FIRST QUARTERLY RESULTS ANNOUNCEMENT FOR THE THREE MONTHS ENDED 31 MARCH 2021

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the directors (the “Directors”) of Indigo Star Holdings Limited (the “Company”, and collectively with its subsidiaries, the “Group”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

We are an established subcontractor in Singapore specialising in providing reinforced concrete work, comprising steel reinforcement works, formwork erection and concrete works. We may provide such services either individually or as a total package comprising all three, depending on the requirements of our customers. We have also ventured into projects as a main contractor. Our projects can be categorised into general building projects and civil engineering projects.

General building works refer to general construction and major repair works, piling works, finishing works, installation of doors, windows, sanitary products, curtail walling/cladding works, structural works, other special trade construction such as scaffolding and sandblasting, and production of pre-cast components. Our general building works relate primarily to the construction of hotels, hospitals, mixed development and court buildings.

During the three months ended 31 March 2021, we recorded revenue from general building projects of approximately S\$2.8 million (three months ended 31 March 2020: S\$3.6 million), which accounted for approximately 88.3% of our total revenue for the same period (three months ended 31 March 2020: 84.9%).

Civil engineering works refer to non-building construction such as the construction of roads, bridges, tunnels, railways, viaducts, water and gas pipelines, sewers, communications and power lines, marine construction as well as site-preparation and construction-related landscaping works. Our civil engineering works relate primarily to the construction of MRT stations.

During the three months ended 31 March 2021, we recorded revenue from civil engineering projects of approximately S\$0.4 million (three months ended 31 March 2020: S\$0.6 million), which accounted for approximately 11.7% of our total revenue for the same period (three months ended 31 March 2020: 15.1%).

As at 31 March 2021, we had three ongoing contracts with an aggregate outstanding contract value of approximately S\$7.3 million.

INDUSTRY OVERVIEW AND PROSPECTS

During the Reporting Period, the Group was continuously impacted by the COVID-19 pandemic. The Group has made efforts to seek business opportunities and new projects to secure its financial performance.

The COVID-19 pandemic has caused significant pressure to the economy in Singapore. The economic relief measures taken by the Singapore government, in particular, the S\$1.36 billion worth Package will come to an end this year. COVID-19 has also disrupted the supply of labour to the construction sector. The recent measures to ban travellers from India from entering Singapore will have an impact on the construction sector. It is expected to face further delays to building and housing projects already hampered by the pandemic.

Nevertheless, the National Development Minister expected construction contracts for the built environment sector to grow to between S\$23 billion and S\$28 billion this year. The growth will be supported by public sector developments such as public housing, transport and healthcare infrastructure. Also the public sector is expected to contribute about 65% of the overall construction demand for 2021. Therefore the management of the Group is optimistic to the sustained recovery of construction demand over the next few years.

Meanwhile, to make robust development, the Group deals with risks such as credit risk and liquidity risk arising from its operations through internal risks reports which analyse exposure by degree and magnitude of risk. For credit risk management, the Group has adopted the policy to deal only with high credit quality and good history counterparties to minimise credit risk. For the liquidity risk management, the Group carefully monitors and maintains sufficient reserves of cash for expected liquidity requirements.

Going forward, the Group will continue to identify main contractor works and subcontracting works to capture more potential business opportunities in Singapore. Moreover, the Group is continuing its efforts to upgrade its licence from C1 Grade to B2 Grade to enable the Group to tender for a wider scope of projects.

The funds raised from the Listing have laid a solid foundation for the future development of the Group. Looking ahead, the Group will endeavor to strengthen the development of its existing businesses and to provide steady return as well as growth prospects for the Company's shareholders.
