**ANNOUNCEMENT OF THIRD QUARTERLY RESULTS
FOR THE NINE MONTHS ENDED 31 JANUARY 2021**

**CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED
(THE “STOCK EXCHANGE”)**

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the “Bill”) which introduced the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities in Hong Kong not qualifying for the two-tiered profits tax rates regime will continue to be taxed at the flat rate of 16.5%.

Accordingly, the Hong Kong Profits Tax is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million for the Group’s qualifying entity.

The Board does not recommend the payment of any dividend for the nine months ended 31 January 2021 (nine months ended 31 January 2020: Nil).

9. EARNINGS/(LOSS) PER SHARE

Basic and diluted earnings/(loss) per share

(a) From continuing and discontinued operations

The calculation of the basic and diluted earnings per share from continuing and discontinued operations attributable to the owners of the Company is based on the following data:

	Three months ended 31 January		Nine months ended 31 January	
	2021 HK\$’000 (Unaudited)	2020 HK\$’000 (Unaudited)	2021 HK\$’000 (Unaudited)	2020 HK\$’000 (Unaudited)

	Number of shares	Number of shares	Number of shares	Number of shares

Effect of dilutive potential ordinary shares in respect of share options	<u>219,592,551</u>	–	<u>258,228,275</u>	–
Weighted average number of ordinary shares for the purpose of diluted earnings/(loss) per share	<u>14,586,693,623</u>	<u>14,367,101,072</u>	<u>14,625,329,347</u>	<u>14,367,101,072</u>

No diluted earnings/(loss) per share is presented for both periods since the assumed exercise of the share options would result in a decrease in diluted earnings/(loss) per share.

9. EARNINGS/(LOSS) PER SHARE (CONTINUED)

Basic and diluted earnings/(loss) per share (Continued)

(b) From continuing operations

The calculation of the basic and diluted earnings/(loss) per share from continuing operations attributable to the owners of the Company is based on the following data:

	Three months ended 31 January		Nine months ended 31 January	
	2021	2020	2021	2020
	HK\$'000	HK\$'000	HK\$'000	HK\$'000
	(Unaudited)	(Unaudited)	(Unaudited)	(Unaudited)
Earnings/(loss) for the period from continuing operations	<u>24,647</u>	<u>(6,629)</u>	<u>(21,105)</u>	<u>(13,688)</u>

The denominators used are the same as those detailed above for both basic and diluted earnings/(loss) per share.

No diluted earnings/(loss) per share from continuing operations is presented for both periods since the assumed exercise of the share options would result in a decrease in diluted earnings/(loss) per share.

(c) From discontinued operation

For the period ended 31 January 2021, basic earnings/(loss) per share from discontinued operation was HK\$0.030 cents per share (2020: HK\$0.028 cents per share), which were calculated based on the loss from discontinued operation for the period ended 31 January 2021 of HK\$4,249,000 (2020: HK\$4,061,000) and the denominators detailed above.

10. GAIN ON DISPOSAL OF THE SUBSIDIARIES

12. EVENT AFTER THE END OF REPORTING PERIOD

On 8 February 2021, the Company entered into the conditional sale and purchase agreement (“SPA”) with Sun Wui Property Development Limited (the “Purchaser”), an independent third party, pursuant to which the Company conditionally agreed to sell and assign the benefit of, 100,000 ordinary shares in the issued and fully paid-up share capital of Wui Loong Holdings Company Limited, a wholly-owned subsidiary of the Company, (the “Sale Shares”), and the Purchaser agreed to purchase and take the assignment of, the Sale Shares and the loans owing by Wui Loong Holdings Company Limited as at the date of completion at the Consideration of HK\$75,879,653.00.

As the Purchaser is ultimately beneficially owned by Mr. So Yu Shing, the chairman of the Board and an executive Director, and Lai Yuen Mei, Rebecca, an executive Director, the Purchaser is therefore a connected person of the Company under the GEM Listing Rules. Accordingly, the Disposal also constitutes a connected transaction of the Company under Chapter 20 of the GEM Listing Rules and is subject to the reporting, announcement, circular and Independent Shareholders’ approval requirements under Chapter 20 of the GEM Listing Rules. The extraordinary general meeting (“EGM”) for the Independent Shareholders’ approval will be convened for the purposes of, among other matters, considering and, if thought fit, approving the SPA and the Disposal.

The Company will, in effect, dispose of the Property through the disposal of the Sale Shares. Upon Completion, the Wui Loong Holdings Company Limited will cease to be a subsidiary of the Company.

For the nine months ended 31 January 2021 (herein referred to as the “Reporting Period”), the revenue of the Group amounted to approximately HK\$102.4 million (For the same period of 2020: HK\$113.0 million), representing a decrease of approximately 9.4% compared to the corresponding period in 2020. Net loss attributable to owners of the Company from continuing operations during the Reporting Period was approximately HK\$21.1 million (For the same period of 2020: HK\$13.7 million). The decrease in revenue was mainly due to the decrease in contract revenue generated from scaffolding, fitting out and other auxiliary services for construction and buildings work during the Reporting Period. Also, the increase in net loss attributable to owners of the Company from continuing operations was mainly due to the increase on the recognition of expected credit losses on the balances under the contract assets, trade and loan receivables of approximately HK\$47.7 million set off with the increase on the fair value gain incurred in the Group’s securities investment portfolios by approximately HK\$21.7 million, gain on disposal of the subsidiaries of approximately HK\$13.8 million and the government subsidy of approximately HK\$4.1 million compared to the corresponding period in 2020. During the Reporting Period, our money lending business continued to contribute stable revenue to the Group and served as one of the major income sources of the Group.

Scaffolding, Fitting out and Other Auxiliary Services for Construction and Buildings Work

The scaffolding, fitting out and other auxiliary services for construction and buildings work was the largest business segment during the Reporting Period. This segment includes scaffolding services, fitting out services and other auxiliary services for construction and buildings work. During the Reporting Period, revenue from this segment was approximately HK\$63.4 million, representing a significant decrease of approximately HK\$5.4 million as compared to the corresponding period in 2020, due to less new construction projects being approved by the Government of the HKSAR as its operation has been limited by various measures for prevention of the spread of coronavirus disease 2019 (“COVID-19”), and the slowing down in the progress of existing construction projects caused by (i) delay in the delivery process of construction materials imported from mainland China as a result of the outbreak of COVID-19 and enhanced border control for prevention of disease; and (ii) less available workers in the market as a result of travel restrictions.

Scaffolding Services

In recent years, a number of large-scale infrastructure projects have been carried out by the HKSAR to boost the construction industry and well-being of the society. For this purpose, a multi-pronged strategy has been adopted by the government to maintain a steady and sustainable land supply with the aim to meet the continuing housing needs.

On the other hand, in the past few years, the entire scaffolding industry encountered the major difficulty of shortage in supply of skilled workers and experienced personnel. Such shortage resulted in rising labour costs and diminishing profit margins throughout the industry, which further intensified competition within the scaffolding sector. However, it is worth mentioning that the Group's patented scaffolding system, which is known as "Pik-Lik", has played a crucial role in saving manpower and enhancing efficiency in the industry.

Leveraging the widespread recognition of the impeccable quality of services and the strong relationships nurtured with clientele, the Group receives positive feedback and prominent business support and takes pride in being one of the leading scaffolding service providers in Hong Kong. During the Reporting Period, the Group provided scaffolding services to 55 ongoing projects, 23 of which were completed on schedule and 25 new contracts were awarded.

Fitting out Services

For the fitting out services, the Group mainly provided fitting out services to commercial institutions and luxury residence end-users during the Reporting Period. The Group has also extended its scope of services to include ceiling work and to date, it has been receiving encouraging feedback from its clients. The competition of fitting out services is keen. The Group will continue to proactively acquire new contracts.

Other Auxiliary Services for Construction and Buildings Work

For other auxiliary services for construction and buildings work, the Group mainly provided gondolas, parapet railings and access equipment installation and maintenance services. The Group has been actively cultivating its gondolas rental business over the past several years and has gained positive 'worth-of-mouth' in the market. This has enabled the Group to secure a stable number of new contracts despite the competitive local market.

Money Lending Business

Under the economic impacts from the outbreak of COVID-19 since the end of 2019, there is an increasing trend for more corporations and individuals to obtain loans for financing to reduce the cash-flow pressure on them and lessen such local economic impacts of the outbreak. With relatively attractive interest returns on short-term and long-term loans during the Reporting Period, the Group recorded an increase of the revenue in this segment during the Reporting Period.

The business segment generated an increase of revenue to the Group and the Group recorded a turnover of approximately HK\$37.7 million during the Reporting Period (For the same period of 2020: approximately HK\$33.4 million). The principal amount of the loans granted ranged from HK\$0.2 million to HK\$25.0 million with interest rates ranging from 7.5% to 18% per annum during the Reporting Period.

Securities Investment Business

In order to capture possible returns from the financial market, the Group has formed the investment committee in year 2015/2016 and continued investing in Hong Kong-listed securities during the Reporting Period. Due diligence was conducted on every contemplated investment and each investment was taken into serious consideration to ensure quality risk control and maximise shareholders' benefits.

The Group recorded a net gain of approximately HK\$2.7 million (For the same period of 2019: net loss of approximately HK\$17.7 million) for its investment portfolio for the Reporting Period, which was mainly due to the upward trend of the stock market in Hong Kong. The Group foresees that the global economy will be getting better in year 2020/2021 as a result of the vaccine coming out for COVID-19 pandemic. The investment committee will continue to monitor the Group's investment portfolio closely in order to maximum shareholders' returns.

Assets Management Business

Following the acquisition of the entire issued share capital of Blue Pool Ventures Limited in March 2018, the holding company of Mass Fidelity Asset Management Limited, a licensed insurance broker and registered MPF Corrate Intermediary in Hong Kong, the Group had commenced the business of assets management in March 2018. For the Reporting Period, the assets management business recorded a revenue of approximately HK\$1.4 million which is the same as compared to the corresponding period in 2020.

Disposal of OX Securities and OX Assets Management

On 11 December 2019, the Company as vendor entered into the S&P Agreement in respect of the Disposal with Mr. Tsang Pui Lan Patrick, an independent third party (i.e. the Buyer), as purchaser, pursuant to which the Company conditionally agreed to (i) sell the entire issued share capital of Bright Advantage and OX Financial Group, each a wholly-owned subsidiary of the Company; and (ii) assign the benefit of the loans owing by each of Bright Advantage and OX Financial Group to the Company as at completion of the S&P Agreement, to the Purchaser at a consideration as determined in accordance with the terms of the S&P Agreement.

Bright Advantage and OX Financial Group respectively own the entire issued share capital of OX Securities, a company licensed to carry out type 1 (dealing in securities) regulated activity under the SFO (Chapter 571 of the Laws of Hong Kong), and OX Assets Management, a company licensed to conduct type 4 (advising on securities) and type 9 (asset management) regulated activities under the SFO.

The aforesaid conditions precedent require, among other matters, the approval of the SFC for the Purchaser (and his nominees (if any)) to become substantial shareholder(s) of OX Financial Group and Bright Advantage under the SFO having been obtained. As at the date of this announcement, such approval has been obtained and the Disposal has been completed on 17 December 2020. Details of the Disposal are set out in the announcements of the Company dated 11 December 2019 and 17 December 2020.

After completion of the Disposal, each of Bright Advantage, OX Financial Group, OX Securities and OX Assets Management will cease to be a subsidiary of the Company and the Group will cease its business in the segment of securities brokerage and margin financing.

The gain on disposal of the subsidiaries and the operating results of the segment of securities brokerage and margin financing which was reclassified as discontinued operation during the Reporting Period are set out in notes 10 & 11 to the unaudited condensed consolidated financial statements respectively.

IMPACT CAUSED BY THE OUTBREAK OF COVID-19

Our business operations and financial conditions are affected by the outbreak of COVID-19 for the Reporting Period. Below are the relevant analyses for our two largest business segments – scaffolding, fitting out and other auxiliary services for construction and buildings work and money lending:

Scaffolding, Fitting Out and Other Auxiliary Services for Construction and Buildings Work

In 2020/2021, since the operation of the Government of HKSAR has been limited by various measures for prevention of the spread of COVID-19, the number of new construction projects and contracts approved by the relevant government department has decreased. The delivery process of construction materials imported from mainland China was also delayed by the outbreak of COVID-19 and enhanced border control for prevention of disease. In addition, less workers are available in the market due to travel restrictions, which further slowed down the progress of existing construction projects. Competition within the construction industry has become even more intense during this period as there are less new projects in the market. In related to the decrease of the number of new projects in the market, the Group have to lower the contract price for those new projects in the market to obtain them under the intensive competition during the Reporting Period. Therefore, the Group recorded a decrease in its revenue from this segment during the Reporting Period compared to the corresponding period in 2020.

Money Lending

Under the economic impacts of COVID-19, there is an increasing trend for more corporations and individuals to obtain loans for financing to reduce the cash-flow pressure on them and lessen such impacts. Hence, our money lending business recorded an increase in loan portfolio during the Reporting Period.

BUSINESS OUTLOOK

As we entered calendar year 2020/2021, the outbreak of COVID-19 together with the challenges posed by the political unrest in Hong Kong in the past months mean a double blow to the Hong Kong economy and further contribute to a downward trend in the Hong Kong property market.

The impacts of COVID-19 have caused pressure worldwide and dampened the development of various industries, with no exception for the scaffolding industry. In the past decade, the scaffolding industry has become increasingly competitive. On the one hand, the costs have become high together with rising labour costs, but productivity has suffered decline. In the face of a phenomenon of ageing workers, young generation unwilling to join the industry due to hard labour work and higher requirement of technological qualifications, which has affected recruitment of talents in the industry, and with heavier government regulations, without favourable factors such as labour imports, the carrying capacity of the industry may be challenged. These reflect a lack of confidence in the prospect of the scaffolding industry.

On the other hand, in response to demand from market development, many contractors have adopted the use of metal scaffolds instead of bamboo scaffolds nowadays. The general higher durability of metal scaffolds and the possibility of calculating load bearing capacity have shortened the time for training of workers. Hence, bamboo scaffolds may be eliminated in Hong Kong in the future. According to recent trend, modern metal scaffolds have been adopted by the industry, especially for high-end shopping malls which are aware of exterior appearance. Therefore, the future direction of the scaffolding business will be led by the adoption of mixed scaffolds and metal scaffolds.

Looking ahead to 2020/2021, in view of present economic uncertainty and difficulties, the Group is reviewing its existing assets structure and business strategies and may make adjustment to our existing assets structure, with the aim to consolidate our resources, so as to be flexibly prepared for uncertainties in the future. Meanwhile, in order to enhance our competitiveness, the Group will look for opportunities to revitalise the scaffolding business to keep up with the recent development and trend in the industry, in particular the declining use of bamboo scaffolds. At the same time, the Group will continue focusing on those business segments that generate higher profit margins and show ample growth potential such as money lending operations. The Group will strictly adhere to its cost control policy, and swiftly adjust business strategies of its scaffolding business in response to ever-changing market dynamics in order to generate better financial returns for shareholders.

Finally, we will actively explore all suitable investment opportunities to diversify the Group's business horizons and will work hard to strengthen overall business development. The Group's business strategy is in line with the general direction of the government's overall strategic development plans for property construction, infrastructure investment and financial market development.

FINANCIAL REVIEW

During the Reporting Period, revenue decreased by approximately 9.4% as compared with the corresponding periods in the preceding financial year. To maintain a balanced business portfolio, the management of the Group has been actively looking for other business opportunities and possible geographic diversification in recent years. Projects in the scaffolding, fitting out and other auxiliary services for construction and buildings work and money lending business contributed substantial revenue to maintain the financial stability of the Group in anticipation of future growth.

During the Reporting Period, operating and administrative expenses increased from approximately HK\$32.1 million to approximately HK\$33.0 million which is similar as compared to the corresponding period in 2020. Finance costs decreased from approximately HK\$6.9 million to approximately HK\$6.8 million. The Group continued to adopt its policy of vigilant cost control for the ensuing periods. Funds generated from financing activities strengthened the working capital of the Group in anticipation of further investment and diversification opportunities in the future.
