The results has changed from loss of approximately HK\$6.01 million in the same period of last year to profit of approximately 1.81 million for this period. The Company generated profit for the nine months period was mainly due to the increase in revenue and decrease in directors' emoluments and share-based payments recorded in the current period.

The administrative expenses were decreased by approximately HK\$7.00 million from approximately HK\$15.69 million of the same period of last year to approximately HK\$8.69 million for this period mainly due to the decrease in directors' emoluments and share-based payments recorded in the current period.

BUSINESS REVIEW

In this quarter, the recruitment business has undergone a strong growth due to an increase in the size of the database. Such increase allows the Company to provide an efficient matching between the job applicants and potential employers. The increase in amount of resumes was facilitated by the fast sharp growing of “散工王”, which is the Facebook page created and managed by Gbjobs for years. As of today, the existing registered members on 散工王 Facebook page is over 83,000 already. This figure is significant when compare with the two millions working population in Hong Kong. According to Facebook report, the monthly new registered members on 散工王 is over 3,000 and there are over 60,000 active members. Beside the fact that 散工王 enhances the image of GBjobs, 散工王 derives revenue from recruiters and business advertisers via advertisement placements. This is the art of Netel's business.

In respect of its China Online Salary Index, the Company is entering into other provinces such as Hunan, Shanghai and Hangzhou regions. This index helps to promote of the professionalism of Gbjobs.

Progress-wise, the Company has been conducting seminars in China to promote the cross border head hunting opportunities and enterprises prospecting every week. As a result of these seminars, Hunan Provincial Department of Human Resources and Social Security appointed Gbjobs as its liaison office of overseas market for their overseas recruitment. Moreover, the Company was invited to co-organize a head hunting exhibition in Hong Kong Science Park for the Ministry of Science of the People's Republic of China ("PRC") with a Shenzhen head hunt company. In addition, because of the reputation of Gbjobs, HKSTP and Cyberport are both organizing their tenants to meet Gbjobs for cross border IT professional recruitments. The Company will use these opportunities to discuss with relevant parties with a view to expand China Salary Index for national coverage in PRC and the Company is confident that its cross border head hunting business will be further strengthen.

The other key IT application, prospecting and related services, is also progressing nicely. Through strategic alliances which were setup previously, the Group is able to talk to different exporters in China who are from energy savings, construction material and IT sectors. The Management has also connected other Chinese entrepreneurs to overseas networks such as Government body in the Philippines to speed up the prospecting network.

In respect of Real estate purchase prospecting, the business is growing to the Kingdom of Cambodia (the "Cambodia"). In January 2019, the Company entered into a master agreement with a property developer in the Cambodia, pursuant to which the Company will organize show flat tours to and offer prospecting services of a real estate site in Phnom Penh of the Cambodia and receive commission for each successful real estate transaction thereunder.

BUSINESS OUTLOOK

The China-US trade war is still an ongoing issues which impact our economy. However, the Group still benefits from such uncertainty because Big Data is widely and precisely used in its operation.

Due to the commercial success in 散工王 in Hong Kong, the Company will apply the same algorithm and methodology to build 散工王 in other regions such as Singapore, Taiwan, Malaysia and Philippines. To speed up its penetration, the Company will publish an Online Salary Index in each of these regions. Along the line, the Company will also offer its spidering services and prospecting services with an attempt to achieve growth in user base. The user base is crucial as it will enable the Company to expand its market influence and to further implement its globalization strategy. In order to ensure smooth operations, the Company is in the process of identifying and discussing with local enterprises in these respective areas. Afterall, the goal of the Company is to maximize its use in Big Data and turn them into tangible assets of the Group.

Gbjobs in Hong Kong will continue to grow significantly because its brand is well established in the field of services industry in Hong Kong. As a result of the Company's excellent service, a lot of repeating customers refer new customers to GBjobs. Gbjobs is not just cultivated in Hong Kong, Hunan Provincial Department of Human Resources and Social Security and the Ministry of Science started to work with Gbjobs are already an endorsement. The Company will continue to put a lot of emphasis on cross border head hunting to strengthen the business of the Group and to benefit the community.

To take advantage of the support from Chinese market, China Online Salary Index will be a good product to the market in coming years. To make the best use, the Company plans to set up a sales team to distribute this product in the PRC. On the other hand, the Company will deploy Salary Index in other countries as discussed above.

Prospecting services for export enterprises in Hong Kong and PRC is also in the Company's top agenda. The Company is talking to many reputable companies and hopefully good news can be announced in coming quarters.
