**THIRD QUARTERLY RESULT ANNOUNCEMENT
FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2006**

**CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF
THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK
EXCHANGE”)**

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which these companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. The GEM-listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website “www.hkgem.com” in order to obtain up-to-date information on the GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the board (the “Board”) of the directors (the “Directors”) of Xi’an Haitian Antenna Technologies Co., Ltd. (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the requirements of the Rules Governing the Listing of Securities on GEM (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on the bases and assumptions that are fair and reasonable.*

MANAGEMENT DISCUSSION AND ANALYSIS

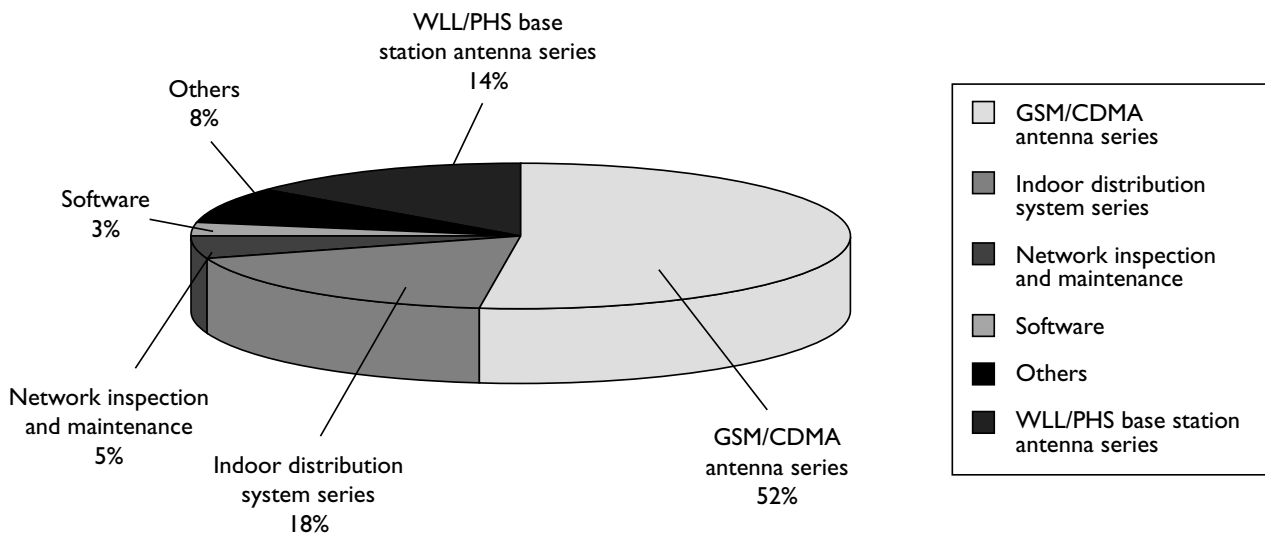

Business Review

For the nine months ended 30 September 2006, unaudited turnover of the Group was approximately RMB101.9 million, representing a decrease of approximately 11.1% over that of the corresponding period in the year 2005. The decrease was mainly attributable to continuous conservative atmosphere and fierce competition in the PRC wireless telecommunications industry as well as price pressure from the central procurement strategy adopted by China Mobile which lead to sizable drop in sales to China Mobile and UTStarcom. On the other hand, revenue from export sales grew by approximately RMB10.5 million, representing 66.5% increase when compared to the corresponding period in 2005 and accounted for approximately 26.0% of the Group's revenue in the current period. The strong growth in sales to overseas markets demonstrated the effectiveness of the Group's international expansion strategy.

Composite of sales by product lines for the nine months ended 30 September 2006, together with the comparative figures for the corresponding period in the year 2005, are provided as follows:

For the nine months ended 30 September 2005 (by product line)

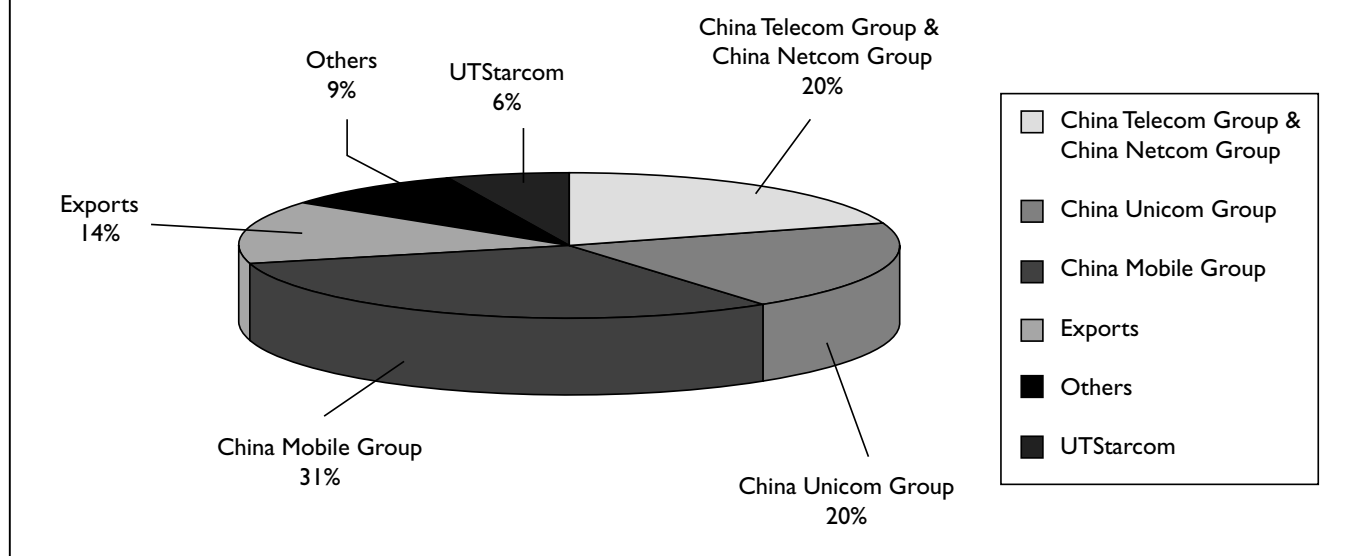

Composite of turnover by major customers for the nine months ended 30 September 2006, together with the comparative figures for the corresponding period in the year 2005, is provided as follows:

China Mobile Group: 中國移動通信集團公司 (China Mobile Communications Corporation) and its subsidiaries and branch companies (collectively “China Mobile Group”)

Gross Profit

During the nine months ended 30 September 2006, unaudited gross profit amounted to approximately RMB26.4 million, gross profit margin was approximately 25.9%, represented a decrease when compared to the gross profit margin of 45.4% for the corresponding period in the year 2005. The declining profit margin reflected that the Group continuously suffered from diminishing demand, price pressure and rising material costs over the past period.

Operating Costs and Expenses

Distribution costs for the nine months ended 30 September 2006 was approximately RMB20.3 million, representing a decrease of 11.7% over the corresponding period in the year 2005. In response to the declining demand in domestic market, the Group implemented more focused sales and marketing efforts on developing international markets which proved to be effective and generated increasing sales to the Group over the period.

Administrative expenses were approximately RMB21.3 million for the nine months ended 30 September 2006, representing an increase of approximately RMB6.7 million comparing with the corresponding period in 2005. Since the Group is expanding its operating scale over the period by assigning different subsidiaries for particular business segments, therefore, general increase in administrative expenses was noted especially for payroll, professional fee and depreciation of property, plant and equipment.

Other operating expenses amounted to approximately RMB11.2 million, representing an increase of approximately RMB3.1 million comparing with the corresponding period in the year 2005. The amount mainly represented research and development cost, amortization of capitalized research and development cost and amortization of intangible assets.

Finance costs were RMB4.8 million for the nine months ended 30 September 2006, representing a decrease of 21.3% over the corresponding period in 2005. The decrease was mainly due to the Group's effort on managing the level of bank borrowing for working capital purpose in response to rising interest rates over the period.

Consequently, during the nine months ended 30 September 2006, the Group recorded an unaudited net loss of approximately RMB26.4 million, representing a decrease by RMB27.0 million as compared to the net profit of approximately RMB0.6 million for the corresponding period in year 2005.

PROSPECTS

Looking to the future, the Group will continue to enhance its product portfolio and to participate in various 3G network trials and testing, in order to prepare for the launch of 3G commercial application and achieve product diversification. At the same time, the Group will actively explore international markets in order to broaden its customer base.
