
APPENDIX I**ACCOUNTANT’S REPORT**

The following is the text of a report set out on pages [I-1] to [I-3], received from the Company’s reporting accountant, PricewaterhouseCoopers, Certified Public Accountants, Hong Kong, for the purpose of incorporation in this document. It is prepared and addressed to the directors of the Company and to the Joint Sponsors pursuant to the requirements of Hong Kong Standard on Investment Circular Reporting Engagements 200, Accountants’ Reports on Historical Financial Information in Investment Circulars issued by the Hong Kong Institute of Certified Public Accountants.

[Letterhead of PricewaterhouseCoopers]

[DRAFT]

ACCOUNTANT’S REPORT ON HISTORICAL FINANCIAL INFORMATION TO THE DIRECTORS OF ZHONGAN INFORMATION TECHNOLOGY (SHENZHEN) CO., LTD., ICBC INTERNATIONAL CAPITAL LIMITED AND GUOLIAN SECURITIES INTERNATIONAL CAPITAL MARKET CO., LIMITED

Introduction

We report on the historical financial information of Zhongan Information Technology (Shenzhen) Co., Ltd. (the “**Company**”) and its subsidiaries (together, the “**Group**”) set out on pages [I-4] to [I-84], which comprises the consolidated statements of financial position as at 31 December 2023 and 2024, the statements of financial position of the Company as at 31 December 2023 and 2024, and the consolidated statements of comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows for each of the years ended 31 December 2023 and 2024 (the “**Track Record Period**”) and material accounting policy information and other explanatory information (together, the “**Historical Financial Information**”). The Historical Financial Information set out on pages [I-4] to [I-84] forms an integral part of this report, which has been prepared for inclusion in the document of the Company dated [date] (the “**Document**”) in connection with the [REDACTED] of H Shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited.

Directors’ responsibility for the Historical Financial Information

The directors of the Company are responsible for the preparation of Historical Financial Information that gives a true and fair view in accordance with the basis of preparation set out in Note 2 to the Historical Financial Information, and for such internal control as the directors determine is necessary to enable the preparation of Historical Financial Information that is free from material misstatement, whether due to fraud or error.

Reporting accountant’s responsibility

Our responsibility is to express an opinion on the Historical Financial Information and to report our opinion to you. We conducted our work in accordance with Hong Kong Standard on Investment Circular Reporting Engagements 200, Accountants’ Reports on Historical Financial Information in Investment Circulars issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). This standard requires that we

APPENDIX I**ACCOUNTANT’S REPORT**

comply with ethical standards and plan and perform our work to obtain reasonable assurance about whether the Historical Financial Information is free from material misstatement.

Our work involved performing procedures to obtain evidence about the amounts and disclosures in the Historical Financial Information. The procedures selected depend on the reporting accountant’s judgement, including the assessment of risks of material misstatement of the Historical Financial Information, whether due to fraud or error. In making those risk assessments, the reporting accountant considers internal control relevant to the entity’s preparation of Historical Financial Information that gives a true and fair view in accordance with the basis of preparation set out in Note 2 to the Historical Financial Information in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Our work also included evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the Historical Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the Historical Financial Information gives, for the purposes of the accountant’s report, a true and fair view of the financial position of the Company as at 31 December 2023 and 2024 and the consolidated financial position of the Group as at 31 December 2023 and 2024, and of its consolidated financial performance and its consolidated cash flows for the Track Record Period in accordance with the basis of preparation set out in Note 2 to the Historical Financial Information.

Review of stub period financial information

We have reviewed the stub period financial information of the Group which comprises the consolidated statement of financial position as at 30 September 2025, the statement of financial position of the Company as at 30 September 2025 and the consolidated statements of comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows for the nine months ended 30 September 2024 and 2025 and other explanatory information (the “**Stub Period Financial Information**”). The directors of the Company are responsible for the preparation of the Stub Period Financial Information in accordance with the basis of preparation set out in Note 2 to the Historical Financial Information. Our responsibility is to express a conclusion on the Stub Period Financial Information based on our review. We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity issued by the International Auditing and Assurance Standards Board (“**IAASB**”). A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and

THIS DOCUMENT IS IN DRAFT FORM, INCOMPLETE AND SUBJECT TO CHANGE AND THAT THE INFORMATION MUST BE READ IN CONJUNCTION WITH THE SECTION HEADED “WARNING” ON THE COVER OF THIS DOCUMENT.

APPENDIX I**ACCOUNTANT’S REPORT**

consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion. Based on our review, nothing has come to our attention that causes us to believe that the Stub Period Financial Information, for the purposes of the accountant’s report, is not prepared, in all material respects, in accordance with the basis of preparation set out in Note 2 to the Historical Financial Information.

Report on matters under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) and the Companies (Winding Up and Miscellaneous Provisions) Ordinance

Adjustments

In preparing the Historical Financial Information, no adjustments to the Underlying Financial Statements as defined on page [I-4] have been made.

Dividends

We refer to note 36 to the Historical Financial Information which states that no dividends have been paid by Zhongan Information Technology (Shenzhen) Co., Ltd. in respect of the Track Record Period.

II NOTES TO THE HISTORICAL FINANCIAL INFORMATION

1 GENERAL INFORMATION

Zhongan Information Technology (Shenzhen) Co., Ltd. (the “**Company**”) was incorporated in the People’s Republic of China (the “**PRC**”) on 2 December 2021 as a limited liability company under the Company Law of the PRC. The address of the Company’s registered office is Room 402-73, T2 Building, Qianhai Mansion, 123 Guiwan 5th Road, Nanshan Street, Qianhai Shenzhen-Hong Kong Cooperation Zone, Shenzhen, China.

The Company and its subsidiaries (together, “**the Group**”) are principally engaged in the provision of system modules and services relating to digital transformation solutions.

Mr. Yu Feng is the ultimate controlling shareholders of the Company as at the date of this report.

2 BASIS OF PREPARATION

(i) Compliance with IFRS Accounting Standards

The Historical Financial Information of the Company has been prepared in accordance with IFRS Accounting Standards as issued by International Accounting Standards Board.

(ii) Accounting policies

The accounting policies applied in the preparation of the financial information has been consistently applied to all the years presented, unless otherwise stated.

Other than those material accounting policies information as disclosed in the notes to the relevant financial line items or transactions in this historical financial information, a summary of the other accounting policies information has been set out in Note 39 to this historical financial information.

(iii) Historical cost convention

The Historical Financial Information have been prepared on a historical cost basis, except for the certain financial assets that are measured at fair value.

The preparation of the Historical Financial Information in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the Historical Financial Information are disclosed in Note 4.

(iv) New standards, amendments to standards and interpretations

In preparation of the Historical Financial Information, all of the new standards, amendments to standards and interpretations that are effective during the Track Record Period and the stub period for the nine months ended 30 September 2024 and 2025 (collectively the “**Reporting Period**”) have been adopted by the Group consistently throughout the Reporting Period.

APPENDIX I

ACCOUNTANT’S REPORT

(v) New and amended standards and interpretations not yet adopted

The following amended standards have been issued but not yet effective for the Reporting Period and not been early adopted by the Group:

		Effective for annual periods beginning on or after
Amendments to IFRS 9 and IFRS 7	Classification and Measurement of Financial Instruments	1 January 2026
Amendments to IFRS 9 and IFRS 7	Contracts Referencing Nature-dependent Electricity	1 January 2026
Annual Improvements	Annual Improvements to IFRS Accounting Standards — Volume 11	1 January 2026
IFRS 18	Presentation and Disclosure in Financial Statements	1 January 2027
IFRS 19	Subsidiaries without Public Accountability: Disclosures	1 January 2027
Amendments to IAS 21	Translation to a Hyperinflationary Presentation Currency	1 January 2027
Amendments to IFRS 10 and IAS 28	Sale or contribution of assets between an investor and its associate or joint venture	To be determined

The Group has already commenced an assessment of the impact of these new and amended standards and has concluded on a preliminary basis that adoption of these new and amended standards is not expected to have significant impacts on the financial performance and positions of the Group when they become effective, except for IFRS 18, which will mainly impact the presentation of statements of comprehensive income, with limited impact to the statement of cashflow, and providing more disclosures including management-defined performance measures within the financial statements.

Management is currently assessing the detailed implications of applying the new standard on the Group’s consolidated financial statements. From the high-level preliminary assessment performed, Group believes that the gain of financial assets at fair value through profit or loss currently aggregated in the line item “other (losses)/gains — net” within operating profit, will be presented below operating profit.

The Group does not expect there to be a significant change in the information that is currently disclosed in the notes because the requirement to disclose material information remains unchanged; however, the way in which the information is grouped might change as a result of the aggregation/disaggregation principles. In addition, there will be significant new disclosures required for:

- management-defined performance measures;
- a break-down of the nature of expenses for line items presented by function in the operating category of the income statement;
- this break-down is only required for certain nature expenses; and
- for the first annual period of application of IFRS 18, a reconciliation for each line item in the income statement between the restated amounts presented by applying IFRS 18 and the amounts previously presented applying IAS 1.

From a cash flow statement perspective, there will be changes to how interest received are presented. Interest received as investing cash flows, and hence there may be certain change from the current presentation as part of operating cash flows.

The Group will apply the new standard from its mandatory effective date of 1 January 2027. Retrospective application is required, and so the comparative information for the financial year ending 31 December 2026 will be restated in accordance with IFRS 18.

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of Historical Financial Information requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group’s accounting policies.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Impairment of financial assets

The loss allowances for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group’s past history, existing market conditions, as well as forward-looking estimates at the end of each Reporting Period. Details of the key assumptions and inputs used are disclosed in the tables in Note 4.1.

(b) Income taxes and deferred taxations

There are many transactions and events for which the ultimate tax determination is uncertain during the ordinary course of business. Significant judgments are required from the Group in determining the provisions for income taxes. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred income tax provisions in the period in which such determination is made.

The Group recognizes deferred income tax assets based on estimates that it is probable to generate sufficient taxable profits in the foreseeable future against which the deductible losses will be utilized. The recognition of deferred income tax assets mainly involves management’s judgments and estimations about the timing and the amount of taxable profits of the companies who has tax losses.

(c) Estimation of the fair value of certain financial assets

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. Changes in these assumptions and estimates could materially affect the respective fair value of these financial assets.

APPENDIX I

ACCOUNTANT’S REPORT

4 FINANCIAL RISK MANAGEMENT

4.1 Financial risk factors

The Group’s activities expose it to a variety of financial risks: market risk (including cash flow and fair value interest rate risk), credit risk and liquidity risk. The Group’s overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group’s financial performance. The Group does not use any derivative financial instruments to hedge certain risk exposures during the Reporting Period.

(a) *Market risk*

(i) *Cash flow and fair value interest rate risk*

The Group’s income and operating cash flows are substantially independent of changes in market interest rates. The Group has no significant interest-bearing assets and liabilities, except for lease liabilities (Note 17), cash and cash equivalents (Note 23), short-term borrowings (Note 29). Those carried at floating rates expose the Group to cash flow interest rate risk whereas those carried at fixed rates expose the Group to fair value interest rate risk.

The Group’s interest rate risk mainly arises from borrowings. As at 31 December 2023 and 2024 and 30 September 2025, borrowings obtained at variable rates expose the Group to cash flow interest-rate risk. borrowings obtained at fixed rates expose the Group to fair value interest-rate risk. The interest rates and terms of repayments of borrowings are disclosed in Note 29. The Group did not use any interest rate swap contracts or other financial instruments to hedge against its interest rate risk for the Track Record Period.

If the Group’s interest rates on borrowings obtained at variable rates had been higher/lower by 0.5%, the profit before income tax for the year/period then ended would have been approximately RMB9,000, RMB64,000, RMB37,000 and RMB107,000 higher/lower respectively for the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025.

(b) *Credit risk*

Credit risk arises from cash and cash equivalents, trade receivables and contract assets and other receivables. The carrying amount of each class of the above financial assets represents the Group’s maximum exposure to credit risk in relation to the corresponding class of financial assets.

Risk management

To manage this risk, cash and cash equivalents are mainly placed with state-owned or reputable financial institutions in Chinese Mainland which are all high-credit-quality financial institutions.

To manage risk arising from trade receivables and contract assets, the Group has policies in place to ensure that credit terms are made to counterparties with an appropriate credit history and management performs ongoing credit evaluations of the counterparties. Trade receivables and contract assets have been grouped based on shared credit risk characteristics and aging to measure the expected credit losses.

For other receivables, management makes periodic collective assessments as well as individual assessment on the recoverability of other receivables based on historical settlement records and past experiences.

Impairment of financial assets

The Group has three types of financial assets that are subject to the expected credit loss model:

- cash and cash equivalents;
- trade receivables and contract assets; and
- other receivables.

(i) Cash and cash equivalents

To manage risk arising from cash and cash equivalents, the Group only transacts with state-owned or reputable financial institutions in Chinese Mainland. There has been no recent history of default in relation to these financial institutions. These instruments are considered to have low credit risk because they have a low risk of default and the counterparty has a strong capacity to meet its contractual cash flow obligations in the near term. Cash and cash equivalents are also subject to the impairment requirements of IFRS 9, while the identified credit loss was immaterial.

(ii) Trade receivables and contract assets

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets.

To measure the expected credit losses, trade receivables and contract assets have been grouped based on similar credit risk characteristics and collectively assessed to likelihood of recovery, taking into account the industries that the customer is operating in, their aging category and past collection history. For trade receivables and contract assets, management makes periodic assessments as well as individual assessment on the recoverability based on historical settlement records and past experience and adjusts for forward looking information.

The expected loss rates are based on the debtor’s credit rating and industry they operate in with similar risk profiles and were adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables and contract assets.

Trade receivables and contract assets include:

- Category 1: customers who are related parties are assessed based on industry credit rating within lifetime ECL.
- Category 2: customers who are non-related parties and no default history and not insolvent or in operating difficulty with a relatively high credit risk.

With different types of customers, the Group calculated the expected credit loss rates respectively.

The ageing analysis of trade receivables and contract assets is based on date of revenue recognition.

THIS DOCUMENT IS IN DRAFT FORM, INCOMPLETE AND SUBJECT TO CHANGE AND THAT THE INFORMATION MUST BE READ IN CONJUNCTION WITH THE SECTION HEADED “WARNING” ON THE COVER OF THIS DOCUMENT.

APPENDIX I

ACCOUNTANT’S REPORT

The loss allowances for Trade receivables and contract assets for the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025 reconcile to the opening loss allowances as follows:

	Trade receivables and contract assets			
	Year ended		Nine months ended	
	31 December		30 September	
	2023	2024	2024	2025
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>
			<i>(Unaudited)</i>	<i>(Unaudited)</i>
Opening loss allowance				
as at 1 January	(17)	(238)	(238)	(110)
Impairment				
(losses)/reversal				
recognized — net	<u>(221)</u>	<u>128</u>	<u>186</u>	<u>(210)</u>
 Closing loss allowance				
as at 31 December/ 30 September	<u><u>(238)</u></u>	<u><u>(110)</u></u>	<u><u>(52)</u></u>	<u><u>(320)</u></u>

Trade receivables and contract assets are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings.

Impairment losses on trade receivables and contract assets are presented as net impairment losses on financial assets within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

(iii) Other receivables

Other receivables mainly include deposits. All of the Group’s financial assets at amortized cost are measured as either 12-month expected credit losses or lifetime expected credit losses, depending on whether there has been a significant increase in credit risk since initial recognition as described in Note 39.6.

Other receivables are written off when there is no reasonable expectation of recovery.

Impairment losses on other receivables are presented as net impairment losses on financial assets within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

APPENDIX I

ACCOUNTANT’S REPORT

The loss allowances for other receivables as at the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025 reconcile to the opening loss allowances as follows:

The Group

	Other receivables			
	Year ended		Nine months ended	
	31 December		30 September	
	2023	2024	2024	2025
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>

Closing loss allowance as at 31 December/ 30 September	<u>(22)</u>	<u>(1)</u>	<u>—</u>	<u>(14)</u>

(c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents. Due to the dynamic nature of the underlying businesses, the policy of the Group is to regularly monitor the Group’s liquidity risk and to maintain adequate cash and cash equivalents to meet the Group’s liquidity requirements.

Management monitors rolling forecasts of the Group’s liquidity and cash and cash equivalents (Note 23) on the basis of expected cash flows. This is generally carried out at the Group level. Management considers the Group’s current cash and cash equivalents, the proceeds from recent financing arrangements and the anticipated cash flows from operations and financing activities, to meet its anticipated working capital requirements, capital expenditure requirements and to repay its liabilities.

APPENDIX I

ACCOUNTANT’S REPORT

The table below analyses the Group’s financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivatives	Less than 1 year RMB’000	Between 1 and 2 years RMB’000	Between 2 and 5 years RMB’000	Total RMB’000
As at 31 December 2023				
Trade payables (<i>Note 30</i>)	63,285	—	—	63,285
Other payables and accruals (excluding salaries and welfare payables and VAT and other taxes payables) (<i>Note 31</i>)	2,572	1,146	—	3,718
Borrowings (<i>Note 29</i>)	<u>7,611</u>	<u>—</u>	<u>—</u>	<u>7,611</u>
Total	<u>73,468</u>	<u>1,146</u>	<u>—</u>	<u>74,614</u>
As at 31 December 2024				
Trade payables (<i>Note 30</i>)	113,436	—	—	113,436
Other payables and accruals (excluding salaries and welfare payables and VAT and other taxes payables) (<i>Note 31</i>)	2,531	—	—	2,531
Borrowings (<i>Note 29</i>)	25,303	—	—	25,303
Lease liabilities(<i>Note 17</i>)	<u>1,405</u>	<u>—</u>	<u>—</u>	<u>1,405</u>
Total	<u>142,675</u>	<u>—</u>	<u>—</u>	<u>142,675</u>
As at 30 September 2025				
Trade payables (<i>Note 30</i>)	83,423	—	—	83,423
Other payables and accruals (excluding salaries and welfare payables and VAT and other taxes payables) (<i>Note 31</i>)	8,288	—	—	8,288
Borrowings (<i>Note 29</i>)	32,284	—	—	32,284
Lease liabilities(<i>Note 17</i>)	<u>2,446</u>	<u>937</u>	<u>—</u>	<u>3,383</u>
Total	<u>126,441</u>	<u>937</u>	<u>—</u>	<u>127,378</u>

(Unaudited)

APPENDIX I

ACCOUNTANT’S REPORT

As at 31 December 2024, the financial instruments with preferred rights at amortized cost as described in Note 28 of approximately RMB179,580,000 were not managed by maturity date and were all reclassified to equity in 2025.

4.2 Capital management

The Group’s objectives when managing capital are to:

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

The Group monitors capital by regularly reviewing the capital structure. As a part of this review, the directors of the Company consider the cost of capital and the risks associated with the issued share capital. The Group may adjust the amount of dividends paid to owners, return capital to owners, issue new shares or repurchase the Company’s shares. In the opinion of the directors of the Company, the Group’s capital risk is low.

The Group monitors capital using a gearing ratio, which is total liabilities divided by total assets. The gearing ratio of the Group as at 31 December 2023 and 2024 and 30 September 2025 were as follows:

	As at 31 December		As at
	2023	2024	30 September
	RMB’000	RMB’000	2025
			RMB’000
			(Unaudited)
Total liabilities	88,622	361,007	168,679
Total assets	130,772	436,388	555,497
Gearing ratio	<u>67.77%</u>	<u>82.73%</u>	<u>30.37%</u>

4.3 Fair value estimation

(a) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognized and measured at fair value in the statements of financial position. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standards.

- Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and equity securities) is based on quoted market prices at the end of the Reporting Period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.
- Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

APPENDIX I

ACCOUNTANT’S REPORT

The following table presents the Group’s assets that are measured at fair value as at 31 December 2023 and 2024 and 30 September 2025:

Level 3	As at 31 December		As at 30
	2023	2024	September
	RMB’000	RMB’000	2025
Assets			RMB’000
Financial assets at fair value through profit or loss (<i>Note 22</i>)	—	—	19,065

(Unaudited)

(b) Valuation process and technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- Discounted cash flow analysis, has been used to determine fair value for the remaining financial instruments.

There were no changes in valuation techniques during the Reporting Period.

The fair value of trade receivables, other receivables and prepayments and cash and cash equivalents approximated their carrying amounts.

The fair value of trade payables, other payables and accruals (excluding salaries and welfare payables and VAT and other taxes payables), borrowings and lease liabilities approximated their carrying amounts.

(c) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the nine months ended 30 September 2025:

	Financial assets at fair value through profit or loss
	RMB’000
As at 1 January 2025	—
Acquisitions	18,994
Fair value changes (<i>Note 7</i>)	71
As at 30 September 2025	19,065

(d) There were no transfers between levels 1, 2 and 3 for recurring fair value measurements during the Reporting Period.

(e) Valuation inputs and relationships to fair value

The following table summarizes the quantitative information about the significant unobservable inputs used in recurring level 3 fair value measurements.

APPENDIX I

ACCOUNTANT’S REPORT

As at 30 September 2025

Description	Fair value <i>RMB’000</i>	Unobservable inputs	Range of inputs	Relationship of unobservable inputs to fair value
Wealth management products	19,065	Expected rate of return	6.5%	The higher the expected rate of return, the higher the fair value

As at 30 September 2025, if expected rate of return higher/lower by 1%, fair value of financial assets at fair value through profit or loss would have been approximately RMB142,000 higher/lower.

5 REVENUE AND SEGMENT INFORMATION

(a) Description of segments and principal activities

During the Reporting Period, the Group is principally engaged in the provision of the following system modules and services: (i) Intelligent Marketing; (ii) Intelligent Operation & Management in the PRC. The executive directors of the Company review the operating results of the business as one operating segment to make strategic decisions and resources allocation. Therefore, the Group regards that there is only one business segment which is used to make strategic decisions.

Geographical information

All of the Group’s business and operations are conducted in Chinese Mainland and currently, the Group’s principal market, majority of revenue, operating loss and non-current assets are derived from/located in the PRC. Accordingly, no geographical segment information is presented.

APPENDIX I

ACCOUNTANT’S REPORT

Intelligent Marketing Solutions help enterprises enhance customer acquisition, retention, conversion, purchase-augmentation and recommendation by integrating analytics, automated decision-making and multi-channel execution.

Intelligent Operations Management solutions are powered by the Group’s proprietary industry-specific model capabilities and support enterprises in automating mission-critical processes and strengthening daily operational execution across highly regulated financial industries as well as other sectors including technology and retail.

Disaggregation of revenue from contracts with customers by the timing of revenue recognition is as follows:

	Year ended 31 December		Nine months ended 30 September	
	2023 <i>RMB’000</i>	2024 <i>RMB’000</i>	2024 <i>RMB’000</i> <i>(Unaudited)</i>	2025 <i>RMB’000</i> <i>(Unaudited)</i>
Over time	221,949	249,343	171,521	149,942
At a point in time	<u>3,915</u>	<u>59,189</u>	<u>7,407</u>	<u>140,479</u>
	<u>225,864</u>	<u>308,532</u>	<u>178,928</u>	<u>290,421</u>

(c) **Assets and liabilities related to contracts with customers**

The Group

The Group recognized the following assets and liabilities related to the contracts with customers:

	As at 31 December		As at 30 September
	2023 <i>RMB’000</i>	2024 <i>RMB’000</i>	2025 <i>RMB’000</i> <i>(Unaudited)</i>
Contract assets			
Current contract assets	<u>189</u>	<u>4,558</u>	<u>18,778</u>
Contract liabilities			
Current contract liabilities	<u>1,403</u>	<u>9,590</u>	<u>13,063</u>

APPENDIX I

ACCOUNTANT’S REPORT

Revenue recognized in relation to contract liabilities

The following table shows how much of the Group’s revenue recognized during the Reporting Period relates to carried-forward contract liabilities.

	Year ended 31 December		Nine months ended 30 September	
	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000
			(Unaudited)	(Unaudited)
Revenue recognized that was included in the contract liabilities balance at the beginning of the year	14,789	1,403	1,403	9,590

Contract assets of the Group mainly arise from the right to consideration for system modules or services that have been transferred to customers. The contract assets are transferred to trade receivables when receipt of the consideration is conditional only on the passage of time.

Contract liabilities of the Group mainly arise from the advance payments made by customers while the underlying system modules or services are yet to be provided. All of contract liabilities balance at the beginning of the year will be recognized into revenue next year.

The Company

The Company recognized the following contract liabilities related to the contracts with customers:

	As at 31 December		As at 30 September
	2023	2024	2025
	RMB’000	RMB’000	RMB’000
			(Unaudited)
Contract assets			
Current contract assets	—	4,472	18,623
Contract liabilities			
Current contract liabilities	1,154	9,150	12,400

The following table shows how much of the Company’s revenue recognized during the Reporting Period relates to carried-forward contract liabilities.

	Year ended 31 December		Nine months ended 30 September	
	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000
			(Unaudited)	(Unaudited)
Revenue recognized that was included in the contract liabilities balance at the beginning of the year	14,789	1,154	1,154	9,150

APPENDIX I

ACCOUNTANT’S REPORT

(d) Unsatisfied performance obligations

The following table shows unsatisfied performance obligations of the Group as at 31 December 2023 and 2024 and 30 September 2025:

	As at 31 December		As at
	2023	2024	30 September
	RMB'000	RMB'000	2025
			RMB'000
			(Unaudited)
Aggregate amount of unsatisfied performance obligations	<u>60,866</u>	<u>266,407</u>	<u>303,167</u>

Management expects that 46.3%, 53.7% and 92.9% of the transaction price allocated to the unsatisfied contracts as at 31 December 2023 and 2024 and 30 September 2025 will be recognized as revenue within one year. The remaining 53.7%, 46.3% and 7.1% will be recognized over one year.

The following table shows unsatisfied performance obligations of the Company as at 31 December, 2023 and 2024 and 30 September 2025:

	As at 31 December		As at
	2023	2024	30 September
	RMB'000	RMB'000	2025
			RMB'000
			(Unaudited)
Aggregate amount of unsatisfied performance obligations	<u>60,886</u>	<u>263,771</u>	<u>298,818</u>

Management expects that 46.3%, 40.5% and 92.8% of the transaction price allocated to the unsatisfied contracts as at 31 December, 2023 and 2024 and 30 September 2025 will be recognized as revenue within one year. The remaining 53.7%, 59.5% and 7.3% will be recognized over one year.

(e) Information about major customers

For the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025, revenue derived from customers who accounted for more than 10% of total revenue were set out below:

	Year ended 31 December		Nine months ended	
	2023	2024	30 September	2025
	RMB'000	RMB'000	2024	2025
			RMB'000	RMB'000
			(Unaudited)	(Unaudited)
Customer 1 (i)	29.2%	49.0%	35.0%	29.6%
Customer 2	<u>10.5%</u>	<u>NA</u>	<u>10.1%</u>	<u>NA</u>

N/A: The customer contributed less than 10% of total revenue for the corresponding year/period.

- (i) Customer 1 is ZhongAn Information Technology Services Co., Ltd., a shareholder of the Company. ZhongAn Information Technology Services Co., Ltd. is a subsidiary of ZhongAn Online P & C Insurance Co., Ltd. Transactions with ZhongAn Online P & C Insurance Co., Ltd and its subsidiaries are disclosed in Note 34.

APPENDIX I**ACCOUNTANT’S REPORT**

(f) Revenue recognition policy

The Group recognizes revenue when (or as) a performance obligation is satisfied, i.e. when control of the system modules or services underlying the particular performance obligation is transferred to the customer.

Control is transferred over time and revenue is recognized over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognized at a point in time when the customer obtains control of the distinct system module or services.

In determining whether revenue of the Group should be reported gross or net is based on a continuing assessment of various factors. When determining whether the Group is acting as the principal or agent in offering system module or services to the customer, the Group needs to first identify who controls the specified system module or services before they are transferred to the customer. The Group follows the accounting guidance for principal-agent considerations to assess whether the Group controls the specified system module or service before it is transferred to the customer, the indicators of which including but not limited to (a) whether the entity is primarily responsible for fulfilling the promise to provide the specified system module or service; (b) whether the entity has inventory risk before the specified system module or service has been transferred to a customer; and (c) whether the entity has discretion in establishing the prices for the specified system module or service. The management considers the above factors in totality, as none of the factors individually are considered presumptive or determinative, and applies judgment when assessing the indicators depending on each different circumstance.

The following is a description of the accounting policy for the principal revenue streams of the Group.

(i) Services

Cloud-based services primarily consist of fees that provide customers access to functions in the form of standardized cloud services to meet the needs of business processes. The Group charges customers based on the volume of orders processed on the products. Related revenue is recognized upon consumption over time since the customer simultaneously receives and consumes the benefits provided by the Group.

The Group also provides customized services to customers to complete tasks based on the customer’s specific requirements. The Group charges customers on a monthly basis based on the manpower consumption of the relevant services. Revenue from customized services is recognized over time since the customer simultaneously receives and consumes the benefits provided by the Group.

APPENDIX I

ACCOUNTANT’S REPORT

(ii) System modules

The Group sells system modules to customers, including delivery and installation. It is accounted for as a single performance obligation since the Group provides an integrated products and services. Revenue from sales of system modules is recognized at a point of time when the customers accept the system modules after the installation is complete.

A contract liability represents the Group’s obligation to transfer system modules or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

(a) Pension obligations, housing funds, medical insurances and other social insurances

Full time employees of the Group in the PRC are members of a state-managed retirement benefit schemes operated by the PRC government. The Group is required to contribute a specified percentage of payroll costs, subject to certain ceiling, as determined by local government authority to the pension obligations, housing funds, medical insurances and other social insurances to fund the benefits. The Group’s liabilities in respect of benefits schemes are limited to the contribution payable in each year.

No forfeited contributions were utilized during the Reporting Period to offset the Group’s contribution to the abovementioned retirement benefit schemes.

APPENDIX I

ACCOUNTANT’S REPORT

(b) Five highest paid employees

The five individuals whose emoluments were the highest in the Group for each of the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025 include 0, 0, 0 and 0 director respectively. The aggregate amounts of emoluments for the remaining 5, 5, 5 and 5 highest paid individuals for each of the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025, respectively are as follows:

	<u>470</u>	<u>4,348</u>	<u>1,599</u>	<u>(232)</u>

APPENDIX I

ACCOUNTANT’S REPORT

The income tax expense or credit for the period is the tax payable on the current period’s taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred income tax assets and liabilities attributable to temporary differences and to unused tax losses.

(i) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the jurisdiction where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

(ii) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Historical Financial Information. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized, or the deferred income tax liability is settled.

Deferred income tax assets are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred income tax assets and liabilities are offset where there is a legally enforceable right to offset current income tax assets and liabilities and where the deferred income tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred income tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity respectively.

(iii) Income tax rates

The Company and its subsidiaries in the PRC are subject to PRC CIT which is calculated based on the applicable tax rate of 25% on the assessable profits of the subsidiaries in accordance with PRC tax laws and regulations for the Reporting Period, except for disclosed below.

The Group’s subsidiary, Shanghai Youguang Technology Co., Ltd. 上海有光資訊技術有限公司 was entitled to a preferential income tax rate of 15% during the Reporting Period. The Company obtained its High and New Technology Enterprises (“HNTÉ”) status in year 2023, hence is entitled to a preferential tax rate of 15% for a three-year period commencing 2023. This status is subject to a requirement that the Company reapply for HNTÉ status every three years.

According to a policy promulgated by the State Tax Bureau of the PRC and effective from 2018 onwards, enterprises engaged in research and development (“R&D”) activities are entitled to claim an additional tax deduction amounting to 75% of the qualified R&D expenses incurred in determining its tax assessable profits for that year (“**Super Deduction**”). Starting from 1 October 2022, the additional deduction ratio increased to 100%.

APPENDIX I

ACCOUNTANT’S REPORT

The Group’s subsidiary, Jinan Zhong’an Xinke Technology Co., Ltd. 濟南眾安信技術有限公司 and Beijing Yirong Technology Co., Ltd. 北京益融科技有限公司, were qualified as “Small Low-Profit Enterprise” during the years ended 31 December 2023, 2024 and the nine months ended 30 September 2025. The entitled subsidiaries were able to enjoy an exemption to income tax for up to 75% of their taxable income, and the rest taxable income would be subject to a preferential income tax rate of 20%, resulting in an effective income tax rate of around 5% for these entitled subsidiaries.

The difference between the actual income tax expense charged to the consolidated statements of comprehensive income or loss and the amounts which would result from applying the enacted tax rates to profit before income tax can be reconciled as follows:

	Year ended 31 December		Nine months ended	
	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000
			(Unaudited)	(Unaudited)
Profit before income tax	<u>10,552</u>	<u>37,579</u>	<u>16,254</u>	<u>31,423</u>
Income tax expenses calculated at applicable tax rates	2,638	9,395	4,064	7,856
Tax effects of preferential tax rate	(211)	(379)	(363)	(808)
Super deduction of research and development expenses	(2,219)	(5,821)	(2,585)	(7,354)
Expenses not deductible for tax purposes	<u>262</u>	<u>1,153</u>	<u>483</u>	<u>74</u>
	<u>470</u>	<u>4,348</u>	<u>1,599</u>	<u>(232)</u>

13 EARNINGS PER SHARE

(a) Earnings per share

Basic earnings per share for the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025 are calculated by dividing the profit attributable to the Company’s shareholders by the weighted average number of ordinary shares in issue during the year.

	Year ended 31 December		Nine months ended	
	2023	2024	2024	2025
			(Unaudited)	(Unaudited)
Profit attributable to owners of the Company (RMB’000)	10,082	33,231	14,655	31,655
Weighted average number of ordinary shares in issue (’000)	<u>10,100</u>	<u>19,529</u>	<u>19,117</u>	<u>23,046</u>
Basic and diluted earnings per share (expressed in RMB per share)	<u>1.00</u>	<u>1.70</u>	<u>0.77</u>	<u>1.37</u>

APPENDIX I

ACCOUNTANT’S REPORT

(b) Diluted earnings per share

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. During the Track Record Period, the Group had potential ordinary shares, including financial instruments with preferred rights (Note 28). For the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025, diluted earnings per share would be the same as basic earnings per share considering that the ordinary shares associated with the financial instruments with preferred rights have already been issued and outstanding. Accordingly, diluted earnings per share for the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025 are the same as basic earnings per share of the respective years/periods.

14 SUBSIDIARIES

(a) Subsidiaries of the Company

As at the date of this report, the Company has direct or indirect interests in the following subsidiaries:

Name of entity	Date of incorporation	Place of incorporation/operation	Registered share capital	Effective interest held by the Group			As at the date of this report	Principal activities	Note
				As at 31 December 2023	2024	As at 30 September 2025

APPENDIX I

ACCOUNTANT’S REPORT

(ii) Depreciation methods and useful lives

All property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives as follows:

Electronic equipment	3 years
Vehicles	5 years

The assets’ residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each Reporting Period.

An asset’s carrying amount is written down immediately to its recoverable amount if the asset’s carrying amount is greater than its estimated recoverable amount (Note 39.3).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are recognized within “other (losses)/gains — net included in the consolidated statements of comprehensive income or loss.

(a) Amortisation methods and periods

The Group amortises intangible assets with a limited useful life using the straight-line method over the following periods:

Patent	3–10 years
Software	3 years

THIS DOCUMENT IS IN DRAFT FORM, INCOMPLETE AND SUBJECT TO CHANGE AND THAT THE INFORMATION MUST BE READ IN CONJUNCTION WITH THE SECTION HEADED “WARNING” ON THE COVER OF THIS DOCUMENT.

APPENDIX I

ACCOUNTANT’S REPORT

(b) Amortization expenses

Amortization expenses have been charged to the consolidated statements of profit or loss as follows:

	Year ended 31 December		Nine months ended 30 September	
	2023 RMB'000	2024 RMB'000	2024 RMB'000 (Unaudited)	2025 RMB'000 (Unaudited)

— Cost of sales	—	310	232	232
— Selling and marketing costs	—	33	25	26
— General and administrative expenses	—	249	186	195
— Research and development expenses	—	199	150	158
	<u>—</u>	<u>791</u>	<u>593</u>	<u>611</u>
Interest expense (Note 10)	<u>—</u>	<u>51</u>	<u>38</u>	<u>41</u>
Expense relating to short-term leases (included in cost of sales, sales and marketing expenses, general and administrative expenses, research and development expenses)	<u>655</u>	<u>374</u>	<u>275</u>	<u>1,114</u>
	<u>655</u>	<u>1,216</u>	<u>906</u>	<u>1,766</u>

The total cash outflows for leases payments for the years ended 31 December 2023, 2024 and the nine months ended 30 September 2024 and 2025 were approximately RMB655,000, RMB374,000, RMB275,000 and RMB1,218,000 respectively.

(c) The Group’s leasing activities and how they are accounted for

The Group leases various buildings and offices. Rental contracts are typically made for fixed periods of one year to two years but may have extension options as described in (d) below.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee’s incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received,

APPENDIX I

ACCOUNTANT’S REPORT

- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third-party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

If a readily observable amortizing loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Group entities use that rate as a starting point to determine the incremental borrowing rate.

Right-of-use assets are generally depreciated over the shorter of the assets’ useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset’s useful life.

Payments associated with short-term leases of building are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less without a purchase option.

See Note 39.15 for the other accounting policies relevant to leases.

(d) Extension and termination options

Extension and termination options are included in a number of leases of buildings across the Group. These are used to maximize operational flexibility in terms of managing the assets used in the Group’s operations. The majority of extension and termination options held are exercisable only by the Group and not by the respective lessor.

18 DEFERRED INCOME TAX

The Group

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to the same tax authority.

	As at 31 December		As at
	2023	2024	30 September

<i>(Unaudited)</i>			
As at 1 January 2025	28	342	370
Credited to profit or loss	<u>55</u>	<u>487</u>	<u>542</u>
As at 30 September 2025	<u><u>83</u></u>	<u><u>829</u></u>	<u><u>912</u></u>
<i>(Unaudited)</i>			
As at 1 January 2024 (Charged)/Credited to profit or loss	65 <u>(52)</u>	— <u>339</u>	65 <u>287</u>
As at 30 September 2025	<u><u>13</u></u>	<u><u>339</u></u>	<u><u>352</u></u>

(b) Deferred income tax liabilities

The deferred income tax liabilities of the Company are the same as those of the Group.

19 CONTRACT FULFILMENT COSTS

The Group

	As at 31 December 2023 RMB’000	2024 RMB’000	As at 30 September 2025 RMB’000 <i>(Unaudited)</i>
Contract fulfilment costs	<u>3,247</u>	<u>57,078</u>	<u>88,456</u>
Less: allowance for impairment of contract fulfilment costs	<u>—</u>	<u>—</u>	<u>—</u>
	<u><u>3,247</u></u>	<u><u>57,078</u></u>	<u><u>88,456</u></u>

Contract fulfilment costs primarily consist of labor cost incurred and purchased contract fulfilment costs mainly for the production of system modules and services.

APPENDIX I

ACCOUNTANT’S REPORT

The Company

	As at 31 December		As at
	2023	2024	30 September
	<i>RMB’000</i>	<i>RMB’000</i>	2025
			<i>RMB’000</i>
			<i>(Unaudited)</i>
Contract fulfilment costs	916	54,271	84,241
Less: allowance for impairment of contract fulfilment costs	—	—	—
	<u>916</u>	<u>54,271</u>	<u>84,241</u>

20 TRADE RECEIVABLES

The Group

	As at 31 December		As at
	2023	2024	30 September
	<i>RMB’000</i>	<i>RMB’000</i>	2025
			<i>RMB’000</i>
			<i>(Unaudited)</i>
Trade receivables	72,634	153,871	172,920
Less: provision for impairment	<u>(285)</u>	<u>(466)</u>	<u>(828)</u>
	<u>72,349</u>	<u>153,405</u>	<u>172,092</u>

As at 31 December 2023 and 2024 and 30 September 2025, the aging analysis of the trade receivables based on date of revenue recognition is as follows:

	As at 31 December		As at
	2023	2024	30 September
	<i>RMB’000</i>	<i>RMB’000</i>	2025
			<i>RMB’000</i>
			<i>(Unaudited)</i>
Within 6 months	72,291	149,557	134,061
7 months–1 year	343	3,151	36,801
Above 1 year	—	<u>1,163</u>	<u>2,058</u>
Total	<u>72,634</u>	<u>153,871</u>	<u>172,920</u>

Trade receivables are amounts due from customers for system modules sold or services performed in the ordinary course of business. They are generally due for settlement within 1 year and therefore classified as current. Trade receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method. See Note 3.1 for a description of the Group’s impairment policies.

APPENDIX I

ACCOUNTANT’S REPORT

The Group applies the simplified approach under IFRS 9, which requires lifetime expected losses to be recognized from initial recognition of the assets. Information about the impairment of trade receivables and the Group’s exposure to credit risk is described in Note 3.1.

The Group’s trade receivables are denominated in RMB and their carrying amounts approximated their fair values as at the balance sheet dates.

As of 31 December 2023 and 2024 and 30 September 2025, the Group’s trade receivables were all denominated in RMB and the carrying amounts of trade receivables approximated their fair values.

22 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

The Group and the Company

(a) Classification of financial assets at fair value through profit or loss

The Group classifies the following as financial assets at fair value through profit or loss:

- debt investments that do not qualify for measurement at either amortized cost or fair value through other comprehensive income (“FVOCI”).

The Group’s financial assets measured at FVPL include the following:

	As at 31 December		As at
	2023	2024	30 September
	<i>RMB’000</i>	<i>RMB’000</i>	<i>RMB’000</i>
			<i>(Unaudited)</i>
Investments in wealth management products issued by financial institution	<u>—</u>	<u>—</u>	<u>19,065</u>

THIS DOCUMENT IS IN DRAFT FORM, INCOMPLETE AND SUBJECT TO CHANGE AND THAT THE INFORMATION MUST BE READ IN CONJUNCTION WITH THE SECTION HEADED “WARNING” ON THE COVER OF THIS DOCUMENT.

APPENDIX I

ACCOUNTANT’S REPORT

The principal and return of the wealth management products is not guaranteed, hence their contractual cash flows do not qualify for solely payments of principal and interest. Therefore, the wealth management products issued by financial institution are measured at FVPL.

Information about the Group’s exposure to financial risk and information about the methods and assumptions used in determining fair value of these financial assets at fair value through profit or loss are set out in Note 4.3.

(b) Amounts recognized in profit or loss

During the year, the following net fair value gains were recognized in the consolidated statements of comprehensive income or loss:

	Year ended 31 December		Nine months ended 30 September	
	2023	2024	2024	2025
	RMB’000	RMB’000	RMB’000	RMB’000

				RMB'000
			(Unaudited)	
Financial instruments with preferred rights at amortized cost		<u>—</u>	<u>179,580</u>	<u>—</u>

APPENDIX I

ACCOUNTANT’S REPORT

The financial instruments with preferred rights represented the paid-in capital of the Company with redemption rights held by certain investors. The Group recognized the financial instruments with preferred rights as financial liabilities considering that all triggering events for the key redemption rights that could be exercised by the Series A Investors (more details about the preferred rights are set out below or in the later part of this note), were out of the control of the Company and these financial instruments did not meet the definition of equity for the Company. The financial liabilities were initially measured at present value of the redemption amount and subsequently measured at amortized cost. The present value was the amount expected to be paid to the investors upon redemption which was assumed at the dates of issuance of the financial instruments.

The movements of financial instruments with preferred rights at amortized cost for the years ended 31 December 2023, 2024 and the nine months ended 30 September 2025 were as follows:

	Financial instruments with preferred rights at amortized cost RMB’000
As at 1 January 2024	—
Recognition of financial instruments with preferred rights at amortized cost (a)	177,250
Charged to finance costs (<i>Note 10</i>)	<u>2,330</u>

<i>(Unaudited)</i>	
As at 31 December 2024	179,580
Recognition of financial instruments with preferred rights at amortized cost (a)	50,000
Charged to finance costs (<i>Note 10</i>)	202
Derecognition of financial instruments with preferred rights at amortized cost (<i>Note 26</i>)	<u>(229,782)</u>
As at 30 September 2025	<u><u>—</u></u>

(a) Series A financing

On 22 October 2024, the Company entered into an investment agreement with Series A and renewed the agreement on 7 January 2025 Investors, pursuant to which the Company issued and allotted approximately 4,077,000 shares, representing approximately 17.6% of the equity interests of the Company, to the Series A Investors, at a consideration of RMB277,250,000. Series A Investors were granted certain preferred rights upon capital contribution. The proceeds of RMB177,250,000 were received by the Company between October and December 2024 and RMB100,000,000 were received between January and February 2025. Upon the Company’s shares with preferred rights were issued to the Series A Investors, the Company had initially recognized the related financial instruments with preferred rights at RMB177,250,000 (representing the present value of the estimated amount to be paid out by the Company if the Series A Investor exercise their preferred rights) in 2024 and RMB50,000,000 in January 2025. The Company applied an effective interest rate of 10% simple interest to derive the present value of the issued financial instruments. The financial instruments with preferred rights were subsequently measured at amortized costs.

APPENDIX I

ACCOUNTANT’S REPORT

Redemption right

Series A Investors have a right to require the Company to redeem their investment if (i) the Company failed to QIPO before a certain date; (ii) during the period from the issuance date to before the Company’s QIPO, the Company and its existing shareholders have committed a major breach to the agreements.

The redemption amount of Series A Investors is calculated as the higher of (i) the original investment principal from Series A Investors, plus an annual simple rate of 10% of the original investment principal for a period of time commencing from the actual payments date to the date when the investors receive the repurchase amount; and (ii) the net assets shown in the Company’s audited consolidated financial statements for the latest period multiplied by the corresponding investor’s share percentage to the total issued share capital.

The redemption rights held by Series A Investors upon no successful [REDACTED] within a specified period and other contingent events would constitute as a Company’s obligation to repurchase its own equity instruments under the situations which are beyond the Company’s and the investors’ control. The financial liability in connection with the obligation is therefore recognized initially at fair value (representing the present value of the aforementioned redemption amount based on the most likely scenario among all the possible situations) and subsequently measured at amortized cost using the effective interest method.

Anti-dilution right

If the Company increases its paid-in capital at a price lower than the price paid by Series A Investors on a per paid-in capital basis, Series A Investors have a right to require (i) the Company to issue new paid-in capital for nil consideration (or lowest price allowed by law) to Series A Investors; or (ii) existing shareholders to transfer the equity interests of the Company directly or indirectly held to Series A Investors for nil consideration (or lowest price allowed by law), so that the total amount paid by Series A Investors divided by the total amount of paid-in capital obtained is equal to the price per paid-in capital in the new issuance.

The directors of the Company considered that the fair value of the anti-dilution right was immaterial and therefore no derivative liability was recognized by the Company.

Liquidation preferences

In the event of any liquidation, dissolution or winding up of the Company, Series A Investors shall be entitled to receive the liquidation preference amount, prior and in preference to any distribution of any of the assets or surplus funds of the Company to the holders of ordinary shares of the Company.

The liquidation preference amount of Series A Investors is calculated as the 105% of the original investment principal from 108% of the original investment principal from Series A Investors respectively (“**Liquidation Preference Cap**”). If the amount of distributable assets of the Company is less than the total Liquidation Preference Cap, Series A Investors shall be entitled the amount based on the percentage of each investor’s share.

APPENDIX I

ACCOUNTANT’S REPORT

(b) Termination of Preferred Rights

On 13 January 2025, the Company entered into a termination agreement to terminate the abovementioned Preferred Rights with Series A Investors. Pursuant to the termination agreement, the financial instruments with preferred rights at amortized cost of approximately RMB229,782,000 and the treasury stock of approximately RMB227,250,000 were derecognized accordingly. The difference of approximately RMB2,532,000 was credited to capital reserves (Note 26). The Company charged approximately nil, RMB2,330,000 and RMB202,000 to finance cost in profit or loss during the years ended 31 December 2023, 2024 and the nine months ended 30 September 2025, respectively.

APPENDIX I**ACCOUNTANT’S REPORT**

(c) Major non-cash transactions

The major non-cash investing and financing transactions during the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2024 and 2025 mainly include (i) the additions of the right-of-use assets and lease liabilities described in Note 17, (ii) received capital contribution in the form of intangible assets described in Note 24, (iii) recognition and derecognition of financial instruments with preferred rights at amortized cost described in Note 28.

33 CAPITAL COMMITMENTS

No significant capital expenditure contracted for at 31 December 2023 and 2024 and 30 September 2024 and 2025 but not recognized as liabilities.

34 RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operational decisions. Parties are also considered to be related if they are subject to common control or significant influence.

Members of key management and their close family members of the Group are also considered as related parties.

The following significant transactions were carried out between the Group and its related parties during the periods presented. In the opinion of the directors of the Company, the related party transactions were carried out in the normal course of business and at terms negotiated between the Group and the respective related parties.

(a) Names and relationships with related parties

The following companies are significant related parties of the Group that had transactions and/or balances with the Group during the Reporting Period.

Name of related party	Relationship with the Group
ZhongAn Online P & C Insurance Co., Ltd.	Ultimate controlling group of a shareholder (i)

- (i) On December 28, 2023, ZhongAn Information Technology Services Co., Ltd. became a shareholder of the Group. The disclosure period for related-party transactions in 2023 was from December 28 to December 31, 2023.

APPENDIX I

ACCOUNTANT’S REPORT

(b) Transactions with related parties

We enter into transactions with our related parties from time to time. During the Reporting Period, substantially all of our balances with related parties were trade in nature. The following table summarizes the transactions carried out with related parties from the period indicated:

	Year ended 31 December		Nine months ended 30 September	
	2023 RMB'000	2024 RMB'000	2024 RMB'000 (Unaudited)	2025 RMB'000 (Unaudited)
Sales of system modules				
ZhongAn Online P & C Insurance Co., Ltd. and its subsidiaries (i)	—	51,499	3,115	48,168
Sales of services				
ZhongAn Online P & C Insurance Co., Ltd. and its subsidiaries (i)	—	143,980	94,599	72,555
Purchases of goods or service				
ZhongAn Online P & C Insurance Co., Ltd. and its subsidiaries (ii)	—	85,092	85,092	—
Recognize new right-of-use assets				
ZhongAn Online P & C Insurance Co., Ltd. and its subsidiaries	—	1,319	1,319	—
Interest expenses on lease liabilities				
ZhongAn Online P & C Insurance Co., Ltd. and its subsidiaries	—	51	38	35
Procurement of insurance products				
ZhongAn Online P & C Insurance Co., Ltd. and its subsidiaries	0	82	51	8

(i) Sales of system modules and services include sales to ultimate customer through ZhongAn Information Technology Services Co., Ltd., with amount of approximately nil, RMB57,818,000 and RMB54,010,000 for the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2025 respectively.

(ii) In 2024, the Group purchased certain system modules contracts from ZhongAn Information Technology Services Co., Ltd. with working in process costs amounting to RMB67,520,000(2025: nil).

APPENDIX I

ACCOUNTANT’S REPORT

(c) Balance with related parties

The following table summarizes the balances with related party transactions of our Group as of the dates indicated:

	As at 31 December		As at
	2023	2024	30 September

	—	—	—	—	—	—

- (i) Mr. Ni Junkang was appointed as the director of the Company on 2 December 2021 and resigned on 26 December 2023.
- (ii) Mr. Yu Feng was appointed as the director of the Company on 26 December 2023.
- (iii) Mr. Wang Min was appointed as the director of the Company on 26 December 2023.
- (iv) Mr. Niu Chenghao was appointed as the director of the Company on 26 December 2023 and resigned on 27 February 2025.
- (v) Mr. Mao Yifeng was appointed as the supervisor of the Company on 26 December 2023 and resigned on 27 February 2025 and was appointed as the director of the Company on 27 February 2025.
- (vi) Mr. Zhou Zhengyu was appointed as the director of the Company on 27 February 2025.
- (vii) Mr. Zhu Junsheng was appointed as the director of the Company on 27 February 2025.

(b) Directors’ and supervisors’ retirement benefits

There were no retirement benefits paid to or receivable by any Directors/Supervisors in respect of their other services in connection with the management of the affairs of the Company or its subsidiaries undertakings during the Reporting Period.

(c) Directors’ and supervisors’ termination benefits

There were no termination benefits paid to or receivable by any Directors/Supervisors during the Reporting Period.

APPENDIX I**ACCOUNTANT’S REPORT**

(d) Consideration provided to third parties for making available directors’ and supervisors’ services

No payment was made to the former employer of Directors/Supervisors for making available the services of them as a Director of the Company during the Reporting Period.

(e) Information about loans, quasi-loans and other dealings in favour of directors and supervisors’

There were no loans, quasi-loans and other dealings entered into between the Group and the directors/supervisors and in favour of the directors/supervisors during the Reporting Period.

(f) Directors’ and supervisors’ material interests in transactions, arrangements or contracts

There are no significant transactions, arrangements and contracts in relation to the Group’s business to which the Company was a party and in which a director/supervisors of the Company had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the Reporting Period.

36 DIVIDENDS

No dividend has been paid or declared by the Company during each of the years ended 31 December 2023 and 2024 and the nine months ended 30 September 2025.

37 CONTINGENCIES

As at 31 December 2023 and 2024 and 30 September 2025, there were no significant contingencies for the Group and the Company.

38 SUBSEQUENT EVENTS

Subsequently in October 2025, the Group obtained an aggregate of RMB215,090,000 capital contribution from Series B investors.

The Group subdivided its Share from one share of RMB1.0 each into ten shares of RMB0.1 each, which will become effective immediately prior to the [REDACTED].

39 OTHER ACCOUNTING POLICIES

39.1 Principles of consolidation and equity accounting

The principal accounting policies applied in the preparation of the Historical Financial Information are set out below. These policies have been consistently applied throughout the Reporting Period, unless otherwise stated.

(a) Subsidiaries

Subsidiaries are all entities (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated fully from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

APPENDIX I

ACCOUNTANT’S REPORT

39.2 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee’s net assets including goodwill.

39.3 Property, plant and equipment

Subsequent costs are included in the asset’s carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Construction in progress represents unfinished construction and equipment under construction or pending for installation and is stated at cost less impairment losses. Cost comprises direct costs of construction including borrowing costs attributable to the construction during the period of construction. No provision for depreciation is made on construction in progress until such time as the relevant assets are completed and ready for intended use.

39.4 Intangible assets

(a) Patent

Patents are shown at historical cost. These intangible assets have a finite useful life and are carried at cost less accumulated amortization. Amortization is calculated using the straight-line method to allocate the cost over their estimated useful lives.

(b) Software

Acquired software is initially capitalised on the basis of the costs incurred to acquire and bring to use the specific software. Costs associated with maintaining computer software programmes are recognized as an expense as incurred. Software is stated at historical cost less accumulated amortisation and impairment losses, if any.

The amortisation period and amortisation method of intangible assets are reviewed at each reporting period. The effects of any revision are recognized as profit or loss when the changes arise.

39.5 Impairment of non-financial assets

Property, plant and equipment, intangible assets and right-of-use assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable by considering whether any of the following impairment indicators were present: (i) greater than expected declines in asset values as a result of the passage of time or normal use; (ii) significant adverse changes in the technological, market, economic or legal environment impacting the entity or the market to which the asset is dedicated; (iii) changes in market interest rates or other market rates of return that are likely to significantly affect the discount rate used in the impairment assessment; (iv) carrying amount of net assets of the entity exceeding its market capitalization; (v) evidence of obsolescence or physical damage to an asset; (vi) significant adverse changes impacting the manner in which an asset is used or is expected to be

APPENDIX I**ACCOUNTANT’S REPORT**

used; (vii) internal reporting indicating the economic performance of an asset is, or will be, worse than expected; and (viii) actual or forecast net cash outflows or operating profits or losses may be significantly worse than expected. An impairment loss is recognized for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each Reporting Period.

39.6 Financial assets***(a) Classification***

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI or through profit or loss); and
- those to be measured at amortized cost.

The classification depends on the Group’s business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(b) Recognition and derecognition

Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(c) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

APPENDIX I

ACCOUNTANT’S REPORT

Debt instruments

Subsequent measurement of debt instruments depends on the Group’s business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in “other (losses)/gains — net”. Impairment losses are presented as separate line item in the consolidated statements of comprehensive income or loss.
- **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets’ cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in “other (losses)/gains — net”. Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in “other (losses)/gains — net” and impairment expenses are presented as separate line item in the consolidated statements of comprehensive income or loss.
- **FVPL:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognized in profit or loss and presented net within in “other (losses)/gains — net” in the period in which it arises.

(d) Impairment

The Group assesses on a forward-looking basis the expected credit loss associated with its debt instruments carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For cash and cash equivalents, the expected credit loss risk is considered immaterial.

For Trade receivables, the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognized from initial recognition of the assets. The provision matrix is determined based on historical observed default rates over the expected life of the Trade receivables with similar credit risk characteristics and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

Impairment on other receivables is measured as either 12-month expected credit losses or lifetime expected credit loss, depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, then impairment is measured as lifetime expected credit losses.

APPENDIX I**ACCOUNTANT’S REPORT**

39.7 Cash and cash equivalents

For the purpose of presentation in the consolidated statements of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

39.8 Contract fulfilment costs

Contract fulfilment costs are stated at the lower of cost and net realizable value. Cost comprises direct materials, direct labor and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs are assigned to individual items of contract fulfilment costs on the basis of weighted average costs. Costs of purchased contract fulfilment costs are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

39.9 Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

39.10 Trade and other payables

These amounts represent liabilities for system modules and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the Reporting Period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

39.11 Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are removed from the consolidated balance sheets when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

APPENDIX I**ACCOUNTANT’S REPORT**

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

39.12 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

39.13 Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period’s taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred income tax assets and liabilities attributable to temporary differences and to unused tax losses.

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the Reporting Period in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

(b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Historical Financial Information. However, deferred income tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the Reporting Period and are expected to apply when the related deferred income tax asset is realized, or the deferred income tax liability is settled.

Deferred income tax assets are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred income tax liabilities and assets are not recognized for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

APPENDIX I**ACCOUNTANT’S REPORT**

Deferred income tax assets and liabilities are offset where there is a legally enforceable right to offset current income tax assets and liabilities and where the deferred income tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred income tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity respectively.

39.14 Employee benefits***(a) Short-term obligations***

Liabilities for wages and salaries, including non-monetary benefits and accumulating sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees’ services up to the end of the Reporting Period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the consolidated statements of financial position.

(b) Pension obligations

In accordance with the rules and regulations in the PRC, the employees of the Group participate in various defined contribution retirement benefit plans organized by the relevant municipal and provincial governments in the PRC under which the Group and the employees are required to make monthly contributions to these plans calculated as a percentage of the employees’ salaries, subject to certain ceiling. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post-retirement benefits of its employees. The assets of these plans are held separately from those of the Group in an independent fund managed by the PRC government. The Group’s contributions to these plans are expensed as incurred.

(c) Housing funds, medical insurances and other social insurances

The employees of the Group are entitled to participate in various government-supervised housing funds, medical insurance and other employee social insurance plan. The Group contributes on a monthly basis to these funds based on certain percentages of the salaries of the employees, subject to certain ceiling. The Group’s liability in respect of these funds is limited to the contributions payable in each period.

(d) Bonus plan

The expected cost of bonuses is recognized as a liability when the Group has a present legal or constructive obligation for payment of bonus as a result of services rendered by employees and a reliable estimate of the obligation can be made. Liabilities for bonus plans are expected to be settled within 1 year and are measured at the amounts expected to be paid when they are settled.

(e) Termination benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognizes termination benefits at the earlier of the following dates: (a) when the Group can no longer withdraw the offer of those benefits; and (b) when the entity recognizes costs for a restructuring that is within the scope of IAS 37 and involves the payment of terminations

APPENDIX I**ACCOUNTANT’S REPORT**

benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the Reporting Period are discounted to present value.

39.15 Leases*As lessee*

Leases are initially recognized as a right-of-use asset and corresponding liability at the date when the leased asset is available for use by the Group. Each lease payment is allocated between the principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments (if applicable):

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as of the commencement date;
- amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of lease liabilities.

39.16 Earnings per share*(a) Basic earnings per share*

Basic earnings per share is calculated by dividing:

- the profit attributable to shareholders of the Company, excluding any costs of servicing equity other than ordinary shares;
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury stock.

(b) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and

APPENDIX I**ACCOUNTANT’S REPORT**

- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

39.17 Government grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets.

39.18 Interest income

Interest income on financial assets at amortized cost calculated using the effective interest method is recognized in profit or loss as part of other income.

Interest income is presented as finance income where it is earned from financial assets that are held for cash management purposes, see Note 10. Any other interest income is included in other income.

III SUBSEQUENT FINANCIAL STATEMENTS

No audited financial statements have been prepared by the Company or any of the companies now comprising the Group in respect of any period subsequent to 31 December 2024.
