Dear Sirs,

INSTRUCTIONS

In accordance with your instructions for us to value various properties in which New Ray Medicine International Holding Limited (the “**Company**”) and its subsidiaries (hereinafter together referred to as the “**Group**”) have interests in the People’s Republic of China (the “**PRC**”) and Hong Kong, we confirm that we have carried out property inspections, made relevant enquiries and obtained such further information as we consider necessary for the purpose of providing you with our opinion of the market value of the property interests as at 31 August 2013 (referred to as the “**Valuation Date**”).

This letter which forms part of our valuation report explains the basis and methodologies of valuation, clarifying assumptions, valuation considerations, title investigation and limiting conditions of this valuation.

BASIS OF VALUATION

Our valuation of the property interests represents the market value which we would define as intended to mean “the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently, and without compulsion”.

PROPERTY INTERESTS CATEGORISATION

The property interests are categorised as follows:

- Group I – Property interests held and occupied by the Group in the PRC
- Group II – Property interests licensed to/rented by the Group in the PRC
- Group III – Property interests rented by the Group in Hong Kong

VALUATION METHODOLOGY

We have valued the property interests of the property in Group I on market basis and the direct comparison method is adopted where comparison based on prices realised on actual sales and/or asking price of comparable properties is made. Comparable properties of similar size, character and location are analysed and carefully weighted against all the respective advantages and disadvantages of each property in order to arrive at a fair comparison of values.

We have attributed no commercial value to the property interests in Groups II and III which is licensed to/rented by the Group due to the prohibition against assignment and subletting or otherwise to the lack of substantial profit rents.

VALUATION CONSIDERATIONS

In valuing the property interests, we have complied with all the requirements contained in Chapter 8 of the Rules Governing the Listing of Securities on the Growth Enterprise Market issued by The Stock Exchange of Hong Kong Limited and the HKIS Valuation Standards (2012 Edition) published by The Hong Kong Institute of Surveyors.

VALUATION ASSUMPTIONS

Our valuations have been made on the assumption that the seller sells the property interests on the open market in their existing states without the benefit of a deferred term contracts, leasebacks, joint ventures, management agreements or any similar arrangements, which could serve to affect the values of the property interests.

In undertaking our valuation, we have assumed that, unless otherwise stated, transferable land use rights in respect of the property interests for specific terms at nominal annual land use fees have been granted and that any premium payable has already been fully paid. We have also assumed that the owners of the properties have enforceable titles to the properties and have free and uninterrupted rights to use, occupy or assign the properties for the whole of the respective unexpired terms as granted.

No allowance has been made in our report for any outstanding or additional land premium, charges, mortgages or amounts owing on the property interests valued nor for any expenses or taxation which may be incurred in effecting a sale. Unless otherwise stated, it is assumed that the property interests are free from encumbrances, restrictions and outgoings of an onerous nature, which could affect their values.

Other special assumptions of the property interests, if any, have been stated out in the footnotes of the valuation certificates attached herewith.

TITLE INVESTIGATION

We have been, in some instances, shown copies of various title documents and other documents relating to the property interests and have made relevant enquiries. We also caused searches to be made at the Land Registry in respect of the property interests located in Hong Kong and have made relevant enquiries. We have not examined the original documents to verify the existing title to the property interests and any material encumbrances that might be attached to the property interests or any lease amendments. However, we have relied considerably on the information given by the Company's PRC legal adviser, Commerce & Finance Law Offices (通商律師事務所), concerning the validity of the Group's title to the property interests located in the PRC.

All legal documents provided by the Group have been used for reference only. No responsibility regarding legal title to the property interests is assumed in this valuation report.

LIMITING CONDITIONS

We have inspected the exterior, and wherever possible, the interior of the properties but no structural survey had been made. In the course of our inspection, we did not note any serious defects. We are not, however, able to report that the properties are free from rot, infestation or any other structural defects. Further, no test has been carried out on any of the building services. All dimensions, measurements and areas are only approximates. We have not been able to carry out detailed on-site measurements to verify the site and floor areas of the properties and we have assumed that the areas shown on the copies of documents handed to us are correct.

The site inspection of the property was carried out in between July and September 2012 and March 2013 by Mr. Ian K. F. Ng, who is a chartered surveyor, and/or Mr. Charles Choi, ASc (Estate Surveying).

We have relied to a considerable extent on information provided by the Group and have accepted advice given to us on such matters, in particular, but not limited to, the sales records, tenure, planning approvals, statutory notices, easements, particulars of occupancy, site and floor areas and all other relevant matters in the identification of the property interests.

We have had no reason to doubt the truth and accuracy of the information provided to us by the Group. We have also been advised by the Group that no material factors have been omitted from the information supplied. We consider that we have been provided with sufficient information to reach an informed view, and we have no reason to suspect that any material information has been withheld.

Liability in connection with this valuation report is limited to the client to whom this report is addressed and for the purpose for which it is carried out only. We will accept no liability to any other parties or any other purposes.

This report is to be used only for the purpose stated herein, any use or reliance for any other purpose, by you or third parties, is invalid. No reference to our name or our report in whole or in part, in any document you prepare and/ or distribute to third parties may be made without written consent.

EXCHANGE RATE

Unless otherwise stated, all monetary amounts stated in this report are in Renminbi (RMB).

Yours faithfully,
