*(incorporated in Hong Kong with limited liability under the Companies Ordinance)*  
**(Stock Code: 8298)**

**THIRD QUARTERLY RESULTS ANNOUNCEMENT  
FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2012**

**CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)**

**GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.**

**Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.**

*Hong Kong Exchanges and Clearing Limited and The Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.*

*This announcement, for which the directors (the “Directors”) of AKM Industrial Company Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.*

# NOTES TO THE CONDENSED CONSOLIDATED STATEMENT OF COMPREHENSIVE INCOME

*For the nine months ended 30 September 2012*

## 1. BASIS OF PREPARATION

The unaudited consolidated results of the Group have been prepared under the historical cost convention and in accordance with Hong Kong Financial Reporting Standards (“HKFRS”) and Hong Kong Accounting Standards (“HKAS”) and interpretations issued by the Hong Kong Institute of Certified Public Accountants. The accounting policies adopted are consistent with those set out in the Group’s annual financial statements for the year ended 31 December 2011.

The Quarterly Financial Statements are unaudited but have been reviewed by the audit committee of the Company.

## 2. TURNOVER AND SEGMENTS INFORMATION

Turnover represents the net amounts received and receivable for the sales of flexible printed circuits (“FPC”), sourcing and sale of electronic components and encapsulation of Chip On Film (“COF”) modules to external customers, net of discounts and sales related taxes.

### (a) Business segments

For management purposes, the Group is currently organised into three operating divisions namely (i) the manufacture and sale of FPC; (ii) sourcing and sale of electronic components; and (iii) encapsulation of COF modules. These divisions are the basis on which the Group reports its major segment information.

Principal activities are as follows:

FPC business	–	the manufacture and sale of FPC
Sourcing and sale of electronic components	–	provision of sourcing and sale of electronic components
COF modules business	–	COF modules business

### Segment revenues and results

The following is an analysis of the Group’s revenue and results by reportable segment.

Segment information about these businesses is presented below.

*Notes:*

- (1) The LCM business was a business engaged in the manufacture and sales of electronic modules for liquid crystal display modules, which was discontinued in the first quarter of 2011. The segment revenues and results of LCM business for the nine months ended 30 September 2011, for the six months ended 30 June 2011 and for the three months ended 31 March 2011 had not been individually reported in the third quarterly results of 2011, interim results of 2011 and first quarterly results of 2011 as an individual segment revenues and results of the Group. During these periods, the revenues and results of the LCM business were accounted in the segment revenues and results of the COF business as the LCM business and the COF business shared substantially similar production technology and the LCM business had been discontinued by the Group in the first quarter of 2011. The relatively minimal revenue and results of the LCM business were mainly accrued during these periods from the account receivables for transitional period after discontinuation and the disposal of its inventories.
- (2) As mentioned in the further clarification announcement dated 31 August 2012, the recognition criteria for the revenue of COF modules business had been adjusted (the “Criteria Adjustment”), and therefore the segment revenue of the corresponding period of last year was restated as per the Criteria Adjustment.

**(b) Geographical segments**

The Group operates in two principal geographical areas, i.e. the People’s Republic of China (excluding Hong Kong) (the “PRC”) and Hong Kong (place of incorporation). The following table provides an analysis of the Group’s revenue from external customers by geographical location:

*Note:* the segment revenue of the corresponding period of last year was restated as per the Criteria Adjustment as mentioned in the further clarification announcement dated 31 August 2012.

### 3. DISPOSAL OF A SUBSIDIARY

The Group entered into a transfer agreement (“Transfer Agreement”) with an independent third party on 21 June 2012, to transfer the 75% interests owned by the Company in Ever Proven Investments Limited (“Ever Proven”), which in turn holds 53% interests in Shenzhen Smart and a shareholder’s loan due from Ever Proven to the Company to the independent third party. By the disposal of the subsidiary, the Group exited from the relevant business of surface mount technology service. Details of the disposal were disclosed in the announcement of the Company dated 21 June 2012. During the period under review, the Company had duly received the first deposit and the second deposit according to the terms of the Transfer Agreement.

During the period, the Group disposed the said subsidiary and details of the disposal are as follows:

	<i>HK\$</i>

Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit of the Group for both periods. The income of its PRC subsidiaries neither arises in, nor is derived from, Hong Kong.

The provision for PRC Enterprise Income Tax is based on the estimated taxable income for each PRC subsidiary at its applicable tax rate. Under the Law of the People's Republic of China on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% from 1 January 2008 onwards.

Pursuant to the relevant laws and regulations in the PRC, AKM (Suzhou) FPC Company Limited and AKM Electronics Technology (Suzhou) Co., Ltd. are exempted from PRC enterprise income tax for two years commenced from 1 January 2008, followed by a 50% reduction for the next three years.

#### 5. DIVIDEND

The Directors do not recommend payment of an interim dividend for the nine months ended 30 September 2012 (2011: Nil).

## MANAGEMENT DISCUSSION AND ANALYSIS

### Financial Review

For the nine months ended 30 September 2012 (the “period”), the turnover of the Group amounted to approximately HK\$425.09 million, representing an increase of approximately 40.47% as compared to the corresponding period of last year, which was mainly due to the increases in sales of FPC. The gross profit for the period increased to approximately 15.35% (the corresponding period of 2011:11.77%), which was mainly due to the increase in gross profit margin for the sales of FPC, the sourcing and sale of electronic components and the encapsulation of COF modules. The profit attributable to the owners of the company for the period was approximately HK\$22.70 million, while the loss for the corresponding period of last year was approximately HK\$1.27 million. The increase in profit for the period was mainly due to the substantial increases in the sales and gross profit for the FPC business, which is the core business of the Group. Further, the disposal of a loss making non-core business as disclosed in an announcement of the Company dated 21 June 2012 also enhanced the profitability of the Group.

Other income of the Group for the nine months ended 30 September 2012 amounted to approximately HK\$2.17 million, representing an increase of approximately 40% as compared to the corresponding period of last year. The increase in other income was mainly due to the increase in the government grants for research and development and the release of a development support fund for the construction of factory on the lands owned by the Group in Suzhou from deferred income to other income, as the construction of the factory has been completed and has already commenced operation.

The distribution costs of the Group for the nine months ended 30 September 2012 was approximately HK\$7.84 million, representing an increase in approximately 15.76% as compared to the corresponding period of last year. The increase in distribution cost was mainly due to the increase in sales scale and the corresponding increase in transportation costs, custom clearance fees, labor costs and entertainment expense.

The administrative expenses of the Group for the nine months ended 30 September 2012 was approximately HK\$19.08 million, representing an increase of 21.46% as compared to the corresponding period of last year. The increase in administrative expense was mainly due to the increase in taxes resulting from higher sales revenue and the increase in payrolls and social security expenses resulting from the rise in standard wages.

The research and development expense of the Group for the nine months ended 30 September 2012 was approximately HK\$8.58 million, representing an increase in approximately 6.90% as compared to the corresponding period of last year. The increase in research and development expense was mainly due to the increase in research and development projects and activities.

The finance costs of the Group for the nine months ended 30 September 2012 amounted to approximately HK\$5.14 million, representing an increase of approximately 23.46% as compared to the corresponding period of last year. The increase in finance costs was mainly due to the higher interest-bearing borrowings.

## **Business Review and Outlook**

### *Business Review*

The Group is principally engaged in the manufacture and sale of FPC, which are used in communication, LCD, consumer electronic products such as mobile phones, LCD, car electronics and cameras. The Group is also engaged in sourcing and sale of electronic components and encapsulation of COF.

For the nine months ended 30 September 2012, the turnover of the Group amounted to HK\$425.09 million, representing an increase of approximately 40.47% as compared to the corresponding period of last year. During the period, the turnover for sales of FPC, sourcing and sale of electronic components and encapsulation of COF were approximately HK\$360.26 million, HK\$63.34 million, and HK\$1.50 million respectively. The turnover for sales of FPC, sourcing and sale of electronic components during the corresponding period of last year was approximately HK\$189.54 million and HK\$109.35 million respectively. For the nine months ended 30 September 2012, the profit attributable to the owners of the Company was approximately HK\$22.70 million, representing an increase in profit of approximately HK\$23.97 million as compared to the corresponding period of last year. The increase in profit was mainly attributed to the significant increase in sales and gross profit of FPC, being the Group's core business, and the disposal of a loss making non-core business as disclosed in an announcement of the Company dated 21 June 2012 also enhanced the Group's profitability.

During the nine months ended 30 September 2012, the turnover for sales of FPC of the Group increased by approximately 90.07% as compared to the corresponding period of last year, and its gross profit margin increased to approximately 16.09% (the corresponding period of 2011: approximately 14.93%). The turnover for sourcing and sale of electronic components decreased by approximately 42.08% as compared to the corresponding period of last year, and its gross profit margin was approximately 12.75% (the corresponding period of 2011: approximately 8.25%). The business of encapsulation of COF module was still in the business expansion period, but its processing fee income increased by approximately 15.16% as compared to the corresponding period of last year.

In July 2012, the Group established a branch company in Korea, with aims to enhance the expansion of Korea market, to provide localised and efficient services for Korean customers, to establish close cooperation relationship with Korean customers at the research and development stage of new projects and to increase the Group's sales to customers in Korea.

During the period under review, as disclosed in the Company's announcement dated 21 June 2012, given that Shenzhen Smart Electronic Co., Ltd ("Shenzhen Smart") (a joint venture of the Group) suffered continuous loss in the business of surface mount technology, in order to optimize the structure of assets and liabilities of the Group, improve liquidity of assets, and focus on the development of the principal business, the Group entered into the Transfer Agreement with an independent third party on 21 June 2012, to transfer the 75% interests owned by the Company in Ever Proven Investments Limited ("Ever Proven"), which in turn holds 53% equity interest in Shenzhen Smart and a shareholder's loan due from Ever Proven to the Company to the independent third party. By the disposal of the subsidiary, the Group exited from the relevant business of surface mount technology service. During the period under review, the Company had duly received the first deposit and the second deposit according to the terms of the Transfer Agreement.

### *Outlook*

The Group is dedicated to strengthen its core competence and achieve its profit goal, thereby creating greater value for its shareholders, staffs as well as the community. It is the Group's mission to become a major international supplier of FPC and electronic modules and to become an industry leader in the PRC market.

Following the changes in the competitive PRC mobile phone market and the adjustment of the Group's competing strategies, the Group has shifted its focus to serve large international clients with the provision of high density interconnect FPC and rigid-flex FPC products. At present, the Group has become a qualified supplier of a number of globally renowned electronic manufacturers, which demand more complicated techniques to produce their products. With the enhancement of the level of processing techniques and the continuous promotion of total quality management improvement activities, the defect rate has been significantly reduced. The Group will develop more large international clients and obtain more orders from existing customers. The Group has already made positive progress in this respect.

Following the commencement of normal production of the Group's Suzhou new production plant, the Group has established two production bases, situated at Southern China and Eastern China respectively. As a result, the Group's production capacity improved significantly while the scale effect started to take shape, and the Group's concept of offering "one-stop service" to customers can be effectively implemented. The Group plans to start constructing the Phase II production plant in Suzhou by the end of this year, in order to meet the future need for capacity expansion of FPC and development of flexible IC carrier project.

The Board of Directors is of the opinion that, with the new production plants in Nansha and Suzhou being put into operation, the Group has established strong production bases in the FPC industry, while the structural adjustment of other business units has almost been completed. Despite the drastic changes of the economic environment in China and the World, the intense competition in the industry and the continuous increase in labor costs, finance costs and other operating costs in the PRC, the Group is confident that it will be able to achieve scale operation and bring favorable investment return to its shareholders.
