NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 30 June 2018

1. Basis of preparation

The unaudited quarterly financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). In addition, these financial statements include applicable disclosures required by the GEM Listing Rules and by the Hong Kong Companies Ordinance (Cap. 622).

The unaudited consolidated results for the six months ended 30 June 2018 have not been audited by the external auditors of the Company but have been reviewed by the audit committee of the Company.

The accounting policies and basis of preparation used in the preparation of the unaudited condensed consolidated results are consistent with those used in the Company’s annual financial statements for the year ended 31 December 2017, except for the new amendments to HKFRSs issued by the HKICPA that the Group has applied, for the first time, for the preparation of the Group’s condensed consolidated financial statements:

HKFRS 9	Financial Instruments
HKFRS 15	Revenue from Contracts with Customers and the related Amendments
HK(IFRIC) - Int 22	Foreign Currency Transactions and Advance Consideration
Amendments to HKFRS 2	Classification and Measurement of Share-based Payment Transactions
Amendments to HKFRS 4	Applying HKFRS 9 Financial Instruments with HKFRS 4 Insurance Contracts
Amendments to HKAS 28	As part of the Annual Improvements to HKFRSs 2014-2016 Cycle
Amendments to HKAS 40	Transfers of Investment Property

The new and amendments to HKFRSs have been applied in accordance with the relevant transition provisions in the respective standards and amendments which results in changes in accounting policies, amounts reported and/or disclosures as described below.

1.1 Impacts and changes in accounting policies of application on HKFRS 15 Revenue from Contracts with Customers

The Group has applied HKFRS 15 for the first time in the current interim period. HKFRS 15 superseded HKAS 18 Revenue, HKAS 11 Construction Contracts and the related interpretations.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

1.2 Impacts and changes in accounting policies of application on HKFRS 9 Financial Instruments

In the current period, the Group has applied HKFRS 9 Financial Instruments and the related consequential amendments to other HKFRSs. HKFRS 9 introduces new requirements for 1) the classification and measurement of financial assets and financial liabilities, 2) expected credit losses (“ECL”) for financial assets and 3) general hedge accounting.

The Group has applied HKFRS 9 in accordance with the transition provisions set out in HKFRS 9. i.e. applied the classification and measurement requirements (including impairment) retrospectively to instruments that have not been derecognised as at 1 January 2018 (date of initial application) and has not applied the requirements to instruments that have already been derecognised as at 1 January 2018. The difference between carrying amounts as at 31 December 2017 and the carrying amounts as at 1 January 2018 are recognised in the opening retained profits and other components of equity, without restating comparative information.

Accordingly, certain comparative information may not be comparable as comparative information was prepared under HKAS 39 Financial Instruments: Recognition and Measurement.

1.2.1 Key changes in accounting policies resulting from application of HKFRS 9

Classification and measurement of financial assets

Trade receivables arising from contracts with customers are initially measured in accordance with HKFRS 15.

All recognised financial assets that are within the scope of HKFRS 9 are subsequently measured at amortised cost or fair value, including unquoted equity investments measured at cost less impairment under HKAS 39.

Equity instrument designated as at fair value through other comprehensive income (“FVTOCI”)

At the date of initial application, the Group may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in OCI and accumulated in reserve; and are not subject to impairment assessment.

1.2.2 Summary of effects arising from initial application of HKFRS 9

The Group elected to present in OCI for the fair value changes of its equity investment previously classified as available-for-sale investments, which related to unquoted equity investments previously measured at cost less impairment under HKAS 39. These investments are not held for trading and not expected to be sold in the foreseeable future. At the date of initial application of HKFRS 9, HK\$21,384,000 were reclassified from available-for-sale investments to equity instruments at FVTOCI, which related to unquoted equity investments previously measured at cost less impairment under HKAS 39.

The application of the other new amendments to HKFRSs in the current interim period has had no material effect on the amounts reported in these condensed consolidated financial statements and/or disclosures set out in these condensed consolidated financial statements.

The Group has not early adopted any other standard, amendment or interpretation that has been issued but is not yet effective.

BUSINESS REVIEW

In the first half of 2018, China's economic operation showed a good pattern of steady growth, expanded employment, moderate inflation and improved balance of payments. In the first half of the year, the Group continued to implement the management policy of "expanding omni-channel, being professional, developing new distribution and being a partner to help customer grow", promoted the upgrading planning and business mode innovation of internet distribution platform, and created an omni-channel network distribution platform. Besides, the Group conducted in-depth analysis and exploration of ISV (independent software supplier) channel resources and industrial informatization requirements to provide "transfer business to cloud" overall planning, solutions and professional services for the industry so as to promote the "Internet+" of traditional industry.

In the first half of 2018, the Group achieved a revenue of about HK\$10,266.64 million, an increase of 7.37% over the same period of the previous fiscal year. The gross profit rate was 3.94% in the first half of the year, up by about 0.13 percentage points over the same period of the previous fiscal year. In that first half of 2018, profit attributable to shareholders was about HK\$136.15 million, an increase of about 13.17% over the same period of the previous fiscal year, with a basic profit of HK\$5.30 cent per share, an increase of about HK\$0.62 cent per share over HK\$4.68 cent per share in the previous fiscal year.

The Group continues to strengthen informatization development and business process transformation and optimization to continuously improve operation management efficiency. It continues to adhere to strict credit management and accounts receivable management. Due to the expansion of e-commerce sales and the increase in sales of IT corporate products, both of which have longer accounts receivable collection period, the payment collection slowed down in the first half of the year, and the turnover of accounts receivable slowed down slightly compared with the same period of the previous fiscal year. In the first half of the year, the Group conducted strong cost control and the comprehensive cost rate was lower than that in the same period of last year, and the financial cost rate was the same as that in the same period of last year.

The analysis of the turnover and profit of the three reportable and operating segments of the Company for the six months ended 30 June 2018 is as follows (the fluctuation of exchange rate of Renminbi might affect the amount/percentage of the segment):

IT consumer products distribution business: Although the PC market demand shrinks in the first half of the year, this business segment maintained a stable sales scale and market share cooperating with the manufacturer to conduct strategy adjustment to further expand the e-commerce cooperation. The internet distribution platform strengthens business planning and system optimization and upgrading, and accelerates product introduction and pipeline expansion. Its turnover rose to HK\$5,301.49 million, an increase of 10.41% over the same period of last year, and its profit increased to HK\$111.56 million by 13.07%.

IT corporate products distribution business: In the first half of the year, the sales scale and income of the business segment maintained a significant growth, it further explored the customer resources of the industry, fully expanded professional services and actively captured new market opportunities. Its turnover rose to HK\$3,233.51 million, representing an increase of 37.20% over the same period of last year, and its profit increased by 26.57% to HK\$145.87 million.

Other businesses: The business segment's turnover fell to HK\$1,731.65 million, representing a decrease of 27.96% over the same period of last year and its profit fell to HK\$13.79 million by 15.27% due to falling sales of smart phones.

OUTLOOK

Looking forward to the future, the environment at home and abroad is still complex and fickle, but it remains unchanged that China's economic momentum tends to a good prospect. The Group will adhere to the management policy of "expanding omni-channel, being professional, developing new distribution and being a partner to help customer grow", use internet technology to integrate on-line and off-line resources, create an innovative internet distribution platform, and construct an omni-channel ecological system. Oriented to the demand of upstream and downstream customers, the enterprise-level business will enhance the two-way integration of channel resources and technological solution capability, promote the breadth and depth of channel cooperation category, and further strengthen the industry penetration and landing capability of cloud service so as to empower partners and create new value for shareholders.

LIQUIDITY AND FINANCIAL RESOURCES
