MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

For the three months ended 31 March 2017 (the “Period”), the global economy recovered moderately and the consumer confidence indices rose in Mainland China, Taiwan, Hong Kong and Macao. The Group continued to pursue a strategic approach of progress amidst stability. The revenue was HK\$315.0 million (2016: HK\$265.3 million), representing an increase of 18.7% over the same period of last year. The Company’s profit attributable to owners of the Company was HK\$132.6 million (2016: HK\$108.4 million), representing an increase of 22.3% over the same period of last year.

As a golden brand of traditional Chinese medicine, Beijing Tong Ren Tang has become an important window for the world to understand traditional Chinese medicine after more than 20 years of overseas development. Last year we officially commenced our business in the United States, achieving a breakthrough in the development of the mainstream markets. During the Period, we continued to reinforce the existing market base, opening three retail outlets in the United States, Singapore and Australia. The Group’s business coverage outside Mainland China has therefore extended to 19 countries and regions with 70 retail outlets, achieving the global development strategy layout of “Base in Asia and March to Overseas”.

In Hong Kong, which is the core market of the Group, we have always strengthened our marketing and promotion efforts to enhance the influence of Tong Ren Tang brand. During the Period, we organized a number of Chinese medicine and health seminars and offered free Chinese medical consultation services in an effort to let more people recognize the extensive and profound traditional Chinese medicine treatment, to acknowledge the brand culture of Tong Ren Tang and to promote the concept of Chinese medicine healthcare. Furthermore, we continued to strengthen the promotion of our key products by setting up large outdoor billboards in the prosperous and bustling Central, seeking to enhance the popularity of our brand and products.

FUTURE PROSPECTS

As the white paper “Traditional Chinese medicine in China” has been published and the development of traditional Chinese medicine has been upgraded to a national strategy, traditional Chinese medicine has entered a new era. A new pattern of “six in one” (medical treatment, healthcare, scientific research, education, industry, and culture) comprehensive development of traditional Chinese medicine has therefore formed. Our overseas development strategy has evolved from an approach of “sale of medicine driven by medical treatments” into an approach of comprehensive healthcare with the whole industry chain, which has formed a closed loop of development, consisting of medicinal herbs planting, procurement, research and development, production, wholesale and retail, Chinese medical treatments and healthcare, cultural transmission, and personnel training. The internationalization of traditional Chinese medicine is a huge project. As a China time-honored brand, Tong Ren Tang adheres to the concept of “Innovating from the succession and developing from the innovation”, and is committed to our mission of “Healthy Life, Global Choice”, promoting medicine modernization by integrating traditional and modern medicine. Tong Ren Tang will effectively inherit, develop and utilize the traditional Chinese medicine and strive to achieve the innovative transformation and development of traditional Chinese medicine healthcare culture, linking it to the modern concept of health, so as to make larger contributions to the human health.
