CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Main Board. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Director(s)”) of CCID Consulting Company Limited (“we” or “our” or “us” or the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

This report will remain on the GEM website at www.hkgem.com on the “Latest Company Announcements” page for at least seven days from the date of posting and on the “Investor Relations” page of the Company’s website at www.ccidconsulting.com.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND PRINCIPAL ACCOUNTING POLICIES

The Company was incorporated in the People's Republic of China (the "PRC") as a joint stock limited company. The H shares of the Company were listed on GEM since 12 December 2002. The registered address of the Company in the PRC is Room 311, No. 2 Building, No. 28 Zhen Xing Road, Chang Ping District, Beijing, the PRC. Its head office and principal place of business are located at the 9th and 10th Floors of CCID Plaza, 66 Zizhuyuan Road, Haidian District, Beijing, the PRC. Its principal place of business in Hong Kong is at 40th Floor, Sunlight Tower, 248 Queen's Road East, Wanchai, Hong Kong.

The Group's unaudited results have been prepared in accordance with all of the requirements of all applicable Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards and its interpretation effective at the beginning of the reporting period, all the applicable disclosure requirements of the Hong Kong Companies Ordinance and all the applicable disclosure provisions of the GEM Listing Rules. The measurement base used in preparation of these unaudited consolidated financial statements is the historical cost convention with the exception of financial assets measured at fair value.

The principal accounting policies used for preparing these unaudited consolidated financial statements for the six months ended 30 June 2019 are consistent with those used by the Group in the annual consolidated financial statements for the year ended 31 December 2018.

Impact of newly issued accounting standards

The Hong Kong Institute of Certified Public Accountants has issued certain new and revised Hong Kong Financial Reporting Standards and Hong Kong Accounting Standards (the "New Standards and Amendments").

The Group has not early adopted the New Standards and Amendments in these unaudited consolidated financial statements. The Group is going to initially apply the New Standards and Amendments in the first accounting period beginning on or after their respective mandatory effective dates. The Group is currently assessing the impact of the New Standards and Amendments and is not yet in a position to state whether they would have a significant impact on the consolidated financial statements in the period of initial application.

2. TURNOVER

The Group is a provider of modern consultancy. The Group principally engages in the provision of management and strategy consultancy, market consultancy, data information management, design consulting and information engineering supervision services.

Turnover represents the sales value of contract revenue with respect to services provided to customers (net of value-added tax), which excludes sales surtaxes. All significant intra-group transactions have been eliminated on consolidation.

3. SEGMENT INFORMATION

The Group's operating businesses are structured and managed separately, according to the nature of their operations and the services they provide. Each of the Group's business segments represents a strategic business unit that provides services which are subject to risks and returns that are different from those of other business segments. Summary of the business segments are as follows:

- (a) The management and strategy consultancy services segment provides consultancy services involving corporate development strategy and planning, human resources strategy and management, management and control and operation of the group, merger and reorganization, municipal investment and finance, private finance, investment decision, information design system consultancy, IT management system consultancy, and corporate information management solution;
- (b) The market consultancy services segment provides services involving market customized investigation and research, analysis and forecast, marketing strategy and research, development strategy and planning, value assessment of the business and product portfolio, and industry development strategy;
- (c) The information engineering supervision services segment provides services involving supervision services to the government and enterprises for the provision of software, network, communications and information security and other IT inspection projects.

11. CONTRACT LIABILITIES

	Unaudited 30 June 2019 RMB'000	Audited 31 December 2018 RMB'000 (Restated)
Contract liabilities	41,578	50,830

Since 1 September 2012, the Group's revenue measured by the Chinese Accounting Standards for Business Enterprises is measured by the par value of the value added tax invoice as required by the State Tax Law. In accordance with the requirements of Hong Kong Financial Reporting Standards, revenue from the provision of services is measured by the extent to which the performance of the contract is fulfilled and the value added tax invoice are issued but the unrecognized revenue is transferred to the deferred income in the contract liabilities to adjust the difference between the two sets of General Accepted Accounting Principles.

Since the amortization period for the incremental cost of obtaining a contract is generally not more than one year, the Group is feasible to adopt the practical expedient of paragraph 94 in the HKFRS 15. The incremental cost of the contract in the area of occurrence is recognized cost as an expense.

MANAGEMENT DISCUSSION AND ANALYSIS

Turnover Analysis

For the six months ended 30 June 2019, the turnover by operations of the Group can be analyzed as follows:

	Unaudited For the six months ended 30 June 2019		Unaudited For the six months ended 30 June 2018	
	Turnover <i>RMB'000</i>	Approximate Percentage	Turnover <i>RMB'000</i>	Approximate Percentage

Information engineering supervision services	28,229	32%	21,336	35%
Total	88,025	100%	61,409	100%

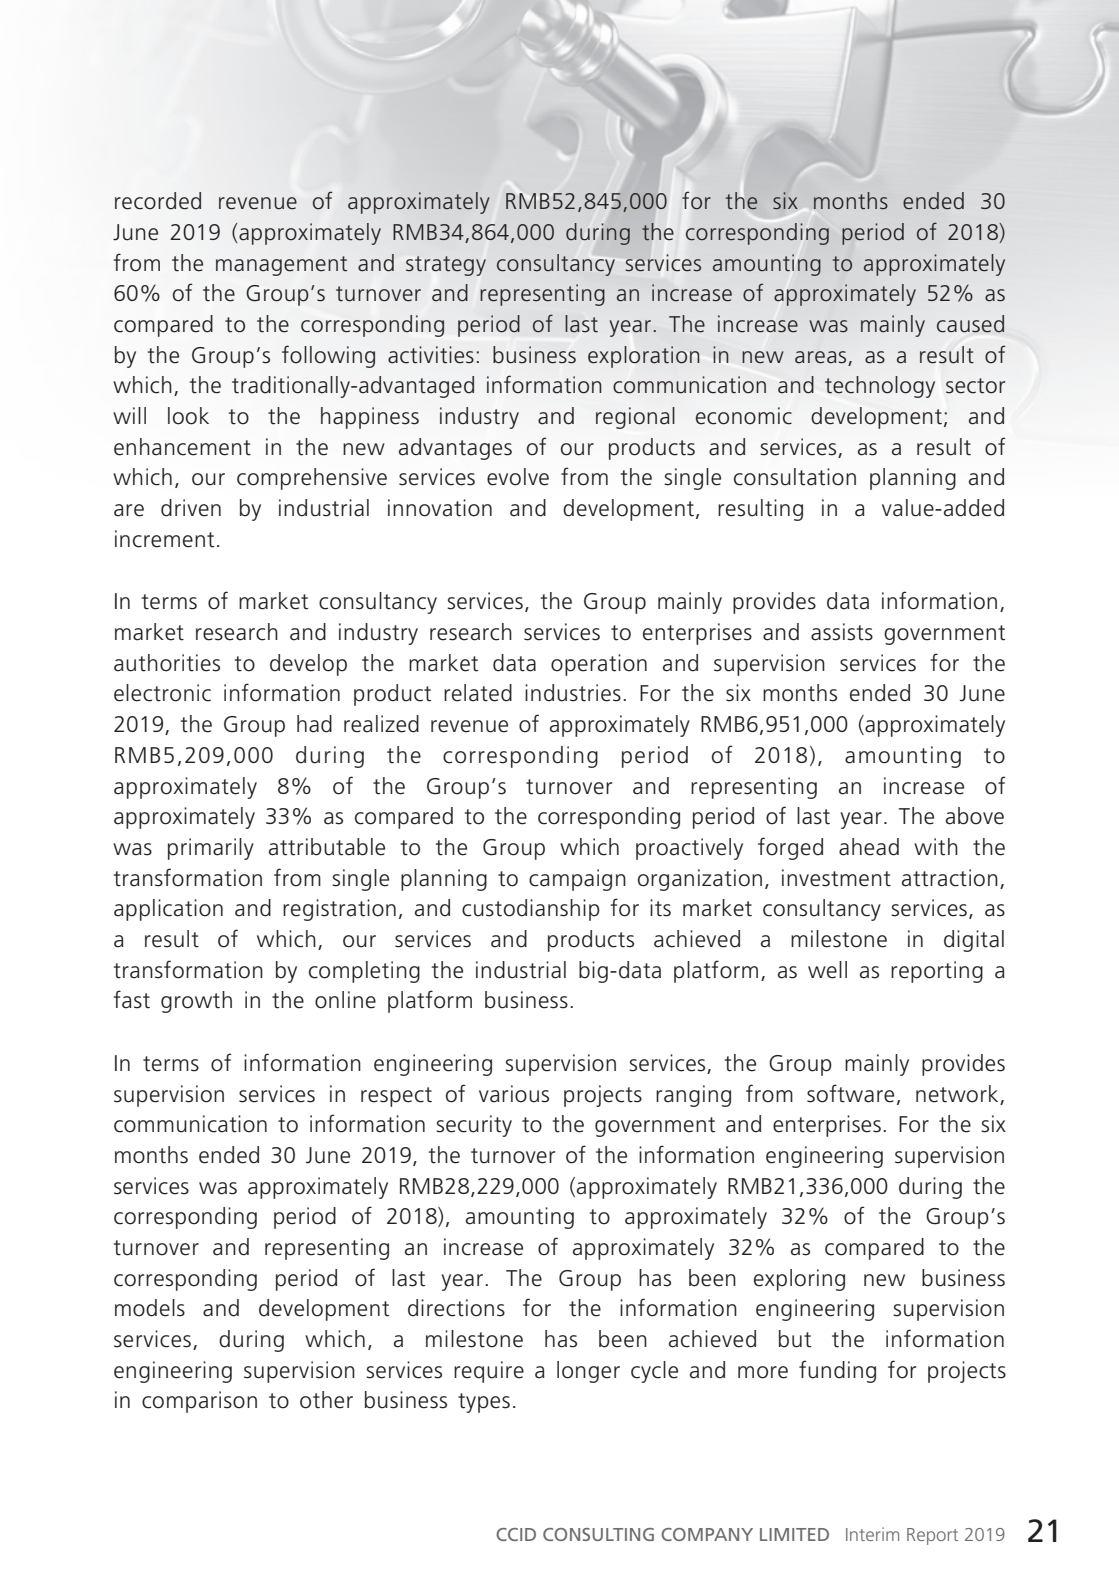

Business Review

For the six months ended 30 June 2019, the turnover and gross profit of the Group amounted to approximately RMB88,025,000 and RMB36,929,000 respectively (approximately RMB61,409,000 and RMB19,848,000 respectively during the corresponding period of 2018). The turnover increased by approximately 43% and the gross profit increased by approximately 86% as compared to the corresponding period of last year. The above changes were attributable to the following:

- (1) business exploration in new areas, as a result of which, the traditionally-advantaged information communication and technology sector will look to the happiness industry and regional economic development;
- (2) new advancement in the digital transformation, as a result of which, our services and products achieved a milestone in digital transformation by completing the industrial big-data platform, as well as reporting a fast growth in the online platform business. During the current period, the contractual amount exceeded RMB6,000,000;
- (3) enhancement in the new advantages of our products and services, as a result of which, our products and services witness a significant boost in their competitiveness. Our comprehensive services evolve from the single consultation planning and are driven by industrial innovation and development, resulting in a value-added increment. During the current period, the contracted projects that exceed RMB1 million accounted for approximately 53% of the total contracted projects; and
- (4) improvement in the brand and new image of our consultancy services, as a result of which, the brand and image have significantly improved, achieving positive reputation in the market. Our products and services have also achieved a 98% satisfaction rate in the market.

In terms of management and strategy consultancy services, the Group has committed to keep abreast of the development trend which focuses on national policies and IT technology, and persistently promoting businesses development related to IT consultancy, investment and merger and acquisition consultancy, corporate management and urban planning by encompassing the strategically emerging industry, while at the same time, continuously expanding customer resources, so as to enable the Group to acquire more sales channels and technical support in the course of developing management and strategy consultancy services. The Group

recorded revenue of approximately RMB52,845,000 for the six months ended 30 June 2019 (approximately RMB34,864,000 during the corresponding period of 2018) from the management and strategy consultancy services amounting to approximately 60% of the Group's turnover and representing an increase of approximately 52% as compared to the corresponding period of last year. The increase was mainly caused by the Group's following activities: business exploration in new areas, as a result of which, the traditionally-advantaged information communication and technology sector will look to the happiness industry and regional economic development; and enhancement in the new advantages of our products and services, as a result of which, our comprehensive services evolve from the single consultation planning and are driven by industrial innovation and development, resulting in a value-added increment.

In terms of market consultancy services, the Group mainly provides data information, market research and industry research services to enterprises and assists government authorities to develop the market data operation and supervision services for the electronic information product related industries. For the six months ended 30 June 2019, the Group had realized revenue of approximately RMB6,951,000 (approximately RMB5,209,000 during the corresponding period of 2018), amounting to approximately 8% of the Group's turnover and representing an increase of approximately 33% as compared to the corresponding period of last year. The above was primarily attributable to the Group which proactively forged ahead with the transformation from single planning to campaign organization, investment attraction, application and registration, and custodianship for its market consultancy services, as a result of which, our services and products achieved a milestone in digital transformation by completing the industrial big-data platform, as well as reporting a fast growth in the online platform business.

In terms of information engineering supervision services, the Group mainly provides supervision services in respect of various projects ranging from software, network, communication to information security to the government and enterprises. For the six months ended 30 June 2019, the turnover of the information engineering supervision services was approximately RMB28,229,000 (approximately RMB21,336,000 during the corresponding period of 2018), amounting to approximately 32% of the Group's turnover and representing an increase of approximately 32% as compared to the corresponding period of last year. The Group has been exploring new business models and development directions for the information engineering supervision services, during which, a milestone has been achieved but the information engineering supervision services require a longer cycle and more funding for projects in comparison to other business types.

Market Promotions and Publicity

For the six months ended 30 June 2019, the Group organized various marketing events in Nanjing and Beijing, including “Innovative Collaboration, World with Same ‘Chips’ — 2019 World Semiconductor Conference”, “Digital Transformation, Creating the Future — 2019 China IT Market Annual Conference” and “China EV100 Forum 2019 — Automotive Revolution and Transportation, Energy, and Urban Collaborative Development”.

Business outlook

In 2019, with the aim to enhance its competitive strength, the Group will continue to implement the “consulting +”, focusing on the cultivation of new capabilities, such as digital, brand, innovation, talents, etc., expediting digital transformation, promoting the service model, propelling platform development, and accelerating the comprehensive service of industrial innovation.

Expedite digital transformation

The early arrival of the digital wave will lead to changes in social development, reproduction of production relations, economic restructuring and changes in lifestyle. The Group will accelerate the digital transformation. On the one hand, we will create a digital management platform to build its own competitiveness. On the other hand, we will build a digital business platform to better meet customers’ needs. The digital management platform will focus on building a full-cycle, full-caliber accounting, visual management system for project, contract, finance, customer service and performance to further standardize service processes and standards and improve work efficiency and service quality; and the digital business platform will focus on building our own product systems such as “CCID brain for industries” and “MTX”.

Promote the service model

Firstly, we will promote the transformation of the industrial planning business from planning to activities, investments, reporting and hosting and complete the transformation from the “planning consulting” to “integrated services” by amassing elements required for our industrial development. Secondly, we will promote the evolution of the corporate strategy business from industry research to competition, strategy, listing, and mergers and acquisitions and complete the transformation from “management and consulting” to “strategic services” through the introduction of corporate innovation resources. Finally, we will promote the expansion of the investment and financing business from due diligence to fund-raising, investment decision-making, fund management, and index extension and complete the transformation from “project achievement system” to “revenue generation system”.

Propel platform development

To adapt to the transformation trend of enterprises in the digital economy era, by further innovating the management and assessment system, we will integrate resource for the open platform construction and promote the development of business platform to launch modular products such as investment project evaluation, industrial monitoring information push, data online service, and industry index evaluation and build the “MTX” knowledge sharing value platform, industry chain precision investment decision-making platform and enterprise cloud evaluation platform, with focus on the promotion of “Chips of Nanjing (芯上南京)”, “brain for CCID county industry”, “CCID automobile evaluation” and other platform products and service.

LIQUIDITY AND FINANCIAL RESOURCES
