(incorporated in the Cayman Islands with limited liability)

(Stock Code: 8013)

ANNUAL RESULTS ANNOUNCEMENT FOR THE YEAR ENDED 31 AUGUST 2020

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the directors (the “Directors” and each a “Director”) of ECI Technology Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive and there are no other matters the omission of which would make any statement herein or this announcement misleading.

The board of Directors (the “Board”) is pleased to announce the audited consolidated results of the Company for the year ended 31 August 2020. This announcement, containing the full text of the 2020 Annual Report of the Company, complies with the relevant requirements of the GEM Listing Rules in relation to information to accompany preliminary announcement of annual results. Printed version of the Company’s 2020 Annual Report will be delivered to the shareholders of the Company and available for viewing on the GEM website at www.hkgem.com and the Company’s website at www.ecinfohk.com in due course.

Financial Highlights

Revenue of ECI Technology Holdings Limited (the “Company”) and its subsidiaries (collectively the “Group”) for the year ended 31 August 2020 amounted to approximately HK\$114,442,000 (2019: approximately HK\$95,522,000) while gross profit of the Group for the year ended 31 August 2020 amounted to approximately HK\$27,323,000 (2019: approximately HK\$27,443,000).

Profit of the Group for the year ended 31 August 2020 amounted to approximately HK\$3,655,000 (2019: approximately HK\$877,000). The increase in profit of the Group was mainly due to government subsidies granted to the Group under the Employment Support Scheme.

The board (the “Board”) of directors of the Company (the “Directors”) does not recommend the payment of a final dividend for the year ended 31 August 2020 (2019: Nil).

Chairman's Statement

Dear Valued Shareholders,

On behalf of the board of Directors (the "Board"), I am pleased to present the annual report of ECI Technology Holdings Limited (the "Company") and its subsidiaries (collectively, the "Group") for the year ended 31 August 2020.

For the financial year under review, the Group reported a revenue of approximately HK\$114,442,000, representing an increase of approximately 19.81% as compared with approximately HK\$95,522,000 for the previous year. The Group's consolidated profit for the year amounted to approximately HK\$3,655,000 as compared with a consolidated profit of approximately HK\$877,000 for the previous year.

The Group has continued to expand its maintenance services in 2020. We have successfully bid for Automatic Vehicle Clearance Support System of Hong Kong Boundary Crossing Facilities at the Hong-Kong-Zhuhai-Macao-Bridge, which commenced operations in April 2020. Other than the successful tendering record, we also benefit from a recent government policy in job creation of cleaners and technicians in various locations such as the West Kowloon Station and the Hong-Kong-Zhuhai-Macao Bridge.

Our Group's objective is to maintain an up-to-date technical know-how. The Group's associate company, Starfire Technology Group Limited ("Starfire"), specialises in Internet of Things ("IOT"). Our Group closely work with Starfire on several projects such as Kowloon Hospital to offer latest technology to our customers.

The overall business environment remains challenging in 2020 due to the outbreak of Novel Coronavirus ("COVID-19"). There is no major impact in our security installation and maintenance services. In short run, we benefited from the government subsidies. In long run, the outbreak of COVID-19 will continue to have a negative impact on our security guarding segments due to the fact that a lot of unemployed workers are joining the security guarding industry which increases industry competition and may result in a lower profit margin of our security guarding operation.

I remain confident that the Group's solid foundation and steady performance will help the Group to deal with the challenges ahead and the Group's future development is to provide a one-chain security services and security solutions to both public sectors and the private sectors to optimise our competitive advantages in the security sector. With our talented and experienced management team, the Group will continue to assess potential business opportunities in a cautious manner and enhance the shareholders' value in the years to come.

On behalf of the Board, I would like to take this opportunity to express my gratitude to my fellow Directors and all staff for their efforts and contribution. Besides, I would also like to offer my sincere appreciation to all customers, business partners and our shareholders for their continuing support.

Dr. Ng Tai Wing

Management Discussion and Analysis

BUSINESS REVIEW

Our service on extra-low voltage (“ELV”) solutions primarily on central monitoring system has been deployed in residential and commercial buildings for the purpose of better control and security in Hong Kong since 2003. ELV solutions cover all the new modern technologies that are increasingly becoming a must-have system in every building such as CCTV, fire alarm systems, public address systems, audio/video solutions, access control, car park systems and clubhouse management systems. Our experts provide consultation, design, integration, implementation and maintenance services to our clients from both private and public sectors incorporating a wide range of audio-visual and security systems.

In 2020, we have undertaken various installation and maintenance projects for various customers from both private sectors and government departments such as Drainage Services Department, Hong Kong Police Force, Leisure and Cultural Services Department, Electrical and Mechanical Services Department, etc. During the year ended 31 August 2020, some of the major projects were completed, such as installation of CCTV and access control system for DHL warehouse in Yuen Long, installation of new CCTV and alarm system at West Kowloon Law Courts Building, replacement of CCTV monitoring system at Villa Lotto and supply and installation of the access control system at Parc Palais.

In respect of maintenance works, the Group always responds fast to government policy to identify and seize opportunity to expand its market share. The Group benefits from government infrastructure development in the Hong-Kong-Zhuhai-Macao Bridge. A three-year maintenance project on Automatic Vehicle Clearance Support System was awarded to the Group and commenced during the year.

In respect of our security guarding operation, the Group strives to build up business reputation and expand its operation. During the year, we have successfully bidden security projects in the private sector including Skyview Cliff and Yuen Long DHL warehouse.

Due to the outbreak of COVID-19, the Group has suspended the expansion and development of its sales platform in China. We will closely monitor the development of COVID-19 in China and will continue to look for potential business opportunities when the situation recovers.

OUTLOOK AND PROSPECTS

The Group’s ELV solutions cover commercial buildings, shopping malls, hospital and government facilities from the private and public sectors. In order to provide the most suitable solutions to our valuable customers, we integrate the latest technology with various intelligent device and keep up-to-date technology level through internal development and collaborate with overseas companies to offer the best solutions to our customers. For example, with the extensive use of smartphones, we are continuously optimizing our carpark system in recent years to include more diversified payment methods for convenience of users. Apart from developing new technology ourselves, the Group will seek for opportunities with third-party strategic partners to set up different parking systems and strive to build the most advanced technology in Hong Kong.

Due to the outbreak of COVID-19 worldwide resulting in economic slowdown, it is undeniable that the current global political and economic situation is complex. The growth in demand for installation and replacement security system has remained stagnant. It is widely expected that the situation will continue in the first quarter of 2021. Thus, we put in more focuses in bidding ELV maintenance services contract and aim to strengthen the relationship with our customers by offering high quality and timely services. Furthermore, by expanding our maintenances services business segment, we can increase our market share and enhance our reputation in the industry.

Management Discussion and Analysis

Apart from the Group's security installation and maintenance services, we also expanded security guarding services last year. The segment has been growing rapidly before the outbreak of COVID-19 and our revenue from security guarding services increased from approximately HK\$1,426,000 in 2019 as compared to approximately HK\$5,204,000 in 2020. Due to the increase in the unemployment rate after the outbreak of COVID-19, many unemployed labors have joined the security guarding industry and hence increased market competition. The situation further deteriorated after the introduction of Employment Support Scheme, where property management companies prefer to hire their own security guards in order to enjoy government subsidies in the coming future. As a result, the segment growth has been slowed down and we believe that the industry will resume next year.

Expansion of our training centre has also been affected by the outbreak of COVID-19. We are in the process of applying for training licenses with government departments and the process was delayed. Furthermore, any training lesson will also be suspended due to restrictions on social gathering. We believe that the development of our training plan will resume in the second quarter of 2021.

Lastly, the Group will continue to invest in our development of in-house capabilities as well as cooperating with other business partners to provide one-stop solutions and security guarding services into a fully integrated platform in a new way, thereby generating long term and sustainable growth in shareholders value.

FINANCIAL REVIEW

Revenue

The revenue of the Group increased by approximately 19.81% from approximately HK\$95,522,000 for the year ended 31 August 2019 to approximately HK\$114,442,000 for the year ended 31 August 2020. The increase in revenue was mainly due to the increase in maintenance services provided in relation to the Hong-Kong-Zhuhai-Macao Bridge.

Cost of Sales and Gross Profit

The majority of the Group's cost of sales comprised direct labour, direct material and equipment. The cost of sales increased by approximately 27.97% from approximately HK\$68,079,000 for the year ended 31 August 2019 to approximately HK\$87,119,000 for the year ended 31 August 2020.

The Group's gross profit decreased by approximately 0.44% from approximately HK\$27,443,000 for the year ended 31 August 2019 to approximately HK\$27,323,000 for the year ended 31 August 2020. The decrease was due to increase in income generated from maintenance services which has relatively lower profit margin than installation services.

Administrative Expenses

The Group's administrative expenses increased by approximately 6.00% from approximately HK\$26,130,000 for the year ended 31 August 2019 to approximately HK\$27,698,000 for the year ended 31 August 2020, which was mainly due to the expansion of the administrative department with more staff.

Profit for the Year

The Group recorded profit for the year of approximately HK\$3,655,000 for the year ended 31 August 2020 (2019: approximately HK\$877,000). Such increase was mainly due to government subsidies received by the Group under the Employment Support Scheme.

Total	15.0	11.5	3.5	iii

Notes:

- (i) As announced in the announcement dated 20 September 2019, the Directors have resolved to change the use of unutilised net proceeds from the share offer.
- (ii) The Group is currently in the process of satisfying the minimum working capital and employed capital requirement of "Electrical and Mechanical Installation for Sewage Treatment and Screening Plant" and the unutilised proceeds is intended to be fully utilised within two years.
- (iii) The unutilised proceeds as at 31 August 2020 is placed in interest-bearing deposits with licensed banks in Hong Kong.

Management Discussion and Analysis

GEARING RATIO

The gearing ratio, being the Group's total debts (including bank borrowings, lease liabilities and obligation under finance leases) divided by its total equity, was 0.16 times as at 31 August 2020 (2019: 0.19 times).

FOREIGN EXCHANGE EXPOSURE

Since the Group's business activities are mainly in Hong Kong and all relevant transactions are denominated in Hong Kong dollars, the Directors consider that the Group's exposure to foreign exchange risks is insignificant.

TREASURY POLICIES

The Group has adopted a prudent financial management approach towards its treasury policies and thus maintained a healthy liquidity position throughout the year ended 31 August 2020. The Group strives to reduce exposure to credit risk by performing ongoing credit assessments and evaluations of the financial status of its customers. To manage liquidity risk, the Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet its funding requirements from time to time.

SIGNIFICANT INVESTMENTS AND FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

During the year, the Group did not hold any significant investments or equity interest in any other companies.

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES OR JOINT VENTURES

During the year, the Group did not have major acquisition or disposal of subsidiaries, associates or joint ventures.

PLEDGE OF ASSETS

As at 31 August 2020, the Group had pledged the leasehold land and buildings of approximately HK\$5,413,000 (2019: approximately HK\$5,606,000) to secure the bank borrowings to the Group.

COMMITMENTS

Details of operating lease commitment and capital commitment are set out in notes 32 and 33 to the consolidated financial statements respectively.

CONTINGENT LIABILITIES

The Group had no significant contingent liabilities as at 31 August 2020.

PRINCIPAL RISKS AND RISK CONTROL MECHANISM

Risk management is carried out by the Company's finance department under policies approved by the Board. The finance department identifies, evaluates and hedges against financial risks in close co-operation with the Group's other operating units. The Board provides guidance for overall risk management and specific areas, such as market risk, interest rate risk, credit risk and liquidity risk.

Management Discussion and Analysis

Principal Risks

For the year ended 31 August 2020, the following principal risks of the Group were identified and classified into strategic risks, operational risks, financial risks and compliance risks.

Risk Areas	Principal Risks
Strategic Risks	Change of competition landscape; risk of market saturation
Operational Risks	Poor performance of subcontractors; insufficient experienced managerial personnel
Financial Risks	Liquidity risk, credit risk, interest rate risk, inflation risk
Compliance Risks	Risk related to occupational safety and health; risk of non-compliance with applicable laws and regulations related to employment; risk of failure to comply with contract terms; change of GEM Listing Rules and relevant company regulations and ordinances

Our Risk Control Mechanism

The Group adopts a “three lines of defence” corporate governance structure with operational management and controls performed by operations management, coupled with risk management monitoring carried out by the finance and compliance team and independent internal audit outsourced to and conducted by BT Corporate Governance Limited (formerly known as Corporate Governance Professionals Limited and Baker Tilly Hong Kong Risk Assurance Limited) (“BTCG”). The Group maintains a risk register to keep track of all identified major risks of the Group. The risk register provides the Board, the audit committee (the “Audit Committee”), and the management with a profile of its major risks and records management’s action taken to mitigate the relevant risks. Each risk is evaluated at least annually based on its likelihood of occurrence and potential impact upon the Group. The risk register is updated by the management as the risk owners with addition of new risks and/or removal of existing risks, if applicable, at least annually, after the annual risk evaluation has been performed. This review process can ensure that the Group proactively manages the risks faced by it in the sense that all risk owners have access to the risk register and are aware of and alert to those risks in their area of responsibility so that they can take follow-up action in an efficient manner.

Our risk management activities are performed by our management on an ongoing process. The effectiveness of our risk management framework will be evaluated at least annually, and periodic management meeting is held to update the progress of risk monitoring efforts. Our management is committed to ensure that risk management forms an integral part of the daily business operation processes in order to align risk management with corporate goals in an effective manner.

The Company will continue to engage external independent professionals to review the Group’s system of internal controls and risk management annually and further enhance the Group’s internal control and risk management systems as appropriate.

There is currently no internal audit function within the Group. The Directors have reviewed the need for an internal audit function and are of the view that in light of the size, nature and complexity of the business of the Group, it would be more cost effective to appoint external independent professionals to perform internal audit function for the Group in order to meet its needs. Nevertheless, the Directors will continue to review at least annually the need for an internal audit function.

By the order of the Board

ECI Technology Holdings Limited

Dr. Ng Tai Wing

Chairman and Chief Executive Officer

Hong Kong, 25 November 2020

Corporate Governance Report

The Company and our Directors recognize the importance of good corporate governance in the management structures and internal control procedures of our Group so as to achieve effective accountability.

Our Company has adopted the code provisions stated in the Corporate Governance Code of Appendix 15 of the GEM Listing Rules (the “Code”). Except for the deviations from the following Code provisions, our Company’s corporate governance practices have complied with the Code throughout the year ended 31 August 2020 and up to the date of this report:–

Code Provision A.2.1

Code provision A.2.1 of the Code stipulates that the roles of chairman and chief executive should be separate and should not be performed by the same individual. Dr. Ng Tai Wing is the chairman and chief executive officer of the Company. In view that Dr. Ng is one of the founders of the Group and has been operating and managing the Group since 2003, the Board believes that the vesting of the roles of chairman and chief executive officer in Dr. Ng is beneficial to the business operations and management of the Group and will provide strong and consistent leadership to the Group. Accordingly, the Directors consider that the deviation from provision A.2.1 of the Code is appropriate in such circumstances.

COMPANY SECRETARY

Mr. Lau Chi Yuen has been appointed as the company secretary of the Company (the “Company Secretary”). Mr. Lau is not an employee of the Group, but is an external service provider. He communicates with the Company through the heads of Human Resources and Administration Department and Finance Department of the Company. His biographical details are set out on page 17 of this annual report. Mr. Lau has confirmed that for the year ended 31 August 2020, he has taken no less than 15 hours of relevant professional training covering corporate governance and accounting matters and therefore satisfies the requirements under Rule 5.15 of the GEM Listing Rules.

COMPLIANCE WITH CODE OF CONDUCT FOR DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding securities transactions by Directors on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. Having made specific enquires by the Company, all Directors confirmed that they had complied with the standard of dealings and the code of conduct regarding securities transactions by directors adopted by the Company during the year ended 31 August 2020 and up to the date of this annual report.

Corporate Governance Report

THE BOARD OF DIRECTORS

The Board of Directors, which currently comprises seven Directors, is responsible for corporate strategy, annual, interim and quarterly results, succession planning, internal control and risk management, major acquisitions, disposals and capital transactions, and other significant operational and financial matters of the Company. Major corporate matters that are specifically delegated by the Board to the management include the preparation of annual, interim and quarterly financial statements for the Board's approval before public reporting, execution of business strategies and initiatives adopted by the Board, implementation of adequate systems of internal controls and risk management procedures, and compliance with relevant statutory requirements and rules and regulations.

Directors' liability insurance was maintained by the Company with coverage for any legal liabilities of the Directors which may arise in the course of performing their duties.

Board Composition

The composition of the Board for the year under review is set out as follows:

BOARD COMMITTEES AND CORPORATE GOVERNANCE FUNCTIONS

The Board has established three board committees, namely, the Audit Committee, the Remuneration Committee and the Nomination Committee, for overseeing particular aspects of the Company’s affairs. All Board committees have been established with defined written terms of reference, which are posted on the Stock Exchange’s and the Company’s websites.

Audit Committee

The Company has established the Audit Committee on 17 February 2017 in compliance with Rule 5.28 of the GEM Listing Rules. Written terms of reference in compliance with paragraph C.3 of the Code has been adopted. The Audit Committee consists of four independent non-executive Directors, namely Mr. Hui Chun Ho Eric, Mr. Sung Wai Tak Herman, Mr. Fung Tak Chung and Dr. Chow Kin San. Mr. Hui Chun Ho Eric is the chairman of the Audit Committee.

Among other things, the primary duties of the Audit Committee are to make recommendations to the Board on appointment or re-appointment and removal of external auditor; review financial statements of the Company and judgments in respect of financial reporting; and oversee internal control procedures of the Company.

The Audit Committee has reviewed the accounting principles and practices adopted by the Group and has discussed with the senior management regarding the auditing, internal control and financial reporting matters.

During the year ended 31 August 2020, the Audit Committee held four meetings (i) to discuss the financial reporting and the compliance procedures with the external auditors; (ii) to consider the reappointment of auditors of the Company; and (iii) to review the audited annual results for the year ended 31 August 2019 and unaudited quarterly and interim results. The Audit Committee also confirmed that this annual report complies with the applicable standards, the GEM Listing Rules and other applicable legal requirements and that adequate disclosures have been made. There is no disagreement between the Directors and the Audit Committee regarding the selection and appointment of external auditors.

Corporate Governance Report

Remuneration Committee

The Company established the Remuneration Committee on 17 February 2017 with written terms of reference in compliance with the Code. The Remuneration Committee comprises four independent non-executive Directors, namely Mr. Hui Chun Ho Eric, Mr. Sung Wai Tak Herman, Mr. Fung Tak Chung and Dr. Chow Kin San. Mr. Sung Wai Tak Herman has been appointed as the chairman of the Remuneration Committee.

The primary duties of the Remuneration Committee include determining, with delegated responsibility, the specific remuneration packages of the Chairman, the executive Directors and senior management, reviewing and making recommendations to the Board on the Company's policy and structure for all remuneration of Directors and senior management and on the establishment of a formal and transparent procedure for developing policy on such remuneration and to ensure that no Director or any of his associates will participate in deciding his own remuneration. During the year, one meeting was held to consider the issues described above.

The Remuneration Committee has reviewed the remuneration packages and emoluments of Directors and senior management and considered that they are fair and reasonable during the year ended 31 August 2020.

Senior Management Remuneration

The remuneration of the members of senior management of the Company for the year ended 31 August 2020 is as follows:

Remuneration band	Number of individuals
Below HK\$1,000,000	4

Details of the directors' remuneration and five highest paid individuals for the year ended 31 August 2020 that are required to be disclosed pursuant to the Code are disclosed in notes 13 and 14 to the consolidated financial statements in this report.

Nomination Committee

The Company established the Nomination Committee on 17 February 2017 with written terms of reference in compliance with the Code. The Nomination Committee comprises one executive Director, Dr. Ng Tai Wing, and four independent non-executive Directors, namely Mr. Hui Chun Ho Eric, Mr. Sung Wai Tak Herman, Mr. Fung Tak Chung and Dr. Chow Kin San. Dr. Ng Tai Wing has been appointed as the chairman of the Nomination Committee.

The principal duties of the Nomination Committee include reviewing the Board structure, size, composition and diversity, making recommendations on any proposed changes to the Board to complement the Company's corporate strategy, making recommendations to the Board on the appointment and succession planning of Directors, and assessing the independence of independent non-executive Directors. Moreover, it also reviews the Nomination Policy (as defined below) and the Board Diversity Policy (as defined below).

Corporate Governance Report

NOMINATION POLICY

The nomination policy (the “Nomination Policy”) adopted by the Company on 31 December 2018 aims to ensure that the composition of the Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company’s business and further development. The Nomination Policy sets out the reporting procedures and criteria for selecting and making recommendations to the Board on the selection of individuals nominated for directorships.

The Nomination Committee shall report to the Board. At the immediately subsequent meeting of the Board following a meeting of the Nomination Committee, the chairman of the Nomination Committee shall report the findings and recommendations of the Nomination Committee to the Board. Such recommendations will be supported by the resume in respect of the individuals concerned.

The criteria to be taken into account when considering the suitability of a candidate include but not limited to gender, age, qualification, skill, experience, etc. The Board Diversity Policy (details of which has been set out below) would also be used as reference by the Nomination Committee in assessing the suitability of a proposed candidate.

BOARD DIVERSITY POLICY

The Company recognizes and embraces the benefits of having a diverse Board to enhance the quality of its performance. The policy aims to set out the approach to achieve diversity on the Board. The summary of this policy, together with the measurable objectives set for monitoring this policy, and the progress for achieving those objectives are disclosed as below.

Summary

To enhance Board effectiveness and corporate governance for achieving our business objectives, the Company is of the view that ensuring diversity at the Board is an essential element in supporting its sustainable development. In designing the Board’s composition, factors affecting Board diversity including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service and any other factors that the Board may consider relevant and applicable from time to time have been considered.

Measurable objectives

Selection of candidates of the Board will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service and any other factors that the Board may consider relevant and applicable from time to time. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board, having due regard to the benefits of diversity on the Board. The Board’s composition will be disclosed in the corporate governance report of the Company annually in accordance with the GEM Listing Rules.

Implementation and Monitoring

The Nomination Committee is responsible for reviewing and monitoring the achievement of the measurable objectives set out in this policy. It will review the Board’s composition at least once annually taking into account the benefits of all relevant diversity aspects and adhere to the policy when making recommendation on appointments of any Board members.

Corporate Governance Functions

The Board is responsible for performing the functions specified in Code Provision D.3.1 of the Code, which include reviewing the Company's corporate governance policies and practices, the continuous professional development of the Directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements (including the GEM Listing Rules) and the Company's compliance with the Code and disclosure in this Corporate Governance Report.

All Directors have access to the advice and services of the Company Secretary on corporate governance and board practices and matters.

ACCOUNTABILITY AND AUDIT

The Directors acknowledge and understand their responsibility for preparing the consolidated financial statements and to ensure that the consolidated financial statements are prepared in a manner which reflects the true and fair view of the state of affairs, results and cashflows of the Group and are in compliance with the relevant accounting standards and principles, applicable laws and disclosure provisions required of the GEM Listing Rules. The Directors are of the view that the consolidated financial statements for each financial year should be prepared on this basis.

To the best knowledge of the Directors, there are no uncertainties relating to events or conditions that may cast significant doubt upon the Group's ability to continue as a going concern.

Statement of the Group's external auditor's responsibilities in respect of the consolidated financial statements is set out in the Independent Auditor's Report of this annual report.

Corporate Governance Report

AUDITOR'S REMUNERATION

SHINEWING (HK) CPA Limited is appointed as the external auditor of the Group. For the year ended 31 August 2020, the emoluments paid or payable for the audit and non-audit services provided by SHINEWING (HK) CPA Limited and its affiliated firm was as follows:

	Amount HK\$'000
Audit services	760
Non-audit services*	268
Total	1,028

* Included in non-audit services were approximately HK\$40,000 in relation to services performed by SHINEWING (HK) CPA Limited's affiliated firm.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges that it is its duty to monitor the risk management and internal control systems of the Group on an ongoing basis and review their effectiveness. Such systems are designed to manage, rather than eliminate, the risk of failure to achieve its business objectives, and can only provide reasonable, but not absolute, assurance against material misstatement or loss.

During the year ended 31 August 2020, the Board, through the Audit Committee, conducted an annual review of both design and implementation effectiveness of the risk management and internal control systems of the Group, covering all material controls, including financial, operational and compliance controls, with a view to ensuring that resources, staff qualifications and experience, training programmes and budget of the Group's accounting, internal audit and financial reporting functions are adequate. In this respect, the Audit Committee communicates any material issues to the Board.

The Group adopts a "three lines of defence" corporate governance structure with operational management and controls performed by operations management, coupled with risk management monitoring carried out by the finance and compliance team and independent internal audit outsourced to and conducted by BT Corporate Governance Limited (formerly known as Corporate Governance Professionals Limited and Baker Tilly Hong Kong Risk Assurance Limited) ("BTCG"). During the year ended 31 August 2020, the Group appointed BTCG to:

- assist in identifying and assessing the risks of the Group through a series of workshops and interviews; and
- independently perform internal control review and assess effectiveness of the Group's risk management and internal control systems.

The results of the independent review and assessment were reported to the Audit Committee and the Board. Moreover, improvements in internal control and risk management measures as recommended by BTCG to enhance the risk management and internal control systems of the Group and mitigate risks of the Group were adopted by the Board. Based on the findings and recommendations of BTCG as well as the comments of the Audit Committee, the Board considered the internal control and risk management systems effective and adequate.

The Group has established internal control procedures for the handling and dissemination of inside information in order to comply with Chapter 17 of the GEM Listing Rules as well as Part XIVA of the SFO. The internal control mechanism includes information flow and reporting processes, confidentiality arrangements, disclosure procedures, and staff training arrangements, etc.

Corporate Governance Report

Our Enterprise Risk Management Framework

The Group has established its enterprise risk management framework in 2020. While the Board has the overall responsibility to ensure that sound and effective internal controls are maintained, the management is responsible for designing and implementing an internal control system to manage all kinds of risks faced by the Group.

Through the risk identification and assessment processes, risks are identified, assessed, prioritized and treatments are allocated. Our risk management framework follows the guideline on risk management “COSO Enterprise Risk Management – Integrated Framework”, which allows the Board and management to manage the risks of the Group effectively. The Board receives regular reports through the Audit Committee that oversees risk management and internal audit functions.

COMPLIANCE OFFICER

Dr. Ng Tai Wing, Chairman and Chief Executive Officer, is the compliance officer of the Group. His biographical information is set out in the section “Biographical Information of Directors and Senior Management” of this annual report.

The Company regards the annual general meeting as an important event as it provides an important opportunity for direct communications between the Board and the Shareholders. All Directors and senior management will endeavour to attend. All Shareholders will be given at least 20 clear business days’ notice of the annual general meeting and are encouraged to attend the annual general meeting and other general meetings.

CONSTITUTIONAL DOCUMENTS

The Company has not made any changes to its Articles during the year ended 31 August 2020. An up-to-date version of the Articles is available on the Company’s website and the Stock Exchange’s website.

Environmental, Social and Governance Report

INTRODUCTION, ENVIRONMENTAL, SOCIAL AND GOVERNANCE POLICIES

This Environmental, Social and Governance Report (the “ESG Report”) summarises the environmental, social and governance (“ESG”) initiatives, programmes and performance of ECI Technology Holdings Limited (the “Company”, together with its subsidiaries, the “Group” or “We”) as well as demonstrates its commitment to sustainability.

The Group is principally engaged in the provision of extra-low voltage (“ELV”) solutions in Hong Kong. The ELV solutions covers all the new modern technologies that are increasingly becoming must-have systems in every building such as CCTV, fire alarm systems, public address systems, audio/video solutions, access control, car park systems and clubhouse management systems. The Group’s experts provide consultation, design, integration, implementation and maintenance services to its clients from both private and public sectors incorporating a wide range of audio visual and security systems.

The Group believes that environmental protection, low carbon footprint, resource conservation and sustainable development are the key trends in society. In order to follow the key trends and pursue a successful and sustainable business model, the Group recognises the importance of integrating ESG aspects into its risk management system and has taken corresponding measures in its daily operation and governance perspective.

OUR MISSION AND VISION

The Group aims, not only at providing quality services to meet the multi-dimensional needs of customers, but also at assuring employees’ health and safety and mitigating environmental impact. To reach these goals, the Group is committed to:

- Ensuring statutory and regulatory compliance as well as applicable requirements;
- Delivering professional, effective and timely services and products to satisfy the needs and expectation of customers;
- Providing healthy and safe working conditions for all employees, contractors and other associated stakeholders with the business activities;
- Preserving resources and protecting the environment through effective prevention and monitoring of pollution;
- Striving to achieve zero hazards, incidents and non-compliance;
- Continually improving the integrated management system (“IMS”) based on ISO 9001:2015 Quality Management System (“QMS”), ISO 14001:2015 Environmental Management System (“EMS”) and OHSAS 18001:2007 Occupational Health and Safety Management System (“OHSMS”) to enhance quality, safety and environmental management; and
- Strengthening staff capacity and providing adequate resources to continually improve the productivity and effectiveness of the management system.

Environmental, Social and Governance Report

THE ESG GOVERNANCE STRUCTURE

In order to have a systematic management of the Group's ESG issues, the Group has established an ESG working taskforce (the "Taskforce"). The Taskforce composed of full-time staff from relevant departments and is responsible for collecting relevant information on the ESG aspects for compiling the ESG Report. The Taskforce periodically reports to the board of directors (the "Board"), assists in identifying the Group's ESG risks and assessing the effectiveness of the internal control mechanisms. The Taskforce also examines and evaluates the Group's performances in different ESG aspects, such as environmental protection and labour practices. The Board sets the general direction for the Group's ESG strategies, ensuring the effectiveness of risks management and internal control mechanisms.

SCOPE OF REPORTING

Unless stated otherwise, the ESG Report mainly covers the Group's major operating activities under direct operational control, including its provision of ELV solutions primarily on central control monitoring system in Hong Kong. All business activities are limited in Hong Kong. The ESG key performance indicators ("KPIs") are gathered and are shown in the ESG Report supplementing by explanatory notes to establish benchmarks. The Group will continue to assess the major ESG aspects of different businesses to determine whether to expand the scope of reporting.

REPORTING FRAMEWORK

The ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide ("ESG Reporting Guide") as set out in the Appendix 20 to the Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

For the Group's corporate governance practices, please refer to page 27 to page 36 for the section "Corporate Governance Report" contained in this Annual Report.

REPORTING PERIOD

The ESG Report specifies the ESG activities, challenges and measures taken during the financial year ended 31 August 2020.

CHAIRMAN'S STATEMENT

On behalf of the Group, I am pleased to present the fourth ESG report of the Group for the year ended 31 August 2020. This ESG Report reviews the Group's performance on sustainable development as well as demonstrates its commitment to sustainable development during the year ended 31 August 2020. The Group has obtained the triple accreditation of ISO 9001:2015 QMS, OHSAS 18001:2007 OHSMS, and ISO 14001:2015 EMS.

As an ELV solution provider, providing quality and premium services to its customers is the Group's primary vision. The Group has established a comprehensive QMS from an internal management perspective, which includes standardised process control procedures and regular internal audit procedures. Its efforts on quality control have been accredited by ISO 9001:2015 QMS.

Environmental, Social and Governance Report

Also, the Group recognises that its employees' effort is important in flourishing the Group's success and the Group values its employees' health and safety. The Group has established framework which is accredited with OHSAS 18001:2007 OHSMS to identify and reduce safety risks in the projects performed by the Group and the sub-contractors to safeguard its employees and sub-contractors. The Group has adopted occupational health and safety protection measures to improve employees' awareness on occupational health and safety, such as safety trainings for its employees.

Contributing to environmental protection, the Group has implemented an EMS which is certified with ISO 14001:2015 EMS for our operations in providing ELV solutions and for its office to ensure energy efficiency, proper waste management, and compliance with relevant laws and regulations. With its effort in promoting energy conservation, the Group's energy consumption amount during the year ended 31 August 2020 has been reduced by approximately 27% while its intensity has been reduced by approximately 39% as compared to the year ended 31 August 2019.

The Group takes great pride in its ability to provide excellent ELV services, and to care the community. Accordingly, its customer involvement has been well recognised with credible awards including "CEO of the Year 2019" by Capital, "Listed Company Awards of Excellence 2019" by Hong Kong Economic Journal, "ListCo Excellence Awards 2019" by AM730, PR Asia and ifeng Hong Kong Stock, and "Enterprise and Media Awards 2019" by The Hang Seng University.

In the future, the Group will continue to make greater contribution to the sustainable development within the industry.

A. ENVIRONMENTAL

A1. Emissions

The Group strives to protect the environment through the implementation of control mechanism and monitoring measures in its business activities and workplace. The Group is committed to promoting a green environment by introducing environmentally friendly business practices, educating its employees to enhance their awareness on environmental protection and complying with the relevant environmental laws and regulations.

The Group has formulated relevant policies relating to environmental management and established an EMS in accordance with ISO 14001:2015 EMS to govern the environmental management and minimise the impact caused by its operations. The Group also has a dedicated function to coordinate and implement environmental protection measures and objectives, and to address environmental issues. The Group carries out a series of environmental management measures at project sites, covering planning, procurement and various project procedures. The Group has also adopted measures concerning noise, indoor air quality, waste, energy and GHG emissions to ensure that all business activities are strictly in compliance with local laws and regulations.

With the aims to reduce the emissions of GHG and reducing the disposal of non-hazardous wastes, the Group will constantly improve its EMS to minimise negative impacts on the environment.

During the year ended 31 August 2020, the Group was not aware of any material non-compliance with relevant laws and regulations in Hong Kong relating to air and GHG emissions, discharges into water and land, and generation of hazardous and non-hazardous wastes. The relevant laws and regulations include but not limited to the Air Pollution Control Ordinance (Cap. 311, Laws of Hong Kong) and the Waste Disposal Ordinance (Cap. 354, Laws of Hong Kong).

Air Emissions

Exhaust gas emissions generated from business operations of the Group mainly include nitrogen oxides ("NOx"), sulphur oxides ("SOx") and particulate matter ("PM"), the major source of which is vehicle exhaust gas. A number of vehicles are used during the business operations of the Group.

During the year ended 31 August 2020, the exhaust gas emissions generated include 179.65 kg NOx, 0.82 kg SOx and 15.65 kg PM.

Environmental, Social and Governance Report

GHG Emissions

The consumption of electricity at the office and petrol and diesel consumption for vehicles are the major sources of GHG emissions of the Group. During the year ended 31 August 2020, the amount of the Group's total GHG emissions has decreased by approximately 26% from approximately 264.98 tCO₂e in the year ended 31 August 2019 to approximately 196.67 tCO₂e in the year ended 31 August 2020. The result reflects the effectiveness of its GHG emissions reduction measures.

The detailed summary of the GHG emissions by the Group is shown as below:

Indicators ¹	Unit	2020	2019
Direct GHG emissions (Scope 1) –			
Petrol and diesel consumption	tCO ₂ e	147.31	215.27
Energy indirect GHG emissions (Scope 2) –			
Purchased electricity	tCO ₂ e	49.36	49.71
Total GHG emissions	tCO ₂ e	196.67	264.98
Intensity ²	tCO ₂ e/million HK\$ revenue	1.72	2.77

Note:

1. GHG emissions data are presented in terms of carbon dioxide equivalent and are based on, but not limited to, "The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards" issued by the World Resources Institute and the World Business Council for Sustainable Development, "How to prepare an ESG report – Appendix II: Reporting Guidance on Environmental KPIs" issued by the Stock Exchange, the "Global Warming Potential Values" from the IPCC Fifth Assessment Report, 2014 ("AR5") and the "2019 Sustainability Report" published by the CLP Power Hong Kong Limited.
2. The total revenue of the Group during the year ended 31 August 2020 and the year ended 31 August 2019 were approximately HK\$114,442,000 and approximately HK\$95,522,000 respectively. These numbers would also be used for calculating other intensity data in the ESG Report.

The Group has adopted the following measures to mitigate the direct GHG emissions from petrol and diesel consumption in its operations:

- Selecting the shortest route to and from the site of the Group and the target venue;
- Switching off engine whenever the vehicle is idle;
- Using unleaded fuel and low sulphur content fuel in accordance with the applicable legal requirements;
- Providing maintenance service to the vehicles on a regular basis to ensure engine performance for efficient use of fuel; and
- Optimising operational procedure to increase the loading rate and reduce the idling rate of vehicles.

The Group's energy indirect GHG emissions mainly come from purchased electricity. Aiming to minimise carbon footprint, the Group has implemented measures as stated in the section headed "Energy Consumption" in aspect A2 to reduce energy consumption.

Environmental, Social and Governance Report

Sewage Discharge

The Group does not consume a significant volume of water in its business activities and therefore its business activities did not generate material discharges into water during the year ended 31 August 2020. Since the wastewater of the Group is discharged into the municipal sewage pipeline network for processing and the majority of the water supply and discharge facilities are provided and managed by property management company, the amount of water consumption of the Group represents the wastewater discharge volume. The data of water consumption will be described in the section headed “Water Consumption” in aspect A2.

Waste Management

The Group adheres to the waste management principles and strives to properly manage and dispose wastes produced during its business activities. To ensure effective waste reduction, the Group educates its employees and provides relevant support in order to enhance their skills and knowledge. During provision of ELV solutions, its waste management practice strictly complies with the Waste Disposal Ordinance which regulates the waste production, collection and disposal including treatment and recycling.

Hazardous waste handling method

Due to the Group’s business nature, it did not generate significant amount of hazardous wastes during the year ended 31 August 2020. In case there are any hazardous wastes produced, the Group must engage a qualified chemical waste collector to handle such wastes in order to comply with the relevant environmental laws and regulations.

Non-hazardous waste handling method

The non-hazardous wastes generated by the Group’s operations mainly consist of paper.

During the year ended 31 August 2020, our paper consumption decreased by approximately 1% from approximately 2.68 tonnes in the year ended 31 August 2019 to approximately 2.65 tonnes in the year ended 31 August 2020.

The detailed summary of the non-hazardous waste generated by the Group is shown as below:

Types of non-hazardous waste	Unit	2020	2019
Office paper	Tonnes	2.65	2.68
Intensity	Tonnes/million HK\$ revenue	0.02	0.03

Environmental, Social and Governance Report

The Group regularly monitors the consumption volume of paper and has implemented a number of measures to encourage paper reduction in the office, including:

- Recommending the use of double-sided printing and photocopying wherever possible;
- Using electronic media for circulation and communication to minimise the use of paper;
- Using suitable font size and shrinkage mode to minimise the number of pages, if possible;
- Prohibiting printing of unnecessary cover page;
- Discouraging the printing of emails;
- Placing collection box for one-sided paper next to each photocopier and printer for re-use; and
- Placing “Green Message” reminders on office equipment.

Moreover, the procurement and disposal of office waste, especially stationeries, serve another focus of its operational sustainability efforts. The office wastes have a great hidden environmental and social impact throughout their product life, from their production, usage to eventual disposal. The Group has launched the following measures:

- Using environmentally friendly stationeries (e.g. refillable, durable stationery with no chemicals);
- Reusing cord binder, envelopes and other materials until worn out;
- Collecting computers and computer accessories such as toner cartridge, keyboard, mouse, and filter by Human Resources and Administration Department (“HRA”) for re-use or recycling if possible;
- Reusing or recycling plastic materials, and scrap metals; and
- Collecting and disposing of solid wastes properly.

On the other hand, staff capacity building programme in respect of glass bottles recycling has been implemented with monitoring and performance tracking.

A2. Use of Resources

The Group continues to take its initiatives to introduce resource efficiency and eco-friendly measures to the Group’s operations, and is committed to optimising the use of resources in its business operations.

During the Group’s operation, fuel and electricity are consumed, and the Group has established relevant policies and procedures in governing the efficient use of resources, in reference to the objective of achieving higher energy efficiency. The Group has formulated the Guidelines for Green Practice in office to control the environmental impacts of office activities.

In the year ended 31 August 2020, the Group sets targets for resources conservation in its daily operations, including:

- Maintaining consumption level of electricity as last year;
- Maintaining consumption level of water as last year; and
- Maintaining usage of paper as last year.

Environmental, Social and Governance Report

Through the joint efforts of the Group and its employees, the Group is able to achieve two of the above resource conservation targets (i.e. electricity and paper consumption). However, the Group is unable to achieve the water conservation target, as the Group has strengthened sanitation in its operations due to the outbreak of the COVID-19 pandemic, which increases its water consumption. The Group commits to contributing to environmental protection and maintaining the intensity level of the above-mentioned consumption in the next reporting period.

Energy Consumption

Electricity, petrol and diesel consumptions account for a substantial part of the energy consumption for the Group. During the year ended 31 August 2020, the total energy consumption amount has decreased by approximately 27% from approximately 882,451.32 kWh in the year ended 31 August 2019 to approximately 642,333.94 kWh in the year ended 31 August 2020. The result reflects the effectiveness of its energy conservation measures.

The detailed summary of the energy consumption of the Group is shown as below:

Types of energy	Unit	2020	2019
Diesel	kWh	108,031.07	158,933.29
Petrol	kWh	435,587.87	626,042.03
Electricity	kWh	98,715.00	97,476.00
Total energy consumption	kWh	642,333.94	882,451.32
Intensity	kWh/million HK\$ revenue	5,612.75	9,238.20

As mentioned in aspect A1, the Group has formulated policies and procedures relating to environmental management, including energy management. On top of the diesel and petrol saving measures, the Group has also implemented the following measures to improve the energy efficiency performance, including but not limited to:

- Setting all printers, photocopiers, computers and other office equipment on energy saving mode if possible;
- Setting room temperature range from 20°C to 25.5°C with the ideal optimal temperature being 25.5°C;
- Encouraging employees to turn off idling equipment, computers and lightings, when not in use or after working hours;
- Monitoring the energy usage on a monthly basis, along with investigating significant variance detected; and
- Procuring energy efficient appliances only upon replacement of old appliances or for to new business needs.

The Group believes it has set a role model for corporate social responsibility through adopting different energy conservation measures. More importantly, the Group strives in cost reduction in terms of less electricity consumption in workplace in the long run.

Environmental, Social and Governance Report

Water Consumption

Although the water consumption of the Group is limited to basic cleaning and sanitation in the office, the Group still promotes behavioural changes in the office and encourages water conservation. Pantry and toilets are posted with environmental messages to remind employees of water conservation. Moreover, the Group requires employees to turn off the tap when not in use and report leaking faucet or pipe to the relevant authority in a timely manner. Through these water conservation measures, the employees' awareness on water conservation has been enhanced.

During the year ended 31 August 2020, the Group's water consumption amount has increased by approximately 38% from approximately 76 m³ in the year ended 31 August 2019 to approximately 105 m³ in the year ended 31 August 2020. Due to the outbreak of the COVID-19 pandemic, the Group has strengthened sanitation of its operations, which increases the water consumption.

The detailed summary of the water consumption of the Group is shown as below:

Indicator	Unit	2020	2019
Total water consumption	m ³	105.00	76.00
Intensity	m ³ /million HK\$ revenue	0.92	0.80

Since the Group's business nature and as its operations mainly based in Hong Kong, the issue in sourcing water that is fit for purpose is not relevant to the Group.

Packaging Materials

As the Group has no industrial production or any factory facilities, the Group does not consume a significant amount of packaging materials for product packaging.

A3. The Environment and Natural Resources

The Group pursues the best practices in environmental protection and focuses on the impact of its businesses on the environment and natural resources. Due to the Group's business nature, its impact on natural resources is limited. In addition to complying with the relevant environmental laws and regulations as well as properly preserving the natural environment, the Group has integrated the concept of environmental protection into its internal management and daily operations, with an aim of achieving environmental sustainability.

The Group recognises the responsibility in minimising the negative environmental impacts of its operations in achieving sustainable development to generate long term values to its stakeholders and community. It carries out continuous monitoring on whether the business operations cause any potential impact on the environment, and minimises such impact to the environment through promoting green office. Where applicable, the Group adopts green purchasing strategies to protect natural resources.

Environmental, Social and Governance Report

Environmental Impact by Project

In order to control and mitigate the environmental impacts by projects in its operations, the Group has formulated a series of procedures to assess the environmental risks of the projects in accordance with the standard of ISO 14001:2015 EMS. Regular internal audit on the effectiveness and level of compliance of EMS are carried out annually. Moreover, management review is conducted in the form of management review meeting at least on an annual basis to ensure continuing suitability, adequacy and effectiveness of EMS. Relevant measures to mitigate the corresponding environment risks of the projects have been carried out in accordance with the relevant assessment procedures. The Group's core process of its EMS is as follows:

Moreover, the Group usually integrates key environmental aspects into each stage of its projects to identify and mitigate potential environmental issues, including but not limited to wastes, sewage, energy, air emissions and noise. An environmental monitoring plan has been set up and implemented to track its performance. Internal and external audits are carried out on an annual basis to review the Group's environmental performance, and areas of improvement.

Environmental, Social and Governance Report

Noise Management

Noise may also be generated during the operation of the Group. Therefore, the Group has adopted the following measures to mitigate the noise generated in office:

- Avoiding noisy operations during restricted hours 19:00-07:00 and public holidays;
- Selecting and using quiet or silent equipment if available; and
- Avoiding simultaneous operation of noisy equipment for noise sensitive receivers.

Moreover, the Group has adopted the following measures to mitigate the noise generated in the site operation:

- Avoiding noisy operations during restricted hours 23:00-07:00 and public holidays;
- Selecting and using quiet or silent equipment if available;
- Avoiding simultaneous operation of noisy equipment for noise sensitive receivers;
- Enclosing noisy operation; and
- Adopting good equipment maintenance.

Indoor Air Quality

Good indoor air quality is important as employees spend most of their working time in office. Indoor air quality in the Group's workplace is regularly monitored and measured. The Group has adopted the following measures to ensure the indoor air quality in the office:

- Placing large-leafed green plants in appropriate office areas where possible;
- Encouraging staff to keep small green plants; and
- Conducting regular cleaning of air conditioning system.

These measures helped in maintaining indoor air quality and filtering out pollutants, contaminants and dust particles.

B. SOCIAL

B1. Employment

Human resources are the foundation to the development of the Group. The Group believes that employees are the core of the Group's greatest and most valuable assets in executing a good service experience for its customers. This is particularly important to the design team and on-site workers, who have direct impact on the quality of the projects. Therefore, the Group dedicates to offering a pleasant working environment that encourages communication, innovation, continuous learning and fosters employee engagement. Hence, the Group has established relevant policies to fulfil its vision on people-oriented management and to realise the full potential of employees. The human resources management procedures are formally documented in the Employee Handbook, covering resources planning, performance evaluation, training, recruitment, resignation, transfer, compensation and welfare, etc.

During the year ended 31 August 2020, the Group was not aware of any material non-compliance with employment-related laws and regulations in Hong Kong that would have a significant impact on the Group. The relevant laws and regulations include, but are not limited to, the Employment Ordinance (Cap. 57, Laws of Hong Kong) and the Minimum Wage Ordinance (Cap. 608, Laws of Hong Kong).

Environmental, Social and Governance Report

Recruitment, Promotion and Dismissal

Employees' qualification, professional skills and experiences exert a significant influence on the quality of services. In line with the need of business development and the principles of fairness and justice, the Group selects the best and suitable qualified candidates through open recruitment or internal promotion. The Group applies robust and transparent recruitment processes based on merit selection against the job criteria, and recruit individuals based on their suitability for the position and potential to fulfil the Group's current and future needs.

The promotion of the Group's employees is subject to regular review. The Group gives priority to internal promotion and encourages employees to compete for internal job vacancies. The Group has set targets for each employee's work, assessed their performance on an annual basis and set clear guidelines and regulations to improve the efficiency of the employees and departments. Supervisor discusses the performance with employees in an effective two-way communication for advancement. This system provides reference standards for salary adjustment, bonus distribution, and promotion.

Any termination of employment contract should be based on reasonable, lawful grounds and internal policies, such as the Employee Handbook. The Group strictly prohibits any kind of unfair or illegitimate dismissals. For those who have unsatisfactory working performance or repeatedly made mistakes, the Group would give verbal warning before issuing a warning letter. For those who shows no improvement, the Group would consider dismissing the employees according to the relevant laws in Hong Kong.

Remuneration and Benefits

The Group's employees are remunerated at a competitive level and rewarded according to their performance and experience. The promotion and remuneration of the Group's employees are subject to review regularly. The remuneration package includes holidays, annual leave, sick leave, marriage leave, maternity leave, examination leave, paternity leave, medical scheme, mandatory provident fund, birthday bonus and discretionary bonus.

Moreover, the Group holds Christmas party for celebration and distributes moon cake coupons at Mid-Autumn Festival every year. The Group also offers birthday red packet and education subsidy to employees.

Diversity and Equal Opportunity

In order to maintain the high quality of its professional team, it is vital to offer equal opportunities to its employees to attract and retain talent. The Group is an equal opportunity employer and does not discriminate on the basis of personal characteristics, gender or age. Regardless of race, sex, colour, age, family background, ethnic tradition, religion, physical fitness and nationality, the Group provides its employees with equal opportunities in terms of recruitment, training and development, compensation, welfare and benefits, as well as promotion to enhance their personal and career development.

The Group establishes and implements policies that promote a harmonious and respectful workplace. With the aim of ensuring fair and equal protection for all employees, the Group has zero tolerance on sexual harassment or abuse in the workplace.

Environmental, Social and Governance Report

Work-life Balance

The Group values the importance of maintaining a healthy lifestyle and work-life balance of its employees. The Group actively engages its employees through different work-life balancing social activities.

Besides, the Group regulates working hours and provides overtime work compensation for the employees in field operation.

B2. Health and Safety

The Group considers occupational health and safety management as a significant element of the business due to high-risk activities and critical exposure of employees during specific works such as installation at heights or in confined space. Employees' safety is regarded as top priority during the delivery of the Group's services. The Group is committed to providing healthy and safe working environment for all employees, contractors and others who associated with its business activities, and strived to achieve zero incidents and non-compliance.

To maintain a safe working environment, the Group has established safety policies and relevant procedures on the prevention and remediation of safety accidents in the projects. Its OHSMS has been implemented in compliance with the requirements of OHSAS 18001:2007 OHSMS international standards.

The HRA and Safety Department take responsibilities for offices' occupational health and safety and relevant promotions and monitoring.

During the year ended 31 August 2020, the Group was not aware of any material non-compliance with the health and safety-related laws and regulations in Hong Kong that would have a significant impact on the Group. The relevant laws and regulations include, but are not limited to, the Occupational Safety and Health Ordinance (Cap. 501, Laws of Hong Kong) and the Employees' Compensation Ordinance (Cap. 282, Laws of Hong Kong).

Safety Risks by Project

In order to control and mitigate the safety risks by project in its operations, the Group has formulated a series of procedures to assess the safety risks of the projects in accordance with the international standard of OHSAS 18001:2007 OHSMS. Regular internal audit on the effectiveness and level of compliance of OHSMS is carried out on an annual basis. Moreover, management review is conducted in the form of management review meeting at least on an annual basis to ensure continuing suitability, adequacy and effectiveness of OHSMS. Relevant measures to mitigate the corresponding safety risks of the projects have been carried out in accordance with the relevant assessment procedures. The Group's core process of its OHSMS is as follows:

Environmental, Social and Governance Report

Safety Measures

The Group's projects may involve high-risk activities such as installation works which expose its employees to electrical hazards, at heights or in confined space. As such, safety is treated as the Group's first priority during the delivery of its services. In accordance with the Occupational Safety and Health Ordinance, the Group has adopted and implemented occupational health and safety procedures and measures for its business operations as well as taken further measures to ensure employees' awareness of the safety protocols. The Group has adopted the following safety measures:

- Ensuring employees possess relevant safety permits or be certified registration for carrying out high-risk activities;
- Conducting regular site inspection to fulfil relevant safety requirements;
- Establishing guidelines for occupational health and safety, and emergency safety handbook for circulation to all employees; and
- Carrying out workplace safety training sessions for all employees regularly.

Other Health and Safety Measures

Under the outbreak of the COVID-19 pandemic, the Group is highly conscious of the implications of COVID-19's health and safety impacts on its employees. Apart from strengthening the sanitation of its operations to ensure a healthy and safe working environment, precautionary measures such as temperature screening before entering the workplace, and ensuring sufficient disinfection supplies such as face masks and hand sanitisers in its operations are implemented.

B3. Development and Training

Staff Development and Training

The Group regards its staff as the most important asset and resource as they help to sustain its core values and culture. The Group provides its staff with training courses to enhance their workplace performance and to have a smoother promotion path as needed. The HRA is responsible for coordinating various training courses. It arranges a set of professional courses on management for fostering the potential managerial talents.

The Group provides occasional on-the-job training and on-the-spot guidance to enhance employees' expertise and productivity. Moreover, the Group values the long-term development of its employees and strives to provide them with different learning opportunities, including external training and specific training development programs. The Group also encourages the culture of sharing knowledge and experience.

The Group supports employees to participate in personal and professional training to fulfil the needs of emerging technologies and new equipment. For the training courses which are work-related and will enhance the Group's development in the future, employees can receive education grants after the courses are approved by the Group's directors. Moreover, the Group sponsors its employees to obtain designated licenses and certificates from designated colleges and institutions.

Environmental, Social and Governance Report

B4. Labour Standards

Prevention of Child Labour and Forced Labour

Child labour and forced labour as defined by laws and regulations are strictly prohibited during the recruitment process. The Group strictly complies with laws and conducts recruitment based on the Employment Ordinance in Hong Kong. Personal data is collected during the recruitment process to assist in the selection of suitable candidates and to verify candidates' personal data. The HRA also ensures identity documents are carefully checked. If violation is involved, it will be dealt with in accordance with the Group's Employee Handbook.

Furthermore, employees of the Group only work overtime on a voluntary basis. The Group also prohibits any punishments, management manner and behaviours involving verbal abuse, physical punishment, physical abuse, oppression, sexual harassment, etc. against its employees for any reasons.

During the year ended 31 August 2020, the Group was not aware of any material non-compliance with child and forced labour-related laws and regulations in Hong Kong that would have a significant impact on the Group. The relevant laws and regulations include but are not limited to the Employment of Children Regulations (Cap. 57B, Laws of Hong Kong) and the Employment Ordinance.

B5. Supply Chain Management

The Group procures hardware, such as security cameras, display devices, cables and wires, and electronic and electrical components, as well as systems such as smartcard and access control systems from local and overseas suppliers. The Group understands the importance of supply chain management in mitigating the indirect environmental and social risks. In addition, the Group is aware of the environmental and social practices of its suppliers, and tries to engage them with responsible acts to society in the view of green supply chain management. All suppliers are evaluated carefully and are subjected to regular monitoring and assessment.

Supply Chain Management Structure

In order to ensure that the Group's suppliers and sub-contractors have met customers' and the Group's requirements regarding quality as well as environmental and safety standards, the Group has formulated procedures in selecting suppliers and sub-contractors. The Group maintains an internal list of approved suppliers and contractors. Suppliers' and sub-contractors' environmental and social performances are considered as one of the selection criteria for establishing long-term relationship. Assessments on performance are carried out on a regular basis for its suppliers and sub-contractors. The materials purchased from suppliers and works performed by sub-contractors will be checked and monitored on a regular basis. Suppliers or sub-contractors may be suspended or removed from the approved list if they fail to fulfil the Group's standards.

Environmental, Social and Governance Report

In view of the increasing environmental concerns in society, the Group is aware of the importance in managing environmental and social risks of its supply chain. The Group has embedded environmental and social consideration in the procurement process and the Group requires its business partners to incorporate environmental aspects into all stages of operations so as to contribute to environmental performance and sustainability. This implies the following:

- Complying with all relevant and applicable legal and other requirements;
- Controlling the use of materials and resources (e.g. electricity, fuel, paper), minimising the generation of all kinds of wastes; ensuring that sewage is discharged in accordance with legal requirements, and reducing, reusing and recycling materials wherever possible;
- Requiring contractors to ensure that all waste materials are properly handled, stored and disposed in an efficient and sensitive manner to avoid any contamination; and
- Encouraging the contractors to reuse and recycle packaging materials wherever possible.

Fair and Open Procurement

The Group has also formulated policies and procedures to ensure that the suppliers could compete in a transparent and fair way. The Group does not differentiate or discriminate treatment on the suppliers. The procedures would strictly monitor and prevent all kinds of business bribes and conflict of interest. Employees or personnel having any relationship with the suppliers should not be involved in the related business activities.

B6. Product Responsibility

Achieving and maintaining high quality standard for projects are utmost important for sustainable growth of the Group. Its customers are mainly property developers and property management companies from the private sectors and government authorities from the public sector. The Group believes completing works that meet or exceed its customer's requirements is crucial not only for building safety, but also for job reference and future business opportunities. In order to ensure that the Group delivers high quality services and sustainable projects to its customers, the process of the projects is controlled and monitored carefully.

During the year ended 31 August 2020, the Group was not aware of any incidents of non-compliance with laws and regulations in Hong Kong that have a significant impact on the Group, concerning product health and safety, advertising, labelling and privacy matters relating to products and services provided. The relevant laws and regulations include, but are not limited to, the Supply of Services (Implied Terms) Ordinance (Cap. 457, Laws of Hong Kong) and the Personal Data (Privacy) Ordinance (Cap. 486, Laws of Hong Kong).

Environmental, Social and Governance Report

Quality Management

The Group has established a formal IMS in accordance with the requirements of ISO 9001:2015 QMS, OHSAS 18001:2007 OHSMS and ISO 14001:2015 EMS to develop a sustainable performance-oriented culture to pursue continuous improvement on quality rather than adopting a short-term and project-based approach. Process control procedures has also been established to ensure that the works meet the contractual specification and the environmental, health and safety requirements.

The Group's QMS has been accredited by the ISO 9001:2015 QMS. The Group's key processes of service realisation and responsible person are as follows:

Regular internal audit on the effectiveness and level of compliance of IMS are carried out annually. Moreover, management review is conducted in the form of management review meeting at least on an annual basis to ensure continuing suitability, adequacy and effectiveness of IMS.

To ensure that the quality of its work is in conformity with the customers' specifications, before delivering the end products to its customers, its sales team, installation team together with the customer will carry out user acceptance test which generally comprises a series of performance check to ensure that the final products the Group provides to its customers are up to the standards as agreed with its customers. Any products or services that fail to meet the standards will be notified to its installation team for rectification. Its project manager also controls and monitors each step in its operating procedures to ensure the adherence to stringent quality standards.

Environmental, Social and Governance Report

The Group foresees the importance of the continuous following-up of the operational efficiency in security management, hence periodically maintenance, inspection on the project sites and monitoring upon the sub-contractors' performance are required to reduce the occurrence of failure.

Privacy Protection

As a responsible service provider, all confidential data related to the Group's business, financial and customer information are securely protected and only used for internal purpose. Employment contract includes the provision of confidentiality that any leakage of confidential information in breach of any privacy rules is strictly prohibited. As such, in carrying out its operations, the Group adheres to the Personal Data (Privacy) Ordinance and expressly reiterates confidentiality obligations.

The Group is determined to strengthen the protection of customers' privacy. Its employees are trained to maintain the confidentiality of its customers' information. The Group also has a data backup system through which its back-up data is stored in different locations to reduce the risk of data loss. The Group has also implemented firewall, anti-virus and anti-spam solutions for its IT systems to prevent leakage of confidential information, which are upgraded constantly.

Advertising and Labelling

As a professional service provider of ELV solutions, the Group has limited issue on advertising and labelling. In the Group's dealings with its clients, information provided should be complete, true, accurate, clear, and comply with all relevant laws and regulations regarding the proper advertising, including but not limited to the Trade Descriptions Ordinance (Cap. 362, Laws of Hong Kong).

B7. Anti-corruption

The Group strives to achieve high standards of ethics in its business operations and does not tolerate any corruptions, frauds and all other behaviours violating work ethics. Unethical or illegal events such as corruption, bribery, and collusion are strictly prohibited. The Group stipulates the disciplinary code and code of conduct in the Employee Handbook, and encourage employees to report any suspected misconduct.

During the year ended 31 August 2020, the Group was not aware of any material non-compliance with the relevant laws and regulations of bribery, extortion, fraud and money laundering. The relevant laws and regulations include, but are not limited to the Prevention of Bribery Ordinance (Cap. 201, Laws of Hong Kong).

Whistleblowing Mechanism

The Group adopts a whistleblowing policy and procedures for all levels and operations. Staff and those who deal with the Group, such as customers and suppliers, can raise concerns, in confidence, about possible improprieties such as misconduct and malpractice in any matter related to the Group. These policies and procedures can be found in the Employee Handbook. Reports made by employees will be handled fairly, consistently and expeditiously. All reports will be handled with appropriate confidentiality and investigated promptly and in detail by their supervisor, department head or HRA. The results of the investigation will be notified to the relevant employee in accordance with appropriate channels. Such policy also aims at protecting whistleblowers from unfair dismissal, victimisation and unwarranted disciplinary actions.

Environmental, Social and Governance Report

B8. Community Investment

Community Participation

As part of the Group's strategic development, the Group is committed to supporting social participation and contribution, and to nurture the corporate culture and practices of corporate citizen in its daily operation. The Group aims to promote the stability of society, and support the underprivileged on rehabilitation to improve their quality of life. The Group also hopes to foster employees' sense of social responsibility, encouraging employees to participate in social welfare activities during their work and leisure time to make greater contributions to the community. The Group would embrace the human capital into the social management strategies to sustain its corporate social responsibility as part of the strategic development of the Group.

During the year ended 31 August 2020, the Group's customer involvement has been well recognised with credible awards including:

- "CEO of the Year 2019" by Capital;
- "Listed Company Awards of Excellence 2019" by Hong Kong Economic Journal;
- "ListCo Excellence Awards 2019" by AM730, PR Asia and ifeng Hong Kong Stock; and
- "Enterprise and Media Awards 2019" by The Hang Seng University.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ECI TECHNOLOGY HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of ECI Technology Holdings Limited (the "Company") and its subsidiaries (hereinafter collectively referred to as the "Group") set out on pages 69 to 137, which comprise the consolidated statement of financial position as at 31 August 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 August 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor's Report (Continued)

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition

Refer to note 7 to the consolidated financial statements and the accounting policies on pages 82 to 84.

The key audit matter

For the year ended 31 August 2020, revenue from provision of installation services was approximately HK\$50,080,000. Revenue from provision of installation services is recognised over time by measuring the progress towards complete satisfaction of the relevant performance obligation. The progress is determined based on the Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation by reference to the proportion of the actual costs incurred relative to the total expected contract costs, that best depict the Group's performance in transferring control of goods or services. The total expected contract costs are mainly based on the historical experience of similar projects.

We have identified the revenue recognition from provision of installation services as a key audit matter in view of the significance of its amount and the estimation of the progress and total contract costs of each individual project involved significant judgements and estimates, which may be subject to management bias.

How the matter was addressed in our audit

Our procedures were designed to review the management judgements and estimates used in the determination of the progress and total contract costs of each individual project.

We have assessed the appropriateness of the revenue recognition policy adopted by the management under Hong Kong Financial Reporting Standard 15 *Revenue from Contracts with Customers*.

In assessing the management judgements and estimates in the determination of the total contract costs, we challenged the reasonableness of the total expected costs, and compared the actual costs incurred and the expected costs to be incurred to the latest updated budgeted contract costs. We also assessed the reliability of the management's assessment by investigating variance between the total actual costs and budgeted costs for the completed projects during the year.

We examined on a sampling basis, underlying documents in respect of the actual costs incurred during the year ended 31 August 2020. We also assessed progress towards complete satisfaction of a performance obligation by recalculating the total actual costs incurred over the total expected costs on a sampling basis.

KEY AUDIT MATTERS *(continued)*

Recoverability of trade receivables and contract assets

Refer to notes 21 and 22 to the consolidated financial statements and the accounting policies on pages 91 to 96.

The key audit matter

As at 31 August 2020, the carrying amount of trade receivables and contract assets is approximately HK\$22,872,000 and HK\$14,270,000 respectively.

The Group measures the loss allowance for trade receivables and contract assets using expected credit loss ("ECL") model. The ECL on trade receivables and contract assets are estimated using a provision matrix by reference to past default experience of the debtor, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

Management judgement is involved in assessing the forward looking expected credit loss. Management estimated the level of expected losses, by assessing future cash flows for contract assets and trade receivables based on historical credit loss experience by customers and applying to the contract assets and trade receivables held at the end of the reporting period. The impact of economic factors both current and future is considered in assessing the likelihood of recovery from customer, where applicable.

The extent of judgement resulted in this matter being identified as a key audit matter.

How the matter was addressed in our audit

Our audit procedures were designed to review the management estimation on expected credit loss of trade receivables and contract assets and challenge the reasonableness of the significant judgements and estimates.

We have also assessed the appropriateness of the ECL provisioning methodology and reviewed the inputs data used in assessment of ECL with reference to the latest available general economic data and the cash collection performance against the Group's historical trends and credit loss experience.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS OF THE COMPANY AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion, solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report (Continued)

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the Company's directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Independent Auditor's Report (Continued)

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Kwan Chi Fung.

Notes to the Consolidated Financial Statements

For the year ended 31 August 2020

1. GENERAL INFORMATION

ECI Technology Holdings Limited (the “Company”) was incorporated in the Cayman Islands under the Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands on 3 October 2016 as an exempted company with limited liability and the shares of the Company are listed on the GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 10 March 2017.

The address of its registered office is Estera Trust (Cayman) Limited, P.O. Box 1350, Clifton House, 75 Fort Street, Grand Cayman KY1-1108, Cayman Islands. The address of its principal place of business is Factory D on 3/F of Block II of Camelpaint Buildings, Block I and Block II, No.62 Hoi Yuen Road, Kowloon, Hong Kong.

In opinion of the directors of the Company, its ultimate holding company and immediate holding company is ECI Asia Investment Limited, a company incorporated in British Virgin Islands (the “BVI”), which is controlled by Dr. Ng Tai Wing.

The Company is an investment holding company. Its major operating subsidiaries are engaged in the provision of installation and maintenance services and security guarding services. Details of the Company’s subsidiaries are set out in note 38.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”) which is same as the functional currency of the Company and its subsidiaries (collectively referred to as the “Group”).

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

In the current year, the Group has applied, for its first time, the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”).

HKFRS 16	Leases
HK(IFRIC) – Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015 – 2017 Cycle
Amendments to HKFRS 16	Covid-19 Related Rent Concessions

The adoption of HKFRS 16 resulted in the changes in the Group’s accounting policies and adjustments to the amounts recognised in the consolidated financial statements as summarised below. The application of other new and amendments to HKFRSs in the current year has had no material impact on the Group’s financial performance and position for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

The Group has early adopted amendments to HKFRS 16 Covid-19 Related Rent Concessions in the current year, which has had no material impact on the Group’s financial performance and position for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

2.1 Impacts on adoption of HKFRS 16 Leases

HKFRS 16 introduces new or amended requirements with respect to lease accounting. It introduces significant changes to the lessee accounting by removing the distinction between operating lease and finance lease and requiring the recognition of right-of-use asset and a lease liability for all leases, except for short-term leases and leases of low value assets. In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged. Details of these new accounting policies are described in note 3. The Group has applied HKFRS 16 *Leases* using the modified retrospective approach, with the cumulative effect of initial application as an adjustment to the opening balance of equity, where appropriate, at 1 September 2019, and has not restated comparatives for the 2019 reporting period as permitted under the specific transitional provisions in the standard. Accordingly, certain comparative information may not be comparable as comparative information was prepared under HKAS 17 *Leases*.

On transition to HKFRS 16, the Group elected to apply the practical expedient to grandfather the assessment of which arrangements are, or contain, leases. It applied HKFRS 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under HKAS 17 and HK(IFRIC)-4 were not reassessed. Therefore, the definition of a lease under HKFRS 16 has been applied only to contracts entered into or changed on or after 1 September 2019.

The major impacts of the adoption of HKFRS 16 on the Group’s consolidated financial statements are described below.

The Group as lessee

On adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as ‘operating leases’ under the principles of HKAS 17 (except for lease of low value assets and lease with remaining lease term of twelve months or less). These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate as of 1 September 2019. The weighted average lessee’s incremental borrowing rate applied to the lease liabilities on 1 September 2019 was 4.25%.

The Group recognises right-of-use assets and measures them at their carrying amounts as if HKFRS 16 has been applied at the commencement date of the lease.

The Group leases a number of items of motor vehicles. These leases were classified as finance lease under HKAS 17. For these finance leases, the carrying amount of the right-of-use asset and the lease liability at 1 September 2019 were determined at the carrying amount of the lease asset and lease liability under HKAS 17 immediately before that date. Accordingly, the obligations under finance leases are now included within lease liabilities, and the carrying amount of the corresponding lease asset is identified as a right-of-use asset. There is no impact on the opening balance of equity.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

2.1 Impacts on adoption of HKFRS 16 Leases (continued)

The Group as lessor

The Group leases some of the properties. The accounting policies applicable to the Group as lessor are not different from those under HKAS 17.

The following table summarises the impact of transition to HKFRS 16 at 1 September 2019. Line items that were not affected by the adjustments have not been included.

Retained earnings	(a)	9,659	(21)	9,638

Notes:

- (a) As at 1 September 2019, right-of-use assets were measured at the carrying amount of approximately HK\$1,232,000 as if HKFRS 16 had been applied since the commencement date of the leases. The difference of approximately HK\$21,000 between the right-of-use assets and the lease liabilities of approximately HK\$1,253,000 was recognised as an adjustment to the opening balance of retained earnings.
- (b) The obligations under finance leases of approximately HK\$2,287,000 as at 31 August 2019 are now included within lease liabilities under HKFRS 16. The carrying amount of the related assets under finance leases amounting to approximately HK\$2,447,000 is reclassified to right-of-use assets.

In the consolidated statement of cash flow, the Group as a lessee is required to split rentals paid under capitalised leases into their capital element and interest element. These elements are classified as financing cash outflows, similar to how lease previously classified as finance leases under HKAS 17 were treated, rather than as operating cash outflows, as was the case for operating leases under HKAS 17. The total cash flows are unaffected.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

2.1 Impacts on adoption of HKFRS 16 Leases (continued)

Differences between operating lease commitment as at 31 August 2019, the date immediately preceding the date of initial application, discounted using the incremental borrowing rate, and the lease liabilities recognised as at 1 September 2019 are as follow:

	HK\$'000
Operating lease commitment disclosed as at 31 August 2019	1,776
Less: Short-term leases and other leases with remaining lease term ending on or before 31 August 2020	(542)
	1,234
Discounted using the incremental borrowing rate	(54)
Add: Lease payments for the additional periods where the Group considers it reasonably certain that the termination option will not be exercised	73
Add: Finance lease liabilities recognised under HKAS 17 as at 31 August 2019	2,287
Lease liabilities recognised as at 1 September 2019	3,540
Current portion	1,411
Non-current portion	2,129
	3,540

Practical expedients applied

On the date of initial application of HKFRS 16, the Group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date the Group relied on its assessment made applying HKAS 17 and HK(IFRIC)-4 Determining whether an arrangement contains a lease;
- reliance on previous assessments on whether leases are onerous by applying HKAS 37 as an alternative to performing an impairment review;
- the accounting for operating leases with a remaining lease term of less than 12 months as at 1 September 2019 as short-term leases;
- the exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application; and
- the use of hindsight in determining the lease term where the contract contains options to terminate the lease.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

2.1 Impacts on adoption of HKFRS 16 Leases (continued)

Practical expedients applied (continued)

In addition, the Group has applied the amendments to HKFRS 16 in advance of its effective date. The amendments provide a practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic. The practical expedient applies only to rent concessions occurring as a direct consequence of the Covid-19 pandemic and only if (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (ii) any reduction in lease payments affects only payments originally due on or before 30 June 2021; and (iii) there is no substantive change to other terms and conditions of the lease.

A lease applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 as if the changes were not lease modifications. Forgiveness or waiver of lease payments is accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

In the current financial year, the lessors did not grant any rent concessions to the Group. Thus, the amendments did not have financial impact to the Group.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the GEM of the Stock Exchange and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values, at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price). Details of fair value measurement are explained in the accounting policies set out below.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (i.e. its subsidiaries). If a subsidiary prepares its financial statements using accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that subsidiary's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns. When the Group has less than a majority of the voting rights of an investee, power over the investee may be obtained through: (i) a contractual arrangement with other vote holders; (ii) rights arising from other contractual arrangements; (iii) the Group's voting rights and potential voting rights; or (iv) a combination of the above, based on all relevant facts and circumstances.

The Group reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of these elements of control stated above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Income and expenses of subsidiaries are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income of subsidiaries are attributed to owners of the Company. Total comprehensive income of subsidiaries is attributed to the owners of the Company.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group are eliminated in full on consolidation.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Interest in an associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies.

The Group's interest in an associate is accounted for in the consolidated financial statements using the equity method which is initially recognised at cost. The Group's share of the profit or loss and changes in other comprehensive income of the associate is recognised in profit or loss and other comprehensive income respectively after the date of acquisition. If the Group's share of losses of an associate equals or exceeds its interest in the associate, which determined using the equity method together with any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group discontinues recognising its share of further losses. Additional losses are provided for, and a liability is recognised, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An interest in an associate is accounted for using the equity method from the date on which the investee becomes an associate.

The Group assesses whether there is an objective evidence that the interest in an associate may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment in the associate. Any reversal of that impairment loss is recognised to the extent that the recoverable amount of the investment subsequently increases.

Revenue recognition

Revenue is recognised to depict the transfer of promised services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. Specifically, the Group uses a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

The Group recognised revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the services underlying the particular performance obligation is transferred to customers.

A performance obligation represents a service (or a bundle of services) that is distinct or a series of distinct services that are substantially the same.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- The Group's performance creates and enhances an asset that the customer controls as the asset is created and enhanced; or
- The Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct service.

Revenue is measured based on the consideration specified in a contract with a customer.

The Group's sources of revenue include revenue arising on provision of installation services, maintenance services and security guarding services.

The Group enters into installation contracts in respect of its extra-low solution business, which in general include provision of consulting, design, integration and implementation services to customers. These services are accounted for as a single performance obligation as they are highly dependent on or highly integrated with other goods and services. The Group recognises the revenue over time using the input method by measuring the progress towards complete satisfaction of the relevant performance obligation. The progress is determined based on the Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation, by reference to the proportion of the actual costs incurred relative to the total expected contract costs, that best depict the Group's performance in transferring control of goods or services.

For certain installation projects, the Group agrees to one to two years defect liability period for 5% to 10% of the contract value. The amount is included in contract assets until the end of the defect liability period as the Group's entitlement to final payment is conditional on the satisfaction of the service quality by the customers over a certain period as stipulated in the contracts.

In respect of the maintenance contracts, the Group applies the practical expedient under HKFRS 15 and recognises the revenue over time when the customer simultaneously receives and consumes the benefits provided by the Group's performance, measures at an amount that the Group has the right to invoice based on the terms of the relevant contracts together with service report in which the Group bills a fixed monthly amount.

The Group provides security guarding services at various residential and commercial sites. Revenue from security guarding services is recognised over time when the customer simultaneously receives and consumes the benefits provided by the Group's performance and invoices are issued on a monthly basis.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

Contract assets and contract liabilities

A contract asset represents the Group's right to consideration in exchange for services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer services to a customer for which the Group has received consideration from the customer. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented.

Warranties

If a customer has the option to purchase a warranty separately, the Group accounts for the warranty as a separate performance obligation and allocates a portion of the transaction price to that performance obligation.

If a customer does not have the option to purchase a warranty separately, the Group accounts for the warranty in accordance with HKAS 37 Provisions, Contingent Liabilities and Contingent Assets unless the warranty provides the customer with a service in addition to the assurance that the product complies with agreed-upon specifications.

Provisions for the expected cost of warranty obligations are recognised at the date of sale of the relevant products, at the directors' best estimate of the expenditure required to settle the Group's obligation.

For service-type warranties, the promised service is a performance obligation. In that case, the Group allocates a portion of the transactions price to the warranty.

3. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Leasing

Policy applicable on or after 1 September 2019

Definition of a lease

Under HKFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as lessee

For contracts entered into or modified on or after the date of initial application, the Group assesses whether a contract is or contains a lease, at inception of the contract or modification date. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Lease liabilities

At the commencement date, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise fixed lease payments (including in-substance fixed payments) and the exercise price of purchase options if the lessee is reasonably certain to exercise the options.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Leasing (continued)

Policy applicable on or after 1 September 2019 (continued)

Lease liabilities (continued)

Lease liability is remeasured (and with a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Right-of-use assets

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement date and any initial direct costs.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses. They are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group presents right-of-use assets as a separate line item in the consolidated statement of financial position.

The Group applies HKAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

When the Group obtains ownership of the underlying leased assets at the end of the lease term upon exercising purchase options, the carrying amount of the relevant right-of-use asset is transferred to property, plant and equipment.

Lease modification

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

The Group as lessor

The Group enters into lease agreements as a lessor with respect to some of its property, plant and equipment. Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating lease.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

3. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Leasing *(continued)*

Policy applicable before 1 September 2019

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

The Group as lessee

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see the accounting policy below).

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as prepaid lease payments in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease and accounted for as property, plant and equipment.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Retirement benefits cost

Payments to the Mandatory Provident Fund Scheme (the “MPF Scheme”) are recognised as an expense when employees have rendered service entitling them to the contributions.

Short-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Taxation

Income tax expenses represent the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from “profit before taxation” as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary difference between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation (continued)

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 Income Taxes requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Current and deferred tax are recognised in profit or loss.

Property, plant and equipment

Property, plant and equipment held for use in the production or supply of goods or services for administrative purposes are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Ownership interests in leasehold land and buildings

For payments of ownership interest of properties which includes both leasehold land and building elements, the entire property is presented as property, plant and equipment of the Group when the payments cannot be allocated reliably between the leasehold land and building elements.

Depreciation is recognised so as to allocate the cost of items of property, plant and equipment, less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Property, plant and equipment (continued)

Prior to the adoption of HKFRS 16, assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Intangible asset

Intangible asset with finite useful lives that is acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible asset with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss in the period when the asset is derecognised.

Impairment losses of tangible assets and intangible asset

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets and intangible asset to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit (the "CGU") to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGU, or otherwise they are allocated to the smallest group of the CGUs for which a reasonable and consistent allocation can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or the CGU) is reduced to its recoverable amount. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measureable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised as an expense immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the CGU) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or the CGU) in prior period. A reversal of an impairment loss is recognised as income immediately in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and cash equivalents

Bank balances and cash in the consolidated statement of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less. For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of bank balances and cash and short-term deposits as defined above.

Investments in subsidiaries

Investments in subsidiaries are stated in the statement of financial position of the Company at cost less accumulated impairment loss.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income ("FVTOCI"), and fair value through profit or loss ("FVTPL").

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

Financial assets at amortised cost (debt instruments)

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial instruments (continued)

Financial assets (continued)

Financial assets at amortised cost (debt instruments) (continued)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment.

(i) Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses ("ECL"), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

Interest income is recognised in profit or loss and is included in the "Other income" line item (note 9).

Financial assets at FVTPL

The Group invests in equity investments at the end of the reporting period. Those equity instruments are classified as at FVTPL, unless the Group designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the "fair value loss on financial assets at fair value through profit or loss" line item. Fair value is determined in the manner described in note 6(c).

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Financial assets at FVTPL (continued)

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Impairment of financial assets

The Group recognises a loss allowance for ECL on financial assets (including trade receivables, loan to an associate, deposits and other receivables) as well as contract assets. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables and contract assets. The ECL on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group measures the loss allowance equal to 12-month ECL, unless when there is a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered various external sources of actual and forecast economic information that relate to the Group's operations.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

Significant increase in credit risk (continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if i) the financial instrument has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term, and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

The Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

Measurement and recognition of ECL (continued)

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

3. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial instruments *(continued)*

Financial liabilities and equity instruments (continued)

Classification as debt or equity (continued)

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Fair value measurement

When measuring fair value except for leasing transactions and value in use of CGU for the purpose of impairment assessment, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Specifically, the Group categorised the fair value measurements into three levels, based on the characteristics of inputs, as follows:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

At the end of the reporting period, the Group determines whether transfer occur between levels of the fair value hierarchy for assets and liabilities which are measured at fair value on recurring basis by reviewing their respective fair value measurement.

4. CRITICAL ACCOUNTING JUDGEMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgement, estimates and assumptions about the carrying amounts of assets, liabilities, revenue and expenses reported and disclosures made in the consolidated financial statements. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgement in applying accounting policies

The following is the critical judgement, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised and disclosures made in the consolidated financial statements.

Revenue recognition

The Group recognises revenue from provision of installation services over time by measuring the progress towards complete satisfaction of the relevant performance obligation. The progress is determined based on the Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation by reference to the proportion of the actual costs incurred relative to the total expected contract costs, that best depict the Group's performance in transferring control of goods or services. Notwithstanding that the management reviews and revises the estimates of total cost incurred and expected to be incurred for each individual project as the contract progresses, the actual outcome of the contract in terms of its total revenue and costs may be higher or lower than the estimates and this will affect the revenue and profit recognised.

Key sources of estimation uncertainty

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimated impairment of trade receivables and contract assets

The impairment provisions for trade receivables and contract assets are based on assumptions about ECL. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the number of days that an individual receivable is outstanding as well as the Group's historical experience and forward-looking information at the end of the reporting period. Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge to the consolidated statement of profit or loss and other comprehensive income. At 31 August 2020, loss allowance of trade receivables and contract assets are approximately HK\$530,000 and HK\$8,000 respectively (2019: HK\$353,000 and HK\$12,000 respectively).

4. CRITICAL ACCOUNTING JUDGEMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(continued)*

Key sources of estimation uncertainty *(continued)*

Depreciation and useful lives of property, plant and equipment

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. The determination of the useful lives involve management's estimation based on the historical experience of the actual useful lives of the relevant assets of similar nature and function. The directors of the Company assess the useful lives of the property, plant and equipment annually and if the expectation differs from the original estimates, such a difference may impact the depreciation in the year and the estimates will be changed in the future period. As at 31 August 2020, the carrying amount of property, plant and equipment was approximately HK\$6,327,000 (2019: HK\$9,505,000).

Impairment assessment on security guarding services segment cash generating unit ("Security Guarding CGU")

The Group's Security Guarding CGU consists of certain property, plant and equipment and right-of-use assets. In determining whether there is any impairment loss of the Security Guarding CGU, management exercises significant judgement and makes estimates in assessing whether there is any indicator that the Security Guarding CGU has suffered an impairment loss and estimates the recoverable amounts of the Security Guarding CGU based on the value-in-use calculation. The value-in-use calculation is based on the management's assumptions and estimates taking into account the existing business plan and other strategic business development. These calculations require the use of estimates such as the future revenue, expenses and discount rates.

As at 31 August 2020, the carrying amounts of related property, plant and equipment and related right-of-use assets were HK\$184,000 (31 August 2019: HK\$648,000) and nil (1 September 2019: nil) respectively. An impairment loss of HK\$259,000 (2019: nil) and HK\$954,000 (2019: nil) have been recognised on property, plant and equipment and a right-of-use asset respectively in relation to the Security Guarding CGU during the year ended 31 August 2020.

5. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities within the Group will be able to continue as a going concern while maximising the return to stakeholder through the optimisation of the debt and equity balance. The Group's overall strategy remained unchanged from the prior year.

The capital structure of the Group consists of net debt, which includes lease liabilities disclosed in note 18 and bank borrowings disclosed in note 27, net of cash and cash equivalents disclosed in note 25 and equity attributable to owners of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure periodically. As part of the review, the directors of the Company consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors of the Company, the Group will balance its overall capital structure through new share issues as well as issue of debts.

(b) Financial risk management objective and policies

The Group's major financial instruments include loan to an associate, trade receivables, financial asset at FVTPL, deposits and other receivables, cash and cash equivalents, trade payables, accruals and other payables and bank borrowings. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments included market risk (interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to its variable-rate bank balances (see note 25) and bank borrowings (see note 27). It is the Group's policy to keep its bank borrowings at floating rate of interests so as to minimise the fair value interest rate risk.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Interbank Offered Rate ("HIBOR") and Prime Rate arising from the Group's Hong Kong dollar denominated borrowings.

The Group currently does not have an interest rate hedging policy. However, the directors of the Company monitor interest rate exposure and will consider other necessary action when significant interest rate exposure is anticipated.

6. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objective and policies (continued)

(i) Interest rate risk (continued)

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for the Group's variable-rate bank borrowings at the end of the reporting period. Bank balances are excluded from sensitivity analysis as a reasonably possible change in interest rates is not expected to have a material impact to the Group's profit for the year. The analysis is prepared assuming the variable-rate bank borrowings outstanding at the end of the reporting period were outstanding for the whole year. The basis point used represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 100 basis points (2019: 100 basis point) higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31 August 2020 would decrease/increase by approximately HK\$45,000 (2019: decrease/increase by approximately HK\$62,000). This is mainly attributable to the Group's exposure to interest rates on its variable-rate bank borrowings.

(ii) Other price risk

The Group is exposed to equity price risk through its investment in listed equity security. The Group manages this exposure by closely monitoring of fluctuation in share prices.

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to equity price risks at the end of the reporting period. If the prices of the respective equity instruments had been 10% (2019: 10%) higher/lower, post-tax profit for the year ended 31 August 2020 would increase/decrease by approximately HK\$8,000 (2019: increase/decrease by approximately HK\$21,000) as a result of the changes in fair value of financial assets at FVTPL.

(iii) Credit risk

As at 31 August 2020, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

The credit risk of the Group mainly arises from cash and cash equivalents, trade receivables, contract assets and deposits and other receivables.

In order to minimise the credit risk, the directors of the Company has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverability of each individual trade receivables, loan to an associate, deposits and other receivables included in deposits, prepayments and other receivables at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Notes to the Consolidated Financial Statements (Continued)

6. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objective and policies (continued)

(iii) Credit risk (continued)

For trade receivables and contract assets, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL by using a provision matrix, estimated based on historical credit loss experience, as well as the general economic conditions of the industry in which the debtors operate. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings.

The Group's exposure to credit risk

In order to minimise credit risk, the Group has tasked a team to develop and maintain the Group's credit risk gradings to categorise exposures according to their degree of risk of default. The management uses other publicly available financial information and the Group's own trading records to rate its major customers and other debtors. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Group's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising ECL
Performing	For financial assets where there has low risk of default or has not been a significant increase in credit risk since initial recognition and that are not credit impaired (refer to as Stage 1)	12-month ECL
Doubtful	For financial assets where there has been a significant increase in credit risk since initial recognition but that are not credit impaired (refer to as Stage 2)	Lifetime ECL – not credit-impaired
Default	Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred (refer to as Stage 3)	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written-off

(iv) Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, the Group relies on bank borrowings as a significant source of liquidity and the management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

Specifically, bank borrowings with a repayment on demand clause are included in the earliest time band regardless of the probability of the bank choosing to exercise their rights within one year after the reporting date.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

(c) Fair values measurements recognised in the consolidated statement of financial position

The following table provides an analysis of financial instruments that are measured at fair value at the end of each reporting period for recurring and non-recurring measurement, grouped into Levels 1 to 3 based on the degree to which the fair value is observable in accordance to the Group's accounting policy.

	Financial assets at FVTPL – Listed equity securities			Total HK\$'000
	Level 1	Level 2	Level 3	
	HK\$'000	HK\$'000	HK\$'000	
Financial assets at FVTPL				
As at 31 August 2020	81	–	–	81
As at 31 August 2019	214	–	–	214

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

6. FINANCIAL INSTRUMENTS (continued)

(c) Fair values measurements recognised in the consolidated statement of financial position (continued)

There were no transfers between levels of fair value hierarchy in the current year.

The valuation techniques and inputs used in the fair value measurements of each financial instruments on a recurring basis are set out below:

Financial instrument	Fair value hierarchy	Fair value as at		Valuation technique and key inputs	Significant unobservable inputs	Range	Relationship of key inputs and significant unobservable inputs to fair value
		31 August 2020 HK\$'000	31 August 2019 HK\$'000				
Equity security listed in Hong Kong	Level 1	81	214	Quoted bid prices in an active market	N/A	N/A	N/A

The directors of the Company consider that the carrying amounts of current financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements are not materially different from their fair values due to their immediate or short-term maturities.

The directors of the Company also consider that the carrying amounts of non-current financial liabilities recorded at amortised cost in the consolidated financial statements are not materially different from their fair values due to insignificant impact of discounting.

7. REVENUE

Revenue represents the revenue arising on provision of installation, maintenance and security guarding services for the year. An analysis of the Group's revenue for the year is as follows:

	2020 HK\$'000	2019 HK\$'000

11. INCOME TAX (CREDIT) EXPENSES (continued)

Notes:

- (i) On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of qualifying corporation will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. For the years ended 31 August 2020 and 2019, Hong Kong profits tax of the qualified entity of the Company is calculated in accordance with the two-tiered profits tax rates regime. The profits of other Group entities in Hong Kong not qualifying for the two-tiered profits tax rates regime will continue to be taxed at the flat rate of 16.5%.
- (ii) Tax exemption represented a reduction of Hong Kong Profits Tax for the year of assessment of 2019/2020 by 100% (2018/2019: 100%), subject to a ceiling of HK\$20,000 (2019: HK\$20,000) per case.

Details of deferred taxation are set out in note 29.

17. PROPERTY, PLANT AND EQUIPMENT *(continued)*

The above item of property, plant and equipment are depreciated on a straight-line basis at the following useful life or rates per annum:

Ownership interest in land and buildings	over the lease terms
Leasehold improvements	33% or over the lease term, whichever is shorter
Motor vehicles	25%
Computer equipment	20%
Office equipment, furniture and fixtures	20%

The carrying value of motor vehicles held under finance leases were as follows:

	2019 HK\$'000
Motor vehicles	2,447

In respect of motor vehicles under finance leases, the ownership of the motor vehicles will be transferred to the Group upon exercise of purchase option at the end of the lease term. The Group's obligation is secured by the lessor's title to the leased asset for such lease.

The carrying values of leasehold land and buildings of approximately HK\$5,413,000 (2019: HK\$5,606,000) were pledged to secure bank borrowings to the Group (note 27).

During the year ended 31 August 2020, an impairment loss of HK\$259,000 (2019: nil) was recognised in the profit or loss which was allocated to the Security Guarding CGU. Details of the impairment assessment are set out in note 18.

18. RIGHT-OF-USE ASSETS AND LEASE LIABILITIES

(i) Right-of-use assets

	At 31 August 2020 HK\$'000	At 1 September 2019 HK\$'000
Buildings	633	1,232
Motor vehicles	1,768	2,447
	2,401	3,679

The Group has lease arrangements for car parks, offices and motor vehicles. The lease terms are 1 to 5 years.

Extension options are included in the lease of buildings. Certain periods covered by extension options were included in these lease terms as the Group was reasonably certain to exercise the options. None of these leases include variable lease payments.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

18. RIGHT-OF-USE ASSETS AND LEASE LIABILITIES (continued)

(i) Right-of-use assets (continued)

In respect of lease arrangement for renting motor vehicles, the ownership of the motor vehicles will be transferred to the Group upon exercise of purchase option at the end of the lease term. The Group's obligation is secured by the lessor's title to the leased asset for such lease.

As at 31 August 2020, carrying amounts of Security Guarding CGU consisted of property, plant and equipment and right-of-use assets amounting to HK\$184,000 (31 August 2019: HK\$648,000) and nil (1 September 2019: nil) respectively. Management carried out an impairment assessment for the Security Guarding CGU, which was underperformed in the current year. The carrying amount of the assets of Security Guarding CGUs is written down to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. As a result, an impairment loss of property, plant and equipment and right-of-use assets of HK\$259,000 (2019: nil) and HK\$954,000 (2019: nil) respectively was recognised in profit or loss in current year. The estimates of the recoverable amounts were based on value-in-use calculations using discounted cash projection at pre-tax discount rate of 2.75% per annum based on the financial forecasts approved by management covering the remaining tenure of the lease.

Additions to the right-of-use assets for the year ended 31 August 2020, amounted to HK\$1,414,000, due to new leases of office and motor vehicles.

21. TRADE RECEIVABLES

	2020 HK\$'000	2019 HK\$'000
Trade receivables	23,402	19,560
Less: allowance for impairment of trade receivables	(530)	(353)
	22,872	19,207

At as 31 August 2020, the gross amount of trade receivable arising from contracts with customers amounted to HK\$23,402,000 (2019: HK\$19,560,000).

The Group does not have a standardised and universal credit period granted to its customers, and the credit period of individual customer is considered on a case-by-case basis and stipulated in the project contract, as appropriate. The following is an aged analysis of trade receivables, presented based on the date of certified report for installation service, or based on the invoice date for maintenance services and security guarding services, at the end of the reporting period:

	2020 HK\$'000	2019 HK\$'000
Within 30 days	10,292	7,307
31 to 60 days	6,655	5,891
61 to 90 days	2,580	2,111
Over 90 days	3,345	3,898
	22,872	19,207

The Group measures the loss allowance for trade receivables and contract assets at an amount equal to lifetime ECL. The ECL on trade receivables and contract assets are estimated using a provision matrix by reference to past default experience of the debtor, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

For the year ended 31 August 2020

21. TRADE RECEIVABLES (continued)

The Group recognised lifetime ECL for trade receivables based on the ageing of customers as follows:

As at 31 August 2020	Weighted Average expected loss rate %	Gross carrying amount HK\$'000	Loss allowance HK\$'000
Within 0-30 days	0.04%	10,296	4
31-60 days	0.58%	6,694	39
61-90 days	1.16%	2,610	30
91-360 days	2.01%	2,938	59
Over 360 days	46.06%	864	398
		23,402	530

As at 31 August 2019	Weighted Average expected loss rate %	Gross carrying amount HK\$'000	Loss allowance HK\$'000
Within 0-30 days	0.1%	7,314	7
31-60 days	0.2%	5,903	12
61-90 days	0.4%	2,119	8
91-360 days	1.2%	3,258	39
Over 360 days	29.7%	966	287
		19,560	353

The movement in the allowance for impairment of trade receivables is set out below:

	2020 HK\$'000	2019 HK\$'000
As at 1 September	353	–
Effect of adoption of HKFRS 9	–	547
Amount written off as uncollectible	(118)	–
Impairment losses recognised (reversal of impairment losses)	295	(194)
As at 31 August	530	353

The increase in allowance for impairment of trade receivables is mainly because of the increase in balances aged more than 30 days and the respective weighted average expected loss rate as at 31 August 2020.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

22. CONTRACT ASSETS AND CONTRACT LIABILITIES

Contract assets	2020 HK\$'000	2019 HK\$'000
Installation and maintenance services contracts	14,278	12,493
Less: allowance for impairment of contract assets	(8)	(12)
Total contract assets	14,270	12,481

The contract assets primarily relate to the Group's rights to consideration for work completed but not yet billed at the reporting date and retention receivables prior to expiration of defect liability period. The contract assets are transferred to trade receivables when the rights become unconditional.

The balance of contract assets is expected to be recovered within one year.

The Group measures the loss allowance for contract assets at an amount equal to lifetime ECL. The basis is set out in note 21. As at 31 August 2020, the weighted average expected loss rate applied to contract assets was approximately 0.05% (2019: 0.1%).

The movement in the allowance for impairment of contract assets is set out below:

	2020 HK\$'000	2019 HK\$'000
As at 1 September	12	–
Effect of adoption of HKFRS 9	–	121
Impairment losses reversed	(4)	(109)
As at 31 August	8	12

Contract liabilities	2020 HK\$'000	2019 HK\$'000
Installation services contracts	439	510
Current portion	439	510

Contract liabilities include advances received to render installation services.

Typical payment terms which impact on the amount of contract liabilities are as follows:

The Group typically receives 10% to 20% of the contract value as deposits and advance payments for the projects when the contract is entered into, while the amount of deposits and advance payments may be varied depending on the business relationship with the customers. The deposits and advance payments result in contract liabilities being recognised until revenue recognised on the relevant contract exceeds the amount of deposits and advance payments.

Revenue recognised during the year ended 31 August 2020 that was included in the contract liabilities as at 31 August 2019 is HK\$510,000 (2019: HK\$267,000). There was no revenue recognised in the current year that related to performance obligations that were satisfied in a prior year.

26. TRADE PAYABLES

	2020 HK\$'000	2019 HK\$'000
Trade payables	3,431	3,522

The following is an aged analysis of trade payables presented based on the invoice date at the end of the reporting period:

	2020 HK\$'000	2019 HK\$'000
Within 30 days	2,510	1,832
31 to 60 days	180	194
61 to 90 days	–	314
Over 90 days	741	1,182
	3,431	3,522

Trade payables represented payables to suppliers and subcontractors. The credit terms granted by subcontractors were stipulated in the relevant contracts and the payables were usually due for settlement within 30 – 60 days. The Group has financial risk management policies in place to ensure that all payables are settled within the credit timeframe.

27. BANK BORROWINGS

	2020 HK\$'000	2019 HK\$'000
Secured	5,375	7,456
Carrying amount repayable (based on scheduled repayment dates set out in the loan agreements):		
Within 1 year which contains a repayment on demand clause	3,903	5,079
After 1 year but within 2 years which contains a repayment on demand clause	923	903
After 2 year but within 5 years which contains a repayment on demand clause	549	1,474
	5,375	7,456

As at 31 August 2020, secured bank borrowings carried interest at floating rates ranging from 2.15% to 3.25% (2019: 2.15% to 3.375%) per annum.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

27. BANK BORROWINGS (continued)

As at 31 August 2020, bank borrowings of approximately HK\$1,472,000 (2019: HK\$2,377,000) that are repayable after 1 year were classified as current liabilities as the respective loan agreements contain the repayable on demand clause.

The bank borrowings were denominated in HK\$ as at 31 August 2020 and 2019.

The amounts of banking facilities and the utilisation are set out as follows:

	2020 HK\$'000	2019 HK\$'000
Facility amount	21,528	21,528
Utilisation		
– Secured bank borrowings	5,375	7,456

As at 31 August 2020, the above banking facilities were secured by the Group's ownership interest in land and buildings (note 17) with a carrying value of approximately HK\$5,413,000 (2019: HK\$5,606,000).

During the year ended 31 August 2020, the Company has provided guarantee to the bank in respect of the banking facilities of HK\$21,528,000 (2019: HK\$21,528,000) granted to its subsidiaries.

28. OBLIGATIONS UNDER FINANCE LEASES

	2019 HK\$'000
Analysed for reporting purposes as:	
Current liabilities	760
Non-current liabilities	1,527
	2,287

The Group had leased certain of its motor vehicles under finance leases. The lease term ranged from 3 to 5 years during the year ended 31 August 2019. The obligations under finance leases carried interest at fixed rates from 2.25% to 3.50% per annum during the year ended 31 August 2019. The effective interest rate for the obligations under finance leases for the year ended 31 August 2019 ranged from 5.18% to 8.73% per annum.

The obligations under finance leases of the Group were secured by the lessor's charge over the leased assets and denominated in HK\$.

29. DEFERRED TAX LIABILITY

The following is the deferred tax liability recognised and movements thereon during the current and prior years:

	Accelerated tax depreciation HK\$'000
At 1 September 2018	694
Credited to profit or loss (note 11)	(8)
At 31 August 2019 and 1 September 2019	686
Credit to profit or loss (note 11)	(50)
At 31 August 2020	636

At the end of the reporting period, the Group does not recognise deferred tax asset of approximately HK\$259,000 (2019: HK\$87,000) in respect of un-utilised tax losses amounting to approximately HK\$1,570,000 (2019: HK\$528,000) due to the unpredictability of future profit streams. The un-utilised tax losses can be carried forward indefinitely against future taxable income.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

29. DEFERRED TAX LIABILITY (continued)

At the end of the reporting period, the Group has deductible temporary differences of HK\$1,751,000 (2019: HK\$365,000). No deferred tax asset has been recognised in relation to the differences as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

30. SHARE CAPITAL

Movements of the authorised and issued share capital of the Company for the years ended 31 August 2020 and 2019 are as follows:

	Number of ordinary shares	Share capital HK\$'000
Ordinary shares of HK\$0.01 each		
Authorised:		
At 1 September 2018, 31 August 2019, 1 September 2019 and 31 August 2020	3,800,000,000	38,000

At 1 September 2018, 31 August 2019, 1 September 2019 and 31 August 2020	1,600,000,000	16,000

All shares issued rank pari passu with the existing shares in all respects.

31. RETIREMENT BENEFIT PLANS

The Group operates a MPF Scheme for all qualifying employees in Hong Kong. The assets of the schemes are held separately from those of the Group, in funds under the control of trustees. The Group contributes 5% of relevant payroll costs to the MPF Scheme, and subject to a cap of HK\$1,500 per month in which the contribution is matched by employees.

The total expense recognised in the consolidated statement of profit or loss and other comprehensive income is approximately HK\$2,733,000 (2019: HK\$2,105,000) for year ended 31 August 2020, which represent contributions payable to the MPF Scheme by the Group at rates specified in the rules of the scheme.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 August 2020

32. OPERATING LEASE COMMITMENT

The Group as lessee

At 31 August 2019, the Group had commitment for future minimum lease payments under non-cancellable operating leases which fall due as follows:

	2019 HK\$'000
Within one year	1,139
In the second to fifth years inclusive	637
	1,776

Operating lease payments represent rentals payable by the Group for certain of its car parks, office premise and warehouse. Leases are negotiated for original term of one to three years and rentals are fixed over the lease term of the respective leases.

The Group is the lessee in respect of a number of properties which the leases were previously classified as operating leases under HKAS 17. The Group has initially applied HKFRS 16 using modified retrospective approach. Under this approach, the Group adjusted the opening balances at 1 September 2019 to recognise lease liabilities relating to these leases. From 1 September 2019 onwards, future lease payments are recognised as lease liabilities in the consolidated statement of financial position in accordance with the policies set out in note 3, and the details regarding the Group's future lease payments are disclosed in note 18.

The Group as lessor

Property rental income earned during the year was HK\$216,000 (2019: HK\$131,000). At the end of the reporting period, the Group had contracted with tenants for the following future minimum lease payments.

	2020 HK\$'000	2019 HK\$'000
