FORWARD-LOOKING STATEMENTS

We have included in this Document forward-looking statements. Statements that are not historical facts, including statements about our intentions, beliefs, expectations or predictions for the future, are forward-looking statements.

This Document includes forward-looking statements. All statements other than statements of historical facts contained in this Document, including, without limitation, those regarding our future financial position, our strategy, plans, objectives, goals, targets and future developments in the markets where we participate or are seeking to participate, and any statements preceded by, followed by or that include the words "believe," "expect," "estimate," "predict," "aim," "intend," "will," "may," "plan," "consider," "anticipate," "seek," "should," "could," "would," "continue," or similar expressions or the negative thereof, are forward-looking statements. These forward-looking statements involve known and unknown risks, uncertainties and other factors, some of which are beyond our control, which may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. These forward-looking statements are based on numerous assumptions regarding our present and future business strategies and the environment in which we will operate in the future.

Important factors that could cause our actual performance or achievements to differ materially from those in the forward-looking statements include, among other things, the following: (i) our ability to successfully implement our business plans and strategies; (ii) future developments, trends and conditions in the industry and markets in which we operate or into which we intend to expand; (iii) general political and economic conditions of jurisdictions in which we operate; (iv) our business operations and prospects; (v) our capital expenditure plans; (vi) weather, natural disasters and climate change; (vii) the actions and developments of our competitors; (viii) our financial condition and performance; (xi) capital market developments; (x) our dividend policy; (xi) any changes in the laws, rules and regulations of the central and local governments in the PRC and other relevant jurisdictions and the rules, regulations and policies of the relevant governmental authorities relating to all aspects of our business and business plans; and (xii) various business opportunities that we may pursue.
