(Incorporated in the Cayman Islands with limited liability)

(Stock Code: 8489)

ESTIMATE FOR THE THIRD QUARTERLY RESULTS FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2021

This announcement is made by Grand Power Logistics Group Limited (the “**Company**”, together with its subsidiaries as the “**Group**”) pursuant to Rule 17.10(2) of the Rules Governing the Listing of Securities on GEM (the “**GEM Listing Rules**”) of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) and the Inside Information Provisions (as defined in the GEM Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board (the “**Board**”) of directors (the “**Directors**”) of the Company would like to inform the shareholders (the “**Shareholders**”) and potential investors of the Company that, based on a preliminary review of the unaudited consolidated management accounts of the Group for the nine months ended 30 September 2021 (the “**Q32021**”) and assessment of the latest information currently available to the Board, the Group is expected to record (i) a revenue of approximately HK\$538.1 million for Q32021, as compared to a revenue of approximately HK\$596.4 million for the nine months ended 30 September 2020 (the “**Q32020**”), representing a decrease of approximately 9.8%; and (ii) a net profit of approximately HK\$14.9 million for Q32021, as compared to a net profit of approximately HK\$26.6 million for Q32020, representing a decrease of approximately 44.0%.

The expected decrease in revenue and net profit is mainly attributable to the decrease in selling price of air cargo space in Q32021 as compared to that in Q32020. As disclosed in the interim report of the Company for the six months ended 30 June 2021, there was a steep increase in selling price of air cargo space as compared to previous years due to the exceptional shortage of air cargo space supply in 2020 as a result of the widespread suspension of passenger flight services during the height of the COVID-19 pandemic. As the pandemic eased and flight services resumed in 2021, air cargo space supply increased which resulted in a decrease in selling price of air cargo space against the continuous increase in the cost of freight services along the industry chain, leading to the lowering of the profit margin and thus the expected decrease in the net profit of the Group for Q32021.

The Company is still in the process of finalising the unaudited consolidated results of the Group for Q32021. The information contained in this announcement is only based on the information currently available to the Board and the preliminary review of the unaudited consolidated management accounts of the Group for Q32021, which have not yet been reviewed by the audit committee of the Company and may be subject to adjustments. The actual financial results of the Group for Q32021 may be different from the information disclosed in this announcement. Shareholders and potential investors of the Company are advised to read carefully the results announcement of the Company for Q32021, which is expected to be published on 10 November 2021.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.
