VOLUNTARY ANNOUNCEMENT ENTERING INTO OF MEMORANDUM OF UNDERSTANDING; AND CONTINUED SUSPENSION OF TRADING IN THE SHARES

This announcement is made by Netel Technology (Holdings) Limited (the “**Company**”) on a voluntary basis.

The board of directors (the “**Board**”) of the Company is pleased to inform the holders (the “**Shareholders**”) of the shares of the Company about the following development of the Company.

ENTERING INTO OF MEMORANDUM OF UNDERSTANDING

On 23 April 2020, Netel Digital Marketing Limited, a subsidiary of the Company, entered into a memorandum of understanding (the “**MOU**”) with the City Operation Division of the China Information Data Association (the “**CIDA**”), an institute managed by the China National Development and Reform Commission.

Pursuant to the MOU, the CIDA would cooperate with the Company helping companies and enterprises in the People’s Republic of China (the “**PRC**”) capture export opportunities by using the Company’s services such like China salary index, export yellow pages and big data system.

Since the entering into of the MOU, several video conferences have been held between the Company, the CIDA and enterprises in various cities in the PRC, and the Company has already successfully secured several long-term contracts with enterprises in relation to the provision of big data marketing services by the Company to these enterprises.

The Board is pleased to see the Company's further use of its Human Resources License granted by the China Ministry of Human Resources and Social Security to collect, store and publish personal data for its business development. The Company has also previously published its China Salary Index in the PRC based on such license, which facilitates human resource allocation, job matching and salary analysis in the PRC.

The Board is also confident about the prospect of this cooperation with the CIDA as there has been increasing demand among PRC enterprises for big data marketing and promotion services amid a difficult business environment caused by the US-Sino trade disputes and global health issues.
