devices sold thereon was approximately 0.01%, 1.6%, 2.4%, 2.9% and 2.2%, respectively. The reason for the exceptionally low service fee in 2021 is that Paijitang (拍機堂) ran a promotion waiving our service fee during that year. For the pre-owned consumer electronics we sell on such platforms, we typically classify them based on the conditions according to our inspection and grading results, for example, quasi-new, 99 percent-new, 95 percent-new or 90 percent-new, and then price them with reference to our aggregate recycling costs and the recommended sale price generated by our pricing model.

We intend to establish our branded online stores on more third-party e-commerce platforms focusing on selling mid-to-high-end pre-owned mobile phones to further diversify our sales channels in near future.

### *New media sales channel*

We have been actively exploring cooperation opportunities with short video clips and live-streaming platforms as we see great market potential in such platforms that are increasingly focused on e-commerce. In 2022, we had a test-run live-streaming on a PRC mainstream live-streaming platform focused on the sale of pre-owned premium models of certain branded mobile phones, which turned out to be quite successful as we had recorded sales revenue of approximately RMB928,160 from such live-streaming. We intend to continue exploring cooperation possibilities with leading live-streaming platforms and market and promote our brand and increase web traffic in order to accurately target potential individual customers and boost the number of active buyers on these platforms. We will also continue to explore conducting sale of pre-owned mobile phones through promotional contents and video clips on live-streaming platforms targeted at different end users. In order to improve the quality and attractiveness of our contents and videos and to boost of our sales on various live-streaming and other e-commerce platforms, we intend to recruit a total of 39 experienced personnel in the field of e-commerce operation, including two livestream operators, nine popular live-streamers, five short video scripting, filming and editing personnel, nine live broadcast controllers, two e-commerce trading and pricing managers, and twelve customer service staff members for the three years ending December 31, 2027. Some of these personnel will also be assisting on setting up our online stores on various third-party e-commerce platforms to conduct sale by publishing promotional contents and video clips on livestreaming platforms, designing and implementing sales strategies of our online stores on third-party e-commerce platforms, and providing after-sale services to our customers on these platforms. Live broadcast controller is also responsible for coordinating the live-streamers and preparing the live broadcast and managing the orders placed during the live broadcast. Leveraging our presence on these platforms, we will grow our brand awareness and strengthen our influence, and attract different end users customers and achieve business scale in a broader market.

## BUSINESS

The table below sets out the key operating metrics of our sales made through our third-party e-commerce platforms for the periods indicated:

	As of/Year ended December 31,				As of/Six months ended June 30	
	2021	2022	2023	2024	2024	2025

## BUSINESS

---

*Notes:*

1. “Active customers” refer to customers that have at least one transaction with us in every month in a particular financial year/period through our third-party e-commerce platforms;
2. “Total customers of the relevant year/period” refer to customers that have at least one transaction with us in a particular financial year/period through our third-party e-commerce platforms. Due to the privacy policies of various third-party e-commerce platforms, we are not allowed to access to the end users’ data for our sales made on these platforms. Therefore, the actual number of our customers from Douyin (抖音) and Pajitang (拍機堂) during the Track Record Period were excluded;
3. “Average revenue per customer of the relevant year/period” represents our revenue of sale through third-party e-commerce platforms for a particular financial year/period divided by the number of total customers of that particular financial year/period referred in item 2;
4. “Recurring customers of the relevant year/period” refer to customers that have at least one transaction with us in the previous and current financial year/period through our third-party e-commerce platforms;
5. “Revenue from recurring customers of relevant year/period” represents our revenue of sale through third-party e-commerce platforms from recurring customers of the relevant year/period referred in item 4;
6. “Average revenue per recurring customers of the relevant year/period” represents our revenue of sale through third-party e-commerce platforms from recurring customers of the relevant financial year/period referred in item 5 divided by the number of recurring customers of that particular financial year/period referred in item 4;
7. “Customer retention rate” represents the number of our recurring customers of the relevant financial year/period referred in item 4 divided by the number of total customers of that particular financial year/period referred in item 2; and
8. The decrease in volume of pre-owned consumer electronics sold through our third-party e-commerce platforms for the year ended December 31, 2024 as compared to the year ended December 31, 2023 was primarily due to the decrease in our overall sales volume of our pre-owned mobile phones from approximately 1,506,000 units to approximately 1,243,000 units for the same period. Such decrease was primarily attributable to the decrease in the sales volume of pre-owned mobile phones with selling prices lower than RMB1,000, especially Consumer Electronic Brand A. For further details, please refer to “Financial Information – Period to Period Comparison of Results of Operations – Year Ended December 31, 2024 Compared to Year Ended December 31, 2023” in this document.

### **Our Retail Stores**

In September 2023, we opened up our first retail store in Shenzhen under our brand name of Shanhui Youpin (閃回有品) to conduct both recycling and sale services of pre-own consumer electronics. We believe that our offline presence will contribute to the strengthening of our brand awareness among individual consumers, which will help us to expand the spectrum and increase the depth of services we provide to them, and eventually attract more buyers and sellers to our ecosystem. We opened up our second retail store in Shenzhen in December 2023. For the years ended December 31, 2023, 2024 and the six months ended June 30, 2025, our procurement value of pre-owned consumer electronics in these two retail stores amounted to approximately RMB8,600, RMB106,709 and RMB10,157, respectively, and our revenue derived from sale of pre-owned consumer electronics in these two retail stores amounted to approximately RMB109,000, RMB3.4 million and RMB1.7 million, respectively. Depending on our business strategies and development, we plan to further explore the commercial possibilities to open up more retail stores in the future.

---

## BUSINESS

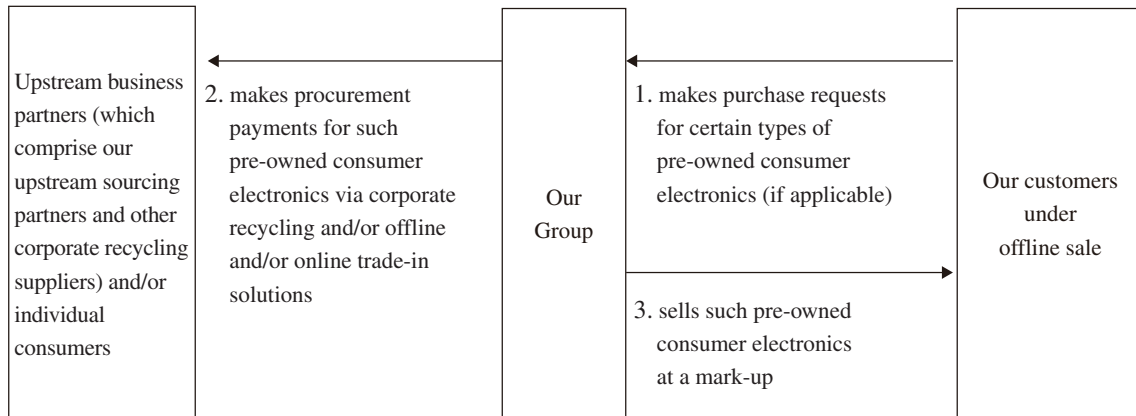

---

### Offline Sale

Leveraging our established position in the PRC mobile phone recycling service market and our strategic and synergistic relationship with our various upstream sourcing partners, we have been engaged in the corporate recycling by certain of our upstream sourcing partners to handle their excess inventories and/or demonstration consumer electronics and/or other recycling requests of consumer electronics in bulk to satisfy the diversified business needs of our upstream business partners. Based on our understanding of the needs and preferences of buyers in the second-hand consumer electronics market, we are then able to sell the majority of our pre-owned consumer electronics procured through corporate recycling to our customers through offline sale, while the remaining are sold through our sales platforms. During the Track Record Period, approximately 72.5%, 75.6%, 79.2%, 84.1% and 97.2% of our pre-owned consumer electronics procured through corporate recycling were sold to our customers through offline sale in terms of procurement value of consumer electronics, respectively. The reason for not selling all of our pre-owned consumer electronics procured through corporate recycling to customers through offline sale was that, according to the best knowledge and belief of our Directors, under certain circumstances, the number of devices in some bulks of pre-owned consumer electronics we procured through corporate recycling was relatively not sufficient where our merchant customers would generally not offer a competitive price as their ability to resell such bulks at higher prices was restricted when they were not in possession of a considerable number of a certain model of pre-owned consumer electronics. As such, we would sell these smaller bulks of pre-owned consumer electronics on our sales platforms where suitable customers were more likely to offer higher prices. On the other hand, for those consumer electronics we procured through corporate recycling that are essentially brand new, (most of which are demonstration devices in the retail stores of our upstream sourcing partners), we would typically sell them through our offline sale. We also handle some ad-hoc offline purchase requests of consumer electronics in bulk from our customers, and procure and sell the same which meet the requirements to satisfy their business needs. Our offline sale caters primarily to bulk-sale of pre-owned consumer electronics procured through corporate recycling, and the bulk-sale nature of our typical offline sale transactions contributes to a higher turnover rate, which in turn, is beneficial to maintaining a healthy cash flow. This also diversifies our collaboration arrangements with our upstream sourcing partners and contributes to an enhanced stickiness between us. For more details of our corporate recycling, please refer to “– Our Supply Channels – Corporate Recycling” in this section.

## BUSINESS

The flowchart below sets out a typical flow of services and fees for our offline sale:

### *Our top five customers under offline sale*

We became acquainted with our customers under offline sale as they have business needs for purchasing a large quantity of pre-owned consumer electronics and possess strong purchasing power. They proactively reached out to us for placing orders and/or raising purchase requests of consumer electronics, and becoming our key customers under offline sale based on their competitiveness.

During the Track Record Period, our revenue derived from the sale of consumer electronics to our top five customers under offline sale accounted for approximately 70%, 84.3%, 83.2%, 81.5% and 88.9% of our revenue through offline sale, respectively, and approximately 2.4%, 3.5%, 6.5%, 3.7% and 12.8% of our total revenue for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively, and the revenue derived from our largest customer under offline sale in each year/period of the Track Record Period accounted for approximately 20.7%, 40.9%, 44.5%, 30.8% and 61.5% of our total revenue through offline sale, respectively, and approximately 0.7%, 1.7%, 3.5%, 1.4% and 8.9% of our total revenue for the same period, respectively. As of June 30, 2025, we had an average of approximately three years of business relationship with all of top five customers under offline sale in each year/period of the Track Record Period. As of the Latest Practicable Date, we were not aware of any information or arrangements, which would lead to cessation or termination of our relationships with any of our top five customers under offline sale in each year/period of the Track Record Period.

During the Track Record Period and as of the Latest Practicable Date, none of our Directors or their respective associates, or any of our existing Shareholders who, to the best knowledge of our Directors, owned 5% or more of the issued share capital of our Company, had any interest in any of our top five customers under offline sale in each year/period of the Track Record Period.

### **Our Other Services**

In addition to the sale of pre-owned consumer electronics, we also provide various value-added and after-sale services to participants across the upstream and downstream value chain. For instance, based on our understanding of the needs and preferences of buyers in the second-hand consumer electronics market, we would assist both of our upstream business partners and customers by matching their purchase and sale needs. When we are informed of the specific requirements for bulks of consumer electronics of certain customers, we would procure the matching bulks of consumer electronics through our supply channels on behalf of our customers and sell to them by charging them a handling service fee. During the Track Record Period, we negotiated and determined our handling service fee with our customers on a case-by-case basis. Under most circumstances, our handling service fee fell within the range of RMB5 to RMB90 per unit, or one to five percent of the total procurement value of the consumer electronics.

Further, we have also been engaged by certain well-known third-party e-commerce platforms to conduct quality inspection of pre-owned consumer electronics transacted on their platforms, and typically charged a service fee of approximately RMB20 to RMB40 per unit inspected. In addition, we provide certain value-added and after-sale services to individual customers, such as, screen assurance services and value maintain and trade-in services. Screen assurance services refer to the service we provide to certain individual customers where we undertake to carry out screen replacement/repair within the warranty limit if the screen is broken during generally a one-year period. Value maintain services refer to the service we provide to certain individual customers where we undertake to recycle devices that meet certain standards at a fixed percentage of such device’s retail price within a one-year period.

We believe that through offering such value-added and after-sale services and constantly pursuing new collaboration methods, we not only obtain an advantage in securing a steady supply of pre-owned consumer electronics, but also forge a stronger partnership and alliances with our business partners. We believe that there remains great potential for future growth and we will continue to seek business opportunities to provide more value-added services.

### Pricing Policy

In determining the selling prices of our pre-owned consumer electronics which are non-standardized items, we take into account a number of factors, primarily including the brands, models and conditions of the pre-owned consumer electronics, demand for such devices in the second-hand consumer electronic market, our procurement cost, the historical selling prices, the selling prices may be offered by our competitors for such pre-owned consumer electronics, and the expected profit margins for us. Although during the Track Record Period, our gross profit margin was largely determined by the gross profit margin of our sale of pre-owned consumer electronics procured through the supply channels of different upstream sourcing partners, we generally formulate our pricing policies under three typical scenarios:

#### **Sale of pre-owned consumer electronics through real-time open bidding module on our Shanhui Youpin (閃回有品) online platform**

For transaction conducted under our offline trade-in solution where the real-time open bidding module is involved, we typically set our initial trade-in price as a floor price and guarantee that under the circumstances where all participating bidders underbid on a particular pre-owned consumer electronic device, we are still able to procure, and the individual consumer still has the option, to trade in his/her device at our initial trade-in price through real-time open bidding module on our Shanhui Youpin (閃回有品) online platform. Such trade-in price is generated based on our pricing model and algorithm, which mainly take into consideration the brand, model and condition of the device, the trade-in price may be offered by our competitors for the same model of such pre-owned consumer electronic device if any, our historical recycling price of and market demand for similar device, the promotion service fees to be paid to the relevant upstream sourcing partners and the commission fees to be paid to the relevant front sales personnel, various transaction costs and our target profit margin (the “**initial trade-in price(s)**”). As our real-time open bidding module is typically used by our merchant customers, the selling prices of pre-owned consumer electronics are relatively competitive and market driven. We will only sell our pre-owned consumer electronics through real-time open bidding module on our Shanhui Youpin (閃回有品) online platform to the highest bidder as long as his/her bidding price for such pre-owned consumer electronics is higher than our initial trade-in price for the same.

On the other hand, if all participating bidders underbid on a particular pre-owned consumer electronic device (i.e. the highest bidding price taking into account all the factors mentioned above is still lower than our initial trade-in price), we will not sell such device to any of our customers but procure them by ourselves with our initial trade-in prices. After we have done inspection and grading in one of our inspection and operation centers, we will place such pre-owned consumer electronics for resale in our various sale channels below. For more details of our real-time open bidding module, please refer to “– Our Sales – Shanhui Youpin (閃回有品)” in this section.

---

## BUSINESS

---

### **Sale of pre-owned consumer electronics through our other bidding modules**

For our sale of pre-owned consumer electronics through other bidding modules, including single-device bidding module and PC end sales platform on our Shanhui Youpin (閃回有品) online platform and sales made through our own online stores operated on certain third-party e-commerce platforms, we will only sell such pre-owned consumer electronics to the highest bidder as long as his/her bidding price is higher than our initial trade-in price, taking into account a higher expected profit margin and our various transaction cost for resale.

### **Sale of pre-owned consumer electronics through non-bidding modules**

For our sale of pre-owned consumer electronics through non-bidding modules, including single-device sales module on our Shanhui Youpin (閃回有品) online platform, sales made through our own retail stores operated on certain third-party e-commerce platforms and sales made through our offline sale, we will typically add certain mark-ups onto our initial trade-in prices to determine the selling price of pre-owned consumer electronics. Such price is automatically generated by our pricing model leveraging our central database, taking into consideration not only the condition of the pre-owned consumer electronic device based on our inspection and grading and the trade-in price we paid for, but also the market demand, depreciation and other factors that impact the retail value of such pre-owned consumer electronic device.

Leveraging our proprietary pricing model and algorithms that utilize business data we collect from thousands of pre-owned consumer electronics and millions of transactions, we believe that we are able to generate a relatively accurate initial trade-in prices and ensure the pricing objectiveness for each of the pre-owned consumer electronics transacted through our sales channels.

Our Shanhuishou (閃回收) recycling system has integrated the above pricing model and algorithm to instantly calculate the recycling prices of the pre-owned consumer electronics based on elements like market trends, our own operation strategies etc., and the trade-in prices proposed by the algorithm are shown to consumers for their consideration and acceptance in relevant transaction. As advised by our PRC Data Compliance Adviser, such use of the pricing model and algorithm may be subject to the regulation of algorithms in China. Please refer to “Regulatory Overview – Regulations Relating to Algorithms” in this document for further details. To comply with the regulatory requirements, we have necessary technical and managerial measures in place, including (i) using data from reliable sources in algorithm training to ensure the accuracy and fairness of the model; (ii) establishing and implementing policies on algorithm security management, (iii) conducting self-assessment before launching new algorithm or changing the present algorithm for risk mitigation purpose; (iv) monitoring the risk of the algorithm’s being tampered with, embezzled or abused continuously, to ensure the reliability and stability of the model; (v) adopting necessary technical measures like encryption, access control to protect the security of users’ personal information; (vi) formulating security emergency response plan; (vii) providing regular awareness training to relevant employees; and (viii) ensuring users rights of transparency. In addition, we have filed

## BUSINESS

---

the pricing model and algorithm with the competent regulators, as required to comply with the Provisions on the Administration of Algorithm Recommendation for Internet Information Services. As advised by our PRC Data Compliance Adviser, we can comply with the applicable regulatory requirements under the regulation of algorithms in China.

### **Marketing**

Based on our years of experiences in the industry, the pre-owned consumer electronics market is a market where demand exceeds supply and the biggest challenge for companies engaged in the recycling business is procuring steady and quality supply of pre-own consumer electronics, and there are generally no shortage of purchasers of pre-owned mobile phones as there will always be a right buyer for any pre-owned mobile phone across the entire quality spectrum. Although our quality and diversified consumer electronics are in high demand, we still place great importance on marketing and promotion. We believe that high-quality services and comprehensive coverage of business channels will bring us considerable user traffic and word-of-mouth.

We believe that recognition of our brand among upstream sourcing partners and consumers has helped us gain an adequate supply of pre-owned consumer electronics and contributed to the growth and success of our business. Accordingly, maintaining, protecting and enhancing the recognition of our brand is critical to our business and market position. We have established strategic cooperation with various consumer electronic brands and mobile network operators, and embedded our trade-in solution as well as other service offerings to the consumer electronic brands' promotion campaigns especially when they are launching new products, which not only provides synergies to such consumer electronic brands by boosting their sale of new products, but also secures a steady and reliable supply of pre-owned consumer electronics and consumers for ourselves, while at the same time, increases our brand awareness.

In addition, we have been conducting promotional activities on social media, and have been exploring cooperation possibilities with leading e-commerce and live-streaming platforms. We have set up a specialized new media operation team which is responsible for marketing and promoting our brands and services on PRC mainstream social media, with an aim to attract more customers and convert the online user traffic to business orders leveraging our presence and influence on these platforms. In order to improve the quality and attractiveness of our contents and videos and to boost of our sales on various e-commerce platforms, we also intend to recruit experienced personnel in the field of e-commerce operation, such as e-commerce operator, popular live-streamers, short video scripting, filming and editing personnel and e-commerce trading and pricing experts. Moreover, we opened up our first retail store in Shenzhen under our brand of Shanhui Youpin (閃回有品) as we believe that our offline presence will contribute to the strengthening of our brand awareness among individual consumers.

---

## BUSINESS

---

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our marketing and advertising expenses amounted to approximately RMB2.6 million, RMB3.9 million, RMB4.7 million, RMB6.9 million and RMB2.4 million, respectively, representing approximately 22.5%, 22.8%, 25.2%, 33.8% and 25.6% of our total selling and distribution expenses for the same years/periods, respectively. Our marketing and advertising expenses were relatively lower for the years ended December 31, 2021 and 2022, primarily due to us holding off our marketing and advertising activities during the COVID-19 pandemic. In the future, we intend to increase our marketing efforts. For more details, please refer to “Future Plans and [REDACTED]” in this document.

### Seasonality

We experience a moderate level of seasonality in our business primarily as a result of the new models of mobile phones and subsequent promotional campaigns launched by the mainstream consumer electronic brands. As such, we typically experience higher transaction traffic and able to obtain more supply and receive higher sales volume during the second half of the year, when there are new product launches and integrated e-commerce activities. Further, all of the marketing activities or campaigns conducted by these mainstream consumer electronic brands and third-party e-commerce platforms may lead to seasonal variations of our business operation.

### Returns and After-sales Service

During the Track Record Period, our average return rate of pre-owned consumer electronics transacted on our Shanhui Youpin (閃回有品) online platform and our own online stores operated on third-party e-commerce platforms was approximately 1.3% by sales volume, while the average return rate of the sale of pre-owned consumer electronics in the PRC second-hand consumer electronics industry was approximately 2% in terms of sales volume. We are typically required to follow the return policy for our sale on the third-party e-commerce platforms as stipulated in our agreements with them. For the sale on our Shanhui Youpin (閃回有品) online platform, we only accept return of devices from or pay for the relevant price difference to our customers if certain conditions are met.

Generally, if our merchant customers have concerns on or are not satisfied with the quality of our pre-owned consumer electronics sold, he or she can lodge a request to us online. We will then contact the customer and arrange for either remote or in-house inspection. We will only agree to compensate the customers by marking up the price difference or accept the return of the device if damages or dysfunctionalities of such device are not caused by such customers. During the Track Record Period, our return of devices from customers were primarily due to the damages caused during transportation or intermittent failure of the consumer electronic device, leading to our inspection staff unable to detect certain dysfunctionalities during the inspection process, as well as buyers’ subjective return willingness. “Buyers’ subjective return willingness” refers to returns that are primarily driven by changes in the buyers’ own thoughts and decisions, without involving objective reasons such as product quality. For instance, this may occur when a buyer no longer desires the product or fails to provide a specific reason for

## BUSINESS

---

the return. According to the after-sales policy of our Shanhui Youpin (閃回有品) online platform, which has been adopted by most of the PRC e-commerce platforms, returns and exchanges without reason within seven days are allowed, provided that the following conditions are met: the returned device, upon inspection by our after-sales service team, is confirmed to be in perfect condition (that is, consistent with the inspection report at the time of purchase); and any accessories (if applicable) are undamaged. In addition, we also provide one-year product warranty to individual customers if his/her pre-owned mobile phones purchased from us becoming dysfunctional.

Benefiting from our professional after-sales service team, we are capable of handling after-sales requests or complaints effectively and efficiently. When our customer service staff receives a request or complaint from our customer, he/she is required to record the details of such request or complaint in detail and provide a solution or suggestion to customer at the best of their abilities. In the event that the request of complaint could not be resolved after discussing with the customer or the matter at issue requires assistance of our other department, our customer service staff will refer the matter to the relevant department and provide ongoing assistance. Our customer service staff are also responsible for promptly following up on the request and complaint handling progress and providing feedback to our customers on the outcome. In addition, we categorize customer complaints into three levels based on the severity and have corresponding processing time requirement with general complaints shall be processed within 24 hours, material complaints within 12 hours and major complaints within six hours.

**BUSINESS**

During the Track Record Period, we did not receive any material complaints from our customers. The table below sets out the number of our pre-owned consumer electronics returned and the respective refund amount for the periods indicated:

	Year ended December 31,						Six months ended June 30,

## BUSINESS

### Our Top Five Customers

We became acquainted with our top ten customers because they have been proactively using our sales platform and frequently participating in the bidding process of the various modules on Shanhui Youpin (閃回有品), ultimately winning the bids based on their competitiveness and accumulated a considerable transaction amount with us.

We have a broad base of customers, and during the Track Record Period, all of our top five customers in each year/period of the Track Record Period were independent third parties. To the best knowledge of our Directors, none of our Directors or, their respective associates or any of our shareholders holding more than 5% of the issued share capital of our Company during the Track Record Period and as of the Latest Practicable Date, held any interest in any of the top five customers in each year/period of the Track Record Period.

We generally require our customers to make full payment for their purchases before arranging the delivery of goods. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, revenue generated from our top five customers in each year/period of the Track Record Period were approximately RMB142.8 million, RMB154.8 million, RMB166.6 million, RMB223.5 million and RMB154.5 million, respectively, representing 19%, 16.8%, 14.4%, 17.2% and 19.1% of our total revenue for the same periods, respectively. Revenue from our largest customer in each year/period of the Track Record Period amounted to approximately RMB43.4 million, RMB55.3 million, RMB54.1 million, RMB69 million and RMB71.7 million for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively, representing approximately 5.8%, 6%, 4.7%, 5.3% and 8.9% of our total revenue for the same years/periods, respectively.

The tables below set out the basic information of our top five customers in each year/period of the Track Record Period:

#### *For the year ended December 31, 2021*

Ranking	Customer	Background of the customer	Major products sold	Sales amount  (approximately RMB'000)	Approximate % of our total revenue	Year of commencement with us	Credit term	Payment method
1.	Customer A .....	Two individual customers who are brothers	Consumer electronics through our sales platforms.	43,445	5.8	2020	Within three calendar days after successful bidding	Online transfer

**BUSINESS**

Ranking	Customer	Background of the customer	Major products sold	Sales amount (approximately RMB'000)	Approximate % of our total revenue	Year of commencement with us	Credit term	Payment method
2.	Customer B .....	Individual customer, along with two PRC companies based in Shenzhen, Guangdong province (“Company A & Company B”). Company A is owned by such individual customer as to 95% and Company B is wholly-owned by such individual customer. Company A was established 2016, with registered share capital of RMB1 million. Company B was established in 2018, with registered share capital of RMB1 million. Both companies are principally engaged in the sale of pre-owned consumer electronics.	Consumer electronics through our sale platforms	30,012	4.0	2018	Within three calendar days after successful bidding	Online transfer
3.	Customer C <sup>(1)</sup> .....	Two individual customers (“individual customer A & individual customer B”), along with an individual-owned business based in Chengdu, Sichuan province, which was established in 2019 and principally engages in the sale and repairment of consumer electronics and accessories, wholly-owned by individual customer A and employs individual customer B and was deregistered in November 2021.	Consumer electronics through our sale platforms	28,370	3.8	2021	Within three calendar days after successful bidding	Online transfer

	Sub-total:.....	N/A	N/A	142,807	19.0	N/A	N/A	N/A

*Note:*

- To the best of the knowledge, information and belief of our Directors having made all reasonable enquiries, the individual-owned business was deregistered in November 2021 because of the internal business decision of individual customer A. Our Directors are of the view that such deregistration did not have any material and adverse impact on our business, financial performance and results of operations because we had continued our sales to individual customer A and individual customer B after the individual-owned business was deregistered. As of the Latest Practicable Date, the trade receivables from such individual-owned business was fully-settled. To the best of the knowledge, information and belief of our Directors having made all reasonable enquiries, (i) before the individual-owned business was de-registered, individual customer A and individual customer B had placed orders with us for the business operation of the individual-owned business; and (ii) after the individual-owned business was de-registered, individual customer A and individual customer B continued to place orders with us as business partners. As the result of the foregoing, sales made to individual customer A and individual customer B were aggregated and presented as Customer C during the Track Record Period.

5.	Customer H .....	An individual customer.	Consumer electronics through offline sale and our sales platform	15,658	1.7	2022	Before delivery	Online transfer
	Sub-total: .....	N/A	N/A	154,780	16.8	N/A	N/A	N/A

*Note:*

- To the best of the knowledge, information and belief of our Directors having made all reasonable enquiries, the individual-owned business was deregistered in November 2021 because of the internal business decision of individual customer A. Our Directors are of the view that such deregistration did not have any material and adverse impact on our business, financial performance and results of operations because we had continued our sales to individual customer A and individual customer B after the individual-owned business was deregistered. As of the Latest Practicable Date, the trade receivables from such individual-owned business was fully-settled. To the best of the knowledge, information and belief of our Directors having made all reasonable enquiries, (i) before the individual-owned business was de-registered, individual customer A and individual customer B had placed orders with us for the business operation of the individual-owned business; and (ii) after the individual-owned business was de-registered, individual customer A and individual customer B continued to place orders with us as business partners. As the result of the foregoing, sales made to individual customer A and individual customer B were aggregated and presented as Customer C during the Track Record Period.

### OVERLAPPING OF CUSTOMERS AND SUPPLIERS

During the Track Record Period, Supplier A, which comprises several companies within the same group, was one of our five largest suppliers and also a customer in each year/period of the Track Record Period. Supplier A is our key upstream sourcing partner, which is also a mainstream consumer brand. As we have formed a close and all-rounded strategic collaboration relationship with our key upstream sourcing partners, we generally have overlapping customers or suppliers for our recycling and sale business.

### Our Recycling Transaction Services through or with Supplier A

During the Track Record Period, we procured pre-owned consumer electronics through the online and offline retail stores of Supplier A by way of trade-in solution and also through corporate recycling. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the promotion service fees for the supply procured through trade-in solution of Supplier A amounted to RMB3.1 million, RMB4.6 million, RMB2.4

---

## BUSINESS

---

million, RMB6.2 million and RMB1.8 million, respectively. Our procurement value of pre-owned consumer electronics from Supplier A by way of corporate recycling amounted to RMB20 million, RMB13.4 million, RMB38.2 million, RMB36 million and RMB5.5 million, respectively.

### **Our Services Provided to Supplier A**

During the Track Record Period, Supplier A engaged us to provide certain value-added and after-sale services to individual consumers, such as screen assurance services and value maintain and trade-in services, and to handle certain purchasing and selling services of consumer electronics in bulk to satisfy its diversified business needs. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue generated from Supplier A amounted to approximately RMB1.8 million, RMB2 million, RMB1.6 million, RMB0.4 million and RMB0.1 million, respectively which accounted for approximately 0.3%, 0.2%, 0.1%, 0.03% and 0.01% of our total revenue for the same periods, respectively.

Negotiations of the terms of our procurement through/from and our services provided to Supplier A were conducted on an individual basis, and the sales and purchases were neither inter-connected or inter-conditional with each other. Our Directors confirm that all of our sales to and purchases from Supplier A were conducted in the ordinary course of business under normal commercial terms and on arm’s length basis. Our Directors confirm that, save as disclosed above, none of our major customers was our supplier, or vice versa, during the Track Record Period.

### **INFORMATION SYSTEM**

We believe that digital transformation of businesses is an inevitable trend and a necessary path for most companies to achieve significant improvements in operational quality and efficiency. We designed and developed our BOSS System, a comprehensive, configurable and standardized ERP (enterprise resource planning) system, for management and operation of our day-to-day business. BOSS System has integrated core functions (in the form of different modules) necessary for our business operation. Such core functions includes the following:

- **Supply chain management**

The BOSS System digitalizes the recycle process of pre-owned devices (including mobile phones and other electronics). In a typical offline trade-in solution scenario, the front sales staff in our upstream sourcing partners’ retail stores upload the photos and auxiliary information of the pre-owned devices to BOSS System. Our AI-driven pricing model embedded in our BOSS System can automatically analyze the brand, model, and condition of the pre-owned devices, and then generate a recommended trade-in price range for individual consumers. The entire pricing process via BOSS System usually takes no more than five minutes, which is crucial to the customer experience of trade-in individual consumers.

---

## BUSINESS

---

Besides, our BOSS System also track and store business-related data arising from the supply chain, such as information of pre-owned devices, procurement cost, consumer profile, and quality inspection report. We may retrieve such data for the purpose of improving BOSS System or conducting business analysis at any time.

The abovementioned functions of BOSS System are underpinned by (i) our no. 2022101692428 invention patent, and (ii) no. 2021111228878 invention patent. See “Statutory and General Information — 2. Our intellectual property rights — (b) Patents” for more details about our patents.

- **Sales planning and management**

The BOSS System provides convenience to sales of pre-owned devices recycled by us in the following respects:

- Automatically label and classify devices. BOSS System significantly enhances the delicacy management of our newly recycled pre-owned devices by reducing labor cost and allocate pre-owned devices to different sales channels according to inventory age;
- Inventory sharing and management. After we recycle and inspect a pre-owned device, BOSS System can launch and manage it in different online sales channels simultaneously. If we sell the pre-owned device in one sales channel, BOSS System can withdraw it from other online sales channel immediately, which reduces our risk of overselling.
- Automatically generating pricing strategy to facilitate sales. Our BOSS System is connected to our Shanhui Youpin (閃回有品) online platform. When a corporate recycler wants to sell and resell devices on Shanhui Youpin (閃回有品) online platform, BOSS System can generate a recommended selling price based on historical price information and current marketing condition. Prices recommended by BOSS System are more likely to lead to successful transactions.
- Personalized recommendation. BOSS System can recommend devices to potential individual consumers browsing Shanhui Youpin (閃回有品) online platform based on their user profile and preference.

The abovementioned functions of BOSS System are underpinned by our no. 2023114108415 invention patent and certain patents in application. See “Statutory and General Information — 2. Our intellectual property rights — (b) Patents” for more details about our patents.

---

## BUSINESS

---

- **Operation management**

Our BOSS System has streamlined our operation and improve our efficiency in general. For example, our BOSS System has integrated automatic evaluation feature to assess pre-owned devices based on AI machine learning. Our BOSS System has also integrated sources of our important operating data, enabling our management and staff to monitor inventory level and logistic progress in a visualized manner. In addition, our BOSS System has integrated a Shanqingchu (閃清除) tool, which helps us to erase personal data and privacy in the recycled mobile phones conveniently and thoroughly.

The abovementioned functions of BOSS System are underpinned by our certain patents in application.

Our BOSS system is different from Shanhui Youpin (閃回有品) online platform, which is a sales platform open to our customers for them to purchase pre-owned consumer electronics. For more details of our Shanhui Youpin (閃回有品) online platform, please refer to “— Our sales — Shanhui Youpin (閃回有品)” in this section.

Our BOSS System and Shanhui Youpin (閃回有品) online platform cooperate in synergy to facilitate our business. For instance, a pre-owned consumer electronic device will be tested and graded by BOSS System, and then be listed on Shanhui Youpin (閃回有品) online platform for sale. Once a customer places an order to purchase such device, the order information will be automatically generated in the BOSS System, and the relevant inspection center will prepare and complete the delivery accordingly, which will be shown in the BOSS System. Subsequently, the customer will be able to view the order status on Shanhui Youpin (閃回有品) online platform. The operation system facilitates the transaction speed of the pre-owned consumer electronics, which ensures our competitive advantages in the industry.

We plan to further develop and improve our information technology system to keep up with the growth of our business, support our Group’s digital management and improve our overall operational efficiency. For example, we plan to upgrade and increase the number of servers that we currently rent to increase the data storage, improve the efficiency and enhance the data security of our BOSS System. We believe such improved system will strengthen our operation management in all aspects as well as improve our ability to meet the demands and preferences of our customers.

### OUR OPERATION AND INSPECTION CENTERS

In February 2024, we had set up an operation and inspection center at Anji, Zhejiang province to support the operations of our Zhejiang Shanhui by using our own working capital. This operation and inspection center has recently been renovated and is just starting to operate. We plan to further expand this operation and inspection center by using our working capital for the three years ending December 31, 2027. As of June 30, 2025, we operated a total of four operation and inspection centers, equipped with proprietary data processing technology and

---

## BUSINESS

---

technicians in Shenzhen, Guangdong province, Zhengzhou, Henan province, Chengdu, Sichuan province and Anji, Zhejiang province with a team of 57 personnel. Our operation and inspection centers have an aggregate GFA of approximately 5,204 square meters.

Our standard inspection examines various criteria and aspects including exterior inspection, such as scratch inspection; hardware inspection, such as Bluetooth inspection and touch screen inspection; and interior inspection, such as water damage inspection. Upon completion of the inspection, our system automatically generates a comprehensive, standardized report. Each report includes extensive information on the exterior, hardware and interior of the device, and the entire inspection process is conducted under video surveillance which is available for reviewing any time.

Our proprietary inspection technologies and grading process allow us to categorize the inherently non-standardized pre-owned consumer electronics into standard grades that customers can rely on. We plan to upgrade all of our existing inspection and operation centers in Shenzhen, Chengdu, Zhengzhou and Anji and purchase and/or upgrade certain equipment, for instance, smart shelves and automatic packing machines. To support the above upgrade of our inspection and operation centers, we intend to recruit four receiving and packing staff and six quality inspectors for each of our Shenzhen, Chengdu, Zhengzhou, and Anji inspection and operation centers for the two years ending December 31, 2027. We expect that these centers would better facilitate the efficient collection, inspection and grading, repairment and maintenance, and further sales and distribution of our pre-owned consumer electronics procured, which in turn, help us to strengthen our service coverage, increase our inventory turnover and improve our operational efficiency.

The utilization rates for our operation and inspection centers showed a general decreasing trend during the Track Record Period, primarily due to the increasing sales of the pre-owned mobile phones we collected under the offline-trade-in through our real-time open bidding module on Shanhui Youpin (閃回有品) online platform during the Track Record Period, where, under most circumstances, no additional inspection will be conducted before delivering it to the successful bidder. During the Track Record Period, approximately 9.3%, 20%, 42.7%, 80.6% and 72.5% of our revenue were derived from the sale of the pre-owned mobile phones we procured under our offline trade-in solutions and sold through our real-time open-bidding module on Shanhui Youpin (閃回有品) online platform simultaneously. For more details in relation to our real-time open bidding module on Shanhui Youpin (閃回有品) online platform, please refer to “– Our sales – Shanhui Youpin (閃回有品)” in this section.

**BUSINESS**

Anji, Zhejiang province....	-	-	-	-	-	-	-	-	-	-	-	-	34,800	43,416	2,039	131%	-	-	-	-	42,000	49,909	1,715	123%
<b>Total:.....</b>	<b>879,000</b>	<b>1,047,419</b>	<b>32,551</b>	<b>122.9<sup>(3)</sup></b>	<b>1,008,000</b>	<b>1,095,801</b>	<b>40,798</b>	<b>112.8<sup>(3)</sup></b>	<b>882,000</b>	<b>990,898</b>	<b>35,759</b>	<b>116.4<sup>(3)</sup></b>	<b>759,300</b>	<b>901,473</b>	<b>24,812</b>	<b>122%</b>	<b>462,000</b>	<b>446,816</b>	<b>4,380</b>	<b>97.7</b>	<b>388,500</b>	<b>398,840</b>	<b>18,327</b>	<b>107%</b>

Notes:

- Inspection capacity is calculated based on daily inspection capacity (i.e. estimated number of consumer electronics inspected per day per inspection staff in each operation and inspection center for the relevant financial year/period) multiplied by inspection days per month and inspection months per year/period and based on the following assumptions: (i) no inspection staff took additional leaves during the relevant financial year/period; (ii) the estimated number of consumer electronics inspected by each inspection staff is 75 units per day; and (iii) 140 working days for the six months ended June 30, 2024 and 2025 respectively and 280 working days for each of the years ended December 31, 2021, 2022, 2023 and 2024 respectively.
- The utilisation rate is calculated based on the actual inspection volume for the relevant year/period divided by the inspection capacity for the relevant year/period.
- The utilisation rate is over 100% because the inspection capacity is calculated based on several assumptions as explained in Note (1) above, which are subject to variation that could possibly lead to a higher actual inspection volume, such as (i) the number of consumer electronics inspected by an experienced inspection staff is more than 75 units per day and (ii) certain inspection staff worked overtime during the relevant financial year/period.

## BUSINESS

### BUSINESS SUSTAINABILITY

We had achieved sustainable business development but were loss-making during the Track Record Period. The table below sets out certain financial data for the periods indicated:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	<i>(RMB in thousands, except percentages)</i>					
	<i>(Unaudited)</i>					
Revenue .....	749,731	919,112	1,158,393	1,297,261	576,858	809,476
Gross profit .....	61,471	55,667	78,343	62,096	25,878	50,721
Gross profit margin .....	8.2%	6.1%	6.8%	4.8%	4.5%	6.3%
Loss for the						
year/period .....	(48,708)	(99,084)	(98,268)	(66,443)	(40,126)	(24,633)
Net loss margin .....	(6.5%)	(10.8%)	(8.5%)	(5.1%)	(7.0%)	(3.0%)
Adjusted profit/(loss)						
(non-IFRS measure) ..	7,712	(21,993)	(6,773)	(31,227)	(18,059)	10,876
Adjusted profit/(loss)						
margin (non-IFRS						
measure) .....	1.0%	(2.4%)	(0.6%)	(2.4%)	(3.1%)	1.3%

Our loss-making position during the Track Record Period was primarily due to the following reasons:

- Our losses for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025 were primarily or partially attributable to our changes in carrying amount of redemption liabilities of approximately RMB46.1 million, RMB69.4 million, RMB87.3 million, RMB21.5 million and RMB31.5 million for the same periods, respectively, which represented the amount of changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. Such preferential rights will be terminated upon their automatic conversion into ordinary Shares upon [REDACTED].
- Our financial performance and profitability during the Track Record Period were greatly affected by our gross profit and gross profit margin of sale of pre-owned mobile phones, which in turn, largely determined by the gross profit and gross profit margin of sale of pre-owned mobile phones procured through different supply channels. Such gross profit and gross profit margin largely differ for our sale of pre-owned mobile phones procured through the supply channels of different mainstream consumer electronic brands, merchants and mobile network operators.

---

## BUSINESS

---

- We recorded adjusted profit (non-IFRS measure) of approximately RMB7.7 million for the year ended December 31, 2021, while we recorded adjusted loss (non-IFRS measure) of approximately RMB22 million for the year ended December 31, 2022. Such change was primarily due to the increase in our loss of approximately RMB48.7 million for the year ended December 31, 2021 to approximately RMB99.1 million for the year ended December 31, 2022, which was primarily attributable to the decreases in our gross profit and gross profit margin for the same period. Such decreases were then mainly attributable to the decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of peer competition resulting from the launch of its own centralized recycling platform in June 2022. In June 2022, Consumer Electronic Brand B launched its own centralized recycling platform and engaged a few mobile phone recycling service providers to provide recycling services under such centralized recycling platform. As a result, in order to secure the procurement volume and market shares from the supply channels of Consumer Electronic Brand B (and its designated distributors), we had to generally raise the recycling prices to compete with its other service providers, which in turn, caused low gross profit and gross profit margin of our sale of pre-owned mobile phones procured through its supply channels. The decreases in our gross profit and gross profit margin for the year ended December 31, 2022 were also attributable to the relatively faster increase in our overall procurement costs of pre-owned consumer electronics as compared to the increase in our sale of the same, as both markets of the consumer electronics recycling service and the second-hand consumer electronics got more competitive and the PRC economy also generally slowed down since COVID-19 pandemic.
- Our business and financial performance had improved as a result of the recovery of our procurement and sales for the year ended December 31, 2023 after the pandemic. Our adjusted loss (non-IFRS measure) significantly decreased from approximately RMB22 million for the year ended December 31, 2022 to approximately RMB6.8 million for the year ended December 31, 2023. Such improvement was primarily due to the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands A and C and (and their designated distributions). Nevertheless, such increases in gross profit and gross profit margin were partially offset by the decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) for the same reason aforesaid. The increases in our gross profit and gross profit margin for the year ended December 31, 2023 were also partially due to our better control of our promotion service and commission fees paid to certain of our upstream sourcing partners and the relevant sales staff of their relevant retail stores as our bargaining power increased as our business continue to grow.

---

## BUSINESS

---

- Our adjusted loss (non-IFRS measure) increased to approximately RMB33.1 million for the year ended December 31, 2024 from to an adjusted loss (non-IFRS measure) of approximately RMB6.8 million for the year ended December 31, 2023. Such change was primarily due to the continuous decreases in gross profit and gross profit margin of the sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) for the same reason aforesaid. The decrease in our gross profit margin for the year ended December 31, 2024 was also due to the increase in our procurement cost of mid-to-high-end pre-owned mobile phones that were typically released in the last few years and generally had higher trade-in prices as a result of the increased trade-in promotional activities conducted by some of our upstream sourcing partners on specific mobile phone models.
- We recorded an adjusted profit (non-IFRS measure) of approximately RMB10.9 million for the six months ended June 30, 2025. Such improvement was primarily attributable to (i) the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands B (and its designated distributors), primarily due to the decrease in commission fees paid to the sales staff of retail stores of Consumer Electronic Brand B (and its designated distributors) as a result of our deepened business collaboration with them and its internal adjustment of fee policy; (ii) the increases in gross profit and gross profit margin of our sale of consumer electronics through offline sale procured through corporate recycling, primarily as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F; and (iii) the general increases in gross profit and gross profit margins of our sale of pre-owned mobile phones procured through the supply channels of some other mainstream consumer electronic brands as we had been actively staying informed about the market trend of the expected supply and demand and recycling and selling prices offered by our peer competitors to adjust our pricings in real-time, which in turn, minimize the impact of our ineffective pricing and at the same time, improve our overall gross profit margin.

### Revenue

Notwithstanding the above, we had been continuously putting efforts to achieve business sustainability, and our revenue had steadily improved during the Track Record Period. Our revenue grew from approximately RMB749.7 million for the year ended December 31, 2021 to approximately RMB919.1 million for the year ended December 31, 2022 and then to approximately RMB1,158.4 million for the year ended December 31, 2023 and further to RMB1,297.3 million for the year ended December 31, 2024, representing a CAGR of approximately 20%. Our revenue also increased by approximately 40.3% from approximately RMB576.9 million for the six months ended June 30, 2024 to approximately RMB809.5 million for the six months ended June 30, 2025.

## BUSINESS

The following table sets out the breakdown of our revenue for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue
	<i>(Unaudited)</i>											
Sale of products...	737,210	98.3	901,770	98.1	1,140,278	98.4	1,277,990	98.5	568,887	98.6	800,599	98.9
- Sale of pre-owned mobile phones.....	693,393	92.5	856,346	93.2	1,050,003	90.6	1,231,356	94.9	546,797	94.8	773,130	95.5
- Sale of other pre-owned consumer electronics.....	43,817	5.8	45,424	4.9	90,275	7.8	46,634	3.6	22,090	3.8	27,469	3.4
Other services <sup>(1)</sup> ...	12,521	1.7	17,342	1.9	18,115	1.6	19,271	1.5	7,971	1.4	8,877	1.1
<b>Total.....</b>	<b>749,731</b>	<b>100</b>	<b>919,112</b>	<b>100</b>	<b>1,158,393</b>	<b>100</b>	<b>1,297,261</b>	<b>100</b>	<b>576,858</b>	<b>100</b>	<b>809,476</b>	<b>100</b>

*Note:*

- Other services primarily include (i) providing matching service to sellers and purchasers with bulk disposal or purchase needs for pre-owned consumer electronics; (ii) conducting quality inspection of pre-owned mobile phones transacted on certain well-known third-party e-commerce platforms; and (iii) providing after-sale services, such as screen assurance services.

### *Sale of pre-owned mobile phones*

During the Track Record Period, sale of pre-owned mobile phones was our largest revenue contributor, which accounted for approximately 92.5%, 93.2%, 90.6%, 94.9% and 95.5% of our total revenue for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. Our revenue derived from sale of pre-owned mobile phones increased from approximately RMB693.4 million for the year ended December 31, 2021 to approximately RMB1,231.4 million for the year ended December 31, 2024. Our revenue derived from sale of pre-owned mobile phones also increased from approximately RMB546.8 million for the six months ended June 30, 2024 to approximately RMB773.1 million for the six months ended June 30, 2025. We expect that our revenue of sale of pre-owned mobile phones will continue to grow as our business expands.

## BUSINESS

---

Pre-owned mobile phones have always been in short supply in the Chinese market and is estimated to continue to be so in the future. There are generally no shortage of purchasers of pre-owned mobile phones as there will always be a right buyer for any pre-owned mobile phone across the entire quality spectrum. As such, our ability to obtain steady supply is critical for our sale business. During the Track Record Period, our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands A, B, C and D and Vivo and/or their respective designated distributors were our major revenue contributors with stable growth during the Track Record Period. In particular, our revenue derived from the sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands B and D and Vivo and/or their respective designated distributors had experienced rapid growth since 2024, and our revenue derived from the sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand C had also experienced rapid growth since 2025.

Furthermore, although we face competition from other mobile phone recycling service providers in procuring pre-owned mobile phones through the supply channels of Consumer Electronic Brands B, C and D and Vivo resulting from the launches of their own centralized recycling platforms during 2022 to 2024, we believe that we have been in an even better position in terms of securing stable and quality pre-owned consumer electronics from their supply channels as such recycling platforms serve as a centralized recycling system within the network of Consumer Electronic Brands B, C and D and Vivo and their designated distributors are required to use such centralized recycling platforms, which in turn, increase the chances for them to use our recycling services across more retail stores, as long as our recycling prices and quality of services are competitive. During the year ended December 31, 2024 and the six months ended June 30, 2025, we had newly established cooperation with a total of 7,897 retail stores of Consumer Electronic Brands B, C and D and Vivo (and their designated distributors). As such, we believe that our continued strategic collaborations with our key upstream sourcing partners that are mainstream consumer electronic brands will help us secure the stable and quality suppliers and achieve sustainable revenue growth.

### **Gross Profit and Gross Profit Margin**

We had positive gross profit and gross profit margins during the Track Record Period. In general, we expect our gross profit and gross profit margin to improve as our business continues to grow and our operational efficiency continues to increase.

## BUSINESS

### *Sale of pre-owned mobile phones*

The gross profit and gross profit margin of our sale of pre-owned mobile phones had been relatively fluctuated during the Track Record Period. The table below sets out the gross profit and gross profit margin of our sale of pre-owned mobile phones for the periods indicated, respectively:

		Year ended December 31,						Six months ended June 30,					
		2021		2022		2023		2024		2024		2025	
		Gross		Gross		Gross		Gross		Gross		Gross	
		Gross	profit	Gross	profit	Gross	profit	Gross	profit	Gross	profit	Gross	profit
		profit	margin	profit	margin	profit	margin	profit	margin	Profit	margin	Profit	margin
		RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%
<i>(Unaudited)</i>													

Sale of pre-owned mobile phones.....	46,206	6.7	42,057	4.9	61,241	5.8	51,919	4.2	20,987	3.8	45,302	5.9
--------------------------------------	--------	-----	--------	-----	--------	-----	--------	-----	--------	-----	--------	-----

As aforesaid, our financial performance and profitability during the Track Record Period were greatly affected by our gross profit and gross profit margin of sale of pre-owned mobile phones, which in turn, largely determined by the gross profit and gross profit margin of our sale of pre-owned mobile phones procured through different supply channels of our upstream sourcing partners, especially, Consumer Electronic Brand B, taking into account their relatively large procurement value and sales volume. For the years ended December 31, 2021, 2022, 2023 and 2024, our gross profit and gross profit margins were largely affected by the gradual decreases in gross profit and gross profit margins of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands B and D and Vivo as a result of the launches of their own centralized recycling platforms, which in turn, the competitions among various of their mobile phone recycling service providers, including us. Nevertheless, such decreases were partially offset by the relatively higher gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand A and Consumer Electronic Brand C for the same period.

For the six months ended June 30, 2025, the improvement of our gross profit and gross profit margin was primarily due to (i) the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands B (and its designated distributors), primarily as a result of the decrease in commission fees paid to the sales staff of retail stores of Consumer Electronic Brand B (and its designated distributors) due to our deepened business collaboration with them and its internal adjustment of fee policy; (ii) the increases in gross profit and gross profit margin of our sale of consumer electronics through offline sale procured through corporate recycling,

**BUSINESS**

primarily as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F; and (iii) the general increases in gross profit and gross profit margins of our sale of pre-owned mobile phones procured through the supply channels of some other mainstream consumer electronic brands as we had been actively staying informed about the market trend of the expected supply and demand and recycling and selling prices offered by our peer competitors to adjust our pricings in real-time, which in turn, minimize the impact of our ineffective pricing and at the same time, improve our overall gross profit margin.

For more details of our gross profit and gross profit margin during the Track Record Period, please refer to “Financial Information” in this document.

**Operating Expense Leverage**

During the Track Record Period, we were able to maintain a relatively stable operating leverage. The following table sets forth our selling and distribution expenses, research and development expenses and administrative expenses, in each case excluding [REDACTED] expense, as a percentage of revenue for the periods indicated:

	Year ended December 31,				Six months ended	
	2021	2022	2023	2024	2024	2025
	%	%	%	%	%	%
					<i>(Unaudited)</i>	
Selling and distribution expenses as a percentage of revenue .....	1.5	1.9	1.6	1.6	1.5	1.1
Research and development expenses as a percentage of revenue .....	1.4	1.9	1.6	1.4	1.6	1.1
Administrative expense excluding [REDACTED] expenses as a percentage of revenue .....	4.8	4.6	4.0	3.9	4.2	2.6
<b>Total operating expenses excluding [REDACTED] expenses as a percentage of revenue.....</b>	<b>7.7</b>	<b>8.4</b>	<b>7.3</b>	<b>6.9</b>	<b>7.3</b>	<b>4.8</b>

---

## BUSINESS

---

We have been making efforts to control our operating expenses by adopting more stringent expense control and budget approval policies:

- with regards to our selling and distribution expenses, we plan to enhance our selling and marketing efficiency by capitalizing on our established brand reputation and service experience to acquire customers more cost-effectively. We intend to conduct the following measures to control our selling and distribution expenses, including but not limited to: (i) continue to implement a rigorous approval process of our selling and distribution expenses by further setting category and standard for such expenses by amount and type that need to be approved by our managers at corresponding level. For example, small daily expenses need to be approved by sales managers, while large promotional activity expenses must be approved by senior management. These measures can ensure each expense expenditure is reasonable, compliant and necessary; (ii) continue to strengthen and formulate accurate sales expense budgets by taking into consideration our sales goals, market conditions and historical expense data, and further breaking down the expense items according to different sales region, product category, sales channel and other dimensions. We will also define the upper limit of each expense so that the sales team clearly knows the scope of disposable expenses; (iii) continue to strengthen the training of our sales staff to improve their sales and marketing skills and negotiation abilities, aiming to reduce the expenses to be spent on insufficient promotion; and (iv) encourage our sales staff to maintain and/or improve customer relationships through providing high quality and professional after-sale services, conducting regular visits and other means. and to reduce unnecessary marketing expenses for entertainment. After adopting such measures, we expect that our selling and distribution expenses as a percentage of our revenue will decrease;
- with regards to our research and development expenses, we expect to continue to incur such expenses in the foreseeable future. However, we believe that such expenses as a percentage of our total revenue will decrease over time in the long term, due to improved economies of scale and operational efficiency. In particular, a significant portion of our research and development expenses is staff costs of our personnel, which generally do not increase proportionally with our revenue growth. Besides, we also plan to implement a number of initiatives designed to increase our research and development efficiency. For example, we intend to further increase our technology, research and development capabilities to continue to empower our business offerings and research and development efficiency. We intend to invest more into the infrastructure of our Shanhui Youpin (閃回有品) online platform and the associated mobile application by continuously upgrading and iterating our existing software and hardware equipment. In particular, we will further upgrade the functionalities of our Shanhui Youpin (閃回有品) online platform by adding more AI capabilities and upgrade our management and information system, BOSS System, to support our Group’s digital management and overall operational efficiency, which we believe will enable us to develop and optimize our service efficiency. Further, we will continue to strengthen the following measures to control our research and

---

## BUSINESS

---

development expenses, including but not limited to: (i) formulating a clear research and development strategic plan and determine our key research and development projects based on the market demands, corporate development goals and other aspects to avoid investing resources in too many unnecessary research and development tasks; (ii) preparing detailed research and development expense budget in advance and breakdown the budget into different various research and development stage, specific project, and other various expense items, such as staff salary, equipment procurement, and material costs, so as to facilitate the precise management and analysis of our expense expenditures; and (iii) conducting strict feasibility assessments on research and development projects, taking into account various aspects such as technical difficulty, market prospects, and expected returns to determine whether the projects are worth carrying out. We expect that our research and development expenses as a percentage of our revenue will decrease; and

- with regards to our administrative expenses, we expect that such expenses as a percentage of our total revenue will generally decrease in the long term, as the major expense component, in particular staff costs representing wages, salaries and other benefits for our administrative personnel, generally do not increase proportionally with our revenue growth. We also plan to further optimize the structure of our administrative team and streamline workflow to increase our operational efficiency. We will continue to enhance following measures to control our administrative expenses, including but not limited to: (i) formulating detailed and reasonable administrative expense budgets, breaking down each expense item into specific account and department, and clearly defining the upper limit of the expenses so that each department is aware of the spending standards; and (ii) regularly monitoring and analyzing the implementation of our administrative expense budget, including promptly issuing warnings for the parts that exceed the budget, and to require the relevant department to provide reasonable explanations and make appropriate adjustment. We will also continue to streamline our organizational structure, reduce redundant departments and positions to avoid the increase in administrative expenses caused by excessive staff.

### **Future Plans to Improve our Business Sustainability and Profitability**

In future, we expect to continuously grow our revenue and gradually improve our gross profit margin, and we do not expect to have significant investments in sales and marketing, research and development and administrative matters. Our Directors are of the view, and the Sole Sponsor concurs with our Directors that, the efforts above have contributed and are expected to support our sustainability and improve our profitability.

In order to turn around our loss-making positions and to achieve a better profitability in the near future, we have made specific business plans and strategies. We expect that both of our revenue generated from the sale of our pre-owned consumer electronics, especially the pre-owned mobile phones, and revenue of our offline sale to grow as a result of our deepened

---

## BUSINESS

---

strategic collaboration relationship with our upstream sourcing partners and our enhanced reputation and profile in the second-hand consumer electronic market. We also expect that our gross profit and gross profit margin to improve as we achieve economies of scale and as we continue to expand our recycling service business by providing synergies to our key upstream sourcing partners and expand our sales channels. Please refer to “– Our Strategies” in this section and “Future Plans and [REDACTED]” in this document for more details.

In summary, we will implement the following measures to turn around our business on a sustainable and consistent basis:

- continue expanding our supply channels by establishing new strategic cooperation relationship with more upstream sourcing partners and increase the number of their retail stores that use our services to secure our source of the pre-owned mobile phones for sale. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis. According to Frost & Sullivan, as of the Latest Practicable Date, the aggregate number of branded retail stores of our key upstream sourcing partners (including seven mainstream consumer electronic brands and/or their designated distributors, four major mobile network operators and various sizable merchants) exceeded one million stores in the PRC. With the establishment of our new strategic cooperation with the three designated distributors of Consumer Electronic Brand F in June 2024, we believe that there remains a tremendous market for us to develop;
- continue to collaborate closely with seven mainstream consumer electronic brands, and foster strategic cooperative relationships with them. In doing so, we will continue to put effort and investment in nurturing our offline trade-in recycling transaction services by actively promoting our trade-in solutions in the retail stores of our upstream sourcing partners, and visiting, regularly discussing and entering into new strategic initiatives and collaboration arrangement with our existing upstream sourcing partners to activate and commence recycling business with those retail stores of our upstream sourcing partners which had initially agreed to enter into collaboration with us but had not conducted any trade-in recycling transaction services during the Track Record Period.
- further tap into the great market potential in the PRC live-streaming platforms and other third-party e-commerce platforms, and continue to explore conducting sale of pre-owned mobile phones through publishing promotional contents and video clips on live-streaming platforms targeted at different end users. With respect to our collaborations with the existing third-party platforms, efforts have primarily been directed toward enhancing operational efficiency. This includes, but is not limited to, improving collaboration on the inspection process and increasing the sales capacity for pre-owned devices on third-party platforms. For the six months ended June 30, 2025, our monthly average revenue generated from our sale of pre-owned consumer electronics on third-party platforms was approximately RMB8.1 million,

---

## BUSINESS

---

including revenue generated from (i) an online store opened in 2022 on Douyin (抖音), a popular short-video platform for creating and sharing content, with an average monthly sales revenue of approximately RMB2.6 million during the six months ended June 30, 2025; (ii) two online stores opened in March 2024 on Pinduoduo, an innovative Chinese e-commerce platform known for its social commerce model, with an average monthly sales revenue of approximately RMB1.4 million during the six months ended June 30, 2025; and (iii) seven online stores opened throughout the Track Record Period on Idle Fish (閒魚), a Chinese online marketplace for second-hand goods, with an average monthly sales revenue of approximately RMB0.4 million during the six months ended June 30, 2025. We have been recognized as a preferred merchant on Idle Fish (閒魚) since September 2024 and is planning to expand our service coverage to third-party operation management and quality inspection, etc. In addition, we also plan to expand and deepen our cooperation with other third-party e-commerce platforms and set up more of our own online stores on these platforms to focus on selling mid-to-high-end pre-owned mobile phones. We have conducted market research and a selection of priority platforms has been identified as potential development directions for the future;

- increase our marketing and promoting efforts to enhance our brands of Shanhuishou (閃回收) and Shanhui Youpin (閃回有品) and expand our business to sales channels with more market potential to steadily increase our sales volume. In particular, we intend to further invest on placement of both online and offline marketing and advertisement, such as billboards, advertising light boxes and web banners, to enhance our profile and promote our pre-owned consumer electronics recycling and trading services on various second-hand markets. We also plan to hold more seminars and events in Shenzhen and invite both of our existing and potential customers to attend and exchange ideas, and at the same time, raise our profile. These measures may in the short term result in an increase in our sales and marketing expenses but is expected to generate more opportunities and increase our selling price mark-up rate in the long run;
- actively seeking business opportunities with our upstream sourcing partners, especially, Consumer Electronic Brand B (and its designated distributors) to further develop and solidify our mobile phone recycling and sale service capabilities in Hong Kong and make it our overseas headquarter for our future expansion of trade-in transaction services in other Southeast Asian countries.

### ***Measures to Improve our Profitability***

In future, we will particularly focus on the below strategies to improve our future gross profit and gross profit margin:

- continue to deepen our strategic cooperation with our upstream sourcing partners, in particular, Consumer Electronic Brands A, B, C and D and Vivo (and its designated distributors), to strengthen our procurement from their supply channels;

---

## BUSINESS

---

- continue to streamline our recycling workflows and strengthen our capabilities in trade-in recycling services and trainings provided to our upstream sourcing partners so that we can increase the trade-in conversion rate and boost the sale of new mobile phones in the retail stores of upstream sourcing partners to gain more bargaining power along the growth of our business and reduce the promotion service and commission fees to be paid to certain of our upstream sourcing partners and the relevant front sales staffs of their retail stores;
- stay actively informed about the market trend of the expected supply and demand, especially the recycling prices of pre-owned consumer electronics that are willing to be offered by our peer competitors in the centralized recycling platforms of Consumer Electronic Brands B, C, D and Vivo, so that we can adjust our recycling and selling pricing strategies in real-time to improve our pricing accuracy and competitiveness in order to secure stable and quality procurement from their supply channels and increase our gross profit margin; and
- continue to optimize our operational efficiency by further developing and improving our proprietary business online and managerial platforms with AI capabilities, which include our Shanhuishou (閃回收) recycling system, Shanhui Youpin (閃回有品) online platform and BOSS System to maximize our profit.

### *Measures to Improve Operating Cash Flow Position*

During the Track Record Period, we had net cash used in operating activities of approximately RMB6.4 million, RMB43.7 million, RMB47.8 million and RMB18.4 million for the years ended December 31, 2021, 2022, 2023 and 2024, respectively, and had net cash generated from operating activities of approximately RMB43.7 million for the six months ended June 30, 2025. Our net operating cash outflows for the years ended December 31, 2021, 2022, 2023 and 2024 were primarily due to our losses during the relevant periods. Our net operating cash outflows for the years ended December 31, 2021, 2022 and 2023 were also partially attributable to our increases in the receivables from our upstream sourcing partners, especially the Consumer Electronic Brand A (and its designated distributors).

In the future, we expect to improve our net operating cash flow outflows position by taking advantage of (i) our continuous revenue growth fueled by our expanding trade-in recycling business and growing customer base; (ii) our improved operating leverage as we expect our revenue growth to exceed the increase in our expenses gradually; (iii) our budget control and optimization of operating expense; and (iv) our improved working capital. In addition, we also expect to fund our operations with [REDACTED] from the [REDACTED] and additional equity or debt financings. We do not foresee difficulties in securing debt financing to support our operations when necessary.

---

## BUSINESS

---

To further improve and refine our management of working capital, we will continue to:

- leverage our brand awareness and service experience to negotiate more attractive contractual terms with upstream sourcing partners and our customers;
- liaise closely with our key upstream sourcing partners to collect our receivables in a more efficient manner. We will require our sales management department to review sales forecast and expected receivable conditions weekly, clarify the reasons for non-payment and promptly follow up on the solutions.
- evaluate projects that are considered high value and/or high risk, and require them to be handled by dedicated customer service team so that we can focus on specific payment issues to mitigate risks and ensure customer payment.

Based on the above, we expect that our revenue will continue to grow rapidly and our gross profit and gross profit margin will improve in due course, and we do not expect to have significant investments in sales and marketing, research and development and administrative matters. As such, we believe that our strategies and measures above will validly support our business sustainability and improve our profitability.

### PROPERTIES AND FACILITIES

We occupy certain properties in the PRC. These properties are used for non-property activities as defined under Rule 5.01(2) of the Listing Rules. We do not own any properties. As of the Latest Practicable Date, we primarily leased 11 properties relating to our business operations in Shenzhen, Beijing, Chengdu, Zhengzhou and Anji, with an aggregate GFA of approximately 7,144.29 square meters in the PRC. The aforementioned leased properties are primarily used as offices, technology, research and development spaces.

As of the Latest Practicable Date, five of the aforementioned leased properties in PRC with an aggregate GFA of approximately 140.56 sq.m. were subject to potential title defects, representing approximately 2% of the total GFA of our leased properties relating to our business operations in PRC. The title defects were mainly due to that the lessors of such leased properties had not provided us with the relevant title ownership certificates for the leased properties or proof of authorizations from the property owners to sublease the properties to us. In addition, as of the Latest Practicable Date, the lessors of one of the leased properties relating to our business operations with an aggregate GFA of approximately 267.06 square meters in the PRC had not leased such properties in accordance with the permitted usage as specified on title certificates. During the Track Record Period and up to the Latest Practicable Date, we had not encountered any disputes with respect to the aforementioned leased properties.

---

## BUSINESS

---

As advised by our PRC Legal Advisor, without ownership certificates or proof of authorizations from the property owners, our use of the aforementioned leased properties may be affected by third parties’ claims or challenges against the lease rights. In addition, if the lessors do not have the requisite rights to lease the aforementioned leased properties, we may be required to vacate these leased properties and relocate our offices, technology, research and development spaces.

Our Directors believe that such leased properties will not have a material adverse impact on our business, financial conditions and results of operations, primarily because, as of the Latest Practicable Date, (i) our leases for the aforementioned leased properties were not challenged by third parties or relevant authorities; (ii) we were not involved in disputes, lawsuits or claims or receive administrative penalties in connection with the rights to lease and use the aforementioned leased properties; and (iii) to the best belief of our Directors, replacement premises for the aforementioned leased properties are readily available.

As of the Latest Practicable Date, 12 lease agreements of the leased properties relating to our business operations had not been registered and filed with the relevant land and real estate administration bureaus in the PRC because the relevant lessors failed to provide necessary documents for us to register the leases with the local government authorities.

As advised by our PRC Legal Advisor, failure to complete the registration and filing of lease agreements will not affect the validity of such leases or result in us being required to vacate the leased properties. However, the relevant government authorities may impose a fine ranging from RMB1,000 to RMB10,000 on each lease agreement that is not registered and filed. As of the latest Practicable Date, we were not aware of any regulatory or governmental actions or investigations being contemplated to the lease agreements which have not been registered with the government authorities. Based on the number of these properties and the cities where they are located, we believe the likelihood that we will be punished due to failure to register and file all the relevant lease agreements at the same time is very remote.

In May 2024, we also leased a property in Hong Kong, with a GFA of approximately 1,190 square feet, which is used for our business operation and to support our pre-owned consumer electronics recycling transactions. As we intend to put effort to further solidify our mobile phone recycling services capabilities in Hong Kong, we plan to expand our current Hong Kong office to make it our overseas headquarter for our future expansion of trade-in transaction services in Southeast Asian countries. For more details, please refer to “Future Plans and [REDACTED]” in this document.

---

## BUSINESS

---

### LOGISTICS

In order to fulfil our orders, we maintain a long-term and/or stable partnership with reputable third-party logistic service providers, which in turn provide on-demand pick-up and delivery services to our upstream sourcing partners and individual customers. Once an order or orders is/are placed through the offline or online channels of our upstream sourcing partners, we will arrange our logistic service providers to collect the consumer electronics from the location designated by our upstream sourcing partners or individual customers, and deliver the same to our operation and inspection centers, where the devices are inspected, graded and priced. For the orders placed on our Shanhui Youpin (閃回有品) online platform, we arrange our logistic service providers to deliver the purchased devices from our operation and inspection centers to the buyers’ designated locations.

Our logistics management system has proven to be efficient leveraging the support of our BOSS System, which digitalizes all the information during warehousing and tracks the devices during transportation. Complemented with our integrated information management system, this logistics management system dynamically allocates the logistics resources based on the locations of our upstream sourcing partners’ retail stores, individual consumers as well as our customers.

We have entered into service contracts with our logistic service providers which stipulate that they provide us with nationwide collection or delivery of consumer electronics, including collection or delivery of returned or exchanged goods. Delivery cost is typically settled on a basis of a calendar month, and our logistic service providers generally offer us discount to the devices to be handled, depending on the total cost. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our costs paid to third-party logistic service providers amounted to approximately RMB10.5 million, RMB13.4 million, RMB16.3 million, RMB14.4 million and RMB7.7 million, respectively.

## BUSINESS

### LICENSES AND PERMITS

As advised by our PRC Legal Advisor, as of the Latest Practicable Date, we had obtained all licenses, permits, approvals and certificates that were material to our business operations from the relevant government authorities in the PRC, and such licenses, permits, approvals and certificates remained in full effect. We are required to renew such licenses, permits, approvals and certificates from time to time. As advised by our PRC Legal Advisor, we do not expect any legal obstacles in such renewals so long as we meet the applicable requirements and conditions set by the relevant PRC government agencies and adhere to procedures set forth in the relevant PRC laws and regulations.

The table below sets forth a summary of the licenses and permits that we have obtained during the Track Record Period:

<u>License/Permit</u>	<u>Holder</u>	<u>Issuing Authority</u>	<u>Grant Date</u>	<u>Expiration Date</u>	<u>Description</u>
Value-added Telecommunications Business Operation License (增值電信業務經營許可證)	Shenzhen Tianhai	Ministry of Industry and Information Technology of the PRC	June 13, 2024	June 13, 2029	Online data processing and transaction processing services (limited to transactional e-commerce)
Value-added Telecommunications Business Operation License (增值電信業務經營許可證)	Shenzhen Shanhui	Ministry of Industry and Information Technology of the PRC	January 23, 2024	January 23, 2029	Online data processing and transaction processing services (limited to transactional e-commerce)
Approval for Value-added Telecommunications Business Pilot Operation (增值電信業務經營試點批覆)	Shenzhen Shanhui	Ministry of Industry and Information Technology of the PRC	July 4, 2025	July 4, 2030	Information service business (limited to information distribution platform and delivery service under Internet information service)
Radio Dealers Licence (Unrestricted) (無線電商牌照)	Shanhui Technology	Communications Authority (Hong Kong)	October 25, 2023	–	Possess and deal in the course of trade or business in apparatus or material for radiocommunications or in any component parts thereof

## BUSINESS

### AWARDS AND RECOGNITIONS

We have received numerous awards and recognition in respect of our brand recognition, the quality of our products and services, and our social responsibilities.

The following table sets forth our major awards and recognition.

Year of Award	Award/Recognition	Issuing Authority
2025 .....	China Unicom Partner Conference Outstanding Contribution Award	China Unicom Limited (中國聯通有限公司)
2024 .....	Contribution to Green and Low Carbon Development Co-operation Award (踐行綠色低碳發展合作貢獻獎)	China Mobile Limited (中國移動有限公司)
2023 .....	WISE2023 King of Future Business Potential-Annual New Economy High Growth Enterprise (WISE2023未來商業潛力之王年度新經濟高成長企業)	36Kr Holdings Inc. (北京多氦信息科技有限公司, commonly known as “36氦”)
2023 .....	2022 Top 100 Shenzhen-Hong Kong-Macao Science and Technology Innovation Enterprises (2022深港澳科創新銳企業Top 100)	Shenzhen-Hong Kong-Macao Science and Technology Innovation Committee (深港澳科創大會組委會)
2022 .....	The first batch of initiative units for safe recycling and environmentally-friendly disposal of used mobile phones (廢舊手機安全回收和環保處置第一批倡議單位)	China Circular Economy Association and SEE Foundation (中國循環經濟協會和SEE基金會)
2022 .....	Top 50 Digital Intelligence Innovation of Chinese Enterprises in 2022 (2022中國企業數智化創新TOP50)	EDCC Enterprise Digital Development Co-construction and Sharing Platform of China Academy of Information and Communication (中國信通院EDCC企業數字化發展共建共享平臺)

## EMPLOYEES

As of June 30, 2025, we had 291 full-time employees in the PRC. The table below sets forth the number of our full-time employees by function as at the date indicated:

Function	As of June 30, 2025	
	Number of employees	% of total employees
Inspection .....	57	19.6%
Sales and marketing .....	40	13.7%
Supply and procurement .....	70	24.1%
Operations .....	52	17.9%
Research and development.....	44	15.1%
General management, finance and administration ..	28	9.6%
<b>Total</b> .....	<b>291</b>	<b>100.0%</b>

Our business and performance depend upon our ability to attract, motivate and retain a sufficient number of qualified employees. We recruit our employees based on a number of factors such as our vacancy needs and expansion plans, and the candidates’ work experience, interpersonal skills and educational background. We typically hire through recruitment platforms and referrals. We believe our benefits, working environment and development opportunities for our employees have contributed to good employee relations and employee retention. We generally maintained good relationships with our employees and had not experienced any strike or material labor dispute during the Track Record Period.

---

## BUSINESS

---

We enter into individual employment contracts with our employees, which set out, among other things, positions, salaries, working hours and other benefits. An employee’s remuneration comprises a basic monthly salary, which correlates with the employee’s position and skills, and a performance-based monthly remuneration, which is based on the employee’s individual performance, if applicable. We also provide other benefits, including overtime pay and bonus to our employees. We also enter into standard confidentiality agreements with all of our employees, and non-competition agreements with some of our senior management team.

In accordance with the relevant PRC laws and regulations, we participate in various government-mandated employee social security plans, including pension insurance, medical insurance, unemployment insurance, maternity insurance, on-the-job injury insurance, and housing provident fund plans. We make contributions to these plans at specified percentages of the salaries, bonuses and certain allowances of our employees.

In addition, we provide various training programs for our employees in order to enhance their skills, including leadership skills, professional skills and occupational skills. We place significant emphasis on our employees’ training to ensure that each of our employees is equipped with the prerequisite knowledge and techniques of our operation process. We believe that these training efforts can enable our employees to effectively master the necessary skills and professional ethics.

During the Track Record Period and up to the Latest Practicable Date, there was no labor union established by employees. We have maintained a harmonious labor relationship with our employees and did not have any material labor dispute during the Track Record Period and up to the Latest Practicable Date.

## COMPETITION

The pre-owned consumer electronics transaction services market in the PRC is evolving rapidly and is becoming increasingly competitive.

We face competition mainly from the other top service providers engaged in the recycling services within the PRC for pre-owned consumer electronics supplies and transactions. According to Frost & Sullivan, the top five and top two market players contributed 18.6% and 15.3% market shares of mobile phone recycling service market in terms of total transaction value of mobile phones in 2024, respectively. We were the third largest mobile phone recycling service provider in the PRC, both in terms of total transaction value of pre-owned mobile phones recycled and the total transaction value of pre-owned mobile phone sold in 2024, with a market share of approximately 1.3% and 1.3%, respectively. Please refer to “Industry Overview – Competitive Analysis of mobile phone recycle market in China” in this Document for further details.

---

## BUSINESS

---

We believe that we are strategically positioned in the PRC’s pre-owned consumer electronics recycling industry. Compared to other peers in the mobile phone recycling service market, we have established sustainable business partnerships with mainstream consumer electronics brands, major PRC mobile network operators, sizable merchants and e-commerce service providers, developed an effective business operation system, possesses technology advantages, and provides comprehensive service matrix, all of which ensure our competitive advantages in the industry.

### INTELLECTUAL PROPERTY

We regard our patents, software copyrights, trademarks, domain names, proprietary technologies and other intellectual property rights as the key to our success. As of the Latest Practicable Date, we had, in aggregate, 115 software copyrights, 63 registered trademarks, nine registered domain names, 19 registered patents and 17 patents in application in China. Registration of our 17 patents in application is subject to the final approval of the relevant authorities. For details about our intellectual property rights and other related information, please refer to “Appendix IV – Statutory and General Information – B. Further Information About Our Business – 2. Our intellectual property rights” in this document.

We have established an intellectual property ledger to record the relevant information of our intellectual property rights including the name, type and legal status. We rely on copyright, trademark and patent laws, as well as confidentiality and non-compete agreements with our employees and business partners to protect our proprietary rights. We file patent applications, and applications for trademarks and copyright registration in a timely manner, to protect our business from infringement of our intellectual property rights. To the best of our knowledge, information and belief, we have not encountered any material infringement of our intellectual property rights by third parties, nor had we had any serious violation of third-party intellectual property rights during the Track Record Period and up to the Latest Practicable Date.

### INSURANCE

During the Track Record Period and up to the Latest Practicable Date, we did not make, and neither were we the subject of, any insurance claims that are of a material nature to us. We believe that our existing insurance coverage is sufficient for our business operations and customary for the consumer electronics recycling industry in the PRC. Please refer to “Risk Factors – Risks Relating to Our Business and Industry – We have limited insurance coverage, which may not be adequate to cover all risks of losses associate with our business operation.” in this document.

---

## BUSINESS

---

### ENVIRONMENTAL, SOCIAL AND CORPORATE GOVERNANCE RESPONSIBILITIES

We are committed to protecting the environment and promoting corporate social responsibility and consider protection of the environment and creation of a positive social impact to be an integral part of our business. We have adopted an internal management policy on environmental, social and corporate governance responsibilities (“ESG”). Our Board and senior management take the collective and overall responsibility for establishing, adopting and reviewing the ESG vision, policy and target of our Group, and evaluating, determining and addressing our ESG-related risks. Our human resource and administration department is responsible for the daily administration and management of ESG-related issues, including but not limited to formulating internal policies and bylaws related to corporate social responsibilities, carrying out various forms of charitable and social welfare activities and ensuring that our Group fulfills relevant information disclosure obligations. Our human resource and administration department has also been tasked with the compilation and release of the ESG report, as well as the supervision and inspection of the safety production and quality management of our Group.

Furthermore, upon [REDACTED], our Directors confirm that they will closely monitor and ensure strict compliance with the Corporate Governance Code as set out in Appendix C1 of the Listing Rules, the Environmental, Social and Governance Reporting Guide as set out in Appendix C2 of the Listing Rules and all relevant rules and regulations in relation to ESG aspects. To this end, our Board and senior management undertake to oversee the compilation of our ESG report, ensure implementation of ESG policies, monitor ESG-related performance and targets, and adjust ESG strategies.

#### Environmental Protection and Climate-related Matters

We consider the protection of the environment to be important and our business has been reducing electronic waste by extending the useful life of consumer electronic devices. We have implemented measures in the operation of our business to promote compliance with applicable requirements under the environmental laws and regulations in mainland China. These environmental protection policies include reducing the consumption of energy such as water, electricity and paper and dedication to improving energy use efficiency, utilization of environmentally friendly materials and recycled content, adopting low-carbon technologies and designs, and reducing emissions of pollutants.

Going forward, we intend to implement target training programs for our employees to deepen their understanding of our environmental protection principles and best practices for creating a sustainable development environment. We also undertake to regularly assign personnel to check and ensure the proper implementation of our environmental protection policies, correct any behavior that does not comply with our polices and take appropriate remedial measures.

## BUSINESS

---

We acknowledge that climate-related issues pose a certain level of threat to us. Actual and potential climate-related risks identified by us can be classified into two major categories: physical risk and transitional risk. We define physical risks as risks that potentially cause physical impact to us. We believe that climate-related issues may bring about the risk of increasingly severe extreme weather events, such as more frequent storms, typhoons and flooding. We may potentially be impacted by higher operation and maintenance cost, as well as more insurance premium payable for protection. The health and safety of employees may also be endangered.

Due to climate change and climate-related issues, consumers may shift their preferences for products and services, while regulators may require more extensive ESG-related disclosures. Such transitional risks result in additional operating expenses. For example, potential transition risk may arise from technological advancement which may increase our operating costs or affect the competitiveness of our services. With regard to increasing responsibilities on ESG-related disclosure, we may be impacted by increased cost to execute more stringent monitoring measures on pollutant emissions and resource consumption.

In order to manage the environmental, social and climate-related risks, our Directors will adhere to our established ESG policy and measures to tackle the risks identified and minimize any potential risks inherent in our business operations. We also perform maintenance of our facilities, equipment and IT devices to minimize the risk of unmaintained facilities, equipment and IT devices causing damage to our office space, and the health and safety of employees and staff.

To mitigate climate-related risks such as more frequent extreme weather conditions, we will put in place emergency plans against extreme weather conditions so that employees and other personnel be notified promptly with any related measures. Furthermore, we will consult professional parties whenever necessary to ensure compliance with evolving requirements on resource consumption disclosures, and regularly communicate with different stakeholders on their views on climate-related issues.

### **Metrics and Targets on Environmental and Climate-related Risks**

Major parameters and measurable metrics we use to assess and manage our environmental and climate-related risks include water consumption and electricity consumption. We typically do not generate electronic waste by ourselves from the recycling of pre-owned consumer electronics as such devices are sold via our various sales channels, rather than being disposed of as scrap. Due to the nature of our business, a substantial portion of our business is conducted online with little to no impact on the environment and natural resources. For the portion of our business that requires offline participation, such as the delivery of pre-owned mobile phones, we engage third-party logistics service providers to carry out these functions.

## BUSINESS

While we do not produce emissions or consume resources significantly, we believe in the importance of caring for our planet and strive to strike a balance between our role as a for-profit company and our effort to protect the environment of our planet. Although relevant industry standards are not available, we have adopted various metrics to measure the impact of our business on the environment with reference to the environment protection laws and regulations in the PRC. Such metrics primarily include the amount of resource consumed. The following table sets forth our resource consumption indicators during the Track Record Period.

	Year ended December 31,				For six months ended June 30,	
	2021	2022	2023	2024	2024	2025
<b>Resource consumption</b>						
Electricity						
– Total amount (kWh)	244,351.8	394,652.1	336,678.13	360,868.02	151,440.09	158,319.93
– Intensity* (kWh/sq.m./per month)	9.07	8.51	4.76	4.24	3.61	3.72
Water						
– Total amount (m <sup>3</sup> )	3,159.0	5,407.0	3,965.5	1,969	1,455.0	942
– Intensity* (m <sup>3</sup> /sq.m./per month)	0.12	0.12	0.06	0.02	0.03	0.02

\* Calculated as the total amount of resource consumption divided by the gross floor area of our office premises

While our power and water usage will not have any actual or potential impact on our business operations or financial performance, we intend to reduce the level of our power and water usage and have implemented and will continue to implement the following measures:

- replacing traditional bulbs with LED lights or other energy-saving lights without affecting our business operations;
- requiring employees to switch off electronic devices and lights when they are not in use;
- switching off air conditioners after normal business hours and during non-working days; and
- promoting the reduction of electricity and water consumption among our employees.

---

## BUSINESS

---

These measures have contributed to the decrease in our consumption on water and electricity for the year ended December 31, 2023 as compared to that for the year ended December 31, 2022 and the decrease in our consumption of water for the year ended December 31, 2024 as compared to the previous year, and for the six months ended June 30, 2025 as compared to that for the six months ended June 30, 2024. Our electricity intensity for the six months ended June 30, 2025 has maintained relatively stable as compared to that for the six months ended June 30, 2024. Our water intensity has decreased continuously since 2022. With the expansion of our business, we will endeavor to continue reducing our resource consumption or keeping it relatively stable.

During the Track Record Period, we did not incur any expenses in relation to the compliance with the applicable environmental laws and regulations. We expect our future annual costs in relation to environmental, health and workplace safety compliance to be immaterial. We believe that there are no significant environmental or climate-related risks which impact our business, strategy or financial performance.

During the Track Record Period, as advised by our PRC Legal Advisor, we had not been subject to any fines or penalties by government agencies in the PRC resulting from any non-compliance with any environmental protection laws in the PRC. So far as our Directors are aware after making all reasonable enquiries, there was no threatened or pending action by any PRC environmental government agencies in respect thereof.

### **Corporate Social Responsibility**

We are committed to sustainable development, while constantly promoting the harmonious coexistence between human and nature. Our policies on compensation and dismissal, equal opportunities, diversity, anti-discrimination, and other benefits and welfare are evaluated and adjusted from time to time in accordance with the changes to the applicable laws and regulations. We are also committed to living up to our corporate social responsibilities and to promote the value of a sustainable company culture. For example, we are committed to carbon mitigation measures by asking our employees to be mindful of the environment when printing or consuming office supplies.

Since late December 2019, the outbreak of COVID-19 had materially and adversely affected the global economy. In response to the COVID-19 outbreak, we had employed various measures to mitigate any impact that COVID-19 outbreak might have on our business, including, among others, temporary closure of our inspection and operation centers and travel restrictions or suspension. Our inspection and operation centers were closed from March 14 to March 20 in 2022, and according to Frost & Sullivan, various major cities in the PRC including Beijing, Shenzhen, Guangzhou, Chengdu, Hangzhou, Nanjing, etc, experienced lockdown or dynamic control measures due to the impact of COVID-19 in 2022 for approximately two months on average. This resulted in temporary closure of our upstream sourcing partners’ retail stores, leading to a decrease in the Company’s revenue growth rate. However, it did not result in a decrease in the Company’s gross revenue or gross profit. We endeavored to provide a safe work environment and adopted various hygiene and precautionary measures including

---

## BUSINESS

---

improving ventilation, procurement of epidemic prevention materials and release of work-from-home plan and work resumption plan. We consider the safety of our employees as one of our top priorities and consider corporate social responsibility as part of our core growth philosophy that will be pivotal to our ability to create sustainable value for our Shareholders. During the pandemic, we strived to provide support to our employees and business partners to the best of our abilities, which we believe strengthened our community ties and reflected our long-term value proposition of fulfilling our social responsibilities.

### **Occupational Health and Safety and Corporate Policy**

We are subject to the relevant PRC laws and regulations regarding labor and work safety. For further details, please refer to “Regulatory Overview – Regulations relating to employment and social welfare” in this document.

In an effort to ensure the health and safety of our employees and to ensure compliance with applicable laws and regulations, we have incorporated a series of safety rules in our ESG management policy and carry out periodic inspection of our operation and inspection centers to eliminate any potentially hazardous working environment. Further, we strictly abide by the statutory requirements with respect to working hours and employee’s right to leave and vacation. In addition, we hire employees based on their merits and it is our corporate policy to offer equal opportunities to our employees regardless of gender, age, race, religion or any other social or personal characteristics. Moreover, we appreciate the services of our employees, and care about their wellbeing.

We did not experience any material workplace accident during the Track Record Period. Our PRC Legal Advisor confirmed that, during the Track Record Period and up to the Latest Practicable Date, we had not been subject to any material penalties associated with any violation of applicable laws or regulations with respect to occupational health and work safety in the PRC.

### **DATA PRIVACY AND PROTECTION**

We are well aware of the importance of personal information to users and committed to protecting user privacy through our Group-wide privacy protection policy. We are subject to various laws and regulations relating to data protection and privacy, as well as the collection and use of personal and behavioral data in China. Please refer to “Regulatory Overview – Regulations Relating to Cybersecurity, Data Security and Protection of Personal Information” in this document for further details.

In the ordinary course of our business, we from time to time collect and use certain personal information of our users, such as the user’s name, address, phone number, bank account or other payment account, and order information, etc., when it is necessary for users to conduct selling and/or buying activities, such as account registration, product information display and search, order placement, product delivery and after-sales customer services, and take measures to ensure that irrelevant personal information will not be collected. We display

---

## BUSINESS

---

our privacy policy to the users and obtain their consent before they use our software or provide personal information to us. Our privacy policy primarily sets forth the scope of personal information, how we collect, use, share, disclose and protect users’ personal information and how users can manage their personal information provided to us.

We consider the protection of the data privacy of our customers to be of paramount importance. To ensure the confidentiality and integrity of our data, we have in place policies, procedures, software and technology infrastructure in relation to the collection, use, storage, retainment, transmission, destruction, backup and recovery of our consumer data. The organizational and technical safeguards as adopted can suffice the compliance requirements under applicable data protection laws and regulations of the PRC. Our data protection and privacy policies aim to ensure that (i) personal information we collect is necessary for and proportionate to the purposes for which it is collected and that our users are informed of the purposes for which their personal information is collected and used and of their rights with respect to such data, and (ii) the unauthorized access to, breach of, tampering with or loss of personal information can be detected and prevented throughout the data lifecycle. For example, we maintain stringent control over access to personal information as well as strict assessment and approval procedures to prohibit invalid or illegitimate uses. Our database can only be accessed by certain designated and authorized personnel and we limit any access based on necessity and maintain records of data access. We have also designated personnel to be in charge of data security and personal information protection, and implemented policies on data security, data protection impact assessment, response to requests on exercising data subject rights, and response to data breach and other data security incidents. In addition, technical protective measures such as regular data back-up, data encryption, vulnerability monitoring and detection have been adopted to secure personal information of our users.

We store personal information of users collected in clouds operated by third party cloud service providers in mainland China. We strictly comply with applicable data privacy laws and regulations and do not share, transfer or publicly disclose users’ personal information except in certain limited circumstances, including when such transfer or disclosure is expressly authorized by users, is necessary for providing services to users, or is in compliance with applicable laws and regulations. We only process users’ personal information collected during the operation of our business in mainland China within mainland China and do not transfer such users’ personal information outside of mainland China nor allow remote access from outside mainland China. Moreover, we have set forth certain data destruction rules in our policies and will delete the relevant user data upon the request of users or when users cancel their account. Meanwhile, we will, as far as possible, notify the other parties (if any) who have obtained such personal information from us and ask them to delete the relevant user data.

To ensure data privacy, we have adopted measures to erase user data stored in the pre-owned devices under our various business models. Under the offline trade-in solution and offline sale solution, we will remind the individual consumer to erase the data on his/her pre-owned consumer electronic device before transporting any device into our inspection centers. The front sales staff typically helps reset his/her pre-owned consumer electronic device to factory settings in front of the individual consumer or asks the consumer to reset the

---

## BUSINESS

---

device himself/herself. Under the online trade-in solution and for pre-owned consumer electronics procured through our online platform Shanhui Youpin (閃回有品) as well as other online recycling channels, we generally remind consumers to restore factory settings by way of acknowledgement of our terms and conditions. Once the consumer agrees to the final price quote we provided, we will utilize our self-developed application to overwrite and erase the user data stored in such device.

Under the corporate recycling model as the sources of such pre-owned devices are our upstream sourcing partners, mostly consumer electronic brands and mobile network operators which are subject to their own internal policy and requirement regarding data privacy, they will erase the user data, if any, in those consumer electronics before selling them to us. For demonstration devices, they will uninstall the demonstration system before transporting them to our inspection centers. After receiving the pre-owned consumer electronics from our upstream sourcing partners, we will utilize our self-developed application to overwrite and erase the user data stored in the pre-owned devices.

We use various technologies to encrypt confidential personal information and take other necessary measures to ensure the secure processing, transmission and usage of data. To minimize the risk of data loss or leakage, we employ a variety of technical solutions to prevent and detect risks and vulnerabilities in data privacy and security, such as firewall, vulnerability scanning, and conducting regular data backup, etc. During the Track Record Period and up to the Latest Practicable Date, to the best knowledge and belief of our Directors after making reasonable enquiries and as advised by our PRC Data Compliance Adviser, (i) we had not experienced any material hacking incident, data leakage, IT system failure or other cyber security incidents; (ii) we were not subject to any material penalty, investigation, litigation or other legal proceedings relating to data privacy and protection, and (iii) we complied with all applicable laws and regulations on data privacy and security in all material respects.

## RISK MANAGEMENT AND INTERNAL CONTROL

In order to identify, assess and mitigate the risks that may create impediments to our success, we have implemented a comprehensive set of risk management policies and procedures including anti-fraud regulations and risk management regulations, to identify, assess and manage risks that we are exposed to in our day-to-day operations. Our Company has established an audit committee to assist our Board of Directors in providing independent advice on the effectiveness of our Company’s financial reporting process, risk management and internal control systems. Our Board of Directors and senior management are responsible for making risk assessment of our Group and preparing an annual risk assessment report.

## BUSINESS

---

To monitor the ongoing implementation of our risk management policies and corporate governance measures after the [REDACTED], apart from establishing an audit committee, we have implemented, and will continue to implement, the following risk management and internal control measures on our Group level:

- We have established an employee feedback, anti-fraud and anti-money laundering policy which regulates our anti-fraud, anti-money laundering and employee complaint mechanism, provides a reporting channel for employees and establishes procedures for handling unethical conducts and conflict of interest matters submitted by the employees in a confidential and anonymous manner.
- We have adopted various policies to ensure compliance with the Listing Rules, including but not limited to aspects related to connected transactions and information disclosure.
- We have adopted a risk management policy which clarifies the execution process and the monitoring procedures of our risk management, including financial risk management.
- We have adopted an internal control audit and supervision policy which formulates the organizational structure of the internal audit department and specifies the internal audit workflow.

In preparation for the [REDACTED], we engaged an independent internal control consultant to perform an independent review on the effectiveness and enforcement of our internal control policies and measures. The work scope of such internal control team covers reviewing and assessing various aspects of our operations, including (i) entity level controls, which covers employee training, board of directors and board committees, management philosophy, organizational structure, financial reporting, roles and responsibilities, human resources and legal and regulatory compliance, and (ii) business process level controls, which covers revenue and receivables, purchases and payables, inventory, human resource and payroll, assets, monetary fund, budgeting, insurance, accounting and reporting, tax, general controls of information technology, and intellectual property. We have improved our internal control system based on the recommendations of the internal control consultant, our Directors are of the view that our enhanced internal control system and measures currently in place, if implemented on a continuous basis, is adequate and effective for our current operations.

---

## BUSINESS

---

### LEGAL PROCEEDINGS AND COMPLIANCE

#### Legal proceedings

We may be involved, from time to time, in legal or administrative proceedings arising from the ordinary course of our business. During the Track Record Period and up to the Latest Practicable Date, we had not been and were not a party to any material legal, arbitral or administrative proceedings except as disclosed below:

In July 2021, Shenzhen Shanhui and Beijing Yiying Jiamei Technology Co., Ltd. (北京怡英嘉美科技有限公司) — a potential supplier principally engaged in the sale of consumer electronics (“**Yiying Jiamei**”) — entered into a cooperation contract. According to the contract, Shenzhen Shanhui would provide Yiying Jiamei with a quotation to bid on a batch of pre-owned consumer electronics. If Shenzhen Shanhui was the successful bidder, Shenzhen Shanhui would be required to pay the amount of the quotation and pick up the goods. However, the employees of Shenzhen Shanhui who handled the quotation failed to verify the specific models of some mobile phones in the quotation, which led to the provision of a higher quotation to Yiying Jiamei. After bidding successfully, Shenzhen Shanhui and Yiying Jiamei were not able to reach a consensus on adjustment to the quotation. In 2022, Yiying Jiamei initiated a civil lawsuit against Shenzhen Shanhui alleging that Shenzhen Shanhui failed to fulfil its contractual obligations to pick up and pay for the mobile phones sold to us in accordance with the relevant contract. On March 30, 2023, the Beijing (Chaoyang District) People’s Court ruled against Shenzhen Shanhui and ordered, among others, Shenzhen Shanhui to pay RMB6 million for breach of contract to Yiying Jiamei within 10 days of the effective date of the judgement. Shenzhen Shanhui appealed to Beijing District People’s Court, which rendered the final judgment dismissing our Company’s appeal on July 31, 2023.

As the RMB6 million mentioned above was already paid and recorded as part of our other expenses for the year ended December 31, 2022, our Directors are of the view that this lawsuit will not have any material adverse impact on our business, financial position or results of operation.

Based on the court judgements mentioned above and as confirmed by our Directors, none of our Directors was involved in the above proceeding. Based on the foregoing, the Sole Sponsor is of the view that the Directors (i) are still able to satisfy the required level of skill, care and diligence for the management and operation of the Group; and (ii) continue to possess the character, experience and integrity and demonstrate a standard of competence commensurate with their position as directors of a [REDACTED] company.

During the Track Record Period and up to the Latest Practicable Date, we were not aware of any pending or threatened litigation, arbitration, or administrative penalties against us or our Directors that could, individually or in the aggregate, had a material adverse effect on our business, results of operations and financial condition.

---

## BUSINESS

---

### Non-compliance incidents

Our Directors confirm that, save as disclosed below, our Group had conducted our operations and carried out our business in compliance with the relevant laws and regulations in the PRC during the Track Record Period and up to the Latest Practicable Date in all material aspects:

***Failure to make social insurance fund contributions and housing provident fund contributions in full and engagement of a third party payment agent to make contributions of social insurance and housing provident funds***

During the Track Record Period, we were not in strict compliance with the social insurance and housing provident fund contributions requirements as prescribed by the Social Insurance Law of the PRC (《中華人民共和國社會保險法》) and the Regulations on the Administration of Housing Provident Fund (《住房公積金管理條例》) and other relevant PRC laws and regulations in relation to our employees as we did not make social insurance and housing provident fund contributions in full for our employees, the number of which was 320, 307, 305, 297 and 283 as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively, and we engaged a third party payment agent to make contributions of social insurance and housing provident fund on behalf of us for certain employees, the number of which was 10, 8, nil, nil, nil as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively. The aggregate shortfall of social insurance and housing provident fund contributions amounted to approximately RMB4.5 million, RMB5.8 million, RMB5.1 million, RMB6.5 million and RMB2.3 million for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively.

The non-compliance incident in relation to the shortfall in payment was mainly due to the unwillingness of certain employees to make contributions of social insurance and housing provident fund in full for personal reasons, mainly considering the increase in their financial burden, and to participate in the social insurance schemes and housing provident fund schemes where they chose to participate in local pension schemes and housing provident fund schemes offered in their place of residency due to personal reasons. In addition, we engaged a third party payment agent to make the contributions for certain employees on our behalf as we were not able to open local accounts for the purpose of paying the contributions.

According to relevant PRC laws and regulations, (a) in respect of outstanding social insurance contributions, the relevant PRC authorities may demand us to pay the outstanding social insurance contributions within a stipulated deadline and we may be liable to a late payment fee equal to 0.05% of the outstanding amount for each day of delay; if we fail to make such payments, we may be liable to a fine of one to three times the amount of the outstanding contributions. Based on unpaid amount of our social insurance contribution of approximately RMB3.3 million, RMB4.3 million, RMB3.8 million, RMB4.5 million and RMB1.7 million for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively, the potential maximum fine which may be imposed on us if we fail to make required payments within the stipulated period required by the competent authority equals to three times of the outstanding amount of our social insurance contribution. If our Group is

---

## BUSINESS

---

ordered to make payment for any such under-contribution of social insurance and overdue charge by competent government authority, we will do so within the prescribed time period and we do not expect to incur further fines; and (b) in respect of outstanding housing provident fund contributions, we may be ordered to pay the outstanding housing provident fund contributions within a prescribed time period by the housing provident fund administrative center. If the payment is not made within such time limit, an application may be made to the PRC courts for compulsory enforcement. As advised by our PRC Legal Advisor, there are no expressed legal provisions or regulations that imposes a penalty on our Group for such under-payment but we may be ordered to pay the outstanding amount of our housing provident fund. And such outstanding amount is in the sum of approximately RMB1.2 million, RMB1.6 million, RMB1.4 million, RMB1.5 million and RMB0.5 million for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. If we were ordered to make such payment, we will do so within the prescribed time period.

With respect to the engaging a third party agent to make contributions of social insurance and housing provident fund, since August 2023, we have rectified the arrangement of engaging the third party agent, by directly paying for all employees for their social insurance and housing provident funds without engaging third party agents.

As of the Latest Practicable Date, we had not been subject to any material administrative action or penalty imposed by the relevant regulatory authorities with respect to our social insurance and housing provident fund contributions, nor did we have any outstanding notice or demand from any competent authorities taking the initiative to order us to pay shortfalls for the social insurance and housing provident fund contributions. We were also not aware of any material pending complaint filed by any of our employees regarding our social insurance and housing provident fund policy.

According to the Urgent Notice of the General Office of the Ministry of Human Resources and Social Security on Implementing the Spirit of the Executive Meeting of the State Council to Effectively Stabilise the Collection of Social Insurance (《人力資源社會保障部辦公廳關於貫徹落實國務院常務會議精神切實做好穩定社保費徵收工作的緊急通知》) issued by the General Office of the Ministry of Human Resources and Social Security on September 21, 2018, local governmental authorities are prohibited from organizing and conducting centralized collection of enterprises' historical unpaid social insurance contributions without permission.

Our Directors believe that such non-compliance would not have a material adverse effect on our business and results of operations, considering that: (i) we had not been subject to any material administrative penalties during the Track Record Period and up to the Latest Practicable Date; (ii) as of the Latest Practicable Date, we did not have any outstanding notification from the relevant PRC authorities taking the initiative to require us to pay shortfalls or the penalties with respect to social insurance and housing provident funds; (iii) we were neither aware of any material pending employee complaints nor were involved in any material pending labor disputes with our employees with respect to social insurance and housing provident funds as of the Latest Practicable Date; and (iv) as advised by our PRC

---

## BUSINESS

---

Legal Advisor, based on the relevant regulatory policies, the Company’s confirmation on paying the outstanding contributions within prescribed time period when ordered to do so and the facts stated above, and the confirmations from and interviews with relevant authorities, the likelihood that we would be subject to material administrative penalties due to such non-compliance is relatively remote. As a result, we did not make any provisions in connection with these non-compliances during the Track Record Period and up to the Latest Practicable Date.

We have taken the following rectification measures to prevent future occurrences of such non-compliances:

- we have provided and will continue to provide regular trainings to our employees in relation to social insurance fund and housing provident fund contributions compliance requirements and the relevant laws and regulations; and
- we have adopted a set of internal policies in relation to social insurance fund and housing provident fund contribution, and we will continue to maintain the arrangement that our local subsidiaries shall make their own social insurance and housing provident fund contributions instead of engaging any third-party agent to do so.

### *Non-compliance on unauthorised operation of telecommunications business*

Shenzhen Shanhui failed to obtain the relevant value-added telecommunications business operation licence or approval (the “**VAT Licence**”) for (i) the operation of an information distribution platform on its own website for users to post information on trading of pre-owned goods and recruitment without charge, which fell within the “information distribution platform and delivery service” under the category of “information service business” stipulated in the Classification Catalog of Telecommunications Services (2015 version) (the “**2015 Telecom Catalog**”) and required a VAT Licence for the category of information service business (the “**ICP Licence**”); and (ii) the sales of third-party consignment products on its online platform by charging service fees (the “**Consignment Business**”), which fell under the category of “online data processing and transaction business” under the 2015 Telecom Catalog and required a VAT Licence for the category of “online data processing and transaction processing business” (the “**EDI Licence**”). These non-compliance incidents were mainly due to our Group’s misunderstanding of the relevant laws and regulations towards the need of obtaining the ICP Licence and the EDI Licence and the lack of professional advice at the relevant times.

With respect to the above-mentioned non-compliance incidents, Shenzhen Shanhui took the initiative to make rectifications by ceasing the operation of the aforesaid information distribution platform in April 2021 and the Consignment Business in October 2021. During the year ended December 31, 2021, when the above-mentioned non-compliance incidents occurred (the “**Non-compliance Period**”), Shenzhen Shanhui did not generate any revenue from the aforesaid information distribution platform and the amount of revenue generated from the Consignment Business were approximately RMB0.4 million.

---

## BUSINESS

---

According to the Regulations of the People’s Republic of China on Telecommunications (the “**Telecommunications Regulations**”), the operation of value-added telecommunications business requires the acquisition of a corresponding VAT Licence. According to the Telecommunications Regulations and the Administrative Measures on Telecommunications Business License, any unauthorised operation of telecommunications business or over-range operation of telecommunications business will be ordered by the competent department of information industry to make rectification, confiscate the unlawful proceeds, and will be imposed a fine of more than three times and less than five times of the unlawful proceeds, and if there is no unlawful proceeds or if the unlawful proceeds are less than RMB50,000, a fine of not less than RMB100,000 and not more than RMB1 million will be imposed, and if the circumstances are serious, penalties such as suspension of business, and inclusion in the loss of trust list of telecommunications business operation will be imposed.

According to aforesaid PRC law and regulations, Shenzhen Shanhui may be subject to administrative penalties imposed by the competent authorities for unauthorised operation of telecommunications business due to the aforesaid non-compliance incidents. However, on the basis that that: (i) during the Non-compliance Period, Shenzhen Shanhui did not generate any revenue from the information distribution platform and the amount of revenue generated from the Consignment Business was relatively small, and Shenzhen Shanhui has taken the initiative to rectify such non-compliance; (ii) according to the interview conducted by the Sole Sponsor, our PRC Legal Advisor and the PRC legal advisor of the Sole Sponsor with Shenzhen Communications Administration (深圳市通信管理局), if the historical non-compliance incidents were rectified, administrative penalties would generally not be imposed; (iii) the public search on the websites of the relevant provincial communications administrations conducted by our PRC Legal Advisor revealed no record of the Group being penalised by the telecommunications authority during the Track Record Period; (iv) according to the Administrative Penalties Law of the PRC, no administrative penalty will be imposed if the non-compliance incident is not discovered within two years, and the Company confirms that during the Track Record Period, the Group has not been penalised by the competent authorities, nor has it received any notice from the competent authorities requesting the rectification of the non-compliance incidents, our PRC Legal Advisor is of the view that the risk of the Group being subject to administrative penalties due to such non-compliance is relatively remote.

To prevent the recurrence of such non-compliance incidents, we have strengthened our internal control by designating responsible personnel to review and assess whether any VAT Licence is needed for newly launched and updates of our online platforms from time to time to ensure strict compliance with the relevant laws and regulations. As of the Latest Practicable Date, we have obtained two EDI Licences and an ICP License through our PRC subsidiaries Shenzhen Shanhui and Shenzhen Tianhai and are eligible to operate the value-added telecommunications services as specified in these licenses.

## DIRECTORS AND SENIOR MANAGEMENT

### OVERVIEW

Our Board consists of eight Directors, including four executive Directors, one non-executive Director and three independent non-executive Directors. Our Board is responsible for and has general powers for the management and operation of our Company.

We [have entered] into service agreements with each of our executive Directors. We [have also entered] into letters of appointment with each of our non-executive Director and independent non-executive Directors.

Our senior management reports to our Board, and they collectively are responsible for the management of day-to day operations of our Company.

### BOARD OF DIRECTORS

#### Members of our Board:

### Executive Directors

**Mr. Liu Jianyi (劉劍逸)**, aged 54, was appointed as our Director on August 11, 2021 and appointed as our Chairman and re-designated as our executive Director on January 17, 2024. Mr. Liu is one of the founders of our Group. He has successively served as the executive director and the chairman of the board of Shenzhen Shanhui since its establishment. He is primarily responsible for managing the day-to-day operations and overall business of our Group. He is also the chairman of our Nomination Committee.

Mr. Liu is also the executive director, legal representative and general manager of Zhejiang Shanhui, Shenzhen Xinghe, Shenzhen Tianhai, Shenzhen Shanji and Shenzhen Shanxin and the director of ShanH Holding and Shanhui Technology.

## DIRECTORS AND SENIOR MANAGEMENT

Mr. Liu has over 18 years of experience in the telecommunications industry. Prior to founding our Group, between September 2003 to May 2012, Mr. Liu was appointed as the director of the operator department of Shenzhen Yitian Mobile Digital Chain Co., Ltd. (深圳市易天移動數碼連鎖有限公司), which is a subsidiary of Telling Telecommunication Holding Co., Ltd. (天音通信控股股份有限公司), a company listed on the Shenzhen Stock Exchange (Stock Code: 000829) and primarily engaged in marketing services for communication products and the mobile internet business (“**Shenzhen Yitian**”) where he was mainly in charge of expansion and management of business relationships with mobile network operators in the area of telecommunication. From April 2015 to November 2015, Mr. Liu was appointed as the supervisor of Shenzhen Huishoubao Technology Company Limited (深圳回收寶科技有限公司), a company principally engaged in the trading of pre-owned mobile digital products, where he was responsible for overseeing channel management strategies and operations.

Mr. Liu graduated from Jiangxi University (江西大學), the PRC, with specialization in food science in July 1990. Mr. Liu obtained a master’s degree in business administration at University of Wales, the United Kingdom, in October 2007 after he completed such programme at Research Institute of Tsinghua University in Shenzhen (深圳清華大學研究院).

Mr. Liu was the person-in-charge of the following entity which was established in the PRC, at the time or within 12 months from the time of its revocation. The relevant details are as follows:

Entity name	Nature of business	Status	Date of business licence revocation	Reason
Liaoning Yitian Mobile Digital Co., Ltd. Shenyang Xinghua Branch (遼寧易天移動數碼有限公司瀋陽興華店)	trade and technical services of electronic communication products and accessories	business licence revoked	April 12, 2012	failure to undergo annual inspection

As confirmed by Mr. Liu, to the best of his knowledge, Liaoning Yitian Mobile Digital Co., Ltd. Shenyang Xinghua Branch (遼寧易天移動數碼有限公司瀋陽興華店) was solvent immediately prior to its revocation of business license, and such revocation of business license was not caused by his mistake or fault and he was not aware of any actual or potential liability or obligation imposed on or will be made against him by reason of such revocation.

**Ms. Yu Hairong** (余海容), aged 46, was appointed as our executive Director and chief executive officer on January 17, 2024. She was appointed as the president of Shenzhen Shanhui since its establishment and was re-designated as a director and president of Shenzhen Shanhui on July 5, 2018. She is primarily responsible for managing the day-to-day operations of our Group.

---

## DIRECTORS AND SENIOR MANAGEMENT

---

Ms. Yu has over 20 years of experience in the telecommunications industry. Prior to joining our Group, Mr. Yu was the a deputy general manager of Shenzhen Yitian between July 2002 to May 2016 where she was mainly in charge of overseeing the day-to-day operations of the company.

Ms. Yu graduated from Southwest Agricultural University (西南農業大學) (now known as Southwest University (西南大學)), the PRC, in July 2002 with a bachelor’s degree in information management and information system.

**Mr. He Xiaomin** (何小敏), aged 47, was appointed as our executive Director and chief production officer on January 17, 2024. Mr. He joined our Group since its establishment on May 18, 2016 as the supply chain director of Shenzhen Shanhui. He is primarily responsible for the day-to-day management of the supply chain department and the implementation of the back-office systems of our Group.

Mr. He has over 20 years of experience in information technology development and management. Prior to joining our Group, Mr. He was appointed as the manager of the information management department of Shenzhen Yitian between August 2002 and August 2009 where he was mainly in charge of the information system of the retail subsidiaries of the company. Between August 2009 and July 2012, he was the senior manager of the information department of Goldlion (China) Company Limited, Guangzhou Branch (金利來(中國)有限公司廣州分公司), where he was responsible for the informatization planning and system establishment of the parent company, Goldlion Holdings Limited (金利來集團有限公司), a company listed on the Main Board of the Stock Exchange (Stock Code: 0533). Between October 2012 and February 2013, he was the deputy manager of the information department of New Belle Footwear (Shenzhen) Company Limited (新百麗鞋業(深圳)有限公司), a company formerly listed on the Main Board of the Stock Exchange, where he was primary responsible for information system development. Mr. He was the chief information officer of Shenzhen Yitian between February 2013 and January 2015 where he was responsible for the informatization planning and system establishment of the retail subsidiaries of the company. Between June 2015 and September 2015, Mr. He was appointed as the project manager of Shenzhen Qianhai Zhengrong Software and Information Technology Service Company Limited (深圳市前海正榮軟件和信息技術服務有限公司) where he was mainly in charge of the development, implement and promotion of the information system of the company. Between September 2015 and March 2016, Mr. He was appointed as the chief technology officer of the information technology department of Shenzhen Chaodai Fashion Technology Company Limited (深圳市潮代時尚科技有限公司), a company mainly engages in technical development of network software, where he was mainly in charge of product planning.

Mr. He graduated from Sun Yat-sen University (中山大學), the PRC, majoring in computational mathematics and application software in June 2000.

---

## DIRECTORS AND SENIOR MANAGEMENT

---

**Mr. Lin Lexin** (林樂新), aged 35, was appointed as our executive Director and chief technology officer on January 17, 2024. Mr. Lin has also been the chief technology officer of Shenzhen Shanhui since its establishment on May 18, 2016. Mr. Lin is primarily responsible for managing the technology and development team and supervising technology and development work within our Group.

Mr. Lin is also the supervisor of Zhejiang Shanhui, Shenzhen Xinghe, Shenzhen Tianhai, Shenzhen Shanji and Shenzhen Shanxin.

Mr. Lin has over 10 years of experience in software development. Prior to joining our Group, Mr. Lin worked as a software engineer at Southern Power Grid Shenzhen Digital Power Grid Research Institute Company Limited (南方電網深圳數字電網研究院有限公司) from July 2011 to May 2014, where he was responsible for the development of the supply and financial systems. Between May 2014 and April 2016, he was employed as a front office development engineer of Shenzhen Yixun Tiankong Network Technology Company Limited (深圳市易迅天空網絡技術有限公司), a company mainly engages in network software development and related technical consulting, where he was responsible for the full-stack development and maintenance of mobile websites.

Mr. Lin obtained a bachelor’s degree in electronic commerce from South China University of Technology (華南理工大學), the PRC, in July 2011.

### **Non-executive Director**

**Mr. Jiang Wen** (蔣文), aged 39, was appointed as a director of Shenzhen Shanhui in July 2018. Mr. Jiang was nominated by Shanghai Jiaozeng to act as our non-executive Director on January 17, 2024. Mr. Jiang is primarily responsible for overseeing Board affairs and providing strategic advice and guidance on the business operations of our Group.

Mr. Jiang has more than ten years of experience in corporate investments. He was a partner of strategic investment department at Xiaomi Corporation (小米集團), a company listed on the Main Board of the Stock Exchange (Stock Code: 1810) since September 2014 to January 2025 where he was primarily responsible for the investment planing of Xiaomi Corporation. From January 2025, Mr. Jiang has been worked as the head of eco-chain department at Xiaomi Corporation, where he is primarily in charge of ecosystem management in Xiaomi Corporation. Mr. Jiang has been appointed as an independent non-executive director of Beijing Roborock Technology Co., Ltd. (北京石頭世紀科技股份有限公司), a company listed on the Shanghai Stock Exchange (Stock Code: 688169) between May 2020 and December 2023.

Mr. Jiang obtained a master’s degree in linguistics from The Chinese University of Hong Kong, Hong Kong, in December 2009.

---

## DIRECTORS AND SENIOR MANAGEMENT

---

### *Independent Non-executive Directors*

**Mr. How Sze Ming** (侯思明), aged 48, was appointed as our independent non-executive Director on [●]. Mr. How is also the chairman of the Audit Committee of our Company and a member of the Remuneration Committee of our Company. Mr. How has over 20 years of experience in investment banking and business assurance industry. He is responsible for supervising and providing independent judgment and opinion to our Board on issues material to our Group and where otherwise required.

From September 1999 to July 2002, Mr. How worked as a senior associate in the assurance and business advisory services department of PricewaterhouseCoopers and is primarily responsible for performing assurance and business advisory work. ---

## DIRECTORS AND SENIOR MANAGEMENT

---

The biographical information of Mr. Liu Jianyi (劉劍逸), Ms. Yu Hairong (余海容), Mr. Lin Lexin (林樂新) and Mr. He Xiaomin (何小敏) is set out in the paragraph headed “Board of Directors” in this section.

Saved as disclosed above, and in the “Board of Directors – Members of our Board” in this section, none of our senior management members has held any directorship in any other public companies of which the securities are listed on any securities market in Hong Kong or overseas in the past three years.

None of our senior management members is personally related to any of our Directors, senior management or substantial shareholders.

### COMPANY SECRETARY

**Ms. Li Ching Yi (李菁怡)**, was appointed as our company secretary on January 17, 2024. Ms. Li is a senior manager of the Listed & Fiduciary Corporate Services Department of Trident Corporate Services (Asia) Limited (恒泰商業服務有限公司), a global professional services firm.

Ms. Li has over 10 years of professional experience in company secretarial field. She is currently the company secretary of Yadong Group Holdings Limited (亞東集團控股有限公司) (Stock Code: 1795), and a joint company secretary of Yidu Tech Incorporated (醫渡科技有限公司) (Stock Code: 2158), Pop Mart International Group Limited (泡泡瑪特國際集團有限公司) (Stock Code: 9992), Acotec Scientific Holdings Limited-B (先瑞達醫療科技控股有限公司) (Stock Code: 6669), 3D Medicines Inc. (思路迪医药股份有限公司) (Stock Code: 1244), Sipai Health Technology Company Limited (思派健康科技有限公司) (Stock Code: 0314) and Laopu Gold Co., Ltd. – H Shares (老鋪黃金股份有限公司) (Stock Code: 6181), all of which are listed on the Main Board of the Stock Exchange.

Ms. Li is an associate member of The Chartered Governance Institute (formerly known as The Institute of Chartered Secretaries and Administrators) in the United Kingdom and The Hong Kong Chartered Governance Institute (formerly known as The Hong Kong Institute of Chartered Secretaries). She graduated from Lingnan University, Hong Kong with a bachelor’s degree in social sciences in October 2011. She graduated from City University of Hong Kong, Hong Kong with a master’s degree in professional accounting and corporate governance in July 2015.

### BOARD COMMITTEES

#### Audit Committee

We have established the Audit Committee on [●] with written terms of reference in accordance with Rule 3.21 of the Listing Rules and paragraph D.3 of the Corporate Governance Code as set out in Appendix C1 to the Listing Rules (the “CG Code”). The Audit Committee consists of three independent non-executive Directors, namely Mr. How Sze Ming, Dr. Leung Kin Cheong Laurent and Ms. Wen Zhuyun. Mr. How Sze Ming has been appointed as the chairman of the Audit Committee. The primary duties of the Audit Committee are to assist our Board by providing an independent view of the effectiveness of the financial reporting process, risk management and internal control systems of our Group, to oversee the audit process, to develop and review our policies, to make recommendations to our Board on the appointment and dismissal of the external auditors, and to perform other duties and responsibilities as assigned by our Board.

#### Remuneration Committee

We have established the Remuneration Committee on [●] with written terms of reference in compliance with Rule 3.25 of the Listing Rules and paragraph E.1 of the CG Code. The Remuneration Committee has three members, namely Dr. Leung Kin Cheong Laurent, Mr. How Sze Ming and Ms. Wen Zhuyun. Dr. Leung Kin Cheong Laurent, has been appointed as the chairman of the Remuneration Committee. The primary duties of the Remuneration Committee are to establish and review the policy and structure of the remuneration for our Directors and senior management, review and approve our management’s remuneration proposals with reference to our Board’s corporate goals and objectives, ensure none of our Directors determine their own remuneration, and make recommendations on employee benefit arrangement.

#### Nomination Committee

We have established the Nomination Committee on [●] with written terms of reference in compliance with Rule 3.27A of the Listing Rules and paragraph B.3 of the CG Code. The Nomination Committee consists of three members, namely Mr. Liu Jianyi, Dr. Leung Kin Cheong Laurent and Ms. Wen Zhuyun. Mr. Liu Jianyi has been appointed as the chairman of the Nomination Committee. The primary duties of the Nomination Committee are to review the structure, size and composition (including the skills, knowledge and experience) of our Board at least annually and make recommendation to our Board on any proposed changes to our Board to complement our Group’s corporate strategy; identify individuals suitably qualified as potential board members and select or make recommendations to our Board on the selection of individuals nominated for directorships; assess the independence of independent non-executive Directors; and make recommendations to our Board on the appointment or reappointment of Directors and succession planning of Directors.

## DIRECTORS AND SENIOR MANAGEMENT

### BOARD DIVERSITY POLICY

With a view to achieving sustainable and balanced development, we [have adopted] a board diversity policy (the “**Board Diversity Policy**”) to achieve diversity in our Board. Our Board Diversity Policy sets out the objective of and approach by our Board to achieve and maintain diversity in our Board in order to enhance the effectiveness of our Board and recognizes and embraces the benefits of diversity in our Board. We endeavor to ensure that our Board members have the appropriate balance of skills, experience and diversity of perspectives that are required to support the implementation of our business strategy. Pursuant to our Board Diversity Policy, we seek to achieve Board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, professional experience, skills, knowledge and length of service and any other factors that our Board may consider relevant and applicable from time to time. The ultimate decision of the appointment will be based on merit and the contribution which the selected candidates will bring to our Board. Our Board believes that such merit-based appointments will enable our Company to best serve our Shareholders and other stakeholders going forward.

Our Board consists eight Directors, including four executive Directors, one non-executive Director and three independent non-executive Directors. Our Directors have a balanced mix of experience, including overall management and strategic development, marketing and business development, and finance and accounting experiences in addition to experience in the mobile phone and electronic products, corporate investments or telecommunication related industry. In addition, the other three newly appointed independent non-executive Directors are expected to bring in fresh ideas and new perspectives to our Group as well as an element of independence. Our Board believes that, as we currently have two female representation on our Board, based on the mix of different backgrounds and experiences of our Directors and the age diversity, our current Board composition satisfies the principles set out in our Board Diversity Policy. Our Directors therefore consider that our Board our senior management team also possesses gender diversity.

In recognizing the particular importance of gender diversity, the nomination committee will review the composition of our Board and identify and recommend additional suitable female candidate(s) to our Board or senior management team from time to time and make recommendations as to their appointment as and when appropriate. Our Company will also take into consideration factors based on our Group’s business model and specific needs from time to time in determining the optimum composition of our Board and our senior management team.

---

## DIRECTORS AND SENIOR MANAGEMENT

---

### CORPORATE GOVERNANCE

Our Directors recognize the importance of incorporating elements of good corporate governance in the management structures and internal control procedures of our Group so as to achieve effective accountability.

Our Company has adopted the code provisions stated in the CG Code. Our Company is committed to the belief that our Board should include a balanced composition of executive Directors and non-executive Directors so that there is a strong independent element on our Board, which can effectively exercise independent judgment.

As of the Latest Practicable Date, to the best of the knowledge, information and belief of our Directors, our Directors were not aware of any deviation from the code provisions as set out in the CG upon completion of the [REDACTED].

### REMUNERATION POLICY

Our Directors and members of our senior management receive compensation from our Company in the form of salaries, discretionary bonuses, contributions to pension schemes and other allowances and benefits in kind subject to applicable laws, rules and regulations.

Our Board will review and determine the remuneration and compensation packages of our Directors and senior management and, following the [REDACTED], will receive recommendation from the remuneration committee which will take into account the salaries paid by comparable companies, the time of commitment and the responsibilities of our Directors and the performance of our Group.

### COMPENSATIONS OF DIRECTORS AND SENIOR MANAGEMENT

The aggregate remuneration (including Directors’ fees, salaries, contributions to pension schemes, discretionary bonuses, share-based payments, retirement benefit schemes, allowances and other benefits in kind) paid to our Directors for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025 was approximately RMB2.0 million, RMB3.1 million, RMB3.5 million, RMB3.6 million and RMB1.5 million, respectively.

The aggregate amount of fees, salaries, contributions to pension schemes, discretionary bonuses, share-based payments, retirement benefit schemes, allowances and other benefits in kind paid to our five highest paid individuals (excluding our Directors amongst the five highest paid individuals) for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025 was approximately RMB2.2 million, RMB0.7 million, RMB1.6 million, RMB2.6 million and RMB0.9 million, respectively.

---

## DIRECTORS AND SENIOR MANAGEMENT

---

Under the arrangement currently in force and pursuant to our Directors’ service contracts referred to in “Statutory and General Information – D. Further Information about our Directors and Substantial Shareholders – 1. Directors – (b) Particulars of service agreements” in Appendix IV to this document, the aggregate remuneration (including fees, salaries, contributions to pension schemes, discretionary bonuses, share-based payments, retirement benefit schemes, allowances and other benefits in kind) payable to our Directors for the year ending 31 December 2025 is estimated to be approximately RMB3.5 million.

Save as disclosed above, no other payments including contributions to pension schemes have been paid or are payable, in respect the Track Record Period by us or any of our subsidiaries to our Directors, and no payments were made during the Track Record Period by us to any of our Directors or senior management as an inducement to join or upon joining our Group or as a compensation for loss of office. None of our Directors waived any remuneration during the Track Record Period.

### COMPLIANCE ADVISOR

Our Company appointed Zero2IPO Capital Limited as our compliance advisor pursuant to Rule 3A.19 of the Listing Rules. The compliance advisor will advise our Company on on-going compliance requirements and other issues under the Listing Rules and other applicable laws and regulations in Hong Kong after the [REDACTED]. Pursuant to Rule 3A.23 of the Listing Rules, the compliance advisor will advise us in the following circumstances:

- (a) before the publication of any regulatory announcement, circular or financial report;
- (b) where a transaction, which might be a notifiable or connected transaction, is contemplated, including share issues and share repurchases;
- (c) where we propose to use the [REDACTED] of the [REDACTED] in a manner different from that detailed in this document or where our business activities, developments or results deviate from any forecast, estimate or other information in this document; and
- (d) where the Stock Exchange makes an enquiry of us regarding unusual movements in the [REDACTED] or [REDACTED] of our Shares.

We have entered into a compliance advisor’s agreement with the compliance advisor, the material terms of which are summarised as follows:

- (a) the compliance advisor’s term of appointment shall commence on the [REDACTED] and end on the date which we distribute our annual report of financial results for the first full financial year commencing after the [REDACTED], or until the agreement is terminated in accordance with the terms thereunder, whichever is earlier;

---

## DIRECTORS AND SENIOR MANAGEMENT

---

- (b) the compliance advisor shall provide our Company with services, including guidance and advice as to compliance with the requirements under the Listing Rules and all other laws, rules, codes and guidelines applicable to us; and
- (c) we may terminate the appointment of the compliance advisor, by service of not less than 20 business days’ prior written notice, or a shorter period of time agreed in writing by both parties. The compliance advisor shall have the right to resign or terminate its appointment at any time by service of not less than 20 business days’ prior written notice to us.

### OTHER INFORMATION

#### **Rule 3.13 of the Listing Rules**

Each of the independent non-executive Directors has confirmed (i) his/her independence as regards each of the factors referred to in Rules 3.13(1) to (8) of the Listing Rules, (ii) he/she has no past or present financial or other interest in the business of the Company or its subsidiaries or any connection with any core connected person of the Company under the Listing Rules as of the Latest Practicable Date, and (iii) that there are no other factors that may affect his/her independence at the time of his/her appointments.

#### **Rule 3.09D of the Listing Rules**

Each of our Directors has confirmed that he or she (i) has obtained the legal advice referred to under Rule 3.09D of the Listing Rules on January 17, 2024, and (ii) understands his or her obligations as a director of a [REDACTED] under the Listing Rules.

---

## RELATIONSHIP WITH CONTROLLING SHAREHOLDERS

---

### OUR CONTROLLING SHAREHOLDERS

As of the Latest Practicable Date, Mr. Liu and Ms. Yu, in aggregate, had beneficial interests representing approximately 45.35% of the total issued Shares, comprising (i) Shares representing approximately 31.71% of the total number of Shares in issue held by ShanHuiShou BVI, which is wholly owned by Mr. Liu; (ii) Shares representing approximately 10.72% of the total number of Shares in issue held by MGY Wisdom BVI, which is owned as to 80% and 20% by ShanHuiShou BVI and MGY Alliance BVI, respectively; and (iii) Shares representing approximately 2.92% of the total number of Shares in issue held by MGY Alliance BVI, which is wholly owned by Ms. Yu.

Immediately following the completion of the [REDACTED] and the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED] and any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme), Mr. Liu and Ms. Yu, in aggregate, will have beneficial interests representing [REDACTED] of the total issued Shares, comprising (i) Shares representing approximately [REDACTED] of the total number of Shares in issue held by ShanHuiShou BVI; (ii) Shares representing approximately [REDACTED] of the total number of Shares in issue held by MGY Wisdom BVI; and (iii) Shares representing approximately [REDACTED] of the total number of Shares in issue held by MGY Alliance BVI. Pursuant to the Guide, Mr. Liu and Ms. Yu are presumed to be a group of controlling shareholders by virtue of their shareholdings through MGY Wisdom BVI. Accordingly, Mr. Liu and Ms. Yu, together with ShanHuiShou BVI, MGY Wisdom BVI and MGY Alliance BVI, will be our Controlling Shareholders upon the completion of the [REDACTED].

### INTERESTS OF THE CONTROLLING SHAREHOLDERS IN OTHER BUSINESSES

Each of our Controlling Shareholders and Directors confirms that he/she/it does not have any interest in a business, apart from the business of our Company, which competes or is likely to compete, directly or indirectly, with our businesses, which would require disclosure under Rule 8.10 of the Hong Kong Listing Rules.

### INDEPENDENCE FROM OUR CONTROLLING SHAREHOLDERS

Having considered the following factors, our Directors believe that we are capable of carrying on our business independently from our Controlling Shareholders and their respective close associates after the [REDACTED].

---

## RELATIONSHIP WITH CONTROLLING SHAREHOLDERS

---

### Operational independence

We have established our own organizational structure with individual departments, each with specific areas of responsibilities. We have not shared our operational resources, such as suppliers, customers, marketing and sales and general administration resources with our Controlling Shareholders and/or their respective close associates. We hold all the relevant material licences, qualifications, intellectual properties and permits necessary for operating our business and have sufficient capital, equipment, facilities and employees to operate our business independently of our Controlling Shareholders. There was no business transaction between our Group on one hand and our Controlling Shareholders and/or their respective close associates on the other hand during the Track Record Period. Having considered the above, our Directors consider that our Group will be able to operate independently from our Controlling Shareholders and their respective close associates after the [REDACTED].

### Management independence

We aim at establishing and maintaining an effective and independent Board to oversee our business. The main functions of our Board include the approval of our overall business plans and strategies, monitoring the implementation of these plans and strategies and the management of our Company. We have an independent management team comprising our executive Directors and a team of senior management with extensive experience and expertise in our business. Our Board comprises four executive Directors, one non-executive Director and three independent non-executive Directors.

Although Mr. Liu and Ms. Yu, our executive Directors, are our Controlling Shareholders, our daily operational and management decisions are made collectively by our executive Directors and senior management. Each Director is aware of his/her fiduciary duties as a director of our Company which require, among other things, that he/she acts for the benefit and in the best interests of our Company and does not allow any conflict between his/her duties as a Director and his/her personal interest. In the event that there is a potential conflict of interest arising out of any transaction to be entered into between our Group and our Directors and/or their respective close associates, the interested Director(s) and his/her/their respective close associates shall abstain from voting at the relevant board meetings of our Company in respect of such transactions. Our independent non-executive Directors have been appointed in compliance with the requirements under the Listing Rules to ensure that the decisions of our Board will be made only after due and careful consideration of independent and impartial opinions. Our Directors believe that the presence of non-executive and independent non-executive Directors provides a balance of views and opinions and will bring independent judgement to the decision-making process of our Board. Having considered the above factors, our Directors are of the view that our Group would be capable of managing its business independently from our Controlling Shareholders and their respective close associates after the [REDACTED].

---

## RELATIONSHIP WITH CONTROLLING SHAREHOLDERS

---

### Financial independence

Our Group has an independent financial system and makes financial decisions according to our Group’s own business needs. We have established our own finance department with a team of financial staff, who are responsible for financial control, accounting, reporting, group credit and internal control function of our Company, which is independent from our Controlling Shareholders and their respective close associates. We are able to make financial decisions independently and our Controlling Shareholders and their respective close associates do not intervene with our use of funds.

Our Directors believe that we have sufficient capital to operate our business independently. During the Track Record Period, our Group primarily relied on cash generated from operations as well as bank borrowings to carry on our business. We believe we will continue to have sufficient capital to operate our business independently and have adequate internal resources and a strong credit profile to obtain financing from Independent Third Parties to support our daily operations without reliance on our Controlling Shareholders or their respective close associates after the [REDACTED]. As of the Latest Practicable Date, Mr. Liu, being one of our Controlling Shareholders and an executive Director, and Ms. Ao Huili (敖慧麗), being the spouse of Mr. Liu, provided personal guarantees (the “Guarantees”) for certain bank loans of our Group, please refer to note 19 to the Accountants’ Report in Appendix I to this document for further details. Our Directors expect that the Guarantees will be released, either pursuant to the agreement with the relevant banks or by repayment of the relevant bank loans with our Group’s internal resources, on or before the [REDACTED]. Save as disclosed above, our Directors are of the view that our Group is financially independent from our Controlling Shareholders or their respective associates in our Group’s business operations and our Group is able to obtain external financing on market terms and conditions for our business operations as and when required.

Having considered the above, our Directors believe that we are able to maintain financial independence from our Controlling Shareholders and their respective close associates.

### CORPORATE GOVERNANCE

Our Directors recognize the importance of good corporate governance to protect the interests of our Shareholders. We would adopt the following corporate governance measures to manage potential conflict of interests between our Group and our Controlling Shareholders:

- (a) as part of our preparation for the [REDACTED], we have amended our Articles of Association to comply with the Listing Rules. In particular, our Articles of Association provides that, unless otherwise provided, a Director shall not vote on any resolution approving any contract or arrangement or any other proposal in which such Director or any of his/her associates have a material interest nor shall such Director be counted in the quorum present at the meeting;

---

## RELATIONSHIP WITH CONTROLLING SHAREHOLDERS

---

- (b) a Director with material interests shall make full disclosure in respect of matters that may have conflict or potentially conflict with any of our interest and abstain from our board meetings on matters in which such Director or his/her associates have a material interest, unless the attendance or participation of such Director at such meeting of our Board is specifically requested by a majority of the independent non-executive Directors;
- (c) our Board is committed to the view that our Board should include a balanced composition of executive and non-executive Directors (including independent non-executive Directors) so that there is a strong independent element in our Board which can effectively exercise independent judgment. Our Company [has appointed] three independent non-executive Directors. Our Directors believe that our independent non-executive Directors are of sufficient calibre, are free of any business or other relationship which could interfere in any material manner with the exercise of their independent judgment and will be able to provide impartial and professional advice to protect the interests of the minority Shareholders;
- (d) our Company has appointed Zero2IPO Capital Limited as our compliance advisor, which will provide advice and guidance to our Company in respect of compliance with applicable laws and the Listing Rules including various requirements relating to directors' duties and internal control;
- (e) as required by the Listing Rules, our independent non-executive Directors shall review any connected transactions annually and confirm in our annual report that such transactions which have been entered into in our ordinary and usual course of business, are either on normal commercial terms or on terms no less favourable to us than those available to or from Independent Third Parties and on terms that are fair and reasonable and in the interests of our Shareholders as a whole; and
- (f) in the event that our independent non-executive Directors shall review any conflict of interests between our Group and our Controlling Shareholders, our Controlling Shareholders shall provide all information requested by our Group which is necessary for the annual review by our independent non-executive Directors.

Based on the above, our Directors consider that sufficient corporate governance measures have been put in place to manage conflicts of interest between our Group and our Controlling Shareholders to protect minority Shareholders' interests after the [REDACTED].

## SUBSTANTIAL SHAREHOLDERS

### SUBSTANTIAL SHAREHOLDERS

So far as our Directors are aware, immediately following completion of the [REDACTED] and the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED] and any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme), the following persons will have interests or short positions in the Shares or underlying Shares which would be required to be disclosed to our Company and the Stock Exchange under the provisions of Divisions 2 and 3 of Part XV of the SFO, or who will be, directly or indirectly, interested in 10% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of our Company or any of our subsidiaries:

*Notes:*

- (1) The letter (L) denotes the person’s long position in the Shares.
- (2) ShanHuiShou BVI, which is wholly owned by Mr. Liu, is beneficially interested in 80% of the issued voting shares of MGY Wisdom BVI. By virtue of the SFO, Mr. Liu is deemed to be interested in the Shares held by ShanHuiShou BVI and MGY Wisdom BVI, respectively.
- (3) Ms. Ao Huili (敖慧麗) is the spouse of Mr. Liu. By virtue of the SFO, Ms. Ao Huili is deemed to be interested in the Shares in which Mr. Liu is interested.

## SUBSTANTIAL SHAREHOLDERS

- (4) As of the Latest Practicable Date, the general partner of Shanghai Jiaozeng was Beijing Xiaomi, which was wholly owned by Xiaomi HK, which was in turn wholly owned by Xiaomi Corporation, a company listed on the Stock Exchange (stock code: 1810). Mr. Lei Jun (雷軍) (“**Mr. Lei**”) is the ultimate controlling shareholder and executive director of Xiaomi Corporation.

As of the Latest Practicable Date, Shanghai Jiaozeng was owned as to 99.91% by Jinmi Investment, which was owned as to 86.20% by Tianjin Jinxing, which was in turn wholly owned by Xiaomi Inc., which was controlled by Xiaomi Corporation.

By virtue of the SFO, each of Beijing Xiaomi, Xiaomi HK, Xiaomi Corporation, Jinmi Investment, Tianjin Jinxing, Xiaomi Inc. and Mr. Lei was deemed to be interested in the Shares held by Shanghai Jiaozeng.

- (5) As of the Latest Practicable Date, the general partner of Shanghai Wenwei was Lhasa Economic and Technological Development Zone Shunchuang Venture Capital Partnership (Limited Partnership) (拉薩經濟技術開發區順創創業投資合夥企業(有限合夥)) (“**Lhasa Shunchuang Venture Capital**”), which was owned as to 1.64% by its general partner, Lhasa Economic and Technology Development Zone Shunchuang Capital Management Co., Limited (拉薩經濟技術開發區順創資本管理有限公司) (“**Lhasa Shunchuang Capital Management**”) and as to 98.36% by Ms. Zhang Tong (張彤), the spouse of Mr. Lei, as the limited partner of Lhasa Shunchuang Venture Capital. As of the Latest Practicable Date, Shanghai Wenwei is owned as to RMB1 of the partnership interest by its general partner, Lhasa Shunchuang Venture Capital, as to RMB61,611,158 of the partnership interest by Hangzhou Shunying and as to RMB27,288,842 of the partnership interest by Shunwei Technology. By virtue of the SFO, each of Lhasa Shunchuang Venture Capital, Lhasa Shunchuang Capital Management, Hangzhou Shunying, Ms. Zhang and Mr. Lei is deemed to be interested in the Shares held by Shanghai Wenwei.

- (6) As of the Latest Practicable Date, the general partner of Shanghai Xiuhui was Xinyu Tongchuang, which was wholly owned by Cowin, a company listed on the National Equities Exchange and Quotations (stock code: 832793). As of the Latest Practicable Date, Cowin was owned as to 35.01% by Cowin Venture Capital, which was in turn owned as to 55% by Ms. Huang Li (黃荔) and as to 45% by Mr. Zheng Weihe (鄭偉鶴).

As of the Latest Practicable Date, Shanghai Xiuhui was owned as to 98.77% by Nanhai Growth as the limited partner. The general partner of Nanhai Growth was Cowin Jinxiu Capital, which was wholly owned by Cowin.

By virtue of the SFO, each of Xinyu Tongchuang, Cowin, Cowin Venture Capital, Nanhai Growth, Cowin Jinxiu Capital, Ms. Huang and Mr. Zheng was deemed to be interested in the Shares held by Shanghai Xiuhui.

Save as disclosed above, our Directors are not aware of any other persons who will, immediately following the completion of the [REDACTED] and the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED] and any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme), have interests or short positions in the Shares or underlying Shares which would be required to be disclosed to our Company and the Stock Exchange under the provisions of Divisions 2 and 3 of Part XV of the SFO, or who will be, directly or indirectly, interested in 10% or more of the issued voting shares of our Company or any other member of our Group. Our Directors are not aware of any arrangement which may at a subsequent date result in a change of control of our Company.

## SHARE CAPITAL

### AUTHORIZED AND ISSUED SHARE CAPITAL

The following is a description of the authorized share capital of our Company and the share capital of our Company in issue and to be issued as fully paid or credited as fully paid immediately before and after the [REDACTED] and [REDACTED].

#### 1. Share capital as of the Latest Practicable Date

##### (a) Authorized share capital

Number	Description	Approximate aggregate nominal value of shares (HK\$)
29,898,750	Shares of HK\$0.01 each	298,987.5
841,000	Series A-1 Preferred Shares of HK\$0.01 each	8,410.0
1,472,040	Series A-2 Preferred Shares of HK\$0.01 each	14,720.4
1,833,410	Series C-1 Preferred Shares of HK\$0.01 each	18,334.1
952,540	Series C-2 Preferred Shares of HK\$0.01 each	9,525.4
631,920	Series C-3 Preferred Shares of HK\$0.01 each	6,319.2
354,380	Series C-4 Preferred Shares of HK\$0.01 each	3,543.8
1,105,220	Series C-5 Preferred Shares of HK\$0.01 each	11,052.2
406,950	Series C-6 Preferred Shares of HK\$0.01 each	4,065.9
<u>503,790</u>	Series D-1 Preferred Shares of HK\$0.01 each	<u>5,037.90</u>
<u><u>38,000,000</u></u>	<b>Total</b>	<u><u>380,000</u></u>

**SHARE CAPITAL**

*(b) Issued share capital*

Number	Description	Approximate aggregate nominal value of shares (HK\$)
13,464,920	Shares of HK\$0.01 each	134,649.2
841,000	Series A-1 Preferred Shares of HK\$0.01 each	8,410.0
1,472,040	Series A-2 Preferred Shares of HK\$0.01 each	14,720.4
1,833,410	Series C-1 Preferred Shares of HK\$0.01 each	18,334.1
952,540	Series C-2 Preferred Shares of HK\$0.01 each	9,525.4
631,920	Series C-3 Preferred Shares of HK\$0.01 each	6,319.2
354,380	Series C-4 Preferred Shares of HK\$0.01 each	3,543.8
1,105,220	Series C-5 Preferred Shares of HK\$0.01 each	11,052.2
406,950	Series C-6 Preferred Shares of HK\$0.01 each	4,069.5
<u>503,790</u>	Series D-1 Preferred Shares of HK\$0.01 each	<u>5,037.9</u>
<u><u>21,566,170</u></u>	<b>Total</b>	<u><u>215,661.7</u></u>

**2. Share capital immediately after the completion of the [REDACTED]**

*(a) Authorized share capital*

Number	Description	Approximate aggregate nominal value of shares (HK\$)
<u>[5,000,000,000]</u>	ordinary shares of HK\$0.01 each	<u>[50,000,000]</u>
<u><u>[5,000,000,000]</u></u>	<b>Total</b>	<u><u>[50,000,000]</u></u>

---

## SHARE CAPITAL

---

(b) *Issued share capital*

Number	Description	Approximate aggregate nominal value of shares (HK\$)
21,566,170	Shares of HK\$0.01 each	215,661.7
[REDACTED]	Shares of HK\$0.01 each to be issued pursuant to the [REDACTED]	[REDACTED]
[REDACTED]	Shares of HK\$0.01 each to be issued pursuant to the [REDACTED]	[REDACTED]
<u>[REDACTED]</u>	<b>Total</b>	<u>[REDACTED]</u>

*Note:* If the [REDACTED] is exercised in full, then [REDACTED] additional Shares will be issued resulting in a total issued share capital of [REDACTED] Shares with an aggregate of nominal value of HK\$[REDACTED].

### ASSUMPTIONS

The above tables assume that the [REDACTED] has become unconditional, the issue of [REDACTED] pursuant to the [REDACTED] and [REDACTED] is made and the Preferred Shares held by the [REDACTED] Investors are converted into Shares on a one-to-one basis by way of re-designation to Shares upon the [REDACTED]. The above does not take into account any Shares which may be issued or repurchased by our Company pursuant to the general mandates granted to our Directors to issue or repurchase Shares as described below.

### RANKING

The [REDACTED] will be ordinary shares in the share capital of our Company and will carry the same rights in all respects with all our Shares in issue or to be issued as mentioned in this document and, in particular, will qualify in full for all dividends or other distributions declared, made or paid on the Shares in respect of a record date which falls after the date of this document save for the entitlement under the [REDACTED].

### MINIMUM PUBLIC FLOAT

Pursuant to Rule 8.08(1) of the Listing Rules, at the time of the [REDACTED] and at all times thereafter, our Company must maintain the minimum prescribed percentage of [REDACTED] of the total number of issued share capital of our Company in the hands of the public (as defined in the Listing Rules).

---

## SHARE CAPITAL

---

### GENERAL MANDATE TO ALLOT AND ISSUE NEW SHARES

Subject to the [REDACTED] becoming unconditional, our Directors [have been granted] a general unconditional mandate to allot, issue and deal with Shares of not more than the sum of:

- (i) 20% of the total number of Shares in issue immediately following completion of the [REDACTED] and the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED], any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme and treasury Shares held by our Company, if any); and
- (ii) the total number of Shares repurchased by our Company (if any) pursuant to the general mandate to repurchase Shares granted to our Directors referred to below.

Our Directors may, in addition to the Shares which they are authorized to issue under this general mandate, allot, issue or deal with Shares under a rights issue, scrip dividend scheme or similar arrangement.

This general mandate will remain in effect until the earliest of:

- the conclusion of our Company’s next annual general meeting;
- the expiration of the period within which our Company is required by applicable laws or the Articles of Association to hold our next annual general meeting; or
- when varied, revoked or renewed by an ordinary resolution of our Shareholders in general meeting.

For further details of this general mandate, please refer to “Statutory and General Information – A. Further information about our Company – 3. Resolutions in writing of the Shareholders of our Company passed on [●]” in Appendix IV to this document.

### GENERAL MANDATE TO REPURCHASE SHARES

Subject to the [REDACTED] becoming unconditional, our Directors [have been granted] a general unconditional mandate to exercise all the powers of our Company to repurchase Shares of not more than 10% of the total number of Shares of our Company in issue immediately following the completion of the [REDACTED] and the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED], any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme and treasury Shares held by our Company, if any).

---

## SHARE CAPITAL

---

This mandate only relates to repurchases made on the Stock Exchange, or on any other stock exchange on which the Shares may be [REDACTED] (and which is recognised by the SFC and the Stock Exchange for this purpose), and which are in accordance with the requirements of the Listing Rules. A summary of the relevant Listing Rules is set out in "Statutory and General Information – A. Further information about our Company – 6. Repurchase of our Shares" in Appendix IV to this document.

The general mandate to repurchase Shares will remain in effect until the earliest of:

- the conclusion of our Company's next annual general meeting;
- the expiration of the period within which our Company is required by applicable laws or the Articles of Association to hold our next annual general meeting; or
- when varied, revoked or renewed by an ordinary resolution of our Shareholders in general meeting.

For further details of this general mandate, please refer to "Statutory and General Information – A. Further information about our Company – 3. Resolutions in writing of the Shareholders of our Company passed on [●]" and "Statutory and General Information – A. Further information about our Company – 6. Repurchase of our Shares" in Appendix IV to this document.

### **CIRCUMSTANCES UNDER WHICH GENERAL MEETING AND CLASS MEETING ARE REQUIRED**

Pursuant to the Cayman Companies Act and the terms of the Articles of Association, our Company may from time to time by ordinary shareholders' resolution (i) increase its capital; (ii) consolidate and divide its capital into Shares of larger amount; (iii) divide its Shares into classes; (iv) subdivide its Shares into Shares of smaller amount; and (v) cancel any Shares which have not been taken. In addition, our Company may reduce its share capital by shareholders' special resolution. Please refer to "Summary of the Constitution of our Company and Cayman Islands Company Law – 2. Articles of Association – (a) Shares – (iii) Alteration of capital" in Appendix III to this document for further details.

Pursuant to the Cayman Companies Act and the terms of the Articles of Association, all or any of the special rights attached to the Share or any class of Shares may be varied, modified or abrogated either with the consent in writing of the holders of not less than three-fourths in nominal value of the issued Shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of the Shares of that class. Please refer to "Summary of the Constitution of our Company and Cayman Islands Company Law – 2. Articles of Association – (a) Shares – (ii) Variation of rights of existing shares or classes of shares" in Appendix III to this document for further details.

Further, our Company will also hold general meetings from time to time as may be required under the Articles of Association, a summary of which is set out in the section headed "Summary of the Constitution of our Company and Cayman Islands Companies Law" in Appendix III to this document.

## FINANCIAL INFORMATION

*You should read the following discussion and analysis in conjunction with our consolidated financial statements as of and for each of the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, and the accompanying notes included in the Accountants’ Report set out in Appendix I to this document (“Historical Financial Information”). Our consolidated financial information has been prepared in accordance with IFRS. The following discussion and analysis contains certain forward-looking statements that reflect our current views with respect to future events and financial performance. These statements are based on assumptions and analyses made by us in light of our experience and perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. However, whether actual outcomes and developments will meet our expectations and predictions depend on a number of risks and uncertainties over which we do not have control. Please also refer to “Risk Factors” and “Forward-looking Statements” in the document.*

### OVERVIEW

We are a PRC company engaged in providing consumer electronics recycling services with a focus on pre-owned mobile phones. According to Frost & Sullivan, we were the third largest mobile phone recycling service provider in the PRC, both in terms of the total transaction value of pre-owned mobile phones recycled and the total transaction value of pre-owned mobile phone sold in 2024, with a market share of approximately 1.3% and 1.3%, respectively.

We have been focusing on offering an integrated solution from initiating recycling by way of trade-in while facilitating sale of new mobile phones, to standardizing the procured pre-owned mobile phones for resale, leveraging our proprietary inspecting, grading and pricing technologies and recycling and sales online platforms and our strategic cooperation with our upstream sourcing partners, including mainstream consumer electronic brands and their designated distributors, sizable merchants for consumer electronic products and major mobile network operators in the PRC.

We obtain supply of pre-owned consumer electronics primarily from trade-ins transacted in both offline retail stores or online malls of our upstream sourcing partners using our recycling system, Shanhuishou (閃回收), where individual consumers, who are our ultimate suppliers, purchase new consumer electronics at a reduced price by trading in their pre-owned consumer electronics as part of the payment. We then process these procured pre-owned consumer electronics for resale leveraging our proprietary inspection, grading and pricing technologies in our inspection and operation centers, and efficiently distribute such to a variety of buyers in the second-hand consumer electronics market primarily through our online platform, Shanhui Youpin (閃回有品) and our own online stores operated on various third-party e-commerce platforms. Leveraging our established position in the PRC mobile phone recycling service market and our understanding of the needs and preferences of buyers in the second-hand consumer electronics market, we have also been engaged in the corporate recycling and offline sale to handle consumer electronics in bulk to satisfy the business needs of our upstream business partners and customers. In addition, we also provide value-added and after-sale services to participants across the upstream and downstream value chain.

---

## FINANCIAL INFORMATION

---

We believe we connect all participants in the consumer electronics transaction service market and digitally reshapes the value chain for consumer electronic brands, merchants, mobile network operators as well as individual consumers, with a commitment to sustainable development and building a low-carbon and environmentally-friendly society through forging strategic alliances with our business partners. During the Track Record Period, we experienced significant growth in our business operation and an increase in demand for our procured pre-owned consumer electronics. Our revenue increased from approximately RMB749.7 million for the year ended December 31, 2021 to approximately RMB919.1 million for the year ended December 31, 2022, to approximately RMB1,158.4 million for the year ended December 31, 2023, and further to approximately RMB1,297.3 million for the year ended December 31, 2024, representing a CAGR of approximately of 20%. Our revenue also increased from approximately RMB576.9 million for the six months ended June 30, 2024 to approximately RMB809.5 million for the six months ended June 30, 2025, representing a growth rate of approximately 40.3%.

During the Track Record Period, we experienced losses of approximately RMB48.7 million, RMB99.1 million, RMB98.3 million, RMB66.4 million and RMB24.6 million for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. Our losses for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025 were primarily or partially attributable to our changes in carrying amount of the redemption liabilities of approximately RMB46.1 million, RMB69.4 million, RMB87.3 million, RMB21.5 million and RMB31.5 million for the same periods, respectively. Our changes in carrying amount of redemption liabilities represented the amount of changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. For more details of our [REDACTED] Investments, please refer to “History, Reorganization and Corporate Structure – 5. [REDACTED] Investments” in this document. Please also refer to note 22 to the Accountants’ Report in Appendix I to this document.

In addition, our loss for the year ended December 31, 2022 was also attributable to the decrease in our gross profit for the same period, which was primarily due to (i) the decrease in gross profit of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of the peer competition resulting from the launch of its own centralized recycling platform in June 2022; and (ii) the relatively faster increase in our overall procurement costs of pre-owned consumer electronics as compared to the increase in our sale of the same, as both markets of the consumer electronics recycling service and the second-hand consumer electronics got more competitive and the PRC economy also generally slowed down since the COVID-19 pandemic with the GDP growth rate decreasing from approximately 8.1% for the year ended December 31, 2021 to approximately 3% for the year ended December 31, 2022. Our business and financial performance had improved as a result of the recovery of our procurement and sales for the year ended December 31, 2023 after the pandemic.

---

## FINANCIAL INFORMATION

---

Our loss for the year ended December 31, 2024 was primarily attributable to the decrease in our gross profit. Such decrease was primarily due to the continuous decrease in gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of the peer competition resulting from the launch of its own centralized recycling platform since June 2022 for the same reason aforesaid. The decrease in our gross profit for the year ended December 31, 2024 was also due to the increase in our procurement cost of mid-to-high-end pre-owned mobile phones that were typically released in the last few years and generally had higher trade-in prices because of the increased trade-in promotional activities conducted by some of our upstream sourcing partners on specific mobile phone models. While we were not able to fully transfer our cost (largely, the increase in our promotion service and commission fees) of the pre-owned consumer electronics to our customers as the majority of our customers during the Track Record Period were merchant customers and the selling prices of second-hand mobile phones to them were relatively market driven and competitive, the faster increase in our cost of sales of pre-owned mobile phones for the year ended December 31, 2024 led to a decrease in our gross profit for the same year.

We recorded adjusted profit (non-IFRS measure) of approximately RMB7.7 million for the year ended December 31, 2021 and RMB10.9 million for the six months ended June 30, 2025. We recorded adjusted loss (non-IFRS measure) of approximately RMB22 million, RMB6.8 million and RMB31.2 million for the years ended December 31, 2022, 2023 and 2024, respectively. For more details, please also refer to “– Results of Operations – Non-IFRS Measure” in this section.

### **BASIS OF PRESENTATION**

Our Company was incorporated as a company in the Cayman Islands with limited liability on August 11, 2021. Pursuant to the Reorganization as more fully explained in “History, Reorganization and Corporate Structure – Reorganization” in this document, our Company became the holding company of our Group after a series of the transactions for the purpose of the Reorganization.

Our Historical Financial Information has been prepared in accordance with all applicable IFRS Accounting Standards issued by the International Accounting Standards Board (“IASB”). The preparation of the historical financial information in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying our accounting policies. For the purpose of preparing our historical financial information, we have adopted all applicable new and revised IFRS that were effective during the Track Record Period. Intra-Group balances, transactions and unrealised gains/losses on intra-Group transactions are eliminated in full in preparing the Historical Financial Information. The Historical Financial Information also complies with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange. For more details of basis of preparation, please refer to note 1 to our financial statements included in the Accountants’ Report in Appendix I to this document.

---

## FINANCIAL INFORMATION

---

### MAJOR FACTORS AFFECTING OUR RESULTS OF OPERATIONS

Our results of operations have been, and are expected to continue to be, materially affected by a number of factors, some of which are outside of our control. These factors primarily include the followings:

#### **Brand Recognition**

We currently operate our business under our two core corporate brands, namely Shanhuishou (閃回收) and Shanhui Youpin (閃回有品). Shanhuishou (閃回收) is the main brand under which we carry on our offline trade-in solution and collect pre-owned consumer electronics from our upstream sourcing partners. Shanhui Youpin (閃回有品) is the main brand under which we conduct the sale of these procured pre-owned consumer electronics to customers on our proprietary online platform or in our own online stores on third-party e-commerce platforms. Our brands of Shanhuishou (閃回收) and Shanhui Youpin (閃回有品) have won recognition among our upstream sourcing partners, our customers and individual consumers. In 2021, we received the award of “National Consumer Satisfaction Brand (全國消費者放心滿意品牌)” jointly issued by China’s Product Quality Certification Supervision and Management Center and China Brand Enterprise Evaluation Management Committee. In 2020, we received the award of “Leading Brands in China’s Recycling Industry (中國回收行業領導品牌)” issued by China’s Influential Brand Enterprise Selection Summit Forum Organizing Committee (中國影響力品牌企業評選高峰論壇組委會) and The 4th China’s Influential Brand Enterprise Propaganda Organizing Committee (第四屆中國影響力品牌企業宣傳組委會). As such, we believe that the market recognition of our brands is critical to our success as market acceptance of our brands may affect the capabilities of our procurement, the market demand for our consumer electronics trade-in-and-resale services, the profit margin we are able to achieve, and our ability to further grow our business.

In future, we intend to devote more resources in our brand building and marketing and advertising activities with multi-faceted marketing strategies. For instance, we plan to increase our budget on placement of online marketing and advertisement and enhance our profile on various online channels where we can promote our brand and transaction services on our and/or third-party online platforms, accurately target potential customers and boost the number of active buyers. We also plan to continue to develop and promote our sale of pre-owned consumer electronics on PRC leading live-streaming and short video clip platforms. Through publishing high quality promotional contents and video clips on these live-streaming platforms, we aim to grow our brand awareness and strengthen our influence to attract different end users and achieve business scale in a broader market. We believe that our success will largely depend on our ability to enhance the awareness of our brands. If we are unable to promote our brands or fail to maintain our current brand position, our business, results of operations and financial conditions may be materially and adversely affected.

---

## FINANCIAL INFORMATION

---

### **Our Ability to Obtain Extensive Supply through Our Strategic Cooperation with Our Upstream Sourcing Partners**

Our ability to obtain extensive supply of pre-owned consumer electronics is our key competitive advantage in the second-hand consumer electronic market. Our fully integrated online-offline sourcing network, combined with our strategic partnerships with upstream sourcing partners, have ensured our ability to effectively source the supply to consistently meet the demand of buyers coming to us.

We believe that our strategic cooperation with our upstream sourcing partners in the upstream industrial chain has provided us with unmatched access to stable and desirable supply from reliable channels with relatively lower costs. Leveraging our asset-light business model and benefiting from the simplicity of setting up and embedding our Shanhuishou (閃回收) recycling system, we are able to spread our services to numerous retail stores of our upstream sourcing partners within a relatively short period. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis. In future, we will further cooperate with our upstream sourcing partners to expand our network of retail stores and increase our penetration into lower-tier cities across the PRC. We believe that through our strategic multi-dimensional industrial cooperation with them in the upstream industrial chain, we will continue to realize deep integration and optimization of offline trade-in recycling channels, forming unique industrial network advantages. For more details, please refer to “Business – Our Strategies” and “Future Plan and [REDACTED]” in this document.

### **The Challenging Macroeconomic Condition in the PRC and Intensive Competition in the Industry**

We are subject to the challenging macroeconomic condition in the PRC, which may result in significant downturn in the economy and hence, softened consumer demand for consumer electronics and thus trade-in services. Under such market condition, the desire of individual consumers to replace their consumer electronics would be lowered, and thus we may need to increase the trade-in prices of pre-owned consumer electronics of similar models and/or quality as compared to previous years to keep up our recycling volume and maintain our position in the mobile phone recycling service market. On the other hand, we face intense competition in providing consumer electronics trade-in-and-resale services. We face competition mainly from the other top service providers engaging in the recycling services in the PRC, which may have deeper cooperative relationship with our key upstream sourcing partners and significantly more resources than we do, including financial, technological and marketing resources. These could allow them to develop new service lines, adapt more quickly to changes in technology and to undertake more extensive marketing campaigns, which may render our platforms less attractive to upstream business partners and customers, and cause us to lose market share. Those smaller companies or new entrants may also be acquired by, receive investment from or enter into strategic relationships with well-established and well-financed companies or investors which would help enhance their competitive positions. Please refer to “Business – Competition” in this document for more information.

---

## FINANCIAL INFORMATION

---

The challenging macroeconomic condition and intense competition in the industry which we operate in may exert constraints on our supply, increase our operating expenses and capital expenditures, and reduce our revenue and gross profit and gross profit margin. Failure to compete with current and potential competitors and to cope with the PRC economy downturn may materially affect our business, results of operations and financial condition.

### **Our Ability to Expand Our Customer Base and Improve Our Gross Profit Margin**

During the Track Record Period, our revenue was primarily derived from the sale of pre-owned consumer electronics, mainly mobile phones, sourced from our various supply channels, to buyers in the second-hand consumer electronic market through our Shanhui Youpin (閃回有品) online platform, as well as our own online stores operated on various third-party e-commerce platforms. These platforms have allowed us to extend our reach to customers nationwide, completing a closed-loop that begins with sourcing supply from consumers through our upstream sourcing partners and also facilitates sales demand from customers. During the Track Record Period, our revenue and the number of pre-owned consumer electronics sold had grown rapidly. Nevertheless, we recorded relatively lower gross profit and gross profit margins during most of the Track Record Period. For more details of our gross profit and gross profit margin, please refer to “– Principal Income Statement Component – Gross Profit and Gross Profit Margin” in this section.

We believe that the scale of our customer base for our sale of pre-owned consumer electronics is crucial to our results of operations and continued revenue growth. Expansion of sales channels will also create new growth opportunities for us which may also increase our gross profit margins. As such, we plan to increase the number of our business development staff in order to expand our business coverage to each and every province and more than 300 cities across the PRC. We will continue to build up our sales support team to facilitate our marketing and branding efforts and to provide more comprehensive and timely after-sale services to our major customers. Specifically, we plan to recruit more experienced sales representatives to promote our Shanhui Youpin (閃回有品) online platform so as to grow our brand awareness and strengthen our influence. In addition to our Shanhui Youpin (閃回有品) online platform, we intend to establish our branded online stores on more third-party e-commerce platforms in order to further diversify our sales channels. We will also continue to develop and promote our business on PRC leading live-streaming and short video clip platforms. Furthermore, we have also opened up retail stores under our brand of Shanhui Youpin (閃回有品), as we believe that the offline presence will contribute to the strengthening of our brand awareness and attract more customers to achieve business scale in a broader market. For more details, please refer to “Business – Our Strategies” and “Future Plan and [REDACTED]” in this document.

---

## FINANCIAL INFORMATION

---

### **Our Ability to Accurately Price Pre-owned Consumer Electronics**

During the Track Record Period, approximately 9.3%, 20%, 42.7%, 80.6% and 72.5% of our revenue were derived from the sale of the pre-owned mobile phones we sold through our real-time open bidding module Shanhui Youpin (閃回有品) online platform. This real-time open bidding module is associated with our Shanhuishou (閃回收) recycling system, where an individual consumer walks into a retail store of our upstream sourcing partner and decides to trade in his/her pre-owned consumer electronic device, and our customers are able to view the photos and all other necessary information of this device and place bid for such device simultaneously through our Shanhui Youpin (閃回有品) online platform. For more details of our real-time bidding module on Shanhui Youpin (閃回有品) online platform, please refer to the section headed “Business – Our Sales – Shanhui Youpin (閃回有品)” in this document.

Our business and financial performance are closely linked to our ability to generate recycling and sale prices of our pre-owned consumer electronics, both of which need to be accurate and competitive. Our recycling pricings are typically influenced by factors such as, (i) the brand, model and condition of the pre-owned consumer electronics; (ii) the transaction cost related to our procurement of pre-owned consumer electronics; (iii) pricing strategies of our competitors for similar pre-owned consumer electronics; and (iv) the competitiveness of the PRC consumer electronics recycling market. On the other hand, our selling pricings are typically affected by factors including (i) the prevailing market demand and prices for the specific brands or types of second-hand consumer electronics; (ii) the transaction cost related to our sale of pre-owned consumer electronics; (iii) our target profit margins to ensure our business growth and shareholders’ value; and (iv) the potential growth of our business in the competitive dynamic second-hand consumer electronics market.

Our pricing approach is underpinned by our proprietary pricing model and algorithms, which leverage business data from thousands of pre-owned consumer electronics and millions of transactions involving sellers and buyers transacted on our platforms. In a highly competitive market, we believe that our ability to ensure the objectiveness of pricing for each pre-owned consumer electronic device procured and sold by us is critical to our business expansion and future growth.

### **Our Results of Operations May Be Subject to Seasonal Fluctuations**

We experience a moderate level of seasonality in our revenue and operating income for our business. We typically experience higher transaction traffic, and able to obtain more supply and generate higher sales volume of pre-owned consumer electronics during the second half of the year, primarily due to the new models of mobile phones launched and subsequent promotional and marketing activities or campaigns conducted by our upstream sourcing partners, especially, mainstream consumer electronic brands and various third-party e-commerce platforms. As a result, any comparisons of our sales and operating results between different periods within a single financial year are not necessarily meaningful and cannot be relied on as indicators of our performance. Our results of operations are likely to continue to fluctuate due to seasonality.

---

## FINANCIAL INFORMATION

---

### **Our Ability to Leverage Technology in Our Business Operations**

Innovation and technology are at the core of our Group and permeate every aspect of our business operations. We have digitalized our pre-owned consumer electronics transaction services and leveraged technology in everything that we do. Our technology with AI capabilities provides end-to-end coverage of our value chain and standardizes our inspection, grading, and pricing process. Technology infrastructure at our operation and inspection centers supports our growth through automation and data insights, enabling efficient inspection, grading and pricing of pre-owned consumer electronic devices at scale. Our technology capabilities also enable us to assign quality grading to pre-owned consumer electronics on scale faster and more accurate than manual inspection. As a result, we had achieved efficiency and accuracy for our inspection, grading and pricing process and kept a relatively lower average return rate of our pre-owned consumer electronics sold during the Track Record Period. We also effectively distribute these pre-owned consumer electronics we procured through our proprietary bidding modules within our Shanhui Youpin (閃回有品) online platform. These bidding modules have allowed us to extend our reach to customers nationwide, and improve the bidding efficiency and provide us with faster turnaround to ensure that we could sell our procured pre-owned consumer electronics to the highest bidder.

We have made, and will continue to make, investments into our technology development to strengthen our leadership in the industry. We intend to continue to invest resources to attract more talented technology and development personnel and further develop and apply advanced technologies to build a core and integrated technology platform, with an aim to providing more creative solutions for all the participants in the consumer electronics trade-in-and-resale services. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, we incurred research and development expenses of approximately RMB10.3 million, RMB17.4 million, RMB18.9 million, RMB18.7 million and RMB8.6 million, respectively. Going forward, we will continue to prudently invest resources in technology, research and development in a cost-effective manner to support the long-term growth of our business. For more details, please refer to “Business – Our Strategies” and “Future Plan and [REDACTED]” in this document.

### **Our Ability to Manage Our Costs and Reach Operational Efficiencies**

The profitability of our business depends largely on our ability to enhance the operational efficiency. As cost of our procurement of pre-owned consumers electronics forms a significant portion of our cost of sales, which accounted for approximately 85.3%, 86.1%, 88.4%, 88.7% and 91.3% of our total costs of sales for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively, our ability to manage our procurement costs at a reasonable level while expanding our business is important for our results of operations. We expect that our costs of procurement will continue to increase as (i) our business continued to grow; (ii) the continuous updating and upgrading of the new models of mobile phones which led to higher purchase costs than that of the older models; and (iii) the market of mobile phone recycling services gets more competitive. Nevertheless, we will

---

## FINANCIAL INFORMATION

---

continue to strengthen and expand our strategic relationship with our upstream sourcing partners to benefit from their large and active consumer traffic at a reasonable cost, which will help us achieve better utilization of acquisition costs.

Accuracy and speed have been the major issue for the efficient circulation of pre-owned consumer electronics. We believe that our BOSS System, which is designed and developed by us, provides a feasible and effective solution to these problems. Our BOSS System integrates recycling, testing and grading, pricing, sales, customer management and logistic systems as well as other supplementary modules and functions. It has been developed into a comprehensive and efficient digital center stage for our day-to-day operation. In future, we will further optimize our management efficiency through our BOSS System to ensure that our business is carried out in a more efficient and cost-effective manner, which will in turn, enhance our business profitability.

### IMPACT OF THE COVID-19 PANDEMIC

Since late December 2019, the outbreak of the COVID-19 had materially and adversely affected the global economy. The PRC government introduced a series of measures to contain the spread of the virus since its outbreak. Since the beginning of 2022, the Omicron variant of COVID-19 has resurged in various provinces and cities of the PRC, and prevention measures have been implemented to curb the momentum of the outbreak.

In response to the COVID-19 outbreak, we had employed various measures to mitigate any impact that COVID-19 outbreak might have on our business, including, among others, temporary closure of our inspection and operation centers, remote working arrangements for our employees, and travel restrictions or suspension. During the peak of the COVID-19 pandemic in early 2020 and first half of 2022, our business was affected to some extent by the nation-wide pandemic prevention and control requirements and market demand. Some of the retail stores of our upstream sourcing partners and our inspection and operation centers had to be temporarily closed. However, we took immediately corrective measures to reduce the adverse effects of the COVID-19 pandemic. For instance, we ensured no interruption of our proprietary systems, especially our Shanhui Youpin (閃回有品) and BOSS System at the back office, and also arranged sufficient manpower and logistics in our inspection and operation centers that were still in normal operation. These measures were extremely critical to our business during the pandemic as some of pre-owned consumer electronics dealers had to shift to e-commerce channels to increase the recirculation and trading efficiency of their inventories.

As the COVID-19 outbreak was quickly brought under control by the PRC government, our business and operations quickly went back to normal. Furthermore, since December 2022, the PRC government has relaxed the national COVID-19 prevention measures, such as releasing measures to accelerate the economic recovery and resume normal operations of the society. Based on the above, our Directors are of the view that the outbreak of the COVID-19 pandemic did not and will not have a material adverse effect on our business, results of operations and financial condition.

---

### MATERIAL ACCOUNTING POLICIES, JUDGMENTS AND ESTIMATES

We have identified certain accounting policies that are material to the preparation of our consolidated financial statements. We have also made certain accounting judgements and estimate in the process of applying our accounting policies. When reviewing our consolidated financial statements, you should consider (i) our selection of material accounting policies; (ii) the judgement and estimate affecting the application of such policies; and (iii) the sensitivity of reported results to change in conditions and assumptions. We have identified below the accounting policies, judgments and estimates that we believe are the most critical to the preparation of our consolidated financial information. Our material accounting policies, judgments and estimates, which are important for an understanding of our financial condition and results of operations, are more detailed set out in notes 2 and 3 to the Accountants’ Report in Appendix I to this document.

#### Revenue

Income is classified by our Group as revenue when it arises from the sales of goods and the provision of services in the ordinary course of our Group’s business.

Revenue is recognised when control over a product or service is transferred to the customer, at the amount of promised consideration to which our Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Our Group principally generates our revenue from the sale of products, and provision of services.

- Sales of products

Our Group mainly recycles pre-owned mobile phones and other pre-owned consumer electronics from individuals by cooperating with retail stores, through online recycling channels, or from the manufacturers or distributors. Revenue from the sales of pre-owned mobile phones or other pre-owned consumer electronics are recognised at the point in time when the customer takes possession of and accepts the products.

- Provision of services

Our Group mainly provides procurement services, and after-sale services, and testing services, etc. Revenue from the after-sale services is recognised over the service period on a straight-line basis because the customer simultaneously receives and consumes the benefits when the control of these services transfer to the customers provide by our Group.

---

## FINANCIAL INFORMATION

---

### **Inventories**

Inventories are assets which are held for sale in the ordinary course of business.

Inventories are carried at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

Cost of inventories are calculated using the specific identification basis and comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised.

The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

### **Contract Liabilities**

A contract liability is recognised when the customer pays non-refundable consideration before our Group recognises the related revenue. A contract liability would also be recognised if our Group has an unconditional right to receive non-refundable consideration before our Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

### **Financial Assets and Liabilities Measured at Fair Value**

The following table presents the fair value of our Group’s financial instruments measured at fair value at the end of each reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

---

## FINANCIAL INFORMATION

---

All of our financial liabilities measured at fair value during the Track Record Period is measured within level 3 fair value measurement. We have instituted internal policies on valuation methodologies, models and procedures for valuation of level 3 financial liabilities. We perform valuation assessments of options. We have engaged an independent qualified professional valuer to perform the relevant valuation assessments. Our management team reviewed the external valuer’s valuation analysis and results, and they have discussed the basis of the valuation with the reporting accountants of our Company. We focus on the valuation methodologies, computation basis, key assumptions, qualifications and underlying rationales in such assessments.

In relation to our financial liabilities measured at fair value, the Sole Sponsor has reviewed and understood the classification policy of financial liabilities into level 3 fair value measurement, and has further conducted relevant due diligence work, including but not limited to, (1) discussion with our Company about the rationale of the transactions and key basis and assumptions for the valuation; (2) review of transaction documents; and (3) discussion with the reporting accountants of our Company about their work performed in connection with the valuation of our Group’s financial liabilities measured at fair value using level 3 valuations. Based on the due diligence work performed, nothing has come to the Sole Sponsor’s attention that would cause the Sole Sponsor to question the valuation.

### **Impairment Assessment of Non-financial Assets**

The balance of property and equipment and the right-of-use assets amounted to RMB2.9 million, RMB4.2 million, RMB12.8 million, RMB11.6 million and RMB8.3 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively. The balance mainly included (i) furniture and electronic equipment; (ii) leasehold improvement; and (iii) right-of-use assets as buildings leased for own use.

Our Directors assessed the impairment indication of the property and equipment and the right-of-use assets at each reporting date of the Track Record Period by reviewing internal and external sources of information. If any such indication exists, the asset’s recoverable amount is estimated and determined by the higher of the cash generating unit’s fair value less costs of disposal and its value in use. Value in use was calculated by preparing discounted cash flows and any shortfall of the recoverable amount would be recognised as impairment. We did not make any impairment for the property and equipment or the right-of-use assets as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025.

## FINANCIAL INFORMATION

### RESULTS OF OPERATIONS

### Non-IFRS Measure

To supplement our consolidated financial statements, which are presented in accordance with IFRS, we also use adjusted profit/(loss) (non-IFRS measure) as additional financial measures, which is not required by, or presented in accordance with IFRS. We believe that the

## FINANCIAL INFORMATION

non-IFRS measure provides useful information to [REDACTED] and others in understanding and evaluating our consolidated results of operations in the same manner as they help our management. However, our presentation of adjusted profit/(loss) (non-IFRS measure) may not be comparable to similarly titled measures presented by other companies. The use of such non-IFRS measures has limitations as an analytical tool, and you should not consider it in isolation from, or as a substitute for an analysis of, our results of operations or financial condition as reported under IFRS. We define adjusted profit/(loss) (non-IFRS measure) as loss for the year/period adjusted by adding back changes in carrying amount of the redemption liabilities, fair value changes of derivative financial liabilities, [REDACTED] expenses and share-based payment expenses.

The following table reconciles our adjusted profit/(loss) (non-IFRS measure) for the periods presented in accordance with IFRS, which are losses for the periods indicated:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
					<i>(Unaudited)</i>	
<b>Reconciliation of net loss for the year/period and adjusted profit/(loss) (non-IFRS measure)</b>						
Loss for the year/period.....	(48,708)	(99,084)	(98,268)	(66,443)	(40,126)	(24,633)
<i>Add:</i>						
Changes in carrying amount of the redemption liabilities <sup>(1)</sup> ..	46,088	69,383	87,302	21,537	13,932	31,520
Fair value changes of derivative financial liabilities <sup>(2)</sup> .....	2,000	3,598	(7,077)	(1,000)	-	-
[REDACTED] expenses <sup>(3)</sup> .....	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
Share-based payment expenses <sup>(4)</sup> .....	1,980	1,012	457	-	-	-
<b>Adjusted profit/(loss) (non-IFRS measure).....</b>	<b>[REDACTED]</b>	<b>[REDACTED]</b>	<b>[REDACTED]</b>	<b>[REDACTED]</b>	<b>[REDACTED]</b>	<b>[REDACTED]</b>

*Notes:*

- Changes in carrying amount of the redemption liabilities represent amount of changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. Upon completion of our [REDACTED], redemption liabilities in connection with such [REDACTED] Investments would be converted into equity of our Company. In addition, the changes on redemption liabilities is a non-cash item.

---

## FINANCIAL INFORMATION

---

2. Fair value changes of derivative financial liabilities represent the gains or losses arising from change in fair value of our options. The option agreements expired or terminated before June 30, 2024. Please refer to note 23 to the Accountants’ Report in Appendix I to this document.
3. [REDACTED] expenses represent professional fees, [REDACTED] and other fees incurred in connection with the [REDACTED].
4. Share-based payment expenses, which are non-cash in nature, represents the expenses recognised in connection with share options granted to selected executives and employees.

We recorded adjusted profit (non-IFRS measure) of approximately [REDACTED] for the year ended December 31, 2021 while we recorded adjusted loss (non-IFRS measure) of approximately [REDACTED] for the year ended December 31, 2022. Such change was primarily due to the increase in our loss of approximately RMB48.7 million for the year ended December 31, 2021 to approximately RMB99.1 million for the year ended December 31, 2022, which was primarily attributable to the decreases in our gross profit and gross profit margin for the same period, which were mainly attributable to the decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured from the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of the peer competition resulting from the launch of its own centralized recycling platform in June 2022.

Our business had improved as a result of the recovery of our procurement and sales after the pandemic, and our adjusted loss (non-IFRS measure) decreased to approximately RMB6.8 million for the year ended December 31, 2023.

We recorded an increase in adjusted loss (non-IFRS measure) of approximately [REDACTED] million for the year ended December 31, 2024, which was also primarily due to the decreases in our gross profit and gross profit margin for the same period. The decrease in our gross profit for the year ended December 31, 2024 was primarily attributable to the continuous decrease in gross profit margin of our sale of pre-owned mobile phones procured from the supply channels of Consumer Electronic Brand B (and its designated distributors) for the same reason aforesaid. The decrease in our gross profit margin for the year ended December 31, 2024 was primarily the reason that we had to raise our trade-in recycling prices to procure some of the pre-owned mobile phones from the supply channels of Consumer Electronic Brands B, C and D and Vivo to compete with other service providers within the centralized recycling platforms launched by these mainstream consumer electronic brands. For more details, please refer to “– Period to Period Comparison of Results of Operations” in this section.

We recorded an adjusted profit (non-IFRS measure) of approximately [REDACTED] for the six months ended June 30, 2025 as compared to an adjusted loss (non-IFRS measure) of approximately RMB18.1 million for the six months ended June 30, 2024. Such improvement was primarily due to the increases in our gross profit and gross profit margin of approximately RMB50.7 million and 6.3% for the six months ended June 30, 2025, respectively, as compared to approximately RMB25.9 million and 4.5% for the six months ended June 30, 2024, respectively. Such increases were primarily due to the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones, which in turn, attributable to (i) the increases

---

## FINANCIAL INFORMATION

---

in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands B (and its designated distributors), primarily due to the decrease in commission fees paid to the sales staff of retail stores of Consumer Electronic Brand B (and its designated distributors) as a result of our deepened business collaboration with them and its internal adjustment of fee policy; (ii) the increases in gross profit and gross profit margin of our sale of consumer electronics through offline sale procured through corporate recycling, primarily as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F; and (iii) the general increases in gross profit and gross profit margins of our sale of pre-owned mobile phones procured through the supply channels of some other mainstream consumer electronic brands as we had been actively staying informed about the market trend of the expected supply and demand and recycling and selling prices offered by our peer competitors to adjust our pricings in real-time, which in turn, minimize the impact of our ineffective pricing and at the same time, improve our overall gross profit margin.

In order to turn around our loss-making positions and to achieve a better profitability in the near future, we have made specific business plans and strategies. First of all, we intend to continue to steadily expand and deepen our strategic and cooperation with our existing upstream sourcing partners by further extending our trade-in recycling services to more of their retail stores with a national geographic reach, and at the same time, aiming to obtain a more stable and desirable supply of quality pre-owned consumer electronics. During the Track Record Period, we had cooperated with more than 75,000 retail stores of our upstream sourcing partners spanning over 31 provinces in the PRC on a cumulative basis. According to Frost & Sullivan, as of the Latest Practicable Date, the aggregate number of branded retail stores of our key upstream sourcing partners (including seven mainstream consumer electronic brands and/or their designated distributors, four major mobile network operators and various sizable merchants) exceeded one million stores in the PRC. With the establishment of our new strategic cooperation with the three designated distributors of Consumer Electronic Brand F in June 2024, we believe that there remains a tremendous market for us to develop. We also plan to conduct more online trade-in service transactions in the online malls of certain mainstream consumer electronic brands as we would only need to pay promotion service fees but not the commission fees to them. We also intend to particularly step up our efforts to collaborate with the major mobile network operators in the PRC to promote our pre-owned mobile phone recycling services. In February 2024, the General Office of the State Council issued the Opinions on Accelerating the Construction of a Waste Recycling System (《關於加快構建廢棄物循環利用體系的意見》) which, among others, calls for the standardization of trading activities in connection with second-hand goods and encourages the development of the “internet & second-hand” business model. It also proposes to introduce regulations related to information clearance methods for consumer electronic products such as tablets and mobile phones when traded by second-hand goods trading enterprises, ensuring the security of seller information during such transactions. We see PRC mobile network operators have already been starting to cooperate more with the consumer electronics transaction service providers and chain retailers to offer trade-in solutions. As we have already established cooperation with the four major mobile network operators in the PRC in supply of pre-owned mobile phones since 2017, we believe that we possess the first-mover advantage towards our competitors to further

---

## FINANCIAL INFORMATION

---

strengthen our strategic relationship with these PRC mobile phone network operators, which in turn, will secure us more sufficient and stable supply of pre-owned mobile phones for our offline trade-in recycling business.

On the sale side, we will continue to increase our marketing efforts and explore new sales channels to steadily increase our sales volume and profit margin. In particular, we intend to grow our brand awareness and strengthen our influence through various brand building activities to attract and retain more individual customers as we believe the gross profit margin of sale of mid-to-high-end second-hand consumer electronic products to individual customers are much higher than that sales to the merchant customers. We also intend to work closely with our key upstream sourcing partners to expand our overseas operation. In October 2023, we had successfully obtained Radio Dealers Licence (Unrestricted) (無線電商牌照) in Hong Kong. We also commenced to provide our trade-in recycling transaction service in Hong Kong since November 2023 for one of our key upstream sourcing partners, and sell the same through our local sales channel. Furthermore, we joined Consumer Electronic Brand B as its strategic business partner to visit Singapore, Malaysia, Thailand and Indonesia in July 2024, and conducted market research in these local markets. We then subsequently incorporated PT Shanhui in February 2025. We believe that with our well-established collaborative relationship with these key upstream sourcing partners and our matured business model, we will be able to quickly add synergies to our key upstream sourcing partners and increase our market shares in both recycling and sale services of pre-owned consumer electronics in Hong Kong and other Southeast Asian countries.

For more details of our strategies and plans, please refer to “Business – Our Strategies” and “Future Plans and [REDACTED]” in this document.

### PRINCIPAL INCOME STATEMENT COMPONENTS

#### Revenue

During the Track Record Period, we primarily derived our revenue from the sale of pre-owned consumer electronics, mainly mobile phones, procured from our various supply channels, to buyers in the second-hand market, primarily through our Shanhui Youpin (閃回有品) online platform, as well as our own online stores operated on various third-party e-commerce platforms. In order to satisfy the business needs of our customers, we also sell part of our procured consumer electronics in bulk through our offline sale, and also provide various value-added and after-sale services to them. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue amounted to approximately RMB749.7 million, RMB919.1 million, RMB1,158.4 million, RMB1,297.3 million and RMB809.5 million, respectively.

## FINANCIAL INFORMATION

The table below sets out the breakdown of our revenue for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue	RMB'000	% of total revenue
	(Unaudited)											
Sale of products .....	737,210	98.3	901,770	98.1	1,140,278	98.4	1,277,990	98.5	568,887	98.6	800,599	98.9
– Sale of pre-owned mobile phones .....	693,393	92.5	856,346	93.2	1,050,003	90.6	1,231,356	94.9	546,797	94.8	773,130	95.5
– Sale of other pre-owned consumer electronics .....	43,817	5.8	45,424	4.9	90,275	7.8	46,634	3.6	22,090	3.8	27,469	3.4
Other services <sup>(1)</sup> .....	12,521	1.7	17,342	1.9	18,115	1.6	19,271	1.5	7,971	1.4	8,877	1.1
<b>Total: .....</b>	<b>749,731</b>	<b>100</b>	<b>919,112</b>	<b>100</b>	<b>1,158,393</b>	<b>100</b>	<b>1,297,261</b>	<b>100</b>	<b>576,858</b>	<b>100</b>	<b>809,476</b>	<b>100</b>

Note:

- Other services primarily include (i) providing matching service to sellers and purchasers with bulk disposal or purchase needs for pre-owned consumer electronics; (ii) conducting quality inspection of pre-owned mobile phones transacted on certain well-known third-party e-commerce platforms; and (iii) providing after-sale services, such as screen assurance services.

The table below sets out the sales volume and average selling price of pre-owned consumer electronics that we sold by product type for the periods indicated, respectively:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	unit'000	Average selling price/unit (RMB)	unit'000	Average selling price/unit (RMB)	unit'000	Average selling price/unit (RMB)	unit'000	Average selling price/unit (RMB)	unit'000	Average selling price/unit (RMB)	unit'000	Average selling price/unit (RMB)
Sale of pre-owned mobile phones .....	1,057	656	1,214	705	1,506	697	1,243	991	552	991	753	1,027
Sale of other pre-owned consumer electronics .....	331	132	406	112	966	94	525	89	329	67	80	343

## FINANCIAL INFORMATION

Sale of pre-owned mobile phones is our largest business segment. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue derived from our sale of pre-owned mobile phones amounted to approximately RMB693.4 million, RMB856.3 million, RMB1,050 million, RMB1,231.4 million and RMB773.1 million, representing approximately 92.5%, 93.2%, 90.6%, 94.9% and 95.5% of our total revenue for the same periods, respectively. The steady growth in revenue generated from our sale of pre-owned mobile phones during the Track Record Period was primarily due to the increases in their sales volume and/or average selling prices, driven by our strategic business expansion. Such increases were primarily attributable to (i) the continuous updating and upgrading of the new models of mobile phones which generally had higher selling prices than that of the older models; and (ii) the expansion of our supply channels by establishing new and deepening the existing strategic cooperation relationship with more mainstream consumer electronic brands.

During the Track Record Period, sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands A, B, C and D and Vivo and/or their respective designated distributors were our major revenue contributors with stable growth during the Track Record Period. For illustration purpose only, we set out below sensitivity analysis of our profit after tax for the year with reference to the fluctuation of the sales volume and average selling prices in pre-owned mobile phones and other pre-owned consumer electronics during the Track Record Period, respectively.

The following table demonstrates the impact of the hypothetical increase or decrease in the sales volume in pre-owned mobile phones and other pre-owned consumer electronics on our profit after tax for the period, while all other factors remain unchanged:

	<b>Hypothetical increase/decrease of 10%</b>	<b>Hypothetical increase/decrease of 15%</b>	<b>Hypothetical increase/decrease of 20%</b>
	<b>RMB'000</b>	<b>RMB'000</b>	<b>RMB'000</b>
Decrease/Increase in profit for the period:			
Year ended December 31, 2021 .....	5,561	8,342	11,122
Year ended December 31, 2022 .....	5,018	7,528	10,037
Year ended December 31, 2023 .....	7,216	10,824	14,432
Year ended December 31, 2024 .....	5,653	8,480	11,307
Six months ended June 30, 2025 ...	4,802	7,203	9,604

## FINANCIAL INFORMATION

## FINANCIAL INFORMATION

*Notes:*

1. During the Track Record Period, our upstream sourcing partners typically allowed individual consumers to have their pre-owned mobile phones under different brands to be traded-in in their branded retail stores. According to Frost & Sullivan, it is an industry norm for upstream sourcing partners to do so as such practice could effectively promote sales of their new models of consumer electronic devices in stores and attract individual consumers who used consumer electronics of other consumer electronic brands to switch to using consumer electronic electronics of their brands.
  
2. A significant portion of our revenue derived from the sale of pre-owned mobile phones in other brands include our sale of pre-owned mobile phones of Consumer Electronic Brand F, which we did not directly cooperate with and provide our trade-in recycling transaction services to it during the Track Record Period. We officially entered into cooperation agreements with several designated distributors of Consumer Electronic Brand F in June 2024. Please refer to “Business – Our Supply Channels – Stable Supply through Our Strategic Cooperation with Upstream Sourcing Partners – Offline Trade-in Solution – Consumer Electronic Brands” in this document. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue of sale of pre-owned mobile phones of Consumer Electronic Brand F amounted to approximately RMB157.5 million, RMB148 million, RMB172.4 million, RMB294 million and RMB244 million, respectively.

The table below sets out the sales volume and average selling price of pre-owned mobile phones that we sold by consumer electronic brand name<sup>(1)</sup> for the periods indicated, respectively:

	Year ended December 31,								Six months ended June 30,

## FINANCIAL INFORMATION

*Notes:*

1. During the Track Record Period, our upstream sourcing partners typically allowed individual consumers to have their pre-owned mobile phones under different brands to be traded-in in their branded retail stores. According to Frost & Sullivan, it is an industry norm for upstream sourcing partners to do so as such practice could effectively promote sales of their new models of consumer electronic devices in stores and attract individual consumers who used consumer electronics of other consumer electronic brands to switch to using consumer electronic electronics of their brands.
2. A significant portion of our revenue derived from the sale of pre-owned mobile phones in other brands include our sale of pre-owned mobile phones of Consumer Electronic Brand F, which we did not cooperate with and provide our trade-in recycling transaction services to it during the Track Record Period. We officially entered into cooperation agreements with several designated distributors of Consumer Electronic Brand F in June 2024. For more information of Consumer Electronic Brand F, please refer to “Business — Our Supply Channels — Stable Supply through Our Strategic Cooperation with Upstream Sourcing Partners — Offline Trade-in Solution — Consumer Electronic Brands” in this document. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue of sale of pre-owned mobile phones of Consumer Electronic Brand F amounted to approximately RMB157.5 million, RMB148 million, RMB172.4 million, RMB294 million and RMB244 million, respectively.

During the Track Record Period, other than the pre-owned mobile phones, we also procured and sold other consumer electronic products, including laptops, PC tablets, phone accessories and other digital products. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue derived from the sale of other pre-owned consumer electronics amounted to approximately RMB43.8 million, RMB45.4 million, RMB90.3 million, RMB46.6 million and RMB27.5 million, representing approximately 5.8%, 4.9%, 7.8%, 3.6% and 3.4% of our total revenue for the same periods, respectively.

### ***Revenue by Sales Channel***

We currently conduct the majority of our sales through our proprietary online platform under the brand of Shanhui Youpin (閃回有品). We then subsequently developed an associated Shanhui Youpin (閃回有品) mobile application and WeChat or Alipay mini-program also under such brand, which have become our main sales platforms enabling buyers to purchase and/or bid for pre-owned consumer electronics through different business modules. In addition to our Shanhui Youpin (閃回有品) online platform, we have also established cooperative relationship with various third-party e-commerce platforms, including a few well-known PRC e-commerce recycling platforms and online shopping platforms, as well as live-streaming platforms targeting various types of customers. We typically set up and operate our own online stores on these third-party e-commerce platforms. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue derived from the sale of pre-owned consumer electronics through sales platforms, including both of our Shanhui Youpin (閃回有品) online platform and other third-party e-commerce platforms, amounted to approximately RMB710.6 million, RMB863.8 million, RMB1,049.3 million, RMB1,219.8 million and RMB684 million, representing approximately 94.8%, 94%, 90.6%, 94% and 84.5% of our total revenue for the same periods, respectively. In future, we intend to establish our branded online stores on more third-party e-commerce platforms to further diversify our sales channels.

## FINANCIAL INFORMATION

Leveraging our established position in the PRC mobile phone recycling service market and our strategic and synergistic relationship with our various upstream sourcing partners, we have been engaged in the corporate recycling by certain of our upstream sourcing partners to handle their excess inventories and/or demonstration consumer electronics and/or other recycling requests of consumer electronics in bulk to satisfy the diversified business needs of our upstream business partners. Based on our understanding of the needs and preferences of buyers in the second-hand consumer electronics market, we are then able to sell the majority of our pre-owned consumer electronics procured through corporate recycling to our customers through offline sale. During the Track Record Period, approximately 72.5%, 75.6%, 79.2%, 84.1% and 97.2% of our pre-owned consumer electronics procured through corporate recycling were sold to our customers through offline sale in terms of procurement value of consumer electronics, respectively. Our sale of consumer electronics through offline sale increased significantly for the six months ended June 30, 2025, primarily due to our sale of pre-owned premium models of mobile phones through offline sale that were procured from our corporate recycling as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F. We also handle some ad-hoc offline purchase requests of consumer electronics in bulk from our customers, and procure and sell the same which meet the requirements to satisfy their business needs. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our revenue derived from the sale of consumer electronics through offline sale amounted to approximately RMB26.6 million, RMB38 million, RMB91 million, RMB58.2 million and RMB116.5 million, representing approximately 3.5%, 4.1%, 7.8%, 4.5% and 14.4% of our total revenue for the same periods, respectively.

The table below sets out our revenue of sale of products by sales channel for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025

### Cost of Sales

Cost of sales primarily consists of (i) our procurement costs of pre-owned consumer electronics sourced from consumers through the supply channels of our upstream sourcing partners, where individual consumers are our ultimate suppliers; (ii) costs of promotion service and commission fees, primarily including promotion service fees paid to retail stores of our certain upstream sourcing partners and commissions paid to certain retail stores’ sales personnel, based on the arrangements with different retail stores tailored to their specific conditions and needs; and (iii) logistic costs which we pay to the third-party logistic service providers for the transportation and delivery of our procured pre-owned consumer electronics.

## FINANCIAL INFORMATION

The following table sets out a breakdown of our cost of sales for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%

Cost of our procurement of pre-owned consumer electronics <sup>(1)</sup> .....	587,335	85.3	743,133	86.1	954,778	88.4	1,095,118	88.7	482,434	87.6	692,507	91.3
Cost of promotion service and commission fees .....	70,623	10.3	76,887	8.9	74,391	6.9	98,138	7.9	47,918	8.7	45,819	6.0
Cost of logistics .....	10,453	1.5	13,414	1.6	16,258	1.5	14,443	1.2	6,647	1.2	7,742	1.0
Others <sup>(2)</sup> .....	19,849	2.9	30,011	3.5	34,623	3.2	27,466	2.2	13,981	2.5	12,687	1.7
<b>Total: .....</b>	<b>688,260</b>	<b>100</b>	<b>863,445</b>	<b>100</b>	<b>1,080,050</b>	<b>100</b>	<b>1,235,165</b>	<b>100</b>	<b>550,980</b>	<b>100</b>	<b>758,755</b>	<b>100.0</b>

*Notes:*

1. Cost of our procurement of pre-owned consumer electronics also included our procurement cost of excess inventories, demonstration consumer electronics and/or other consumer electronics through corporate recycling.
2. Others primarily include our costs related to labor, repair and maintenance and procurement of phone accessories and services relating to screen damage replacement.

Our cost of sales was approximately RMB688.3 million, RMB863.4 million, RMB1,080.1 million, RMB1,235.2 million and RMB758.8 million for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. Our cost of sales increased during the Track Record Period, primarily due to (i) the general increase in our procurement volume as our business continued to grow and the expansion of our supply channels as a result of establishing new strategic corporation relationship with mainstream consumer electronic brands; and (ii) the continuous updating and upgrading of the new models of mobile phones which led to higher purchase costs than that of the older models. Distinguished from most of our competitors in the industry, we maintain a keen focus on facilitating the trade-in of pre-owned consumer electronics and providing our services to our upstream sourcing partners by way of trade-in. We believe that our business focus has provided us with unmatched access to stable and desirable supply from reliable channels with controllable costs.

---

## FINANCIAL INFORMATION

---

Cost of our procurement of pre-owned consumer electronics was the largest component of our cost of sales during the Track Record Period, representing approximately 85.3%, 86.1%, 88.4%, 88.7% and 91.3% of our total cost of sales and approximately 78.3%, 80.9%, 82.4%, 84.4% and 85.6% of our total revenue for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. We primarily source pre-owned consumer electronics, which include mobile phones, laptops, PC tablets, phone accessories and other digital products, through our strategic collaboration with our upstream sourcing partners. Our upstream sourcing partners include mainstream consumer electronic brands and/or their designated distributors, sizable merchants for consumer electronic products and major PRC mobile network operators. Cost of procurement of pre-owned mobile phones was the largest component of our cost of procurement of pre-owned consumer electronics, representing approximately 94.6%, 95.4%, 92.0%, 96.4% and 96.3% of our total cost of procurement of pre-owned consumer electronics for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively.

Cost of our promotion service and commission fees paid to certain of our upstream sourcing partners and their relevant front sales staff was the second largest component of our cost of sales during the Track Record Period, representing approximately 10.3%, 8.9%, 6.9%, 7.9% and 6% of our total cost of sales and approximately 9.4%, 8.4%, 6.4%, 7.6% and 5.7% of our revenue for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. Based on the arrangements with our upstream sourcing partners tailored to their specific conditions and needs, we typically pay an agreed percentage of the total monthly procurement value of the pre-owned consumer electronics we procured as promotion service fees to them and/or commission fees to their relevant front sales staff. Despite the rapid growth of our trade-in recycling business, we had been able to manage and control our promotion service and commission fees paid during the Track Record Period by gradually increasing our bargaining power in negotiating the promotion services and commission fees with our upstream sourcing partners and continuously adjusting and optimizing our commission fee structure. Nevertheless, our promotion service and commission fees paid would be largely affected by our procurement cost of pre-owned consumer electronics and our negotiations with, and internal fee policies, of our key upstream sourcing partners.

For illustration purpose only, we set out below sensitivity analysis of our profit after tax for the year with reference to the fluctuation of one of our major components of cost of sales during the Track Record Period.

## FINANCIAL INFORMATION

The following table demonstrates the impact of the hypothetical increase or decrease in the cost of our procurement of pre-owned mobile phones and other pre-owned consumer electronics on our profit after tax for the period, while all other factors remain unchanged:

	<b>Hypothetical increase/decrease of 0.5%</b>	<b>Hypothetical increase/decrease of 1.0%</b>	<b>Hypothetical increase/decrease of 1.5%</b>

## FINANCIAL INFORMATION

During the Track Record Period, our cost of sales of consumer electronics by product as a percentage of our total cost of sales were largely in line with their respective percentage contribution to our revenue. The following table sets out a breakdown of our cost of sales by product for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	RMB'000	% of total cost of sales	RMB'000	% of total cost of sales	RMB'000	% of total cost of sales	RMB'000	% of total cost of sales	RMB'000	% of total cost of sales	RMB'000	% of total cost of sales
	(Unaudited)											
Cost of sales of pre-owned mobile phones .....	647,187	94.0	814,289	94.3	988,762	91.5	1,179,437	95.5	525,810	95.4	727,828	95.9
Cost of sales of other pre-owned consumer electronics .....	34,413	5.0	37,297	4.3	79,356	7.4	42,019	3.4	19,116	3.5	24,753	3.3
<b>Total:.....</b>	<b>681,600</b>	<b>99.0</b>	<b>851,586</b>	<b>98.6</b>	<b>1,068,118</b>	<b>98.9</b>	<b>1,221,456</b>	<b>98.9</b>	<b>544,926</b>	<b>98.9</b>	<b>752,581</b>	<b>99.2</b>

### Gross profit and gross profit margin

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our gross profit was approximately RMB61.5 million, RMB55.7 million, RMB78.3 million, RMB62.1 million and RMB50.7 million, respectively, and our gross profit margin was approximately 8.2%, 6.1%, 6.8%, 4.8% and 6.3%, respectively.

The following table sets out the breakdown of our gross profit and gross profit margin for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%
	(Unaudited)											
Sale of products .....	55,610	7.5	50,184	5.6	72,160	6.3	56,534	4.4	23,961	4.2	48,018	6.0
- Sale of pre-owned mobile phones .....	46,206	6.7	42,057	4.9	61,241	5.8	51,919	4.2	20,987	3.8	45,302	5.9

## FINANCIAL INFORMATION

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin
	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%
	<i>(Unaudited)</i>											
- Sale of other pre-owned consumer electronics .....	9,404	21.5	8,127	17.9	10,919	12.1	4,615	9.9	2,974	13.5	2,716	9.9
Other services <sup>(1)</sup> .....	5,861	46.8	5,483	31.6	6,183	34.1	5,562	28.9	1,917	24.0	2,703	30.5
<b>Total:.....</b>	<b>61,471</b>	<b>8.2</b>	<b>55,667</b>	<b>6.1</b>	<b>78,343</b>	<b>6.8</b>	<b>62,096</b>	<b>4.8</b>	<b>25,878</b>	<b>4.5</b>	<b>50,721</b>	<b>6.3</b>

*Note:*

- Other services primarily include (i) providing matching service to sellers and purchasers with bulk disposal or purchase needs for pre-owned consumer electronics; (ii) conducting quality inspection of pre-owned mobile phones transacted on certain well-known third-party e-commerce platforms; and (iii) providing after-sale services, such as screen assurance services.

Our gross profit and gross profit margin both decreased for the year ended December 31, 2022 as compared to the same for the year ended December 31, 2021, primarily due to the decreases in both of the gross profit and gross profit margin of our sale of pre-owned mobile phones from approximately RMB46.2 million and 6.7% for the year ended December 31, 2021, respectively, to approximately RMB42.1 million and 4.9% for the year ended December 31, 2022, respectively. Such decreases were primarily due to (i) the decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) as it launched its own centralized recycling platform in June 2022, and we, as one of their mobile phone recycling service providers under its centralized recycling platform, faced market competition from other recycling service providers; and (ii) the relatively faster increase in our overall procurement cost of pre-owned consumer electronics as compared to the increase in our sale of the same, as both markets of the consumer electronics recycling services and the second-hand consumer electronics got more competitive and the PRC economy also slowed down since COVID-19 pandemic with the GDP growth rate decreasing from approximately 8.1% for the year ended December 31, 2021 to approximately 3% for the year ended December 31, 2022.

---

## FINANCIAL INFORMATION

---

In June 2022, Consumer Electronic Brand B launched its own centralized recycling platform and engaged a few mobile phone recycling service providers to provide recycling services under such centralized recycling platform. As a result, in order to secure the procurement volume and market shares from the supply channels of Consumer Electronic Brand B (and its designated distributors), we had to generally raise the recycling prices to compete with its other service providers, which in turn, caused low gross profit and gross profit margin of our sale of pre-owned mobile phones procured through its supply channels. Nevertheless, during the Track Record Period, the revenue generated from the sale of pre-owned consumer electronics procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) had been steadily increased, and had been our largest revenue contribution. Although we have to face competition in procuring pre-owned mobile phones through the supply channels of Consumer Electronic Brand B (and its designated distributors), resulting from the launch of its own centralized recycling platform since June 2022, we believe that we have been in an even better position in terms of securing stable and quality pre-owned consumer electronics from the supply channels of Consumer Electronic Brand B as such recycling platform serves as a centralized recycling system within the network of Consumer Electronic Brand B that its designated distributors are required to use such centralized recycling platform, which in turn, increases the chance for them to use our trade-in recycling services across more retail stores of Consumer Electronic Brand B, as long as our recycling prices and quality of services are competitive. This also applies to Consumer Electronic Brands C and D and Vivo, all of which had launched their own centralized recycling platforms in 2023 and 2024. We noted that our procurement volume and revenue derived from the sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands B, C and D and Vivo had all increased after their launches.

Our gross profit and gross profit margin both improved from approximately RMB55.7 million and 6.1% for the year ended December 31, 2022, respectively, to approximately RMB78.3 million and 6.8% for the year ended December 31, 2023. Such improvements were primarily due to (i) our recovery of business after the pandemic; and (ii) the decrease in the cost of our promotion service and commission fees paid to certain of our upstream sourcing partners and/or the relevant front sales staff of their retail stores.

Our gross profit and gross profit margin both decreased from approximately RMB78.3 million and 6.8% for the year ended December 31, 2023 to approximately RMB62.1 million and 4.8% for the year ended December 31, 2024, respectively. The decrease in our gross profit for the year ended December 31, 2024 was primarily due to the continuous decrease in gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of the peer competition resulting from the launch of its own centralized recycling platform since June 2022. The decrease in our gross profit margin for the year ended December 31, 2024 was primarily the reason that we had to raise our trade-in recycling prices to procure some of the pre-owned mobile phones from the supply channels of Consumer Electronic Brands B, C and D and Vivo to compete with other service providers within the centralized recycling platforms launched by these mainstream consumer electronic brands.

Our gross profit and gross profit margin both increased from approximately RMB25.9 million and 4.5% for the six months ended June 30, 2024, respectively, to approximately RMB50.7 million and 6.3% for the six months ended June 30, 2025.

## FINANCIAL INFORMATION

For illustration purpose, the following table also sets out our gross profit and gross profit margin by sales channel for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin	Gross profit	Gross profit margin
	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%
<i>(Unaudited)</i>												
Sale of pre-owned consumer electronics through sales platforms .....	54,600	7.7	50,582	5.9	71,724	6.8	56,486	4.6	24,857	4.5	43,192	6.3
– Sale through Shanhui Youpin (閃回有品).....	47,447	7.4	46,078	5.8	60,532	6.5	48,837	4.2	21,345	4.1	38,796	6.1
– Sale through third party e-commerce platforms .....	7,153	10.3	4,504	7.2	11,192	9.6	7,649	11.7	3,513	9.8	4,396	9.0
Sale of consumer electronics through offline sale .....	1,010	3.8	(398) <sup>(1)</sup>	(1)	436	0.5	48	0.1	(896) <sup>(2)</sup>	(4.9)	4,826	4.1
<b>Total:.....</b>	<b>55,610</b>	<b>7.5</b>	<b>50,184</b>	<b>5.6</b>	<b>72,160</b>	<b>6.3</b>	<b>56,534</b>	<b>4.4</b>	<b>23,961</b>	<b>4.2</b>	<b>48,018</b>	<b>6.0</b>

*Notes:*

1. The gross loss of our sale through offline sale for the year ended December 31, 2022 was primarily due to us offering certain discount to some of our merchant customers under our sale through offline sale because we were not able to deliver our products to them in a timely manner due to the COVID-19 pandemic and the subsequent selling prices of such products dropped; and
2. The gross loss of our sale through offline sale for the six months ended June 30, 2024 was primarily due to a loss transaction with a merchant customer through offline sale when we had to reduce our selling prices of some electronic accessories due to our failure to sell them in a timely manner and hence, recorded a gross loss of approximately RMB0.8 million in this transaction.

### Other income and gains/(losses)

Our other income primarily consisted of government grants, interest income on structured deposits and bank deposits, and others. Our other gains/(losses) primarily consisted of our provision for litigation loss in a lawsuit, our contract liquidated damages paid to one of our previous investors and fair value changes of financial assets measured at FVTPL and derivative financial liabilities.

## FINANCIAL INFORMATION

The following table sets out a breakdown of our other income and gains/(losses) for the periods indicated:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
					<i>(Unaudited)</i>	
Interest income on structured deposits and bank deposits.....	1,063	369	414	2,204	956	120
Government grants.....	2,692	3,672	1,164	1,624	1,431	500
Provision for litigation loss.....	-	(6,000)	-	-	-	-
Contract liquidated damages .....	(1,500)	-	-	-	-	-
Fair value changes of financial assets measured at FVTPL and derivative financial liabilities.....	(2,000)	(3,598)	6,905	136	29	86
Others .....	122	1,033	551	(44)	(576)	227
<b>Total:.....</b>	<b>377</b>	<b>(4,524)</b>	<b>9,034</b>	<b>3,920</b>	<b>1,840</b>	<b>933</b>

Government grants mainly represented unconditional cash awards granted by the government authorities in the PRC, which primarily included local governmental subsidies to support digital economy, brand building and business growth.

Our fair value changes of financial assets measured at FVTPL related to our equity investment into a company which is [REDACTED] on the Stock Exchange. Our fair value changes of derivative financial liabilities represented the changes in fair value in relation to the options granted to certain financial institutions, all of which were either expired or terminated before or in January 2024. For more details of our options granted, please refer to “History, Reorganization and Corporate Structure – 3. Our Group Structure and Corporate History – 3.1.6 Share Option” in this document. Please also refer to note 23 to our financial statements included in the Accountants’ Report in Appendix I to this document.

Others primarily included security deposit forfeit by us in relation to the buyers who participated in the bidding modules on our Shanhui Youpin (閃回有品) online platform but failed to make payment in prescribed time limit.

## FINANCIAL INFORMATION

### Selling and distribution expenses

Our selling and distribution expenses primarily consisted of salaries and benefits of our sales personnel, marketing and advertising expenses, depreciation expenses, office expenses and travelling expenses. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our selling and distribution expenses were approximately RMB11.6 million, RMB17.2 million, RMB18.5 million, RMB20.3 million and RMB9.3 million, representing approximately 1.5%, 1.9%, 1.6%, 1.6% and 1.1% of our total revenue for the same periods, respectively.

The following table sets out a breakdown of our selling and distribution expenses for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%	RMB'000	%
	<i>(Unaudited)</i>											
Staff salaries and benefits..	7,772	67.1	10,391	60.3	10,449	56.4	10,567	52.1	4,678	54.9	5,708	61.3
Marketing and advertising expenses .....	2,605	22.5	3,928	22.8	4,671	25.2	6,852	33.8	2,238	26.3	2,381	25.6

Travelling expenses.....	260	2.2	504	2.9	694	3.7	125	0.6	101	1.2	24	0.3
Others <sup>(1)</sup> .....	655	5.7	1,170	6.7	958	5.2	1,641	8.0	799	9.4	624	6.7
<b>Total: .....</b>	<b>11,581</b>	<b>100</b>	<b>17,243</b>	<b>100</b>	<b>18,528</b>	<b>100</b>	<b>20,301</b>	<b>100</b>	<b>8,514</b>	<b>100</b>	<b>9,304</b>	<b>100</b>

*Notes:*

- Others primarily include other miscellaneous expenses.
- Less than 0.05%.

Staff salaries and benefits were the largest component of our selling and distribution expenses, representing approximately 67.1%, 60.3%, 56.4%, 52.1% and 61.3% of our total selling and distribution expenses for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. During the Track Record Period, we had been steadily putting effort to expand our supply network and deepen our strategic cooperation with upstream sourcing partners, we had also been recruiting and adjusting personnel at our sales side to increase our effort and explore new sales opportunities from our existing and potential customers in the PRC.

## FINANCIAL INFORMATION

Marketing and advertising expenses were the second largest component of our selling and distribution expenses, representing approximately 22.5%, 22.8%, 25.2%, 33.8% and 25.6% of our total selling and distribution expenses for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. Our marketing and advertising expenses were primarily related to our marketing and advertising activities, marketing materials used and our service fees paid to various third-party e-commerce platforms.

### Administrative expenses

Our administrative expenses primarily consisted of salaries and benefits for our management and administrative staff, service fees for the third-party human resource service providers, consulting firm and other professional service providers, impairment loss on trade and other receivables, travelling and entertainment expenses, office expenses, depreciation expenses and [REDACTED] expenses. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our administrative expenses were approximately RMB42.2 million, RMB45.7 million, RMB57.5 million, RMB65.7 million and RMB25.2 million, representing approximately 5.6%, 5%, 5%, 5% and 3% of our total revenue for the same period, respectively.

During the Track Record Period, we had made continuous efforts on optimizing our management and administrative department to improve our operating efficiencies. The following table sets out a breakdown of our administrative expenses for the periods indicated:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025

## FINANCIAL INFORMATION

---

### Research and development expenses

Our research and development expenses amounted to approximately RMB10.3 million, RMB17.4 million, RMB18.9 million, RMB18.7 million and RMB8.6 million, representing approximately 1.4%, 1.9%, 1.6%, 1.4% and 1.1% of our total revenue for the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively. Our research and development expenses primarily consisted of (i) salaries and benefits for our technology and development team members, which amounted to approximately RMB9 million, RMB11.9 million, RMB11.4 million, RMB11.7 million and RMB6.1 million; and (ii) service fees paid to third-party technology service providers, which amounted to approximately RMB0.8 million, RMB4.6 million, RMB6.4 million, RMB5.5 million and RMB1.7 million for the same periods, respectively.

Please also refer to “Business – Technology, Research and Development” in this document for more details of our technology, research and development efforts. Our research and development expenditures were recognized as expenses in the period in which they were incurred. For more details, please also refer to note 2(t) to our financial statements included in the Accountants’ Report in Appendix I to this document.

### Finance costs

Our finance costs represent our interest expenses on our bank and other borrowings and lease liabilities. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our finance costs were approximately RMB0.5 million, RMB0.5 million, RMB3.4 million, RMB6.2 million and RMB1.7 million, respectively.

### Changes in carrying amount of the redemption liabilities

Our changes in carrying amount of redemption liabilities represented the changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our changes in carrying amount of redemption liabilities amounted to approximately RMB46.1 million, RMB69.4 million, RMB87.3 million, RMB21.5 million and RMB31.5 million, respectively. For more details of our [REDACTED] Investments, please refer to “History, Reorganization and Corporate Structure – 3. Our Group Structure and Corporate History” in this document. Please also refer to note 22 to our financial statements included in the Accountants’ Report in Appendix I to this document.

### Income tax

Income tax consists of current tax and deferred income tax by our Group. Current tax primarily comprises PRC corporate income tax payable by our PRC subsidiaries. We did not incur income tax during the Track Record Period, primarily as a result of realizing net losses during the same periods.

---

## FINANCIAL INFORMATION

---

Under the current law of the Cayman Islands, we are not subject to any income tax in the Cayman Islands. Under the Hong Kong law, we are not subject to any income tax in Hong Kong as we had no assessable profits derived from or earned in Hong Kong during the Track Record Period. Under the EIT Law, our subsidiaries in the PRC are subject to PRC income tax at the statutory PRC corporate income tax rate of 25%.

Please also refer to note 7 to our financial statements included in the Accountants’ Report in Appendix I to this document for a more detailed discussion on our income tax.

### PERIOD TO PERIOD COMPARISON OF RESULTS OF OPERATIONS

#### Six Months Ended June 30, 2025 Compared to Six Months Ended June 30, 2024

##### *Revenue by product*

Our revenue increased by approximately 40.3% from approximately RMB576.9 million for the six months ended June 30, 2024 to approximately RMB809.5 million for the six months ended June 30, 2025, primarily due to the increase in our revenue generated from the sale of pre-owned mobile phones from approximately RMB546.8 million for the six months ended June 30, 2024 to approximately RMB773.1 million for the six months ended June 30, 2025. Such increase was primarily attributable to an increase in our sales volume from approximately 552,000 units to approximately 753,000 units for the same period, primarily as a result of our increased procurement volume of pre-owned mobile phones that we procured from the supply channels of our upstream sourcing partners for the six months ended June 30, 2025, especially Consumer Electronic Brands B and D and Vivo (and their designated distributors). The increase in our revenue generated from the sale of pre-owned mobile phones was also due to the increase in its average selling price from approximately RMB991 per unit to approximately RMB1,027 per unit for the same period. Such increase was primarily due to us (i) selling mid-to-high-end pre-owned mobile phones procured from the supply channels of Consumer Electronic Brand C (and its designated distributors) under the value maintain and trade-in services; and (ii) selling pre-owned premium models of mobile phones through offline sale that we procured for our corporate recycling as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F.

The increase in our revenue was also partially attributable to our increased revenue generated from sale of other pre-owned consumer electronic products from approximately RMB22.1 million for the six months ended June 30, 2024 to approximately RMB27.5 million for the six months ended June 30, 2025.

---

## FINANCIAL INFORMATION

---

### *Revenue by sales channel*

Our revenue generated from our sale of pre-owned consumer electronics through sales platforms increased by approximately 24.2% from approximately RMB550.6 million for the six months ended June 30, 2024 to approximately RMB684.1 million for the six months ended June 30, 2025. During the Track Record Period, we conducted the majority of our sales through our proprietary online platform under the brand of Shanhui Youpin (閃回有品). As such, the increase in our revenue for the six months ended June 30, 2025 was primarily attributable to the increase in our revenue generated from the sale of pre-owned consumer electronics through our Shanhui Youpin (閃回有品) online platform from approximately RMB514.9 million for the six months ended June 30, 2024 to approximately RMB635.5 million for the six months ended June 30, 2025, which was in turn, due to the increase in sales volume from approximately 520,000 units to approximately 700,000 units for the same period. Such increase of sales volume was partially offset by the decrease in the average selling price of our sale through Shanhui Youpin (閃回有品) online platform from approximately RMB990 per unit for the six months ended June 30, 2024 to approximate RMB908 per unit for the six months ended June 30, 2025.

The increase in our revenue generated from sale of pre-owned consumer electronics through sale platforms was also attributable to our revenue generated from our sale of pre-owned consumer electronics through third-party e-commerce platforms from approximately RMB35.7 million for the six months ended June 30, 2024 to approximately RMB48.6 million for the six months ended June 30, 2025. Such increase was primarily due to the increases in both of the sales volume and average selling price from approximately 42,000 units and RMB850 per unit for the six months ended June 30, 2024, respectively to approximately 47,000 units and RMB1,034 per unit for the six months ended June 30, 2025, respectively.

Furthermore, the increase in our revenue for the six months ended June 30, 2025 was also attributable to the increase in our revenue generated from sale of consumer electronics through offline sales by approximately 535.8% from approximately RMB18.3 million for the six months ended June 30, 2024 to approximately RMB116.5 million for the six months ended June 30, 2025. Such significant increase was primarily due to us selling pre-owned premium models of mobile phones through offline sale that we procured from our corporate recycling as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F.

### *Cost of sales*

Our cost of sales increased by approximately 37.7% from approximately RMB551 million for the six months ended June 30, 2024 to approximately RMB758.8 million for the six months ended June 30, 2025. Such increase was primarily attributable to the increase in our procurement cost of pre-owned consumer electronics from approximately RMB482.4 million to approximately RMB692.5 million for the same period, which was in turn, primarily due to the general increase in our procurement volume of pre-owned mobile phones as our trade-in recycling business continued to expand. The increase in our procurement cost of pre-owned mobile phones was also attributable to the procurement of pre-owned premium models of mobile phones through corporate recycling as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F.

---

## FINANCIAL INFORMATION

---

The increase in our cost of sales for the six months ended June 30, 2025 was partially offset by the decrease in our cost of promotion service and commission fees from approximately RMB47.9 million to approximately RMB45.8 million for the same period. Such decrease was primarily due to the decrease in our commission fees paid to the sales staff of retail stores of Consumer Electronic Brand B as a result of our deepened business collaboration with them and its internal adjustment of fee policy.

### *Gross profit and gross profit margin*

Our gross profit and gross profit margin both increased from approximately RMB25.9 million and 4.5% for the six months ended June 30, 2024, respectively, to approximately RMB50.7 million and 6.3% for the six months ended June 30, 2025, respectively. Such increases were primarily due to the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones from approximately RMB21 million and 3.8% to approximately RMB45.3 million and 5.9% for the same period, respectively.

The increases in our gross profit and gross profit margin of our sale of pre-owned mobile phones were primarily attributable to (i) the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands B (and its designated distributors), primarily due to the decrease of commission fees paid to the sales staff of retail stores of Consumer Electronic Brand B as a result of our deepened business collaboration with them and its internal adjustment of fee policy; (ii) the increases in gross profit and gross profit margin of our sale of consumer electronics through offline sale procured through corporate recycling, primarily as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F; and (iii) the general increases in gross profit and gross profit margins of our sale of pre-owned mobile phones procured through the supply channels of some other mainstream consumer electronic brands as we had been actively staying informed about the market trend of the expected supply and demand and recycling and selling prices offered by our peer competitors to adjust our pricings in real-time, which in turn, minimize the impact of our ineffective pricing and at the same time, improve our overall gross profit margin.

The increases in our gross profit and gross profit margin for the six months ended June 30, 2025 were also partially attributable to the increases in gross profit and gross profit margin of our other services from approximately RMB1.9 million and 24.1% for the six months ended June 30, 2024, respectively, to approximately RMB2.7 million and 30.5% for the six months ended June 30, 2025, respectively. Such increases were primarily due to the increase in our matching services.

### *Other income and gains*

Our other income and gains decreased by 49.3% from approximately RMB1.8 million for the six months ended June 30, 2024 to approximately RMB0.9 million for the six months ended June 30, 2025. Such decrease was primarily due to (i) decrease in government grants from RMB1.4 million to RMB0.5 million for the same period; and (ii) decrease in interest income on structured deposits and bank deposits from RMB0.9 million to RMB0.1 million for the same period.

---

## FINANCIAL INFORMATION

---

### *Selling and distribution expenses*

Our selling and distribution expenses increased by approximately 9.3% from approximately RMB8.5 million for the six months ended June 30, 2024 to approximately RMB9.3 million for the six months ended June 30, 2025. Such increase was primarily due to increase in our staff salaries and benefits from approximately RMB4.7 million to approximately RMB5.7 million for the same period as our business continued to grow.

### *Administrative expenses*

Our administrative expenses decreased by approximately 22.4% from approximately RMB32.5 million for the six months ended June 30, 2024 to approximately RMB25.2 million for the six months ended June 30, 2025. Such decrease was primarily due to the decreases in (i) impairment loss on trade and other receivables from approximately RMB1.4 million to reversal of impairment loss of approximately RMB0.1 million; (ii) our service fees from approximately RMB3.3 million to approximately RMB2.1 million, for the same period. The increase in our administrative expenses was also partially attributable to our [REDACTED] expenses.

### *Research and development expenses*

Our research and development expenses decreased by approximately 6.5% from approximately RMB9.2 million for the six months ended June 30, 2024 to approximately RMB8.6 million for the six months ended June 30, 2025. Such decrease was primarily due to the decrease in service fees paid to third-party technology service providers from approximately RMB3 million to approximately RMB1.7 million for the same period.

### *Finance cost*

Our finance costs decreased by approximately 55.3% from approximately RMB3.7 million for the six months ended June 30, 2024 to RMB1.7 million for the six months ended June 30, 2025. Such decrease was mainly due to the decrease in interest on bank loans and other borrowing from approximately RMB3.5 million to approximately RMB1.6 million for the same period.

### *Changes in carrying amount of the redemption liabilities*

Our changes in carrying amount of redemption liabilities represented the changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. Our changes in carrying amount of redemption liabilities increased from approximately RMB13.9 million for the six months ended June 30, 2024 to approximately RMB31.5 million for the six months ended June 30, 2025. For more details of our carrying amount of the redemption liabilities, please refer to note 22 to Accountants’ Report in Appendix I to this document.

### *Loss for the year*

As a result of the foregoing, our loss for operation decreased from approximately RMB40.1 million for the six months ended June 30, 2024 to approximately RMB24.6 million for the six months ended June 30, 2025.

---

## FINANCIAL INFORMATION

---

### Year Ended December 31, 2024 Compared to Year Ended December 31, 2023

#### *Revenue by product*

Our revenue increased by approximately 12% from approximately RMB1,158.4 million for the year ended December 31, 2023 to approximately RMB1,297.3 million for the year ended December 31, 2024, primarily due to the increase in our revenue generated from the sale of our pre-owned mobile phones from approximately RMB1,050 million for the year ended December 31, 2023 to approximately RMB1,231.4 million for the year ended December 31, 2024. Such increase was attributable to the increase in its average selling price from approximately RMB697 per unit to approximately RMB991 per unit for the same period. The increased average selling price was primarily due to our continuous updating and upgrading of new models, which led to higher selling prices than that of the older models. The increase in average selling price was also attributable to the reason that certain mainstream consumer electronic brands conducted trade-in promotional activities on specific models of pre-owned mobile phones traded in by us which were generally newer and had higher selling prices.

The increase in our average selling price was partially offset by the decrease in our sales volume from approximately 1.5 million units for the year ended December 31, 2023 to approximately 1.2 million units for the year ended December 31, 2024. Such decrease was primarily attributable to the decrease in our sales volume of pre-owned mobile phones procured from the supply channels of Consumer Electronic Brand A. Nevertheless, our sales volume of pre-owned mobile phones that we procured through the supply channels of Consumer Electronic Brands B and D and Vivo (and their designated distributors) all increased for the year ended December 31, 2024.

The increase in our revenue generated from the sale of our pre-owned mobile phones for the year ended December 31, 2024 was also partially offset by our decreased revenue generated from the sale of other pre-owned consumer electronic products from approximately RMB90.3 million for the year ended December 31, 2023 to approximately RMB46.6 million for the year ended December 31, 2024. Such decrease was primarily due to the decrease in its sales volume from approximately 966,000 units to approximately 525,000 units for the same period, which in turn, primarily attributable to the decrease in sales volume of phone accessories and other digital products.

#### *Revenue by sales channel*

Our revenue generated from our sale of pre-owned consumer electronics through sales platforms increased by approximately 16.2% from approximately RMB1,049.3 million for the year ended December 31, 2023 to approximately RMB1,219.8 million for the year ended December 31, 2024. Such increase was primarily attributable to the increase in our sale of pre-owned consumer electronics through our proprietary Shanhui Youpin (閃回有品) online platform from approximately RMB932.4 million for the year ended December 31, 2023 to approximately RMB1,154.3 million for the year ended December 31, 2024, which was in turn, due to the increase in its average selling price from approximately RMB678 per unit to

---

## FINANCIAL INFORMATION

---

approximately RMB990 per unit for the same period. The increase in the average selling price of our sale through Shanhui Youpin (閃回有品) online platform was partially offset by the decrease in its sales volume from approximately 1,375,000 units for the year ended December 31, 2023 to approximately 1,167,000 units for the year ended December 31, 2024. Our revenue generated from our sale of pre-owned consumer electronics through sales platforms for the year ended December 31, 2024 was also partially offset by our sale through our own online stores on third-party e-commerce platforms from approximately RMB116.9 million for the year ended December 31, 2023 to approximately RMB65.5 million for the year ended December 31, 2024. Such decrease was primarily due to the decrease in its sales volume from approximately 170,000 units to approximately 89,000 units for the same period.

The increase in our revenue for the year ended December 31, 2024 was also partially offset by the decrease in our sale of consumer electronics through offline sale from approximately RMB91 million for the year ended December 31, 2023 to approximately RMB58.2 million for the year ended December 31, 2024.

### *Cost of sales*

Our cost of sales increased by approximately 14.4% from approximately RMB1,080.1 million for the year ended December 31, 2023 to approximately RMB1,235.2 million for the year ended December 31, 2024. Such increase was primarily attributable to the increase in our procurement cost of pre-owned consumer electronics from approximately RMB954.8 million to approximately RMB1,095.1 million for the same period, which was in turn, primarily due to the increase in our procurement cost of pre-owned mobile phones. Such increase was mainly attributable to our increase in recycling more of mid-to-high-end pre-owned mobile phones that were typically released in the last few years and generally had higher trade-in prices as a result of the increased trade-in promotional activities conducted by a few of our upstream sourcing partners on specific mobile phone models. As far as we understand, the increase in trade-in promotional activities on mid-to-high-end pre-owned mobile phones were part of the strategies of some of our upstream sourcing partners to increase the stickiness of, and at the same time, to facilitate the sale of their latest models of mobile phones, to mid-to-high-end customers.

The increase in our cost of sales for the year ended December 31, 2024 was also attributable to the increase in our cost of promotion service and commission fees from approximately RMB74.4 million for the year ended December 31, 2023 to approximately RMB98.1 million for the year ended December 31, 2024. Such increase was primarily due to our increased procurement cost of pre-owned mobile phones as our trade-in recycling business continued to expand.

---

## FINANCIAL INFORMATION

---

### *Gross profit and gross profit margin*

Our gross profit and gross profit margin both decreased from approximately RMB78.3 million and 6.8% for the year ended December 31, 2023, respectively, to approximately RMB62.1 million and 4.8% for the year ended December 31, 2024, respectively, which were primarily attributable to the decreases in both of our gross profit and gross profit margin of our sale of pre-owned mobile phones from approximately RMB61.2 million and 5.8% for the year ended December 31, 2023 to approximately RMB51.9 million and 4.2% for the year ended December 31, 2024, respectively. Such decreases were primarily due to the continuous decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors). In June 2022, Consumer Electronic Brand B launched its own centralized recycling platform and engaged a few mobile phone recycling service providers to provide recycling services under such centralized recycling platform. As a result, in order to secure the procurement volume and market shares from the supply channels of Consumer Electronic Brand B (and its designated distributors), we had to generally raise the recycling prices to compete with its other service providers, which in turn, caused decreased gross profit margin of our sale of pre-owned mobile phones procured through its supply channels. The decrease in our gross profit margin for the year ended December 31, 2024 was also due to the same reason for our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands C and D and Vivo in order to compete with other service providers within the centralized recycling platforms launched by these mainstream consumer electronic brands.

The decrease in our gross profit margin for the year ended December 31, 2024 was also due to the increase in our procurement cost of mid-to-high-end pre-owned mobile phones that were typically released in the last few years and generally had higher trade-in prices as a result of the increased trade-in promotional activities conducted by some of our upstream sourcing partners on specific mobile phone models. While we were not able to fully transfer our cost (largely, the increase in our promotion services and commission fees) of pre-owned consumer electronics to our customers as the majority of the Group’s customers during the Track Record Period were merchant customers and the selling prices of second-hand mobiles phones to them were relatively market driven and competitive, which in turn, led to a decrease in our gross profit and gross profit margin for the same period.

### *Other income and gains*

Our other income and gains decreased by approximately 56.6% from approximately RMB9 million for the year ended December 31, 2023 to approximately RMB3.9 million for the year ended December 31, 2024. Such decrease was primarily due to the decrease in our gains on fair value changes of financial assets measured at FVTPL and derivative financial liabilities of approximately RMB6.9 million for the year ended December 31, 2023 to approximately RMB136,000 for the year ended December 31, 2024.

---

## FINANCIAL INFORMATION

---

### *Selling and distribution expenses*

Our selling and distribution expenses increased by approximately 9.6% from approximately RMB18.5 million for the year ended December 31, 2023 to approximately RMB20.3 million for the year ended December 31, 2024. Such increase was primarily due to the increase in our market and advertising expenses from approximately RMB4.7 million for the year ended December 31, 2023 to approximately RMB6.9 million for the year ended December 31, 2024.

### *Administrative expenses*

Our administrative expenses increased by approximately 14.4% from approximately RMB57.5 million for the year ended December 31, 2023 to approximately RMB65.7 million for the year ended December 31, 2024. Such increase was primarily attributable to the increases in salaries and benefits of our managerial and administrative staff and depreciation from approximately RMB25.7 million and RMB0.8 million for the year ended December 31, 2023, respectively, to approximately RMB31.5 million and RMB2.3 million for the year ended December 31, 2024, respectively. The increase in our administrative expenses was also partially attributable to our [REDACTED] expenses.

### *Research and development expenses*

We recorded research and development expenses of approximately RMB18.9 million for the year ended December 31, 2023 and approximately RMB18.7 million for the years ended December 31, 2024. Our research and development expenses remained relatively stable for such periods.

### *Finance costs*

Our finance costs increased by approximately 81.9% from approximately RMB3.4 million for the year ended December 31, 2023 to approximately RMB6.2 million for the year ended December 31, 2024. Such increase was primarily due to the increase in our interest on bank loans and other borrowings from approximately RMB2.9 million for the year ended December 31, 2023 to approximately RMB5.9 million for the year ended December 31, 2024.

### *Changes in carrying amount of the redemption liabilities*

Our changes in carrying amount of redemption liabilities represented the changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. Our changes in carrying amount of redemption liabilities amounted to approximately RMB87.3 million for the year ended December 31, 2023 as compared to approximately RMB21.5 million for the year ended December 31, 2024. For more details of our carrying amount of the redemption liabilities, please refer to note 22 to our financial statements included in the Accountants’ Report in Appendix I to this document.

---

## FINANCIAL INFORMATION

---

### *Loss for the period*

As a result of the foregoing, our loss for the period decreased from approximately RMB98.3 million for the year ended December 31, 2023 to approximately RMB66.4 million for the year ended December 31, 2024.

### **Year Ended December 31, 2023 Compared to Year Ended December 31, 2022**

#### *Revenue by product*

Our revenue increased by approximately 26% from approximately RMB919.1 million for the year ended December 31, 2022 to approximately RMB1,158.4 million for the year ended December 31, 2023, primarily due to the increase in our revenue generated from the sale of our pre-owned mobile phones from approximately RMB856.3 million for the year ended December 31, 2022 to approximately RMB1,050 million for the year ended December 31, 2023, primarily due to (i) our general increase in sales coupled with our enhanced procurement capabilities as a result of maintaining and expanding our upstream supply network; and (ii) the growing downstream demands of our procured mobile phones as a result of our strategy to steadily enlarge our customer base and explore new sales channels. The increase in our sale of pre-owned mobile phones was attributable to the increase in the sales volume from approximately 1,214,000 units for the year ended December 31, 2022 to approximately 1,506,000 units for the year ended December 31, 2023 as our business continued to expand. Such increase was partially offset by a slight decrease in its average selling price from approximately RMB705 per unit to approximately RMB697 per unit for the same period.

The increase in our revenue for the year ended December 31, 2023 was also partially attributable to the sale of our other pre-owned consumer electronics from approximately RMB45.4 million for the year ended December 31, 2022 to approximately RMB90.3 million for the year ended December 31, 2023. Such increase was primarily due to the increase in its sales volume from approximately 406,000 units to approximately 967,000 units for the same period. Such increase was partially offset by the decrease in its average selling price from approximately RMB112 per unit to approximately RMB94 per unit for the same period, primarily as a result of us procuring more other consumer electronics, such as phone accessories, from our various upstream sourcing partners through corporate recycling and hence, sold more of the same to our customers.

#### *Revenue by sales channel*

Our revenue generated from our sale of pre-owned consumer electronics through sales platforms increased by approximately 26.2% from approximately RMB863.8 million for the year ended December 31, 2022 to approximately RMB1,049.3 million for the year ended December 31, 2023. Such increase was primarily attributable to the increase in our sale of pre-owned consumer electronics through our proprietary Shanhu Youpin (閃回有品) online platform from approximately RMB801.1 million for the year ended December 31, 2022 to approximately RMB932.4 million for the December 31, 2023, which was in turn, due to the

---

## FINANCIAL INFORMATION

---

increases in its sales volume from approximately 1,163,000 units to approximately 1,375,000 units for the same period, respectively, as our business continued to expand. Our sale through our own online stores on third-party e-commerce platforms also increased from approximately RMB62.7 million to approximately RMB116.9 million for the same period. Such increase was primarily due to the increases in both of its sales volume and average selling price from approximately 91,000 units and RMB689 per unit to approximately 170,000 units and RMB700 per unit for the same period, respectively, which primarily attributable to the increase in our sales on two third-party e-commerce platforms that targeted merchant customers.

The increase in our revenue for the year ended December 31, 2023 was also partially attributable to the increase in our sale of consumer electronics through offline sale from approximately RMB38 million for the year ended December 31, 2022 to approximately RMB91 million for the year ended December 31, 2023. Such increase was primarily due to the increase in its sales volume from approximately 366,000 units to approximately 927,000 units for the same period, which in turn, primarily due to the increase in our sales of consumer electronic accessories. Such increase was partially offset by a slight decrease in its average selling price from approximately RMB104 per unit to approximately RMB98 per unit for the same period, primarily due to the increase in our sales of consumer electronic accessories.

### *Cost of sales*

Our cost of sales increased by approximately 25.1% from approximately RMB863.4 million for the year ended December 31, 2022 to approximately RMB1,080.1 million for the year ended December 31, 2023, which was generally in line with the increase in our revenue. The increase in our cost of sales for the year ended December 31, 2023 was primarily attributable to the increase in our cost of procurement of pre-owned consumer electronics, mainly mobile phones, from approximately RMB743.1 million to approximately RMB954.8 million for the same period. Such increase was primarily due to (i) our recovery of procurement of supply after the COVID-19 pandemic; (ii) the continuous updating and upgrading of the new models of mobile phones which led to higher purchase costs than that of the older models; and (iii) the general increase in our procurement costs as the market of mobile phone recycling services got more competitive.

### *Gross profit and gross profit margin*

Our gross profit and gross profit margin both increased from approximately RMB55.7 million and 6.1% for the year ended December 31, 2022, respectively, to approximately RMB78.3 million and 6.8% for the year ended December 31, 2023, respectively. Such increases were primarily due to the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones from approximately RMB42.1 million and 4.9% to approximately RMB61.2 million and 5.8% for the same period, respectively, which were, to a certain extent, attributable to the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands A and C (and their designated distributors) as a result of the recovery of our procurement and sales for the year ended December 31, 2023 after the pandemic. Such increases in gross profit and gross

---

## FINANCIAL INFORMATION

---

profit margin were partially offset by the continuous decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) for the reasons aforesaid.

The increase in our gross profit margin for the year ended December 31, 2023 was also partially attributable to the decrease in our promotion service and commission fees paid to the retail stores of our certain upstream sourcing partners and/or their relevant front sales staff in 2023 as compared to 2022. Such decrease was primarily for the reason that (i) our bargaining power in negotiating the promotion service fees with our upstream sourcing partners had gradually increased during the Track Record Period due to our service offering, that was, while we provided recycling services to our upstream sourcing partners by way of trade-in, we also facilitated the sale of their new models of mobile phones; and (ii) we have been continuously optimizing our commission fee structure by providing our recommended range of trade-in prices in advance to the relevant front sale personnel of our upstream sourcing partners’ retail stores. As these sales front personnel are the ones who meet the consumers in store and to facilitate the trade-in service transactions and sale of new consumer electronics, we typically let them have the flexibility to determine the final trade-in prices they would give to consumers within our recommended trade-in price range under different circumstances and transactions.

### *Other income and gains/(losses)*

We recorded other income and gains of approximately RMB9 million for the year ended December 31, 2023 as compared to our other income and losses of approximately RMB4.5 million for the year ended December 31, 2022.

Our other income and losses for the year ended December 31, 2022 were primarily due to our other losses for the same period, which were primarily attributable to (i) our provision for litigation loss in a lawsuit of RMB6 million; and (ii) our losses on fair value changes of financial assets measured at FVTPL and derivative financial liabilities of approximately RMB3.6 million. Our other income and gains for the year ended December 31, 2023 were primarily due to our gains on fair value changes of derivative financial liabilities of approximately RMB6.9 million, which was attributable to the expiration or terminated of our options granted to certain financial institutions before or in January 2024.

For more details of our lawsuit, please refer to “Business – Legal Proceedings and Compliance” in this document. For more details of our options granted, please refer to “History, Reorganization and Corporate Structure – 3. Our Group Structure and Corporate History – 3.1.6 Share Option” in this document. Please also refer to note 23 to our financial statements included in the Accountants’ Report in Appendix I to this document.

---

## FINANCIAL INFORMATION

---

### *Selling and distribution expenses*

Our selling and distribution expenses increased by approximately 7.5% from approximately RMB17.2 million for the year ended December 31, 2022 to approximately RMB18.5 million for the year ended December 31, 2023. Such increase was primarily due to the increases in (i) our market and advertising expenses from approximately RMB3.9 million for the year ended December 31, 2022 to approximately RMB4.7 million for the year ended December 31, 2023; and (ii) our depreciation expenses from approximately RMB0.7 million for the year ended December 31, 2022 to approximately RMB1.5 million for the year ended December 31, 2023, primarily related to our new lease for the relocation of our office and inspection and operation center in Shenzhen in 2023.

### *Administrative expenses*

Our administrative expenses increased by approximately 25.8% from approximately RMB45.7 million for the year ended December 31, 2022 to approximately RMB57.5 million for the year ended December 31, 2023. Such increase was primarily attributable to our [REDACTED] expenses of approximately [REDACTED] incurred for the year ended December 31, 2023. The increase in our administrative expenses for the year ended December 31, 2023 was also attributable to the increase in our service fees from approximately RMB3.9 million for the year ended December 31, 2022 to approximately RMB7 million for the year ended December 31, 2023, which was primarily due to the increase in our consulting fee and miscellaneous expenses for other professional parties. The increase in our administrative expenses for the year ended December 31, 2023 was partially offset by the decrease in salaries and benefits of our managerial and administrative staff from approximately RMB28.8 million for the year ended December 31, 2022 to approximately RMB25.7 million for the year ended December 31, 2023, primarily due to us continuously optimizing the structure of our management and administrative department to improve our operation efficiency.

### *Research and development expenses*

Our research and development expenses increased by approximately 9% from approximately RMB17.4 million for the year ended December 31, 2022 to approximately RMB18.9 million for the year ended December 31, 2023. Such increase was primarily attributable to the increase in our service fees paid to third-party technology service providers for the development of AI solution and pre-owned mobile phone pricing equipment from approximately RMB4.6 million to approximately RMB6.4 million for the same period.

### *Finance costs*

Our finance costs increased by approximately 537.4% from approximately RMB0.5 million for the year ended December 31, 2022 to approximately RMB3.4 million for the year ended December 31, 2023. Such increase was primarily due to the increase in our interest paid on our new bank loans and other borrowing from approximately RMB0.3 million for the year ended December 31, 2022 to approximately RMB2.9 million for the year ended December 31, 2023.

---

## FINANCIAL INFORMATION

---

### *Changes in carrying amount of the redemption liabilities*

Our changes in carrying amount of redemption liabilities represented the changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. Our changes in carrying amount of redemption liabilities amounted to approximately RMB87.3 million for the year ended December 31, 2023 as compared to approximately RMB69.4 million for the year ended December 31, 2022. For more details of our carrying amount of the redemption liabilities, please refer to note 22 to our financial statements included in the Accountants’ Report in Appendix I to this document.

### *Loss for the period*

As a result of the foregoing, our loss for the year decreased from approximately RMB99.1 million for the year ended December 31, 2022 to approximately RMB98.3 million for the year ended December 31, 2023.

### **Year Ended December 31, 2022 Compared to Year Ended December 31, 2021**

#### *Revenue by product*

Our revenue increased by approximately 22.6% from approximately RMB749.7 million for the year ended December 31, 2021 to approximately RMB919.1 million for the year ended December 31, 2022, primarily due to increase in our revenue generated from the sale of our pre-owned mobile phones. Our sale of pre-owned mobile phones increased by approximately 23.5% from approximately RMB693.4 million for the year ended December 31, 2021 to approximately RMB856.3 million for the year ended December 31, 2022, primarily due to (i) our general increase in sales coupled with our enhanced procurement capabilities as a result of maintaining and expanding our upstream supply network; and (ii) the growing downstream demands of our procured mobile phones as a result of our strategy to steadily enlarge our customer base and explore new sales channels. The increase in our sale of pre-owned mobile phones was attributable to the increases in both of its sales volume and the average selling price from approximately 1,057,000 units and RMB656 per unit for the year ended December 31, 2021, respectively, to approximately 1,214,000 units and RMB705 per unit for the year ended December 31, 2022, respectively. In addition, the increase in average selling prices of our pre-owned mobile phones sold for the year ended December 31, 2022 was also attributable to the continuous updating and upgrading of the new models of mobile phones which generally had higher selling prices than that of the older models.

The increase in our revenue for the year ended December 31, 2022 was also partially attributable to the sale of our other pre-owned consumer electronics from approximately RMB43.8 million for the year ended December 31, 2021 to approximately RMB45.4 million for the year ended December 31, 2022. Such increase was primarily due to the increase in its sales volume from approximately 332,000 units to approximately 406,000 units for the same period, partially offset by the decrease in its average selling price from approximately RMB132 per unit to approximately RMB112 per unit for the same period, primarily as a result of us selling more consumer electronic accessories.

---

## FINANCIAL INFORMATION

---

### *Revenue by sales channel*

Our revenue generated from our sale of pre-owned consumer electronics through sales platforms increased by approximately 21.6% from approximately RMB710.6 million for the year ended December 31, 2021 to approximately RMB863.8 million for the year ended December 31, 2022. Such increase was primarily attributable to the increase in our sale of pre-owned consumer electronics through our proprietary Shanhui Youpin (閃回有品) online platforms from approximately RMB641.5 million for the year ended December 31, 2021 to approximately RMB801.1 million for the year ended December 31, 2022, which was in turn, primarily due to the increases in both of its sales volume and average selling price from approximately 1,035,000 units and RMB620 per unit to approximately 1,163,000 units and RMB689 per unit for the same period, respectively. The increase in our sale of pre-owned consumer electronics through sales platforms was partially offset by the decrease in our sale of pre-owned consumer electronics through third-party e-commerce platforms from approximately RMB69.1 million to approximately RMB62.7 million for the same period. Such decrease was primarily due to the decrease in its sales volume from approximately 212,000 units to approximately 91,000 units for the same period, which primarily attributable to the decrease in our sales on one third-party e-commerce platform that targeted merchant customers and one third-party e-commerce platform that targeted individual customers.

The increase in our revenue for the year ended December 31, 2022 was also partially attributable to the increase in our sale of consumer electronics through offline sale from approximately RMB26.6 million for the year ended December 31, 2021 to approximately RMB38 million for the year ended December 31, 2022. Such increase was primarily due to the increase in its sales volume from approximately 141,000 units to approximately 366,000 units for the same period, which in turn, primarily due to the increase in our sales of consumer electronic accessories.

### *Cost of sales*

Our cost of sales increased by approximately 25.5% from approximately RMB688.3 million for the year ended December 31, 2021 to approximately RMB863.4 million for the year ended December 31, 2022, which was generally in line with the increase in our revenue. The increase in our cost of sales for the year ended December 31, 2022 was primarily attributable to the increase in our cost of procurement of pre-owned consumer electronics, mainly mobile phones, from approximately RMB587.3 million to approximately RMB743.1 million for the same period. Such increase was primarily due to (i) the increase in our procurement volume as our business continued to grow and the expansion of our supply channels as a result of establishing new strategic corporation relationship with more mainstream consumer electronic brands; (ii) the continuous updating and upgrading of the new models of mobile phones which led to higher purchase costs than that of the older models; and (iii) the general increase in our procurement costs as the market of mobile phone recycling services got more competitive.

---

## FINANCIAL INFORMATION

---

The increase in our cost of sales for the year ended December 31, 2022 was also partially attributable to the increase in our promotion service and commission fees paid to certain of our upstream sourcing partners and/or their relevant front sales staff from approximately RMB70.6 million to approximately RMB76.9 million for the same period, primarily due to our deepened strategic cooperation with certain mainstream consumer electronic brands and our ability to quickly spread our trade-in transaction services to their numerous retail stores.

### *Gross profit and gross profit margin*

Our gross profit and gross profit margins both decreased from approximately RMB61.5 million and 8.2% for the year ended December 31, 2021, respectively, to approximately RMB55.7 million and 6.1% for the year ended December 31, 2022, respectively. Such decreases were primarily due to the decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones from approximately RMB46.2 million and 6.7% to approximately RMB42.1 million and 4.9% for the same period, respectively, which were primarily attributable to the decreases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) for the reasons aforesaid. Such decreases in gross profit and gross profit margin were partially offset by the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand A.

The decreases in our gross profit and gross profit margin for the year ended December 31, 2022 were also partially due to the relatively faster increase in our overall procurement cost of pre-owned mobile phones as compared to the increase in our sale of the same as both of the markets of mobile phone recycling services and second-hand consumer electronics got more competitive since COVID-19 pandemic with the GDP growth rate decreasing from approximately 8.1% for the year ended December 31, 2021 to approximately 3% for the year ended December 31, 2022; and the decreases in our gross profit and gross profit margin of our sale of other pre-owned consumer electronics from approximately RMB9.4 million and 21.5% for the year ended December 31, 2021, respectively, to approximately RMB8.1 million and 17.9% for the year ended December 31, 2022, respectively.

### *Other income and gains/(losses)*

We recorded other income and losses of approximately RMB4.5 million for the year ended December 31, 2022 as compared to our other income and gains of approximately RMB0.4 million for the year ended December 31, 2021.

Our income and other losses for the year ended December 31, 2022 were primarily due to our other losses for the same period, which were primarily attributable to (i) our provision for litigation loss in a lawsuit of RMB6 million; and (ii) the increase in our losses on fair value changes of financial assets measured at FVTPL and derivative financial liabilities from approximately RMB2 million for the year ended December 31, 2021 to approximately RMB3.6 million for the year ended December 31, 2022.

---

## FINANCIAL INFORMATION

---

### *Selling and distribution expenses*

Our selling and distribution expenses increased by approximately 48.9% from approximately RMB11.6 million for the year ended December 31, 2021 to approximately RMB17.2 million for the year ended December 31, 2022. Such increase was primarily due to the increase in the salaries and benefits of our sales staff from approximately RMB7.8 million to approximately RMB10.4 million for the same period, which primarily attributable to (i) the general increase in the salaries and allowances for our sales personnel; and (ii) us recruiting more sales personnel to increase our sales effort and explore new sales opportunities from our existing and potential customers in the PRC due to the competitive market environment.

The increase in our selling and distribution expenses for the year ended December 31, 2022 was also partially attributable to the increase in our marketing and advertising expenses from approximately RMB2.6 million for the year ended December 31, 2021 to approximately RMB3.9 million for the year ended December 31, 2022. Such increase was primarily due to the increase in our marketing materials used for the year ended December 31, 2022.

### *Administrative expenses*

Our administrative expenses increased by approximately 8.4% from approximately RMB42.2 million for the year ended December 31, 2021 to approximately RMB45.7 million for the year ended December 31, 2022. Such increase was primarily due to the increase in the salaries and benefits of our managerial and administrative staff from approximately RMB20.1 million to approximately RMB28.8 million for the same period, primarily as a result of us recruiting more management and administrative personnel, and the general increase in their salaries and benefits.

The increase in our administrative expenses for the year ended December 31, 2022 was partially offset by (i) the decrease in our service fees for the third-party human resource service providers and other professional service providers from approximately RMB6.1 million to approximately RMB3.9 million and; (ii) the decrease in our [REDACTED] expenses from approximately [REDACTED] to approximately [REDACTED], for the same period, respectively.

---

## FINANCIAL INFORMATION

---

### *Research and development expenses*

Our research and development expenses increased by approximately 69.4% from approximately RMB10.3 million for the year ended December 31, 2021 to approximately RMB17.4 million for the year ended December 31, 2022. Such increase was primarily due to the increase in the salaries and benefits of our technology and development team members from approximately RMB9 million for the year ended December 31, 2021 to approximately RMB11.9 million for the year ended December 31, 2022, primarily as a result of us optimizing our technology and development team by adjusting personnel equipped with better technological knowledge and skills.

The increase in our research and development expenses for the year ended December 31, 2022 was also attributable to the increase in our service fees paid to third-party technology service providers for the development of AI solution from approximately RMB0.8 million to approximately RMB4.6 million for the same period.

### *Finance costs*

We recorded finance costs of approximately RMB0.5 million and RMB0.5 million for the years ended December 31, 2021 and 2022. Our finance costs were relatively stable for such periods.

### *Changes in carrying amount of the redemption liabilities*

Our changes in carrying amount of redemption liabilities represented the changes in our redemption liabilities in relation to the preferential rights granted to our [REDACTED] Investors for their [REDACTED] Investments into us. Our changes in carrying amount of redemption liabilities amounted to approximately RMB69.4 million for the year ended December 31, 2022 as compared to approximately RMB46.1 million for the year ended December 31, 2021. For more details of our carrying amount of the redemption liabilities, please refer to note 22 to our financial statements included in the Accountants’ Report in Appendix I to this document.

### *Loss for the year*

As a result of the foregoing, our loss increased from approximately RMB48.7 million for the year ended December 31, 2021 to approximately RMB99.1 million for the year ended December 31, 2022.

## LIQUIDITY AND CAPITAL RESOURCES

We require a substantial amount of capital to fund our working capital requirements and business expansion. Our operation and growth have primarily been financed by cash generated from our business operations and financing activities including bank and other borrowings and [REDACTED] Investment.

## FINANCIAL INFORMATION

### Cash Flow

For the year ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, we had cash and cash equivalents of approximately RMB55.1 million, RMB42.8 million, RMB79.1 million, RMB93.2 million and RMB119.8 million, respectively. The following table sets out our cash flows for the periods indicated:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025

### Net Cash (Used in)/Generated from Operating Activities

For the year ended December 31, 2021, our net cash used in operating activities amounted to approximately RMB6.4 million, which was primarily attributable to our loss before tax of approximately RMB48.7 million, as adjusted by (i) non-cash or non-operating items of changes in carrying amount of the redemption liabilities of approximately RMB46.1 million, primarily as a result of the preferential rights granted to our [REDACTED] Investors; and (ii) changes in working capital, which primarily comprised an increase in trade and other receivables of approximately RMB18.9 million and an increase in inventories of approximately RMB6.8 million, partially offset by an increase in trade and other payables of approximately RMB12.1 million.

For the year ended December 31, 2022, our net cash used in operating activities amounted to approximately RMB43.7 million, which was primarily attributable to our loss before tax of approximately RMB99.1 million, as adjusted by (i) non-cash or non-operating items of changes in carrying amount of the redemption liabilities of approximately RMB69.4 million; and (ii) changes in working capital, which primarily comprised an increase in trade and other receivables of approximately RMB50.2 million and an increase in inventories of approximately RMB3.5 million, partially offset by an increase in trade and other payables of approximately RMB24.4 million.

For the year ended December 31, 2023, our net cash used in operating activities amounted to approximately RMB47.8 million, which was primarily attributable to our loss before tax of approximately RMB98.3 million, as adjusted by (i) non-cash or non-operating items of changes in carrying amount of the redemption liabilities of approximately RMB87.3 million; and (ii) changes in working capital, which primarily comprised an increase in trade and other receivables of approximately RMB22.5 million and an increase of inventories of approximately RMB6.9 million.

For the year ended December 31, 2024, our net cash used in operating activities amounted to approximately RMB18.4 million, which was primarily attributable to our loss before taxation of RMB66.4 million, as adjusted by (i) non-cash or non-operating items of (a) changes in carrying amount of the redemption liabilities of approximately RMB21.5 million, (b) financial cost of approximately RMB6.2 million, and (c) depreciation of property and equipment and right-of-use of approximately RMB7.1 million; and (ii) changes in working capital, which primarily comprised an decrease in trade and other receivables of RMB6.5 million and an increase in trade and other payables of approximately RMB4.6 million.

For the six months ended June 30, 2025, our net cash generated from operating activities amounted to approximately RMB43.7 million, which was primarily attributable to our loss before taxation of RMB24.6 million, as adjusted by (i) non-cash or non-operating items changes in carrying amount of the redemption liabilities of approximately RMB31.5 million; and (ii) changes in working capital, which primarily comprised a decrease in trade and other receivables of approximately RMB14.9 million and a decrease in inventories of approximately RMB10.9 million.

---

## FINANCIAL INFORMATION

---

Our net cash outflows from operating activities for the years ended December 31, 2021, 2022, 2023 and 2024 were primarily attributable to our losses for the same years. Our net cash outflows from operating activities for the years ended December 31, 2021, 2022 and 2023 were also partially attributable to our increases of receivables from certain major upstream sourcing partners, which are mainstream consumer electronic brands and their designated distributors. The increases in our receivables were primarily due to (i) the increase in promotion discounts that were offered to consumers by a mainstream consumer electronic brand but paid by us in advance, as a result of our strengthened strategic cooperation with such mainstream consumer electronic brand to expand our supply effort and trade-in transaction services; and (ii) the extension of settlement period between us and Consumer Electronic Brand A due to the change of its internal trade payable policies. Our receivables from Consumer Electronic Brand A (and its designated distributors) for the years ended December 31, 2021, 2022 and 2023 were approximately RMB13.6 million, RMB33.5 million and RMB48 million, respectively. For more details of our receivables from upstream sourcing partners, please refer to “Financial Information – Certain Items of Consolidated Statements of Financial Position – Trade and Other Receivables” in this document.

### *Net Cash Generated from/(Used in) Investing Activities*

Our cash inflow for investing activities primarily consisted of redemption of structured deposits and interest received from structured deposits. Our cash outflow for investing activities primarily consisted of placement of structured deposits and payment for purchase of equipments.

For the year ended December 31, 2021, our net cash generated from investing activities amounted to approximately RMB63,000, which was primarily due to our redemption of structured deposits of approximately RMB60 million and interest received from structured deposits of approximately RMB0.3 million. This cash inflow was partially offset by our replacement of structured deposits of approximately RMB60 million and payment for purchase of equipment for business expansion of approximately RMB0.2 million.

For the year ended December 31, 2022, our net cash used in investing activities amounted to approximately RMB1.8 million, which was primarily due to the purchases of financial assets measured at FVTPL of approximately RMB1 million and our purchases of equipment for business expansion of approximately RMB0.8 million.

For the year ended December 31, 2023, our net cash used in investing activities amounted to approximately RMB4.1 million, which was primarily due to our purchases of equipment for business expansion of approximately RMB4.1 million.

---

## FINANCIAL INFORMATION

---

For the year ended December 31, 2024, our net cash used in investing activities amounted to approximately RMB3.8 million, which was primarily due to our purchases of equipment for business expansion of approximately RMB4.6 million, which was partially offset by the interest received from structured deposits of approximately RMB0.7 million.

For the six months ended June 30, 2025, our net cash generated from investing activities amounted to approximately RMB0.3 million, which was primarily to our purchases of equipment for business expansion of approximately RMB0.3 million.

### *Net Cash Generated from Financing Activities*

Our cash inflow for financing activities primarily consisted of bank loans raised and proceeds from various rounds of [REDACTED] Investments completed during the Track Record Period and proceeds for bank loans and other borrowings. Our cash outflow for financing activities consists primarily of repayments and interest on bank loans and other borrowings and payment of [REDACTED] expenses.

For the year ended December 31, 2021, our net cash generated from financing activities amounted to approximately RMB38.7 million, which was primarily due to proceeds from our [REDACTED] Investors of approximately RMB50 million and proceeds for bank loans and other borrowings of approximately RMB15 million. This cash inflow was partially offset by our repayment of bank loans and other borrowings of approximately RMB23.1 million.

For the year ended December 31, 2022, our net cash generated from financing activities amounted to approximately RMB32.4 million, which was primarily due to proceeds from bank loans and other borrowings of approximately RMB31 million and proceeds from our [REDACTED] Investors of approximately RMB25.3 million. This cash inflow was partially offset by our repayment of bank loans and other borrowings of approximately RMB20 million.

For the year ended December 31, 2023, our net cash generated from financing activities amounted to approximately RMB87.9 million, which was primarily due to proceeds from our new bank loans and other borrowings of approximately RMB124 million. This cash inflow was partially offset by our repayment of bank loans and other borrowings of approximately RMB30 million.

For the year ended December 31, 2024, our net cash generated from financing activities amounted to approximately RMB35.9 million, which was primarily due to proceeds from investors of approximately RMB52.3 million. This cash inflow was partially offset by our interest on bank loans and other borrowings of approximately RMB5.9 million.

For the six months ended June 30, 2025, our net cash used in financing activities amounted to approximately RMB16.6 million, which was primarily due to net repayments of bank loans and other borrowings of RMB12.6 million.

## FINANCIAL INFORMATION

### Current Assets and Liabilities

The following table sets out a breakdown of our current assets and liabilities as of the dates indicated:

	As of December 31,				As of
	2021	2022	2023	2024	June 30, 2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000

	<u>350,961</u>	<u>491,030</u>	<u>850,230</u>	<u>928,831</u>	<u>952,512</u>
<b>Net current liabilities .....</b>	<u>(237,266)</u>	<u>(335,704)</u>	<u>(631,434)</u>	<u>(700,529)</u>	<u>(721,786)</u>

As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, we recorded net current liabilities of approximately RMB237.3 million, RMB335.7 million, RMB631.4 million, RMB700.5 million and RMB721.8 million, respectively. Our net current liabilities during the Track Record Period were primarily due to the increase in our redemption liabilities, which amounted to approximately RMB307 million, RMB376.4 million, RMB685.2 million, RMB759 million and RMB790.5 million as of the same dates, respectively, as a result of changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors. We expect that we would be able to turn our net current liabilities position into a net current asset position when the preferential rights of these preferred shares are terminated as a result of their automatic conversion into ordinary Shares upon [REDACTED], at which time we expect to reclassify them from liabilities to equity. For more details of our [REDACTED] Investments, please refer to “History, Reorganization and Corporate Structure – 5. [REDACTED] Investments” in this document. Please also refer to note 22 to our financial statements included in the Accountants’ Report in Appendix I to this document for more details of our redemption liabilities.

---

## FINANCIAL INFORMATION

---

In future, we will continue to monitor and improve our net current liabilities position as we will continue to maintain optimal inventory levels, strengthen control over management of credit terms and enhanced collection of receivables. We will also utilize other financial resources available to us, including the [REDACTED] from the [REDACTED], to lower our current liabilities.

Our net current liabilities increased from approximately RMB237.3 million as of December 31, 2021 to approximately RMB335.7 million as of December 31, 2022. This was primarily due to (i) an increase in our trade and other payables of approximately RMB50.6 million, primarily as a result of (a) the increase in payments received in advance from our customers for purchase of pre-owned consumer electronics on our Shanhui Youpin (閃回有品) online platform as our sale business continued to grow, and (b) the increase in other payables resulting from the subscription of Shares by one of our [REDACTED] Investors. For more details, please refer to “History, Reorganization and Corporate Structure – 4. Reorganization – 4.9 Subscription of Shares by Long Shining BVI” in this document; (ii) an increase in redemption liabilities of approximately RMB69.4 million resulting from subsequent measurement of redemption liabilities; (iii) a decrease of cash and cash equivalents of approximately RMB12.3 million; and (iv) an increase in our bank loans of approximately RMB11 million. The increase in our net current liabilities was partially offset by an increase in our trade and other receivables of approximately RMB49.3 million, primarily due to the increase in promotion discounts that were offered to consumers by certain mainstream consumer electronic brand but paid by us in advance as a result of our strengthened strategic cooperation with certain mainstream consumer electronic brands to expand our supply effort and trade-in transaction services.

Our net current liabilities increased from approximately RMB335.7 million as of December 31, 2022 to approximately RMB631.4 million as of December 31, 2023. This was primarily due to (i) an increase in our bank loans of approximately RMB94 million; and (ii) an increase in redemption liabilities of approximately RMB308.8 million resulting from subsequent measurement of redemption liabilities. The increase in our net current liabilities was partially offset by (i) an increase in our trade and other receivables of approximately RMB18.7 million, primarily due to (a) the increase in promotion discounts that were offered to consumers by certain consumer electronic brands but paid by us in advance as a result of our strengthened strategic cooperation with certain mainstream consumer electronic brand to extend our supply effort and trade-in transaction services, and (b) the increase in receivables from one of our upstream sourcing partners, which is a mainstream consumer electronic brand, as a result of the extension of its settlement period with us due to the change of its internal trade payable policies; (ii) an increase in cash and cash equivalents of approximately RMB36.3 million; and (iii) an increase in our inventories of approximately RMB8.6 million, primarily due to our increased inventories of pre-owned consumer electronics in delivery as a result of our increased sales.

---

## FINANCIAL INFORMATION

---

Our net current liabilities increased from approximately RMB631.4 million as of December 31, 2023 to RMB700.5 million as of December 31, 2024. This was primarily due to (i) an increase in redemption liabilities of approximately RMB73.8 million resulting from subsequent measurement of redemption liabilities; (ii) a decrease in our trade and other receivables of approximately RMB9.1 million; and (iii) an increase in our trade and other payables of approximately RMB4.3 million. The increase in our net current liabilities was partially offset by (i) an increase in cash and cash equivalents of approximately RMB14.1 million; and (ii) an increase in our restricted bank deposits of approximately RMB2.3 million. Our decreased trade and other receivables and increased cash and cash equivalents were mainly due to the reduced promotion discounts offered by Consumer Electronic Brand A (and its designated distributors) to trade-in consumers but paid by us in advance.

Our net current liabilities increased from approximately RMB700.5 million as of December 31, 2024 to RMB721.8 million as of June 30, 2025. The was primarily due to (i) an increase in redemption liabilities of approximately RMB31.5 million resulting from subsequent measurement of redemption liabilities; (ii) a decrease in trade and other receivables of RMB13 million as a result of our decreased amount due from Consumer Electronic Brand A; and (iii) a decrease in inventories of RMB11.2 million, partially offset by (i) an increase in cash and cash equivalents of RMB26.6 million; and (ii) a decrease in bank loans of RMB12.6 million.

We expect to improve our net current liabilities position, as (i) we will conduct strict inventory management to conduct regular inventory checks and promptly dispose of slow-moving and obsolete inventories to maintain optimal inventory levels; (ii) strengthen cost control and improve the management efficiency, such as conducting the comprehensive review of our various costs, from procurement to sales, to reduce the cost per unit of pre-owned consumer electronics or service and improve our profit margin; (iii) enhance the collection of trade receivables and conduct regular aging analysis of accounts receivable, focus on the items with a longer aging period, and take timely measures for those with potential bad debt risk; and (iv) we will be utilizing other financial resources available to us, including the [REDACTED] from the [REDACTED], our current cash and cash equivalents and our net cash flows from operating activities, which would lower our current liabilities by reducing current borrowings from banks and other financial institutions repayable within one year.

### Working Capital

As of June 30, 2025, being the latest practicable date for the purpose of indebtedness statement in this document, our bank loans, which were guaranteed, amounted to approximately RMB88.9 million. Our bank loans are primarily used to support our general working capital as our supply channels continue to expand and our sales business continues to grow. As of June 30, 2025, we had unutilized banking facilities of approximately RMB69.1 million.

## FINANCIAL INFORMATION

Our Directors are of the view that, and the Sole Sponsor concurs, after taking into consideration that (i) our cash and cash equivalents balance of approximately RMB119.8 million as of June 30, 2025; (ii) our business strategies and plans to improve our liquidity and profitability by driving our operating cash flow through our expanding business; (iii) our ability to raise money from renowned investors to finance our business as evidenced by various rounds of [REDACTED] Investments completed during the Track Record Period, especially, we had fully completed our Series D-1 [REDACTED] Investment on February 22, 2024; (iv) our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors would be terminated upon their automatic conversion into ordinary Shares upon [REDACTED]; (v) the financial resources available to us, including cash flows from our operations, banking facilities and our other borrowings as aforementioned; and (vi) estimated [REDACTED] from the [REDACTED], we have sufficient working capital for at least 12 months commencing from the date of this document.

In future, we will continue to closely monitor the level of our working capital, and diligently review our future cash flow requirements and adjust our operations and expansion plans, if necessary, to ensure that we maintain sufficient working capital to support our business operations.

### CERTAIN ITEMS OF CONSOLIDATED STATEMENTS OF FINANCIAL POSITION

#### Inventories

Our inventories primarily consist of pre-owned consumer electronics at storage, in transit and in delivery. The following table sets out the breakdown of our inventories as of the dates indicated:

	As of December 31,				As of June 30,
	2021	2022	2023	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Pre-owned consumer electronics .....	20,780	24,248	31,103	33,305	22,386
Less: provision.....	(2,362)	(2,136)	(419)	(551)	(828)
<b>Total:.....</b>	<b>18,418</b>	<b>22,112</b>	<b>30,684</b>	<b>32,754</b>	<b>21,558</b>

## FINANCIAL INFORMATION

Our inventories were approximately RMB18.4 million, RMB22.1 million, RMB30.7 million and RMB32.8 million as of December 31, 2021, 2022, 2023 and 2024. Such increases were primarily due to the growth of our sale of pre-owned consumer electronics coupled with our enhanced procurement capabilities as a result of us maintaining and expanding our upstream supply network. Our inventories were approximately RMB21.6 million as of June 30, 2025.

Pre-owned mobile phones have always been in short supply in the Chinese market and is estimated to continue to be so in the future. There are generally no shortage of purchasers of pre-owned mobile phones as there will always be a right buyer for any pre-owned mobile phone across the entire quality spectrum. As such, with our ability to obtain steady supply through our strategic cooperation with our upstream sourcing partners, we have secured an advantageous position in the pre-owned mobile phone sales market. Our processing time from inspection, grading and pricing for each consumer electronic device that is physically collected from our upstream sourcing partners to putting these devices on resale is approximately 24 hours, while that of our major competitors would typically take several days, according to Frost & Sullivan.

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our average inventory turnover days were approximately 8.4, 8.6, 8.9, 9.4 and 6.5 days, respectively. According to Frost & Sullivan, the average inventory turnover days for the industry typically ranged from 10 to 15 days. According to Frost & Sullivan, we managed to maintain our average inventory turnover days at a relatively lower level during the Track Record Period, primarily the reasons that the sale circulation of our procured pre-owned consumer electronics had been increasing as a result of operational efficiency. Nevertheless, we adjust our inventory management policy from time to time and closely monitor our inventory level to ensure sufficient stock to satisfy customer demand and avoid excessive stock at the same time.

The following table sets out our average inventory turnover days for the periods indicated:

	Year ended December 31,				Six months ended June 30,
	2021	2022	2023	2024	2025
Average inventory turnover days <sup>(1)</sup> ..	8.4	8.6	8.9	9.4	6.5

*Note:*

1. Average inventory turnover days equal to the average of the opening and closing balances of inventories of the relevant financial year/period divided by cost of sales of the relevant financial year/period and multiplied by the number of days in the relevant period, which is 365 days for a year and 182 days for a six-month period.

## FINANCIAL INFORMATION

The following table sets out the ageing analysis of our inventories as of the dates indicated based on the date of warehousing:

	As of December 31,				As of
					June 30,
	2021	2022	2023	2024	2025

### *Trade Receivables*

Our trade receivables primarily consisted of trade receivables from third parties and trade receivables from related parties. Our trade receivables from third parties were mainly related to receivables due from various third-party e-commerce platforms for our sale of pre-owned consumer electronics on such platforms and receivables due from customers for our offline sale. Our trade receivables from related parties were mainly related to the provision of our value-added and after-sale services to our related parties. All of our trade receivables from related parties were receivables in trade nature due from one of our upstream sourcing partners, which is a mainstream consumer electronic brand and became our related parties due to its [REDACTED] Investment into us. For more details, please refer to “History, Reorganization and Corporate Structure – 3. Our Group Structure and Corporate History – 3.1.4 Series A [REDACTED] Investments” in this document and “– Related Party Transactions” in this section.

Allowance was primarily related to our trade receivables due from a merchant customer, which is a sizable chain retailer that had a relatively longer credit period. We typically review the recovery status of our trade receivables from each customer on a case-by-case basis and maintain strict control over our outstanding receivables and overdue balances in order to minimize our credit risk. As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, our net trade receivables were approximately RMB6 million, RMB3.4 million, RMB6.8 million, RMB14.1 million and RMB10.7 million, respectively.

---

## FINANCIAL INFORMATION

---

### *Receivables from Upstream Sourcing Partners*

Our receivables from upstream sourcing partners consisted of receivables from third parties or related parties, both of which are mainstream consumer electronic brands and their designated distributors. During the Track Record Period, for procurement of pre-owned consumer electronics under our trade-in solution transaction services, apart from the recycling prices of the traded-in pre-owned consumer electronics we paid to the individual consumers, we also typically paid promotion discounts that were offered to individual consumers by certain consumer electronic brands in advance to facilitate the promotional sales of their new models of mobile phones transacted under our trade-in solution transaction services depending on the specific arrangement with such consumer electronic brands. After we completed our trade-in transaction services, the individual consumers would make the full payment for the new models of the consumer electronic devices they decide to purchase. We typically reconcile the accounts with these consumer electronic brands on a monthly basis and then get reimbursed of such promotion discount payments from them within three months. For more details of our supply channels and business arrangement with our major upstream sourcing partners, please refer to “Business – Our Supply Channels – Our Business Arrangements with Our Upstream Sourcing Partners” in this document.

As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, our net receivables from upstream sourcing partners were approximately RMB14.1 million, RMB35.6 million, RMB47.7 million, RMB28.7 million and RMB9.4 million, respectively. The increases in our receivables from upstream sourcing partners for the years ended December 31, 2021, 2022 and 2023 were primarily due to the increases in promotion discounts that were offered to consumers by Consumer Electronic Brands A and B (and their designated distributors) but paid by us in advance, as a result of our strengthened strategic cooperation with them to expand our supply effort and trade-in transaction services. The increase in our trade receivables for the year ended December 31, 2023 was also attributable to the increase in trade receivables from Consumer Electronic Brand A, as a result of the extension of its settlement period with us due to the change of its internal trade payable policies. The relatively lower balance of in our receivables from upstream sourcing partners as of December 31, 2024 and June 30, 2025 were primarily due to our decreased receivables from Consumer Electronic Brand A (and its designated distributors) as a result of our decreased procurement volume from their supply channels.

For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, the total promotion discounts that we paid to individual consumers in advance for upstream sourcing partners (and their designated distributors) amounted to approximately RMB112 million, RMB145.7 million, RMB262.4 million, RMB150.1 million and RMB56.1 million, respectively.

## FINANCIAL INFORMATION

The following table sets out the average turnover days of our receivables, which included our trade receivables and receivables from upstream sourcing partners for the periods indicated:

	Year ended December 31,				Six months ended June 30,
	2021	2022	2023	2024	2025
	Average turnover days of our receivables <sup>(1)</sup> .....	7.3	11.7	14.7	13.7

*Note:*

1. Average turnover days of our receivables, which included our trade receivables and receivables from upstream sourcing partners, equal to the average of the opening and closing balances of our receivables, which included our trade receivables and receivables from upstream sourcing partners for the relevant financial year/period, divided by revenue for the relevant financial year/period and multiplied by the number of days in the relevant period, which is 365 days for a year and 182 days for a six-month period.

---

## FINANCIAL INFORMATION

---

The average turnover days of our receivables increased from approximately 7.3 days for the year ended December 31, 2021 to approximately 11.7 days for the year ended December 31, 2022, further increased to approximately 14.7 days for the year ended December 31, 2023. The average turnover days of our receivables decreased to approximately 13.7 days for the year ended December 31, 2024 and further to approximately 7.1 days for the six months ended June 30, 2025, primarily attributable to the decreases in our receivables from Consumer Electronic Brand A (and its designated distributors) for the same periods.

### *Other Receivables*

Our other receivables primarily consisted of (i) our security deposit paid on various third-party e-commerce platforms in order to conduct our sale of pre-owned consumer electronics on such platforms; (ii) our security deposit paid to participate as a service provider of the centralized recycling platforms launched by various mainstream consumer electronic brands; and (iii) our security deposit paid for our rented properties related to offices and inspection and operation centers. As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, our other receivables were approximately RMB2.1 million, RMB3.1 million, RMB15.8 million, RMB15.8 million and RMB27.4 million, respectively.

### *Prepayments*

Our prepayments were primarily related to (i) our prepayments to certain consumer electronic brands for the procurement of pre-owned consumer electronics before delivery under our offline trade-in solution transaction services; and (ii) our prepayments made for certain corporate recycling. As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, our prepayments for purchase of inventories were approximately RMB11.9 million, RMB26.6 million, RMB13.9 million, RMB16.1 million and RMB22.3 million, respectively.

### *Amounts Due from Related Parties*

Our amount due from related parties amounted to approximately RMB4.5 million, RMB18.8 million, RMB19.4 million, RMB18.6 million and RMB10.2 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025.

Our amounts due from related parties in trade nature were primarily related to our security deposit made in advance for conducting our recycling service transactions in the retail stores and online mall of our related parties, which are also our upstream sourcing partners and a mainstream consumer electronic brand. We are typically required to top up to the agreed security deposit when the balance falls below a certain level. For more details of our business arrangements with our major upstream sourcing partners, please refer to “Business – Our Supply Channels – Our Business Arrangements with Our Upstream Sourcing Partners” in this document. Our amounts due from related parties in trade nature amounted to approximately RMB1.5 million, RMB15.1 million, RMB19.4 million, RMB13.3 million and RMB4.9 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively.

## FINANCIAL INFORMATION

Our amounts due from related parties in non-trade nature were related to personal loans provided to certain key management team members, some of whom are our Shareholders. Such personal loans amounted to approximately RMB3 million, RMB3.7 million, nil, RMB5.3 million and RMB5.3 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively, which will be fully settled prior to our [REDACTED].

### Trade and Other Payables

Our trade and other payables amounted to approximately RMB27 million, RMB77.6 million, RMB47.7 million, RMB52.1 million and RMB55 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively. The following table sets out a breakdown of our trade and other payables as of the dates indicated:

	As of December 31,				As of June 30,
	2021	2022	2023	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Trade payables					
– third parties.....	7,019	9,419	7,531	11,226	10,878
– related parties.....	2,162	1,161	901	3,016	4,534
Other payables and accrued charges					
– third parties.....	17,770	63,395	39,314	37,850	39,592
– related parties.....	–	3,600	–	–	–
<b>Total:.....</b>	<b>26,951</b>	<b>77,575</b>	<b>47,746</b>	<b>52,092</b>	<b>55,004</b>

### Trade Payables

As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, our trade payables were approximately RMB9.2 million, RMB10.6 million, RMB8.4 million, RMB14.2 million and RMB15.4 million, respectively. Our trade payables primarily represent payables due to our upstream sourcing partners during our procurement of pre-owned consumer electronics. Such trade payables primarily included our trade payables to third parties and to related parties in relation to our promotion service and commission fee payables to our certain upstream sourcing partners and/or their relevant front sales staff. During the Track Record Period, all of our trade payables to related parties were payables in trade nature due to one of our upstream sourcing partners, which is a mainstream consumer electronic brand and became our related party due to its [REDACTED] Investment into us. For more details, please refer to “History, Reorganization and Corporate Structure – 3. Our Group Structure and Corporate History – 3.1.4 Series A [REDACTED] Investments” in this document and “– Related Party Transactions” in this section.

## FINANCIAL INFORMATION

Our trade payables also included (i) our procurement payables to certain mainstream consumer electronic brand for their advanced payments on behalf of us to procure the pre-owned consumer electronics from individual consumers for our online trade-in solution transaction services conducted in its online mall; and (ii) logistics payables due to third-party logistic service providers for the transportation and delivery of our procured pre-owned consumer electronics.

The increase in our trade payables from approximately RMB9.2 million as of December 31, 2021 to approximately RMB10.6 million as of December 31, 2022 was primarily due to us strengthening strategic cooperation with our upstream sourcing partners, especially certain mainstream consumer electronic brands, to expand our supply effort. The decrease in our trade payables from approximately RMB10.6 million as of December 31, 2022 to approximately RMB8.4 million as of December 31, 2023 was primarily due to the reason that (i) our bargaining power in negotiating the promotion service fees with our upstream sourcing partners had gradually increased during the Track Record Period; and (ii) we have been continuously optimizing our commission fee structure to the front sale personnel of our upstream sourcing partners’ retail stores. The increase in our trade payables from approximately RMB8.4 million as of December 31, 2023 to approximately RMB14.2 million as of December 31, 2024, and further to approximately RMB15.4 million as of June 30, 2025, were in line with the growth of our trade-in recycling business for the same periods.

The following table sets out the ageing analysis of our trade payables as of the dates indicated:

	As of December 31,				As of
					June 30,
	2021	2022	2023	2024	2025
	<u>RMB'000</u>	<u>RMB'000</u>	<u>RMB'000</u>	<u>RMB'000</u>	<u>RMB'000</u>
1 – 60 days .....	8,863	5,196	5,794	9,248	8,041
61 – 120 days .....	210	4,550	1,630	2,454	2,362
121 to 180 days .....	39	147	420	1,881	1,217
Over 181 days.....	69	687	588	659	3,792
<b>Total:</b> .....	<b><u>9,181</u></b>	<b><u>10,580</u></b>	<b><u>8,432</u></b>	<b><u>14,242</u></b>	<b><u>15,412</u></b>

## FINANCIAL INFORMATION

The following table sets out the average turnover days of our trade payables for the periods indicated:

	Year ended December 31,				Six months ended June 30,
	2021	2022	2023	2024	2025
	Average turnover days of our trade payables <sup>(1)</sup> .	4.2	4.2	3.2	3.4

*Note:*

1. Trade payables turnover days for a year equals the average of opening and closing trade payables balance divided by cost of sales for the relevant year/period and multiplied by the number of days in the relevant period, which is 365 days for a year and 182 days for a six-month period.

The average turnover days of our trade payables was relatively stable for the years ended December 31, 2021 and 2022. The average turnover days of our trade payables decreased from approximately 4.2 days for the year ended December 31, 2022 to approximately 3.2 days for the year ended December 31, 2023, primarily the reason our trade payables of promotion services fees to certain of our upstream sourcing partners decreased for the same period as our bargaining power in negotiating the promotion service fees with such upstream sourcing partners had gradually increased. The average turnover days of our trade payables remained relatively stable at approximately 3.4 days for the year ended December 31, 2024 and 3.6 days for the six months ended June 30, 2025.

### *Other Payables and Accrued Charges*

The following table sets out a breakdown of our other payables as of the dates indicated:

	As of December 31,				As of June 30,
	2021	2022	2023	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Other payables .....	2,297	34,535	14,621	12,464	10,040
Advance received.....	5,346	21,345	14,670	13,249	17,708
Tax payables .....	3,906	2,395	4,507	5,043	4,623
Payroll and welfare payables .....	4,520	6,056	5,277	6,599	6,460
Other current liabilities .....	1,701	2,664	239	495	761
<b>Total:.....</b>	<b>17,770</b>	<b>66,995</b>	<b>39,314</b>	<b>37,850</b>	<b>39,592</b>

---

## FINANCIAL INFORMATION

---

Our other payables and accrued charges primarily consist of (i) other payables, which primarily consisted of (a) security deposit paid by our customers that were required by us in order to join different bidding modules on our Shanhui Youpin (閃回有品) online platform, (b) subscription of our Shares by a [REDACTED] Investor, and (c) the advance payables to Menggongyuan; (ii) advance received, which primarily represented payments received in advance from our customers for the purchase of our pre-owned consumer electronics; (iii) tax payables; (iv) payroll and welfare payables; and (v) other current liabilities. As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, our other payables and accrued charges were approximately RMB17.8 million, RMB67 million, RMB39.3 million, RMB37.9 million and RMB39.6 million, respectively.

The increase in our other payables and accrued charges from approximately RMB17.8 million as of December 31, 2021 to approximately RMB67 million as of December 31, 2022 was attributable to the increase in our other payables from approximately RMB2.3 million as of December 31, 2021 to approximately RMB34.5 million as of December 31, 2022, partially due to the reason that our sale business on our Shanhui Youpin (閃回有品) online platform continued to grow during the year. The increase in our other payables as of December 31, 2022 was also due to the subscription of Shares by one of our [REDACTED] Investors. For more details, please refer to “History, Reorganization and Corporate Structure – 4. Reorganization – 4.9 Subscription of Shares by Long Shining BVI” in this document. The increase in our other payables and accrued charges as of December 31, 2022 was also partially attributable to the increase in our advance received from approximately RMB5.3 million as of December 31, 2021 to approximately RMB21.3 million as of December 31, 2022.

The decrease in our other payables and accrued charges from approximately RMB67 million as of December 31, 2022 to approximately RMB39.3 million as of December 31, 2023 was primarily due to the decrease in our other payables and advance received from approximately RMB34.5 million and RMB21.3 million as of December 31, 2022, respectively to approximately RMB14.6 million and RMB14.7 million as of December 31, 2023, respectively.

The decrease in our other payables and accrued charges from approximately RMB39.3 million as of December 31, 2023 to approximately RMB37.9 million as of December 31, 2024 was primarily due to our decreased other payables from approximately RMB14.6 million as of December 31, 2023 to approximately RMB12.5 million as of December 31, 2024.

The increase in our other payables and accrued charges from approximately RMB37.9 million as of December 31, 2024 to approximately RMB39.6 million as of June 30, 2025 was primarily due to an increase in our advance received from approximately RMB13.2 million as of December 31, 2024 to RMB17.7 million as of June 30, 2025.

---

## FINANCIAL INFORMATION

---

### Contract Liabilities

Our contract liabilities primarily represented advance payments made by our customers for the purchases of our pre-owned consumer electronics before we deliver the same to them. We typically require the majority of our customers to pay in full for their purchases in advance, and our contract liabilities decrease when our revenue is recognized upon delivery of the goods. Our contract liabilities amounted to approximately RMB9.7 million, RMB9 million, RMB4.7 million, RMB9.2 million and RMB13.2 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively.

### Provision

Our provision was primarily related to our quality warranty and estimated costs related to litigation. Our provision amounted to approximately RMB0.9 million, RMB7 million, RMB1 million, RMB1 million and RMB1.2 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025. Our provision as of December 31, 2022 was primarily related to the provision of approximately RMB6 million we made for a lawsuit. For more details of this lawsuit, please refer to “Business – Legal Proceedings and Compliance” in this document.

### Redemption Liabilities

Historically, we granted preferential rights to certain [REDACTED] Investors in relation to our [REDACTED] Investments. As a result of such preferential rights, our Group’s obligation to redeem its shares for cash upon the occurrence of events that are beyond the control of both our Group and the holders give rise to a financial liability. Our redemption liabilities were initially measured at the present value of the redemption amount and subsequently any changes in the carrying amount of the redemption liabilities are recorded in “changes in carrying amount of the redemption liabilities” in the consolidated statements of profit or loss. For more details of our redemption liabilities, please refer to note 22 to our financial statements included in the Accountant’s Report in Appendix I to this document.

As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, we recorded redeemable liabilities of approximately RMB307 million, RMB376.4 million, RMB685.2 million, RMB759 million and RMB790.5 million, respectively.

### Derivative Financial Liabilities

As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, we recorded the options held by certain financial institutions as derivative financial liabilities at approximately RMB4.5 million, RMB8.1 million, RMB1 million, nil and nil, respectively. We recorded fair value loss in connection with derivative financial liabilities in our consolidated statements of profit or loss, amounting to approximately RMB2 million, RMB3.6 million for the years ended December 31, 2021, 2022, respectively. We recorded fair value gain of approximately RMB7.1 million for the year ended December 31, 2023. These amounts were also credited to our consolidated statements of financial position and thus resulted in fluctuated balance of such liability. We disposed derivative financial liabilities in January 2024.

---

## FINANCIAL INFORMATION

---

Our derivative financial liabilities are measured at fair value for financial reporting purposes. For more details of our fair value measurement, please refer to note 26(e) to our financial statements included in the Accountants' Report in Appendix I to this document.

Our Directors are satisfied with the valuation exercise for financial liabilities categorized as Level 3 financial instruments in the historical financial information for the Track Record Period as contained in the Accountants' Report set out in Appendix I to this document, after having (i) considered necessary financial and non-financial information so as to perform valuation procedures; (ii) reviewed the relevant agreements of derivative financial liabilities at FVTPL; (iii) reviewed the independent professional valuer's qualification and experience and the scope of work of the valuer's mandate before its engagement; (iv) discussed with the independent professional valuer, provided the valuer with all relevant information that might affect the valuation and reviewed the valuation methodologies and valuation report on which the valuation was based; (v) reviewed the valuation report prepared by the valuer regarding the fair value of the Level 3 financial liabilities; and (vi) discussed with the reporting accountants of our Company in respect of the key assumptions used in the valuation models.

### *Investment and Treasury Management Policies*

During the Track Record Period, we have implemented the following investment and treasury management policies:

- the purpose of our investment in wealth management products is to preserve the time value of our cash reserves and to fund our business of providing equity investment services;
- we only invest in low-risk wealth management products with reasonable guaranteed returns and diversify our investment portfolio to minimize risk exposure;
- we evaluate the risks related to the financial assets according to the risk assessment guidelines promulgated by the issuing licensed commercial banks;
- our finance department is responsible for the purchase and management of our wealth management products and evaluates their respective terms including, among others, liquidity, risk and expected return before submitting them to our chief financial officer for final decision; and
- we only invest when there is no short-term need of cash by our operating activities and when our cash reserves are abundant.

Going forward, we plan to strictly implement our investment and treasury management policies and, as part of our investment and treasury management, may purchase wealth management products that meet our criteria where we believe prudent after the [REDACTED]. After [REDACTED], our investments in these financial assets will be subject to compliance with Chapter 14 of the Listing Rules.

## FINANCIAL INFORMATION

### INDEBTEDNESS

#### Statement of Indebtedness

Our indebtedness during the Track Record Period consisted primarily of bank loans and lease liabilities. The following table sets out a breakdown of our indebtedness as of the dates indicated:

	As of December 31,				As of
	2021	2022	2023	2024	June 30,
	RMB'000	RMB'000	RMB'000	RMB'000	2025
<b>Non-current</b>					
Lease liabilities.....	654	1,689	5,491	678	51
	654	1,689	5,491	678	51
<b>Current</b>					
Bank loans .....	–	11,000	105,000	101,500	88,900
Lease liabilities.....	1,908	1,984	5,531	6,023	3,671
Redemption liabilities.....	307,003	376,386	685,213	759,024	790,544
<b>Total:.....</b>	<b>309,565</b>	<b>391,059</b>	<b>801,235</b>	<b>866,547</b>	<b>883,115</b>

#### Bank Loans

During the Track Record Period, our bank loans were on normal commercial terms with fixed and variable interest rates and are repayable within one year. The following table sets out the principal amounts of our bank loans as of the dates indicated:

	As of December 31,				As of
	2021	2022	2023	2024	June 30,
	RMB'000	RMB'000	RMB'000	RMB'000	2025
Within 1 year					
on demand .....	–	11,000	105,000	101,500	88,900

## FINANCIAL INFORMATION

Our bank loans were nil, approximately RMB11 million, RMB105 million, RMB101.5 and RMB88.9 million as of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively. During the Track Record Period, the nominal interest rates of our fixed rate bank loans generally ranged from approximately 3.50% to 4.45% per annum. Our bank loans were guaranteed or jointly guaranteed by related parties, including our chairman and executive Director, Mr. Liu, and his wife, Ms. Ao Huili. All guarantees provided by the related parties for our bank loans will be released upon our [REDACTED]. For more details, please also refer to note 19 to our financial statements included in the Accountants’ Report in Appendix I to this document.

As of June 30, 2025, being the latest practicable date for the purpose of indebtedness statement in this document, our bank loans amounted to approximately RMB88.9 million, and we had approximately RMB69.1 million of unutilized banking facilities. Our Directors confirm that there was no material covenant on any of our outstanding debt and there was no breach of any covenant during the Track Record Period and up to the Latest Practicable Date. Our Directors further confirm that our Group did not experience any difficulty in obtaining bank loans and other borrowings, default in payment of bank loans and other borrowings or breach of covenants from June 30, 2025, being the latest practicable date for the purpose of indebtedness statement in this document and up to the date of this document.

Save as aforesaid or otherwise disclosed herein, and apart from intra-group liabilities and normal trade payables in the normal course of business, as of June 30, 2025, we did not have any loan capital issue and outstanding or agreed to be issued, bank overdraft, borrowing or similar indebtedness, liabilities under acceptances (other than normal trade bills) or acceptable credits, debentures, mortgages, charges, higher purchases, or finance lease commitments, guarantees or other material contingent liabilities. Our Directors also confirm that there is no any material change in indebtedness since June 30, 2025 up to the date of document.

### Lease Liabilities

Lease liabilities represent the present value of outstanding lease payments under our lease agreements, which were unsecured and unguaranteed. The following table sets forth our lease liabilities as of the dates indicated:

	As of December 31,				As of June 30,
	2021	2022	2023	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
After 1 year but within 2 years .....	354	1,689	5,152	678	51
After 2 years but within 5 years .....	300	–	339	–	–
<b>Total:.....</b>	<b>2,562</b>	<b>3,673</b>	<b>11,022</b>	<b>6,701</b>	<b>3,722</b>

---

## FINANCIAL INFORMATION

---

As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, our lease liabilities were approximately RMB2.6 million, RMB3.7 million, RMB11 million, RMB6.7 million and RMB3.7 million, respectively. These lease liabilities were mainly related to lease contracts of our offices and inspection and operation centers. The increase in our lease liabilities as of December 31, 2023 was primarily due to that we entered into a new lease, and relocated our office and warehouse in Shenzhen in May 2023.

### Redemption Liabilities

Our Group’s contractual obligations to purchase its own shares/redeem its preferred shares for cash upon the occurrence of events that are beyond the control of both our Group and the holders give rise to financial liabilities.

The redemption liabilities are initially measured at the present value of the redemption amount. Subsequently, any changes in the carrying amount of the redemption liabilities are recorded in “changes in carrying amount of the redemption liabilities” in the consolidated statements of profit or loss.

Our Group derecognises the redemption liabilities when, and only when, our Group’s redemption obligations are discharged, cancelled, or have expired. When the redemption liabilities expire without exercise, the carrying amount of the redemption liabilities is reclassified to equity.

### CAPITAL EXPENDITURES AND COMMITMENTS

During the Track Record Period, we did not incur any material capital expenditures due to our assets-light business model.

### RELATED PARTY TRANSACTIONS

During the Track Record Period, we had entered into various transactions with entities controlled by one of our equity Shareholders, Shanghai Jiaozeng, which became our [REDACTED] Investor through Jinmi Investment in 2018. For more details, please refer to “History, Reorganization and Corporate Structure – 3. Our Group Structure and Corporate History – 3.1.4 Series A [REDACTED] Investments” in this document. These entities controlled by Shanghai Jiaozeng have been and will continue to be our upstream sourcing partners, which were a mainstream consumer electronic brand.

---

## FINANCIAL INFORMATION

---

### Receiving of Services and Procurement of Goods from Our Related Parties

During the Track Record Period, based on the arrangements with our upstream sourcing partners tailored to their specific conditions and needs, we typically paid an agreed percentage of the total monthly procurement value of the pre-owned consumer electronic device we procured as promotion service fees to them and/or commission fees to their relevant front sales staff. Further, leveraging our established position in the PRC mobile phone recycling service market and our deep and synergistic relationship with our various upstream sourcing partners, we have also become a regular processor of certain consumer electronic brands to handle their excess inventories, demonstration consumer electronics and/or other recycling requests of consumer electronics in bulk to satisfy the business needs of our upstream business partners.

### Rendering of Services and Sale of Goods to Our Related Parties

During the Track Record Period, we collaborated with our related parties to provide after-sale services to individual consumers, such as screen assurance services and value maintain and trade-in services, and other value-added services. We also handle some ad-hoc offline purchase requests of consumer electronics in bulk from our related parties, and procure and sell the same which meet the requirements to satisfy their business needs.

For more details of our business arrangement with our related parties, please refer to “Business – Our Supply Channels – Our Business Arrangements with Our Upstream Sourcing Partners” in this document.

All of our transactions entered into with our related parties during the Track Record Period were trade in nature and were conducted on an arm’s length basis. For the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, our receiving of services and purchases from these related parties amounted to a total of approximately RMB23.1 million, RMB18 million, RMB40.6 million, RMB42.2 million and RMB7.3 million, respectively, and our revenue generated from rendering of services to these related parties amounted to a total of approximately RMB1.8 million, RMB2 million, RMB1.6 million, RMB0.4 million and RMB0.1 million, respectively. For more details of our related party transactions, please refer to note 27(b) to the Accountants’ Report in Appendix I to this document.

### CONTINGENT LIABILITIES

As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, we had no material contingent liabilities. We are not involved in any current material legal proceedings, nor are we aware of any pending or potential material legal proceedings that involve our Group. If we were involved in such material legal proceedings, we would record any loss contingencies when, based on information then available, it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. Our Directors confirm that there had been no contingent liabilities of our Group since June 30, 2025 and up to the Latest Practicable Date.

## FINANCIAL INFORMATION

### KEY FINANCIAL RATIOS

	Year ended December 31,				Six months ended June 30,
	2021	2022	2023	2024	2025
Revenue growth rate <sup>(1)</sup> .....	48.8%	22.6%	26.0%	12.0%	40.3%
Gross profit margin <sup>(2)</sup> .....	8.2%	6.1%	6.8%	4.8%	6.3%
Net loss margin <sup>(3)</sup> .....	(6.5%)	(10.8%)	(8.5%)	(5.1%)	(3.0%)
Adjusted profit/(loss) margin (non-IFRS measure) <sup>(4)</sup> .....	1.0%	(2.4%)	(0.6%)	(2.4%)	1.3%

*Notes:*

1. Revenue growth rate represents the revenue for the current financial year/period less the revenue for the previous financial year/period divided by revenue for the previous financial year/period and multiplied by 100%;
2. Gross profit margin represents the gross profit for the financial year/period divided by the revenue for the financial year/period and multiplied by 100%;
3. Net loss margin represents the loss for the financial year/period divided by the revenue for the financial year/period and multiplied by 100%; and
4. Adjusted profit/(loss) margin (non-IFRS measure) represents the adjusted profit/loss (non-IFRS measure) for the financial year/period divided by the revenue for the financial year/period and multiplied by 100%.

### Revenue Growth Rate

Our revenue growth rate decreased from approximately 48.8% for the year ended December 31, 2021 to approximately 22.6% for the year ended December 31, 2022. Such decrease was primarily attributable to the COVID-19 pandemic in 2022 where our procurement and sale of pre-owned mobile phones were both, to a certain extent, affected. Our revenue growth rate increased to approximately 26% for the year ended December 31, 2023. Such increase was due to the recovery of our procurement and sale in 2023 after the pandemic. Our revenue growth rate decreased to approximately 12% for the year ended December 31, 2024. Such decrease was primarily attributable to an increasing competitive market environment and the challenging macroeconomic condition in the PRC for the same year, where the volume of pre-owned mobile phones recycled and subsequently sold by us were both decreased. Our revenue growth rate was 40.3% for the six months ended June 30, 2025. Such revenue growth rate was mainly due to (i) an increase in our sales volume of pre-owned mobile phones primarily as a result of our increased procurement volume of pre-owned mobile phones that we procured from the supply channels of our upstream sourcing partners for the six months ended June 30, 2025, especially Consumer Electronic Brands B and D and Vivo (and their designated distributors); and (ii) the increase in average selling price of pre-owned mobile phone sold for the same period.

---

## FINANCIAL INFORMATION

---

### Gross Profit Margin

Our gross profit margin decreased from approximately 8.2% for the year ended December 31, 2021 to approximately 6.1% for the year ended December 31, 2022, primarily attributable to the decreases in gross profit margins of both of our sale of pre-owned mobile phones and sale of other pre-owned consumer electronics from approximately 6.7% and 21.5%, respectively, to approximately 4.9% and 17.9%, respectively, for the same period. Such decreases were primarily due to (i) the decrease in gross profit margin of our sale of pre-owned consumer electronics procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) as a result of the peer competition resulting from the launch of its own centralized recycling platform in June 2022; and (ii) the relatively faster increase in our procurement cost of pre-owned consumer electronics for the year ended December 31, 2022 as compared to the increase in our sale of the same, as both markets of the consumer electronic recycling services and the second-hand consumer electronics got more competitive since COVID-19 pandemic.

Our gross profit margin increased to approximately 6.8% for the year ended December 31, 2023. Such increase was due to the increase in gross profit margin of our sale of pre-owned mobile phones from approximately 4.9% to 5.8% for the same period, which was attributable to (i) the increases in gross profit and gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands A and C (and their designate distributors) as a result of the recovery of our procurement and sale in 2023 after the pandemic; and (ii) the decrease in the cost of our promotion service and commission fees paid to certain of our upstream sourcing partners and/or the relevant front sales staff of their retail stores.

Our gross profit margin decreased from approximately 6.8% for the year ended December 31, 2023 to approximately 4.8% for the year ended December 31, 2024, primarily attributable to the decrease in gross profit margin of our sale of pre-owned mobile phones from approximately 5.8% to approximately 4.2% for the same period. Such decrease was primarily due to the decrease in gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brand B (and its designated distributors) for the same reason, aforesaid. In June 2022, Consumer Electronic Brand B launched its own recycling platform and engaged a few mobile phone recycling service providers to provide recycling services under such recycling platform. As a result, in order to secure the procurement volume and market shares from the supply channels of Consumer Electronic Brand B (and its designated distributors), we had to generally raise the recycling prices to compete with its other service providers, which in turn, caused low gross profit and gross profit margin of our sale of pre-owned mobile phones procured through its supply channels. The decrease in our gross profit margin for the year ended December 31, 2024 was also due to the increase in our procurement cost of pre-owned mobile phones, which in turn, attributable to our increase in recycling more of mid-to-high-end pre-owned mobile phones that were typically released in the last few years and generally had higher trade-in prices because of the increased trade-in promotional activities conducted by some of our upstream sourcing partners on specific mobile phone models. While we were not able to fully transfer our procurement cost (largely, the increase in promotion services and commission fees) of pre-owned consumer electronics to our customers as the majority of our customers during the Track Record Period were merchant customers and the selling prices of second-hand mobile phones to them were relatively market driven and competitive, which in turn, led to a decrease in our gross profit margin for the same period.

---

## FINANCIAL INFORMATION

---

Our gross profit margin was 6.3% for the six months ended June 30, 2025. Such gross profit margin was mainly due to (i) the increase in gross profit margin of our sale of pre-owned mobile phones procured through the supply channels of Consumer Electronic Brands B (and its designated distributors), primarily due to the decrease of commission fees paid to the sales staff of retail stores of Consumer Electronic Brand B as a result of our deepened business collaboration with them and its internal adjustment of fee policy; (ii) the increase in gross profit margin of our sale of consumer electronics through offline sale procured through corporate recycling, primarily as a result of our business collaboration with a new upstream business partner, which is a designated distributor of Consumer Electronic Brand F; and (iii) the general increases in gross profit margins of our sale of pre-owned mobile phones procured through the supply channels of some other mainstream consumer electronic brands as we had been actively staying informed about the market trend of the expected supply and demand and recycling and selling prices offered by our peer competitors to adjust our pricings in real-time, which in turn, minimize the impact of our ineffective pricing and at the same time, improve our overall gross profit margin.

### **Net Loss Margin**

Our net loss margin increased from approximately 6.5% for the year ended December 31, 2021 to approximately 10.8% for the year ended December 31, 2022, primarily due to the decrease in our gross profit margin from approximately 8.2% to approximately 6.1% for the same period. Our net loss margin decreased to approximately 8.5% for the year ended December 31, 2023, primarily due to the increase in our gross profit margin to approximately 6.8% for the same period. Our net loss margin further decreased to approximately 5.1% for the year ended December 31, 2024 and 3.0% for the six months ended June 30, 2025. Our net loss margins during the Track Record Period were due to our losses during the Track Record Period. In addition, our losses for the years ended December 31, 2021, 2022, 2023, 2024 and the six months ended June 30, 2025 were partially attributable to the changes in carrying amount of the redemption liabilities of RMB46.1 million, RMB69.4 million, RMB87.3 million, RMB21.5 million and RMB31.5 million for the same periods, which represented the amount of changes in our redemption obligations arising from the preferential rights granted to our [REDACTED] Investors.

### **Adjusted Profit/(Loss) Margin (Non-IFRS Measure)**

We recorded adjusted profit margin (non-IFRS measure) of approximately 1% for the year ended December 31, 2021. We recorded adjusted loss margin (non-IFRS measure) of approximately 2.4% for the year ended December 31, 2022, primarily due to the decrease in our gross profit margin for the year ended December 31, 2022. Our adjusted loss margin (non-IFRS measure) for the year ended December 31, 2023 decreased to approximately 0.6% as our business recovered and continued to grow after the pandemic. We recorded adjusted loss margin (non-IFRS measure) of approximately 2.6% for the year ended December 31, 2024, primarily due to the decrease in our gross profit margin for the period. We recorded adjusted profit margin (non-IFRS measure) of approximately 1.3% for the six months ended June 30, 2025 primarily because our gross profit increased for the six months ended June 30, 2025 due to increased sales volume and improved gross profit margin.

---

## FINANCIAL INFORMATION

---

### OFF-BALANCE SHEET COMMITMENTS AND ARRANGEMENTS

As of the Latest Practicable Date, we had not entered into any off-balance sheet transactions.

### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various types of market risks in the ordinary course of our business, including credit risks, liquidity risks, interest rate risks and currency risks. We manage our exposure to these and other market risks through regular operating and financial activities. For more details, please refer to note 26 of Appendix I to this document.

#### **Credit Risk**

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group’s credit risk is primarily attributable to trade receivables, receivables from upstream sourcing partners, other receivables and cash and cash equivalents.

The Group’s exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are mainly banks and financial institutions with high credit rating.

The Group is not exposed to significant credit risk from sales of pre-owned electronic products as the Group usually requires payments in advance before delivery.

#### ***Trade receivables***

The Group has established a credit risk management policy under which individual credit evaluations are performed on all customers requiring credit over a certain amount. The Group’s exposure to credit risk is mainly attributable to trade receivables related merchant customers. As of December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, approximately 81.5%, 92.5%, 80.4%, 64.3% and 60.4% of the trade receivables, respectively, was due from the Group’s top five customers.

#### ***Receivables from upstream sourcing partners***

The upstream sourcing partners offers promotion discounts to individual consumers which were paid by us in advance under our trade-in solution transaction services. We usually get reimbursed of such promotion discounts from our upstream sourcing partners within three months after we reconcile the accounts with them. We considered the credit risk exposure arising from the receivables from our upstream sourcing partners to be insignificant since the counterparties have strong financial capacity to meet their contractual cash flow obligations in the near term. The expected credit losses on these receivables are insignificant.

---

## FINANCIAL INFORMATION

---

### Liquidity Risk

Our Group’s policy is to regularly monitor our liquidity requirements and our compliance with lending covenants, to ensure that our Group maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet our liquidity requirements in the short and longer term. Historically, our Group has relied principally on both operational sources of cash and non-operational sources of equity and debt financing to fund our operations and business development. For more details, please refer to note 26(b) of Appendix I to this document.

Considered historical cash requirements, working capital and capital expenditures plans, estimated cash flows provided by operations, existing cash on hand, as well as other key factors, including utilization of credit facilities granted by financial institutions. Our management believes the assumptions used in the cash forecast are reasonable.

### Interest Rate Risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group’s interest rate risk arises primarily from short-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk.

### Currency Risk

Our Group is not exposed to significant foreign currency risk since financial assets and liabilities denominated in currencies other than the functional currencies of our Company and our subsidiaries are not significant.

### DISTRIBUTABLE RESERVES

As of June 30, 2025, we did not have distributable reserves for distribution to our equity holders.

### [REDACTED] EXPENSES

[REDACTED] expenses represent professional fees, [REDACTED], and other fees incurred in connection with the [REDACTED]. Assuming an [REDACTED] of HK\$[REDACTED] per [REDACTED] (being the mid-point of the [REDACTED] range stated in this document), [REDACTED] expenses and [REDACTED] costs to be borne by us are estimated to be approximately HK\$[REDACTED] (including (i) [REDACTED] of approximately HK\$[REDACTED], and (ii) [REDACTED] of approximately [REDACTED] million, which consist of fees and expenses of the legal advisors and reporting accountants of our Company of approximately HK\$[REDACTED] and other fees and expenses of approximately HK\$[REDACTED]), assuming the [REDACTED] is not exercised and no shares are issued pursuant to the Share Option Scheme. During the Track Record Period, we incurred [REDACTED] expenses of approximately RMB[REDACTED], RMB[REDACTED], RMB[REDACTED], RMB[REDACTED] and RMB[REDACTED],

## FINANCIAL INFORMATION

---

which were recognized in our consolidated statements of profit and loss for the year ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, respectively, and approximately RMB[REDACTED] were recognized as prepayments in our consolidated statements of financial position as of June 30, 2025, which will be accounted for as a deduction from equity upon [REDACTED]. Subsequent to the Track Record Period, approximately RMB[REDACTED] (equivalent to approximately HK\$[REDACTED]) is expected to be charged to our consolidated statements of profit or loss, approximately RMB[REDACTED] (equivalent to approximately HK\$[REDACTED]) is expected to be accounted for as a deduction from equity upon [REDACTED]. The [REDACTED] expenses are expected to account for [REDACTED]% of [REDACTED] generated from the [REDACTED]. The [REDACTED] expenses and [REDACTED] costs above are the latest practicable estimate for reference only, and the actual amount may differ from this estimate.

### NO DIVIDEND POLICY

During the Track Record Period and up to the Latest Practicable Date, we had not distributed any dividends to the then equity holders of our Group, and we currently do not have dividend policy. In future, our Board may declare dividends after taking into account our results of operations, financial condition, cash requirements and availability and other factors as it may deem relevant at such time. Any declaration and payment, as well as the amount of dividends, will be subject to our constitutional documents and the Cayman Companies Act. Under the Cayman Islands law, our Company may pay a dividend out of either profit or, with the sanction of an ordinary resolution, share premium account, provided that in no circumstances may a dividend be paid if this would result in our Company being unable to pay its debts as they fall due in the ordinary course of business. In addition, our Directors may from time to time pay such interim dividends on shares outstanding of our Company and authorize payment of the same out of the funds of our Company that are lawfully available. Our future declarations of dividends may or may not reflect our historical declarations of dividends and will be at the discretion of our Board.

As advised by our Cayman Legal counsel, under the Cayman Companies Act, a Cayman Islands company may pay a dividend out of profits and/or share premium account, provided that in no circumstances may a dividend be paid out of share premium if this would result in the company being unable to pay its debts as they fall due in the ordinary course of business. Accordingly, notwithstanding that our Company had accumulated losses, our Company should be able to declare a dividend out of our share premium if the payment of such dividend would not result in our Company being unable to pay our debts as they fall due in the ordinary course of business.

### DISCLOSURE REQUIRED UNDER CHAPTER 13 OF THE LISTING RULES

Our Directors confirm that, as of the Latest Practicable Date, there were no circumstances which, had we been required to comply with Rules 13.13 to 13.19 in Chapter 13 of the Listing Rules, would give rise to the disclosure requirements under Rules 13.13 to 13.19 of the Listing Rules.

---

## FINANCIAL INFORMATION

---

### NO MATERIAL ADVERSE CHANGE

After performing sufficient due diligence work which our Directors consider appropriate and after due and careful consideration, our Directors confirm that, up to the date of this document, there had been no material adverse change in our financial or trading position since June 30, 2025, being the end date of the periods reported in the Accountants’ Report in Appendix I to this document, and there has been no event since June 30, 2025 which would materially affect the information shown in the Accountants’ Report in Appendix I to this document.

### UNAUDITED [REDACTED] STATEMENT OF ADJUSTED CONSOLIDATED NET TANGIBLE ASSETS

The following unaudited [REDACTED] statement of adjusted consolidated net tangible assets of our Group prepared in accordance with Rule 4.29 of the Listing Rules is to illustrate the effect of the [REDACTED] on the consolidated net tangible liabilities attributable to owners of our Company as if the [REDACTED] had been completed on June 30, 2025.

[REDACTED]

## FINANCIAL INFORMATION

---

[REDACTED]

---

## FUTURE PLANS AND [REDACTED]

---

### FUTURE PLANS

Please refer to “Business – Our Strategies” in this document for a detailed discussion of our future plans.

[REDACTED]

We estimate that the aggregate [REDACTED] of the [REDACTED] to be received by us (after deducting [REDACTED] and estimated expenses payable by us in connection with the [REDACTED], and assuming an [REDACTED] of HK\$[REDACTED] per [REDACTED], being the mid-point of the indicative [REDACTED] range of HK\$[REDACTED] to HK\$[REDACTED] per [REDACTED]) will be approximately HK\$[REDACTED], assuming that the [REDACTED] is not exercised. We currently intend to apply such [REDACTED] in the following manner:

- approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to further increase our technology, research and development efforts and upgrade our infrastructure to continue to empower our business offerings and operational efficiency, with detailed breakdown of the [REDACTED] to be allocated as below:
  - (i) approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to further strengthen our technology, research and development capabilities. Since pre-owned mobile phones are non-standard items with no uniformed market price, and grading and pricing them manually is incapable of achieving a high level of accuracy, we will continue to upgrade and iterate our existing inspection, testing and grading technologies. In doing so, we plan to spend approximately HK\$[REDACTED] to upgrade the inspection hardware and testing and grading functionalities of our Shanhuishou (閃回收) recycling system with more AI capabilities so that we can better analyze the data insight we collect from thousands of pre-owned consumer electronics and millions of transactions, which includes historical recycling and sales data, competitors’ performance, our various transaction costs for procurement and sale, future demand of the second-hand consumer electronic market and our expected profit margin. We believe this can further strengthen our competitive advantage in inspecting and pricing pre-owned consumer electronics accurately and speedily, which has been and will continue to differentiate us from our competitors and serves as an important growth engine. On the other hand, we intend to invest more into the infrastructure of our Shanhui Youpin (閃回有品) online platform and the associated mobile application by continuously upgrading and iterating our existing software and hardware equipment, and to design, develop and launch new business modules with comprehensive functionalities to support the increasing needs of our business services and, at the same time, enhance users’ experiences. In particular, we will upgrade the functionalities of our Shanhui Youpin (閃回有品) online platform by adding more AI capabilities to better match the needs of our customers with our inventories, send recommendations automatically to our

---

## FUTURE PLANS AND [REDACTED]

---

customers based on their historical preferences and increase the accuracy of its search engine. Internally, we will continue to upgrade our management and information system, BOSS System, to support our Group’s digital management and improve our overall operational efficiency. In particular, we plan to spend approximately HK\$[REDACTED] to upgrade and increase the number of servers that we currently rent to increase the data storage, improve the efficiency in processing data and enhance the data security of our BOSS System. For the coming three years ending December 31, 2027, in order to support the upgrades of our Shanhuishou (閃回收) recycling system, Shanhui Youpin (閃回有品) online platform and BOSS System, we plan to spend approximately [REDACTED] million to recruit a total of 41 technology and development personnel to support our above future technology, research and development efforts. Such personnel primarily include programming development engineers, web front-end development engineers and AI algorithmic engineers. We believe that with our proprietary recycling and sale platforms supported by our BOSS System, we will be able to provide a more digitalized and industrial solutions for all the participants in the consumer electronics trade-in-and-resale services; and

- (ii) approximately [REDACTED]%, or approximately HK\$[REDACTED], will be used to upgrade and/or enlarge our existing inspection and operation centers to eventually form our own supply chain network equipped with functionalities of collection, inspection and grading, repair and maintenance, and sales and distribution. Pre-owned mobile phones recycled and resold with better repair and maintenance services rendered, such as replacement of external display screen or change of battery, generally see better demand from customers and typically have higher prices and profit margins. Therefore, we intend to spend approximately HK\$[REDACTED] to purchase and/or upgrade the hardware equipment of our maintenance and repairment division, for instance, screen removal machines, polishing machines and multi-meters, and also spend approximately HK\$[REDACTED] to recruit a total of 15 maintenance and repairment staff members during the coming three years ending December 31, 2027. We believe this will enrich our supply of mid-to-high-end pre-owned consumer electronics with better selling prices, which will in turn, contribute to a higher profit margin. In addition, we also plan to upgrade all of our existing inspection and operation centers in Shenzhen, Chengdu, Sichuan province, Zhengzhou, Henan province and Anji, Zhejiang province. During the Track Record Period, an increasing percentage of our revenue was derived from the sale of pre-owned mobile phones through our real-time open bidding module on Shanhui Youpin (閃回有品) online platform, where under most circumstances, no additional inspection would be conducted before delivering such devices to the successful bidder. However, these devices were still delivered to our inspection and operation center first before shipped out to the successful bidder, and as such, must go through the organizing, sorting, packing process which would benefit from the upgrading of our hardware and equipment in our existing inspection and operation centers. We plan to spend

---

## FUTURE PLANS AND [REDACTED]

---

approximately HK\$[REDACTED] in each of these four inspection and operation centers to purchase and/or upgrade certain equipment, for instance, smart shelves and automatic packing machines. For the coming three years ending December 31, 2027, we also intend to spend approximately HK\$[REDACTED] to recruit four receiving and packing staff and six quality inspectors for each of our Chengdu, Zhengzhou, Anji and Shenzhen inspection and operation centers to support the expansion of the aforementioned inspection and operation centers. We expect these centers would better facilitate the efficient collection, inspection and grading, repairment and maintenance, and further sales and distribution of our pre-owned consumer electronics procured, which in turn, help us to strengthen our service coverage, increase our inventory turnover and improve our operational efficiency.

- approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to further enhance our strategic cooperation with our upstream sourcing partners to continuously strengthen our current position in the PRC offline trade-in mobile phone recycling service market and to expand our transaction service into Hong Kong and other Southeast Asian countries, with detailed breakdown of the [REDACTED] to be allocated as below:
  - (i) approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used as our advance payments and/or security deposits to Consumer Electronic Brand A and/or Consumer Electronic Brand B for our trade-in solutions. Pursuant to our business arrangements with Consumer Electronic Brand A and/or Consumer Electronic Brand B, we are required (i) to pay promotion discounts that were offered to individual consumers by them in advance to facilitate the promotional sales of their new models of mobile phones transacted under our trade-in solution; or (ii) to make security deposit in advance for conducting our recycling service transactions, in their retail stores and online mall. For more details, please refer to “Business – Our Supply Channels – Our Business Arrangements with Upstream Sourcing Partners” and “Financial Information – Certain Items of Consolidated Statements of Financial Position – Trade and Other Receivables” in this document. Because of our such business arrangements with Consumer Electronic Brand A and Consumer Electronic Brand B, we plan to reserve some liquidity to fund our cash flow needs, which is key to our further business expansion and collaboration with our existing and future upstream sourcing partners;
  - (ii) approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to continue to steadily expand and deepen our strategic and all-around cooperation with our existing upstream sourcing partners by further extending our offline trade-in recycling services to more of their retail stores in the PRC, and at the same time, aiming to obtain a more stable and desirable supply of quality pre-owned consumer electronics. During the Track Record Period, the aggregate number of retail stores operated by our upstream sourcing partners

---

## FUTURE PLANS AND [REDACTED]

---

which we had entered into business cooperation with were over 75,000 stores. According to Frost & Sullivan, as of the Latest Practicable Date, the aggregate number of branded retail stores of our key upstream sourcing partners (including seven mainstream consumer electronic brands and/or their designated distributors, four large mobile network operators and various sizable merchants) exceeded one million stores in the PRC. With the establishment of our new strategic cooperation with the three designated distributors of Consumer Electronic Brand F in June 2024, we believe that there remains a tremendous market for us to develop. Even though the market competition of the consumer electronics recycling industry will be intensified, we will continue to put effort and investment in maintaining and better serving our existing upstream sourcing partners and their retail stores, and further nurturing our offline trade-in transaction services by actively promoting our trade-in solutions in the retail stores of our upstream sourcing partners. We particularly intend to actively visit, regularly discuss and enter into new strategic initiatives and collaboration arrangement with our existing upstream sourcing partners to activate and commence recycling business with those retail stores of our upstream sourcing partners which had initially agreed to enter into collaboration with us but had not conducted any trade-in recycling transaction services during the Track Record Period.

In addition, we also intend to step up our efforts to collaborate with the large mobile network operators in the PRC to promote our pre-owned mobile phone recycling services. In February 2024, the General Office of the State Council issued the Opinions on Accelerating the Construction of a Waste Recycling System (《關於加快構建廢棄物循環利用體系的意見》) which, among others, calls for the standardization of trading activities in connection with second-hand goods and encourages the development of the “internet & second-hand” business model. We believe that we possess the first-mover advantage as we have already established cooperation with the four largest mobile network operators in the PRC in providing recycling services of their pre-owned mobile phones since 2017. Moreover, in May and June 2024, we were further successfully shortlisted by two of the major mobile network operators to provide trade-in transaction services and respectively entered into a two-year and a one-year cooperation agreement with them.

To support our above future plans, apart from the regular cost to be incurred for business operation, we intend to particularly spend approximately HK\$[REDACTED] in total to set up and operate branch office in each of Liaoning province, Hebei province and Guangdong province, and spend approximately HK\$[REDACTED] to recruit 49, 43 and 43 sales personnel for the coming three years ending December 31, 2025, 2026 and 2027, respectively, to further strengthen and expand our cooperative relationship with the existing and potential upstream sourcing partners. We plan to set up a branch office in Shenyang City, Liaoning province to cover the Northeast

---

## FUTURE PLANS AND [REDACTED]

---

China region. As of June 30, 2025, the number of our existing upstream sourcing partners and their retail stores in Liaoning, Heilongjiang and Jilin provinces were 212 and 240, 145 and 1,900 and 1,871 and 1,259, respectively, and we currently do not have any branch office or inspection and operation center in Northeast China. We also plan to set up a branch office in Shijiazhuang City, Hebei province to further strengthen and improve our service coverage in the Northern China region, together with our branch office in Beijing and inspection and operation center in Zhengzhou, Henan province. As of June 30, 2025, the number of our upstream sourcing partners and their retail stores in Hebei province were 362 and 3,627, respectively. Furthermore, we also plan to set up a branch office in Guangzhou City, Guangdong province to further strengthen and improve our service coverage in the north of Guangdong province and further to Guangxi, Hunan and Jiangxi provinces, together with our headquarters in Shenzhen. As of June 30, 2025 the number of our upstream sourcing partners and their retail stores in Guangdong province were 637 and 8,351, respectively. We believe that by setting up these three new branch offices will improve our business efficiency and enable our sales personnel to actively visit retail stores of our existing and/or potential upstream sourcing partners, facilitate in the establishment and maintenance of our cooperative relationship with their retail stores and provide after-sale services to key upstream sourcing partners, and introduce and promote our trade-in service solution offerings. These newly recruited personnel will also be responsible for providing continuous training to the front sales staff enabling them to process trade-in transactions with our Shanhuishou (閃回收) recycling system; and

- (iii) approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to develop and solidify our offline trade-in mobile phone recycling service capability in Hong Kong. Driven by the strong demands of certain mainstream consumer electronic brands we partner with, we plan to further deepen our partnership with them by supporting them and extending our offline trade-in recycling services to Hong Kong to facilitate their local business development. In October 2023, we successfully obtained Radio Dealers Licence (Unrestricted) (無線電商牌照) in Hong Kong. We also commenced to provide offline trade-in recycling transaction service in Hong Kong since November 2023 for Consumer Electronic Brand B, and sell the same through our local sales channel. Furthermore, we joined Consumer Electronic Brand B as its strategic business partner to visit Singapore, Malaysia, Thailand and Indonesia in July 2024, and conducted market research in these local markets. We then subsequently incorporated PT Shanhui in February 2025. As such, we intend to recruit more personnel to further develop and solidify our trade-in mobile phone recycling service capability in Hong Kong, and make it our overseas headquarters for our future expansion of trade-in transaction services in other Southeast Asian countries. In near future, we plan to spend

---

## FUTURE PLANS AND [REDACTED]

---

approximately HK\$[REDACTED] during the coming three years ending December 31, 2027 to recruit 15 personnel in total to expand both of our recycling and sales team in Hong Kong;

- approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to increase our marketing and promotion efforts to raise our brand profile, explore sales channels that have more market potential to steadily increase our sales, and further enhance our profit margin and transaction efficiency, with detailed breakdown of the [REDACTED] to be allocated as below:
  - (i) approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to further promote our Shanhui Youpin (閃回有品) online platform, with an aim to grow it to a recognized brand and a trusted pre-owned consumer electronics integrated platform, with the capabilities of providing online consumer electronics recycling and trading services that enables consumers to sell and purchase pre-owned consumer electronics with ease and convenience. In order to achieve that, apart from the effort we are going to put on our technology, research and development capabilities to improve the infrastructure and the hardware and software of our Shanhui Youpin (閃回有品) online platform and the associated mobile application as aforementioned, we intend to further invest on our promotional and marketing efforts to grow our brand awareness and improve our publicity and market position. As such, we intend to increase our budget and spend approximately HK\$[REDACTED] in total during the coming three years ending December 31, 2027 on placement of both online and offline marketing and advertisement, such as billboards, advertising light boxes and web banners, to enhance our profile and promote our pre-owned consumer electronics recycling and trading services on various second-hand markets. We also intend to strengthen and maintain long-term business relationships with our existing major customers and explore new cooperative relationships with potential buyers of various types of pre-owned consumer electronics in the downstream second-hand market. In doing so, we plan to hold more seminars and events in Shenzhen and invite both of our existing and potential customers to attend and exchange ideas, and at the same time, raise our profile. We also plan to spend approximately HK\$[REDACTED] to recruit a total of 40 experienced sale personnel during the coming three years ending December 31, 2027, to assist on our marketing and promotion efforts to grow our brand awareness and strengthen our influence and to provide more comprehensive and timely after-sale services to our major customers. Such sales personnel shall also be responsible for collecting market information and analyzing the marketing activities of our competitors, making and implementing plans to promote sales on our Shanhui Youpin (閃回有品) online platform, and exploring and developing our customer base and eventually increasing our sales on Shanhui Youpin (閃回有品) online platform; and

---

## FUTURE PLANS AND [REDACTED]

---

- (ii) approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used to further tap into the great market potential in the PRC live-streaming platforms and other third-party e-commerce platforms. We intend to spend approximately HK\$[REDACTED] on marketing and promoting our brand and increasing web traffic in order to accurately target potential individual customers and boost the number of active buyers on these live-streaming platforms. We will also continue to explore conducting sale of pre-owned mobile phones through publishing promotional contents and video clips on live-streaming platforms targeted at different end users. Further, we also plan to deepen our cooperation with various third-party e-commerce platforms and set up more of our own online stores on these platforms to be focused on selling mid-to-high-end pre-owned mobile phones.

In order to improve the quality and attractiveness of our contents and videos and to boost of our sales on various live-streaming and other e-commerce platforms, we intend to spend approximately HK\$[REDACTED] to recruit a total of 39 experienced personnel in the field of e-commerce operation, including two livestream operators, nine popular live-streamers, five short video scripting, filming and editing personnel, nine live broadcast controllers, two e-commerce trading and pricing managers, and twelve customer service staff members during the coming three years ending December 31, 2027. Some of these personnel will also be assisting on setting up our online stores on various third-party e-commerce platforms to conduct sale by publishing promotional contents and video clips on livestreaming platforms, designing and implementing sales strategies of our online stores on third-party e-commerce platforms, and providing after-sale services to our customers on these platforms. Live broadcast controller is also responsible for coordinating the live-streamers and preparing the live broadcast and managing the orders placed during the live broadcast.

- approximately [REDACTED]%, or HK\$[REDACTED] million, is expected to be used for strategic investments and/or acquisitions in businesses which offer products and/or services that are supplemental to those which we currently offer and match our growth strategies. As of the Latest Practicable Date, we had no commitments or agreements to enter into any acquisitions or investments.

We have identified the following preliminary criteria of potential acquisition targets: (i) the target should possess established business operations and network in the PRC consumer electronics trade-in service market; (ii) the target’s business should generate strong synergies with our business operations. In particular, companies engaged in the sale of complimentary products, including other consumer electronic products, such as laptops, PC tablets, phone accessories and other digital products, or provision of consumer electronic related value-added services will be our main potential acquisition targets in order to expand our business offerings; and (iii) the investment or acquisition should help us improve our overall competitiveness and profitability in the pre-owned consumer electronics transaction market.

---

## FUTURE PLANS AND [REDACTED]

---

According to Frost & Sullivan, the industry of our potential acquisition targets is fragmented, and the number of possible targets that meet our preliminary selection criteria could be over 100. We believe there are sufficient number of potential targets that meet the above criteria in the market. As of the Latest Practicable Date, we had not identified any target to invest or acquire. In the case that we identify any potential target and our expected use of [REDACTED] are insufficient to cover the investment or acquisition costs, we would actively seek for other means of financing, such as banking facilities. In addition, whether we would obtain a majority interest or minority interest in the targets is determined on a case-by-case basis, subject to our negotiation with those potential targets; and

- the remaining approximately [REDACTED]%, or HK\$[REDACTED], is expected to be used for working capital and general corporate purposes.

### BASIS AND ASSUMPTIONS

If the [REDACTED] is fixed at the high-end or low-end of the [REDACTED] range (assuming the [REDACTED] is not exercised), the [REDACTED] will increase or decrease by approximately HK\$[REDACTED] (after deducting [REDACTED] and expenses related to the [REDACTED]). We intend to apply the additional or reduced [REDACTED] to the above uses on a pro rata basis.

If the [REDACTED] is exercised in full, we will receive additional [REDACTED] of approximately HK\$[REDACTED], HK\$[REDACTED] and HK\$[REDACTED] if the [REDACTED] is fixed at the high-end, midpoint and low-end of the [REDACTED] range, respectively. We intend to apply the additional [REDACTED] to the above uses on a pro rata basis.

If the [REDACTED] of the [REDACTED] are not immediately used for the purposes described above, we will only deposit the [REDACTED] into short-term interest-bearing accounts at licensed commercial banks and/or other authorized financial institutions (as defined under the SFO or applicable laws and regulations in other jurisdictions). In such event, we will comply with the appropriate disclosure requirements under the Listing Rules.

*The following is the text of a report set out on pages I-1 to I-[72], received from the Company’s reporting accountants, KPMG, Certified Public Accountants, Hong Kong, for the purpose of incorporation in this document.*

**ACCOUNTANTS’ REPORT ON HISTORICAL FINANCIAL INFORMATION TO THE DIRECTORS OF SHANH TECHNOLOGY LIMITED AND ZERO2IPO CAPITAL LIMITED**

**Introduction**

We report on the historical financial information of ShanH Technology Limited (the “Company”) and its subsidiaries (together, the “Group”) set out on pages I-4 to I-[72], which comprises the consolidated statements of financial position of the Group and the statements of financial position of the Company as at December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, the consolidated statements of profit or loss, the consolidated statements of profit or loss and other comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows, for each of the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2025, (the “Track Record Period”), and material accounting policy information and other explanatory information (together, the “Historical Financial Information”). The Historical Financial Information set out on pages I-4 to I-[72] forms an integral part of this report, which has been prepared for inclusion in the document of the Company dated [●] (the “Document”) in connection with the initial [REDACTED] of shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited.

**Directors’ responsibility for the Historical Financial Information**

The directors of the Company are responsible for the preparation of the Historical Financial Information that gives a true and fair view in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information, and for such internal control as the directors of the Company determine is necessary to enable the preparation of the Historical Financial Information that is free from material misstatement, whether due to fraud or error.

**Reporting accountants’ responsibility**

Our responsibility is to express an opinion on the Historical Financial Information and to report our opinion to you. We conducted our work in accordance with Hong Kong Standard on Investment Circular Reporting Engagements 200 “Accountants’ Reports on Historical Financial Information in Investment Circulars” issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). This standard requires that we comply with ethical standards and plan and perform our work to obtain reasonable assurance about whether the Historical Financial Information is free from material misstatement.

---

## APPENDIX I

## ACCOUNTANTS’ REPORT

---

Our work involved performing procedures to obtain evidence about the amounts and disclosures in the Historical Financial Information. The procedures selected depend on the reporting accountants’ judgement, including the assessment of risks of material misstatement of the Historical Financial Information, whether due to fraud or error. In making those risk assessments, the reporting accountants consider internal control relevant to the entity’s preparation of the Historical Financial Information that gives a true and fair view in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Our work also included evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the Historical Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Opinion**

In our opinion, the Historical Financial Information gives, for the purpose of the accountants’ report, a true and fair view of the Company’s and the Group’s financial position as at December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, and of the Group’s financial performance and cash flows for the Track Record Period in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information.

### **Review of stub period corresponding financial information**

We have reviewed the stub period corresponding financial information of the Group which comprises the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the six months ended June 30, 2024, and other explanatory information (the “Stub Period Corresponding Financial Information”). The directors of the Company are responsible for the preparation and presentation of the Stub Period Corresponding Financial Information in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information. Our responsibility is to express a conclusion on the Stub Period Corresponding Financial Information based on our review. We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” as issued by the HKICPA. A review consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion. Based on our review, nothing has come to our attention that causes us to believe that the Stub Period Corresponding Financial Information, for the purpose of the accountants’ report, is not prepared, in all material respects, in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information.

**APPENDIX I**

**ACCOUNTANTS' REPORT**

**Report on matters under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Companies (Winding Up and Miscellaneous Provisions) Ordinance**

*Adjustments*

In preparing the Historical Financial Information, no adjustments to the Underlying Financial Statements as defined on page I-4 have been made.

*Dividends*

We refer to Note 25(d) to the Historical Financial Information which states that no dividends have been paid by the Company in respect of the Track Record Period.

*No statutory financial statements for the Company*

No statutory financial statements have been prepared for the Company since its incorporation.

## ACCOUNTANTS’ REPORT

### NOTES TO THE HISTORICAL FINANCIAL INFORMATION

*(Expressed in Renminbi unless otherwise indicated)*

#### 1 BASIS OF PREPARATION AND PRESENTATION OF HISTORICAL FINANCIAL INFORMATION

##### (a) General information

ShanH Technology Limited (“the Company”) was incorporated in the Cayman Islands on August 11, 2021 as an exempted company with limited liability under the Company Laws of the Cayman Islands.

The Company is an investment holding company and has not carried on any business operations since the date of its incorporation save for the Group reorganisation below. The Company and its subsidiaries (together as “the Group”) are principally engaged in the sales of pre-owned consumer electronics and other services (“[REDACTED] Business”) in the People’s Republic of China (the “PRC”).

##### (b) Reorganisation and basis of presentation

Prior to completion of the reorganisation (the “Reorganisation”) as described below, the [REDACTED] Business was carried out through Shenzhen Shanhui Technology Co., Ltd. (“Shenzhen Shanhui”) and its subsidiaries mainly established in the PRC (together referred to as “Shenzhen Shanhs Group”). To rationalise the corporate structure in preparation for the [REDACTED] of the Company’s shares on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”), the Group underwent a Reorganisation, as detailed in the section headed “History, Reorganisation and Corporate Structure” in the Document. Upon completion of the Reorganisation, the Company became the holding company of the companies now comprising the Group. The Reorganisation only involved inserting newly formed entities with no substantive business operations as the new holding companies of Shenzhen Shanhui and its subsidiaries. There were no changes in the economic substances of the ownership and [REDACTED] Business carried out by Shenzhen Shanhs Group before and after the Reorganisation. Accordingly, the Historical Financial Information has been prepared and presented as a continuation of the consolidated financial statements of Shenzhen Shanhs Group with the assets and liabilities of Shenzhen Shanhs Group recognised and measured at their historical carrying amounts prior to the Reorganisation. Intra-Group balances, transactions and unrealised gains/losses on intra-Group transactions are eliminated in full in preparing the Historical Financial Information.

The consolidated statements of profit or loss, the consolidated statements of profit or loss and other comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows of the Group for the Track Record Period as set out in this report include the financial performance and cash flows of the companies now comprising the Group as if the current group structure had been in existence throughout the Track Record Period, or since their respective dates of incorporation or establishment, whichever is a shorter period.

The consolidated statements of financial position of the Group as at December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, as set out in this report have been prepared to present the financial position of the companies now comprising the Group as at those dates, taking into account the respective dates of incorporation, establishment or acquisition, where applicable.

##### (c) Subsidiaries

As at the date of this report, no audited financial statements have been prepared for the Company, as it has not carried on any business operation since the date of incorporation and is investment holding company and not subject to statutory audit requirements under the relevant rules and regulations in the jurisdiction of incorporation. The financial statements of the subsidiaries of the Group for which there are statutory requirements were prepared in accordance with the relevant accounting rules and regulations applicable to entities in the countries in which they were incorporated and/or established.

APPENDIX I

ACCOUNTANTS’ REPORT

Upon completion of the Reorganisation and as at the date of this report, the Company has direct or indirect interests in the following subsidiaries, all of which are private companies:

Name of company	Date and place of incorporation/ establishment/ operation	Particulars of issued/ registered capital	Proportion of ownership interest		Principal activities
			Held by the Company	Held by a subsidiary	
ShanH Holding Limited (閃回控股有限公司) (a) . . . . .	British Virgin Islands 17/09/2021	USD1	100%	–	Investment Holding
Shanhui Technology Holding Limited (閃回科技控股有限公司) (b) . . . . .	Hong Kong 19/10/2021	HKD1	–	100%	provision of consumer electronics trade-in-and resale services
Shenzhen Shanhui Technology Co., Ltd. (深圳閃回科技有限公司) (c)(g)* . . . . .	The PRC 18/05/2016	RMB 21,804,966	–	98.18%	provision of consumer electronics trade-in-and resale services
Shenzhen Tianhai Youpin Technology Co., Ltd. (深圳天海優品科技有限公司) (d)(g)* . . . . .	The PRC 13/01/2020	RMB 10,000,000	–	98.18%	provision of consumer electronics trade-in-and resale services
Shenzhen Shanxin Software Technology Service Co., Limited. (深圳閃新軟件技術服務有限公司) (e)(g)* . . . . .	The PRC 20/07/2022	RMB 10,000,000	–	98.18%	provision of technical services
Shenzhen Shanji Technology Co., Limited. (深圳閃吉科技有限公司) (f)(g)* . . . . .	The PRC 16/01/2023	RMB 10,000,000	–	98.18%	provision of consumer electronics trade-in-and resale services
Zhejiang Shanhui Technology Co., Ltd. (“Zhejiang Shanhui”) (浙江閃回科技有限公司) (f)(h)* . . . . .	The PRC 07/11/2023	USD 8,000,000	–	100%	provision of consumer electronics trade-in-and resale services
Shenzhen Xinghe Zongheng Technology Co., Ltd. (深圳星河縱橫科技有限公司)(h)(i)* . . . . .	The PRC 24/05/2024	USD 8,000,000	–	100%	provision of consumer electronics trade-in-and resale services
PT Shanhui Technology Indonesia. (印尼閃回科技有限公司) (j) . . . . .	Indonesia 09/02/2025	IDR 10,100,000,000	–	99%	provision of consumer electronics trade-in-and resale services

\* The official name of these entities is in Chinese. The English translation of the companies’ name is for reference only.

All companies now comprising the Group have adopted December 31 as their financial year end date.

## APPENDIX I

## ACCOUNTANTS’ REPORT

### Notes:

- (a) The entity was not subject to statutory audit requirement under the relevant rules and regulations in the jurisdiction of incorporation.
- (b) The audited financial statements of this entity for the period from October 19, 2021 (date of incorporation) to December 31, 2022 were prepared in accordance with the Hong Kong Small and Medium-Sized Entity Financial Reporting Standard (“SME-FRS”) and audited by Smart Team CPA Limited (駿滙永豐會計師事務所有限公司). The audited financial statements of this entity for the years ended December 31, 2023 and 2024 were prepared in accordance with the SME-FRS and audited by DAVE KWOK & Co. Certified Public Accountants (郭嘯南會計師事務所).
- (c) The audited financial statements of this entity for the years ended December 31, 2021 and 2022 were prepared in accordance with the Accounting Standards for Business Enterprises (the “PRC GAAP”) and audited by Shenzhen Juyuanlide Certified Public Accountants (General Partnership) (深圳市巨源立德會計師事務所(普通合夥)). The audited financial statements of this entity for the year ended December 31, 2023 were prepared in accordance with the PRC GAAP and audited by Shenzhen SunnySky Certified Public Accountants (深圳華陽天成會計師事務所(普通合夥)). The audited financial statements of this entity for the year ended December 31, 2024 were prepared in accordance with the PRC GAAP and audited by Shenzhen Zhixin Certified Public Accountants (深圳市知信會計師事務所(普通合夥)).
- (d) No audited financial statements have been prepared for this entity for the year ended December 31, 2021 as it had not actually carried out business activities during the year ended December 31, 2021. The audited financial statements of this entity for the year ended December 31, 2022 were prepared in accordance with the PRC GAAP and audited by Shenzhen Juyuanlide Certified Public Accountants (General Partnership) (深圳市巨源立德會計師事務所(普通合夥)). The audited financial statements of this entity for the year ended December 31, 2023 were prepared in accordance with the PRC GAAP and audited by Shenzhen SunnySky Certified Public Accountants (深圳華陽天成會計師事務所(普通合夥)). The audited financial statements of this entity for the year ended December 31, 2024 were prepared in accordance with the PRC GAAP and audited by Shenzhen Zhixin Certified Public Accountants (深圳市知信會計師事務所(普通合夥)).
- (e) The audited financial statements of this entity for the year ended December 31, 2022 were prepared in accordance with the PRC GAAP and audited by Shenzhen Juyuanlide Certified Public Accountants (General Partnership) (深圳市巨源立德會計師事務所(普通合夥)). The audited financial statements of this entity for the year ended December 31, 2023 were prepared in accordance with the PRC GAAP and audited by Shenzhen SunnySky Certified Public Accountants (深圳華陽天成會計師事務所(普通合夥)). The audited financial statements of this entity for the year ended December 31, 2024 were prepared in accordance with the PRC GAAP and audited by Shenzhen Zhixin Certified Public Accountants (深圳市知信會計師事務所(普通合夥)).
- (f) The audited financial statements of these entities for the year ended December 31, 2023 were prepared in accordance with the PRC GAAP and audited by Shenzhen SunnySky Certified Public Accountants (深圳華陽天成會計師事務所(普通合夥)). The audited financial statements of these entities for the year ended December 31, 2024 were prepared in accordance with the PRC GAAP and audited by Shenzhen Zhixin Certified Public Accountants (深圳市知信會計師事務所(普通合夥)).
- (g) These entities are limited liability companies established in the PRC.
- (h) These entities are wholly foreign-owned enterprises established in the PRC.
- (i) The audited financial statements of this entity for the year ended December 31, 2024 were prepared in accordance with the PRC GAAP and audited by Shenzhen Zhixin Certified Public Accountants (深圳市知信會計師事務所(普通合夥)).
- (j) No audited financial statements have been prepared for the entity as this was newly incorporated in 2025.

### (d) Basis of preparation

As at June 30, 2025, the Group had net current liabilities of RMB721,786,000 and net liabilities of RMB713,472,000, including redemption liabilities amounting to RMB790,554,000.

The Directors of the Company are of the opinion that no material uncertainty exists related to events or conditions which, individually or collectively, may cast significant doubt on the Group’s ability to continue as a going concern, taking into account the following factors:

- the directors have assessed that redemption liabilities issued to investors would be converted into equity upon a qualified initial public offering which would lead to a significant improvement to the Group’s net current liabilities and net liabilities positions. By excluding the redemption liabilities, the Group would be at a net current assets position of RMB68,758,000 and a net assets position of RMB77,072,000 as at June 30, 2025;
- the Group has unutilised banking facilities of RMB69,100,000 as at June 30, 2025, which can be utilized by the Group to fulfill its liquidity requirements when necessary; and

## APPENDIX I

## ACCOUNTANTS’ REPORT

- the Directors have reviewed the Group’s cash flow projections, which cover a period of more than twelve months from June 30, 2025 and are of the opinion that the Group will have sufficient working capital to meet its liabilities and obligations as and when they fall due and to sustain its operations for at least the next twelve months from June 30, 2025.

The Historical Financial Information has been prepared in accordance with all applicable IFRS Accounting Standards issued by the International Accounting Standards Board (“IASB”). Further details of the material accounting policy information are set out in Note 2.

The IASB has issued a number of new and revised IFRS Accounting Standards. For the purpose of preparing this Historical Financial Information, the Group has adopted all applicable new and revised IFRS Accounting Standards that are effective for the Track Record Period. The Group has not applied any new standard or interpretation that is not yet effective during the Track Record Period. The new and revised accounting standards and interpretations issued but not yet effective for the Track Record Period are set out in Note 29.

The Historical Financial Information also complies with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The accounting policies set out below have been applied consistently to all periods presented in the Historical Financial Information.

The Stub Period Corresponding Financial Information has been prepared in accordance with the same basis of preparation and presentation adopted in respect of the Historical Financial Information.

### 2 MATERIAL ACCOUNTING POLICY INFORMATION

#### (a) Basis of measurement

Item included in the financial statements of each entity in the Group are measured using the currency that best reflects the economic substance of the underlying events and circumstances relevant to the entity (the “Functional Currency”). The Historical Financial Information and the Stub Period Corresponding Financial Information are presented in Renminbi (“RMB”), rounded to the nearest thousand except when otherwise indicated.

The measurement basis used in the preparation of the Historical Financial Information is the historical cost basis except that financial assets measured at FVTPL and derivative financial liabilities are stated at fair value as explained in Note 2(e) respectively.

#### (b) Use of estimates and judgements

The preparation of financial statements in conformity with IFRS Accounting Standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRS Accounting Standards that have significant effect on the Historical Financial Information and major sources of estimation uncertainty are discussed in Note 3.

#### (c) Consolidation

##### *Subsidiaries*

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

**APPENDIX I**

**ACCOUNTANTS' REPORT**

An investment in a subsidiary is included into the Historical Financial Information from the date that control commences until the date that control ceases. Intra-Group balances, transactions and cash flows and any unrealised profits arising from intra-Group transactions are eliminated in full in preparing the Historical Financial Information. Unrealised losses resulting from intra-Group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the owners of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the owners of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see Note 2(g)(ii)).

**(d) Property and equipment**

Property and equipment are stated at cost less accumulated depreciation and impairment losses (see Note 2(g)(ii)).

Gains or losses arising from the retirement or disposal of an item of property and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Depreciation is calculated to write-off the cost or valuation of items of property and equipment, less their estimated residual value, if any, using the straight-line method over their estimated useful lives as follows:

	<b>Over the shorter of the lease term or the estimated useful life of the asset</b>
Furniture and electronic equipment . . . . .	3-5 years
Leasehold improvement . . . . .	3 years

Both the useful life of an asset and its residual value, if any, are reviewed at each reporting period.

**(e) Derivative financial instruments**

Derivative financial instruments are initially measured recognised at fair value. Subsequently, they are measured at fair value with changes therein recognised in profit or loss.

## APPENDIX I

## ACCOUNTANTS’ REPORT

### (f) Leased assets

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

#### *As a lessee*

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets which, for the Group are storages. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see Notes 2(d) and 2(g)(ii)). The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use asset are determined on the same basis as those of property and equipment.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group’s estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract (“lease modification”) that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

### (g) Credit losses and impairment of assets

#### *(i) Credit losses from financial instruments*

The Group recognises a loss allowance for expected credit losses (ECLs) on the financial assets measured at amortised cost, including cash and cash equivalents, trade receivables and other receivables.

## APPENDIX I

## ACCOUNTANTS’ REPORT

### *Measurement of ECLs*

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The expected cash shortfalls of fixed-rate financial assets, and trade and other receivables are discounted using the effective interest rate determined at initial recognition or an approximation thereof, where the effect of discounting is material.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECLs are measured on either of the following bases:

- 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments, the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

### *Significant increases in credit risk*

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is 90 days past due. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument’s external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor’s ability to meet its obligation to the Group.

## APPENDIX I

## ACCOUNTANTS’ REPORT

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument’s credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt securities that are measured at FVOCI (recycling), for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve (recycling).

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or past due event;
- it becomes probable that the borrower will enter into bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; and
- the disappearance of an active market for a security because of financial difficulties of the issuer.

### *Write-off policy*

The gross carrying amount of a financial asset is written-off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written-off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

### **(ii) Impairment of other non-current assets**

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or an impairment loss previously recognised no longer exists or may have decreased:

- property and equipment, and right-of-use assets; and
- investments in subsidiaries in the Company’s statement of financial position.

### **(h) Inventories**

Inventories are assets which are held for sale in the ordinary course of business.

Inventories are carried at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

Cost of inventories are calculated using the specific identification basis and comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition.

## APPENDIX I

## ACCOUNTANTS’ REPORT

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised.

The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

### (i) Contract liabilities

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue (see Note 2(r)). A contract liability would also be recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised (see Note 2(j)).

### (j) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Receivables are stated at amortised cost using the effective interest method less allowance for credit losses (see Note 2(g)(i)).

### (k) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions and other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for expected credit losses (ECL) in accordance with the policy set out in Note 2(g)(i).

### (l) Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at invoice amount.

### (m) Redemption liabilities

The Group’s contractual obligations to purchase its own shares/redeem its preferred shares for cash upon the occurrence of events that are beyond the control of both the Group and the holders give rise to financial liabilities.

The redemption liabilities are initially measured at the present value of the redemption amount. Subsequently, any changes in the carrying amount of the redemption liabilities are recorded in “changes in carry amount of the redemption liabilities” in the consolidated statements of profit or loss.

The Group derecognises the redemption liabilities when, and only when, the Group’s redemption obligations are discharged, cancelled, or have expired. When the redemption liabilities expire without exercise, the carrying amount of the redemption liabilities are reclassified to equity.

### (n) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group’s accounting policy for borrowing cost.

## APPENDIX I

## ACCOUNTANTS’ REPORT

### (o) Employee benefits

#### (i) *Short-term employee benefits and contributions to defined contribution retirement plans*

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values. Contribution to appropriate local defined contribution retirement schemes pursuant to the relevant labour rules and regulations in the PRC are recognised as an expense in profit or loss as incurred.

#### (ii) *Share-based payments*

The Group operates share incentive plan, under which it receives services from directors and employees as consideration for equity instruments (including share option) of the Group. The fair value of the services received in exchange for the grant of the equity instruments (share options) is recognised as an expense in the consolidated statements of profit or loss.

##### *Share options*

For grant of share options, the total amount to be expensed is determined by reference to the fair value of the options granted by using option-pricing models:

- including any market performance conditions;
- excluding the impact of any service and non-market performance vesting conditions; and
- including the impact of any non-vesting conditions.

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the Group revises its estimates of the number of options that are expected to vest based on the non market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

A grant of share incentive awards, that is cancelled or settled during the vesting period, is treated as an acceleration of vesting. The Group immediately recognises the amount that otherwise would have been recognised for services received over the remainder of the vesting period.

### (p) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward.

## APPENDIX I

## ACCOUNTANTS' REPORT

### (q) Provisions and contingent liabilities

Provisions are recognised when the Group has a legal, constructive obligation or quality assurance provided arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, a separate asset is recognised for any expected reimbursement that would be virtually certain. The amount recognised for the reimbursement is limited to the carrying amount of the provision.

### (r) Revenue and other income

Income is classified by the Group as revenue when it arises from the sales of goods and the provision of services in the ordinary course of the Group's business.

Revenue is recognised when control over a product or service is transferred to the customer, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Further details of the Group's revenue and other income recognition policies are as follows:

#### (i) *Revenue from contracts with customers*

The Group principally generates its revenue from the sales of products, and provision of services.

##### – *Sales of products*

The Group mainly recycles pre-owned mobile phones and other pre-owned consumer electronics from individuals by cooperating with offline stores, through online recycling channels, or from the manufacturers or distributors. Revenue from the sales of pre-owned mobile phones or other pre-owned consumer electronics are recognised at the point in time when the customer takes possession of and accepts the products.

##### – *Provision of services*

The Group mainly provides procurement services, after-sales services, and testing services, etc. Revenue from the after-sales services is recognised over the service period on a straight-line basis because the customer simultaneously receives and consumes the benefits when the control of the services transfers to the customers provided by the Group.

#### (ii) *Interest income*

Interest income is recognised as it accrues under the effective interest method.

#### (iii) *Government grants*

Government grants are recognised in the consolidated statement of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as income in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are deducted from the carrying amount of the asset and consequently are effectively recognised in profit or loss over the useful life of the asset by way of reduced depreciation expense.

## APPENDIX I

## ACCOUNTANTS' REPORT

### (s) Translation of foreign currencies

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the Company initially recognises such non-monetary assets or liabilities. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was measured.

The results of foreign operations are translated into RMB at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Statement of financial position items are translated into RMB at the closing foreign exchange rates at the end of the reporting period. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the exchange reserve.

### (t) Research and development expenses

Research and development expenses comprise all expenses that are directly attributable to research and development activities or that can be allocated on a reasonable basis to such activities. Because of the nature of the Group's research and development activities, the criteria for the recognition of such costs as an asset are generally not met until late in the development stage of the project when the remaining development costs are immaterial. Hence both research costs and development costs are generally recognised as expenses in the period in which they are incurred.

### (u) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
  - (i) The entity and the Group are members of the same Group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a Group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
  - (viii) The entity, or any member of a Group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

**(v) Segment reporting**

Operating segments, and the amounts of each segment item reported in the Historical Financial Information, are identified from the financial information provided regularly to the Group’s most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group’s various lines of business and geographical locations. Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

**3 ACCOUNTING JUDGEMENT AND ESTIMATES**

Note 26 contains information about the assumptions and their risk factors relating to fair value of financial liabilities. Other significant sources of estimation uncertainty in the process of applying the Group’s accounting policies are as follows:

**(a) Recognition of deferred tax assets**

Deferred tax assets are recognised in respect of deductible temporary differences. As those deferred tax assets can only be recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised, management’s judgment is required to assess the probability of future taxable profits. Management’s assessment is revised as necessary and additional deferred tax assets are recognised if it becomes probable that future taxable profits will allow the deferred tax asset to be recovered.

**(b) Loss allowance for trade and other receivables**

The Group estimates impairment losses for trade and other receivables by using expected credit loss models. Expected credit loss on these trade and other receivables are estimated based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

Where the expectation is different from the original estimate, such difference will impact the loss allowance of trade and other receivables in the periods in which such estimate has been changed.

**4 REVENUE AND SEGMENT REPORTING**

**(a) Revenue**

The Group principally generates its revenue from the sale of pre-owned mobile phones, pre-owned electronic products, and other services.

**(i) Disaggregation of revenue**

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025

For each year during the Track Record Period, the Group did not have any customer with which transactions have exceeded 10% of the Group’s total revenue for the respective year.

(ii) The Group has applied the practical expedient in paragraph 121(a) of IFRS 15 to its sales contracts for sales of products and provision of services, hence no information required by paragraph 120 of IFRS 15 was disclosed.

(b) Segment reporting

The Group manages its businesses as a whole by the most senior executive management for the purposes of resource allocation and performance assessment. Accordingly, no reportable segment information is presented.

As substantially all of the Group’s operations and assets are in the PRC, no geographic information is presented.

5 OTHER INCOME AND GAINS/(LOSSES)

	2021	2022	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
					<i>(unaudited)</i>	
Loss before taxation . . . . .	(48,708)	(99,084)	(98,268)	(66,443)	(40,126)	(24,633)
Tax calculated at PRC statutory income tax rate of 25% . . . . .	(12,177)	(24,771)	(24,567)	(16,611)	(10,032)	(6,158)
Tax effect of additional deduction for qualified research and development costs . . . . .	(1,776)	(2,348)	(4,049)	(2,900)	(1,385)	(1,373)
Effect of different tax rates of companies operating in other jurisdictions . . . . .	958	477	1,722	1,448	4,465	409
Tax effect of non-deductible expenses . . . . .	12,157	18,757	20,275	5,467	3,535	8,030
Tax effect of temporary differences and unused tax losses not recognised . . . . .	838	7,885	6,619	12,596	3,417	323
Utilisation of unrecognised tax losses . . . . .	–	–	–	–	–	(1,231)
Income tax . . . . .	–	–	–	–	–	–

Notes:

- (i) Pursuant to the rules and regulations of the Cayman Islands and the BVI, the Group is not subject to any income tax in the Cayman Islands and the BVI.
- (ii) The provision for Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profits. The Group’s subsidiaries in Hong Kong did not have any assessable profits for all the periods presented.
- (iii) Taxable income for the Group’s subsidiaries in the PRC is subject to PRC income tax rate of 25% for the Track Record Period.

(b) Deferred tax assets not recognised

In accordance with the accounting policy set out in Note 2(p), the Group has not recognised deferred tax assets at the reporting dates. The Group has not recognised deferred tax assets in respect of cumulative tax losses of RMB42,195,000, RMB72,481,000, RMB96,464,000, RMB112,435,000 and RMB71,698,000 at December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, respectively due to the unpredictability of future taxable profits. The unused tax losses of the Group will normally expire within 5 years.

Notes:

- (a) Mr. Liu Jianyi joined the Group on May 18, 2016 and was appointed as the chairman of the Board of Directors the Company on August 11, 2021. He is the founder and key management personnel of the Group during the Track Record Period and his remuneration disclosed above include those for services rendered by him as key management personnel.
- (b) Ms. Yu Hairong, Mr. He Xiaomin and Mr. Lin Lexin joined the Group in May 2016 and were appointed as executive directors of the Company on January 17, 2024. They are the key management personnel of the Group during the Track Record Period and their remuneration disclosed above include those for their services as key management personnel.
- (c) Mr. Jiang Wen joined the Group in July 2018 and was appointed as a non-executive director of the Company on January 17, 2024.
- (d) During the Track Record Period, there were no amounts paid or payable by the Group to the directors or any of the highest paid individuals set out in Note 9 below as an inducement to join or upon joining the Group or as a compensation for loss of office. There was no arrangement under which a director waived or agreed to waive any remuneration during the Track Record Period.

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

**9 INDIVIDUALS WITH HIGHEST EMOLUMENTS**

During the years ended December 31, 2021, 2022, 2023 and 2024 and the six months ended June 30, 2024 and 2025, of the five individuals with the highest emoluments, two, four, three, three, two (unaudited) and three are directors whose emoluments are disclosed in Note 8.

The aggregate of the emoluments in respect of the other three, one, two, two, three (unaudited) and two individuals are as follows:

	<b>Year ended December 31,</b>				<b>Six months ended June 30,</b>	
	<b>2021</b>	<b>2022</b>	<b>2023</b>	<b>2024</b>	<b>2024</b>	<b>2025</b>

(b) Right-of-use assets

The analysis of expense items in relation to leases recognised in profit or loss is as follows:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
Depreciation charge of right-of-use assets by class of underlying asset:						
Right-of-use assets . . . .	1,964	3,341	4,162	4,458	2,034	2,281
Interest on lease liabilities (Note 16(c)) . . . . .	168	261	508	343	196	105
Expense relating to short- term leases . . . . .	34	699	1,002	667	348	330

Details of total cash outflow for leases and the maturity analysis of lease liabilities are set out in Notes 16 and 20, respectively.

The Group has obtained the right-of-use properties as its offices and warehouses through tenancy agreements. The leases period last from 1 to 5 years.

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

**12 INVESTMENT IN A SUBSIDIARY**

The carrying amount of the investment in a subsidiary in the Company’s statements of financial position is listed below:

	As at December 31,				As at June 30,
	2021	2022	2023	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
Investment in a subsidiary, at cost (i). . .	–	–	–	168,112	168,758

*Note:*

(i) Details of the subsidiary are set out in Note 1(c).

**13 INVENTORIES**

(a) Inventories in the consolidated statements of financial position comprise:

	As at December 31,				As at June 30,
	2021	2022	2023	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
Pre-owned consumer electronics . . . . .	20,780	24,248	31,103	33,305	22,386
Less: provision . . . . .	(2,362)	(2,136)	(419)	(551)	(828)
	<u>18,418</u>	<u>22,112</u>	<u>30,684</u>	<u>32,754</u>	<u>21,558</u>

(b) The analysis of the amount of inventories recognised as an expense and included in profit or loss is as follows:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
Carrying amount of inventories sold . . . . .	587,335	743,133	979,790	1,095,118	482,434	692,507
Write-down/(reversal) of inventories . . . . .	1,707	(226)	(1,717)	132	56	277
	<u>589,042</u>	<u>742,907</u>	<u>978,073</u>	<u>1,095,250</u>	<u>482,490</u>	<u>692,784</u>

	–	–	111,551	–	–

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

All of the trade and other receivables are expected to be recovered within one year.

Receivables from upstream sourcing partners represent the promotion discounts offered to individual consumers by certain consumer electronic brands which were paid by the Group in advance and will be reimbursed by the consumer electronic brands.

**Ageing analysis**

As of the end of the reporting period, the ageing analysis of trade receivables and receivables from upstream sourcing partners based on the recognition date and net of loss allowance, is as follows:

Trade receivables

	As at December 31,				As at
	2021	2022	2023	2024	June 30,
	RMB’000	RMB’000	RMB’000	RMB’000	2025
					RMB’000
1-60 days . . . . .	4,009	2,823	3,003	10,470	10,457
61-120 days . . . . .	881	329	3,789	3,568	250
121-180 days . . . . .	1,066	217	14	23	1
	<u>5,956</u>	<u>3,369</u>	<u>6,806</u>	<u>14,061</u>	<u>10,708</u>

Trade receivables are due within 30 to 60 days from the date of billing.

Receivables from upstream sourcing partners

	As at December 31,				As at
	2021	2022	2023	2024	June 30,
	RMB’000	RMB’000	RMB’000	RMB’000	2025
					RMB’000
1-60 days . . . . .	13,824	35,589	43,997	24,976	7,466
61-120 days . . . . .	200	–	3,646	3,630	1,981

	–	27,559	–	–	–

*Notes:*

- (i) All trade payables (including amounts due to related parties) are expected to be settled or recognised as income within one year or are repayable on demand.
- (ii) The Company received [REDACTED] investment amounting to USD4,005,000 from one of its [REDACTED] investors in January 2022, and in December 2023, the Company allotted and issued 406,950 preferred shares to the investor. The details is disclosed in Note 22 c(vi).

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

As of the end of the reporting period, the ageing analysis of trade payables based on the invoice date, is as follows:

**The Group**

	As at December 31,				As at
	2021	2022	2023	2024	June 30,
	RMB’000	RMB’000	RMB’000	RMB’000	2025
1-60 days . . . . .	8,863	5,196	5,794	9,248	8,041
61-120 days . . . . .	210	4,550	1,630	2,454	2,362
121-180 days . . . . .	39	147	420	1,881	1,217
Over 181 days . . . . .	69	687	588	659	3,792
	<u>9,181</u>	<u>10,580</u>	<u>8,432</u>	<u>14,242</u>	<u>15,412</u>

**18 CONTRACT LIABILITIES**

	As at December 31,				As at
	2021	2022	2023	2024	June 30,
	RMB’000	RMB’000	RMB’000	RMB’000	2025
Contract liabilities related to sales of products and provision of services . .	<u>9,721</u>	<u>9,018</u>	<u>4,721</u>	<u>9,200</u>	<u>13,191</u>

*Note:*

- (i) The Group receives an advance payment on acceptance of orders on a case-by-case basis. When the Group receives an advance payment before products or services are provided, this will give rise to contract liabilities. All of the contract liabilities are expected to be recognised as income within one year.

**19 BANK LOANS**

The analysis of the repayment schedule of bank loans is as follows:

	As at December 31,				As at
	2021	2022	2023	2024	June 30,
	RMB’000	RMB’000	RMB’000	RMB’000	2025
Within 1 year or on demand . . . . .	<u>–</u>	<u>11,000</u>	<u>105,000</u>	<u>101,500</u>	<u>88,900</u>

- (a) The bank loans as at December 31, 2022, 2023 and 2024 and at June 30, 2025 were guaranteed or jointly guaranteed by related parties, including the Controlling Shareholder of the Company, Mr. Liu Jianyi, and his spouse, Ms. Ao Huili. All guarantees provided by the related parties for bank loans will be released prior to [REDACTED].

APPENDIX I

ACCOUNTANTS’ REPORT

- (b) Bank loans amounting to RMB11,000,000, RMB105,000,000, RMB101,500,000 and RMB88,900,000 as at December 31, 2022, 2023 and 2024 and June 30, 2025 are subject to the satisfaction of certain covenants relating to the operating conditions of Shenzhen Shanhui.

If Shenzhen Shanhui were to breach the covenants, the drawn down facilities would become payable on demand. Shenzhen Shanhui regularly monitors its compliance with these covenants. As at December 31, 2022, 2023 and 2024 and June 30, 2025, none of the covenants relating to drawn down facilities had been breached.

20 LEASE LIABILITIES

The following table shows the remaining contractual maturities of the Group’s lease liabilities at the end of each reporting period:

	As at December 31,						As at June 30,			
	2021		2022		2023		2024		2025	
	Present value of the minimum lease payments	Total minimum lease payments	Present value of the minimum lease payments	Total minimum lease payments	Present value of the minimum lease payments	Total minimum lease payments	Present value of the minimum lease payments	Total minimum lease payments	Present value of the minimum lease payments	Total minimum lease payments
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000

## APPENDIX I

## ACCOUNTANTS’ REPORT

During 2018 to 2021, Shenzhen Shanhui entered into capital contribution agreements and shareholders agreements with various [REDACTED] investors. These Investors had been granted certain preferential rights along with their subscription of shares of Shenzhen Shanhui.

As part of the Reorganisation, these investors exchanged the shares and preferential rights held in Shenzhen Shanhui with the preferred shares issued by the Company. Unless otherwise stated, the key terms of the preferred shares give rise to substantially the same economic position as that of the shares and preferential rights held in Shenzhen Shanhui.

Details of the investments are set out below.

### (a) Series A investments

- (i) In February 2018, pursuant to an equity transfer agreement entered into among Shenzhen Shanhui, three investors (the “Series A Investors”), and certain ordinary shareholders of Shenzhen Shanhui, the ordinary shareholders transferred 4.76% of the equity interest in Shenzhen Shanhui to the Series A Investors at a total consideration of RMB6,000,000.
- (ii) In February 2018, Shenzhen Shanhui entered into a capital contribution agreement with the Series A Investors, pursuant to which, the Series A Investors subscribed for 16.0% of the enlarged equity interest in Shenzhen Shanhui at a total consideration of RMB24,000,000.

The key terms of the preferential rights granted to the Series A Investors are summarised as follows:

#### *Redemption rights*

The Series A Investors shall have the right to request Shenzhen Shanhui to redeem its shares upon the occurrence of certain contingent events including but not limited to the failure of the Group to complete a qualified [REDACTED] within 48 months after the issue date. The redemption price is the higher of (i) the investment amount paid by the Series A Investors plus a compound interest of 15% per annum and any declared but unpaid dividends; and (ii) the then fair value of the shares held by the Series A Investors.

#### *Liquidation preferences*

Upon the occurrence of a Liquidation Event, the Series A Investors shall be entitled to receive the liquidation preference amount calculated as the higher of (i) the sum of (a) 150% of the investment amount paid by the Series A Investors; (b) any declared but unpaid dividends and (c) a pro-rata share of Shenzhen Shanhui’s remaining distributable net assets; and (ii) a pro-rata share of the sales proceeds resulting from the sales of assets or shares of Shenzhen Shanhui.

A Liquidation Event includes (i) a liquidation, dissolution or winding up of Shenzhen Shanhui; (ii) a sale or transfer of all or a significant portion of assets or business of the Group; (iii) a sale or exclusive licensing of all or a significant portion of intellectual properties of the Group to a third party; or (iv) a change in control of Shenzhen Shanhui upon a merger, acquisition, reorganisation or consolidation of Shenzhen Shanhui.

### (b) Series A-1 investments

In February 2019, Shenzhen Shanhui entered into a capital contribution agreement with two investors (the “Series A-1 Investors”), pursuant to which, each of the investor subscribed for approximately 1.89% and 3.26% of the enlarged equity interest in Shenzhen Shanhui at a consideration of RMB10,000,000 and RMB17,200,000 respectively.

## APPENDIX I

## ACCOUNTANTS’ REPORT

The key terms of the preferential rights granted to the Series A-1 Investors are summarised as follows:

### *Redemption rights*

The Series A-1 Investors shall have the right to request Shenzhen Shanhui to redeem its shares upon the occurrence of certain contingent events including but not limited to the failure of the Group to complete a qualified IPO within 60 months after the issue date. The redemption price is the higher of (i) the investment amount paid by the Series B Investors plus a simple interest rate of 8% per annum and any declared but unpaid dividends; and (ii) the then fair value of the shares held by the Series A-1 Investors.

### *Liquidation preferences*

Upon the occurrence of a Liquidation Event, the Series A-1 Investors shall be entitled to receive the liquidation preference amount calculated as the higher of (i) the sum of (a) 100% of the original investment amount paid by Series A-1 Investors; (b) any declared but unpaid dividends and (c) a pro-rata share of Shenzhen Shanhui’s remaining distributable net assets; and (ii) a pro-rata share of the sales proceeds resulting from the sales of assets or shares of Shenzhen Shanhui.

A Liquidation Event includes (i) a liquidation, dissolution or winding up of Shenzhen Shanhui; (ii) a sale or transfer of all or a significant portion of assets or business of the Group; (iii) a sale or exclusive licensing of all or a significant portion of intellectual properties of the Group to a third party; or (iv) a change in control of Shenzhen Shanhui upon a merger, acquisition, reorganisation or consolidation of Shenzhen Shanhui.

As part of the Reorganisation, the Series A and A-1 Investors exchanged the shares and preferential rights held in Shenzhen Shanhui with the Series A preferred shares issued by the Company. The key terms of the Series A preferred shares give rise to substantially the same economic position as that of the shares and preferential rights held in Shenzhen Shanhui.

### (c) **Series C investments**

- (i) In March 2021, Shenzhen Shanhui entered into a capital contribution agreement with investor C-1, pursuant to which, investor C-1 agreed to subscribe for approximately 5% of the enlarged equity interest in Shenzhen Shanhui at a consideration of RMB50,000,000.
- (ii) In July 2021 and August 2021, pursuant to the equity transfer agreements entered into among Shenzhen Shanhui, one of the Series A-1 Investors, investor C-3 and an ordinary shareholder, investor C-3 acquired approximately 1.37% and 1.89% equity interest in Shenzhen Shanhui from the ordinary shareholder and the Series A-1 investor at a consideration of RMB10,276,500, and RMB14,226,000 respectively.
- (iii) In August 2021, pursuant to the equity transfer agreements entered into among Shenzhen Shanhui, investor C-1, investor C-4, investor C-5 and certain ordinary shareholders, investor C-1, investor C-4 and investor C-5 acquired approximately 4.21%, 1.83% and 0.37% equity interest in Shenzhen Shanhui from the ordinary shareholders at a consideration of RMB30,000,000, RMB12,500,003 and RMB2,500,000 respectively.
- (iv) In August 2021, pursuant to the equity transfer agreements entered into among Shenzhen Shanhui, investor C-2 (together with investor C-1, investor C-3, investor C-4 and investor C-5 referred to as the “Series C Investors”), and the Series A and Series A-1 investors, investor C-2, acquired approximately 10.27% equity interest in Shenzhen Shanhui from the Series A investors at a total consideration of RMB96,045,000.
- (v) In August 2021, pursuant to the equity transfer agreement entered into among Shenzhen Shanhui, investor C-2, and investor C-5, investor C-5 acquired approximately 5.35% equity interest in Shenzhen Shanhui from investor C-2 at a consideration of RMB50,000,000.
- (vi) In December 2023, the Company allotted and issued 406,950 preferred shares to investor C-6 and the consideration previously received by the Company amounting to USD4,005,000 (equivalent to RMB28,347,000) was reclassified from other payable (Note 17(ii)).

## APPENDIX I

## ACCOUNTANTS’ REPORT

The key terms of the preferential rights granted to the Series C Investors are summarised as follows:

### *Redemption rights*

The Series C Investors shall have the right to request Shenzhen Shanhui to redeem its shares upon the occurrence of certain contingent events including but not limited to the failure of the Group to complete a qualified IPO before December 31, 2023. The redemption price is the higher of (i) the investment amount paid by the Series C Investors plus a simple interest of 10% per annum minus any dividends paid; and (ii) the pro-rata share of Shenzhen Shanhui’s net assets.

### *Liquidation preferences*

Upon the occurrence of a Liquidation Event, the Series C Investors shall be entitled to receive the liquidation preference amount calculated as the sum of (i) the higher of (a) 110% of the investment amount paid by the Series C Investors; and (b) the investment amount paid by Series C Investors and the consideration paid by the Series C Investors plus a simple interest of 10% per annum; and (ii) a pro-rata share of Shenzhen Shanhui’s remaining distributable net assets.

A Liquidation Event includes (i) a liquidation, dissolution or winding up of Shenzhen Shanhui; (ii) a sale or transfer of all or a significant portion of assets or business of the Group; (iii) a sale or exclusive licensing of all or a significant portion of intellectual properties of the Group to a third party; (iv) a change in control of Shenzhen Shanhui upon a merger, acquisition, reorganisation or consolidation of Shenzhen Shanhui; (v) resignation of the controlling shareholder; or (vi) breach of law and material misconduct by the controlling shareholder resulting in significant loss to Shenzhen Shanhui.

As part of the Reorganisation, the Series C Investors exchanged the shares and preferential rights they held in Shenzhen Shanhui with the Series C preferred shares issued by the Company. Key terms modified are summarised as follows:

### *Redemption rights*

The Series C Investors shall have the right to request the Company to redeem its shares upon the occurrence of certain contingent events including but not limited to the failure of the Group to complete a qualified IPO before December 31, 2024. The redemption price is the higher of (i) the investment amount paid by the Series C Investors plus a simple interest of 10% per annum minus any dividends paid; and (ii) the then fair value of the shares held by the Series C Investors.

As a result of the modification, increase in the redemption liabilities amounting to RMB193,178,000 was debited to “other reserves”.

## **(d) Series D investments**

Pursuant to the subscription agreement dated December 29, 2023, the Company allotted and issued 503,790 Series D-1 preferred shares to Anji Guorong Holdings Limited, representing 2.33% of the issued share capital of the Company at a consideration of USD8 million. The consideration was fully settled on February 22, 2024.

The key terms of the Series D Preferred Shares are summarised as follows:

### *Redemption rights*

The Series D Investors shall have the right to request the Company to redeem its shares upon the occurrence of certain contingent events including but not limited to the failure of the Group to complete a qualified IPO before December 31, 2024. The redemption price is the higher of (i) the investment amount paid by the Series D Investors plus a simple interest of 8% per annum minus any dividends paid; and (ii) the then fair value of the shares held by the Series D Investors.

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

*Liquidation preferences*

Upon the occurrence of a Liquidation Event, the Series D Investors shall be entitled to receive the liquidation preference amount calculated as the sum of (i) the higher of (a) 108% of the investment amount paid by the Series D Investors; and (b) the investment amount paid by Series D Investors and the consideration paid by the Series D Investors plus a simple interest of 8% per annum; and (ii) a pro-rata share of the Company’s remaining distributable net assets.

A Liquidation Event includes (i) a liquidation, dissolution or winding up of the Company; (ii) a sale or transfer of all or a significant portion of assets or business of the Group; (iii) a sale or exclusive licensing of all or a significant portion of intellectual properties of the the Company to a third party; (iv) a change in control of the Company upon a merger, acquisition, reorganisation or consolidation of the Company; (v) resignation of the controlling shareholder; or (vi) breach of law and material misconduct by the controlling shareholder resulting in significant loss to the Company.

The preferential rights granted to the Investors shall be suspended upon first submission of an [REDACTED] application and will be automatically restored if such application is withdrawn or rejected.

On December 31, 2024, all investors signed the side Letter to agree extend the expected timeline for completion of the qualified [REDACTED] as set in the subscription agreement which dated December 29, 2023, from December 31, 2024 to December 31, 2025.

**23 DERIVATIVE FINANCIAL LIABILITIES**

The following table shows the movement of the derivative financial liabilities:

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

The Group granted options to some financial institutions which give them the right to subscribe for Shenzhen Shanhui’s shares. The options are accounted for as derivative financial liabilities in accordance with paragraphs 19 and 26 of IAS 32 as the Company does not have an unconditional right to avoid delivering cash to settle the options and the options meet the definition of derivatives. The details and key terms of the options are summarized as follows:

- (i) In 2020, the Group entered into an option agreement with a related party pursuant to which the related party was granted the right to make a capital contribution to the Company at the agreed exercise price during the exercise period from April 30, 2020 to April 30, 2023. The option is carried at fair value recognised in the profit or loss.

In April 2023, the option agreement expired.

	<b>As at December 31,</b>	
	<b>2021</b>	<b>2022</b>
Risk-free interest rates . . . . .	2.29%	0.50%
Expected term – years . . . . .	1.33	0.33
Expected volatility . . . . .	44.00%	35.00%
Exercise price . . . . .	80% of the then fair value of per ordinary share of Shenzhen Shanhui	80% of the then fair value of per ordinary share of Shenzhen Shanhui
Number of exercisable options . . . . .	408,163	408,163
Equity value (RMB’000). . . . .	637,000	1,120,000

- (ii) In 2019, the Group entered into an option agreement with a third party pursuant to which the third party was granted the right to purchase a certain number of equity from the Shenzhen Shanhui during the exercise period from February 1, 2019 to January 30, 2026. The option is carried at fair value recognised in the profit or loss.

In December 2023, the Group entered into an supplementary agreement with this third party, and paid the consideration in January 2024 and the option agreement terminated simultaneously.

	<b>As at December 31,</b>	
	<b>2021</b>	<b>2022</b>
Risk-free interest rates . . . . .	2.54%	2.41%

Number of exercisable options . . . . .	38,022
Equity value (RMB’000). . . . .	637,000

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

**24 EQUITY-SETTLED SHARE-BASED PAYMENT**

The table below sets forth share-based payments expenses for share options during the Track Record Period:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
					<i>(unaudited)</i>	
Share Option Plan . . . . .	1,980	1,012	457	–	–	–

Shenzhen Shanhui granted share-based awards to qualified directors and employees pursuant to the Share Option Plan, which was adopted in December 2018 and governed by the contractual terms of the awards. The vesting period last from 0 to 3 years. The qualified participants of the Share Option Plan are required to satisfy certain vesting service and non-market performance conditions for the entitlements. In accordance with the Share Option Plan agreements, the holders of vested options are entitled to purchase Shenzhen Shanhui’s shares at fixed prices predetermined as at each vesting date.

The Group recognises share-based payment expenses in its consolidated statements of profit or loss based on awards ultimately expected to vest.

A summary of the share options is presented as follows:

	Year ended December 31,								Six months ended June 30,			
	2021		2022		2023		2024		2024		2025	
	Weighted average exercise price	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price	Number of options
Outstanding at the beginning of the year . . . . .	0.40	23,983,000	0.39	24,938,000	0.39	25,423,000	–	–	–	–	–	–
Granted during the year . . . . .	0.28	955,000	0.40	485,000	–	–	–	–	–	–	–	–
Cancelled during the year . . . . .	–	–	–	–	0.39	(25,423,000)	–	–	–	–	–	–
Outstanding at the end of the year . . . . .	0.39	24,938,000	0.39	25,423,000	–	–	–	–	–	–	–	–

***Fair value of share options***

The fair value of share options was estimated using the Binomial Option Pricing Model. The determination of estimated fair value of share-based payment awards on the grant date is affected by the fair value of Shenzhen Shanhui’s ordinary shares as well as assumptions regarding a number of complex and subjective variables. These variables include the expected volatility of the shares of Shenzhen Shanhui over the expected term of the awards, actual and projected employee share option exercise behaviors, a risk-free interest rate and expected dividends, if any. The grant date fair value of the share options was determined with the assistance of an independent third-party valuation firm. The fair value of the ordinary shares was principally developed through the application of the Binomial Option Pricing Model.

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

Based on fair value of the underlying ordinary shares, the Group has used Binomial Option Pricing Model to determine the fair value of the share option as at the grant date. Key assumptions are set as below:

	<u>As at grant date</u>
Risk-free interest rates . . . . .	2.10%-2.46%
Expected term - years . . . . .	0-3
Expected volatility . . . . .	49%-50%
Exercise multiple . . . . .	2.2
Fair value of ordinary shares (RMB)*. . . . .	17.31-39.80
Exercise price (RMB). . . . .	0.00-0.50
Dividend yield . . . . .	0.00%

\* Calculated based on Shenzhen Shanhui’s ordinary shares

**25 CAPITAL, RESERVES AND DIVIDENDS**

**(a) Combined capital/Share Capital**

*(i) Combined capital/Share Capital of the Group*

For the purpose of the Historical Financial Information, Shenzhen Shanhui was an onshore holding company before the Reorganisation, the combined capital as at December 31, 2021 and 2022 represented the aggregate amount of share capital of the companies now comprising the Group after elimination of the inter-company investment.

The Company was incorporated as an exempted company in the Cayman Islands on 11 August, 2021 with authorised capital of HKD380,000 divided into 38,000,000 shares with a par value of HK\$0.01 each.

*(ii) Capital contribution by investors*

An investor injected RMB1,868,000 in Shenzhen Shanhui in July 2023. According to the agreement, RMB717,000 was recognised as paid in capital, and RMB1,151,000 was recognised as capital reserve.

*(iii) Issuance of shares by the Company*

Pursuant to a share subscription agreement dated April 18, 2023, the Company allotted and issued 13,464,920 ordinary shares with a par value of HK\$0.01 each to shareholders, equivalent to RMB122,000, and RMB38,119,000 was recognised as share premium.

**(b) Movements in components of equity**

Details of movements of issued share capital of the Company are as follows:

	<u>Number of shares</u>	<u>Share capital HKD</u>	<u>Share capital RMB’000</u>
Ordinary shares of HKD0.01 each			
At January 1, 2021, December 31, 2021 and December 31, 2022	–	–	–
Issued during the year:	13,464,920	134,649	122
At December 31, 2023 and 2024 and June 30, 2025	13,464,920	134,649	122

(c) Nature and purposes of reserves

(i) Capital reserve/Share premium

For the purpose of this report, the capital reserve represented the capital injection received in excess of the total amount of paid-in capital of Shenzhen Shanhui before the completion of the Reorganisation.

Share premium account represents the difference between the consideration and the par value of the issued shares of the Company.

(ii) Share-based payments reserve

The share-based payments reserve represents the portion of the grant date fair value of share options granted to the directors and employees of the Group that has been recognised in accordance with the accounting policy adopted for share-based payments reserve in Note 2(o)(ii).

(iii) Other reserve

The other reserve represents (i) reserve arising from the Reorganisation; and (ii) the initial recognition and modification of redemption liabilities. The details of redemption liabilities is disclosed in Note 22.

(iv) Exchange reserve

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements for operations outside of PRC.

(v) Effect arising from Reorganisation

Effect arising from Reorganisation represents the consideration to ordinary shareholders for the acquisition of Shenzhen Shanhui by Zhejiang Shanhui.

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

**(d) Dividends**

No dividend or distribution has been declared or made by the Company or any of the companies now comprising the Group in the Track Record Period or any period subsequent to June 30, 2025.

**(e) Capital management**

The Group’s primary objectives when managing capital are to safeguard the Group’s ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

**26 FINANCIAL RISK MANAGEMENT**

Exposure to credit, liquidity, interest rate and currency risks arises in the normal course of the Group’s business.

The Group’s exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

**(a) Credit risks**

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group’s credit risk is primarily attributable to trade receivables, receivables from upstream sourcing partners, other receivables, and cash and cash equivalents.

The Group’s exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are mainly banks and financial institutions with high credit rating.

The Group is not exposed to significant credit risk from sales of pre-owned electronic products as the Group usually requires payments in advance before delivery.

**Trade receivables**

The Group has established a credit risk management policy under which individual credit evaluations are performed on all customers requiring credit over a certain amount. The Group’s exposure to credit risk is mainly attributable to trade receivables related to merchant customers. At December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, approximately 81.5%, 92.5%, 80.4%, 64.3% and 60.4% of the trade receivables was due from the Group’s top five largest customers respectively.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. The following table provides information about the Group’s exposure to credit risk and ECLs for trade receivables as at December 31, 2021, 2022, 2023 and 2024 and June 30, 2025:

	As at December 31, 2021		
	Expected loss rate	Gross carrying amount	Loss allowance
	%	RMB’000	RMB’000

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

Movement in the loss allowance account in respect of trade receivables during the year is as follows:

	Year ended December 31				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
					<i>(unaudited)</i>	
Balance at January 1 . . .	33	197	2,113	4,982	4,982	6,797
Impairment losses recognised during the year/period . .	164	1,916	2,869	1,815	1,279	355
Balance at December 31/ June 30 . . . .	197	2,113	4,982	6,797	6,261	7,152

Expected loss rates are based on actual loss experience over the past year. These rates are adjusted to reflect differences between collection of trade receivables during the period over which the historic data has been collected, current conditions and the Group’s view of economic conditions over the expected lives of the receivables.

***Receivables from upstream sourcing partners***

The upstream sourcing partners offers promotion discounts to individual consumers which were paid by the Group in advance under our trade-in solution transaction services. The Group usually get reimbursed of such promotion discounts from the upstream sourcing partners within three months after the Group reconciles the accounts with the upstream sourcing partners. The Group considered the credit risk exposure arising from the receivables from upstream sourcing partners to be insignificant since the counterparties have strong financial capacity to meet their contractual cash flow obligations in the near term. The expected credit losses on these receivables are insignificant.

***Other receivables***

The Group’s other receivables mainly include rental and other deposit, the Group considers the probability of default upon initial recognition and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring as at the reporting date with the risk of default as at the date of initial recognition.

Movement in the loss allowance account in respect of other receivables during the year is as follows:

	Year ended December 31				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
					<i>(unaudited)</i>	
Balance at January 1 . .	1,000	1,000	1,000	2,050	2,050	2,050
Impairment losses recognised during the year/period . . . . .	–	–	1,050	–	25	3
Balance at December 31/ June 30 . . . . .	1,000	1,000	2,050	2,050	2,075	2,053

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

**(b) Liquidity risk**

The Group’s policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term. Historically, the Group has relied principally on both operational sources of cash and non-operational sources of equity and debt financing to fund its operations and business development.

The Group considered historical cash requirements, working capital and capital expenditures plans, estimated cash flows provided by operations, existing cash on hand, as well as other key factors, including utilisation of credit facilities granted by financial institutions. Management believes the assumptions used in the cash forecast are reasonable.

The following tables show the remaining contractual maturities at the end of the reporting period of the Group’s non-derivative financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the end of the reporting period) and the earliest date the Group can be required to pay.

APPENDIX I

ACCOUNTANTS’ REPORT

(c) Interest rate risk

(i) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group’s interest rate risk arises primarily from short-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk.

(ii) Interest rate profile

The following table details the interest rate profile of the Group’s borrowings at the end of the reporting period.

	As at December 31,						As at June 30,			
	2021		2022		2023		2024		2025	
	Effective interest rate	RMB’000	Effective interest rate	RMB’000	Effective interest rate	RMB’000	Effective interest rate	RMB’000	Effective interest rate	RMB’000
<b>Fixed rate borrowings:</b>										
Lease liabilities . . . . .	6.385%	2,562	4.55%-6.385%	3,673	4.55%-6.385%	11,022	3.85%-6.385%	6,701	3.85%-6.385%	3,722
Bank loans . . . . .	/	-	/	-	3.85%-4.45%	75,000	3.50%-4.10%	90,500	3.50%-4.42%	77,900
		2,562		3,673		86,022		97,201		81,622
		-----		-----		-----		-----		-----
<b>Variable rate borrowings:</b>										
Bank loans . . . . .	/	-	LPR-0.1%	11,000	LPR-0.1%	30,000	LPR +0.3%	11,000	LPR +0.3%	11,000
		-----		-----		-----		-----		-----
Total borrowings . . . . .		<u>2,562</u>		<u>14,673</u>		<u>116,022</u>		<u>108,201</u>		<u>92,622</u>
Fixed rate borrowings as a percentage of total borrowings . . . . .		<u>100.00%</u>		<u>25.03%</u>		<u>74.14%</u>		<u>89.83%</u>		<u>88.12%</u>

At December 31, 2022, 2023 and 2024 and June 30, 2025, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would have increased/decreased the Group’s loss after tax and accumulated loss by approximately RMB82,000, RMB157,000, RMB72,000 and RMB31,000 respectively.

The sensitivity analysis above indicates the cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the end of the reporting period, the impact on the Group’s loss after tax (and accumulated loss) is estimated as an annualised impact on interest expense or income of such a change in interest rates.

(d) Currency risk

The Group mainly operates in the PRC with most of the transactions settled in RMB. Management considers that the business is not exposed to any significant foreign exchange risk as there are no significant financial assets or liabilities of the Group denominated in currencies other than the respective functional currencies of the Group’s entities.

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

(e) **Fair value measurement**

(i) *Financial liabilities measured at fair value*

*Fair value hierarchy*

The following table presents the fair value of the Group’s financial instruments measured at the end of each reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

The following table presents the Group’s financial assets and liabilities that are measured at fair value at the end of each reporting dates:

	<b>Fair value measurements as at December 31, 2021 categorised into</b>			
	<b>Fair value at December 31, 2021</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>

Derivative financial liabilities				
– Options ( <i>Note(i)</i> ) . . . . .	(8,077)	–	–	(8,077)

APPENDIX I

ACCOUNTANTS’ REPORT

	Fair value measurements as at December 31, 2023 categorised into			
	Fair value at December 31, 2023	Level 1	Level 2	Level 3
	RMB’000	RMB’000	RMB’000	RMB’000
<b>Recurring fair value measurement</b>				
Financial assets measured at FVTPL				
– Listed equity securities . . .	827	827	–	–
Derivative financial liabilities				
– Options ( <i>Note(i)</i> ) . . . . .	(1,000)	–	(1,000)	–

	Fair value measurements as at December 31, 2024 categorised into			
	Fair value at December 31, 2024	Level 1	Level 2	Level 3
	RMB’000	RMB’000	RMB’000	RMB’000
<b>Recurring fair value measurement</b>				
Financial assets measured at FVTPL				
– Listed equity securities . . .	983	983	–	–

	Fair value measurements as at June 30, 2025 categorised into			
	Fair value at June 30, 2025	Level 1	Level 2	Level 3
	RMB’000	RMB’000	RMB’000	RMB’000
<b>Recurring fair value measurement</b>				
Financial assets measured at FVTPL				
– Listed equity securities . . .	1,053	1,053	–	–

*Note (i):*

As the options are not traded in an active market, the Group applied the market approach method and income approach method to determine the underlying equity value of the Group and adopted Binomial Option Pricing Model to determine the fair value of the options of 2021 and 2022, major assumptions used in the valuation for the options are presented in Note 23.

Fair value of the options is affected by changes in the Group’s equity value. If the Group’s equity value had increased/decreased by 10% with all other variables held constant, the loss before income tax for the year ended 31 December 2021 and 2022 would have been approximately RMB614,000/RMB582,000 higher/lower and RMB1,009,000/RMB997,000 higher/lower.

**APPENDIX I**

**ACCOUNTANTS’ REPORT**

**27 MATERIAL RELATED PARTY TRANSACTIONS**

The Group had the following transactions with its related parties during the Track Record Period:

**(a) Key management personnel remuneration**

Remuneration for key management personnel of the Group, including amounts paid to the Company’s directors as disclosed in Note 8 and certain of the highest paid employees as disclosed in Note 9, is as follows:

	Year ended December 31,				Six months ended June 30,	
	2021	2022	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
					<i>(unaudited)</i>

## APPENDIX I

## ACCOUNTANTS’ REPORT

The outstanding balances were in trade nature.

- (ii) During the year ended December 31, 2021, the Group borrowed and repaid RMB15,000,000 from a related party. The interest expenses incurred by the Group was RMB83,000 during the year ended December 31, 2021.
- (iii) The Group purchases pre-owned consumer electronics under a trade in solution set up with related parties. The Group pays these related parties ahead of these purchases. As at December 31, 2021, 2022, 2023 and 2024 and June 30, 2025, the outstanding receivable balances were RMB1,305,000, RMB12,771,000, RMB12,038,000, RMB12,913,000, and RMB4,876,000 respectively.

### (2) *Transactions with Directors of the Company*

As at December 31, 2021, 2022 and 2024 and June 30, 2025 amounts due from directors of the Company were RMB3,010,000, RMB3,717,000, RMB5,331,000, and RMB5,331,000 respectively. These amounts were unsecured, repayable on demand and expected to be settled before [REDACTED].

### (3) *Transactions with an entity controlled by the controlling shareholder of the Company*

As at December 31, 2022, there was other payables due to a related party amounted to RMB3,600,000. These amounts were fully settled in the year ended December 31, 2023.

## 28 IMMEDIATE AND ULTIMATE CONTROLLING PARTY

As at the date of this report, the Directors consider the immediate parent of the Company to be ShanH Holding Limited, which is incorporated in the BVI, and the ultimate controlling party of the Company to be Mr. Liu Jianyi.

## 29 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE TRACK RECORD PERIOD

Up to the date of issue of this report, the IASB has issued a number of amendments and new standards, which are not yet effective for the Track Record Period and which have not been adopted in the Historical Financial Information. These include the following.

	<b>Effective for accounting periods beginning on or after</b>
Amendments to IFRS 9 and IFRS 7, <i>Contracts referencing nature-dependent electricity</i>	January 1, 2026
Amendments to IFRS 9 and IFRS 7, <i>Amendments to the Classification and Measurement of Financial Instruments</i>	January 1, 2026
Annual Improvements to IFRS Accounting Standards – Volume 11	January 1, 2026
IFRS 18, <i>Presentation and Disclosure in Financial Statements</i>	January 1, 2027
IFRS 19, <i>Subsidiaries without Public Accountability: Disclosures</i>	January 1, 2027
Amendments to IFRS 10 and IAS 28, <i>Sale or contribution of assets between an investor and its associate or joint venture</i>	To be determined

The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application. So far, the Group has concluded that the adoption of them is unlikely to have a significant impact on the Historical Financial Information.

**30 SUBSEQUENT EVENTS**

On [●], the Company increased its authorized share capital from HK\$380,000 divided into 38,000,000 Shares of HK\$0.01 each to HK\$[50,000,000] divided into [5,000,000,000] Shares of HK\$0.01 each through the creation of [4,962,000,000] additional Shares. Such Shares shall rank *pari passu* in all respects with the existing issued Shares.

**Subsequent financial statements**

No audited financial statements have been prepared by the Company or its subsidiaries comprising the Group in respect of any period subsequent to June 30, 2025.

---

Set out below is a summary of certain provisions of the Memorandum and Articles of Association of our Company and of certain aspects of Cayman company law.

Our Company was incorporated in the Cayman Islands as an exempted company with limited liability on 11 August 2021 under the Companies Act (As Revised) of the Cayman Islands (the "Companies Act"). Our Company's constitutional documents consist of its Amended and Restated Memorandum of Association (the "Memorandum") and its Amended and Restated Articles of Association (the "Articles").

**1. MEMORANDUM OF ASSOCIATION**

- (a) The Memorandum states, inter alia, that the liability of members of our Company is limited to the amount, if any, for the time being unpaid on the shares respectively held by them and that the objects for which our Company is established are unrestricted (including acting as an investment company), and that our Company shall have and be capable of exercising all the functions of a natural person of full capacity irrespective of any question of corporate benefit, as provided in section 27(2) of the Companies Act and in view of the fact that our Company is an exempted company that our Company will not trade in the Cayman Islands with any person, firm or corporation except in furtherance of the business of our Company carried on outside the Cayman Islands.
- (b) Our Company may by special resolution alter its Memorandum with respect to any objects, powers or other matters specified therein.

**2. ARTICLES OF ASSOCIATION**

The Articles were conditionally adopted on [●] with effect from the [REDACTED]. The following is a summary of certain provisions of the Articles:

**(a) Shares**

*(i) Classes of shares*

The share capital of our Company consists of ordinary shares.

*(ii) Variation of rights of existing shares or classes of shares*

Subject to the Companies Act, if at any time the share capital of our Company is divided into different classes of shares, all or any of the special rights attached to the shares or any class of shares may (unless otherwise provided for by the terms of issue of that class) be varied, modified or abrogated either with the consent in writing of the holders of not less than three-fourths in nominal value of the issued shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class. To

---

APPENDIX III                      SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW

---

every such separate general meeting the provisions of the Articles relating to general meetings will *mutatis mutandis* apply, but so that the necessary quorum (including at an adjourned meeting) shall be two persons holding or representing by proxy not less than one-third in nominal value of the issued shares of that class. Every holder of shares of the class shall be entitled to one vote for every such share held by him.

Any special rights conferred upon the holders of any shares or class of shares shall not, unless otherwise expressly provided in the rights attaching to the terms of issue of such shares, be deemed to be varied by the creation or issue of further shares ranking *pari passu* therewith.

*(iii) Alteration of capital*

Our Company may by ordinary resolution of our members:

- (i) increase our share capital by the creation of new shares;
- (ii) consolidate all or any of our capital into shares of larger amount than its existing shares;
- (iii) divide our shares into several classes and attach to such shares any preferential, deferred, qualified or special rights, privileges, conditions or restrictions as our Company in general meeting or as our directors may determine;
- (iv) subdivide our shares or any of them into shares of smaller amount than is fixed by the Memorandum; or
- (v) cancel any shares which, at the date of passing of the resolution, have not been taken and diminish the amount of its capital by the amount of the shares so cancelled.

Our Company may reduce its share capital or any capital redemption reserve or other undistributable reserve in any way by special resolution.

*(iv) Transfer of shares*

All transfers of shares may be effected by an instrument of transfer in the usual or common form or in a form prescribed by The Stock Exchange of Hong Kong Limited (the "Stock Exchange") or in such other form as our Board may approve and which may be under hand or, if the transferor or transferee is a clearing house or its nominee(s), by hand or by machine imprinted signature or by such other manner of execution as our Board may approve from time to time.

---

APPENDIX III

SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW

---

Notwithstanding the foregoing, for so long as any shares are listed on the Stock Exchange, titles to such listed shares may be evidenced and transferred in accordance with the laws applicable to and the rules and regulations of the Stock Exchange that are or shall be applicable to such listed shares. The register of members in respect of its listed shares (whether the principal register or a branch register) may be kept by recording the particulars required by Section 40 of the Companies Act in a form otherwise than legible if such recording otherwise complies with the laws applicable to and the rules and regulations of the Stock Exchange that are or shall be applicable to such listed shares.

The instrument of transfer shall be executed by or on behalf of the transferor and the transferee provided that our Board may dispense with the execution of the instrument of transfer by the transferee. The transferor shall be deemed to remain the holder of the share until the name of the transferee is entered in the register of members in respect of that share.

Our Board may, in its absolute discretion, at any time transfer any share upon the principal register to any branch register or any share on any branch register to the principal register or any other branch register.

Our Board may decline to recognise any instrument of transfer unless a fee (not exceeding the maximum sum as the Stock Exchange may determine to be payable) determined by our Directors is paid to our Company, the instrument of transfer is properly stamped (if applicable), it is in respect of only one class of share and is lodged at the relevant registration office or registered office or such other place at which the principal register is kept accompanied by the relevant share certificate(s) and such other evidence as our Board may reasonably require to show the right of the transferor to make the transfer (and if the instrument of transfer is executed by some other person on his behalf, the authority of that person so to do).

The registration of transfers may be suspended and the register closed on giving notice by advertisement in any newspaper or by any other means in accordance with the requirements of the Stock Exchange, at such times and for such periods as our Board may determine. The register of members must not be closed for periods exceeding in the whole thirty (30) days in any year. The period of thirty (30) days may be extended for a further period or periods not exceeding thirty (30) days in respect of any year if approved by members by ordinary resolution.

Subject to the above, fully paid shares are free from any restriction on transfer and free of all liens in favour of our Company.

*(v) Power of our Company to purchase its own shares*

Our Company is empowered by the Companies Act and the Articles to purchase our own shares subject to certain restrictions and our Board may only exercise this power on behalf of our Company subject to any applicable requirements imposed from time to time by the Stock Exchange. Subject to the Companies Act, the rules of the Stock Exchange and of any competent regulatory authority, our Company is also authorised to hold any repurchased, redeemed or surrendered shares as treasury shares without the need for a separate resolution of our Board for each instance.

Our Board may accept the surrender for no consideration of any fully paid share.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

*(vi) Power of any subsidiary of our Company to own shares in our Company*

There are no provisions in the Articles relating to ownership of shares in our Company by a subsidiary.

*(vii) Calls on shares and forfeiture of shares*

Our Board may from time to time make such calls upon the members in respect of any monies unpaid on the shares held by them respectively (whether on account of the nominal value of the shares or by way of premium). A call may be made payable either in one lump sum or by installments. If the sum payable in respect of any call or instalment is not paid on or before the day appointed for payment thereof, the person or persons from whom the sum is due shall pay interest on the same at such rate not exceeding twenty per cent. (20%) per annum as our Board may agree to accept from the day appointed for the payment thereof to the time of actual payment, but our Board may waive payment of such interest wholly or in part. Our Board may, if it thinks fit, receive from any member willing to advance the same, either in money or money's worth, all or any part of the monies uncalled and unpaid or installments payable upon any shares held by him, and upon all or any of the monies so advanced our Company may pay interest at such rate (if any) as our Board may decide.

If a member fails to pay any call on the day appointed for payment thereof, our Board may serve not less than fourteen (14) clear days' notice on him requiring payment of so much of the call as is unpaid, together with any interest which may have accrued and which may still accrue up to the date of actual payment and stating that, in the event of non-payment at or before the time appointed, the shares in respect of which the call was made will be liable to be forfeited.

If the requirements of any such notice are not complied with, any share in respect of which the notice has been given may at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of our Board to that effect. Such forfeiture will include all dividends and bonuses declared in respect of the forfeited share and not actually paid before the forfeiture.

A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares but shall, notwithstanding, remain liable to pay to our Company all monies which, at the date of forfeiture, were payable by him to our Company in respect of the shares, together with (if our Board shall in its discretion so require) interest thereon from the date of forfeiture until the date of actual payment at such rate not exceeding twenty per cent. (20%) per annum as our Board determines.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

**(b) Directors**

*(i) Appointment, retirement and removal*

At each annual general meeting, one third of our Directors for the time being (or if their number is not a multiple of three, then the number nearest to but not less than one third) shall retire from office by rotation provided that every Director shall be subject to retirement at an annual general meeting at least once every three years. Our Directors to retire by rotation shall include any Director who wishes to retire and not offer himself for re-election. Any further Directors so to retire shall be those who have been longest in office since their last re-election or appointment but as between persons who became or were last re-elected Directors on the same day those to retire will (unless they otherwise agree among themselves) be determined by lot.

Neither a Director nor an alternate Director is required to hold any shares in our Company by way of qualification. Further, there are no provisions in the Articles relating to retirement of Directors upon reaching any age limit.

Our Directors have the power to appoint any person as a Director either to fill a casual vacancy on our Board or as an addition to the existing board. Any Director so appointed shall hold office only until the first annual general meeting of our Company after his appointment and shall then be eligible for re-election.

A Director (including a managing or other executive Director) may be removed by an ordinary resolution of our Company before the expiration of his term of office (but without prejudice to any claim which such Director may have for damages for any breach of any contract between him and our Company) and members of our Company may by ordinary resolution appoint another in his place. Unless otherwise determined by our Company in general meeting, the number of Directors shall not be less than two. There is no maximum number of Directors.

The office of director shall be vacated if:

- (aa) he resigns by notice in writing delivered to our Company;
- (bb) he becomes of unsound mind or dies;
- (cc) without special leave, he is absent from meetings of our Board for six (6) consecutive months, and our Board resolves that his office is vacated;
- (dd) he becomes bankrupt or has a receiving order made against him or suspends payment or compounds with his creditors;

---

APPENDIX III

SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW

---

- (ee) he is prohibited from being a director by law; or
- (ff) he ceases to be a director by virtue of any provision of law or is removed from office pursuant to the Articles.

Our Board may appoint one or more of our body to be managing director, joint managing director, or deputy managing director or to hold any other employment or executive office with our Company for such period and upon such terms as our Board may determine and our Board may revoke or terminate any of such appointments. Our Board may delegate any of its powers, authorities and discretions to committees consisting of such Director or Directors and other persons as our Board thinks fit, and it may from time to time revoke such delegation or revoke the appointment of and discharge any such committees either wholly or in part, and either as to persons or purposes, but every committee so formed must, in the exercise of the powers, authorities and discretions so delegated, conform to any regulations that may from time to time be imposed upon it by our Board.

*(ii) Power to allot and issue shares and warrants*

Subject to the provisions of the Companies Act and the Memorandum and Articles and to any special rights conferred on the holders of any shares or class of shares, any share may be issued (a) with or have attached thereto such rights, or such restrictions, whether with regard to dividend, voting, return of capital, or otherwise, as our Directors may determine, or (b) on terms that, at the option of our Company or the holder thereof, it is liable to be redeemed.

Our Board may issue warrants or convertible securities or securities of similar nature conferring the right upon the holders thereof to subscribe for any class of shares or securities in the capital of our Company on such terms as it may determine.

Subject to the provisions of the Companies Act and the Articles and, where applicable, the rules of the Stock Exchange and without prejudice to any special rights or restrictions for the time being attached to any shares or any class of shares, all unissued shares in our Company are at the disposal of our Board, which may offer, allot, grant options over or otherwise dispose of them to such persons, at such times, for such consideration and on such terms and conditions as it in its absolute discretion thinks fit, but so that no shares shall be issued at a discount to their nominal value.

Neither our Company nor our Board is obliged, when making or granting any allotment of, offer of, option over or disposal of shares, to make, or make available, any such allotment, offer, option or shares to members or others with registered addresses in any particular territory or territories being a territory or territories where, in the absence of a registration statement or other special formalities, this would or might, in the opinion of our Board, be unlawful or impracticable. Members affected as a result of the foregoing sentence shall not be, or be deemed to be, a separate class of members for any purpose whatsoever.

---

**APPENDIX III**                      **SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

---

*(iii) Power to dispose of the assets of our Company or any of our subsidiaries*

There are no specific provisions in the Articles relating to the disposal of the assets of our Company or any of its subsidiaries. Our Directors may, however, exercise all powers and do all acts and things which may be exercised or done or approved by our Company and which are not required by the Articles or the Companies Act to be exercised or done by our Company in general meeting.

*(iv) Borrowing powers*

Our Board may exercise all the powers of our Company to raise or borrow money, to mortgage or charge all or any part of the undertaking, property and assets and uncalled capital of our Company and, subject to the Companies Act, to issue debentures, bonds and other securities of our Company, whether outright or as collateral security for any debt, liability or obligation of our Company or of any third party.

*(v) Remuneration*

The ordinary remuneration of our Directors is to be determined by our Company in general meeting, such sum (unless otherwise directed by the resolution by which it is voted) to be divided amongst our Directors in such proportions and in such manner as our Board may agree or, failing agreement, equally, except that any Director holding office for part only of the period in respect of which the remuneration is payable shall only rank in such division in proportion to the time during such period for which he held office. Our Directors are also entitled to be prepaid or repaid all travelling, hotel and incidental expenses reasonably expected to be incurred or incurred by them in attending any board meetings, committee meetings or general meetings or separate meetings of any class of shares or of debentures of our Company or otherwise in connection with the discharge of their duties as Directors.

Any Director who, by request, goes or resides abroad for any purpose of our Company or who performs services which in the opinion of our Board go beyond the ordinary duties of a Director may be paid such extra remuneration as our Board may determine and such extra remuneration shall be in addition to or in substitution for any ordinary remuneration as a Director. An executive Director appointed to be a managing director, joint managing director, deputy managing director or other executive officer shall receive such remuneration and such other benefits and allowances as our Board may from time to time decide. Such remuneration may be either in addition to or in lieu of his remuneration as a Director.

Our Board may establish or concur or join with other companies (being subsidiary companies of our Company or companies with which it is associated in business) in establishing and making contributions out of our Company's monies to any schemes or funds for providing pensions, sickness or compassionate allowances, life assurance or other benefits for employees (which expression as used in this and the following paragraph shall include any Director or past Director who may hold or have held any executive office or any office of profit with our Company or any of its subsidiaries) and ex-employees of our Company and their dependents or any class or classes of such persons.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

Our Board may pay, enter into agreements to pay or make grants of revocable or irrevocable, and either subject or not subject to any terms or conditions, pensions or other benefits to employees and ex-employees and their dependents, or to any of such persons, including pensions or benefits additional to those, if any, to which such employees or ex-employees or their dependents are or may become entitled under any such scheme or fund as is mentioned in the previous paragraph. Any such pension or benefit may, as our Board considers desirable, be granted to an employee either before and in anticipation of, or upon or at any time after, his actual retirement.

Our Board may resolve to capitalise all or any part of any amount for the time being standing to the credit of any reserve or fund (including a share premium account and the profit and loss account) whether or not the same is available for distribution by applying such sum in paying up unissued shares to be allotted to (i) employees (including directors) of our Company and/or its affiliates (meaning any individual, corporation, partnership, association, joint-stock company, trust, unincorporated association or other entity (other than our Company) that directly, or indirectly through one or more intermediaries, controls, is controlled by or is under common control with, our Company) upon exercise or vesting of any options or awards granted under any share incentive scheme or employee benefit scheme or other arrangement which relates to such persons that has been adopted or approved by the members in general meeting, or (ii) any trustee of any trust to whom shares are to be allotted and issued by our Company in connection with the operation of any share incentive scheme or employee benefit scheme or other arrangement which relates to such persons that has been adopted or approved by the members in general meeting.

***(vi) Compensation or payments for loss of office***

Pursuant to the Articles, payments to any Director or past Director of any sum by way of compensation for loss of office or as consideration for or in connection with his retirement from office (not being a payment to which the Director is contractually entitled) must be approved by our Company in general meeting.

***(vii) Loans and provision of security for loans to Directors***

Our Company must not make any loan, directly or indirectly, to a Director or his close associate(s) if and to the extent it would be prohibited by the Companies Ordinance (Chapter 622 of the laws of Hong Kong) as if our Company were a company incorporated in Hong Kong.

***(viii) Disclosure of interests in contracts with our Company or any of our subsidiaries***

A Director may hold any other office or place of profit with our Company (except that of the auditor of our Company) in conjunction with his office of Director for such period and upon such terms as our Board may determine, and may be paid such extra remuneration therefor in addition to any remuneration provided for by or pursuant to the Articles. A Director may be or become a director or other officer of, or otherwise interested in, any company promoted by our

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

Company or any other company in which our Company may be interested, and shall not be liable to account to our Company or the members for any remuneration, profits or other benefits received by him as a director, officer or member of, or from his interest in, such other company. Our Board may also cause the voting power conferred by the shares in any other company held or owned by our Company to be exercised in such manner in all respects as it thinks fit, including the exercise thereof in favour of any resolution appointing our Directors or any of them to be directors or officers of such other company, or voting or providing for the payment of remuneration to our directors or officers of such other company.

No Director or proposed or intended Director shall be disqualified by his office from contracting with our Company, either with regard to his tenure of any office or place of profit or as vendor, purchaser or in any other manner whatsoever, nor shall any such contract or any other contract or arrangement in which any Director is in any way interested be liable to be avoided, nor shall any Director so contracting or being so interested be liable to account to our Company or the members for any remuneration, profit or other benefits realised by any such contract or arrangement by reason of such Director holding that office or the fiduciary relationship thereby established. A Director who to his knowledge is in any way, whether directly or indirectly, interested in a contract or arrangement or proposed contract or arrangement with our Company must declare the nature of his interest at the meeting of our Board at which the question of entering into the contract or arrangement is first taken into consideration, if he knows his interest then exists, or in any other case, at the first meeting of our board after he knows that he is or has become so interested.

A Director shall not vote (nor be counted in the quorum) on any resolution of our board approving any contract or arrangement or other proposal in which he or any of his close associates is materially interested, but this prohibition does not apply to any of the following matters, namely:

- (aa) the giving of any security or indemnity either:–
  - (aaa) to our Director or his close associate(s) in respect of money lent or obligations incurred or undertaken by him or any of them at the request of or for the benefit of our Company or any of its subsidiaries; or
  - (bbb) to a third party in respect of a debt or obligation of our Company or any of our subsidiaries for which our Director or his close associate(s) has himself/themselves assumed responsibility in whole or in part and whether alone or jointly under a guarantee or indemnity or by the giving of security;
- (bb) any proposal concerning an offer of shares or debentures or other securities of or by our Company or any other company which our Company may promote or be interested in for subscription or purchase where our Director or his close associate(s) is/are or is/are to be interested as a participant in the underwriting or sub-underwriting of the offer;

---

**APPENDIX III**                      **SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

---

- (cc) any proposal or arrangement concerning the benefit of employees of our Company or its subsidiaries including:–
  - (aaa) the adoption, modification or operation of any employees' share scheme or any share incentive or share option scheme under which our Director or his close associate(s) may benefit; or
  - (bbb) the adoption, modification or operation of a pension fund or retirement, death or disability benefits scheme which relates to our Directors, his close associate(s) and employee(s) of our Company or any of our subsidiaries and does not provide in respect of any Director, or his close associate(s), as such any privilege or advantage not generally accorded to the class of persons to which such scheme or fund relates;
- (dd) any contract or arrangement in which our Director or his close associate(s) is/are interested in the same manner as other holders of shares or debentures or other securities of our Company by virtue only of his/their interest in shares or debentures or other securities of our Company.

**(c) Proceedings of our Board**

Our Board may meet for the despatch of business, adjourn and otherwise regulate its meetings as it considers appropriate. Questions arising at any meeting shall be determined by a majority of votes. In the case of an equality of votes, the chairman of the meeting shall have an additional or casting vote.

**(d) Alterations to constitutional documents and our Company's name**

The Articles may be rescinded, altered or amended by our Company in general meeting by special resolution. The Articles state that a special resolution shall be required to alter the provisions of the Memorandum, to amend the Articles or to change the name of our Company.

**(e) Meetings of members**

**(i) *Special and ordinary resolutions***

A special resolution of our Company must be passed by a majority of not less than three-fourths of the votes cast by such members as, being entitled so to do, vote in person or, in the case of such members as are corporations, by their duly authorised representatives or, where proxies are allowed, by proxy at a general meeting of which notice has been duly given in accordance with the Articles.

Under the Companies Act, a copy of any special resolution must be forwarded to the Registrar of Companies in the Cayman Islands within fifteen (15) days of being passed.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

An ordinary resolution is defined in the Articles to mean a resolution passed by a simple majority of the votes of such members of our Company as, being entitled to do so, vote in person or, in the case of corporations, by their duly authorised representatives or, where proxies are allowed, by proxy at a general meeting of which notice has been duly given in accordance with the Articles.

*(ii) Voting rights and right to demand a poll*

Subject to any special rights or restrictions as to voting for the time being attached to any shares, at any general meeting on a poll every member present in person or by proxy or, in the case of a member being a corporation, by its duly authorised representative shall have one vote for every fully paid share of which he is the holder but so that no amount paid up or credited as paid up on a share in advance of calls or installments is treated for the foregoing purposes as paid up on the share. A member entitled to more than one vote need not use all his votes or cast all the votes he uses in the same way.

At any general meeting a resolution put to the vote of the meeting is to be decided by way of a poll save that our chairman of the meeting may in good faith, allow a resolution which relates purely to a procedural or administrative matter to be voted on by a show of hands in which case every member present in person (or being a corporation, is present by a duly authorized representative), or by proxy(ies) shall have one vote provided that where more than one proxy is appointed by a member which is a clearing house (or its nominee(s)), each such proxy shall have one vote on a show of hands. Votes (whether on a show of hands or by way of poll) may be cast by such means, electronic or otherwise, as our Directors or our chairman of the meeting may determine.

Any corporation which is a member may by resolution of its directors or other governing body authorise such person as it thinks fit to act as its representative at any general meeting of our Company or at any meeting of any class of members. The person so authorised shall be entitled to exercise the same powers on behalf of such corporation as the corporation could exercise if it were an individual member and such corporation shall for the purposes of the Articles be deemed to be present in person at any such meeting if a person so authorised is present thereat.

If a recognised clearing house (or its nominee(s)) is a member of our Company it may authorise such person or persons as it thinks fit to act as its representative(s) at any meeting of our Company or at any meeting of any class of members of our Company provided that, if more than one person is so authorised, the authorisation shall specify the number and class of shares in respect of which each such person is so authorised. A person authorised pursuant to this provision shall be deemed to have been duly authorised without further evidence of the facts and be entitled to exercise the same powers on behalf of the recognised clearing house (or its nominee(s)) as if such person was the registered holder of the shares of our Company held by that clearing house (or its nominee(s)) including, the right to speak and to vote, and where a show of hands is allowed, the right to vote individually on a show of hands.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

All members have the right to speak and vote at a general meeting except where a member is required, by the rules of the Stock Exchange, to abstain from voting to approve the matter under consideration.

Where our Company has any knowledge that any member is, under the rules of the Stock Exchange, required to abstain from voting on any particular resolution of our Company or restricted to voting only for or only against any particular resolution of our Company, any votes cast by or on behalf of such member in contravention of such requirement or restriction shall not be counted.

***(iii) Annual general meetings and extraordinary general meetings***

Our Company must hold an annual general meeting of our Company for each financial year and such general meeting must be held within six (6) months after the end of our Company's financial year unless a longer period would not infringe the rules of the Stock Exchange.

Extraordinary general meetings may be convened on the requisition of one or more members holding, at the date of deposit of the requisition, not less than one-tenth of the paid up capital of our Company having the right of voting at general meetings, on a one vote per share basis. Such requisition shall be made in writing to our Board or the secretary for the purpose of requiring an extraordinary general meeting to be called by our Board for the transaction of any business or resolution specified in such requisition. Such meeting shall be held within 2 months after the deposit of such requisition. If within 21 days of such deposit, our board fails to proceed to convene such meeting, the requisitionist(s) himself/herself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of our Board shall be reimbursed to the requisitionist(s) by our Company.

Notwithstanding any provisions in the Articles, any general meeting or any class meeting may be held physically, as a hybrid meeting (partially physical and partially electronic) or wholly by electronic means using such telephone, electronic or other communication facilities as to permit all persons participating in the meeting to communicate with each other, and participation in such a meeting shall constitute presence at such meeting. Unless otherwise determined by our Directors, the manner of convening and the proceedings at a general meeting set out in the Articles shall apply, *mutatis mutandis*, to hybrid or wholly electronic meetings.

***(iv) Notices of meetings and business to be conducted***

An annual general meeting must be called by notice of not less than twenty-one (21) clear days. All other general meetings must be called by notice of at least fourteen (14) clear days. The notice is exclusive of the day on which it is served or deemed to be served and of the day for which it is given, and must specify the time and place of the meeting and particulars of resolutions to be considered at the meeting and, in the case of special business, the general nature of that business.

APPENDIX III

SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW

In addition, notice of every general meeting must be given to all members of our Company other than to such members as, under the provisions of the Articles or the terms of issue of the shares they hold, are not entitled to receive such notices from our Company, and also to, among others, the auditors for the time being of our Company.

Any notice to be given to or by any person pursuant to the Articles may be served on or delivered to any member of our Company personally, by post to such member's registered address or by advertisement in newspapers in accordance with the requirements of the Stock Exchange. Subject to compliance with Cayman Islands law and the rules of the Stock Exchange, notice may also be served or delivered by our Company to any member by electronic means.

All business that is transacted at an extraordinary general meeting and at an annual general meeting is deemed special, save that in the case of an annual general meeting, each of the following business is deemed an ordinary business:

- (aa) the declaration and sanctioning of dividends;
  - (bb) the consideration and adoption of the accounts and balance sheet and the reports of our Directors and the auditors;
  - (cc) the election of directors in place of those retiring;
  - (dd) the appointment of auditors and other officers; and
  - (ee) the fixing of the remuneration of our Directors and of the auditors.
- (v) *Quorum for meetings and separate class meetings*

No business shall be transacted at any general meeting unless a quorum is present when the meeting proceeds to business, but the absence of a quorum shall not preclude the appointment of a chairman.

The quorum for a general meeting shall be two members present in person (or, in the case of a member being a corporation, by its duly authorised representative) or by proxy or, for quorum purposes only, two persons appointed by the clearing house as authorized representative or proxy, and entitled to vote. In respect of a separate class meeting (including an adjourned meeting) convened to sanction the modification of class rights the necessary quorum shall be two persons holding or representing by proxy not less than one-third in nominal value of the issued shares of that class.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

**(vi) Proxies**

Any member of our Company entitled to attend and vote at a meeting of our Company is entitled to appoint another person as his proxy to attend and vote instead of him. A member who is the holder of two or more shares may appoint more than one proxy to represent him and vote on his behalf at a general meeting of our Company or at a class meeting. A proxy need not be a member of our Company and is entitled to exercise the same powers on behalf of a member who is an individual and for whom he acts as proxy as such member could exercise. In addition, a proxy is entitled to exercise the same powers on behalf of a member which is a corporation and for which he acts as proxy as such member could exercise as if it were an individual member. Votes may be given either personally (or, in the case of a member being a corporation, by its duly authorised representative) or by proxy.

**(f) Accounts and audit**

Our Board shall cause true accounts to be kept of the sums of money received and expended by our Company, and the matters in respect of which such receipt and expenditure take place, and of the property, assets, credits and liabilities of our Company and of all other matters required by the Companies Act or necessary to give a true and fair view of our Company's affairs and to explain its transactions.

The accounting records must be kept at the registered office or at such other place or places as our Board decides and shall always be open to inspection by any Director. No member (other than a Director) shall have any right to inspect any accounting record or book or document of our Company except as conferred by law or authorised by our Board or our Company in general meeting. However, an exempted company must make available at its registered office in electronic form or any other medium, copies of its books of account or parts thereof as may be required of it upon service of an order or notice by the Tax Information Authority pursuant to the Tax Information Authority Act of the Cayman Islands.

A copy of every balance sheet and profit and loss account (including every document required by law to be annexed thereto) which is to be laid before our Company at our general meeting, together with a printed copy of our Directors' report and a copy of the auditors' report, shall not less than twenty-one (21) days before the date of the meeting and at the same time as the notice of annual general meeting be sent to every person entitled to receive notices of general meetings of our Company under the provisions of the Articles; however, subject to compliance with all applicable laws, including the rules of the Stock Exchange, our Company may send to such persons summarised financial statements derived from our Company's annual accounts and our directors' report instead provided that any such person may by notice in writing served on our Company, demand that our Company sends to him, in addition to summarised financial statements, a complete printed copy of our Company's annual financial statement and our directors' report thereon.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

At the annual general meeting or at a subsequent extraordinary general meeting in each year, the members shall by ordinary resolution appoint an auditor to audit the accounts of our Company and such auditor shall hold office until the next annual general meeting. Moreover, the members may, at any general meeting, by ordinary resolution remove the auditor at any time before the expiration of his terms of office and shall by ordinary resolution at that meeting appoint another auditor for the remainder of his term. The remuneration of the auditors shall be fixed and approved by our Company by an ordinary resolution passed at a general meeting or in such manner as the members may by ordinary resolution determine.

The financial statements of our Company shall be audited by the auditor in accordance with generally accepted auditing standards which may be those of a country or jurisdiction other than the Cayman Islands. The auditor shall make a written report thereon in accordance with generally accepted auditing standards and the report of the auditor must be submitted to the members in general meeting.

**(g) Dividends and other methods of distribution**

Our Company in general meeting may declare dividends in any currency to be paid to the members but no dividend shall be declared in excess of the amount recommended by our Board.

The Articles provide dividends may be declared and paid out of the profits of our Company, realised or unrealised, or from any reserve set aside from profits which our Directors determine is no longer needed. With the sanction of an ordinary resolution dividends may also be declared and paid out of share premium account or any other fund or account which can be authorised for this purpose in accordance with the Companies Act.

Except in so far as the rights attaching to, or the terms of issue of, any share may otherwise provide, (i) all dividends shall be declared and paid according to the amounts paid up on the shares in respect whereof the dividend is paid but no amount paid up on a share in advance of calls shall for this purpose be treated as paid up on the share and (ii) all dividends shall be apportioned and paid pro rata according to the amount paid up on the shares during any portion or portions of the period in respect of which the dividend is paid. Our Directors may deduct from any dividend or other monies payable to any member or in respect of any shares all sums of money (if any) presently payable by him to our Company on account of calls or otherwise.

Whenever our Board or our Company in general meeting has resolved that a dividend be paid or declared on the share capital of our Company, our Board may further resolve either (a) that such dividend be satisfied wholly or in part in the form of an allotment of shares credited as fully paid up, provided that the members entitled thereto will be entitled to elect to receive such dividend (or part thereof) in cash in lieu of such allotment, or (b) that members entitled to such dividend will be entitled to elect to receive an allotment of shares credited as fully paid up in lieu of the whole or such part of the dividend as our Board may think fit.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

Our Company may also upon the recommendation of our Board by an ordinary resolution resolve in respect of any one particular dividend of our Company that it may be satisfied wholly in the form of an allotment of shares credited as fully paid up without offering any right to members to elect to receive such dividend in cash in lieu of such allotment.

Any dividend, interest or other sum payable in cash to the holder of shares may be paid by cheque or warrant sent through the post addressed to the holder at his registered address, or in the case of joint holders, addressed to the holder whose name stands first in the register of our Company in respect of the shares at his address as appearing in the register or addressed to such person and at such addresses as the holder or joint holders may in writing direct. Every such cheque or warrant shall, unless the holder or joint holders otherwise direct, be made payable to the order of the holder or, in the case of joint holders, to the order of the holder whose name stands first on the register in respect of such shares, and shall be sent at his or their risk and payment of the cheque or warrant by the bank on which it is drawn shall constitute a good discharge to our Company. Any one of two or more joint holders may give effectual receipts for any dividends or other moneys payable or property distributable in respect of the shares held by such joint holders.

Whenever our Board or our Company in general meeting has resolved that a dividend be paid or declared our Board may further resolve that such dividend be satisfied wholly or in part by the distribution of specific assets of any kind.

All dividends or bonuses unclaimed for one year after having been declared may be invested or otherwise made use of by our Board for the benefit of our Company until claimed and our Company shall not be constituted a trustee in respect thereof. All dividends or bonuses unclaimed for six years after having been declared may be forfeited by our Board and shall revert to our Company.

No dividend or other monies payable by our Company on or in respect of any share shall bear interest against our Company.

**(h) Inspection of corporate records**

Pursuant to the Articles, the register and branch register of members maintained in Hong Kong shall be open to inspection for at least two (2) hours during business hours by members without charge, or by any other person upon a maximum payment of HK\$2.50 or such lesser sum specified by our Board, at the registered office or such other place at which the register is kept in accordance with the Companies Act or, upon a maximum payment of HK\$1.00 or such lesser sum specified by our Board, at the office where the branch register of members is kept, unless the register is closed in accordance with the Articles.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

**(i) Rights of minorities in relation to fraud or oppression**

There are no provisions in the Articles relating to rights of minority shareholders in relation to fraud or oppression. However, certain remedies are available to members of our Company under Cayman Islands law, as summarised in paragraph 3(f) of this Appendix.

**(j) Procedures on liquidation**

Unless otherwise provided by the Companies Act, a resolution that our Company be wound up by the court or be wound up voluntarily shall be a special resolution.

Subject to any special rights, privileges or restrictions as to the distribution of available surplus assets on liquidation for the time being attached to any class or classes of shares:

- (i) if our Company is wound up and the assets available for distribution amongst the members of our Company shall be more than sufficient to repay the whole of the capital paid up at the commencement of the winding up, the excess shall be distributed *pari passu* amongst such members in proportion to the amount paid up on the shares held by them respectively; and
- (ii) if our Company is wound up and the assets available for distribution amongst the members as such shall be insufficient to repay the whole of the paid-up capital, such assets shall be distributed so that, as nearly as may be, the losses shall be borne by the members in proportion to the capital paid up, or which ought to have been paid up, at the commencement of the winding up on the shares held by them respectively.

If our Company is wound up (whether the liquidation is voluntary or by the court) the liquidator may, with the authority of a special resolution and any other sanction required by the Companies Act divide among the members in specie or kind the whole or any part of the assets of our Company whether the assets shall consist of property of one kind or shall consist of properties of different kinds and the liquidator may, for such purpose, set such value as he deems fair upon any one or more class or classes of property to be divided as aforesaid and may determine how such division shall be carried out as between the members or different classes of members. The liquidator may, with the like authority, vest any part of the assets in trustees upon such trusts for the benefit of members as the liquidator, with the like authority, shall think fit, but so that no contributory shall be compelled to accept any shares or other property in respect of which there is a liability.

**(k) Subscription rights reserve**

Our Articles provide that to the extent that we are not prohibited by and are in compliance with the Companies Act, if warrants to subscribe for shares have been issued by our Company and our Company does any act or engages in any transaction which would result in the subscription price of such warrants being reduced below the par value of a share, a subscription rights reserve shall be established and applied in paying up the difference between the subscription price and the par value of a share on any exercise of the warrants.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

**3. CAYMAN ISLANDS COMPANY LAW**

Our Company is incorporated in the Cayman Islands subject to the Companies Act and, therefore, operates subject to Cayman Islands law. Set out below is a summary of certain provisions of Cayman company law, although this does not purport to contain all applicable qualifications and exceptions or to be a complete review of all matters of Cayman company law and taxation, which may differ from equivalent provisions in jurisdictions with which interested parties may be more familiar:

**(a) Company operations**

As an exempted company, our Company’s operations must be conducted mainly outside the Cayman Islands. Our Company is required to file an annual return each year with the Registrar of Companies of the Cayman Islands and pay a fee which is based on the amount of its authorised share capital.

**(b) Share capital**

The Companies Act provides that where a company issues shares at a premium, whether for cash or otherwise, a sum equal to the aggregate amount of the value of the premiums on those shares shall be transferred to an account, to be called the “share premium account”. At the option of a company, these provisions may not apply to premiums on shares of that company allotted pursuant to any arrangement in consideration of the acquisition or cancellation of shares in any other company and issued at a premium.

The Companies Act provides that the share premium account may be applied by a company subject to the provisions, if any, of its memorandum and articles of association in (a) paying distributions or dividends to members; (b) paying up unissued shares of the company to be issued to members as fully paid bonus shares; (c) the redemption and repurchase of shares (subject to the provisions of section 37 of the Companies Act); (d) writing-off the preliminary expenses of the company; and (e) writing-off the expenses of, or the commission paid or discount allowed on, any issue of shares or debentures of the company.

No distribution or dividend may be paid to members out of the share premium account unless immediately following the date on which the distribution or dividend is proposed to be paid, our Company will be able to pay its debts as they fall due in the ordinary course of business.

The Companies Act provides that, subject to confirmation by the Grand Court of the Cayman Islands (the “**Court**”), a company limited by shares or a company limited by guarantee and having a share capital may, if so authorised by its articles of association, by special resolution reduce its share capital in any way.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

**(c) Financial assistance to purchase shares of a company or its holding company**

There is no statutory restriction in the Cayman Islands on the provision of financial assistance by a company to another person for the purchase of, or subscription for, its own or its holding company's shares. Accordingly, a company may provide financial assistance if the directors of a company consider, in discharging their duties of care and acting in good faith, for a proper purpose and in the interests of the company, that such assistance can properly be given. Such assistance should be on an arm's-length basis.

**(d) Purchase of shares and warrants by a company and its subsidiaries**

A company limited by shares or a company limited by guarantee and having a share capital may, if so authorised by its articles of association, issue shares which are to be redeemed or are liable to be redeemed at the option of a company or a shareholder and the Companies Act expressly provides that it shall be lawful for the rights attaching to any shares to be varied, subject to the provisions of the company's articles of association, so as to provide that such shares are to be or are liable to be so redeemed. In addition, such a company may, if authorised to do so by its articles of association, purchase its own shares, including any redeemable shares. However, if the articles of association do not authorise the manner and terms of purchase, a company cannot purchase any of its own shares unless the manner and terms of purchase have first been authorised by an ordinary resolution of the company. At no time may a company redeem or purchase its shares unless they are fully paid. A company may not redeem or purchase any of its shares if, as a result of the redemption or purchase, there would no longer be any issued shares of the company other than shares held as treasury shares. A payment out of capital by a company for the redemption or purchase of its own shares is not lawful unless immediately following the date on which the payment is proposed to be made, our company shall be able to pay its debts as they fall due in the ordinary course of business.

Shares purchased by a company is to be treated as cancelled unless, subject to the memorandum and articles of association of a company, the directors of the company resolve to hold such shares in the name of the company as treasury shares prior to the purchase. Where shares of a company are held as treasury shares, the company shall be entered in the register of members as holding those shares, however, notwithstanding the foregoing, the company is not to be treated as a member for any purpose and must not exercise any right in respect of the treasury shares, and any purported exercise of such a right shall be void, and a treasury share must not be voted, directly or indirectly, at any meeting of the company and must not be counted in determining the total number of issued shares at any given time, whether for the purposes of the company's articles of association or the Companies Act.

A company is not prohibited from purchasing and may purchase its own warrants subject to and in accordance with the terms and conditions of the relevant warrant instrument or certificate. There is no requirement under Cayman Islands law that a company's memorandum or articles of association contain a specific provision enabling such purchases and the directors of a company may rely upon the general power contained in its memorandum of association to buy and sell and deal in personal property of all kinds.

Under Cayman Islands law, a subsidiary may hold shares in its holding company and, in certain circumstances, may acquire such shares.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

**(e) Dividends and distributions**

The Companies Act permits, subject to a solvency test and the provisions, if any, of a company's memorandum and articles of association, the payment of dividends and distributions out of the share premium account. With the exception of the foregoing, there are no statutory provisions relating to the payment of dividends. Based upon English case law, which is regarded as persuasive in the Cayman Islands, dividends may be paid only out of profits.

No dividend may be declared or paid, and no other distribution (whether in cash or otherwise) of the company's assets (including any distribution of assets to members on a winding up) may be made to the company, in respect of a treasury share.

**(f) Protection of minorities and shareholders' suits**

The Courts ordinarily would be expected to follow English case law precedents which permit a minority shareholder to commence a representative action against or derivative actions in the name of a company to challenge (a) an act which is ultra vires the company or illegal, (b) an act which constitutes a fraud against the minority and the wrongdoers are themselves in control of the company, and (c) an irregularity in the passing of a resolution which requires a qualified (or special) majority.

In the case of a company (not being a bank) having a share capital divided into shares, the Court may, on the application of members holding not less than one fifth of the shares of a company in issue, appoint an inspector to examine into the affairs of the company and to report thereon in such manner as the Court shall direct.

Any shareholder of a company may petition the Court which may make a winding up order if the Court is of the opinion that it is just and equitable that a company should be wound up or, as an alternative to a winding up order, (a) an order regulating the conduct of the company's affairs in the future, (b) an order requiring the company to refrain from doing or continuing an act complained of by the shareholder petitioner or to do an act which the shareholder petitioner has complained it has omitted to do, (c) an order authorising civil proceedings to be brought in the name and on behalf of the company by the shareholder petitioner on such terms as the Court may direct, or (d) an order providing for the purchase of the shares of any shareholders of the company by other shareholders or by our company itself and, in the case of a purchase by the company itself, a reduction of the company's capital accordingly.

Generally claims against a company by its shareholders must be based on the general laws of contract or tort applicable in the Cayman Islands or their individual rights as shareholders as established by a company's memorandum and articles of association.

---

**APPENDIX III                      SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

---

**(g) Disposal of assets**

The Companies Act contains no specific restrictions on the power of directors to dispose of assets of a company. However, as a matter of general law, every officer of a company, which includes a director, managing director and secretary, in exercising his powers and discharging his duties must do so honestly and in good faith with a view to the best interests of a company and exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

**(h) Accounting and auditing requirements**

A company must cause proper books of account to be kept with respect to (i) all sums of money received and expended by the company and the matters in respect of which the receipt and expenditure takes place; (ii) all sales and purchases of goods by the company; and (iii) the assets and liabilities of the company.

Proper books of account shall not be deemed to be kept if there are not kept such books as are necessary to give a true and fair view of the state of a company's affairs and to explain its transactions.

An exempted company must make available at its registered office in electronic form or any other medium, copies of its books of account or parts thereof as may be required of it upon service of an order or notice by the Tax Information Authority pursuant to the Tax Information Authority Act of the Cayman Islands.

**(i) Exchange control**

There are no exchange control regulations or currency restrictions in the Cayman Islands.

**(j) Taxation**

Pursuant to the Tax Concessions Act of the Cayman Islands, our Company has obtained an undertaking:

- (1) that no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciation shall apply to our Company or its operations; and
- (2) that the aforesaid tax or any tax in the nature of estate duty or inheritance tax shall not be payable on or in respect of the shares, debentures or other obligations of our Company.

The undertaking for our Company is for a period of twenty years from 25 August 2021.

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

The Cayman Islands currently levy no taxes on individuals or corporations based upon profits, income, gains or appreciations and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to our Company levied by the Government of the Cayman Islands save for certain stamp duties which may be applicable, from time to time, on certain instruments executed in or brought within the jurisdiction of the Cayman Islands. The Cayman Islands are a party to a double tax treaty entered into with the United Kingdom in 2010 but otherwise is not party to any double tax treaties.

**(k) Stamp duty on transfers**

No stamp duty is payable in the Cayman Islands on transfers of shares of Cayman Islands companies except those which hold interests in land in the Cayman Islands.

**(l) Loans to directors**

There is no express provision in the Companies Act prohibiting the making of loans by a company to any of its directors.

**(m) Inspection of corporate records**

The notice of registered office is a matter of public record. A list of the names of the current directors and alternate directors (if applicable) is made available by the Registrar of Companies for inspection by any person on payment of a fee. The register of mortgages is open to inspection by creditors and members.

Members of a company have no general right under the Companies Act to inspect or obtain copies of the register of members or corporate records of the company. They will, however, have such rights as may be set out in our Company's Articles.

**(n) Register of members**

An exempted company may maintain its principal register of members and any branch registers at such locations, whether within or without the Cayman Islands, as the directors may, from time to time, think fit. The register of members shall contain such particulars as required by Section 40 of the Companies Act. A branch register must be kept in the same manner in which a principal register is by the Companies Act required or permitted to be kept. A company shall cause to be kept at the place where the company's principal register is kept a duplicate of any branch register duly entered up from time to time.

---

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

---

There is no requirement under the Companies Act for an exempted company to make any returns of members to the Registrar of Companies of the Cayman Islands. The names and addresses of the members are, accordingly, not a matter of public record and are not available for public inspection. However, an exempted company shall make available at its registered office, in electronic form or any other medium, such register of members, including any branch register of members, as may be required of it upon service of an order or notice by the Tax Information Authority pursuant to the Tax Information Authority Act of the Cayman Islands.

**(o) Register of Directors and Officers**

A company is required to maintain at its registered office a register of directors and officers which is not available for inspection by the public. A copy of such register must be filed with the Registrar of Companies in the Cayman Islands and any change must be notified to the Registrar within thirty (30) days of any change in such directors or officers.

**(p) Beneficial Ownership Register**

An exempted company is required to identify its beneficial owners and provide details of these beneficial owners to its corporate service provider ("CSP") which maintains its beneficial ownership register in the Cayman Islands. A beneficial owner is defined as an individual who (a) ultimately owns or controls, whether through director or indirect ownership or control 25% or more of the shares, voting rights, or partnership interests in the company, (b) otherwise exercises ultimate effective control over the management of the company, or (c) is identified as exercising control of the company through other means. The beneficial ownership register is not a public document and is only accessible by a designated competent authority of the Cayman Islands although the Cayman Islands government may introduce regulations to allow for public access in the future. An exempted company with its shares listed on an approved stock exchange, which includes the Stock Exchange, may provide its CSP with details of its listed status as an alternative compliance route instead of providing details of its beneficial owners. Accordingly, as long as the shares of the Company remain listed on the Stock Exchange, our Company may opt for this alternative compliance route rather than maintain a beneficial ownership register.

**(q) Winding up**

A company may be wound up (a) compulsorily by order of the Court, (b) voluntarily, or (c) under the supervision of the Court.

The Court has authority to order winding up in a number of specified circumstances including where the members of a company have passed a special resolution requiring the company to be wound up by the Court, or where the company is unable to pay its debts, or where it is, in the opinion of the Court, just and equitable to do so. Where a petition is presented by members of the company as contributories on the ground that it is just and equitable that the company should be wound up, the Court has the jurisdiction to make certain other orders as an alternative to a winding-up order, such as making an order regulating the conduct of the company's affairs in the future, making an order authorising civil proceedings to be brought in the name and on behalf of the company by the petitioner on such terms as the Court may direct, or making an order providing for the purchase of the shares of any of the members of the company by other members or by the company itself.

---

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

---

A company (save with respect to a limited duration company) may be wound up voluntarily when a company so resolves by special resolution or when the company in general meeting resolves by ordinary resolution that it be wound up voluntarily because it is unable to pay its debts. In the case of a voluntary winding up, such company is obliged to cease to carry on its business (except so far as it may be beneficial for its winding up) from the time of passing the resolution for voluntary winding up or upon the expiry of the period or the occurrence of the event referred to above.

For the purpose of conducting the proceedings in winding up a company and assisting the Court therein, there may be appointed an official liquidator or official liquidators; and the court may appoint to such office such person, either provisionally or otherwise, as it thinks fit, and if more persons than one are appointed to such office, the Court must declare whether any act required or authorised to be done by the official liquidator is to be done by all or any one or more of such persons. The Court may also determine whether any and what security is to be given by an official liquidator on his appointment; if no official liquidator is appointed, or during any vacancy in such office, all the property of a company shall be in the custody of the Court.

As soon as the affairs of a company are fully wound up, the liquidator must make a report and an account of the winding up, showing how the winding up has been conducted and how the property of the company has been disposed of, and thereupon call a general meeting of the company for the purposes of laying before it the account and giving an explanation thereof. This final general meeting must be called by at least 21 days' notice to each contributory in any manner authorised by the company's articles of association and published in the Gazette.

**(r) Reconstructions**

There are statutory provisions which facilitate reconstructions and amalgamations approved by (i) a majority in number representing seventy-five per cent. (75%) in value of creditors, or (ii) seventy-five per cent. (75%) in value of shareholders or class of shareholders, as the case may be, as are present at a meeting called for such purpose and thereafter sanctioned by the Court. Whilst a dissenting shareholder would have the right to express to the Court his view that the transaction for which approval is sought would not provide the shareholders with a fair value for their shares, the Court is unlikely to disapprove the transaction on that ground alone in the absence of evidence of fraud or bad faith on behalf of management.

The Companies Act also contains statutory provisions which provide that a company may present a petition to the Court for the appointment of a restructuring officer on the grounds that the company (a) is or is likely to become unable to pay its debts within the meaning of section 93 of the Companies Act; and (b) intends to present a compromise or arrangement to its creditors (or classes thereof) either, pursuant to the Companies Act, the law of a foreign country or by way of a consensual restructuring. The petition may be presented by a company acting by its directors, without a resolution of its shareholders or an express power in its articles of association. On hearing such a petition, the Court may, among other things, make an order appointing a restructuring officer or make any other order as the Court thinks fit.

---

**APPENDIX III**

**SUMMARY OF THE CONSTITUTION OF OUR COMPANY  
AND CAYMAN ISLANDS COMPANY LAW**

---

**(s) Take-overs**

Where an offer is made by a company for the shares of another company and, within four (4) months of the offer, the holders of not less than ninety per cent. (90%) of the shares which are the subject of the offer accept, the offeror may at any time within two (2) months after the expiration of the said four (4) months, by notice in the prescribed manner require the dissenting shareholders to transfer their shares on the terms of the offer. A dissenting shareholder may apply to the Court within one (1) month of the notice objecting to the transfer. The burden is on the dissenting shareholder to show that the Court should exercise its discretion, which it will be unlikely to do unless there is evidence of fraud or bad faith or collusion as between the offeror and the holders of the shares who have accepted the offer as a means of unfairly forcing out minority shareholders.

**(t) Indemnification**

Cayman Islands law does not limit the extent to which a company's articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Court to be contrary to public policy (e.g. for purporting to provide indemnification against the consequences of committing a crime).

**(u) Economic Substance Requirements**

Pursuant to the International Tax Cooperation (Economic Substance) Act of the Cayman Islands ("ES Act") that came into force on 1 January 2019, a "relevant entity" is required to satisfy the economic substance test set out in the ES Act. A "relevant entity" includes an exempted company incorporated in the Cayman Islands as is our Company; however, it does not include an entity that is tax resident outside the Cayman Islands. Accordingly, for so long as our Company is a tax resident outside the Cayman Islands, including in Hong Kong, it is not required to satisfy the economic substance test set out in the ES Act.

**4. GENERAL**

Conyers Dill & Pearman, our Company's special legal counsel on Cayman Islands law, have sent to our Company a letter of advice summarising certain aspects of Cayman Islands company law. This letter, together with a copy of the Companies Act, is available for inspection as referred to in the paragraph headed "Documents Delivered to the Registrar of Companies and Available on Display" in Appendix V to this document. Any person wishing to have a detailed summary of Cayman Islands company law or advice on the differences between it and the laws of any jurisdiction with which he is more familiar is recommended to seek independent legal advice.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

### A. FURTHER INFORMATION ABOUT OUR COMPANY

#### 1. Incorporation of our Company

Our Company was incorporated in the Cayman Islands under the Companies Act as an exempted company with limited liability on August 11, 2021 and was registered with the Registrar of Companies in Hong Kong as a non-Hong Kong company under Part 16 of the Companies Ordinance on July 20, 2023. We have established a principal place of business in Hong Kong at 19/F, Golden Centre, 188 Des Voeux Road Central, Hong Kong. Ms. Li Ching Yi (李菁怡) has been appointed as our authorized representative for the acceptance of service of process and notices in Hong Kong.

As our Company was incorporated in the Cayman Islands, our operation is subject to the Cayman Companies Act and to the Memorandum and the Articles. A summary of certain provisions of its constitution and relevant aspects of the Cayman Islands Companies Law is set out in Appendix III to this document.

#### 2. Changes in share capital of our Company

The authorized share capital as at the date of our incorporation was HK\$380,000 divided into 38,000,000 Shares of HK\$0.01 each. On August 11, 2021, one Share was allotted and issued to the initial subscriber and such Share was transferred to ShanHuiShou BVI on the same day.

On November 15, 2021, one Share was allotted and issued to MGY Wisdom BVI, SHS Glory BVI, SHS Thunder BVI, SHS Lightning BVI, MGY Alliance BVI, Flash Recycle BVI, Lightning Recycle BVI, Recycle Lifestyle BVI, SHS Blooming BVI, SHS Flash BVI, SHS Prosperity BVI, ShanHS Sword BVI and Yuntouhang Holdings BVI, respectively, at par and credited as fully paid.

Pursuant to a subscription agreement dated April 18, 2023, our Company allotted and issued (i) 6,839,039 Shares to ShanHuiSHou BVI; (ii) 2,311,399 Shares to MGY Wisdom BVI; (iii) 935,559 Shares to SHS Glory BVI; (iv) 315,519 Shares to SHS Thunder BVI; (v) 231,139 Shares to SHS Lightning BVI; (vi) 629,179 ordinary shares to MGY Alliance BVI; (vii) 526,439 Shares to Flash Recycle BVI; (viii) 385,199 Shares to Lightning Recycle BVI; (ix) 154,079 Shares to Recycle Lifestyle BVI; (x) 275,299 Shares to SHS Blooming BVI; (xi) 122,799 Shares to SHS Flash BVI; (xii) 81,639 Shares to SHS Prosperity BVI; (xiii) 657,620 Shares to Barryspace BVI; (xiv) 841,000 Series A-1 Preferred Shares to Shanghai Wenwei; (xv) 1,472,040 Series A-2 Preferred Shares to Shanghai Jiaozeng; (xvi) 1,833,410 Series C-1 Preferred Shares to Shanghai Xiuhui; (xvii) 952,540 Series C-2 Preferred Shares to World Circulation BVI; (xviii) 631,919 Series C-3 Preferred Shares to ShanHS Sword BVI; (xix) 354,380 Series C-4 Preferred Shares to Zhitou Huifu; and (xx) 1,105,219 Series C-5 Preferred Shares to Yuntouhang BVI. Pursuant to the shareholders' resolution dated April 28, 2023, one Share issued to ShanHS Sword BVI was converted into Series C-3 Preferred Share and one Share issued to Yuntouhang BVI was converted into Series C-5 Preferred Share on the same date.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

On December 15, 2023, pursuant to a subscription agreement dated December 28, 2021 and an amended and restated subscription agreement dated October 31, 2023, our Company allotted and issued 406,950 Series C-6 Preferred Shares to Long Shining BVI.

On December 29, 2023, pursuant to a subscription agreement dated December 29, 2023, our Company allotted and issued 503,790 Series D-1 Preferred Shares to Anji Guorong BVI.

Pursuant to the written resolutions of our Shareholders passed on [●], our authorized share capital was increased from HK\$380,000 to HK\$[50,000,000] by the creation of additional [4,962,000,000] Shares.

On [●], our Shareholders resolved that, conditional upon the crediting of our Company’s share premium account as a result of the issue of the [REDACTED] pursuant to the [REDACTED], our Directors are authorized to [REDACTED] an amount of HK\$[REDACTED] standing to the credit of the share premium account of our Company by applying such sum towards the paying up in full at par a total of [REDACTED] Shares for allotment and issuance to our Shareholders immediately prior to the [REDACTED], on a pro rata basis.

Please refer to “Share Capital” in this document for description of the authorized and issued share capital of our Company in issue and [REDACTED] as fully paid or credited as fully paid immediately prior to and following the completion of [REDACTED] and the [REDACTED].

Save for the aforesaid and as mentioned in “3. Resolutions in writing of the Shareholders of our Company passed on [●]” below in this Appendix, there has been no alteration in the share capital of our Company since its incorporation.

### **3. Resolutions in writing of the Shareholders of our Company passed on [●]**

Pursuant to the written resolutions of the Shareholders of our Company passed on [●]:

- (a) immediately prior to the closing of [REDACTED], the authorized share capital of our Company be changed from HK\$380,000 divided into 29,898,750 ordinary shares of HK\$0.01 each, 841,000 Series A-1 Preferred Shares, 1,472,040 Series A-2 Preferred Shares, 1,833,410 Series C-1 Preferred Shares, 952,540 Series C-2 Preferred Shares, 631,920 Series C-3 Preferred Shares, 354,380 Series C-4 Preferred Shares, 1,105,220 Series C-5 Preferred Shares, 406,950 Series C-6 Preferred Shares and 503,790 Series D-1 Preferred Shares, to HK\$380,000 divided into 38,000,000 ordinary shares of US\$0.001 each, by the conversion by re-designation and re-classification of the 841,000 Series A-1 Preferred Shares, 1,472,040 Series A-2 Preferred Shares, 1,833,410 Series C-1 Preferred Shares, 952,540 Series C-2 Preferred Shares, 631,920 Series C-3 Preferred Shares, 354,380 Series C-4 Preferred Shares, 1,105,220 Series C-5 Preferred Shares, 406,950 Series C-6 Preferred Shares and 503,790 Series D-1 Preferred Shares into 8,101,250 ordinary Shares;

**APPENDIX IV**

**STATUTORY AND GENERAL INFORMATION**

- (b) we approved and adopted the Memorandum with effect from the [REDACTED];
- (c) we approved and conditionally adopted the Articles which will become effective from the [REDACTED];
- (d) the authorized share capital of our Company was increased from HK\$380,000 divided into 38,000,000 Shares to HK\$[50,000,000] divided into [5,000,000,000] Shares by the creation of an additional [4,962,000,000] Shares;
- (e) conditional on (aa) the Listing Committee granting the [REDACTED] of, and permission to [REDACTED], the Shares in issue, Shares to be issued pursuant to the [REDACTED] and the [REDACTED] and Shares to be [REDACTED] mentioned in this document (including any additional Shares which may be allotted and issued pursuant to the exercise of the [REDACTED]); (bb) the entering into of the [REDACTED] between the [REDACTED] (for itself and on behalf of the [REDACTED]) and our Company on the [REDACTED]; and (cc) the obligations of the [REDACTED] under the [REDACTED] becoming unconditional and not being terminated in accordance with the terms therein or otherwise, in each case on or before such dates as may be specified in the [REDACTED]:
  - (i) the [REDACTED] was approved and our Directors were authorized to allot and issue the new Shares pursuant to the [REDACTED];
  - (ii) the [REDACTED] was approved; and
  - (iii) conditional on the share premium account of our Company being credited as a result of the issue of the [REDACTED] by our Company pursuant to the [REDACTED], our Directors were authorized to [REDACTED] an amount of HK\$[REDACTED] standing to the credit of the share premium account of our Company by applying such sum in paying up in full at par [REDACTED] Shares, such Shares to be allotted and issued to our Shareholder(s) as of the date of the passing of the resolution on a pro rata basis.
- (f) a general unconditional mandate was given to our Directors to allot, issue and deal with (including the power to make an offer or agreement, or grant securities which would or might require Shares to be allotted and issued), otherwise than pursuant to a rights issue or pursuant to any scrip dividend schemes or similar arrangements providing for the allotment and issue of Shares in lieu of the whole or part of a dividend on Shares in accordance with the Articles or pursuant to the grant of options under any share option scheme or other similar arrangements or pursuant to a specific authority granted by the Shareholders in general meeting, unissued Shares not exceeding the aggregate of 20% of the number of issued Shares immediately following the completion of the [REDACTED] and the [REDACTED] (but taking no account of any Shares which may be allotted and issued pursuant to the exercise of the [REDACTED]), such mandate to remain in effect until the conclusion of the

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

next annual general meeting of our Company, or the expiration of the period within which the next annual general meeting of our Company is required by the Articles or any applicable laws to be held, or until revoked or varied by an ordinary resolution of the Shareholders in general meeting, whichever occurs first;

- (g) a general unconditional mandate was given to our Directors authorizing them to exercise all powers of our Company to repurchase on the Stock Exchange or on any other approved stock exchange on which the securities of our Company may be listed and which is recognized by the SFC and the Stock Exchange for this purpose such number of Shares as will represent up to 10% of the number of issued Shares immediately following the completion of the [REDACTED] and the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED], any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme and treasury Shares held by our Company, if any), such mandate to remain in effect until the conclusion of the next annual general meeting of our Company, or the expiration of the period within which the next annual general meeting of our Company is required by the Articles or any applicable laws to be held, or until revoked or varied by an ordinary resolution of the Shareholders in general meeting, whichever occurs first;
- (h) the general unconditional mandate mentioned in paragraph (f) above was extended by the addition to the number of issued Shares which may be allotted and issued or agreed conditionally or unconditionally to be allotted and issued by our Directors pursuant to such general mandate of an amount representing the total number of issued Shares repurchased by our Company pursuant to the mandate to repurchase Shares referred to in paragraph (g) above.

### 4. Corporate Reorganization

The companies comprising our Group underwent the Reorganization in preparation for the [REDACTED]. For information relating to the Reorganization, please refer to “History, Reorganization and Corporate Structure – Reorganization” in this document.

### 5. Changes in share capital of our subsidiaries

Our Company’s subsidiaries are referred to in the Accountants’ Report in Appendix I to this document. Save for the subsidiaries mentioned in the Accountants’ Report and in “History, Reorganization and Corporate Structure” in this document, our Company has no other subsidiaries and there are no other changes in share capital of our subsidiaries within the two years immediately preceding the date of this document.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

### 6. Repurchase of our Shares

#### (a) *Provisions of the Listing Rules*

The Listing Rules permit companies whose primary listing is on the Main Board of the Stock Exchange to repurchase their securities on the Stock Exchange subject to certain restrictions, the more important of which are summarized below:

##### (i) *Shareholders’ approval*

All proposed repurchases of securities on the Stock Exchange by a company with a primary listing on the Stock Exchange must be approved in advance by an ordinary resolution of its Shareholders in general meeting, either by way of general mandate or by specific approval of a particular transaction.

Pursuant to the written resolutions passed by the Shareholders of our Company on [●], a general unconditional mandate (the “**Repurchase Mandate**”) was granted to our Directors authorizing the repurchase of shares by our Company on the Stock Exchange, or on any other stock exchange on which the securities of our Company may be listed and which is recognized by the SFC and the Stock Exchange for this purpose, with the total number of Shares not exceeding 10% of the total number of Shares in issue and to be issued as mentioned herein, at any time until the conclusion of the next annual general meeting of our Company, the expiration of the period within which the next annual general meeting of our Company is required by an applicable law or the Articles to be held or when such mandate is revoked or varied by an ordinary resolution of our Shareholders in general meeting, whichever is the earliest.

##### (ii) *Source of funds*

Repurchases must be funded out of funds legally available for the purpose in accordance with the Articles and the Cayman Companies Law. A listed company may not repurchase its own securities on the Stock Exchange for a consideration other than cash or for settlement otherwise than in accordance with the trading rules of the Stock Exchange in effect from time to time.

#### (b) *Reasons for repurchase*

Our Directors believe that it is in the best interests of our Company and our Shareholders for our Directors to have general authority from our Shareholders to enable our Directors to repurchase Shares in the market. Repurchases of Shares will only be made when our Directors believe that such repurchases will benefit our Company and its members. Such repurchases may, depending on market conditions and funding arrangements at the time, lead to an enhancement of the net asset value of our Company and its assets and/or its earnings per Share.

---

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

---

### *(c) Funding of repurchase*

In repurchasing securities, our Company may only apply funds legally available for such purpose in accordance with the Articles of Association, the Listing Rules and the applicable laws of the Cayman Islands.

It is presently proposed that any repurchase of Shares will be made out of the profits of our Company, the share premium amount of our Company or the proceeds of a fresh issue of Shares made for the purpose of the repurchase and, in the case of any premium payable on the purchase over the par value of the Shares to be repurchased must be provided for, out of either or both of the profits of our Company or from sums standing to the credit of the share premium account of our Company. If authorized by the Memorandum and Articles and subject to the Cayman Companies Act, a repurchase of Shares may also be paid out of capital.

Our Directors do not propose to exercise the Repurchase Mandate to such an extent as would, in the circumstances, have a material adverse effect on the working capital requirements of our Company or its gearing levels which, in the opinion of our Directors, are from time to time appropriate for our Company.

However, there might be a material adverse impact on the working capital or gearing level as compared with the position disclosed in this document in the event that the Repurchase Mandate is exercised in full.

### *(d) Share capital*

The exercise in full of the Repurchase Mandate, on the basis of [REDACTED] Shares in issue immediately after the [REDACTED] (without taking into account the Shares which may be issued pursuant to the exercise of the [REDACTED], any Shares to be issued upon the exercise of any options that may be granted under the Share Option Scheme and treasury Shares held by our Company, if any), could accordingly result in up to [REDACTED] Shares being repurchased by our Company during the period until:

- (i) the conclusion of the next annual general meeting of our Company;
- (ii) the expiration of the period within which the next annual general meeting of our Company is required by any applicable law or the Articles to be held; or
- (iii) the date on which the Repurchase Mandate is revoked or varied by an ordinary resolution of our Shareholders in general meeting, whichever occurs first.

### *(e) General*

None of our Directors nor, to the best of their knowledge, information and belief, having made all reasonable enquiries, any of their respective close associates, has any present intention to sell any Shares or our subsidiaries.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

Our Directors have undertaken to the Stock Exchange that, so far as the same may be applicable, they will exercise the Repurchase Mandate in accordance with the Listing Rules, the Memorandum and Articles of Association, and the applicable laws of the Cayman Islands.

No core connected person has notified us that he/she/it has a present intention to sell Shares to us, or has undertaken not to do so, if the Repurchase Mandate is approved and exercised by our Directors.

If as a result of a securities repurchase pursuant to the Repurchase Mandate, a Shareholder’s proportionate interest in the voting rights of our Company increases, such increase will be treated as an acquisition for the purpose of the Takeovers Code. Accordingly, a Shareholder, or a group of Shareholders acting in concert (within the meaning of the Takeovers Code), depending on the level of increase of the Shareholders’ interest, could obtain or consolidate control of our Company and become obliged to make a mandatory offer in accordance with Rule 26 of the Takeovers Code as a result of any such increase. Save as aforesaid, our Directors are not aware of any other consequences which may arise under the Takeovers Code if the Repurchase Mandate is exercised. Our Directors will not exercise the Repurchase Mandate if the repurchase would result in the number of Shares which are in the hands of the public falling below 25% of the total number of Shares in issue (or such other percentage as may be prescribed as the minimum public shareholding under the Listing Rules).

Any repurchase of Shares which results in the number of Shares held by the public being reduced to less than the prescribed percentage of our Shares then in issue could only be implemented with the approval of the Stock Exchange to waive the Listing Rules requirements regarding the public float under Rule 8.08 of the Listing Rules. However, our Directors have no present intention to exercise the Repurchase Mandate to such an extent that, in the circumstances, there is insufficient public float as prescribed under the Listing Rules.

### **B. FURTHER INFORMATION ABOUT OUR BUSINESS**

#### **1. Summary of material contracts**

The following contracts (not being contracts entered into in the ordinary course of business) were entered into by members of our Group within the two years preceding the date of this document and are, or may be, material:

- (a) an amended and restated share subscription agreement dated October 31, 2023 entered into by parties including the Company, Mr. Wu Ching Ho (胡清河), Long Shining BVI, Mr. Liu, Ms. Yu, Mr. He, Mr. Lin and Mr. Luo Yuanshun (羅源順), pursuant to which our Company allotted and issued 406,950 Series C-6 Preferred Shares to Long Shining BVI;
- (b) an equity transfer agreement dated November 17, 2023 entered into by Zhejiang Shanhui, Shenzhen Shanhui, and the then shareholders of Shenzhen Shanhui, namely Mr. Liu, Mr. Gao Zibin (高自斌), Mr. Chen Jiangaogao (陳建高), Mr. Wang

10.	Invention Patent	2022101692451	一種基於數據分類匹配的手機按鍵檢測方法及系統	Shenzhen Shanhui	Original Acquisition	2022.02.23	2024.07.02
11.	Invention Patent	2022103803961	一種回收設備的兼容處理方法及系統	Shenzhen Shanhui	Original Acquisition	2022.04.12	2024.07.02
12.	Invention Patent	2022103803904	一種連接USB後的按鍵檢測方法及裝置	Shenzhen Shanhui	Original Acquisition	2022.04.12	2024.07.05
13.	Invention Patent	2022101692428	一種基於圖像自動報價系統及方法	Shenzhen Shanhui	Original Acquisition	2022.02.23	2024.08.20

**APPENDIX IV STATUTORY AND GENERAL INFORMATION**

No.	Patent Type	Patent No.	Patent Title	Patent Owner	Ways of Acquisition	Application Date	Publication Date
14.	Invention Patent	202210139049X	一種基於數據分析的手機外觀檢測方法及裝置	Shenzhen Shanhui	Original Acquisition	2022.02.15	2024.08.20
15.	Invention Patent	2022102856124	一種機器倉門的控制方法、裝置及系統	Shenzhen Shanhui	Original Acquisition	2022.03.23	2024.08.27
16.	Invention Patent	2022102856177	一種設備回收處理方法及系統	Shenzhen Shanhui	Original Acquisition	2022.03.23	2025.03.28
17.	Invention Patent	2022102059038	一種用於手機外觀標記的圖片識別系統及方法	Shenzhen Shanhui	Original Acquisition	2022.03.03	2025.04.29
18.	Invention Patent	202210332042X	一種回收機器內置雙WiFi的控制方法及系統	Shenzhen Shanhui	Original Acquisition	2022.03.31	2025.07.11
19.	Invention Patent	2023114108415	一種基於用戶畫像的二手手機銷售推薦方法及系統	Shenzhen Shanxin	Original Acquisition	2023.10.28	2024.07.02

As of the Latest Practicable Date, our Group has applied for the registration of the following patents in the PRC which we consider to be or may be material to the business of our Group:

No.	Patent Type	Patent Title	Applicant	Application Date	Application Number
1	Invention Patent	一種根據屏幕顏色、色值分布、檢測暗點的屏幕檢測方法	Shenzhen Shanhui	2021.10.28	2021112642894
2	Invention Patent	一種基於圖像識別的手機背部破損點檢測方法及系統	Shenzhen Shanhui	2022.01.24	2022100807284
3	Invention Patent	一種數據線識別系統及方法	Shenzhen Shanhui	2022.01.24	2022100807246
4	Invention Patent	一種訂單推送方法及系統	Shenzhen Shanhui	2022.02.15	2022101390555
5	Invention Patent	一種自動定價系統及方法	Shenzhen Shanhui	2022.02.26	2022101828235
6	Invention Patent	一種模擬用戶行為的屏幕觸控檢測方法及系統	Shenzhen Shanhui	2022.03.01	2022101963379
7	Invention Patent	一種基於物流數據處理識別自動收貨方法及系統	Shenzhen Shanhui	2022.03.01	202210196342X
8	Invention Patent	一種設備異常檢測系統及方法	Shenzhen Shanhui	2022.04.19	2022104085747

**APPENDIX IV STATUTORY AND GENERAL INFORMATION**

No.	Patent Type	Patent Title	Applicant	Application Date	Application Number
9	Invention Patent	一種手機功能檢測方法及裝置	Shenzhen Shanhui	2022.07.05	2022107848938
10	Invention Patent	一種支持多個USB設備連接方法及裝置	Shenzhen Shanhui	2022.07.29	2022109099765
11	Invention Patent	一種基於二手手機電腦數據清除系統及方法	Shenzhen Shanhui	2023.06.06	2023106684795
12	Invention Patent	一種基於圖像識別的自動拍照裝置	Shenzhen Shanhui	2023.08.16	2023110351319
13	Invention Patent	一種基於圖像識別的二手手機質量檢測方法及裝置	Shenzhen Shanhui	2023.09.18	2023112061931
14	Invention Patent	一種基於圖像識別的智能化手機分類和分揀系統	Shenzhen Shanhui	2023.12.19	2023117450495
15	Invention Patent	一種基於多攝像頭的手機拍攝控制方法及裝置	Shenzhen Shanxin	2023.12.19	2023117449286
16	Invention Patent	一種基於大數據和機器學習技術的風險控制系統及方法	Shenzhen Shanhui	2024.01.29	2024101192854
17	Invention Patent	一種基於機器學習的訂單分配推薦系統及方法	Shenzhen Shanhui	2024.03.05	2024102445291

Save as disclosed in this document, there are no other trademarks or service marks, patents, domain names, copyrights or other intellectual or industrial property rights which are or may be material in relation to our Group’s business.

**C. FURTHER INFORMATION ABOUT OUR GROUP’S SUBSIDIARIES IN THE PRC**

The particulars of our operating subsidiary are provided in the Accountants’ Report, the text of which is set out in Appendix I in this document.

Save as disclosed in “History, Reorganization and Corporate Structure” in this document, there has been no alteration in the share capital of any of the subsidiaries of our Company within the two years immediately preceding the date of this document.

**APPENDIX IV STATUTORY AND GENERAL INFORMATION**

**D. FURTHER INFORMATION ABOUT OUR DIRECTORS AND SUBSTANTIAL SHAREHOLDERS**

**1. Directors**

*(a) Disclosure of Interests – Interests and short positions of our Directors and the chief executive of our Company in the Shares, underlying Shares and debentures of our Company and its associated corporations*

Immediately following completion of the [REDACTED] and the [REDACTED] and assuming that the [REDACTED] is not exercised, the interests or short positions of our Directors or chief executives of our Company in the shares, underlying shares and debentures of our Company or its associated corporations (within the meaning of Part XV of the SFO) which will be required to be notified to our Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests or short positions which they were taken or deemed to have under such provisions of the SFO) or which will be required, pursuant to section 352 of the SFO, to be entered in the register referred to therein, or which will be required, pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers to be notified to our Company and the Stock Exchange, once our Shares are [REDACTED] will be as follows:

*(i) Interests in our Company*

<b>Name of Director</b>	<b>Nature of interest</b>	<b>Number of Shares<sup>(1)</sup></b>	<b>Approximate percentage of shareholding Interest (%)</b>
Mr. Liu	Interest in controlled corporation <sup>(2)</sup>	[REDACTED] (L)	[REDACTED]
Ms. Yu	Interest in controlled corporation <sup>(3)</sup>	[REDACTED] (L)	[REDACTED]
Mr. He	Interest in a controlled corporation <sup>(4)</sup>	[REDACTED] (L)	[REDACTED]
Mr. Lin	Interest in a controlled corporation <sup>(5)</sup>	[REDACTED] (L)	[REDACTED]

*Notes:*

1. The letter “L” denotes the person’s long position in our Shares.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

2. Please refer to “Substantial Shareholders” in this document.
3. These Shares are held by MGY Alliance BVI, which is wholly owned by Ms. Yu. By virtue of the SFO, Ms. Yu is deemed to be interested in these Shares.
4. These Shares are held by Flash Recycle BVI, which is wholly owned by Mr. He. By virtue of the SFO, Mr. He is deemed to be interested in these Shares.
5. These Shares are held by Lightning Recycle BVI, which is wholly owned by Mr. Lin. By virtue of the SFO, Mr. Lin is deemed to be interested in these Shares.

### *(b) Particulars of service agreements*

Each of our executive Directors, non-executive Director and independent non-executive Directors [has entered] into a service agreement or letter of appointment with our Company commencing for a term of three years commencing from the [REDACTED], which may be terminated by not less than three months’ notice in writing served by either party on the other.

### *(c) Directors’ remuneration*

Each of our executive Directors and independent non-executive Directors is entitled to a remuneration and shall be paid on the basis of a twelve-month year. During the Track Record Period, the aggregate remuneration (including fees, salaries, bonus, share-based payments, contributions to retirement benefits schemes, allowances and other benefits in kind) paid to our Directors was approximately RMB2.0 million, RMB3.1 million, RMB3.5 million, RMB3.6 million and RMB1.5 million, respectively.

Each of our independent non-executive Directors [have been] appointed for a term of three years with effect commencing from the [REDACTED]. We intend to pay a fixed director’s fee to each of our independent non-executive Directors.

Under the arrangement currently in force, the aggregate remuneration (including fees, salaries, bonus, share-based payments, contributions to retirement benefits scheme, allowances and other benefits in kind) of our Directors for the year ending December 31, 2025 is estimated to be no more than RMB[●] million.

## **2. Disclosure of interests – interests and short positions discloseable under Divisions 2 and 3 of the Part XV of the SFO**

Save as disclosed in “Substantial Shareholders” in this document, our Directors are not aware of any other person who will, immediately following the completion of the [REDACTED], have an interest or short position in the Shares or underlying Shares of our Company which are required to be disclosed to our Company and the Stock Exchange under the provisions of Divisions 2 and 3 of Part XV of the SFO, or, directly or indirectly, be interested in 10% or more of the nominal value of any class of share capital carrying the rights to vote in all circumstances at the general meetings of our Company.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

### 3. Agency fees or commissions received

Save as disclosed in this document, no commissions, discounts, brokerages or other special terms were granted in connection with the issue or sale of any capital of any member of our Group within the two years immediately preceding the date of this document.

### 4. Disclaimers

Save as disclosed in this document:

- (a) none of our Directors or chief executive of our Company has any interests or short position in our Shares, underlying shares or debenture of our Company or any of its associated corporation (within the meaning of the SFO) which will have to be notified to our Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO or which will be required, pursuant to section 352 of the SFO, to be entered in the register referred to therein, or which will be required to be notified to our Company and the Stock Exchange pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers once our Shares are listed;
- (b) none of our Directors or experts referred to under "F. Other Information –7. Qualifications of experts" in this Appendix has any direct or indirect interest in the promotion of our Company, or in any assets which have within the two years immediately preceding the date of this document been acquired or disposed of by or leased to any member of our Group, or are proposed to be acquired or disposed of by or leased to any member of our Group;
- (c) none of our Directors is materially interested in any contract or arrangement subsisting at the date of this document which is significant in relation to the business of our Group taken as a whole;
- (d) none of our Directors has any existing or proposed service contracts with any member of our Group (excluding contracts expiring or determinable by the employer within one year without payment of compensation (other than statutory compensation));
- (e) taking no account of Shares which may be taken up under the [REDACTED], none of our Directors knows of any person (not being a Director or chief executive of our Company) who will, immediately following completion of the [REDACTED], have an interest or short position in our Shares or underlying Shares of our Company which would fall to be disclosed to our Company under the provisions of Divisions 2 and 3 of Part XV of SFO or be interested, directly or indirectly, in 10% or more of the issued voting shares of any member of our Group;

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

- (f) none of the experts referred to under “F. Other information – 7. Qualifications of experts” in this Appendix has any shareholding in any member of our Group or the right (whether legally enforceable or not) to subscribe for or to nominate persons to subscribe for securities in any member of our Group; and
- (g) so far as is known to our Directors as of the Latest Practicable Date, none of our Directors, their respective close associates (as defined under the Listing Rules) or Shareholders of our Company who are interested in more than 5% of the issued share capital of our Company has any interests in the five largest customers in each year of the Track Record Period or the five largest suppliers in each year of the Track Record Period of our Group.

### E. SHARE OPTION SCHEME

The following is a summary of the principal terms of the Share Option Scheme conditionally adopted by our Company pursuant to the written resolutions of our then Shareholders passed on [●].

#### (a) Purpose of the Share Option Scheme

The Share Option Scheme is a share incentive scheme prepared in accordance with Chapter 17 of the Listing Rules and is established to recognize and acknowledge the contributions that the Eligible Participants (as defined in paragraph (b) below) had or may have made to our Group. The Share Option Scheme will provide the Eligible Participants an opportunity to have a personal stake in our Company with the view to achieving the following objectives:

- (i) motivate the Eligible Participants to optimize their performance efficiency for the benefit of our Group; and
- (ii) attract and retain or otherwise maintain an on-going business relationship with the Eligible Participants whose contributions are or will be beneficial to the long-term growth of our Group.

#### (b) Eligible participants of the Share Option Scheme

Our Board may, at its discretion, offer to grant an option to any director and employee of our Company or any of our subsidiaries (including persons who are granted options under the Share Option Scheme as an inducement to enter into employment contracts with our Company and/or any of our subsidiaries) (collectively the “**Eligible Participants**”) to subscribe for such number of new Shares as our Board may determine at an exercise price determined in accordance with paragraph (f) below.

Upon acceptance of the option, the grantee shall pay HK\$1.00 to our Company by way of consideration for the grant.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

### (c) Acceptance of an offer of options

An option shall be deemed to have been granted and accepted by the grantee and to have taken effect when the duplicate offer document constituting acceptance of the option duly signed by the grantee, together with a remittance in favor of our Company of HK\$1.00 by way of consideration for the grant thereof, is received by our Company on or before the relevant acceptance date. Such remittance or payment shall in no circumstances be refundable. Any offer to grant an option to subscribe for Shares may be accepted in respect of less than the number of Shares for which it is offered provided that it is accepted in respect of a board lot for dealing in Shares on the Stock Exchange or an integral multiple thereof and such number is clearly stated in the duplicate offer document constituting acceptance of the option. To the extent that the offer to grant an option is not accepted by any prescribed acceptance date, it shall be deemed to have been irrevocably declined.

Subject to paragraphs (l), (m), (n), (o) and (p), an option shall be exercised in whole or in part and, other than where it is exercised to the full extent outstanding, shall be exercised in integral multiples of such number of Shares as shall represent one board lot for dealing in Shares on the Stock Exchange for the time being, by the grantee by giving notice in writing to our Company stating that the option is thereby exercised and the number of Shares in respect of which it is exercised. Each such notice must be accompanied by a remittance or payment for the full amount of the exercise price for our Shares in respect of which the notice is given. Within 21 days after receipt of the notice and the remittance and, where appropriate, receipt of the certificate by the auditors to our Company or the approved independent financial advisor as the case may be pursuant to paragraph (r), our Company shall allot and issue the relevant number of Shares to the grantee credited as fully paid and issue to the grantee certificates in respect of our Shares so allotted.

The exercise of any option shall be subject to our Shareholders in general meeting approving any necessary increase in the authorized share capital of our Company.

The vesting period of any options shall not be less than 12 months. Options may be subject to a shorter vesting period under any of the following circumstances:

- (a) where the options are granted in assumption of, or in substitution or exchange for, an award previously granted, or the right or obligation to make a future award, in all cases by a company acquired by our Company or any of our subsidiary or with which our Company or any of our subsidiary combines;
- (b) where the Shares to be issued upon the exercise of such options are subject to a minimum holding period of not less than 12 months and are delivered to an Eligible Participant under his/her compensation arrangements with our Company, including Shares delivered to a non-employee director in respect of such non-employee director's annual retainer;

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

- (c) where the options are sign-on or make-whole grants to new Eligible Participants;
- (d) where the options are subject to performance-based vesting conditions;
- (e) where the options are granted in batches for administrative or compliance reasons;
- (f) where the options shall vest evenly over a period of 12 months or more;
- (g) where the options are subject to a total vesting and holding period of more than 12 months; or
- (h) in cases of retirement, separation, retention arrangements, death, disability or a change in control of our Company, our Board may accelerate the vesting of the options at its sole discretion.

### (d) Maximum number of Shares

The maximum number of Shares in respect of which options may be granted under the Share Option Scheme and under any other share schemes of our Company must not in aggregate exceed 10% ("the **Scheme Limit**") of the total number of Shares in issue immediately following the completion of the [REDACTED], being [REDACTED] Shares (assuming that the [REDACTED] is not exercised). As of the date on which such option is offered in writing to an Eligible Participant which must be a Business Day (the "**Offer Date**") of any proposed grant of options under the Share Option Scheme, the maximum number of Shares in respect of which options may be granted is such number of Shares less the aggregate of the following:

- (i) the number of Shares which would be issued on the exercise in full of the options under the Share Option Scheme or under any other share schemes of our Company but not canceled or exercised;
- (ii) the number of Shares which have been issued and allotted pursuant to the exercise of any options under the Share Option Scheme or under any other share schemes of our Company or any awards granted under any other share schemes of our Company; and
- (iii) the number of those Shares which were the subject of options which had been granted and accepted under the Share Option Scheme and any other share schemes of our Company but subsequently canceled.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

Subject to the approval of our Shareholders in general meeting in compliance with Rules 17.03C(1) and 17.03C(2) of the Listing Rules and/or such other requirements prescribed under the Listing Rules from time to time, our Board may refresh the Scheme Limit from time to time to 10% of the number of Shares in issue ("**New Scheme Limit**") as of the date of the approval by our Shareholders in general meeting ("**New Approval Date**"). Any refreshment within any three year period from the date of our Shareholders' approval for the last refreshment (or the adoption of the Share Option Scheme) must be approved by our Shareholders subject to the following provisions:

- (i) any controlling shareholders and their associates (or if there is no controlling shareholder, directors (excluding independent non-executive directors) and the chief executive of our Company and their respective associates) abstaining from voting in favor of the relevant resolution at the general meeting of our Company; and
- (ii) our Company must comply with the requirements under Rules 13.39(6) and (7), 13.40, 13.41 and 13.42 of the Listing Rules,

and thereafter, as of the date of grant of any options under the Share Option Scheme, the maximum number of Shares in respect of which options may be granted is the New Scheme Limit less the aggregate of the following:

- (i) the number of Shares which would be issued on the exercise in full of the options under the Share Option Scheme or under any other share schemes of our Company granted on or after the New Approval Date but not canceled or exercised;
- (ii) the number of Shares which have been issued and allotted pursuant to the exercise of any options under the Share Option Scheme or under any other share schemes of our Company or any awards granted under any other share schemes of our Company granted on or after the New Approval Date; and
- (iii) the number of those Shares which were the subject of options which had been granted on or after the New Approval Date and accepted under the Share Option Scheme and any other share schemes of our Company but subsequently canceled.

Subject to the approval of our Shareholders in general meeting in compliance with Rule 17.03C(3) of the Listing Rules and/or such other requirements as prescribed under the Listing Rules from time to time, our Board may grant options exceeding the Scheme Limit to Eligible Participants specifically identified by our Board.

The Scheme Limit shall be adjusted, in such manner as the auditors of our Company or an approved independent financial advisor shall certify to be appropriate, fair and reasonable in the event of any alteration in the capital structure of our Company in accordance with paragraph (r) below whether by way of capitalization issue, rights issue, sub-division or consolidation of shares or reduction of the share capital of our Company.

**APPENDIX IV**

**STATUTORY AND GENERAL INFORMATION**

**(e) Maximum number of options to any one individual**

Our Board shall, subject to and in accordance with the provisions of the Share Option Scheme and the Listing Rules, be entitled to but shall not be bound, at any time on any business day during the Scheme Period (as defined in paragraph (j) below) offer to grant an option to any Eligible Participant whom our Board may in its absolute discretion select and subject to such conditions (including, without limitation, the vesting period and/or any performance targets as assessed in accordance with the Performance Measures (as defined in paragraph (k) below) during a specified performance period which must be achieved before an option can be exercised) as it may think fit.

If our Board determines to offer options under the Share Option Scheme to an Eligible Participant which, when aggregated with any Shares issued or to be issued in respect of all options or awards granted to that person (excluding any options or awards lapsed in accordance with the terms of the relevant schemes) under the Share Option Scheme and the other share schemes of our Company in any 12-month period up to and including the date of such offer, exceed 1% of the number of Shares in issue on the Offer Date:

- (i) the grant shall be subject to (a) the issue of a circular by our Company to our Shareholders which shall comply with Rules 17.03D and 17.06 of the Listing Rules and/or such other requirements as prescribed under the Listing Rules from time to time; and (b) the approval of our Shareholders in general meeting and/or such other requirements prescribed under the Listing Rules from time to time with such Eligible Participant and his/her close associates (or his/her associates if the Eligible Participant is a connected person) abstaining from voting; and
- (ii) unless provided otherwise in the Listing Rules, the date of the Board meeting at which our Board resolves to grant the proposed options to such Eligible Participant shall be taken as the date of grant for the purpose of calculating the subscription price of our Shares.

Our Board shall forward to such Eligible Participant an offer document in such form as our Board may from time to time determine (or, alternatively, documents accompanying the offer document which state), among others:

- (aa) the Eligible Participant's name, address and occupation;
- (bb) the Offer Date;
- (cc) the date upon which an offer for an option must be accepted;
- (dd) the date upon which an option is deemed to be granted and accepted in accordance with paragraph (c);
- (ee) the number of Shares in respect of which the option is offered;

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

- (ff) the subscription price and the manner of payment of such price for our Shares on and in consequence of the exercise of the option;
- (gg) the date of expiry of the option as may be determined by our Board;
- (hh) the method of acceptance of the option which shall, unless our Board otherwise determines, be as set out in paragraph (c); and
- (ii) such other terms and conditions (including, without limitation, the vesting period and/or any performance targets as assessed in accordance with the Performance Measures (as defined in paragraph (k) below) during a specified performance period which must be achieved before the option can be exercised) relating to the offer of the option which in the opinion of our Board are fair and reasonable but not being inconsistent with the Share Option Scheme and the Listing Rules.

### **(f) Price of Shares**

Subject to any adjustments made as described in paragraph (r) below, the subscription price of a Share in respect of any particular option granted under the Share Option Scheme shall be such price as our Board in its absolute discretion shall determine, save that such price must be at least the higher of:

- (i) the closing price of our Shares as stated in the Stock Exchange's daily quotations sheet on the date of grant, which must be a business day; and
- (ii) the average closing price of our Shares as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of grant.

### **(g) Granting options to a director, chief executive or substantial shareholder of our Company or any of their respective associates**

Any grant of options to a director, chief executive or substantial shareholder (as defined in the Listing Rules) of our Company or any of their respective associates (as defined in the Listing Rules) is required to be approved by the independent non-executive Directors (excluding any independent non-executive Director who is the grantee of the options).

If our Board proposes to grant options to a substantial shareholder or any independent non-executive Director or their respective associates (as defined in the Listing Rules) which will result in the number of Shares issued and to be issued in respect of all options and awards granted to such person under the Share Option Scheme or the other share schemes of our Company (excluding any options and awards lapsed in accordance with the terms of such schemes) in the 12-month period up to and including the Offer Date of representing in aggregate over 0.1%, or such other percentage as may be from time to time provided under the Listing Rules of our Shares in issue on the Offer Date, such further grant of options will be subject to, in addition to the abovementioned approval of the independent non-executive

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

Directors, the approval of our Shareholders in general meeting in accordance with Rule 17.04(4) of the Listing Rules and/or such other requirements prescribed under the Listing Rules from time to time. Our Company must also send a circular to our Shareholders, which shall contain the following information:

- (i) the details of the number and terms (including the information required under Rules 17.03(5) to 17.03(10) and Rule 17.03(19) of the Listing Rules) of the options to be granted to each selected Eligible Participant, which must be fixed before our Shareholders' meeting, and the Offer Date (which shall be the date of the Board meeting at which our Board proposes to grant the proposed options to that Eligible Participant);
- (ii) the views of the independent non-executive Directors (excluding any independent non-executive Director who is the grantee of the options) as to whether the terms of the grant are fair and reasonable and whether such grant is in the interests of our Company and our Shareholders as a whole, and their recommendation to the independent Shareholders as to voting;
- (iii) the information required under Rule 17.02(2)(c) of the Listing Rules; and
- (iv) the information required under Rule 2.17 of the Listing Rules.

### **(h) Restrictions on the time of grant of options**

A grant of options shall not be made after inside information has come to the knowledge of our Company until it has announced such inside information pursuant to the requirements of the Listing Rules and Part XIVA of the SFO. In particular, no options may be granted during the period commencing one month immediately preceding the earlier of:

- (i) the date of the Board meeting (as such date to first notified to the Stock Exchange in accordance with the Listing Rules) for the approval of our annual results or our results for half-year, quarterly or other interim period (whether or not required under the Listing Rules); and
- (ii) the deadline for our Company to publish an announcement of our annual results or our results for half-year, or quarterly or other interim period (whether or not required under the Listing Rules),

and ending on the date of actual publication of the results for such year, half-year, quarterly or interim period (as the case may be) and where an option is granted to a Director, no options shall be granted:

- (i) during the period of 60 days immediately preceding the publication date of our annual results or, if shorter, the period from the end of the relevant financial year up to the publication date of the results; and

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

- (ii) during the period of 30 days immediately preceding the publication date of our quarterly results (if any) and half-year results or, if shorter, the period from the end of the relevant quarterly or half-year period up to the publication date of the results.

### (i) Rights are personal to grantee

Save for a transfer to a vehicle (such as a trust or a private company) for the benefit of the grantee and any family members of such grantee (including for estate planning or tax planning purposes) that would continue to meet the purpose of the Share Option Scheme and comply with other requirements of the Listing Rules, in which case a waiver must be obtained from the Stock Exchange, an option and offer to grant an option is personal to the grantee and shall not be transferrable or assignable. No grantee shall in any way sell, transfer, charge, mortgage, encumber or create any interest (legal or beneficial) in favor of any third party over or in relation to any option held by him/her or any offer relating to the grant of an option made to him/her or attempt so to do (save that the grantee may nominate a nominee in whose name our Shares issued pursuant to the Share Option Scheme may be registered). Any breach of the foregoing shall entitle our Company to cancel any outstanding options or any part thereof granted to such grantee.

### (j) Time of exercise of option and duration of the Share Option Scheme

An option may be exercised in accordance with the terms of the Share Option Scheme at any time after the date upon which the option is deemed to be granted and accepted and prior to the expiry of 10 years from that date. The period during which an option may be exercised will be determined by our Board in its absolute discretion, save that no option may be exercised more than 10 years after it has been granted. No option may be granted more than 10 years after the [REDACTED]. Subject to earlier termination by our Company in general meeting or by our Board, the Share Option Scheme shall be valid and effective for a period of 10 years from the [REDACTED] (“Scheme Period”).

### (k) Performance target

A grantee may be required to achieve any performance targets as our Board may then specify in the grant before any options granted under the Share Option Scheme can be exercised. The performance targets shall be assessed in accordance with any one or more of the following corporate-wide or subsidiary, division, operating unit, line of business, project, geographical or individual performance measures (“Performance Measures”) during a specified performance period: cash flow; earnings; earnings per share; market value added or economic value added; profits; return on assets; return on equity; return on investment; sales; revenue; Share price; total shareholder return; customer satisfaction metrics; and such other goals as our Board may determine from time to time. Each goal may be expressed on an absolute and/or relative basis, may be based on or otherwise employ comparisons based on internal targets, the past performance of our Company and/or the past or current performance of other companies, and in the case of earnings-based measures, may use or employ comparisons relating to capital, shareholders’ equity and/or shares outstanding, investments or to assets or net assets. Our Board may, in its sole discretion, amend or adjust the Performance Measures and establish any special rules and conditions to which the Performance Measures shall be subject at any time.

## **APPENDIX IV**

## **STATUTORY AND GENERAL INFORMATION**

### **(l) Rights on ceasing employment or death**

If the grantee of an option ceases to be an employee of our Company or any of our subsidiaries:

- (i) by any reason other than death, ill-health, injury, disability or termination of his/her employment on the grounds specified in paragraph (m) below, the grantee may exercise the option up to the entitlement of the grantee as of the date of cessation (to the extent not already exercised) within a period of one month from such cessation, which date shall be the last actual working day with our Company or the relevant subsidiary whether salary is paid in lieu of notice or not; or
- (ii) by reason of death, ill-health, injury or disability, his/her personal representative(s) may exercise the option within a period of 12 months from the date of cessation of being an Eligible Participant or death to exercise the option in full (to the extent not already exercised), failing which it will lapse.

### **(m) Rights on dismissal**

If the grantee of an option ceases to be an employee of our Company or any of our subsidiaries on the grounds that he/she has been guilty of serious misconduct, or in relation to an employee of our Group (if so determined by our Board) on any other ground on which an employee would be entitled to terminate his/her employment at common law or pursuant to any applicable laws or under the grantee's service contract with our Group, or has been convicted of any criminal offense involving his/her integrity or honesty, his/her option will lapse and not be exercisable after the date of termination of his/her employment.

### **(n) Rights on takeover**

If a general offer is made to all our Shareholders (or all such Shareholders other than the offeror and/or any person controlled by the offeror and/or any person acting in concert with the offeror (as defined in the Takeovers Codes)) and such offer becomes or is declared unconditional during the option period of the relevant option, the grantee of an option shall be entitled to exercise the option in full (to the extent not already exercised) at any time within 14 days after the date on which the offer becomes or is declared unconditional.

### **(o) Rights on winding-up**

In the event a notice is given by our Company to our members to convene a general meeting for the purposes of considering, and if thought fit, approving a resolution to voluntarily wind-up our Company, our Company shall forthwith give notice thereof to all grantees and thereupon, each grantee (or his/her legal personal representative(s)) shall be entitled to exercise all or any of his/her options (to the extent not already exercised) at any time not later than two business days prior to the proposed general meeting of our Company referred to above by giving notice in writing to our Company, accompanied by a remittance or payment

---

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

---

for the full amount of the aggregate subscription price for our Shares in respect of which the notice is given, whereupon our Company shall as soon as possible and, in any event, no later than the business day immediately prior to the date of the proposed general meeting, allot the relevant Shares to the grantee credited as fully paid and register the grantee as holder thereof.

**(p) Rights on compromise or arrangement between our Company and our members or creditors**

If a compromise or arrangement between our Company and our members or creditors is proposed for the purposes of a scheme for the reconstruction of our Company or its amalgamation with any other company or companies, our Company shall give notice to all the grantees of the options on the same day as it gives notice of the meeting to its members or creditors summoning the meeting to consider such a scheme or arrangement and any grantee may by notice in writing to our Company accompanied by a remittance or payment for the full amount of the aggregate subscription price for our Shares in respect of which the notice is given (such notice to be received by our Company not later than two business days prior to the proposed meeting), exercise the option to its full extent or to the extent specified in the notice and our Company shall as soon as possible and in any event no later than the business day immediately prior to the date of the proposed meeting, allot and issue such number of Shares to the grantee which falls to be issued on such exercise of the option credited as fully paid and register the grantee as holder thereof.

With effect from the date of such meeting, the rights of all grantees to exercise their respective options shall forthwith be suspended. Upon such compromise or arrangement becoming effective, all options shall, to the extent that they have not been exercised, lapse and terminate. If for any reason such compromise or arrangement does not become effective and is terminated or lapses, the rights of grantees to exercise their respective options shall with effect from such termination be restored in full but only upon the extent not already exercised and shall become exercisable as if such compromise or arrangement had not been proposed by our Company.

**(q) Ranking of Shares**

Our Shares to be allotted upon the exercise of an option will not carry voting, dividend or other rights until completion of the registration of the grantee (or any other person nominated by the grantee) as the holder thereof. Subject to the aforesaid, Shares to be issued and allotted upon the exercise of options, subject to the provisions of the articles of association of our Company, will carry the same right in all respects and shall have the same voting, dividend, transfer and other rights, including those arising on liquidation as attached to the other fully-paid Shares in issue on the date of issue and rights in respect of any dividend or other distributions paid or made on or after the date of issue. For the avoidance of doubt, Shares issued upon the exercise of an option shall not be entitled to any rights attaching to Shares by reference to a record date preceding the date of allotment.

---

**APPENDIX IV**

**STATUTORY AND GENERAL INFORMATION**

---

**(r) Effect of alterations to capital**

In the event of any alteration in the capital structure of our Company whilst any option may become or remains exercisable, whether by way of capitalization issue, rights issue, consolidation, sub-division or reduction of share capital of our Company, or otherwise howsoever, such corresponding alterations (if any) shall be made in the number of Shares subject to any outstanding options and/or the subscription price per Share of each outstanding option as the auditors of our Company or an approved independent financial advisor shall at the request of our Company or any grantee, certify in writing either generally or as regards any particular grantee to be in their opinion fair and reasonable, provided that any such alterations shall be made on the basis that a grantee shall have the same proportion of the equity capital of our Company (as interpreted in accordance with the supplementary guidance issued by the Stock Exchange on November 6, 2020 and any further guidance and interpretation of the Listing Rules issued by the Stock Exchange from time to time and/or such other requirement prescribed under the Listing Rules from time to time), rounded to the nearest whole Share, as that to which he/she was entitled to subscribe had he/she exercised all the options held by him/her immediately before such adjustments and the aggregate exercise price payable by a grantee on the full exercise of any option shall remain as nearly as possible the same as (but shall not be greater than) it was before such event and that no such alterations shall be made if the effect of such alterations would be to enable a Share to be issued at less than its nominal value. The issue of securities as consideration in a transaction is not to be regarded as a circumstance requiring any such alterations. The capacity of the auditors of our Company or the approved independent financial advisor, as the case may be, in this paragraph is that of experts and not arbitrators and their certificate shall, in absence of manifest error, be final and conclusive and binding on our Company and the grantees.

**(s) Expiry of option**

An option shall lapse automatically and not be exercisable (to the extent not already exercised) on the earliest of:

- (i) the date of expiry of the option as may be determined by our Board;
- (ii) the expiry of any of the periods referred to in paragraphs (l), (m), (n), (o) or (p);
- (iii) the date on which the scheme of arrangement of our Company referred to in paragraph (p) becomes effective;
- (iv) subject to paragraph (o), the date of commencement of the winding-up of our Company;
- (v) the date on which the grantee ceases to be an Eligible Participant by reason of such grantee's resignation from the employment with our Company or any of our subsidiaries or the termination of his/her employment or contract on any one or more of the grounds that he/she has been guilty of serious misconduct, or has been

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

convicted of any criminal offense involving his/her integrity or honesty, or in relation to an employee of our Group (if so determined by our Board), or has been insolvent, bankrupt or has made compositions with his creditors generally or any other ground as determined by our Board that would warrant the termination of his/her employment at common law or pursuant to any applicable laws or under the grantee's service contract with our Group. A resolution of our Board or the board of our relevant subsidiary to the effect that the employment of a grantee has or has not been terminated on one or more of the grounds specified in this paragraph shall be conclusive; or

- (vi) the date on which our Board shall exercise our Company's right to cancel the option at any time after the grantee commits a breach of paragraph (i) above or the options are canceled in accordance with paragraph (u) below.

Save as provided above in this paragraph (s), no options or shares issued upon the exercise of any options under the Share Option Scheme are subject to any clawback mechanism.

### **(t) Alteration of the Share Option Scheme**

The Share Option Scheme may be altered in any respect by resolution of our Board except that:

- (i) any change to the terms of options granted to a grantee must be approved by our Board, the Remuneration Committee, the independent non-executive Directors and/or our Shareholders (as the case may be) if the initial grant of the options was approved by our Board, the Remuneration Committee, the independent non-executive Directors and/or our Shareholders (as the case may be) (except any changes which take effect automatically under the terms of the Share Option Scheme); and
- (ii) any alterations to the terms and conditions of the Share Option Scheme which are of a material nature or any alterations to the provisions relating to the matters set out in Rule 17.03 of the Listing Rules to the advantage of the Eligible Participants or any change to the authority of the Directors or the administrators of the Share Option Scheme to alter the terms of the Share Option Scheme must be approved by our Shareholders in general meeting.

The amended terms of the Share Option Scheme shall still comply with Chapter 17 of the Listing Rules.

---

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

---

### (u) Cancellation of options

Subject to paragraph (i) above, any cancellation of options granted but not exercised must be approved by the grantees of the relevant options in writing. For the avoidance of doubt, such approval is not required in the event any option is canceled pursuant to paragraph (m).

### (v) Termination of the Share Option Scheme

Our Company may by resolution in general meeting or our Board at any time terminate the Share Option Scheme and in such event no further option shall be offered but the provisions of the Share Option Scheme shall remain in force to the extent necessary to give effect to the exercise of any option granted prior thereto or otherwise as may be required in accordance with the provisions of the Share Option Scheme. Options granted prior to such termination but not yet exercised at the time of termination shall continue to be valid and exercisable in accordance with the Share Option Scheme.

### (w) Administration of our Board

The Share Option Scheme shall be subject to the administration of our Board whose decision as to all matters arising in relation to the Share Option Scheme or its interpretation or effect (save as otherwise provided herein) shall be final and binding on all parties.

### (x) Conditions of the Share Option Scheme

The Share Option Scheme shall take effect subject to and is conditional on:

- (i) the passing of the necessary resolutions by our Shareholders to approve and adopt the rules of the Share Option Scheme;
- (ii) the Stock Exchange granting the approval for the [REDACTED] of, and permission to [REDACTED], our Shares which may fall to be issued pursuant to the exercise of options to be granted under the Share Option Scheme;
- (iii) the obligations of the [REDACTED] under the [REDACTED] becoming unconditional (including, if relevant, as a result of the waiver(s) of any such condition(s)) by the Sole Sponsor, the [REDACTED] and the [REDACTED] (on behalf of the [REDACTED]) and not being terminated in accordance with the terms of the [REDACTED] or otherwise; and
- (iv) the commencement of [REDACTED] in our Shares on the Stock Exchange.

If the conditions in paragraph (x) above are not satisfied within twelve calendar months from the adoption date:

- (i) the Share Option Scheme shall forthwith terminate;

---

**APPENDIX IV STATUTORY AND GENERAL INFORMATION**

---

- (ii) any option granted or agreed to be granted pursuant to the Share Option Scheme and any offer of such a grant shall be of no effect; and
- (iii) no person shall be entitled to any rights or benefits or be under any obligations under or in respect of the Share Option Scheme or any option granted thereunder.

**(y) Disclosure in annual and interim reports**

Our Company will disclose details of the Share Option Scheme in our annual reports and interim reports including the number of options, Offer Date, exercise price, exercise period, vesting period and other information as prescribed under the Listing Rules from time to time during the financial year in the annual/interim reports in accordance with the Listing Rules in force from time to time.

**(z) Present status of the Share Option Scheme**

As of the Latest Practicable Date, no option had been granted or agreed to be granted under the Share Option Scheme.

Application has been made to the Stock Exchange for the approval for the [REDACTED] of and permission to [REDACTED] our Shares which may fall to be [REDACTED] pursuant to the exercise of the options to be granted under the Share Option Scheme, being [REDACTED] Shares in total.

**F. OTHER INFORMATION**

**1. Estate Duty**

Our Directors have been advised that no material liability for estate duty is likely to fall on our Company or any of our subsidiaries.

**2. Litigation**

Save as disclosed in "Business – Legal proceedings and non-compliance" in this document as of the Latest Practicable Date, we were not aware of any other litigation or arbitration proceedings of material importance pending or threatened against us or any of our Directors that could have a material adverse effect on our financial condition or results of operations.

**3. Sole Sponsor**

The Sole Sponsor has made an application on behalf of our Company to the Listing Committee for the [REDACTED], and permission to [REDACTED], the Shares in issue and [REDACTED] as mentioned in this document (including any Shares which may be allotted and issued pursuant to the exercise of the [REDACTED]).

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

The Sole Sponsor satisfies the independence criteria applicable to sponsor as set out in Rule 3A.07 of the Listing Rules.

The Sole Sponsor fees are US\$775,000 and are payable by our Company.

### 4. Preliminary expenses

We have not incurred any material preliminary expenses in relation to the incorporation of our Company.

### 5. Promoter

Our Company has no promoter for the purpose of the Listing Rules. Save as disclosed in this document, within the two years immediately preceding the date of this document, no cash, securities or other benefit has been paid, allotted or given nor are any proposed to be paid, allotted or given to any promoters in connection with the [REDACTED] and the related transactions described in this document.

### 6. Taxation of holders of Shares

#### (a) *Hong Kong*

The sale, purchase and transfer of Shares registered with our Company's [REDACTED] of members will be subject to Hong Kong stamp duty, the current rate charged on each of the purchaser and seller is 0.1% of the consideration or, if higher, of the fair value of the Shares being sold or transferred. Profits from dealings in the Shares arising in or derived from Hong Kong may also be subject to Hong Kong profits tax. Our Directors have been advised that no material liability or estate duty under the laws of China or Hong Kong would be likely to fall upon any member of our Group.

#### (b) *Cayman Islands*

Under the present Cayman Islands law, there is no stamp duty payable in the Cayman Islands on transfers of Shares.

#### (c) *Consultation with professional advisors*

Intending holders of the Shares are recommended to consult their professional advisors if they are in doubt as to the taxation implications or subscribing for, purchasing, holding or disposing of or dealing in the Shares. It is emphasized that none of our Company, our Directors or the other parties involved in the [REDACTED] can accept responsibility for any tax effect on, or liabilities of, holders of Shares resulting from their subscription for, purchase, holding or disposal of or dealing in Shares or exercise of any rights attaching to them.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

### 7. Qualifications of experts

The following are the qualifications of the experts who have given opinions or advice which are contained in this document:

<b>Name</b>	<b>Qualification</b>
Zero2IPO Capital Limited	Licensed to conduct Type 6 (advising on corporate finance) of the regulated activities under the SFO
Han Kun Law Offices	Legal advisor to our Company as to the PRC law
Conyers Dill & Pearman	Legal advisors of our Company as to the laws of the Cayman Islands
KPMG	Certified Public Accountants and Public Interest Entity Auditor registered in accordance with the Accounting and Financial Reporting Council Ordinance

### 8. Consents of experts

Each of the experts referred to in "7. Qualifications of experts" above in this appendix has given and has not withdrawn its respective written consent to the issue of this document with the inclusion of its report and/or letter and/or opinion and/or the references to its name included herein in the form and context in which it is respectively included.

### 9. Interests of experts in our Company

None of the persons referred to in "7. Qualifications of experts" above in this appendix is interested beneficially or otherwise in any Shares or shares of any member of our Group or has any right or option (whether legally enforceable or not) to subscribe for or nominate persons to subscribe for any shares or securities in any member of our Group.

### 10. Binding effect

This document shall have the effect, if an application is made in pursuance hereof, of rendering all persons concerned bound by all the provisions (other than the penal provisions) of sections 44A and 44B of the Companies (Winding Up and Miscellaneous Provisions) Ordinance so far as applicable.

## APPENDIX IV

## STATUTORY AND GENERAL INFORMATION

### 11. Miscellaneous

- (a) Save as disclosed in this document, within the two years immediately preceding the date of this document:
  - (i) no share or loan capital of our Company or any of our subsidiaries has been issued or agreed to be issued or is proposed to be fully or partly paid either for cash or a consideration other than cash;
  - (ii) no share or loan capital of our Company or any of our subsidiaries is under option or is agreed conditionally or unconditionally to be put under option;
  - (iii) no commissions, discounts, brokerages or other special terms have been granted or agreed to be granted in connection with the issue or sale of any share or capital of our Company or any of our subsidiaries; and
  - (iv) no commission has been paid or payable subscribing, agreeing to subscribe, procuring subscription or agreeing to procure subscription of any share in our Company or any of our subsidiaries;
- (b) save as disclosed in this document, there are no founder, management or deferred shares nor any debentures in our Company or any of our subsidiaries;
- (c) our Directors confirm that there has been no material adverse change in the financial or trading position or prospects of our Group since 30 June, 2025 (being the date which the latest audited consolidated financial information of our Group were made up);
- (d) there has not been any interruption in the business of our Group which may have or has had a significant effect on the financial position of our Group in the 12 months preceding the date of this document;
- (e) the principal register of members of our Company will be maintained in the Cayman Islands by Conyers Trust Company (Cayman) Limited and a [REDACTED] of members of our Company will be maintained in Hong Kong by [REDACTED]. Unless our Directors otherwise agree, all transfer and other documents of title of Shares must be lodged for registration with and registered by our Company's [REDACTED] and may not be lodged in the Cayman Islands. All necessary arrangements have been made to enable the Shares to be [REDACTED];
- (f) no company within our Group is presently listed on any stock exchange or traded on any trading system;

---

**APPENDIX IV** **STATUTORY AND GENERAL INFORMATION**

---

- (g) our Directors have been advised that under Cayman Islands law the use of a Chinese name by our Company in conjunction with our English name does not contravene the Cayman Companies Law;
- (h) save as disclosed in this document, our Company has no outstanding convertible debt securities or debentures;
- (i) there is no arrangement under which future dividends are waived or agreed to be waived; and
- (j) there is no restriction affecting the remittance of profits or repatriation of capital into Hong Kong and from outside Hong Kong.

**12. Bilingual document**

The English and Chinese language versions of this document are being published separately, in reliance upon the exemption provided by section 4 of the Companies (Exemption from Companies and Prospectuses from Compliance Provisions) Notice (Chapter 32L of the Laws of Hong Kong).
