

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

MANAGEMENT DISCUSSION AND ANALYSIS

Business Overview

AL Group Limited (the “Company”) together with its subsidiaries (collectively referred to as the “Group”), are principally engaged in the provision of interior design and fit out solutions as well as overall project management in Hong Kong. The Group’s business was established in 1999 under the name of AL Design & Associates Limited (“AL Design”), which is a well-established interior design and fit out solutions provider in Hong Kong. The Group believes that its success is firmly rooted in its extensive experience and portfolio in interior design and fit out works as well as project management. The Group’s services can be broadly categorised as (i) design and fit out and (ii) design only. In addition, the Group also provides maintenance and aftersales services which could cater for its customers’ different requirements.

Excluding projects relating to maintenance and aftersales service, during the three months ended 31 March 2021, our number of projects decreased by approximately 46.2% over the same period in 2020. The total revenue decreased by approximately 33.1% to approximately HK\$17.8 million, while the average revenue per project has increased to approximately HK\$1.27 million from approximately HK\$1.02 million over the same period in 2020.

While adjusted EBITDA is commonly used in the interior design industry worldwide as an indicator of operating performance, leverage and liquidity, it is not presented as a measure of operating performance in accordance with Hong Kong Financial Reporting Standards and should not be considered as representing net cash flows from operating activities. The computation of the Group's adjusted EBITDA may not be comparable to similarly-titled measures of other companies.

For the three months ended 31 March 2021, the Group's revenue decreased when compared to the same period in 2020. The Group's revenue amounted to approximately HK\$17.8 million, representing a decrease of approximately 33.3% from the same period in 2020.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

The Group's gross profit for the three months ended 31 March 2021 amounted to approximately HK\$3.4 million, representing a decrease of approximately 21.5% over the same period in 2020 as a result of the epidemic of Coronavirus Disease 2019 which continued to weaken business environment and keen competition in the market. Gross profit margin increase from approximately 16.0% to approximately 18.8%. The increase in gross profits margin was mainly due to in view of the unstable economic condition and adverse business environment, and the COVID-19 pandemic, the management of the Group implements extensive control of cost on the projects and was able to negotiate with contractors for lowering their cost which contributes to a better margin for the Group.

The Group's operating expenses for the three months ended 31 March 2021 were approximately HK\$8.7 million when compared to approximately HK\$7.1 million for the same period in 2020. The increase in operating expenses was mainly due to increase of administrative expenses.

For the three months ended 31 March 2021, the Group's adjusted EBITDA amounted to approximately HK\$-4.4 million as compared to approximately HK\$-1.8 million for the same period in 2020, mainly driven by the decline in the overall gross profit for the Group's business. The Group recorded a loss attributable to owners of the Company of approximately HK\$5.9 million for the three months ended 31 March 2021 when compared to a loss attributable to owners of the Company of approximately HK\$3.9 million for the same period in 2020. Besides the effect of decline in the overall gross profit mentioned above, such change was mainly attributable to increase in operating expenses and an increase in finance cost due to increase in borrowings and interest rate of the promissory note by the Group during 2020.

Liquidity, Financial Resources and Capital Structure

The Group practiced prudent financial management and maintained a strong and sound financial position during the three months ended 31 March 2021. As of 31 March 2021, the Group had cash and cash equivalents of approximately HK\$17.6 million (31 December 2020: approximately HK\$24.6 million).

As at 31 March 2021, the Company's total number of issued shares was 888,400,000 (31 December 2020: 872,400,000) at HK\$0.01 each.
