THIRD QUARTERLY RESULTS ANNOUNCEMENT FOR THE NINE MONTHS ENDED 30TH SEPTEMBER 2006

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligations to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which these companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board operated by the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. The GEM-listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website “www.hkgem.com” in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the “Directors”) of Xinjiang Tianye Water Saving Irrigation System Company Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with*

The increase of turnover was mainly due to the increase of water saving irrigation projects in the northwestern region and the increase of the market sales of the Company's products.

Gross Profit

For the nine months ended 30th September 2006, the unaudited gross profits reached approximately RMB61.81 million with a gross profits margin of about 19.09%, while the unaudited gross profits and gross profits margin were approximately RMB55.49 million and 20.30% respectively for the corresponding period last year. The corresponding decrease of gross profit margin was 1.21%, which was mainly due to the changes in crude oil prices. The purchase cost of raw materials and the electricity cost increased in 2006 as compared to 2005 for the Group, resulting in an increase of production cost and a decrease in gross profits margin.

Operating Costs and Expenses

The distribution costs increased by approximately RMB2.23 million or about 15.05% from RMB14.82 million for the corresponding period in 2005 to approximately RMB17.05 million for the nine months ended 30th September 2006. The administration expenses decreased by approximately RMB0.2 million or about 2.45% from RMB8.16 million for the corresponding period in 2005 to approximately RMB7.96 million for the nine months ended 30th September 2006. It was mainly resulted from the decrease of labour insurance expenses resulting from the streamlining of the production department.

The finance costs increased by approximately RMB0.43 million or about 15.93% from RMB2.70 million for the corresponding period in 2005 to approximately RMB3.13 million for the nine months ended 30th September 2006. It was mainly due to the increase of interest rate of loans and average loan balances compared to last year.

Income tax expenses increased by approximately RMB2.29 million or 86.09% from RMB2.66 million for the corresponding period in 2005 to RMB4.95 million for the nine months ended 30th September 2006. It was mainly caused by the increase in the integrated tax obligation of the Group for the year of 2006 as compared with that for the year of 2005.

The unaudited net profit increased by approximately RMB1.86 million or about 6.82% from approximately RMB27.27 million for the corresponding period in 2005 to approximately RMB29.13 million for the nine months ended 30th September 2006.

Prospects

The Directors expects, with the increasing discrepancy between the supply and demand of the water resources in the PRC, the market demand for various kinds of water saving irrigation products will continue to grow.
