

FORWARD-LOOKING STATEMENTS

We have included in this Document forward-looking statements. Statements that are not historical facts, including but not limited to statements about our intentions, beliefs, expectations or predictions for the future, are forward-looking statements.

This Document contains forward-looking statements and information relating to us and our subsidiaries that are based on the beliefs of our management as well as assumptions made by and information currently available to our management. When used in this Document, the words “aim,” “anticipate,” “aspire,” “believe,” “could,” “expect,” “going forward,” “intend,” “may,” “ought to,” “plan,” “project,” “schedule,” “seek,” “should,” “target,” “vision,” “will,” “would,” and the negative of these words and other similar expressions, as they relate to us or our management, are intended to identify forward-looking statements. Such statements reflect the current views of our management with respect to future events, operations, liquidity and capital resources, some of which may not materialize or may change. These statements are subject to certain risks, uncertainties and assumptions, including the risk factors as described in “Risk Factors” and elsewhere in this Document, some of which are beyond our control and may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. You are strongly cautioned that reliance on any forward-looking statements involves known and unknown risks and uncertainties. The risks and uncertainties that could cause actual results to differ materially from our forward-looking statements include, without limitation, our operations and business prospects; industry developments and market conditions; general economic, political, and business conditions, including interest rates and foreign exchange rates; regulatory changes; customer and partner actions, particularly OEMs, Tier 1 partners, and CSPs; competitor developments; cost and expense control; supplier and partner performance; retention and recruitment of key personnel; and execution of our business strategies, commercialization plans, and geographic expansion. By their nature, these disclosures are estimates, and if any of these risks materialize, actual results may differ materially from historical results or projections, including decreases in sales, increases in costs, delays in capital investment, or underperformance relative to expectations.

Subject to the requirements of applicable laws, rules and regulations, we do not have any and undertake no obligation to update or otherwise revise the forward-looking statements in this Document, whether as a result of new information, future events or otherwise. As a result of these and other risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this Document might not occur in the way we expect or at all. Accordingly, you should not place undue reliance on any forward-looking information. All forward-looking statements in this Document are qualified by reference to the cautionary statements in this section as well as the risks and uncertainties discussed in the section headed “Risk Factors” in this Document.

In this Document, statements of or references to our intentions or those of our Directors are made as of the date of this Document. Any such information may change in light of future developments.
