**FIRST QUARTERLY RESULTS ANNOUNCEMENT
FOR THE THREE MONTHS ENDED 31 MARCH 2016**

**CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE
STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)**

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

*This announcement, for which the directors (the “**Directors**”) of Lap Kei Engineering (Holdings) Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company and its subsidiaries (collectively the “**Group**”). The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.*

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

The Group's revenue increased from approximately HK\$43.4 million for the three months ended 31 March 2015 to approximately HK\$63.3 million for the Relevant Period, representing a growth of approximately 45.8%. Such increase was mainly due to the increase in building services engineering work provided by the Group as a result of the overall development in the construction industry in Hong Kong and the increase in number of contracting projects undertaken by the Group during the Relevant Period.

Cost of Sales

The Group's cost of sales increased from approximately HK\$30.9 million for the three months ended 31 March 2015 to approximately HK\$52.0 million for the Relevant Period, representing an increase of approximately 68.3%. Such increase was mainly attributable to the increase in the subcontracting charges with the increase in number of contracting projects undertaken by the Group during the Relevant Period.

Gross Profit

Gross profit of the Group decreased by approximately 9.6% from approximately HK\$12.5 million for the three months ended 31 March 2015 to approximately HK\$11.3 million for the Relevant Period. The decrease was mainly due to the extent of increase in subcontracting charges and direct labour costs being greater than the increase in revenue for the Relevant Period.

Administrative Expenses

Administrative expenses of the Group increased by approximately 7.6% from approximately HK\$2.8 million for the three months ended 31 March 2015 to approximately HK\$3.0 million for the Relevant Period. Administrative expenses primarily consist of rental expenses, staff costs and professional fees for compliance with the GEM Listing Rules. The increase was attributable to the increase in staff salary and welfare due to business expansion and the increase in professional fees during the Relevant Period.

Income Tax Expense

Income tax expense of the Group decreased by approximately 16.9% from approximately HK\$1.6 million for the three months ended 31 March 2015 to approximately HK\$1.3 million for the Relevant Period. The decrease was mainly due to the decrease in profit before tax.

Profit and Total Comprehensive Income

Profit and total comprehensive income decreased by approximately 14.2% from approximately HK\$8.1 million for the three months ended 31 March 2015 to approximately HK\$7.0 million for the Relevant Period. Such decrease was primarily attributable to the combined effect of (i) the decrease in gross profit for the Relevant Period and (ii) the increase in administrative expenses for the Relevant Period.

BUSINESS REVIEW AND OUTLOOK

The Group is principally engaged in the provision of engineering services for building services systems in Hong Kong. The Group undertakes building services engineering works which are mainly related to the supply, installation and maintenance of (i) mechanical ventilation and air-conditioning (“**MVAC**”) system; (ii) electrical system; (iii) plumbing and drainage system; and (iv) fire services system.

The contracts the Group entered into with its customers are categorised into two types, namely (i) building services engineering projects for existing buildings and new buildings (the “**building services engineering projects**”); and (ii) maintenance, repair and other services (the “**maintenance projects**”) which mainly include provision of maintenance and repair services for building services system and replacement of parts.

For building services engineering projects, the Group is required to complete the engineering works in relation to the installation and/or upgrade of building services systems as set out in the scope of work under the contracts. For maintenance projects, the Group is required to provide maintenance services for existing building services systems of a property or portfolio of properties over a fixed contract period. Such maintenance services include regular check and maintenance, and emergency call-out service for emergency repair.

Looking forward, the Directors consider that the future opportunities and challenges which the Group faces will be affected by the development of the property market in Hong Kong as well as factors affecting the labour costs and material costs. The Directors are of the view that the number of properties to be built and maintained in Hong Kong is the key driver for the growth of the Hong Kong building services industry.

With the Group’s experienced management team and reputation in the market, the Directors consider that the Group is well-positioned to compete against its competitors under such future challenges that are commonly faced by all competitors, and the Group will continue to pursue the following key business strategies: (i) further developing the building services engineering business by making use of additional financial resources available from the Listing which allows the Group to undertake more projects of larger scale that require the provision of surety bond; (ii) further expanding the service scope by application for additional licences, permits or qualifications which may be required; and (iii) further strengthening the Group’s engineering department through recruiting additional qualified and experienced staff.
