### BUSINESS OBJECTIVES AND STRATEGIES

Our objective is to enhance our market share in the medical aesthetic service industry and continue to strengthen our competitive strengths. See "Business — Our Business Strategies" in this [REDACTED] for details of our business strategies.

### IMPLEMENTATION PLANS

We will endeavour to achieve the following milestone events during the period from the Latest Practicable Date to 31 March 2019. The respective scheduled completion times are based on certain bases and assumptions as set out in "Bases and Key Assumptions" in this section. These bases and assumptions are inherently subject to many uncertainties and unpredictable factors, in particular the risk factors as set out under "Risk Factors" in this [REDACTED]. Therefore, there is no assurance that our business plans will materialise in accordance with the estimated time frame and that our future plans will be accomplished at all.

## STATEMENT OF BUSINESS OBJECTIVES AND USE OF PROCEEDS

### BASES AND KEY ASSUMPTIONS

Our Directors have adopted the following principal assumptions in the preparation of the implementation plan up to 31 March 2019.

- (a) there will be no material change in the existing political, legal, fiscal or economic conditions in Hong Kong;
- (b) there will be no outbreak of contagious diseases or occurrence of *force majeure* events or natural disasters in Hong Kong, which would materially disrupt our business operations or cause substantial loss, damage or destruction to our properties or facilities;
- (c) there will be no material change in the existing laws, regulations, policies or industry standards in Hong Kong or any part of the world relating or applicable to us;
- (d) there will be no material change in the bases or rates of taxation in Hong Kong or in any other places in which any member of our Group operates or will operate or is incorporated;
- (e) the [REDACTED] will be completed in accordance with and as described in “Structure of the [REDACTED]” in this [REDACTED];
- (f) our Group is able to retain our key management personnel, doctors, employees, clients and suppliers;
- (g) our Group will not be materially affected by any risk factors set out in “Risk Factors” in this [REDACTED];
- (h) there will be no change in the effectiveness of any licences and permits obtained by us;
- (i) we will have sufficient financial resources to meet the planned capital expenditure and business development requirements during the period to which the business objectives relate; and
- (j) our Group will be able to continue its operations in substantially the same manner as our Group had been operating during the Track Record Period and our Group will be able to carry out the development plans without disruptions adversely affecting its operations or business objectives in any way.

### REASONS FOR THE [REDACTED] AND USE OF PROCEEDS

Our Directors believe that the [REDACTED] could enhance our capital base and the [REDACTED] will strengthen our financial position and enable us to implement our business objectives set out in this section. As at 30 June 2016, we had a cash and cash equivalent balance of approximately HK\$57.7 million, which was mainly attributable to the cash receipts from sales of prepaid packages and prepaid cash coupons. Accordingly, we also recorded deferred revenue amounting to approximately HK\$52.3 million as at 30 June 2016. Our Directors consider that it is prudent not to deploy the aforesaid cash resources to implement our business strategies as we need to have sufficient cash available to settle the necessary operating expenses in delivering our treatment services arising out of the prepaid packages and redemption of services using the prepaid cash coupons. Therefore, despite the

fact that the estimated total [REDACTED] amount to approximately HK\$[REDACTED], our Directors believe obtaining a public [REDACTED] status is the best way for us to gain access to the capital market to fund our current expansion plans and business development in the future. Furthermore, we believe that, through [REDACTED], we can enhance our corporate profile and increase market awareness towards the brand of our medical aesthetic centres, and prepare ourselves in a better position to recruit and retain talents by offering an equity-based incentive program, such as share option scheme, to our staff.

Based on the [REDACTED] of HK\$[REDACTED] per Share, being the mid-point of the indicative range of the [REDACTED] stated in this [REDACTED], the [REDACTED], after deduction of [REDACTED] fees and other expenses payable by our Company in relation to the [REDACTED], are estimated to be approximately HK\$[REDACTED]. Our Company currently intends to use the [REDACTED] as follows:

To the extent that the [REDACTED] are not immediately required for the above purposes and to the extent permitted by applicable laws and regulations, if we are unable to effect any part of our future plans as intended, it is the present intention of our Directors that such net proceeds be placed in short-term interest bearing deposit accounts held with authorised financial institutions in Hong Kong. In the event that we would require additional financing apart from the net proceeds from the issue of the [REDACTED] for our future plans, the shortfall will be financed by our internal resources and bank financing as appropriate.

In the event that the [REDACTED] is fixed at [REDACTED] or [REDACTED] (being the respective low-end and high-end of the indicative range of the [REDACTED] as stated in this [REDACTED]), the [REDACTED] to be received by our Company are approximately HK\$[REDACTED] and HK\$[REDACTED], respectively, after deduction of all [REDACTED] fees and expenses paid and payable by us in relation to the [REDACTED]. We currently intend to apply the aforesaid net proceeds in the same manner and in the same proportion as shown above.
