RESULTS ANNOUNCEMENT FOR THE SIX MONTHS ENDED 30 APRIL 2008

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the Internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this announcement, makes on representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the “Directors”) of B.A.L. Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief:– (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Business review

The Group has made a loss of approximately HK\$5 million this quarter after making provision of HK\$5 million for overdue accounts receivables.

The beauty industry is still facing a very difficult time due to the keen competition within the industry, the increase in rental and the adverse media pressure. For this quarter, the turnover of the beauty centres of the Group has decreased by approximately 14%. However, the Group expects that the business would improve during the summer peak seasons.

During the second quarter, the Group has attained gross earnings over \$9 million through property investments and the Group will keep on looking for similar investment opportunities in the future. The management anticipates that the income from property investments will continue to make significant contribution to the gross earnings of the Group.

Retail operations

In retail operations, the Group is engaged in the sale of various branded beauty products and body slimming products.

During the period under review, retail operations accounted for approximately 2% of the Group's total turnover. Turnover from these operations was approximately HK\$3.3 million, for the six months ended 30 April 2008, representing an increase of approximately 10% as compared with last year.

Financial review

The Group is principally engaged in the sale and distribution of beauty, body slimming and personal care products and in the provision of beauty services, clinical services and beauty courses, plus property investments.
