NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2019

1. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES

These unaudited condensed consolidated results have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). HKFRSs comprise Hong Kong Financial Reporting Standards (“HKFRS”); Hong Kong Accounting Standards (“HKAS”); and Interpretations. These condensed consolidated results also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange and with the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622).

These unaudited condensed consolidated results have been prepared under the historical cost convention, except for investment properties that are measured at fair value. These unaudited condensed consolidated results of the Group are presented in thousands of units of Renminbi (“RMB’000”), unless otherwise stated. Renminbi (“RMB”) is the Company’s functional and the Group’s presentation currency.

The principal accounting policies used in the preparation of these unaudited condensed results are consistent with those used in the Group’s annual consolidated financial statements for the year ended 31 December 2018 except for the adoption of certain new and revised HKFRSs issued by the HKICPA that are relevant to its operation and effective for its accounting year beginning on 1 January 2019 and detailed in Note 3 below.

2. GOING CONCERN BASIS

On 15 May 2018, at the request of the Company, trading in the shares of the Company was suspended. As at the date of approval of these unaudited condensed consolidated financial statements, the trading of shares of the Company remains suspended. On 29 October 2018, the Company submitted a resumption proposal (the “Resumption Proposal”) to the Stock Exchange. On 1 March 2019, the Resumption Proposal was approved by the Stock Exchange. The Company has further submitted a new listing application in form of a reverse takeover in relation to the Resumption Proposal on 29 May 2019 and approval of the new listing has not yet been granted by the Stock Exchange.

In addition, the Group reported a loss attributable to the owners of the Company of approximately RMB14,785,000 for the nine months ended 30 September 2019 (and as of that date, the Group had net liabilities of RMB7,413,000). These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group’s ability to continue as a going concern. Therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business.

These unaudited condensed consolidated financial statements have been prepared on a going concern basis, the validity of which depends on whether the group is able to finance its working capital requirements by utilising the existing available financing facilities of RMB43,914,000 (equivalent to HK\$50,000,000) of which RMB18,805,000 (equivalent to HK\$21,500,000) was drawn as at 30 September 2019. After considering the internal financial resources, the available financing facilities, and the potential impact and likelihood of the new listing application being successful, the directors of the Company are of the opinion that the Group will be able to meet its financial obligations as they fall due and therefore it is appropriate to prepare the unaudited condensed consolidated financial statements on a going concern basis.

Should the Group be unable to continue as a going concern, adjustments would have to be made to the unaudited condensed consolidated financial statements to adjust the value of the Group’s assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets as current assets.

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

In the current period, the Group has adopted all the new and revised HKFRSs issued by the HKICPA that are relevant to its operations and effective for its accounting year beginning on 1 January 2019. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The Group has initially adopted HKFRS 16 Leases from 1 January 2019. A number of other new standards are effective from 1 January 2019 but they do not have a material effect on the Group's unaudited condensed consolidated financial statements.

HKFRS 16 Leases

HKFRS 16 supersedes HKAS 17 Leases, HK(IFRIC) Interpretation 4 Determining whether an Arrangement contains a Lease, HK(SIC) Interpretation 15 Operating Leases-Incentives and HK(SIC) Interpretation 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. HKFRS 16 introduced a single, on-balance sheet accounting model for lessees. As a result, the Group, as a lessee, has recognised right-of-use assets representing its rights to use the underlying assets and lease liabilities representing its obligation to make lease payments.

Lessor accounting under HKFRS 16 is substantially unchanged under HKAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in HKAS 17.

The Group has applied HKFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1 January 2019. Accordingly, the comparative information presented for 2018 has not been restated — i.e. it is presented, as previously reported, under HKAS 17 and related interpretations. The details of the changes in accounting policies are disclosed below.

(a) Definition of a lease

Previously, the Group determined at contract inception whether an arrangement was or contained a lease under HK(IFRIC) Interpretation 4 *Determining Whether an Arrangement contains a Lease*. The Group now assesses whether a contract is or contains a lease based on the new definition of a lease. Under HKFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

On transition to HKFRS 16, the Group elected to apply the practical expedient to grandfather the assessment of which transactions are leases. It applied HKFRS 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under HKAS 17 and HK(IFRIC) Interpretation 4 were not reassessed. Therefore, the definition of a lease under HKFRS 16 has been applied only to contracts entered into or changed on or after 1 January 2019.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which it is a lessee, the Group has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

(b) As a lessee

The Group leases properties and IT equipment. As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under HKFRS 16, the Group shall recognise right-of-use assets and lease liabilities for most leases.

However, the Group has elected not to recognise right-of-use assets and lease liabilities for some leases of low-value assets (e.g. IT equipment) and short-term leases. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

No right-of-use asset related to the property leases as at 1 January 2019 is recognised since all the leases of the Group as at that date end within 12 months of the date of initial application and the Group has elected not to apply the recognition requirements to these leases.

Significant accounting policies

The Group recognises a right-of-use assets and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payment made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

Transition

Previously, the Group classified property leases as operating leases under HKAS 17. These include office properties. The leases typically run for a period of 2 years.

When applying HKFRS 16 to leases previously classified as operating leases under HKAS 17, the Group used the practical expedient of the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of leases term at transition.

(c) As a lessor

The Group leases out its investment properties. The Group has classified these leases as operating leases.

The accounting policies applicable to the Group as a lessor are not different from those under HKAS 17.

The Group is not required to make any adjustments on transition to HKFRS 16 for leases in which it acts as a lessor. However, the Group has applied HKFRS 15 *Revenue from Contracts with Customers* to allocate consideration in the contract to each lease and non-lease component.

(d) Impacts of financial statements

Electing not to recognise right-of-use assets and lease liabilities for some leases of low-value assets (e.g. IT equipment) and short-term leases and applying the practical expedient of the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of leases term at transition, there is no impact on the unaudited condensed consolidated financial statements.

REVIEW OF FINANCIAL PERFORMANCE AND OPERATION

During the period under review, the Group did not record any revenue (2018: Nil). The loss and total comprehensive income for the period attributable to owners of the Company amounted to approximately RMB22,995,000 (2018: RMB2,247,000). This is due to the Company has ceased all its business activities and concentrated on the preparation of a resumption proposal (the “Resumption Proposal”) for trading in the shares of the Company on the Stock Exchange of Hong Kong (the “Exchange”).

REVIEW OF OPERATION

On 14 May 2018, from the Review Committee of the Exchange delivered its decision to uphold the Listing Division’s Decision to suspend trading in the Company’s shares under Rule 9.04 of the GEM Listing Rules and proceed with cancellation of the Company’s listing under Rule 9.14 of the GEM Listing Rules. The Review Committee considered that the Company had failed to maintain a sufficient level of operations or have tangible assets of sufficient value and/or intangible assets for which a sufficient potential value can be demonstrated under GEM Listing Rule 17.26 to warrant the continued listing of the Company’s shares. The Company has until the end October of 2018 to submit a resumption proposal to demonstrate that it has a sufficient level of operations or assets as required by GEM Listing Rule 17.26.

On 29 October 2018, the Company submitted the Resumption Proposal to the Exchange for seeking its approval for the resumption of trading in the shares of the Company (the “Shares”). The Resumption Proposal involves the acquisition of the entire issued share capital of a company primarily engaged in the sale of imported premium brand vehicles (the “Acquisition”). Upon completion of the Acquisition, it is expected that the Company will satisfy the requirements under Rule 17.26 of the GEM Listing Rules. The Acquisition will constitute a very substantial acquisition and a reverse takeover involving a new listing application of the Company under the GEM Listing Rules.

On 1 March 2019, the Exchange agreed to allow the Company to submit a new listing application relating to the Resumption Proposal on or before 31 May 2019.

An application has been made by the Company to the Executive pursuant to Rule 8.2 of the Takeovers Code for the Executive’s consent to extend the latest date for despatch of the circular in relation to the new listing application (the “Circular”) to 31 October 2019 to allow more time for the Company in relation to the new listing application. The Executive granted such extension on 2 May 2019.

On 29 May 2019, the new listing application in connection with the Resumption Proposal and the Circular were submitted to the Exchange for their review and comment. On the same day, the Circular was also submitted to the Executive for their review and comment.

The Company expects that the Circular will be despatched on or before 31 October 2019. As additional time is required to (i) finalise the information to be included in the Circular including the updated financial information of the Target Group for the stub period for the nine months ended 30 September 2019; and (ii) address comments from the Stock Exchange and the Executive in connection with the new listing application and the Circular respectively, the Company has applied to the Executive for and the Executive is minded to grant an extension of time for the dispatch of the Circular from 31 October 2019 to a date falling on or before 31 December 2019. Further announcements and monthly updates will be made by the Company in compliance with the GEM Listing Rules and the Takeovers Code.

With respect to the business operations of the Group, the Group is currently focusing its resources on the resumption of trading of its Shares. Upon Resumption, the enlarged Group will be engaged in the business of the target companies and its subsidiaries (the “Target Group”). The Target Group principally engages in (i) the operation of the 4S dealership Store of the Automobile Brand in Nanjing, Jiangsu province, the PRC (ii) the trading of new parallel-imported automobiles in the PRC, (iii) the trading of preowned automobiles in the PRC and (iv) the distribution of IMSA-tuned automobiles in the PRC.

Looking forward, the Company holds a positive outlook on the business of the Target Group after the completion of the re-organisation.
