

## GLOSSARY OF TECHNICAL TERMS

*This glossary contains certain explanations and definitions of the technical terms and abbreviations used in this document in connection with our business and our Company. Please note that the terms and definitions may not be consistent with the standard industry usage of some terms.*

|                                       |                                                                                                                                                                                                                                         |
|---------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| “ABA Foaming Co-extrusion Technology” | an advanced plastic processing and molding technology that utilizes abscisic acid                                                                                                                                                       |
| “CAGR”                                | compound annual growth rate                                                                                                                                                                                                             |
| “CE Certification”                    | a certification signifying that a product meets essential EU health, safety, and environmental standard                                                                                                                                 |
| “CRM”                                 | customer relationship management                                                                                                                                                                                                        |
| “DDP”                                 | delivered duty paid                                                                                                                                                                                                                     |
| “DOS”                                 | delivery order service                                                                                                                                                                                                                  |
| “ERP”                                 | enterprise resource planning                                                                                                                                                                                                            |
| “FloorScore”                          | well-recognized indoor air quality certification standard for hard surface flooring materials, adhesives, and underlayments                                                                                                             |
| “FOB”                                 | free on board                                                                                                                                                                                                                           |
| “GFA”                                 | gross floor area                                                                                                                                                                                                                        |
| “Greenguard Gold”                     | an internationally recognized indoor product certification standard, its certification programs are divided into three categories: indoor air quality certification, children and school certification, and building project consulting |
| “Indoor Air Comfort Gold”             | a assurance that a product meets the minimum emission requirements, indicating that the brand values quality and strives to create an indoor environment that highly prioritizes health                                                 |
| “ISO”                                 | the International Organization for Standardization, a non-governmental organization based in Geneva, Switzerland, for assessing the quality systems of business organizations                                                           |
| “LVT flooring”                        | luxury vinyl tile flooring, a durable, waterproof, and versatile flooring option that realistically mimics natural materials like wood, stone, or ceramic                                                                               |
| “PP”                                  | Polypropylene (PP) is a versatile thermoplastic polymer made from propylene monomers, widely used in packaging, automotive, textiles and building materials for its chemical resistance, durability and lightweight properties          |
| “MES”                                 | manufacturing execution system                                                                                                                                                                                                          |
| “OBM”                                 | original brand manufacturer                                                                                                                                                                                                             |
