#### MANAGEMENT DISCUSSION AND ANALYSIS

#### **BUSINESS REVIEW**

During the first three months ended 31 March 2017, Merdeka Financial Services Group Limited (the "Company") and its subsidiaries (the "Group") continued to engage in financial services business, trading business and information technology business. Financial services business includes the financial leasing business, the securities business and the money lending business. Trading business is stable but the information technology business remained challenging.

#### **OPERATION REVIEW**

It is obvious that commencing from the establishment of the money lending business to the acquisitions of 恒河融資租賃(上海)有限公司 (Heng He Finance Lease (Shanghai) Company Limited\*) ("Heng He") and Merdeka Capital Limited (萬德資本有限公司) ("Merdeka Capital"), the Company is putting more weight on the financial services business.

During the period under review, Merdeka Capital, besides in developing its securities brokerage business, has been exploring the opportunities in developing a higher returns and, in turn, a more profitable business in taking up the role as a book-runner as well as a lead manager in respect of issuance of debts listed worldwide after concluding two transactions in Europe in 2016.

Since commencing its money lending business with a valid money lenders licence granted, the Company is able to develop the money lending business as one of its principal lines of business by providing loans in a systematic and repetitive nature in its ordinary course of business, subject to compliance with the requirements in the Money Lenders Ordinance. The Group has been approached by potential borrowers for provision of loans from time to time but management is cautious in making provision of loan to avoid possible bad debts.

Trading business continues to provide a stable source of revenue to the Group during the period under review and as the business is running steadily but competitive, the Group is expanding its trading business into more variety of consumer products and into more geographical markets within the PRC. The Group's trading outlet is located in Sheung Shui, at where, it is nearer to its customers. The variety of the Group's trading products has been enlarged to confectioneries and pharmacy products. The Group sourced locally and from Japan and other Asia countries in respect of its trading products. Furthermore, after registered as a food importer/food distributor under the Food Safety Ordinance, the Group has been ordering OEM products from Asia countries that include Japan, Korea and Malaysia. With complimentary effects from the Group's mobile and cloud information technology centre in Mian Yang, a city of Sichuan Province, the PRC, the Group's trading arm, Source Easy Limited ("Source Easy") has been expanding its customer base in the PRC.

<sup>\*</sup> For identification purpose only

The Group's information technology business remained challenging during the period under review, mainly because of the keen competition and the rapid change in project cycles of the customers. However, the Group is consolidating different acquired entities into a single stream of income and shifting the weight to its 60% owned subsidiary, 綿陽恒達信息科技有限公司 (Mian Yang Heng Da Information Technology Limited\*) ("Heng Da"). Currently, Heng Da has been developing mobile and cloud based application software and operating related e-commence platform to trade the Group's consumer products in the PRC for Source Easy's trading products.

During the last quarter of 2016, Heng Da has franchised a mobile game licence from a provider to market and ran exclusively a mobile game platform in the Mian Yang city of Sichuan, the PRC. This is a small but meaningful step for Heng Da as it would get hold of the hand-on technology and experience in the mobile game industry in the PRC based on its own development on the mobile and cloud based application software.

#### **DISCUSSION ON FINANCIAL RESULTS**

For the period under review, the Group's reported revenue reached approximately HK\$63.4 million, representing an increase of approximately 29.7% on a year-on-year basis. The increased revenue was mainly contributed by trading business which increased approximately HK\$13.0 million to reach approximately HK\$48.6 million, and financial services business which also increased approximately HK\$1.7 million to reach approximately HK\$14.7 million.

The Group's gross profit for the period under review was approximately HK\$7.2 million, representing approximately 2.4 times increase on a year-on-year basis. The Group's gross profit margin also increased by approximately 5.3% to reach approximately 11.4%. The increase in terms of dollar and margin was mainly attributable to the financial services business segment.

In light of the increasing operating activities, the cost of sales, and the operating and administrative expenses also increased correspondingly by approximately 22.4% and 16.7% respectively on a year-on-year basis.

#### OUTLOOK

Looking forward to year 2017 and after, the Group will continue to focus on the development of financial services business in both PRC and Hong Kong.

The Directors believe that the acquisition of Hang He allowed the Group, without setting up a new financing company, to further develop its financing related business in the PRC through a direct working capital injection, and subsequently to enjoy the benefits of the capital leverage in Heng He. Furthermore, in view of the growth potential of the finance lease industry in the PRC, the Directors consider that this acquisition will enhance the performance of the Group and the return to the Shareholders as a whole.

It is anticipated that more transactions would be concluded in the future by Heng He after the Company and its effort in adapting to the required disclosure as required by and set forth in the GEM Listing Rules.

During its business process, Heng He had developed its credit rating system that was compatible to those used by the other financial institutions, including banks, and government organizations. As a results, it is sensible for it to invest and explore and diverse into the formation of Merdeka Credit, which is to carry out a business to be principally engaged in the provision of various kinds of credit information services to local and overseas institutional investors, financial institutions, regulatory authorities, government departments and economic research houses. The Directors considered that it would be in the interests of the Company and its Shareholders as a whole for Heng He to expand into business that is relating to its own finance lease business, which in turn will be beneficial to the Group by increasing its revenue and profits. The Directors expect that the establishment of Merdeka Credit will bring to Heng He a new source of income and in turn benefit the Company and its Shareholders as a whole in the longer term.

Regarding the money lending business, the Company continuously receives enquiries from various customers, however, the Company is cautious in concluding the transactions in order to control the risk in money-laundering as well as, the risk of bad debt. It is expected that the income from money lending business will grow steadily and healthily.

After the completion of the acquisition of Merdeka Capital, the Company has further expanded and diversified into the financial services by having a 100% indirect owned subsidiary in securities business.

To build on its success in the debt financing business in Europe, Merdeka Capital also taking advantage in the Group's appearance in the PRC by co-operation with the debt financing and issuance experts in listing debts issued by the PRC corporations on the stock exchanges worldwide. Merdeka Capital would continuously focusing on the role of book-runner and lead managers on these financing exercise of the significant sizes PRC corporations.

To cope with the Group's strategy in exploring the China market, the Board is studying the possibilities for Merdeka Capital to apply for the certificate of Hong Kong service suppliers which is the first step in applying for the preferential treatment under Mainland and Hong Kong closer economic partnership arrangement ("CEPA"). Under CEPA, it is anticipated that Merdeka Capital may enjoy preferential treatment when setting up business in its relevant sector in the Mainland China and is vigorously planning to establish strategic partnership co-operations with certain Mainland financial institutes of relevant business in sharing commercial resources in the extensive areas, including products and customer paths, for mutual developments.

In order to complement the Type 1 regulated activity currently undertaken by Merdeka Capital and to explore the opportunities in the asset management business to potential overseas clients through the overseas network of the Group in the near future, on 7 February 2017 (after trading hours), the Group, through, a wholly-owned subsidiary, entered into a sale and purchase agreement to acquire 51% of the issued share capital of Heng Asset Management Limited ("Heng"), a company principally engages in the provision of Type 4 (advising on securities) and Type 9 (asset management) regulated activities under the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) ("SFO").

The Directors consider that the participation in Heng by acquiring 51% of its share capital would enable the Group to further provide more comprehensive financial services through direct investment in and hands-on management and operation of Heng. The Board observes that the current condition in the investment advisory market is highly competitive but at the same time there are promising opportunities in the market. This is evidenced by continuous increasing number of Type 4 and Type 9 licensed corporation application to the SFC. If the acquisition is completed, the Group is expected to take advantage of the future growth in capital markets and continuous products development, by diversifying its business further within the financial services sector, in particular the asset management business and to broaden the Group's revenue base.

Furthermore, to enjoy the competitive advantages of the Group in the information technology as well as in the mobile application, Merdeka Capital is going to build, basing on its existing online financial services, an ultimately computerized automatic trading platform with mobile application supports as well as a professional information announcing and broadcasting platform for Hong Kong stocks and the stock market, so as to promote its business everywhere in Hong Kong as well as in the China market.

The Group is also commencing to OEM its trading products from various Asian countries including Japan, Korea and Malaysia. In addition, the Group will explore the opportunities in the development of logistic and/or its related business in order to enhance the Group's trading sector.

For the information technology business, revenue would be mainly driven by the additional contribution from the consolidation of different acquired entities into a single stream of income. Complementing the trading business with its information technology business, the Group intends to commence trading consumer products into the PRC through its customers there by developing mobile and cloud based application software and operating related e-commence platform in the PRC. Another opportunity to complement the business of the Group lied on the development of mobile and cloud based applications in relation to the financial services provided or to be provided by the Group, in terms of, namely, finance lease, money lending and securities business in accordance with the permission under the laws of Hong Kong and the PRC.

## 3. SEGMENT REPORTING

For management purposes, the Group is organised into business units based on its products and services and has the reportable operating segments as follows:

- (a) the trading business segment is engaged in the trading of goods, components and accessories;
- (b) financial services business segment is engaged in provision of finance lease services, provision of money lending services and provision of securities services;

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arose from the depreciation or amortisation of assets attributable to those segments.

Segment assets include non-current assets and current assets with the exception of certain assets unallocated to an individual reportable segment.

Segment liabilities include non-current liabilities and current liabilities with the exception of tax payable and other unallocated head office and corporate liabilities as these liabilities are managed on a group basis.
