

GLOSSARY OF TECHNICAL TERMS

This glossary contains explanations of certain terms used in this document in connection with our Company and our business. The terminology contained in this glossary and their given meanings may not correspond to standard industry meaning or usage of these terms.

“3C”	computer, communication and consumer electronics
“3D”	three-dimensional
“Ah”	Ampere-hour
“AI”	artificial intelligence
“CAGR”	compound annual growth rate
“CCD”	charge-coupled device
“CRM System”	customer relationship management system
“ERP System”	enterprise resource planning system
“EV” or “electric vehicle”	new energy vehicles, mainly comprising of battery electric vehicles and plug-in hybrid electric vehicles
“EV battery”	lithium-ion battery used in EVs
“FAT”	factory acceptance test
“GFA”	gross floor area
“IoT”	internet of things, a type of network that realises intelligent identification, positioning, tracking, monitoring and management of targeted objects achieved by exchange of information and communication between such targets and the internet via intelligent terminal products under pre-determined protocol
“LFP batteries”	lithium-iron phosphate batteries
“m ² ” or “sq.m.”	square meter
“MES System”	manufacturing execution system
“PDM System”	product data management system
“PMC”	production and material control
“PV”	photovoltaic

GLOSSARY OF TECHNICAL TERMS

“R&D”	research and development
“SAT”	site acceptance test
“solid electrolyte”	A new type of electrolyte in which the electrolyte changes from liquid to solid. According to the content of the electrolyte, it is divided into semi-solid electrolyte, all-solid electrolyte, etc.
“solid-state battery”	batteries that use solid electrodes and a solid electrolyte
“VAT”	value-added tax
