IGG INC (Incorporated in the Cayman Islands with limited liability) (Stock code: 8002)

INTERIM RESULTS ANNOUNCEMENT FOR THE SIX MONTHS ENDED 30 JUNE 2014

CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the Directors collectively and individually accept full responsibility, includes particulars given in compliance with the GEM Listing Rules for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

The principal activity of the Company is investment holding. The Group was principally engaged in the development and operation of online games and mobile games in the international market. There has been no significant change in the Group's principal activities during the year.

On 30 January 2014, IGG.com Canada Inc. ("IGG Canada") was established under the laws of Canada as a wholly-owned subsidiary of the Group. IGG Canada will mainly engage in the research and development of online games.

On 5 March 2014, IGG Singapore together with several individual shareholders including Mr. Guo Wu, Mr. Dian Chi, Ms. Kai Chen, Mr. Yuan Xu, Mr. Hong Zhang, Ms. Meijia Chen, Mr. Neng Xu, Mr. Hanling Fang, Ms. Jessie Shen and eight other individuals who are third parties independent from the Company and connected persons of the Company established an entity, Tapcash Inc., incorporated in Canada with limited liability, being engaged in provision of advertising, marketing and distribution services of mobile applications.

2. BASIS OF PREPARATION

The condensed consolidated financial statements of the Group have not been audited by the Company's auditors but have been reviewed by the Company's Audit Committee.

The unaudited condensed consolidated interim financial statements have been prepared in accordance with the International Accounting Standards ("IAS") 34 "Interim Financial Reporting" issued by the International Accounting Standards Board, and applicable disclosure requirements of the GEM Listing Rules and the Hong Kong Companies Ordinance.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the annual financial statements for the year ended 31 December 2013.

3. SIGNIFICANT ACCOUNTING POLICIES

Except as described below, the accounting policies adopted in the preparation of these interim condensed consolidated financial statements are the same as those adopted in the Group's annual consolidated financial statements for the year ended 31 December 2013. The Group has adopted the following new and revised International Financial Reporting Standards ("IFRSs") for the first time for the current period's interim condensed consolidated financial statements.

The condensed consolidated financial statements have been prepared on the historical cost basis except for available-for-sale investments, which are measured at fair values. Taxes on income for the interim period are accrued using the tax rates that would be applicable to expected total annual assessable profits.

IFRS 10, IFRS 12 and IAS 27 (Revised) Amendments	Amendments to IFRS 10, IFRS 12 and IAS 27 (Revised) – Investment Entities
IAS 32 Amendments	Amendments to IAS 32 Financial Instruments: Presentation — Offsetting Financial Assets and Financial Liabilities
IAS 39 Amendments	Amendments to IAS 39 Financial linstruments: Recognition and measurement — Novation of Derivatives and Continuation of Hedge Accounting
IFRIC 21	Levies

Amendments to IFRS 10 include a definition of an investment entity and provide an exception to the consolidation requirement for entities that meet the definition of an investment entity. Investment entities are required to account for subsidiaries at fair value through profit or loss in accordance with IFRS 9 rather than consolidate them. Consequential amendments were made to IFRS 12 and IAS 27 (Revised). The amendments to IFRS 12 also set out the disclosure requirements for investment entities. These amendments have no impact to the Group as none of the entities in the Group qualifies to be an investment entity as defined in IFRS 10.

The IAS 32 Amendments clarify the meaning of "currently has a legally enforceable right to set off" for offsetting financial assets and financial liabilities. The amendments also clarify the application of the offsetting criteria in IAS 32 to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. The amendments have no impact to the Group.

Amendments to IAS 39 Amendments provide relief from discontinuing hedge accounting when novation of a derivative designated as a hedging instrument meets certain criteria. These amendments have no impact to the Group as the Group has not novated its derivatives during the current or prior periods.

IFRIC 21 Levies is applicable to all levies imposed by governments under legislation, other than outflows that are within the scope of other standards (e.g., IAS 12 Income Taxes) and fines or other penalties for breaches of legislation. This interpretation has no impact to the Group.

Amendments to IAS 36 - Recoverable Amount Disclosures for Non-Financial Assets remove the unintended consequences of IFRS 13 Fair Value Measurement on the disclosures required under IAS 36 Impairment of Assets. In addition, these amendments require disclosure of the recoverable amounts for the assets or cash-generating units (CGUs) for which an impairment loss has been recognised or reversed during the period. The Group early adopted these disclosure requirements in the annual consolidated financial statements for the year ended 31 December 2013.

The Group has not early adopted any standard interpretation or amendment that was issued but not yet effective.

4. OPERATING SEGMENT INFORMATION

The Group was principally engaged in the development and operation of mobile games and online games in the international market.

IFRS 8 *Operating Segments* requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision- maker in order to allocate resources to segments and to assess their performance. The information reported to the directors of the Company, who are the chief operating decision-makers, for the purpose of resource allocation and assessment of performance, does not contain separate profit or loss information for the development and operation of mobile games and online games and the directors reviewed the financial results of the Group as a whole reported under IFRSs. Therefore, no further information about the operating segment is presented.

9. EARNINGS/(LOSS) PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

For the purpose of calculating earnings per share, the numbers of ordinary shares outstanding during the three months and six months ended 30 June 2014 and 2013 have been adjusted retroactively as a result of the Shares Subdivision (defined in note 20).

The calculation of basic earnings/(loss) per share amounts is based on the respective earnings/(loss) attributable to ordinary equity holders of the parent, and the weighted average numbers of ordinary shares in issue.

The calculation of diluted earnings per share is based on the profit for the three months and six months ended 30 June 2014 attributable to ordinary equity holders of the parent. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the three months and six months ended 30 June 2014, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise of all dilutive potential ordinary shares into ordinary shares.

No adjustment has been made to the basic loss per share amounts presented for the three months and six months ended 30 June 2013 in respect of a dilution as the impact of the share options and redeemable convertible preferred shares outstanding had an anti-dilutive effect on the basic loss per share amounts presented.

The calculations of basic and diluted earnings/(loss) per share are based on:

Gross profit and gross profit margin

The Group's gross profit for the Period was approximately US\$66.6 million, representing an increase of approximately 204.1% over the US\$21.9 million for the corresponding period in 2013, primarily due to the increase in the revenue generated from the mobile games.

The Group's gross profit margin for the Period was approximately 72.5%, representing a decrease of approximately 3.5% compared to the 76.0% for the corresponding period in 2013, primarily due to an increase in costs related to operating mobile games.

Other income and gains

The Group's other income and gains for the Period was approximately US\$1.4 million, compared to approximately US\$0.1 million for the corresponding period in 2013, primarily due to an investment income generated from disposal of available-for-salses investments in a South Korea listed online gaming company.

Selling and distribution expenses

The Group's selling and distribution expenses for the Period were approximately US\$19.1 million, representing an increase of approximately 203.2% over the US\$6.3 million for the corresponding period in 2013. This was primarily due to a significant increase in advertising expenses incurred for our mobile games, especially "Castle Clash" and "Clash of Lords II", which was partially offset by a decrease in promotional activities for our browser games.

Administrative expenses

The Group's administrative expenses for the Period were approximately US\$6.4 million, representing an increase of approximately 48.8% over US\$4.3 million for the corresponding period in 2013, primarily due to the increase in salaries and welfare expenses payable to administrative staff.

Research and development costs

The Group's research and development costs for the Period were approximately US\$6.9 million, representing an increase of approximately 81.6% over US\$3.8 million for the corresponding period in 2013, primarily due to (i) an increase in salaries and welfare expenses for game development staff, and (ii) an increase in research and development outsourcing expenses.

Income tax expense

The Group's income tax expense for the Period was approximately US\$2.4 million, representing an increase of approximately 500.0% over US\$0.4 million for the corresponding period in 2013, primarily attributable to the increase in profit before tax.

Adjusted net income

The Group's adjusted net income for the Period was approximately US\$33.7 million, representing an increase of approximately 368.1% over US\$7.2 million for the corresponding period in 2013. Compared to the three months ended 31 March 2014, adjusted net income increased by approximately 44.2% from US\$13.8 million to US\$19.9 million for the three months ended 30 June 2014. The increase was in line with the increase in revenue. We have presented adjusted net income for the Period in this announcement as we believe that the adjusted net income for the Period is a meaningful supplement to the income statement data because it enables us to measure our profitability without taking into consideration of share-based compensation and fair value loss of the Preferred Shares (as defined in the Prospectus), which were converted to ordinary Shares on 31 May 2013. However, adjusted net income for the Period should not be considered in isolation or construed as an alternative to net income or operating income, or as an alternative to cash flow as a measurement of liquidity. Potential investors should be aware that the adjusted net income for the Period presented in this announcement may not be comparable to similarly titled measures reported by other companies due to differences in the components of the calculation.

Gearing ratio

BUSINESS REVIEW AND PROSPECTS

The Group is a rapidly growing developer and publisher of mobile online games with a global presence and international customer base. The Group has its headquarters in Singapore with regional offices in the United States, China, Canada and the Philippines, and customers from over 180 countries around the world.

The Group offers free-to-play mobile, browser and client-based online games in 15 different languages, the majority of which are produced by its own development teams. Most of the development personnel are based in China to tap the large talent pool there and to leverage cost advantages. This has enabled the Group to produce games more cost-effectively.

During the Period, the global games industry remained highly competitive. To pursue its overall corporate strategy for 2014, the Group has maintained its focus on (i) developing its own mobile games, and (ii) promoting, marketing and operating its games globally. This allows the Group to mitigate the effects of unforeseen changes in local market conditions in individual countries.

Especially, our hit title "Castle Clash", which is a fast-paced tower defense game and quickly rose in popularity. It ranked top five in 17 countries and regions and top ten in 33 countries and regions in terms of daily revenue rankings generated at Google Play as at 30 June 2014, according to Appannie.com, an independent third party provider of mobile application analytics. In May 2014, the Group successfully released the simplified Chinese version of Castle Clash, on Tencent's social mobile platforms. Diversified genres can be found among the ten games launched in the first half of this year, such as Card, Strategy and MMO. The Group will continue to bring the players worldwide with various types of new games. Another 20 to 25 new games are expected to be brought to the market in the second half of this year, including below four key mobile games developed in-house and one high-profile mobile game licensed from the third party.

A role-playing game in "Japanese anime" style featuring a virtual joypad to control the player-character, which is licensed from Taomee Holdings Limited. The Chineseversion of "Brave Trials" has been launched in China by another publisher and the results are very encouraging.

Self-developed social platform

Link Messenger

The Group believes that an online game is not a "product" but a "service" and has always tried to cater to the various needs and wants of different gamers, and to constantly provide them with the highest level of service. Interaction among gamers is an important contributing factor to the success of online games. To facilitate interaction and communication among the Group's 160 million registered users, and to foster a stronger sense of community among them, the Group has developed and launched Link Messenger, a location-based instant messaging and social networking mobile application.

Going forward, the Group intends to continue investing resources to improve Link Messenger and to encourage its adoption by gamers. This is in line with the Group's ongoing efforts to enhance its service offering to gamers.

A good social networking platform must have widespread adoption to be useful. Hence the Group will not try to monetize the Link Messenger platform until it has achieved a critical mass of users worldwide. Instead, the Group intends to invest considerable resources to market and further develop Link Messenger, adapting different strategies in different regions according to test results. These marketing efforts may affect profit margin in the short term, but is expected to strengthen the Group's position vis-à-vis other game publishers in the long term.

In addition to the Apple App Store and Google Play, the Group will make greater efforts to strengthen long-term partnerships with more than 100 game promotion platforms worldwide, to execute its global marketing strategy in an effective manner.

During the Period, the Group has made several strategic investments into companies in the industry that either have high growth potential, or with products and services that are complementary to the Group's business. As a result, the Group not only derived investment income, but also expects to benefit from the synergies with these companies in the near future.

The Group also endeavors to strengthen its operational capabilities in key, high growth markets around the world. This will enable the Group to better localize its games to suit different markets and cultures, to have a stronger local presence to better serve its customers, and to increase its market share in these countries.

The Group will continue to seek potential merger and acquisition opportunities that could create synergies, accelerate its growth, or provide breakthroughs in its business.
