ANNOUNCEMENT

UPDATE ON THE LATEST DEVELOPMENT OF VIDEO LOTTERY BUSINESS

The board of directors (the “Directors”) of China LotSynergy Holdings Limited (the “Company”, together with its subsidiaries, the “Group”) would like to update the shareholders of the Company on the latest development of the Video Lottery (VLT) Business, one of the Group’s principal businesses.

As at the end of 2012, there were approximately 21,000 units of VLT terminals connected including 6,000 units of the old generation terminals (“First-generation terminals”). In the first five months of 2013, the Group has delivered approximately 9,000 units of the new generation terminals (“Third-generation terminals”). It is expected that the Group will complete the delivery of more than 15,000 units of the Third-generation terminals by the end of this year. As all remaining First-generation terminals will have been replaced within this year, there will be a significant increase in the total number of VLT terminals connected reaching 28,000 to 30,000 units by the end of this year.

The Group believes the on-going deployment of the Third-generation terminals of VLT will promote steady growth in sales of the game. As announced by the Ministry of Finance of China, total sales of VLT for the first five months of 2013 have reached RMB11.438 billion, representing 36.7% growth year-on-year, the highest year-on-year growth in all game types in the country’s lottery market.
