

FORWARD-LOOKING STATEMENTS

We have included in this document forward-looking statements. Statements that are not historical facts, including statements about our intentions, beliefs, expectations or predictions for the future, are forward-looking statements.

This document includes forward-looking statements. All statements other than statements of historical facts contained in this document, including, without limitation, those regarding our future financial position, our strategy, plans, objectives, goals, targets and future developments in the markets where we participate or are seeking to participate, and any statements preceded by, followed by or that include the words “believe,” “expect,” “estimate,” “predict,” “aim,” “intend,” “will,” “may,” “plan,” “consider,” “anticipate,” “seek,” “should,” “could,” “would,” “continue,” or similar expressions or the negative thereof, are forward-looking statements. These forward-looking statements involve known and unknown risks, uncertainties and other factors, some of which are beyond our control, which may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. These forward-looking statements are based on numerous assumptions regarding our present and future business strategies and the environment in which we will operate in the future. Important factors that could cause our actual performance or achievements to differ materially from those in the forward-looking statements include, among other things, the following:

- our ability to obtain adequate capital resources to fund future development plans;
- our ability to control costs, as well as to achieve and maintain operational efficiency;
- changes in our customers’ demands and expectations;
- our capital expenditure plans;
- changes in the competitive landscape of the industries where we operate;
- our ability to protect our reputation and brand image, as well as trademarks, technologies, knowhow, patents and other intellectual property rights;
- various business opportunities that we may pursue;
- changes in local economic and political conditions and changes in the laws, rules and regulations of the central and local governments in the PRC and other relevant jurisdictions and the rules, regulations and policies of the relevant governmental authorities relating to all aspects of our business and our business plans; and
- developments in technology and our ability to successfully keep up with technological advancement.

You should read this document in its entirety and with the understanding that actual future results may be materially different from what we expect. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this document might not occur.
