2. BASIS OF PRESENTATION AND PREPARATION

The unaudited condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) (which comprise all standards and interpretations) issued by the International Accounting Standards Board (the “IASB”) and the applicable disclosure requirements of the GEM Listing Rules.

The unaudited condensed consolidated financial statements are presented in Singapore dollar (“S\$”) and all values are rounded to the nearest thousand (“S\$’000”) except when otherwise indicated. The comparative financial information has been prepared under the historical cost convention, as modified by the revaluation of biological assets and agricultural produce. The investments in insurance contracts are subsequently stated at the cash surrender value. The condensed consolidated financial statements for the three months ended 30 June 2021 have not been audited by the Company’s independent auditor, but have been reviewed by the audit committee of the Board (the “Audit Committee”).

The preparation of unaudited condensed consolidated results in conformity with IFRSs requires the management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

2. BASIS OF PRESENTATION AND PREPARATION *(Continued)*

The basis of preparation and accounting policies adopted in the preparation of the unaudited condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 March 2021, except for those that relate to new standards or interpretations effective for the first time for the annual period beginning on or after 1 April 2021.

The Group has applied the following new and amendments to IFRSs for the first time in the current accounting period:

The chief operating decision-maker has been identified as the chief executive of the Company ("CODM"). The CODM reviews the Group's internal reporting in order to assess performance and allocate resources. Management has determined the operating segment based on these reports.

CODM assesses the performance of these single segments based on revenue, segment results and income/expenses arriving the segment results. Segment result represents the profit earned by each segment without allocation of finance costs, unallocated other income and unallocated corporate expenses are mainly including general administration expense.

Management Discussion and Analysis

BUSINESS REVIEW AND OUTLOOK

The Group continues to focus on its core business of egg production and distribution in Singapore. The Group operates its own egg laying farm in Singapore and sources fresh chicken eggs from third party suppliers. There have been no changes to its business model.

The Group's revenue has increased by approximately 30% from approximately S\$11.5 million for the three months ended 30 June 2020 to approximately S\$14.9 million for the three months ended 30 June 2021. The additional revenue arose from an enlargement in the customer base arising from the acquisitions made last year.

The impact of Coronavirus Disease 2019 ("COVID-19") has resulted in the government diversifying its egg supply sources to strengthen Singapore food resilience. Accordingly, egg importers have to diversify its supply sources and there have been an influx of eggs for suppliers from countries other than Malaysia. This has resulted in periodic disruptions in the Singapore egg market, leading to price volatility. In the financial year under review, it has depressed our gross margins as we increased our sales.

For the three months ended 30 June 2021, the Group's net profit decreased by approximately S\$0.3 million from approximately S\$0.9 million for the three months ended 30 June 2020 to approximately S\$0.6 million for the three months ended 30 June 2021.

The planned expansion of its chicken eggs laying facilities at the current farm and processing facilities is currently underway. Based on current projections and barring any unforeseen circumstances, the facilities will progressively be completed and production of fresh chicken eggs is expected to start in the second quarter of 2022.

The construction of quail egg farm is currently underway and is expected to be completed in end of 2021.

Given the above, the Group is currently exploring various options to fund the expansion. With the planned expansions, the Group is expected to consolidate its market presence as a leading eggs distributor in Singapore.

The egg market in Singapore will continue to be challenging going forward as demand may be affected by the difficult economic conditions caused by the ongoing pandemic and the gradual withdrawals of governmental support for business and the public.

As part of its plan to diversify its business risks from just eggs in Singapore, the Group is exploring into other related businesses in different geographical areas.

FINANCIAL REVIEW

Revenue

(i) Fresh eggs

For the three months ended 30 June 2021 and 2020, approximately 72% and approximately 75% of the revenue was derived from the sales of fresh eggs. Revenue increased by approximately S\$2.1 million from approximately S\$8.7 million for the three months ended 30 June 2020 to approximately S\$10.8 million for the three months ended 30 June 2021, primarily driven by the enlargement in the customer base arising from the acquisitions made last year.

(ii) Processed eggs

For the three months ended 30 June 2021 and 2020, approximately 28% and approximately 25% of the revenue was derived from the sales of processed eggs. Revenue increased by approximately S\$1.3 million from approximately S\$2.8 million for the three months ended 30 June 2020 to approximately S\$4.1 million for the three months ended 30 June 2021. Such increase was primarily due to the increase in sales to Food & Beverages customers due to the gradual COVID-19 recovery in Singapore.

Cost of Sales

The Group's total cost of sales increased by approximately S\$3.8 million, or approximately 36% from approximately S\$10.7 million for the three months ended 30 June 2020 to approximately S\$14.5 million for the three months ended 30 June 2021 primarily due to the increase in sourced eggs as a result of enlargement in the customer base arising from the acquisitions made last year.

Gross Profit and Gross Profit Margin

The gross profit before agriculture produce fair value adjustments decreased by approximately S\$0.3 million or from approximately S\$3.2 million for the three months ended 30 June 2020 to approximately S\$2.9 million for the three months ended 30 June 2021. The gross profit after agricultural produce fair value adjustments decreased by approximately S\$0.4 million or approximately 44%, from approximately S\$0.9 million for the three months ended 30 June 2020 to approximately S\$0.5 million for the three months ended 30 June 2021. Separately, the gross profit margin after agricultural produce fair value adjustments decreased to approximately 3% for the three months ended 30 June 2021 from approximately 8% for the three months ended 30 June 2020. The gross profit margin before agricultural produce fair value adjustments decreased to approximately 20% for the three months ended 30 June 2021 from approximately 27% for the three months ended 30 June 2020 primarily due to higher operating costs such as animal feeds and imported eggs handling fees.

FINANCIAL REVIEW *(Continued)*

Other (losses)/gains – net – others

The other (losses)/gains – net – others changed by approximately S\$79,000, from net losses of approximately S\$56,000 for the three months ended 30 June 2020 to net gains of approximately S\$23,000 for the three months ended 30 June 2021 primarily due to net currency exchange gains incurred during the three months ended 30 June 2021 as a result of the weakening of the USD against SGD.

Gain arising from initial recognition of agricultural produce at fair value less estimated point-of-sales costs at point of harvest

The gain arising from initial recognition of agricultural produce at fair value less estimated point-of-sales cost at point of harvest increased by approximately S\$0.3 million, or approximately 13% from approximately S\$2.3 million for the three months ended 30 June 2020 to approximately S\$2.6 million for the three months ended 30 June 2021 primarily due to the increase in price of agricultural produce at the point of harvest during the three months ended 30 June 2021.

Gain/(loss) arising from changes in fair value of biological assets less estimated point-of-sale costs

The loss arising from changes in fair value of biological assets less estimated point-of-sale costs changed by approximately S\$1.2 million from loss of approximately S\$0.9 million for the three months ended 30 June 2020 to gain of approximately S\$0.3 million for the three months ended 30 June 2021. Such changes primarily due to a higher number of growers as at 30 June 2020 as compared to the immediate preceding quarter ended 31 March 2021.

Selling and distribution expenses

Selling and distribution expenses increased by approximately S\$0.4 million or approximately 36% from approximately S\$1.1 million for the three months ended 30 June 2020 to approximately S\$1.5 million for the three months ended 30 June 2021 primarily due to the increase in headcount and the enlargement of the delivery fleet to cater for the increase in sales.

Administrative expenses

Administrative expenses increased from approximately S\$0.9 million for the three months ended 30 June 2020 to approximately S\$1.3 million for the three months ended 30 June 2021, primarily due to increase in employee benefits during the three months ended 30 June 2021.
