## MANAGEMENT DISCUSSION AND ANALYSIS

### Interim Dividend

The Board resolved not to declare any interim dividend for the six months ended 30 September 2021 (2020: Nil).

### Industry Overview

#### ***Publication, purchase and distribution of books business (the “Book Distribution Business”)***

In May 2018, the Ministry of Education of the PRC promulgated the Regulation for Libraries in Primary and Secondary School (《中小學圖書館(室)規程》), which stipulates the minimum requirement for book inventory and establishes the book keeping requirement for libraries in primary and secondary schools according to the Recommended Book List and Core Book List for Libraries in Primary and Secondary Schools Nationwide. Authorized provincial agent platforms are responsible for concentrated handling of book procurement requests from provincial primary and secondary schools and places centralized procurement orders with the authorized book procurement entities to address the demand for local primary and secondary education.

#### ***Environmental protection business***

The PRC government has been promulgating various initiatives to support the creation of a consistent environmental quality monitoring network with online and automatic pollution emission and monitoring capabilities. With the rapid growth of demand for environmental monitoring, there is a corresponding need to improve the quality of data monitoring performance which is a key step towards realising smart environment protection. With the gradual implementation of the policies expected to be in place in the coming years, the environment protection and monitoring industry shall witness continuous growth.

### Key Risk Factors and Uncertainties

The following lists out the key risks and uncertainties faced by the Group, which may materially and adversely affect its business, financial condition or results of operations. It is a non-exhaustive list and there may be other risks and uncertainties further to the key risk areas outlined below.

## **MANAGEMENT DISCUSSION AND ANALYSIS** *(Continued)*

### **Key Risk Factors and Uncertainties** *(Continued)*

#### ***Policy risk***

The Group's Book Distribution Business is mainly based on the relevant policy background of the three ministries and commissions, namely the Ministry of Education, the Ministry of Culture, and the National Radio and Television Administration and the China Educational Equipment Industry Association, as well as the All-China Federation of Booksellers and Publishers Chamber. In particular, the Recommended Book List and the Core Book List may be reviewed and updated on an annual basis by the authorities. Meanwhile, the environmental protection business segment is highly regulated in the PRC with various laws, rules and regulations, policies and industry standards in place, such as the 13th Five-Year Plan for Nuclear Safety and Radioactive Pollution Prevention and Control with the Vision 2025 (《核安全與放射性污染防治「十三五」規劃及二零二五年遠景目標》), the Law on Prevention and Control of Radioactive Pollution of the People's Republic of China (《中華人民共和國放射性污染防治法》), the Regulation on Safety and Protection of Radioisotopes and Radioactive Devices (《放射性同位素與射線裝置安全和防護條例》), the Administrative Measures for the Safety Permit for Radioisotopes and Radiation Devices (《放射性同位素與射線裝置安全許可管理辦法》) and the Monitoring Method for Electromagnetic Radiation Environment of Mobile Communication Base Station (《移動通信基站電磁輻射環境監測方法》). Significant changes and adjustments of relevant policies may bring uncertainties to the Group's daily operating environment and market competitiveness. The Group will continue to track the direction of relevant national policies and respond to changes in policies in a timely manner.

#### ***Book quality risk and delivery risk***

If local primary and secondary schools and local education commissions fail to accept books as agreed with the Group, the Group shall bear the risks of book quality and delivery. The Group has agreed on the quality standards and delivery methods of specific category of books in the procurement contracts with book publishers who owns the intellectual property rights of the book under the Recommended Book List and Core Book List (the "Book Publishers"), so that these risks are borne by the Book Publishers to the greatest possible extent.

## **MANAGEMENT DISCUSSION AND ANALYSIS** *(Continued)*

### **Key Risk Factors and Uncertainties** *(Continued)*

#### ***Prepayment risk***

Since the Book Distribution Business requires the Group to make prepayments to the Book Publishers in line with the industry practice, there exists a prepayment risk associated with such practice. To mitigate such risk, the Group generally sources library books from those Book Publishers that are all large-scale publishing groups and have long term business dealings with the Group.

#### ***Receivables collection risk***

End customers of the Book Distribution Business are primary and secondary schools and local education commissions in all areas, and the funds for purchase of books depends on the special appropriation funds from the Ministry of Education of the PRC. Since the appropriation funds are limited and there is time lag of a few months each year, and the authorized provincial agent platforms usually do not make prepayments for purchase of books in line with the industry practice, and there exists risk of bad debts collection. Therefore, the Group closely monitors the book flow and the appropriation funds in all areas, and timely collects the receivables to minimize the collection time.

Nevertheless, during the Reporting Period, the intermittent suspension of classes in primary and secondary schools and the abnormal administrative work of schools throughout the PRC as a result of the outbreak of COVID-19 pandemic led to the delay of business turnover in the first half of the year, as well as the delay in book delivery and collection of receivables. Please refer to the section headed “Business Review – Publication, purchase and distribution of books business” below for details.

### **Business Review**

During the Reporting Period, the Group faced severe challenges caused by the resultant impact arising from the outbreak of the COVID-19 pandemic as it has disrupted the operation of schools and libraries in the PRC. This situation posed temporary adverse impact to the business development of the Group, and the Group will closely monitor the development of the pandemic and continuously assess its impact on its operations.

#### ***Publication, purchase and distribution of books business***

During the Reporting Period, the revenue contributed by such segment was approximately HK\$2.67 million (2020: HK\$246.72 million) from publication, purchase and distribution of books in the PRC.

## **MANAGEMENT DISCUSSION AND ANALYSIS** *(Continued)*

### **Business Review** *(Continued)*

#### ***Publication, purchase and distribution of books business*** *(Continued)*

The significant period-to-period decrease in the revenue of the Group generated from the book publication, purchase and distribution business segment was due to the resultant impact of the COVID-19 pandemic suffered by the industry participants, leading to poor business and financial performance and a generalised slowdown in the settlement of payments and receivables along the industry chain, including those from the Group's downstream customers, namely the book distributors. This in turn was contributed by the intermittent suspension of classes at the schools in the PRC lending to delayed book order and settlement of bills to such book distributors. Please refer to the section headed "Key Risk Factors and Uncertainties – Receivables collection risk" above for details. In response to the situation in the book publication, purchase and distribution industry, the Group had timely launched legal proceedings in the PRC against certain downstream distributors on contractual claims to seek compensation from them. Please refer to the announcement of the Company dated 25 October 2021 for details. Meanwhile, on a prudent capital management perspective, the Group had to continue with its approach to temporarily ease the pace of its operations under this business segment.

#### ***Environmental protection business***

During the Reporting Period, the revenue contributed by such segment was approximately HK\$16.64 million (2020: nil).

The Group commenced recognizing the environmental protection business segment following the acquisition of Shanxi Jinxi Keyuan Environmental Protection Science and Technology Company Limited ("Jinxin Keyuan") in February 2021. Such business segment commenced its substantive operation in March 2021, and its operations have been developing in a progressive manner since then.

### **Financial Review**

During the Reporting Period, the revenue of the Group was approximately HK\$19.31 million (2020: HK\$246.72 million), which HK\$2.67 million was generated from the publication, purchase and distribution of books (2020: HK\$246.72 million), and the revenue of HK\$16.64 million from the environmental protection business. The revenue decreased by approximately HK\$227.41 million or 92.17% as compared with the six months ended 30 September 2020. Please refer to the section headed "Business Review" above for details of the reasons of the period-to-period decrease in the revenue of the Group.

## **MANAGEMENT DISCUSSION AND ANALYSIS** *(Continued)*

### **Financial Review** *(Continued)*

Finance costs incurred during the Reporting Period amounted to approximately HK\$26.50 million (2020: HK\$29.07 million). The period-to-period decrease of approximately 8.85% was mainly due to the lower interest rate under the loan granted by Shanxi Environment when compared to the loan granted by the trust fund in the corresponding period of 2020. Please refer to notes 14 and 16 of the notes to the condensed consolidated financial statements of the Group for the Reporting Period.

Administrative expenses incurred by the Group recorded a period-to-period decrease of approximately 40.33% from approximately HK\$39.31 million for the six months ended 30 September 2020 to approximately HK\$23.46 million for the Reporting Period due to the expiry of the term of the transactions under the financing services framework agreement entered into between the Company and Shanxi Environment Protection Fund Co., Ltd., details of which are further particularized in the section headed “Management Discussion and Analysis – Connected Transactions” in the 2020 interim report of the Company.

Loss attributable to owners of the Company for the Reporting Period amounted to approximately HK\$26.50 million (2020: Loss attributable to owners of HK\$27.52 million). The loss was mainly attributable to the decrease in the revenue generated by the Book Distribution Business of the Group, and partially offset by (i) the increase in the revenue from the expanding operations of the environmental protection business segment; and (ii) the decrease in the finance costs and administrative expenses of the Group during the Reporting Period as mentioned above.

### **Outlook**

The management of the Group will seize the opportunity to promote the development of various businesses and improve the business layout of the Group according to the annual development plan determined by the Board.

In relation to the Book Distribution Business, the Group will continue to strengthen its business foundation, vigorously enhance the effort to urge for early settlement and payment by our downstream customers, reduce the amount of receivables and strive to eliminate the adverse effects caused by the epidemic. Also, the Group will actively advance its cooperation with well-known institutions, such as Shanghai Juvenile Children’s Publishing House Company Limited (上海少年儿童出版社有限公司) to expand its business scale in the cultural industry.

## **MANAGEMENT DISCUSSION AND ANALYSIS** *(Continued)*

### **Outlook** *(Continued)*

The Group will continue to increase the investments in and business scale of environmental protection as well as its support for Jinxin Keyuan to expand the business scale and improve the revenue stream. Meanwhile, the Group will actively explore other environmental protection businesses, with an aim to achieve business breakthrough in the areas of solid disposal and green and ecological rehabilitation, so as to optimize the Group's industrial layout.

During the financial year, subsidiaries of the Group will continue to make efforts in industrial funds and actively cooperate with well-known institutions to seek to establish industrial funds individually or jointly, so as to improve the Group's investment ability.
