
FORWARD-LOOKING STATEMENTS

We have included in this Document forward-looking statements. Statements that are not historical facts, including but not limited to statements about our intentions, beliefs, expectations or predictions for the future, are forward-looking statements. When used in this Document, the words “aim”, “anticipate”, “believe”, “could”, “expect”, “going forward”, “intend”, “ought to”, “project”, “seek”, “should”, “will”, “would”, “vision”, “aspire”, “target”, “schedule”, and the negative of these words and other similar expressions, as they relate to us or our management, are intended to identify forward-looking statements. Such statements reflect the current views of our management with respect to future events, operations, liquidity and capital resources, some of which may not materialize or may change. These statements are subject to certain risks, uncertainties and assumptions, including the risk factors as described in this Document, some of which are beyond our control and may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. You are strongly cautioned that reliance on any forward-looking statements involves known and unknown risks and uncertainties. The risks and uncertainties facing us which could affect the accuracy of forward-looking statements include, but are not limited to, our operations and business prospects; our ability to maintain relationship with, and the actions and developments affecting, our customers and suppliers; future developments, trends and conditions in the industries and markets in which we operate or plan to operate; general economic, political and business conditions in the markets in which we operate; changes to the regulatory environment in the industries and markets in which we operate; our ability to maintain our market position; the actions and developments of our competitors; our ability to effectively contain costs and optimize pricing; the ability of third parties to perform in accordance with contractual terms and specifications; our ability to retain senior management and key personnel and recruit qualified staff; our business strategies and plans to achieve these strategies; the effectiveness of our quality control systems; change or volatility in interest rates, foreign exchange rates, equity prices, trading volumes, commodity prices and overall market trends; including those pertaining to the PRC and the industry and markets in which we operate; and capital market developments.

By their nature, certain disclosures relating to these and other risks are only estimates and should one or more of these uncertainties or risks, among others, materialize, actual results may vary materially from those estimated, anticipated or projected, as well as from historical results. Specifically but without limitation, sales could decrease, costs could increase, capital costs could increase, capital investment could be delayed and anticipated improvements in performance might not be fully realized.

Subject to the requirements of applicable laws, rules and regulations, we do not have any or undertake no obligation to update or otherwise revise the forward-looking statements in this Document, whether as a result of new information, future events or otherwise. As a result of these and other risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this Document might not occur in the way we expect or at all. Accordingly, you should not place undue reliance on any forward-looking information. All forward-looking statements in this Document are qualified by reference to the cautionary statements in this section as well as the risks and uncertainties discussed in the section headed “Risk Factors”.

In this Document, statements of or references to our intentions or those of our Directors were made as of the date of this Document. Any such information may change in light of future developments.
