MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is principally engaged in the sale of baby and children garments by OEM and OBM. In 2021, the threat of the COVID-19 seriously disrupted a wide range of local economic activities and supply chains in the Asian region. The epidemic even evolved into a pandemic during the Period, sending a severe shock to the global economy.

For our OEM business, the Group sells its OEM goods to the customers in Hong Kong and exports to overseas mainly the United Kingdom (the “**UK**”) and the United States of America (the “**US**”). The OEM revenue increased significantly in the Period due to the additional new orders from the new customers.

For our OBM business, the Group sells its OBM goods through the self-operated retail stores and department store counters in Hong Kong and the PRC. During the Period, due to the threat of the COVID-19, OBM revenue in Hong Kong and the PRC have declined significantly.

FINANCIAL REVIEW

Revenue

The Group’s revenue decreased by approximately 5.9% to approximately HK\$18.1 million for the Period as compared to that of approximately HK\$19.3 million for the three months ended 30 June 2020 (the “**Corresponding Period**”). The revenue of the Group’s OEM business increased by approximately 17.7% to approximately HK\$10.9 million for the Period as compared to that of approximately HK\$9.3 million for the Corresponding Period. Such increase was mainly due to the additional new orders from the new customers which were found by our sales team for the Period.

The revenue of the Group’s OBM business decreased by approximately 27.9% to approximately HK\$7.2 million for the Period as compared to that of approximately HK\$10.0 million for the Corresponding Period. Such decrease was mainly due to the willingness of spending by the consumers, which is affected by the pandemic of COVID-19. However, the Group believed that the disbursement of HK\$5,000 electronic consumption vouchers will stimulate the consumers’ spending on the sales products of the Group in coming periods.

Cost of sales, gross profit and gross profit margin

The Group’s cost of sales decreased by approximately 40.2% to approximately HK\$10.1 million for the Period as compared to that of approximately HK\$16.9 million for the Corresponding Period. The Group’s gross profit increased by approximately 2.4 times to approximately HK\$8.0 million for the Period as compared to that of approximately HK\$2.3 million for the Corresponding Period, resulting from the significant decrease in the Group’s cost of sales and it leads the Group’s gross profit margin also increased from 12.1% to 44.1% for the Period.

Expenses

The Group's selling and distribution costs slightly increased by approximately 2.3% to approximately HK\$4.8 million for the Period as compared to those of approximately HK\$4.7 million for the Corresponding Period. Such increase was mainly due to the Company increased the expenses for the promotion and advertising for the purpose to stimulate the sales revenues of the Company. The Group's administrative and other expenses decreased by approximately 37.7% to approximately HK\$6.9 million for the Period as compared to those of approximately HK\$11.0 million for the Corresponding Period. Such decrease was mainly due to the Group's cost controls on operating costs in order to improve the Group's operating performance.

Loss before tax

The Group's loss before tax decreased by approximately 65.0% to approximately HK\$3.8 million for the Period as compared to that of approximately HK\$10.9 million for the Corresponding Period. Such decrease was mainly due to the significant decrease of administrative and other expenses and significant increase of the gross profit during the Period.

DIVIDEND

The Board has resolved not to declare the payment of any dividend for the Period (2020: Nil).

IMPORTANT EVENTS DURING THE PERIOD

On 28 April 2021, Mei Li Hua Children Garment Company Limited ("**Mei Li Hua**"), a company established in the PRC with limited liability and a wholly-owned subsidiary of the Company, received two arbitral awards made by the Arbitration Court of the Zhongshan City Labour Human Resources Disputes Arbitration Commission on 12 April 2021 and 20 April 2021 respectively, in relation to two claims from 200 employees and 86 employees against Mei Li Hau in Arbitration Court for wages and benefit compensation in the sum totalling approximately RMB11,683,000 (equivalent to approximately HK\$13,133,000). After assessment by the management of the Company, a full provision was made for the year ended 31 March 2021 accordingly.

OUTLOOK

Under the economic impacts of COVID-19, there is a significant increase in OEM business of the Group which was mainly due to the effort of our sales team. Looking forward, the Board believes that the performance of OEM business of the Group will be dependent on the pandemic of COVID-19. Besides, persistently tense economic, trade and political relations between the PRC and the US, geopolitical tensions, and global financial market volatility also continue to warrant attention. OEM performance is thus expected to remain under pressure in the coming periods.

OBM sales continued to drop during the Period, as the COVID-19 pandemic and resulting anti-pandemic measures brought inbound tourism to a standstill and seriously disrupted consumption-related activities. The business environment for OBM will remain very difficult in the near term amid the deep economic recession.

The potential impact of the COVID-19 on the global economy is tremendous but still uncertain. Concerns about the impact from the COVID-19 heighten, and these weigh on the corporate earnings and the global economic outlook. The negative effect resulting from the COVID-19 is largely dependent on the situation and the duration of the pandemic development. Future adverse changes in economic conditions would negatively affect the Group's financial position and performance. The Group will continue to monitor the development and the volatile market conditions.

Looking ahead to 2021/2022, in view of present economic uncertainty and difficulties, the Group is reviewing its existing assets structure and business strategies and may make adjustment to our existing assets structure, with the aim to consolidate our resources, so as to be flexibly prepared for uncertainties in the future. At the same time, the Group will strictly adhere to its cost control policy and swiftly adjust business strategies of our business in response to ever-changing market dynamics.

Finally, the Group foresees that global economy will be getting better in year 2021/2022 as a result of the disbursement of HK\$5,000 electronic consumption vouchers from government and the continued COVID-19 vaccination. We will actively explore all suitable investment opportunities to diversify the Group's business horizons and will work hard to strengthen overall business development in order to generate better financial returns for shareholders.
