MANAGEMENT DISCUSSION AND ANALYSIS

Business and Operations Review

During the nine months ended 30 September 2020 (the “period under review”), the Group has been principally engaged in the business of (i) the provision of application development services and application systems in the People’s Republic of China (the “PRC”) (the “Card and Related Products Business”); and (ii) the trading of liquor products in the PRC (the “Wine Business”).

Since early 2020, the epidemic associated with a novel coronavirus (the “COVID-19 Outbreak”) has spread across China and other countries, which adversely affected the economy, infrastructure and livelihood of the people in the PRC and across the globe. As a result, the Group’s overall operation and business for the period under review was adversely affected.

THE CARD AND RELATED PRODUCTS BUSINESS

During the period under review, the Group’s Card and Related Products Business continued to face the adverse market environment and intensified competition. As a result and coupled with the impact due to the COVID-19 Outbreak, the revenue attributable to the Card and Related Products Business decreased significantly to approximately RMB87,000 for the nine months ended 30 September 2020 from approximately RMB5,307,000 for the corresponding period of the previous year.

THE WINE BUSINESS

The Group commenced its Wine Business in the last quarter of 2016 with a view to diversify its income source and enhance its financial performance. For furtherance of its Wine Business, the Group (i) entered into strategic partnership in 2016 with Googut Wine & Spirits Co., Ltd. (歌德盈香股份有限公司) (“Googut”, together with its subsidiaries the “Googut Group”), a substantial shareholder of the Company; (ii) formed two joint venture companies respectively in the PRC and Hong Kong in 2017; and (iii) entered into a memorandum of understanding and the strategic cooperation agreement with Googut in 2017. The Googut Group is a professional and integrated operator of alcoholic beverage which has well established distribution channel and broad customer base in the PRC.

The Group reformulated its business strategies with Googut to leverage on Googut’s distribution channel and customer base in the PRC in 2019 with a view to counter the adverse influence on the sales of the Moutai liquor from the anti-graft campaign in the PRC.

However, the COVID-19 Outbreak led to the slowdown in the domestic and global wine industry. As a result of the Group's revenue attributable to the Wine Business decreased to approximately RMB10,067,000 for the nine months ended 30 September 2020 from approximately RMB35,621,000 for the corresponding period of the previous year, and the negotiation and implementation progress in relation to the Company's strategies in expanding its Wine Business has been adversely affected. In light of the above, the Board will continue to adjust its strategy to explore further business opportunities of the Group's Wine Business and review the performance of the distribution channels and make necessary adjustments as and when necessary.

Financial Review

REVENUE, COST OF SALES, GROSS PROFIT

Due to the unfavorable business environment as caused by the COVID-19 Outbreak, the Group recorded a revenue of approximately RMB10,154,000 for the nine months ended 30 September 2020, representing a decrease of approximately 75.2% as compared with the revenue of approximately RMB40,928,000 for the corresponding period of the previous year.

The Group's cost of sales for the nine months ended 30 September 2020 decreased by approximately 73.3% to approximately RMB9,500,000 (2019: approximately RMB35,553,000). The gross profit of the Group for the nine months ended 30 September 2020 amounted to approximately RMB654,000, with a decrease of approximately 87.8% as compared with the gross profit of approximately RMB5,375,000 in corresponding period of the previous year mainly due to significant decrease in revenue. The gross profit margin for the nine months ended 30 September 2020 decreased to 6.4% from 13.1% for the corresponding period of previous year mainly due to the decrease in percentage of the revenue generated from the Card and Related Products Business (from approximately 13.0% of the total revenue for the corresponding period of 2019 to approximately 0.9% of that for the period under review) which yields a relatively higher gross profit margin.

ADMINISTRATIVE AND OTHER OPERATING COSTS

For the nine months ended 30 September 2020, the Group's distribution and selling expenses decreased to approximately RMB49,000 from approximately RMB143,000 for the corresponding period of the previous year. The decrease was mainly due to the decrease in distribution and sales of products during the period under review.

For the nine months ended 30 September 2020, the Group's general and administrative expenses decreased by approximately 72.5% to approximately RMB4,139,000 (2019: approximately RMB15,032,000). The decrease was mainly due to the decrease in staff costs and other expenses as the result of the Group's cost control measures during the period under review.

For the nine months ended 30 September 2020, the finance cost decreased slightly by 9.2% to approximately RMB639,000 as compared to approximately RMB704,000 for the corresponding period in the previous year. These financial costs represented the interests on borrowing from independent third parties and interest on lease liabilities for the nine months ended 30 September 2020.

During the period under review, the income tax expense amounted to approximately RMB47,000 (2019: RMB255,000).

DEREGISTRATION OF SUBSIDIARIES

Details of the deregistration of subsidiaries during the period under review are set out in Note 8 to the consolidated financial statements.

Event(s) After the Reporting Period

In December 2019, the Company received a letter dated 20 December 2019 from the Stock Exchange, which serves a notice that the Stock Exchange considered that the Company has failed to maintain a sufficient level of operations and assets of sufficient value to support its operations under Rule 17.26 of the GEM Listing Rules to warrant the continued listing of the Shares of the Company, and has therefore decided to suspend trading in the Shares under Rule 9.04(3) of the GEM Listing Rules (the "Decision").

On 3 January 2020, the Company submitted a written request to apply for the Decision to be referred to the GEM Listing Committee for review. Subsequent to the review hearing held in October 2020, the Company received a letter from the GEM Listing Committee informing the Company of their decision (the "Review Decision") to uphold the Decision. The Company decided not to exercise its rights to have the Review Decision referred to the GEM Listing Review Committee for review under Chapter 4 of the GEM Listing Rules and the trading in the Shares on the Stock Exchange was suspended with effect from 12 November 2020 accordingly.

Please refer to the announcements of the Company dated 23 December 2019, 3 January 2020, 2 November 2020, 3 November 2020 and 11 November 2020 for details.

The Company will seek the professional advice in regards to the resumption of trading of its Shares and would update the progress through further announcements as and when appropriate and in accordance with the GEM Listing Rules.

Prospect

The Group's business, financial position and results of operations during the period under review was affected by the COVID-19 Outbreak.

With the uncertainties and challenges amid the COVID-19 Outbreak, the Group's operation in the card and application market is expected to face further challenges and fiercer competition, whilst the downturn in domestic and global wine industry would continue to impact the Group's Wine Business. As such, the Group will continue to review the operation and evaluate the performance of the Card and Related Products Business and the Wine Business regularly to ensure timely adjustments in its business strategies.

In order to ease the adverse impact brought about by the COVID-19 Outbreak, the Company has implemented stringent cost control and inventory management measures which led to a significant decrease in the Group's general and administrative cost. The Group will continue to implement and review its cost control and inventory management measures from time to time to ensure its effectiveness in avoiding unnecessary cost expenses.

In addition, the Group is currently liaising with its customers and debtors and expects to gradually recover the outstanding trade receivables to strengthen the Group's cash position, and will negotiate with certain bankers to obtain bank facilities as and when necessary. The Group will continue to adjust its strategy to explore further business opportunities, review the performance of its distribution channels and make necessary adjustments as and when necessary.

AUDIT COMMITTEE

The audit committee of the Company (the "Audit Committee") has reviewed with the management the accounting principles and practices adopted by the Company and discussed internal controls and financial reporting matters. The Audit Committee has also reviewed the unaudited third quarterly results of the Company for the nine months ended 30 September 2020, which is of the opinion that such statements comply with the applicable accounting standards, the GEM Listing Rules and legal requirements and that adequate disclosure have been made.

CORPORATE GOVERNANCE

The Board has adopted the CG Code. Continuous efforts are made to review and enhance the Group's internal controls and procedures in light of changes in regulations and developments in best practices. To us, maintaining high standards of corporate governance practices is not just complying with the provisions but also the intent of the regulations to enhance corporate performance and accountability. The Company has complied with the CG Code throughout the nine months ended 30 September 2020, except for the following deviations:

- (a) In respect of the code provision A.2.1 of the CG Code, the roles of chairman and chief executive should be separate and should not be performed by the same individual. After the appointment of Mr. Zhang Tao as the chief executive officer of the Company (the "Chief Executive Officer") on 8 February 2018, he has served as both the chairman of the Board (the "Chairman") and the Chief Executive Officer. By taking into account the current circumstances of the Group as a whole, the Board considers Mr. Zhang Tao, being a key leadership of the Group, as a suitable candidate to be the Chief Executive Officer, ensuring consistent leadership within the Group and enables more effective and efficient overall strategic planning for the Group. The Board will consider splitting the roles of Chairman and Chief Executive Officer at a time when it is appropriate. Therefore, the Board considers that the deviation from the code provision A.2.1 of the CG Code is appropriate in such circumstance. In addition, under the supervision of the Board which is comprised of three executive Directors, one non-executive Director and three independent non-executive Directors as at the date of this report, the Board is appropriately structured with balance of power to provide sufficient checks to protect the interests of the Company and its shareholders.
- (b) In respect of the code provision A.6.7 of the CG Code, independent non-executive directors and other non-executive directors should attend general meetings. Due to the restrictions in force in China by relevant PRC authorities in the attempt to contain the COVID-19 Outbreak, (a) Mr. Zhou Liang Hao, Mr. Yu Xiuyang, Mr. Lau Shu Yan and Mr. Wei Wei did not attend the extraordinary general meeting of the Company held on 3 February 2020; and (b) Mr. Chan Chun Kit did not attend the annual general meeting of the Company held on 28 August 2020.

- (c) With respect to code provision C.1.3 of the CG Code, unless it is inappropriate to assume that the company will continue in business, the directors should prepare the accounts on a going concern basis. The Directors are aware of material uncertainties that may cast doubt on the Company's going concern as stated in the independent auditors' report for the year ended 31 December 2019 (for details please refer to the independent auditor's report set out on pages 35 to 103 of the 2019 Annual Report). In preparing the consolidated financial statements, the Directors have given careful consideration to the future liquidity of the Group and adopted the going concern in view of the effectiveness of its cost control measures, the expected recovery of trade receivables from customers or debtors, and the availability of external bank facilities, and the Group has continued to (a) implement cost control and inventory management measures to avoid incurring unnecessary cost expenses; and (b) implement debt recovery measures to strengthen the Group's cash position and liaise with external bankers to obtain bank facilities as and when necessary, as to enable it to meet its liabilities when they fall due and carry on its business without a significant impact or restrictions to its operations.

Should the Group be unable to continue as a going concern, adjustments would have to be made to the consolidated financial statements to adjust the carrying values of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and liabilities as current assets and liabilities respectively. The consolidated financial statements do not include any of these adjustments that would result from the failure to continue to operate as a going concern.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES

During the nine months ended 30 September 2020, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed shares.
