**FIRST QUARTERLY RESULT ANNOUNCEMENT FOR
THE THREE MONTHS ENDED 31 MARCH 2006**

**CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”)
OF THE STOCK EXCHANGE OF HONG KONG LIMITED
(THE “STOCK EXCHANGE”)**

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which these companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. The GEM-listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website “www.hkgem.com” in order to obtain up-to-date information on the GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the board (the “Board”) of the directors (the “Directors”) of Xi’an Haitian Antenna Technologies Co., Ltd. (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the requirements of the Rules Governing the Listing of Securities on GEM (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on the bases and assumptions that are fair and reasonable.*

MANAGEMENT DISCUSSION AND ANALYSIS

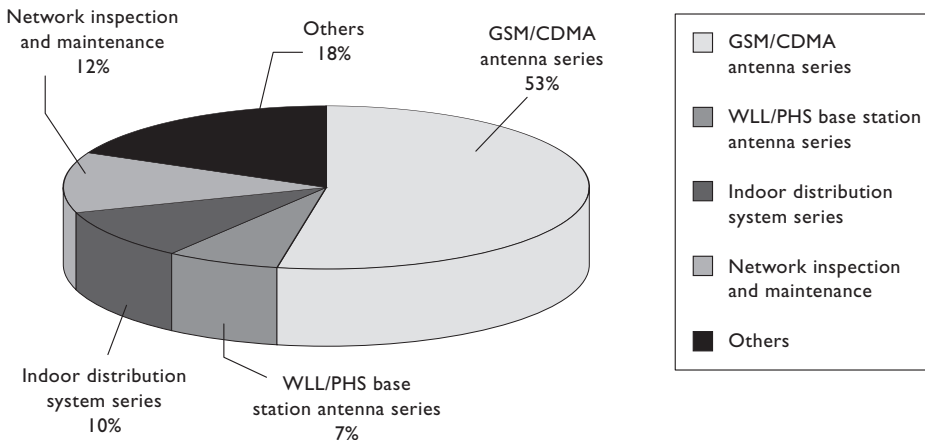

Business Review

Turnover

The Group recorded an unaudited turnover of approximately RMB27.9 million for the three months ended 31 March 2006, representing an increase of approximately 24.0% as compared with the unaudited turnover for the corresponding period in the year 2005. The increase was mainly attributable to (1) domestic markets: the Group successfully achieved marked increase in sales on high margin products including sales of domestic short-wave communication antenna and provision of network inspection and maintenance services. The increase in Group's revenue from the above product lines during the reporting period amounted to RMB5.9 million, representing an increase of 223% when comparing with the same period in the year 2005; and (2) overseas markets: export sales for the three months ended 31 March 2006 increased significantly by RMB8.5 million, representing an increase of approximately 535.6%, to RMB10.1 million when comparing with the corresponding period in the year 2005. This increase was the result of the Group's continuous emphasis and effort of exploring overseas markets.

The decrease was mainly due to (1) declining demand of telecommunication operators intensified price competition within the market which adversely affected the profit margin; and (2) rising material prices when compared with year 2005 which deteriorated the situation.

Operating Costs and Expenses

Distribution costs of the Group amounted to approximately RMB8.3 million for the three months ended 31 March 2006, representing a decrease of approximately RMB1.6 million or approximately 16.2% comparing with the corresponding period in the year 2005. The decrease was mainly due to the decrease in agency services fee for the period and also a series of cost control measures exercised by the Group and which proved to be effective.

Administrative expenses were approximately RMB7.1 million for the three months ended 31 March 2006, representing an increase of approximately RMB2.0 million or approximately 39.2% comparing with the corresponding period in the year 2005. Since the Group is expanding its operating scale, a general increase in administrative expenses was recorded. Besides, the increase was also resulted from increase in the depreciation of property, plant and equipment.

Other operating expenses amounted to approximately RMB3.8 million, representing a decrease of approximately 9.5% when comparing with the corresponding period in last year. The amount mainly represented research and development cost, amortization of capitalized research and development cost and amortization of intangible assets.

Finance costs, mainly interest expenses, decreased by approximately RMB0.9 million, or 42.9% comparing with the corresponding period in the year 2005. The decrease was mainly due to decrease in average monthly bank loan balance during the current period when compared with that in year 2005.

PROSPECTS

During the three months ended 31 March 2006, the Group had reached small batch production stage of 3G related products and the Directors remain optimistic about the prospects of the development of the 3G telecommunications markets in the PRC.
