THIRD QUARTERLY RESULTS ANNOUNCEMENT FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2019

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

It provides a full suite of services from pre-press to printing to finishing services, as well as producing custom-made and value added printing products.

For the nine months ended 30 September 2019, the Group recorded an increase in its total revenue by approximately 17.0% to approximately HK\$103.9 million from approximately HK\$88.8 million for the nine months ended 30 September 2018. This was mainly due to increase in sale in the book product segment in the United Kingdom (“**UK**”), Hong Kong (“**HK**”) and the United States of America (“**U.S.**”). Profit attributable to owners of the Company was approximately HK\$15.4 million, representing an increase of 40.0% from approximately HK\$11.0 million for the nine months ended 30 September 2018.

Financial Review

Revenue

Our revenue increased by approximately 17.0% from approximately HK\$88.8 million for the nine months ended 30 September 2018 to approximately HK\$103.9 million for the nine months ended 30 September 2019. This was mainly due to the increase in orders placed by UK, HK and U.S. customers with us.

Gross profit margin

Our overall gross profit margin increased from approximately 32.9% for the nine months ended 30 September 2018 to approximately 34.4% for the nine months ended 30 September 2019. The increase in gross profit margin was mainly due to less discounts were given to customers from U.S. and better streamlined production management.

Other income

Our other income increased by approximately 65.9% from approximately HK\$0.8 million for the nine months ended 30 September 2018 to approximately HK\$1.3 million in same period of this year. The increase was mainly due to the increase in government grant received for the period under review.

Other gains and losses

Our other gains decreased by approximately 57.6% from approximately HK\$1.5 million for the nine months ended 30 September 2018 to approximately HK\$0.6 million for the nine months ended 30 September 2019. This was mainly due to the decrease in exchange gain and decrease in gain on disposal of plant and equipment.

Selling and distribution costs

Our distribution costs increased by approximately 10.2% from approximately HK\$3.8 million for nine months ended 30 September 2018 to approximately HK\$4.2 million for the nine months ended 30 September 2019. This was mainly due to the increase in transportation and freight charges resulting from higher sales volume.

Administrative expenses

Our administrative expenses increased by approximately 2.7% from approximately HK\$14.0 million for the nine months ended 30 September 2018 to approximately HK\$14.4 million for the nine months ended 30 September 2019. No material fluctuation was noted.

Finance costs

Our finance costs decreased by approximately 15.1% from approximately HK\$0.4 million for the nine months ended 30 September 2018 to approximately HK\$0.3 million for the nine months ended 30 September 2019. This was mainly due to the Group having less outstanding balances of hire purchased plant and equipment during the period under review.

Income tax expense

Income tax expense increased by approximately 44.3% from approximately HK\$2.3 million for the nine months ended 30 September 2018 to approximately HK\$3.4 million for the nine months ended 30 September 2019. It was mainly due to the increase in assessable profits that was subject to taxation for the period under review.

Under the two-tiered profits tax rates regime, the first HK\$2 million of profits will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. Tax on overseas profits has been calculated on the estimated assessable profits at the rates of tax prevailing in the countries in which the Group operates.

Profit for the period

As a result of the above factors, net profit for the period stood at approximately HK\$15.4 million.
