CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Stepping into 2020, the outbreak of the novel coronavirus (“COVID-19”) and its escalation on a global scale has triggered unprecedented disruptions in business operations and to the economy. During the Reporting Period, our bentonite mining business was under the restriction by the Chinese government. Unprecedented measures including the lockdown of Hubei province and the extension of the Spring Festival holiday had affected both production and consumption, especially in the first nine months of 2020. Notwithstanding that, the Chinese government has responded with the implementation of strong fiscal and monetary stabilizing policies, which will support infrastructure construction and the iron and steel and energy sectors, aiming to limit the adverse impacts of COVID-19. As a result of the difficult situation during the Reporting Period, the Group saw a decrease in sales of both drilling mud and pelletising clay for the first nine months of 2020 as compared to the corresponding period in 2019. It was also set out in the business review for the 2019 Annual Report of the Company that investment prospects of the energy industry continued to be uncertain. Although investment in infrastructure construction has increased, prices for the oil and gas market continued to fluctuate. The investment sentiment of oil and gas transportation pipelines construction projects, which was directly linked to the Group’s drilling mud business, was still weak.

In relation to the provision of financial guarantee services of the Company, the Group had a guarantee fee income of approximately CNY0.8 million (for the nine months ended 30 September 2019: CNY0.8 million). The performance of this business segment remained stable during the Reporting Period.

FINANCIAL REVIEW

Revenue

The revenue decreased by approximately 13.7% from approximately CNY45.1 million for the nine months ended 30 September 2019 to approximately CNY38.9 million for the Reporting Period. The decrease in revenue was mainly contributed by the decrease in sales volume of both drilling mud and pelletising clay. Due to the difficult macroeconomic environment, the demand of both drilling mud and pelletising clay was weak during the Reporting Period. The total sales volume recorded a decrease by approximately 12.6% as compared with the corresponding period in 2019.

Gross Profit and Gross Margin

The overall gross profit decreased by approximately 11.4% from approximately CNY23.2 million for the nine months ended 30 September 2019 to approximately CNY20.5 million for the Reporting Period, while the overall gross profit margin increased from approximately 51.4% for the nine months ended 30 September 2019 to approximately 52.7% for the Reporting Period. The decrease in the overall gross profit was mainly due to the decrease in sales volume of both drilling mud and pelletising clay. The increase in overall gross profit margin was contributed by the combined effect of a slight increase in selling price of drilling mud and a decrease in unit processing cost of pelletising clay.

Other Income

Other income decreased by approximately CNY0.3 million from approximately CNY0.9 million for the nine months ended 30 September 2019 to approximately CNY0.6 million for the Reporting Period. The decrease was mainly attributed to the decrease in other operating income.

Selling and Distribution Expenses

The selling and distribution expenses increased by approximately 23.2% from approximately CNY5.7 million for the nine months ended 30 September 2019 to approximately CNY7.0 million for the Reporting Period. This was primarily due to the increase in transportation cost arising from the tighter traffic control in Anhui Province due to the COVID-19.

Administrative and Other Expenses

The administrative and other expenses increased by approximately 2.8% from approximately CNY12.4 million for the nine months ended 30 September 2019 to approximately CNY12.8 million for the Reporting Period. The increase was mainly due to increase in professional fees during the Reporting Period.

Finance Costs

The finance costs increased by approximately CNY22,000 from approximately CNY312,000 for the nine months ended 30 September 2019 to approximately CNY334,000 for the Reporting Period. No material fluctuation was noted during the Reporting Period.

Income Tax Expense

The Group had an income tax expense of approximately CNY0.8 million for the Reporting Period as compared to approximately CNY1.6 million for the nine months ended 30 September 2019. The decrease was mainly due to a drop in the profit before tax from Wuhu Feishang Non-metallic Material Company Limited, the indirect wholly-owned subsidiary of the Company.

Profit and Total Comprehensive Income for the Period

Due to the combined effect of the aforesaid factors, the profit and total comprehensive income attributable to the owners of the Company for the Reporting Period was approximately CNY0.2 million, a decrease of approximately CNY3.8 million from the profit and total comprehensive income of approximately CNY4.0 million for the nine months ended 30 September 2019.

Currency Exposure and Management

Since the majority of the Group's business activities are transacted in CNY, the Directors consider that the Group's risk in foreign exchange is insignificant.

Contingent Liabilities

As at 30 September 2020, the Group did not have any significant contingent liabilities.

OUTLOOK

Due to the outbreak of the COVID-19 in Year 2020 in China and around the world, the Chinese economy will inevitably face more challenges and further slow down. After the bentonite mining release and travel restriction measures in containing the COVID-19 outbreak are relaxed and followed by the strong fiscal and monetary stabilizing policies by the Chinese government, the Group will continue to monitor the development of the COVID-19 epidemic and its impact on the operations and results of the Group, if any. Furthermore, it would be difficult to gauge the longer-term impact of such events as the situation is dynamically revolving. The Group has been proactive in closely monitoring the market conditions and taking appropriate measures to respond to the challenges. The Group will also continue to strengthen its cost control and resources management as well as to actively participate in project tenders, in order to maintain its competitiveness in the market.

Within the bentonite industry, uncertainties due to COVID-19 will cause market competition to further intensify, and prices face downward pressure. Meanwhile, it is expected that there will be no fundamental change in the general situation of oversupply in the iron and steel industry and the problem of overcapacity has yet to be addressed. In addition, affected by the new series of real estate market regulation and control policies, it is expected that the iron and steel industry will be confronted with major challenges, imposing great pressure on the demand for pelletising clay. Although the Group strives to maintain sales volume of pelletising clay by means of, among others, improved product quality and “selling more with lower margin” strategy, the Group may not be able to maintain the current level of gross profit margin in the coming months. The Group intends to continue expanding its customer base and market share by boosting product awareness of pelletising clay, refining its production technology and developing new products with a view to enhance the Group’s overall competitiveness to cope with the unfavorable business environment.

By dint of the weak investment sentiment in infrastructure construction in the energy industry coupled with impacts from COVID-19 and the new series of real estate market control policies, the sales of the Group’s drilling mud will be adversely affected seriously. The Group aims to maintain the sales volume of drilling mud by improving product quality and adhering to the “selling more with lower margin” strategy, and yet the Group may not be able to maintain the current level of gross profit margin in the forthcoming months due to the increasing pressure on the selling price.

The Group saw a decrease in sales of both drilling mud and pelletising clay for the Reporting Period as compared to the corresponding period in 2019 and the investment prospects of the energy industry continued to be uncertain. The Directors consider that the provision of financial guarantee services will better utilize the Group's surplus cash with reasonable return and its commencement marked the Group's first step into the financial services businesses. The Group has been exploring suitable opportunities to commence and develop business of provision of financial services in Hong Kong. On 23 October 2020, the Group entered into a sale and purchase agreement (the "Agreement") to acquire (the "Acquisition") the entire issued share capital of the P.B. Group Limited (the "Target Company"), which holds a licensed insurance broker company and licensed money lender company. The Target Company is also the sole member of P.B. Charity Fund Limited. As the Target Group possesses the necessary licenses in carrying various regulated activities in Hong Kong, including those for money lending and insurance brokerage business, the Board is of the view that the Acquisition provides the Group with an expedient way to diversify its businesses into the financial services sector by directly investing and operating the Target Group. The Board expects that the Acquisition will provide the Group with a good investment opportunity to broaden the revenue base and maximize the return to the Company and the Shareholders in the long run. The acquisition was completed on 5 November 2020.

We are optimistic that the financial services businesses will become a key driver of the Group. The Group will continually strive on the development of the money lending and insurance brokerage business. The Group believes this business has the potential to grow and contribute more to the Group in the coming future. Looking forward, the Group will continue to identify other investment opportunities and explore further opportunities for investments in the financial services businesses to broaden its business portfolio and income stream and maximise returns for its Shareholders. Meanwhile, we will cautiously monitor market change and impose robust control measures to improve cost efficiency and risk management which will provide a solid foundation for sustainable growth in the future.

In order to retain resources for the Group's business development, the Board does not recommend the payment of a dividend for the Reporting Period (nine months ended 30 September 2019: Nil).

The Company has:

- i) instituted legal proceedings against Lituo Enterprise (HK) Limited on 18 October 2018 to recover outstanding deposits amounted to HK\$10,930,000 under High Court Action No. 2449 of 2018. Lituo Enterprise (HK) Limited filed its defence on 28 November 2018. Upon counsel’s advice, the Company considered to have taken out summary proceedings against Lituo Enterprise (HK) Limited pursuant to Order 14 of the Rules of High Court, Cap 4A of the Laws of Hong Kong. However, after thoroughly considered the evidence of the case, counsel advised that it would be quite difficult to obtain summary Judgment against Lituo Enterprise (HK) Limited by way of summary proceedings and advised that the case should proceed normally to trial. The Company adopted such advice given by counsel and thereby decided not to proceed to summary proceedings. Accordingly, the Company’s legal representatives have recently followed the normal civil procedures in proceedings and applied for usual order of directions from the court, whereby the court will grant an order as to fixing timeline for the parties to make discovery of documents and exchange of statements of witnesses. The case is in progress;

- ii) instituted legal proceedings against, Lituo Enterprise (HK) Limited and another company ("the 2nd Defendant") which was the payee designated by Lituo Enterprise (HK) Limited under the underlying contract, to recover outstanding deposits amounted to HK\$35,000,000 under High Court Action No. 2450 of 2018. Lituo Enterprise (HK) Limited filed its defence on 28 November 2018. Whereas the 2nd Defendant, which is incorporated in British Virgin Islands (BVI), has never responded to the case and on 15 May 2020, the court granted final judgment against the 2nd Defendant upon the Company's application. Thereafter, the Company has appointed BVI lawyers to execute and enforce the judgement by way of presenting a winding-up petition against the 2nd Defendant. The case is in progress;
- iii) issued demand letter to Trade Rosy Global Limited requesting the refund of deposits amounted HK\$14,500,000 on 1 November 2018. Trade Rosy Global Limited does not respond and has failed and/or refused to pay the deposit or any part thereof. Thereafter, there had been discussion by the Company with its legal adviser to explore the alternate legal action to institute winding up proceedings against Trade Rosy Global Limited in British Virgin Islands. However, based on the limited information about Trade Rosy Global Limited and its lack of response, the Board considered that the lengthy period of time and substantial legal costs and expenses to be incurred if it were to initiate legal proceedings against Trade Rosy Global Limited to recover the deposit. Accordingly, the Board considered that it would be in the best interest of the Company and its shareholders as a whole to refrain from taking any further action against Trade Rosy Global Limited for the time being until there is a better chance to seek meaningful remedial actions to recover the deposit from Trade Rosy Global Limited; and
- iv) instituted legal proceedings against Kai Muk Company to recover the remaining balance of a deposit amounted HK\$8,530,000 under High Court Action No. 1767 of 2018. The parties attended a mediation session on 28 October 2019 but were unable to reach an agreement on any settlement arrangement. The trial for the action has been scheduled for 7 December 2020 with four days reserved.

As disclosed in the 2018 Annual Report dated 7 March 2019, full provision for impairment for the possible unrecoverable prepayments to the Lituo Enterprise (HK) Limited, Trade Rosy Global Limited and Kai Muk Company had been made by the Company during the year ended 31 December 2018.

The Company will make further announcement(s) and/or update the above in its financial reports to inform its Shareholders and potential investors of any material development of the above court proceedings as and when appropriate.

As save as above, there is no material event undertaken by the Company or the Group subsequent to 30 September 2020 and up to the date of this report.
