MANAGEMENT DISCUSSION AND ANALYSIS

Business review and future outlook

Turnover of the Group for the three months ended 31 March 2015 increased when compared to the corresponding period in 2014. Such significant increase was mainly because the turnover of the Polyethylene pipes (“PE pipes”) business was sustained and the turnover of the natural gas business was not included in the Group in the corresponding period in 2014. The board of directors (the “Board”) believes that turnover of the Group will be further improved with the new natural gas business and anticipated improvement of the PE pipes business. In turn, the result of the Group will be improved accordingly.

The business segment of the PE pipes has been the one of the core businesses of the Group during the period under review and continued as one of the main businesses of the Group in 2015. The PE pipes are products used for construction and city development in the People’s Republic of China (the “PRC”). The Group’s major customers are the government and public entities, or their suppliers, from different provinces and cities in the PRC. Due to low turnover and relatively high production fixed costs, the gross margin was not meeting target. However, with the anticipated higher turnover under continuous improvement of turnover and a strengthened customer portfolio, gross margin of the PE pipes business will definitely improve in the later part of 2015 and in the long term.

In view of the policy to use clean energy in the PRC, the prospect of natural gas business is very bright. Natural gas is now using for industrial, domestic and transportation purposes and it has a trend to replace ordinary energies like coal and petrol. With the acquisition of Fujian China Primary Energy Limited# (福建中基能源有限公司), Ningguo Ruide Natural Gas Company Limited# (寧國瑞德天然氣有限公司) and the formation of China Primary Blueprint (Shenzhen) Energy Limited# (中基藍印(深圳)能源有限公司) in the year 2014, the natural gas business is heading towards the right direction. On the other hand, the acquisition of Wuhu Shengyuteng Natural Gas Pipeline Company Limited# (蕪湖盛譽騰天然氣管道有限公司) will be completed in 2015. As a result, the natural gas business is expanding and will become the most significant business of the Group in the near future.

In the meantime, the Board has been exploring possible investing opportunities to increase the Company's value.

Proposed issue of the Convertible Bonds

On 17 February 2015, the Company entered into the conditional subscription agreement (the "Subscription Agreement") with Golden Peak Minerals Limited (the "Subscriber"), pursuant to which the Subscriber has conditionally agreed to subscribe for and the Company has conditionally agreed to issue the five-year 4.5% coupon unlisted convertible bonds in principal amount of HK\$60,000,000 (the "Convertible Bonds").

Based on the initial conversion price of HK\$1.00 (the "Conversion Price") per conversion share, a maximum number of 60,000,000 conversion shares (the "Conversion Shares") will be allotted and issued upon exercise of the conversion rights attached to the Convertible Bonds in full, which represent: (i) approximately 7.31% of the issued share capital of the Company as at the date of the Subscription Agreement; and (ii) approximately 6.81% of the issued share capital of the Company as to be enlarged by the allotment and issue of the Conversion Shares to be allotted and issued upon the exercise of the conversion rights attaching to the Convertible Bonds in full. The net proceeds of the subscription of approximately HK\$59,400,000 will be applied towards appropriate acquisition and investment opportunities of the Group and the considerations thereof and working capital of the Group.

The Convertible Bonds shall not be converted into conversion shares for the period from the date of issue of the Convertible Bonds to the date falling three years after the issue of the Convertible Bonds.

The Conversion Price is initially HK\$1.00 per Conversion Share, subject to adjustment for subdivision or consolidation of shares, rights issue, stock or cash distribution other than out of distributable profits of the Company, and other dilutive events (which are general anti-dilution adjustments).

Details are set out in the announcements dated 17 February 2015 and 8 April 2015 and the circular dated 11 March 2015 of the Company.

The Convertible Bonds were allotted and issued on 8 May 2015.
