FIRST QUARTERLY RESULTS ANNOUNCEMENT
FOR THE THREE MONTHS ENDED 31 MARCH 2006 (UNAUDITED)

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the GEM Internet website operated by the Stock Exchange (“GEM website”). Listed companies are not generally required to issue paid announcements in gazette newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the Directors of Sino Stride Technology (Holdings) Limited (the “Directors”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rule”) for the purpose of giving information with regard to Sino Stride Technology (Holdings) Limited. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

SHARE EXCHANGE OFFER BY A WHOLLY-OWNED SUBSIDIARY OF SHOUGANG CONCORD TECHNOLOGY HOLDINGS LIMITED

On 16 December 2005, Shougang Concord Technology Holdings Limited (“SCT”), a company incorporated in Hong Kong whose securities are listed on the Main Board of the Stock Exchange, approached the Board of the Company stating its intention to make a voluntary conditional share exchange offer (the “Share Exchange Offer”) to acquire all the issued shares of the Company.

On 23 December 2005, SCT issued an announcement jointly with the Company in respect of, amongst other things, a voluntary conditional share exchange offer by Made Connection Limited (the “Offeror”), a wholly-owned subsidiary of SCT, to acquire all the issued shares of the Company at two new shares of SCT for every three shares of the Company.

On 3 April 2006, being the Final Closing Date of the Share Exchange Offer, valid acceptances have been received in respect of 774,699,000 ordinary shares, representing approximately 71.3% of issued share capital, of the Company, under the Share Exchange Offer. As of the date of this report, the legal title of such 774,699,000 issued shares capital have been legally transferred to the Offeror. Accordingly, SCT becomes the substantial shareholder of the Company.

On the basis, and after accounting for the shareholding interests of ST Electronics of approximately 28% of the issued share capital of the Company which has not accepted the Share Exchange Offer, the public float of SST is estimated to be approximately 0.7%. As the Offeror has not acquired the requisite percentage of shareholding in the Company to effect the compulsory acquisition, SCT and the Offeror will (i) use their best endeavours to maintain the public float of the Company if listing on the Stock Exchange is to be maintained or (ii) consider to voluntarily withdraw the listing of the Company shares on the Stock Exchange in accordance with Chapter 9 of the GEM Listing Rules and all applicable laws and regulations. As at the date of this report, SCT and the Offeror have not decided on whether the listing of the Company shares is to be maintained. Temporary waiver has been granted by the Stock Exchange from strict compliance with Rule 11.23 of the GEM Listing Rules on the 25% minimum

public float requirement from 3 April 2006 to 25 May 2006 and the Company has applied to the Stock Exchange for the suspension of trading in the Company shares as from 9:30 a.m. on 4 April 2006. The Company will apply to the Stock Exchange to resume trading in the Company shares once the 25% minimum public float of the Company shares has been restored.

PROSPECTS

In light of the 2008 Beijing Summer Olympic Games, Expo 2010 Shanghai, PRC's entry to the WTO and PRC's continuous economic growth, the Directors believe that the demand for system integration solutions and value added service solutions will continue to grow with the prosperity of PRC property markets, increasing proportion of investments in intelligence buildings and necessity for PRC information network system to be in line with international standards. Moreover, the demand of traffic controls management system will increase with the surge in the number of motor vehicles in PRC and the implementation of the proposed new traffic controls regulations in near future.▲

Unlike small system integration providers without self-developed products under their own brand name and technology know how, the cooperation with reputable enterprises and research institutions like Singapore Technologies Electronic Limited and Zhejiang University supply the Group with necessary human resources, research and development capabilities for developing proprietary software technology and products with the brand name of "Sino Stride" to satisfy market requirements in PRC market. To further enhance its competitiveness in the industry, the Group also intends to pursue strategic acquisitions of investments in system integration business and software development business in the future if such opportunities arise to strengthen and complement the Group's existing business.

The successful completion of the Share Exchange Offer made by SCT in April 2006 has made it the Group's majority shareholder. With the extensive commercial network support from the Offeror and SCT, it will enhance the Group's business expansion and earnings enhancement in future.
