2. PRINCIPAL ACCOUNTING POLICIES

The unaudited condensed consolidated financial statements have been prepared on the historical basis.

The accounting policies used in the unaudited condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s audited consolidated financial statements for the period from 1 July 2014 to 31 December 2014.

In the current interim period, the Group has applied, for the first time, certain amendments to the Hong Kong Financial Reporting Standards (“HKFRSs”) that are mandatorily effective for the current interim period. The application of the new and revised HKFRSs in the current interim period has had no material impact on the amounts reported and/or disclosures set out in these condensed consolidated financial statements.

Turnover represents the amounts received and receivable for goods sold in respect of its commodity trading business and services rendered in establishing and providing secure electronic payment processing platform.

Commodity trading	135,702	–
IT solution services	144	1,923
	<u>135,846</u>	<u>1,923</u>

Segment information

The two operating and reportable segments under HKFRS 8 “Operating Segments” are identified as follows:

- Commodity trading – includes income from trading of copper
- IT solution services – including services rendered in establishing and providing secure electronic payment processing platform

The accounting policies of the operating and reportable segments are the same as the Group’s accounting policies. Segment results represent the loss before taxation earned by each segment, excluding unallocated income and expenses such as central administration costs and directors’ salaries. This is the measure reported to the executive directors of the Company, the chief operating decision maker, for the purpose of resource allocation and assessment of segment performance.
